6. INTERVIEWS WITH DELEGATIONS

**6.1 Presentation: Vredebes Incremental Housing
(17/04/1/1/1)**

Item 5.1 of the meeting of the Committee for Housing Matters, held on 24 June 2021, refers.

Ms Karen Siebrits from Messrs ASLA made a presentation in respect of incremental housing, which is attached as **annexure 6.1**.

The Department of Human Settlements has noted the densification of informal settlements and is looking at the decanting thereof with the proposed incremental housing.

Vredebes has been identified as the Pilot Project and therefore the enhanced serviced sites are earmarked as part of Phase H.

It is noted that the proposal includes church and crèche sites, but that persons earning more than R7 000-00 also have the option of purchasing a plot.

The Committee for Housing Matters resolved on 24 June 2021 to recommend to the Executive Mayoral Committee and Council that Messrs ASLA presents the concept of incremental housing to Council at the next Council meeting.

A presentation will be made by Messrs ASLA.

- (d) April 2021: **Annexure 8.1.1(d)**

The Director: Financial Services submitted the Section 71 Monthly Budget Statement Reports of Directorate Finance for January and February 2021 and highlighted the following:

- R130 million currently in the bank account; the revenue situation stays the same.
- Underperformance on the Capital Budget in respect of expenditure. The Tulbagh Dam is the major reason for the problem; the municipality still awaits the water license.
- On a question the Director: Financial Services responded that the difference of 12 % in income equals approximately R4 million.
- The municipality experiences a delay in the payment for municipal services by some state departments.
- There is a delay in the registration of indigent applications, but the matter is attended to.

The Committee for Corporate and Financial Services resolved on 22 April 2021 to recommend to the Executive Mayoral Committee and Council:

that the Committee for Corporate and Financial Services takes notice, after consideration, of the content of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for January and February 2021 and same be approved and accepted.

The Quarterly Budget Statement [Section 52(d)] Report for the Third Quarter of 2020/2021 is attached as **annexure 8.1.3**.

Extract from the Municipal Public Accounts Committee minutes of 28 April 2021:

“The Director: Finance tabled the Quarterly Budget Statement [Section 52(d)] report for the third quarter of 2020/2021 (1 January 2021 until 31 March 2021). The following were highlighted:

- TechEl137: that the electrification of meter processes are in progress in Nduli. Approximately 600 persons are paying for the services and about 30 meters are installed per day. The project will move thereafter to Pine Valley, Wolseley due to a lack of manpower. The backyard dwellers in particular are very happy with this method.
- FinAdm11: Financial viability expressed outstanding debtors. Still struggling with communities to pick up the payment process due to COVID-19. Public meetings were held and people come to the offices for arrangements. Struggling with the low target to the Deeds Office. Matter outside control of the municipality. People also slow to come to the municipal offices.”

Agenda: Raadsvergadering 28 Julie 2021
Agenda: Council meeting 28 Julie 2021

“Purpose

The purpose of this memorandum is to submit the Quarterly Budget Statement to Council for information.

Background

The Quarterly Budget [Section 52(d)] Report for the 4th quarter of 2020/2021 is attached as **annexure 8.1.4**.

RECOMMENDED

- (a) that notice be taken of the Quarterly Budget [Section 52(d)] for the period 1 April 2021 to 30 June 2021.*
- (b) that the report be referred to the Municipal Public Accounts Committee and the Performance, Risk and Audit Committee for their recommendations to Council.*

8.1.5 Mid-year Budget Statement and Performance Assessment (Section 72) Report for 2020/2021: 1 July 2020 until 31 December 2020 (9/1/1 & 5/1/5/13)

The following items refer:

- (a) Item 8.1.12 of the Council meeting, held on 27 January 2021.
- (b) Item 7.2 of the Municipal Public Accounts Committee meeting, held on 19 March 2021.
- (c) Item 6.3 of the Performance, Risk and Audit Committee meeting, held on 21 May 2021.

The following memorandum, dated 20 January 2021, was received from the Director: Finance:

"Purpose

The purpose of this report is to submit the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020 to Council for information.

Legislature framework

In terms of Section 72 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003):

- (1) The accounting officer of a municipality must by 25 January of each year –
- (a) Assess the performance of the municipality during the first half of the financial year;
 - (b) Submit the report to the Mayor, National Treasury and Provincial Treasury.'

The mayor must, in terms of Section 54(1)(f) of the act submit the report to the Council by 31 January of each year.

Discussion

The Mid-year report for the 2020/2021 financial year is attached as **annexure 8.1.5."**

Council unanimously resolved on 27 January 2021:

- (a) that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020.
- (b) that the report be referred to the Municipal Public Accounts Committee and Performance, Risk and Audit Committee of Council for their recommendations to Council.

Extract from the minutes of the Municipal Public Accounts Committee meeting, held on 19 March 2021:

"The Municipal Manager reported that in terms of performance there was underperformance, but by year-end that the targets will be addressed. In this regard Council already adjusted the budget.

A Municipal Public Accounts Committee member was of the opinion that in terms of the underperformance that Council must consider the applicable performance bonuses of Senior Management."

The Municipal Public Accounts Committee resolved on 19 March 2021 to recommend to Council that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for 2020/2021 for the period 1 July 2020 until 31 December 2020 and, after consideration, same be approved and accepted.

Extract from the minutes of the Performance, Risk and Audit Committee meeting, held on 21 May 2021:

"The Director: Finance tabled the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020. The following matters were highlighted:

- Improvement of credit control since ceasing of COVID-19 lockdown:
No credit control instituted until end of December 2020. Matter taken in January 2021 to the communities and first cut-off of electricity started in May 2021 with those who did not make arrangements with the municipality. The collection rate has increased noticeable since December 2020.
- Impact of renewable energy on municipal revenue:
ESKOM cannot currently provide enough electricity to the municipality, therefore a consultant was appointed to investigate the various options for renewable energy. A business is currently approved to create renewable energy on condition that all excess energy be sold to the municipality on a tariff basis. The energy is sold by the municipality on a profit basis. Municipal policy only allows 15 % energy for the needs of a business in order to protect the revenue of the municipality. The report from the consultant is still awaited. ESKOM postponed the upgrade for energy from 2021 until 2030. The matter was escalated to the provincial and national government for assistance to help the municipality."

The Performance, Risk and Audit Committee resolved on 21 May 2021:

- (a) that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020.
- (b) That the Performance, Risk and Audit Committee recommends to Council:

that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020 and, after consideration, same be approved and accepted.

RECOMMENDED

that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020 and, after consideration, same be accepted.

8.1.6 Draft IDP and Budget Process Plan for 2022 to 2027 (02/02/1)

In terms of Section 28 of the Municipal Systems Act (Act 32 of 2000), Council must adopt an IDP and Budget Process Plan. The Municipal Finance Management Act (Act 56 of 2003) further stipulates that at least ten months before the start of the budget year, the Executive Mayor should table a time schedule outlining key deadlines in respect of the IDP/Budgetary process.

Section 29 of the Municipal Systems Act (Act 32 of 2000), specifies that such a Process Plan must include:

- Programs that set out timeframes for the different planning steps;
- Appropriate mechanisms, processes and procedures for consultation with:
 - Local communities, both in terms of needs and priorities as well as consultation during development;
 - Organs of state, traditional authorities, and other role-players in the drafting process; and
- Binding plans and planning requirements, i.e. policy and legislation.

National Treasury has provided further guidance by the issuing of MFMA Circular 10. That circular provides specific guidance with regard to six distinct steps in compilation of the IDP and the annual Budget. The table below highlights these steps, with a brief description of each step:

Steps	Process
1 Planning	Schedule dates, establish consultation forums, review previous processes
2 Strategizing	Review IDP, set service delivery objectives for next 3 years, consult on tariffs, indigents, credit control, free basic services etc., and consider local-, provincial- and national issues, the previous year's performance and current economic and demographic trends etc.
3 Preparing	Prepare Budget, revenue and expenditure projections; draft Budget policies; consult and consider local-, provincial- and national priorities
4 Tabling	Table draft Budget, draft IDP and Budget-related policies before council; consult and consider local-, provincial- and national inputs or responses
5 Approving	Council approves the IDP, the Budget and related policies
6 Finalising	Publish the IDP, Budget and approve the SDBIP and performance targets

In capturing the above steps, this IDP & Budget Process Plan seeks to address, *inter alia*, the:

- Identification of areas requiring additional attention in terms of legislative requirements, proper planning processes and sound financial management;
- Inclusion of the most current Census and own statistical data;

- Consideration and review of any other relevant and new information;
- Addressing comments received from the various role-players;
- Factor-in the shortcomings and weaknesses identified through self-assessment;
- Preparation and review of sector plans and its alignment with the IDP;
- Preparation and review of the Performance Management System (PMS);
- Updating of the 5-year Financial Plan; and
- Finalisation of the annual Budget and IDP in terms of the relevant legislation.

Pursuant to the above statutory requirements, a Process Plan for the 2022 to 2027 IDP and Budget cycle is attached as **annexure 8.1.6**.

RECOMMENDED

that notice be taken of the Draft Review IDP and Budget Process Plan for 2022/2027.

8.1.7 Open letter: Witzenberg Justice Coalition (5/12/P)

The following memorandum, dated 20 July 2021, was received from the Municipal Manager:

“Purpose

To consider the open letter of the Witzenberg Justice Coalition and to formulate an appropriate response thereto.

Background

The Department Finance has in May 2021 started to implement the Credit Control Policy of Council to improve the collection rate which has declined to 88 % for the 2019/2020 financial year. This is a direct result of the COVID-19 pandemic and the initial Disaster Regulations to suspend of all credit control actions. This has, however, been lifted by the National Department of COGTA. Despite various public sessions with the community to engage with the Finance Department for financial arrangements the collection rate has failed to increase. National and Provincial Treasury have expressed concern on the financial sustainability of the municipality. This has forced the hand of the Administration to implement credit control to prevent a further decline in the collection rate of the municipality. The Witzenberg Justice Coalition has now written an open letter to the municipality demanding that the credit control measures be suspended. A copy of the letter is attached as **annexure 8.1.7.**”

RECOMMENDED

For consideration.

**8.1.8 Finance: Adjustment budget 2021/2022
(5/1/1/20)**

The following documents are attached:

- (a) Memorandum from Director: Finance, dated 21 July 2021: **Annexure 8.1.8(a)**.
- (b) Adjustment budget 2021/2022 – 2023/2024: **Annexure 8.1.8(b)**.

RECOMMENDED

That the adjustment budget of Witzenberg Municipality for the financial year 2021/2022 as set out in the budget documents be approved:

- (i) *Table B1 – Budget summary.*
- (ii) *Table B2 - Adjustments Budget Financial Performance (by standard classification).*
- (iii) *Table B3 – Budgeted Financial performance (Revenue and Expenditure) by Vote.*
- (iv) *Table B4 - Adjustments Budget Financial Performance (revenue by source).*
- (v) *Table B5 – Budgeted Capital Expenditure by Vote, standard classification and funding.*

**8.1.9 Validity period of General Valuation roll
(5/2/10)**

The following memorandum, dated 21 July 2021, was received from the Director: Finance:

“Purpose

The purpose of this report is to submit proposed extension of the current General Valuation period for consideration to Council.

Legal framework

Section 32 of the Local Government: Municipal Property Rates Act No.6 of 2004 determines as follow:

`Commencement and period of validity of valuation rolls.

- (1) A valuation roll -
 - (a) takes effect from the start of the financial year following completion of the public inspection period required by Section 49; and
 - (b) remains valid for that financial year or for one or more subsequent financial years as the municipality may decide, but in total not for more than —
 - (i) four financial years in respect of a metropolitan municipality; and
 - (ii) five financial years in respect of a local municipality.'

Valuation rolls were only valid for four financial years, before the amendment of the act.

Discussion

The public notice of the general valuation was advertised on 8 December 2017.

The municipality initially advertised for a 4-year valuation roll period as per Provincial Gazette Notice published on 8 December 2017. The municipality advised therein that the valuation roll will be valid for the financial years 2018/2019 to 2021/2022.

The valuations took effect from the 2018/2019 financial year.

The current general valuation roll can therefore be used for the following five financial years:

- Year 1: 2018/2019
- Year 2: 2019/2020
- Year 3: 2020/2021
- Year 4: 2021/2022
- Year 5: 2022/2023"

RECOMMENDED

- (a) *That the current valuation roll be used up to the 2022/2023 financial year.*
- (b) *That the process to appoint a new service provider for a new general valuation roll to be implemented from 1 July 2023.*

**8.2.3 100 MW Licencing threshold embedded generation limit:
Implications for Council
(16/3/4/1)**

Item 7.2.3 of the Executive Mayoral Committee meeting refers.

The following memorandum, dated 17 June 2021, was received from the Senior Manager: Electro-Technical Services:

“Purpose

The purpose of this report is to inform Council of the implications of the recent 100 MW licencing limit on embedded generation energy for Witzenberg.

Background

On 10 June 2021 the South African Presidency announced an amendment to Schedule 2 of the Electricity Regulation Act 4 of 2006. The licencing threshold will now be moved from the previously gazetted 1 MW to 100 MW. This potentially enables IPP's (Independent Power Producers) to ultimately mitigate the effects of ESKOM capacity constraints that are resulting in load shedding.

For the country this is regarded as very good news since it was the many applications lodged with NERSA for licences for the 1 MW that was causing a bottleneck with no movement. Now, IPP's with a capacity of up to 100 MW can supply power to the ESKOM network, as long as they are registered with NERSA (no licence required) as long as they comply with NERSA's minimum requirements such as grid-code compliance, connection approvals and wheeling agreements.

For Witzenberg it unfortunately does not solve our 'limited capacity' challenges. Because the ESKOM network feeding Witzenberg is the weakest link, there is no way the network can accommodate any increase in capacity from an IPP or even ESKOM. The only feasible option here would be if an IPP or Witzenberg were to install PV and BESS (Battery Energy Storage Systems) in close vicinity of our main in-feed points of Bon Chretien and Ceres Substation.

There is, however, one positive spinoff, in that instead of purchasing power from ESKOM exclusively, the opportunity now exists to be able to purchase a portion of our power requirements from an IPP at a cheaper rate than ESKOM. Depending on the terms of the wheeling agreement negotiated with any particular IPP, this may have financial benefits for Witzenberg, financial benefits that could be passed on to our consumers by means of reduced tariffs.

A quick note on wheeling. Wheeling is the process by which an electricity supplier (IPP) provides an electricity supply to a customer via another supplier's network. Typically an IPP would pay both ESKOM and the municipality a wheeling charge for the use of their network. The IPP would usually approach a large consumer within a municipality and offer them 'green' energy at a tariff cheaper than ESKOM. The IPP is then responsible for paying the wheeling costs of whoever networks they use. We at Technical are, however, of the opinion that the IPP must rather supply this energy to the municipality as a customer and then we can redistribute it to our larger consumers that are interested in procuring green energy."

The following recommendation is tabled to the Executive Mayoral Committee:

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the report regarding the implications of the recently announced increased 100 MW limit on the licencing threshold for power producers.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the report regarding the implications of the recently announced increased 100 MW limit on the licencing threshold for power producers.

8.2.4 Amazing Pies expansion and purchase of erf 8339, Ceres (Adjacent to Vilko) (16/03/04/1)

The following items refer:

- (a) Item 7.1 of the meeting of the Committee for Technical Services, held on 15 June 2021.
- (b) Item 7.2.4 of the Executive Mayoral Committee meeting.

A memorandum from the Director: Technical Services and the Senior Manager: Electro-Technical Services, dated 29 April 2021, is attached as **annexure 8.2.4**.

The Committee for Technical Services resolved on 15 June 2021:

That the Committee for Technical Services recommends to the Executive Mayoral Committee and Council:

- (a) that Council notes the intention of Amazing Pies to move their existing business to erf 8339, Ceres.

- (b) that Council approves the upgrade of the existing three phase 50 kVA connection on erf 8339, Ceres to 242 kVA on the condition that they not exceed their base load of 50 kVA during Council's peak electrical demand periods.
- (c) that supra (b) is subject to the following:
 - (i) that the installation, at own cost of the applicant, of a suitable Power Management System that automatically disconnects the main power supply to the premises should the load not be below the allocated 50 kVA during the municipality's peak demand periods.
 - (ii) that a submission by the applicant, at own cost, to increase the available capacity at erf 8339 from 50 kVA to 242 kVA.
 - (iii) that the mentioned Power Management System must be installed, maintained and operated to the satisfaction of the Director: Technical Services as far as it is meant to achieve the goal of staying out of the municipality's peak demand.
 - (iv) that the Power Management System must remain operational until such time that the capacity constraints due to Eskom are fully addressed or approval is granted by the Director: Technical Services that this system can be disabled / removed.
 - (v) that the Amazing Pies current landlord completes an application form to reduce his current allocation from 90 kVA to 60 kVA (100 A three phase).

The following recommendation is tabled to the Executive Mayoral Committee:

That the Executive Mayoral Committee recommends to Council:

- (a) that Council notes the intention of Amazing Pies to move their existing business to erf 8339, Ceres.

- (h) Item 7.3.2 of the Executive Mayoral Committee meeting still to be held.

A memorandum from the Manager: Environment and Amenities, dated 8 September 2020, is attached as **annexure 8.3.1(a)**.

The Committee for Community Development resolved on 10 September 2020 to recommend to the Executive Mayoral Committee and Council:

- (i) that Council approves the planned expansion of the clubhouse.
- (ii) that Council concludes a long-term lease agreement with the Bowling Club.

The following recommendation was tabled to the Executive Mayoral Committee:

That the Executive Mayoral Committee recommends to Council:

- (i) that Council approves the planned expansion of the clubhouse.
- (ii) that Council concludes a long-term lease agreement with the Bowling Club.

The Executive Mayoral Committee resolved on 23 November 2020 to recommend to Council that the matter in respect of the planned expansion of the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres be held in abeyance until the next meeting.

Council unanimously resolved on 25 November 2020 that the matter in respect of the planned expansion of the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres be held in abeyance until the next meeting pending further information.

The following recommendation was tabled to the Executive Mayoral Committee:

That the Executive Mayoral Committee recommends to Council:

- (i) that Council approves the planned expansion of the clubhouse.
- (ii) that Council concludes a long-term lease agreement with the Bowling Club.

The Executive Mayoral Committee resolved on 14 December 2020 to recommend to Council that the matter in respect of the planned expansion of the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres be held in abeyance to obtain more information and after that be tabled again to the Executive Mayoral Committee.

Council unanimously resolved on 17 December 2020 that the matter in respect of the planned expansion of the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres be held in abeyance to obtain more information and after that be tabled again to the Executive Mayoral Committee.

Input by Municipal Manager:

"The service provider will be appointed by the Adjudication Committee on 26 March 2021, after which the necessary instructions will be given to the valuator. The valuation will be tabled at the Council meeting for consideration."

The Executive Mayoral Committee resolved on 29 March 2021 to recommend to Council that the matter in respect of the planned expansion of the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres be held in abeyance awaiting further information.

The Municipal Manager informed the meeting that the valuator had completed the valuation and that the report is awaited.

The Executive Mayor requested that the Administration ensures that the municipality complies with the relevant supply chain processes and legislation and that the Executive Mayoral Committee is not in breach with legislation.

The Executive Mayoral Committee resolved on 29 March 2021 to recommend to Council that the matter in respect of the planned expansion of the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres be held in abeyance awaiting further information.

Council unanimously resolved on 31 March 2021:

- (a) that the Municipal Manager investigates the option of leasing the Ceres Bowling Clubhouse on erf 1198, Phillip Street, Ceres and not only the sale thereof.
- (b) that the matter supra (a) be held in abeyance until the next meeting.

Input by Municipal Manager on 18 May 2021:

"A professional valuer in terms of Section 20(2)(a) of the Property Valuers Profession Act, 2000 was duly appointed in terms of Council's Supply Chain process and Mr Hendrik Coenraad Botha of HCB Property Valuations compiled a rental valuation report on erf 1198, Ceres of which a copy is attached as **annexure 8.3.1(b) (Confidential)**.

In terms of the Valuation Certificate the market related rental on the property is determined at R2 300 per month. Regulation 40(c) of the Supply Chain Management Regulations as published in Government Gazette 27636 of 30 May 2005 provides:

- '(i) Immovable property is let at market related rates except when the public interest or the plight of the poor demands otherwise;'

The Bowling Club indicated that they are one of the few sport organisations within Witzenberg that is open for all of the racial groups within the municipal jurisdiction. Most of their members are from the elderly grouping of society as well as a component the youth segment. They raise their monies from various activities and have limited income and cannot afford to pay a large amount of rental. They are non-profit driven and pride themselves in maintaining the facility on behalf of Council for which they have received accolades for the immaculate condition of inter alia the bowling turf. The Bowling Club requests that Council considers levying a nominal rental fee."

8.3.2 Proposed By-Law: Municipal parks and open spaces (1/3/R)

The following memorandum, dated 21 July 2021, was received from the Municipal Manager:

"Purpose

To consider the tabling of the proposed By-Law on Public Parks and Open Spaces and to approve that same be published for comments and public participation.

Background

Section 156 of the Constitution provides that a municipality has executive authority in respect of, and has the right to administer, local government matters listed in part B of schedule 4 and part B of schedule 5.

Part B of schedule 5 includes public places and municipal parks and recreation.

Section 151(3) provides that a municipality has the right to govern, on its own initiative, the local government affairs of its community, subject to national and provincial legislation, as provided for in the Constitution.

The said Constitution confers on the municipality the authority to regulate matters within its jurisdiction by way of by-laws. In recent times the municipality has received a lot of complaints of activities at its parks and open spaces. During a meeting with a delegation of Ward 5 it was brought to the attention of the municipality that play parks are being used for illegal activities such as drinking of alcohol, smoking of illegal substances, organised rugby, soccer and cricket events as well as playing of golf. Whenever the neighbouring residents engage with the users of the municipal parks there are various threats of violence, vandalism and/or intimidation. There are no municipal processes and/or by-laws in place that can adequately address the problems associated with the municipal parks.

A draft by-law, dealing with the problems associated with our municipal parks, have been prepared for Council's notice and public comments and participation. A copy of the draft by-law is attached as **annexure 8.3.2**. The by-law will be translated in all three languages and the public will be invited to make comments for Council's consideration.

Legal implications

Law Enforcement can only effectively ensure compliance if there is a by-law in place, authorising them to impose fines and/or affect an arrest in the event of non-compliance. The Constitution and the Systems Act authorise the Council to pass a by-law after certain conditions are met.

Financial implications

None.”

RECOMMENDED

- (a) that notice be taken of the By-Law on Public Parks and Open Spaces.*
- (b) that Council approves that the by-law be published for public comments and that same be referred back to Council for further consideration.*

8.3.3 Request for financial support for CCTV security cameras (17/7/5)

The following memorandum, dated 20 July 2021, was received from the Municipal Manager:

“Purpose

To consider a request from Tulbagh Rural Safety for the cost of the installation of CCTV cameras at certain strategic points in Tulbagh.

Background

A request has been received from Tulbagh Rural Safety, a registered NGO, for financial support for the installation of CCTV cameras at the access routes to Witzenville and Chris Hani. A copy of the letter is attached as **annexure 8.3.3**.

Tulbagh Rural Safety provides security and patrol services free of charge to the community of Tulbagh. They have been supported in the past by both the Department of Community Safety as well as Cape Winelands District Municipality. The NGO is requesting the municipality for assistance with the installation of CCTV cameras as highlighted in their letter and will the important access roads of Tulbagh be fully covered from a security perspective.

Financial implications

The NGO is requesting an amount of R96 000. This has not been budgeted for, but if Council approves, funds from the operational budget will be shifted to accommodate the request.

Legal implications

A Service Level Agreement will be concluded to manage the effectiveness and efficiency of any agreement between the municipality and Tulbagh Rural Safety.”

RECOMMENDED

8.4.1 Council matters: Policy: Conferment of Aldermanship on Councillors (3/P)

The Policy on the Conferment of Aldermanship on qualifying councillors of Witzenberg Municipality was tabled at the Council meeting of 22 June 2011. Council resolved at the said meeting that the policy be workshopped, but it was erroneously considered to have been adopted.

The said policy is attached as **annexure 8.4.1**.

RECOMMENDED

that the Policy on the Conferment of Aldermanship on Councillors of Witzenberg Municipality be workshopped by Council and after that be tabled to Council for approval and adoption.

8.4.2 Sale of municipal land: Erf 622, Wolseley (7/1/4/2)

The following items refer:

- (a) Item 7.4.4 of the Executive Mayoral Committee meeting, held on 23 November 2020.
- (b) Item 8.4.10 of the Council meeting, held on 25 November 2020.
- (c) Item 7.4.1 of the Executive Mayoral Committee meeting, held on 14 December 2020.
- (d) Item 8.4.6 of the Council meeting, held on 17 December 2020.
- (e) Item 8.4.3 of the Council meeting, held on 27 January 2021.
- (f) Item 7.4.1 of the Executive Mayoral Committee meeting, held on 22 February 2021.
- (g) Item 7.4.2 of the Executive Mayoral Committee meeting still to be held.

The following memorandum, dated 18 November 2020, was received from the Municipal Manager:

"Purpose

To consider the request of Lotus South African Manufacturing to purchase the remainder of erf 622, Wolseley and to make a recommendation to Council accordingly.

Deliberation

Council sold a portion of erf 622, Wolseley to Grassroots (Pty) Ltd as per Council resolution 8.4.8 of 5 December 2017 for the construction of an agri-processing facility. Grassroots restructured their company and amalgamated with Lotus South African Manufacturing which effectively took over the operations.

The facility was duly constructed and is currently creating 300 permanent job opportunities for employees. The said company is procuring 90 % of its raw materials (with a monetary value exceeding R35 million per annum) from local suppliers in the Witzenberg region. The company has now approached the municipality with a request that Council considers selling the remainder of erf 622, Wolseley to Lotus. A Google map reflecting the remainder of the said erf is attached as **annexure 8.4.2(a)**.

In terms of a letter received from Lotus the acquisition of adjacent land will allow them to start with the second phase of their manufacturing facility. This will provide 60 more employment opportunities and will ultimately provide 600 permanent job opportunities. The total investment for phase 1 is approximately R100 million. The value for the phases 2 and 3 development is a projected R140 million.

In terms of their future planning phase 4 extension is then planned for 2026. The phases of their development is set out in the said letter, attached as **annexure 8.4.2(b)**.

The company has also pronounced its investment for the SA Investment Conference, which is a presidential initiative and in terms of a declaration by the Managing Director they confirm an investment of R279 million over the period 2019 – 2021. A copy of the Project Announcement is attached as **annexure 8.4.2(c)**.

"Stadsbeplanning

1. Geen beswaar in beginsel teen die voorstel aangesien dit uitbreiding behels van 'n bestaande aanleg binne die urban edge.

4. As deel van die hersonering proses sal van die applikant verwag word om bevestiging te kry by DEADP of EIA nodig sal wees al dan nie.

Elektries

Die aansoeker se kragbehoefte is soos volg:

1 - 2 jaar	350kVA
3 - 5 jaar	350kVA
6 - 9 jaar	300kVA

Dit is 'n totaal van 1 MVA ekstra, waar Wolseley se totale Max Dem huidiglik 4,3 MVA is, met n NMD van 4,5MVA. 'n Aansoek vir 'n ekstra 0,7 MVA is in 'n gevorderde stadium, maar hierdie sal die 'natuurlike groei' oor die volgende jare moet dra.

ESKOM se toevoer netwerk in die gebied is versadig en hulle het huidiglik nie die vermoë om enige addisionele kapasiteit aan die Stadsraad te voorsien nie.

Ons is ook nie bewus van enige ESKOM planne om hulle netwerk te versterk nie in die kort- tot langtermyn nie.

Hierdie ontwikkeling is egter n groot aanwinst vir Wolseley!

Elektries se opinie is dat die ontwikkelaar van die volgende moet kennis neem:

- ◆ Weens ESKOM se reeds versadige netwerk kan Witzenberg ongelukkig nie 'n vergroting in die ontwikkelaar se huidige aansluiting toelaat nie.
- ◆ Die ontwikkeling mag aangaan mits die huidige toegelate aansluiting van 500 kVA nie oorskry word nie.
- ◆ Die ontwikkelaar sal toegelaat word om van SSEG en / of opwekkers gebruik te maak vir die nuwe uitbreidings. (Nodige aansoeke moet voltooi word)

Water en Riolering

Die GLS kapasiteitsondersoek waarna verwys word in die skrywe is gedoen op die huidige ontwikkeling te erf 4109 (Bear 1, 2 en 3) en is derhalwe nie van toepassing op hierdie aansoek nie alhoewel die verslag uitgewys het dat genoegsame kapasiteit beskikbaar is met geringe opgraderings nodig. 'n Nuwe GLS kapasiteitsondersoek sal egter nodig wees vir die restant van erf 622 waarvoor nou aansoek gedoen word.

Strate en Stormwater

Financial implication

COVID-19 has had a severe negative impact on the whole of South Africa. The National Government as well as Provincial Government have initiated economic recovery plans to stimulate the economy of South Africa. The Witzenberg Municipality is in dire need to expand its income base and additional job opportunities will be critical in the economic recovery of Witzenberg.

The collection rate of the municipality has dropped from 94 % to 86 % . If Council decides to sell the remainder of erf 622, Wolseley it will provide direct additional income in terms of rates as well as certain municipal services. More people will also be provided with job opportunities which will minimise our unemployment rate and pressure on our indigent database. The remainder of the erf must still be valued by a registered valuator who will be appointed if Council decides to sell.

Legal implication

Regulation 40 of the Municipal Supply Chain Management Regulations stipulates that immovable property may only be sold at market related prices except where the public interest or the plight of the poor demands otherwise.

Section 14 of the Local Government Municipal Finance Management Act stipulates that a municipality may not transfer ownership as a result of a sale or permanently dispose of a capital asset if that asset is needed to provide the minimum level of basic services. Council may transfer ownership in a meeting open to public if it has decided on reasonable grounds that the asset is not needed to provide the minimum level of basic services.

The Constitution of the Republic of South Africa requires the supply chain of government to be fair, equitable and transparent. In terms of the Municipal Asset Transfer Regulations a municipality may transfer or dispose of a non-exempted capital asset only after the Accounting Officer has in terms of Regulation 6 conducted a public participation process. This is, however, applicable where the value of the asset is more than 5 % of the total asset value of Council. This is not applicable in this instance and will Council's decision still be published in the local newspaper to draw the public's attention to the sale and to consider any objections, if necessary."

The Executive Mayoral Committee resolved on 23 November 2020 to recommend to Council that Messrs Lotus South Africa Manufacturing be invited to make a presentation at the next Executive Mayoral Committee meeting in respect of their request for the sale of municipal land (erf 622) in Wolseley.

Council unanimously resolved on 25 November 2020 that Messrs Lotus South Africa Manufacturing be invited to make a presentation at the next Executive Mayoral Committee meeting in respect of their request for the sale of municipal land (erf 622) in Wolseley.

The Executive Mayoral Committee resolved on 14 December 2020 to recommend to Council:

- (a) that the matter in respect of the sale of municipal land, namely erf 622, Wolseley, be held in abeyance until the next meeting.
- (b) that the Municipal Manager tables the previous resolutions of Council in respect of the matter at the next meeting in order to ensure an informed decision.

Council unanimously resolved on 17 December 2020:

- (a) that the matter in respect of the sale of municipal land, namely erf 622, Wolseley, be held in abeyance until the next meeting.
- (b) that the Municipal Manager tables the previous resolutions of Council in respect of the matter at the next meeting in order to ensure an informed decision.

Council unanimously resolved on 27 January 2021 that the matter in respect of the sale of municipal land, erf 622, Wolseley, be held in abeyance for submission of previous resolutions to the Executive Mayoral Committee and after that be tabled to Council again.

Council resolution 8.4.8 of 5 December 2017 is attached as **annexure 8.4.2(d)**.

The meeting requested the Municipal Manager to obtain a legal opinion in respect of the procurement process in order to ensure that the municipality is in line with legislation.

The Executive Mayoral Committee resolved on 22 February 2021 that the matter be removed from the agenda.

Input of Municipal Manager on 18 May 2021:

"An advocate's opinion was duly obtained as per Council's instruction. A copy of the opinion is attached as **annexure 8.4.2(e) (Confidential)**. Advocate LF Wilkin advised that Council is allowed to dispose of municipal properties as suggested in the current item. This is, however, subject to the proviso that such sales only take place at market value where feasible and where the public interest and the needs of the poor demand it. There needs to be a public participation process and this should be the exception and not the norm. The same principle will also apply to rental properties. The Administration will be amending the Supply Chain Policy to give clear guidelines under which circumstances sales and/or rentals will be referred to Council."

RECOMMENDED

For consideration.

8.4.3 Proposed Council meeting program: July until October 2021 (3/1/2/3)

Item 7.4.3 of the Executive Mayoral Committee meeting refers.

The following memorandum, dated 29 June 2021, was received from the Manager: Administration:

1. Purpose

To obtain the approval of the Executive Mayoral Committee as well as Council for the proposed Council meeting program for July until October 2021.

2. For decision

Council.

3. Executive summary

The Council meeting program and meeting schedule for July until October 2021 is attached as **annexure 8.4.3(a)**. The program is essentially similar to that of 2020. It is recommended that the attached program for the period July until October 2021 be approved. SALGA and the Western Cape Government have requested that municipalities finalise their own Council calendar dates in order for them to synchronise dates with everybody. The Western Cape Government meetings calendar for 2021 is attached as **annexure 8.4.3(b)**.

Council is requested to approve the meeting program for July until October 2021. The Council meeting program of the Witzenberg Municipality has been synchronised with the meeting dates of the Cape Winelands District Municipality and is now submitted to Council for approval.

4. Discussion

4.1 Background and discussion

In terms of Section 19 of the Local Government Municipal Systems Act (Act 32 of 2000) the Municipal Manager must give notice to the public in a manner determined by the Municipal Council of the time, dates and venues of every ordinary meeting of the Council and special or urgent meetings of the Council except when time constraints make this impossible.

Council resolved at its meeting during January 2021 to finalise Council and Committee meeting dates only until June 2021.

The proposed Council meeting program for July until October 2021 provides the list of scheduled meetings of Council, the Executive Mayoral Committee, the various Section 80 Committees, Municipal Public Accounts Committee (MPAC), Performance, Risk and Audit Committee (PRAC), the Local Labour Forum (LLF) and the Senior Management with the applicable time, date, venue or modus of the meetings.

Senior Management meetings are once again proposed to be held every Monday, Section 80 Committee meetings on the third Wednesday and Thursday of every month, but meetings of the Committee for Housing Matters on the last Thursday of the month, Council workshops on the day prior to the Council meeting and Council meetings on the last Wednesday of the month, depending on specific circumstances. Council meetings are also synchronised with the Council meetings of the Cape Winelands District Municipality. Meetings of the Executive Mayoral Committee are scheduled twice a month. All meetings can be held virtually or in contact depending on the COVID-19 Regulations and circumstances at the time.

Due to the planned local government elections in October 2021 the new incoming Council may make new decisions in respect of the schedule for Council meetings.

4.2 Constitutional and policy implications

Compliance with COVID-19 Regulations in case of contact meetings and compliance with municipal IT Policy in case of virtual meetings.

4.3 Environmental implications

This program has no environmental implications.

4.4 Financial implications

The monthly Council meetings are published in the local community newspaper, the cost of which is duly budgeted for.

4.5 Legal implications

In terms of Section 19 of the Local Government Municipals Systems Act (Act 32 of 2000) the Municipal Manager must give notice to the public in a manner determined by the Municipal Council of the time, date and venue or modus of every ordinary meeting of the Council and special or urgent meetings of the Council except when time constraints make this impossible.

Council meetings are planned for every month except for September 2021 and this exceeds the minimum requirement of one meeting per quarter as prescribed.

All legislative and policy requirements are complied with.”

The following recommendation is tabled to the Executive Mayoral Committee:

That the Executive Mayoral Committee recommends to Council:

that the proposed Council meeting program for July until October 2021 be approved.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that the proposed Council meeting program for July until October 2021 be approved.

**8.4.4 Draft Ward Committee Policy
(3/3/P)**

The following report, dated 19 July 2021, was received from the Manager: IDP:

“Purpose

To review and amend the Witzenberg Municipality Ward Committee Policy.

Legislative background

Municipal Systems Act 32/2000 Section16:

16. Development of culture of community participation.

- (1) A municipality must develop a culture of municipal governance that complements formal representative government with a system of participatory governance, and must for this purpose —
 - (a) encourage, and create conditions for, the local community to participate in the affairs of the municipality, including in —
 - (i) the preparation, implementation and review of its integrated development plan in terms of Chapter 5;
 - (ii) the establishment, implementation and review of its performance management system in terms of Chapter 6;

- (iii) the monitoring and review of its performance, including the outcomes and impact of such performance;
 - (iv) the preparation of its budget; and
 - (v) strategic decisions relating to the provision of municipal services in terms of Chapter 8;
- (b) contribute to building the capacity of —
- (i) the local community to enable it to participate in the affairs of the municipality; and
 - (ii) councillors and staff to foster community participation; and
 - (c) use its resources, and annually allocate funds in its budget, as may be appropriate for the purpose of implementing paragraphs (a) and (b)."

The Draft Ward Committee Policy is attached as **annexure 8.4.4**.

RECOMMENDED

- (a) that notice be taken of the Draft Ward Committee Policy.*
- (b) that a Public Participation Process, that calls for inputs, be followed.*
- (c) that after the Public Participation Process has been followed, the matter be tabled to the Executive Mayoral Committee for a recommendation to Council.*

8.4.5 Recognition of outstanding effort: Global Crime Prevention Unit (11/4/3)

The following report, dated 21 July 2021, was received from the Municipal Manager:

"Purpose

To consider recognising the outstanding effort of the Global Crime Prevention Unit in the combat against theft and vandalism of Council's assets within Witzenberg.

Background

Council has been plagued with the theft of electrical cables and vandalism of infrastructure in especially the area of Bella Vista, Ceres. This has created many problems for the Electricity Department and has also caused inconvenience for the Bella Vista community. Global Crime Prevention, on own accord, investigated the theft of high voltage cables from one of the substations and apprehended suspects before they could dispose of the cables. A copy of a report from Global Crime Prevention, dated 11 June 2021, is attached as **annexure 8.4.5**. They handed all the cables over to the Electricity Department. After the arrest there was a decrease in the further theft of electrical cables in the area. The damage suffered by the municipality was in excess of R100 000. Unfortunately the Municipal Finance Management Act does not provide for instances where an award can be offered to members of the public who assist the municipality. The only way to acknowledge the effort of Mr Baadjies from Global Crime Prevention is to give public recognition as well as handing over a Certificate of Appreciation."

RECOMMENDED

that the Speaker and Executive Mayor publicly recognise the effort of Global Crime Prevention through the handing over of a Certificate of Appreciation.

8.4.6 Mayoral Bursary Fund Policy: Witzenberg Municipality (5/P)

Item 8.4.2 of the Council meeting, held on 27 January 2021, refers.

Council unanimously resolved on 27 January 2021 that the matter in respect of the Mayoral Bursary Fund Policy for Witzenberg Municipality be held in abeyance for further deliberation.

The proposed Mayoral Bursary Fund Policy for Witzenberg Municipality is attached as **annexure 8.4.6**.

RECOMMENDED

For consideration.

3.2 Matters raised by the Speaker
(09/1/1)

- (a) The Speaker congratulated the Administration on obtaining a 7th Clean Audit award. The Speaker especially congratulated the Executive Mayor, Municipal Manager and Deputy Director: Finance for making the municipality proud.
- (b) The Speaker mentioned that the COVID-19 numbers had decreased, but that overcrowding of the various towns on weekends is still a concern.

NOTED

3.3 Matters raised by the Executive Mayor
(09/1/1)

- (a) The Executive Mayor thanked all Councillors for being present at the meeting and for the services they render in the community.
- (b) The Executive Mayor mentioned that today's tabling of the Adjustment Budget 2020/2021 to Council is the last for this term of Council. The Executive Mayor thanked the Councillors for all inputs they had made during the term. Much were indeed achieved, however, there are still challenges which need to be addressed. The COVID-19 pandemic brought about the challenge for a recovery plan in the municipality, but also for the households who have lost loved ones and breadwinners. The pandemic left psychological effects on many people. The Executive Mayor mentioned that Council will assist the communities in the healing process.
- (c) The Executive Mayor congratulated all grade 12 learners who had passed the matric exam 2020. The Executive Mayor especially congratulated the following Councillors and officials with the performance of their children and grandchild:
 - Alderman Ronald Visagie
 - Councillor Cornelius Lottering
 - Municipal Manager, Mr David Nasson
 - Mr Danvin Douries, whose daughter had obtained an average of 96 % and was declared as the top student in the Witzenberg area as well as under the Top 20 achievers nationally

The Executive Mayor conveyed his best wishes to all matriculants on their further journey. He encouraged those who had not been successful that it is not too late and that they must grab the second chance to their benefit.

- (d) The Executive Mayor mentioned that the municipality had obtained a 7th Clean Audit award, which is a remarkable performance. However, the Executive Mayor was of the opinion that the historical disadvantages of some communities must be addressed and new opportunities be created.
- (e) The Executive Mayor referred to the Community Trust that was established with the Michells Pass train tourism. The Executive Mayor requested the Municipal Manager to obtain the financial statements of the trust and determine the 5 % interest in the trust. Furthermore that the Municipal Manager claims the said 5 % and use it to the benefit of the municipality.
- (f) The Executive Mayor requested the Municipal Manager to investigate the possible reversal clause in respect of the Victoria Park Sportsgrounds in Ceres. A development was being planned on the grounds, but did not materialise. It is a concern that the Cricket Club cannot use the cricket grounds, because the field has been awarded to a school.
- (g) The Executive Mayor mentioned that answers posed in respect of the Ceres Golf Estate have still not been answered. The Executive Mayor requested the Municipal Manager to investigate possible amendments in respect of the original Council resolutions. If so, that the matter be corrected.
- (h) The Executive Mayor informed the meeting that the Western Cape Government is still utilising the Pine Forest Resort as a COVID-19 quarantine facility. The number of COVID-19 infected people is low and the municipality has requested the department to terminate the quarantine period.
- (i) The Executive Mayor expressed concern with regard to the municipal financial sustainability. The income source of electricity must be protected. Presentations at the Council workshop indicated that the income and expenditure on electricity cancel the one the other out. The electricity source needs to be protected and extended.
- (j) The Executive Mayor referred to matters that Council will prioritise before the end of Council's term. The Executive Mayor called on innovative thoughts by Council.
- (k) The Executive Mayor referred to the current security challenge and mentioned that the matter is investigated and the outcomes awaited.
- (l) The Executive Mayor wished everyone well on further endeavours during the remaining term. The Executive Mayor requested everyone to be safe and keep the social distance.

NOTED

3.4 Matters raised by the Municipal Manager

- (a) The Municipal Manager congratulated Mr Danvin Douries, an official of the municipality, on the performance of his daughter in the matric examination. She obtained 96 %, stands under the top 20 achievers nationally and made not only her school, but the entire Witzenberg area, proud.
- (b) The Municipal Manager mentioned that the Annual Report is being finalised. A few discrepancies occurred in the Declaration of Interest of some Councillors. The forms will be returned and Councillors were requested to complete same correctly.
- (c) The Municipal Manager mentioned that the minutes of the meeting in respect of the Ceres Golf Estate will be distributed at the planned Special Council meeting.

9. URGENT MATTERS SUBMITTED AFTER DISPATCHING OF THE AGENDA

9.1 Notariële akte van serwituut en samewerkingsooreenkoms: Ceres Koekedouw Bestuurskomitee: Koekedouw Dam (16/2/1/1/1)

EENPARIG BESLUIT

- (a) dat die Koekedouw Besproeiingsraad ingelig word dat 2 000 000 kubieke meter water beskikbaar is vanuit Munisipaliteit Witzenberg se allokasie vir die tydperk 1 Maart 2021 tot 30 Junie 2021 teen R0,54/kubieke meter (BTW ingesluit), wat die goedgekeurde raadstarief is.*
- (b) dat die allokasie van 2 000 000 kubieke meter vir Koekedouw Besproeiingsraad, in oorleg met die Direkteur : Tegniese Dienste, maandeliks ingedeel word.*
- (c) dat die Munisipale Bestuurder gedelegeer word om jaarliks oorskot water aan Koekedouw Besproeiingsraad te verkoop, onderworpe daaraan dat geen waterbeperkings nodig sal wees vir die twaalf maande wat volg vanaf die datum wat rou water beskikbaar gestel word aan die Koekedouw Besproeiingsraad. Hierdie punt is in lyn met die waterbeperkingsvlakke van die goedgekeurde droogtebestuursplan.*

UNANIMOUSLY RESOLVED

- (a) that the Koekedouw Irrigation Board be informed that 2 000 000 cubic meters of water are available from Witzenberg Municipality's allocation for the period 1 March 2021 to 30 June 2021 at R0,54/cubic meter (VAT included), which is the approved council tariff.*
- (b) that the allocation of 2 000 000 cubic meters for Koekedouw Irrigation Board, in consultation with the Director: Technical Services, be divided monthly.*
- (c) that the Municipal Manager be delegated to sell surplus water to Koekedouw Irrigation Board annually, subject to the fact that no water restrictions will be necessary for the twelve months following the date that raw water is made available to the Koekedouw Irrigation Board. This point is in line with the water restriction levels of the approved drought management plan.*

**9.2 Essential services: Water situation: Tulbagh
(16/2/1/5)**

UNANIMOUSLY RESOLVED

- (a) *that notice be taken of the water restrictions, which are in place in Tulbagh.*
- (b) *that notice be taken of the action plan in place to curb the drought.*
- (c) *that notice be taken that the remaining water in the dam is sufficient for usage of four months.*
- (d) *that the higher tariffs for water restrictions not be implemented in Tulbagh.*

EENPARIG BESLUIT

- (a) *dat kennis geneem word van die waterbeperkings wat tans in Tulbagh geld.*
- (b) *dat kennis geneem word van die aksieplan om die droogte te beveg.*
- (c) *dat kennis geneem word dat die oorblywende water in die dam genoeg is vir vier maande se gebruik.*
- (d) *dat die hoër tariewe vir waterbeperkings nie in Tulbagh ingestel word nie.*

3. STATEMENTS, ANNOUNCEMENTS OR MATTERS RAISED

3.1 Gratitude, Congratulations and Commiseration (11/4/3)

- (a) Alderman BC Klaasen conveyed Council's congratulations to the following Councillors and spouse on their birthdays:

- Councillor MJ Ndaba 3 March
- Councillor G Laban 19 March
- Mr S Phungula 3 April
- Councillor P Daniels 8 April
- Alderman J Schuurman 13 April
- Councillor C Lottering 21 April

- (b) Alderlady JT Phungula conveyed commiseration on behalf of Council to all those affected by the COVID-19 pandemic in the past year. She also referred to the current taxi violence and killings which took place. She referred to the killing of the taxi owner, Mr Mzwamakhosi Zwayi Phesa from Nduli who was also shot dead recently. More than ten (10) taxi owners were killed in Nduli and four (4) more are currently on a hit list. Enormous amounts are paid for the killings and a specific modus operandi is followed. The hitmen are brought from outside to Ceres and they operate in pairs of two. The reason for the killings are all about taxi routes. Council as part of the decision makers in respect of taxi routes is thus affected by the violence and must act and do something. Allegations are also made regarding some traffic officers and their safety as municipal staff members is at stake.

Council decided that a confidential meeting be called with the South African Police Services and National Provincial Intelligence to urgently discuss the taxi violence.

- (c) Alderman JW Schuurman mentioned the killing of Ms Reneé Jain at the De Vierde Liefde private nature reserve in Wolseley and expressed condolences to the family.

Council held a moment of silence for all who had passed away due to the COVID-19 pandemic as well as those killed during the past year.

NOTED.

3.2 Matters raised by the Speaker
(09/1/1)

- (a) The Speaker mentioned that Council and the municipality are in the week before Easter. He urged everybody to stay safe and take good care of themselves. A new variant of the COVID-19 virus endangers all of us.
- (b) The Speaker expressed concern in respect of productivity and mentioned that the communities are looking at Council with an expectation. The Speaker expressed unhappiness that municipal employees are working shorter hours, but sit under the trees at the workplace while still receiving full payment.

NOTED

3.3 Matters raised by the Executive Mayor
(09/1/1)

- (a) The Executive Mayor wished all residents of the Witzenberg municipal area a blessed Easter season and requested that everyone stay safe.
- (b) The Executive Mayor referred to the overcrowding of the towns during weekends and the many complaints received from the residents.
- (c) The Executive Mayor referred with concern to the neatness of the towns and mentioned that the standards had decreased drastically. The Executive Mayor called on all responsible for the matter to do much better even with less resources.
- (d) The Executive Mayor informed Council that high level meetings are being held in respect of taxi violence. Various joint operations are held against the illegal taxi operations.
- (e) The Executive Mayor referred to the passing of the well-known freedom fighter and activist, Mr Cecil Esau of Worcester. The Executive Mayor referred to the tribute made at the funeral by Dr Allan Boesak and cautioned Council to do introspection and adhere to the issues raised in the meeting earlier. He called on Councillors to put their duties first and enhance the lives of those they are serving. The Executive Mayor quoted verbatim from the tribute and requested Council to ponder and think about it and to prevent the same mistakes reflected in the content.

- (f) The Executive Mayor mentioned that Council will resolve at the meeting regarding the latest draft budget of this Council's term. The Executive Mayor expressed gratitude for all draft budgets submitted in the past during his term as Executive Mayor and promised his attitude and willingness to bring this draft budget about.
- (g) The Executive Mayor thanked the Mustadfin Foundation for various donations made to the elderly and kids in Ward 6 as well as Maple Park. The Executive Mayor will forward a letter of gratitude, but also requested the Deputy Executive Mayor to convey a word of thanks on behalf of the municipality.
- (h) The Executive Mayor conveyed on behalf of Council condolences to Councillor TE Abrahams and his family on the passing of his beloved brother-in-law, Jan, and wished them well.

4.1 Annual Report and Financial Statements: 2019/2020 (9/01/1)

Mr J Jansen van Rensburg from the office of the Auditor-general of South Africa made a presentation in respect of the audited financial statements for 2019/2020. The following matters were highlighted:

- Mr Jansen van Rensburg congratulated the municipality, Municipal Manager, Management and Council on obtaining an 8th consecutive clean audit report from AGSA for 2019/2020.
- That the audit has been conducted in terms of international standards.
- That the audit evidence obtained is sufficient and appropriate to provide a basis of opinion.
- Emphasis of matters:
 - Matters that do not impact on the audit opinion.
- Restatement of corresponding figures: Note 36.
- Material losses/impairments: Notes 3 and 4.
- Subsequent events: Note 51 is the expenditure and impact of the municipality's response to the COVID-19 pandemic.
- Other matters: Opinion is not modified in respect of these matters.
- Unaudited supplementary information and unaudited disclosure notes did not form part of the audit.
- Responsibilities of the Accounting Officer and the responsibilities of AGSA are highlighted and found no material misstatements, and a word of well done to the municipality.
- Achievement of planned targets:
 - No material findings on compliance with the specific matters in legislation. AGSA again expressed congratulations.
 - No significant deficiencies in internal control.
- Report duly signed off.

Mr Jansen van Rensburg thanked the Municipal Manager, Management and Council for assistance with the conducting of the audit.

Alderman JW Schuurman enquired from AGSA regarding pending legal cases. AGSA responded that no audit has been done in detail cases, but awaiting the final outcome of litigation cases.

Alderman JW Schuurman (on behalf of the ANC) and Councillor DM Jacobs (on behalf of the EFF) thanked and congratulated the Municipal Manager, Executive Mayor, Management, Council and MPAC Chairperson for good work done in obtaining an 8th clean audit from AGSA.

Mr J Jansen van Rensburg left the meeting at 10:30.

The Chairperson of the Municipal Public Accounts Committee submitted the Oversight Report of the Annual Report of the Witzenberg Municipality and recommended that:

The Municipal Public Accounts Committee, having fully considered the 2019/2020 Annual Report of the Witzenberg Municipality, recommends that Council adopts the 2019/2020 Oversight Report and approves the 2019/2020 Annual Report without reservations.

The Municipal Manager responded on enquiries in respect of corrections, that the Annual Report will be amended where applicable.

UNANIMOUSLY RESOLVED

that, having fully considered the 2019/2020 Annual Report of the Witzenberg Municipality, Council adopts the 2019/2020 Oversight Report and approves the 2019/2020 Annual Report without reservations.

Incremental Housing

ASLA

The need for an Incremental alternative

- The National Department of Human Settlements communicated to all provinces that the allocation of housing will henceforth be targeting vulnerable groups including the older people, military veterans, those living with disabilities and child-headed households.
- The Western Cape Department of Human Settlements has taken the instruction from National to heart and adopted a strict approach to allocate houses in accordance with the directive from National.
- This means that those beneficiaries that have been on the waiting list for many years but who are younger than 55 will not receive a house. In light of this and after consultation with WCDoHS, the Enhanced Service Policy is being evaluated to make provision for an enabling increment rather than just a serviced site with a toilet facility.
- ASLA is well positioned, given its patented frame structure, to provide an Enabling Increment with the objective to address the immediate need for housing and to enable the beneficiary through incremental self-improvements to the structure to achieve the aspirations of the beneficiary with regards to housing.

ENABLING INCREMENT

- A 40 m² frame structure.
- Total area of 20 m² under roof and enclosed.
- Shared wall between units complete.
- Bathroom enclosed with toilet and concrete floor – space for shower.
- Wash through for multi purpose use.
- Hard standing floor finish on full 40 m².
- DB Board only.

ENCLOSING THE UNIT

- Quantify the increments required to enclose the balance of the unit, complete the bedrooms, include electrical reticulation and comply with thermal requirements.
- Increments linked to a voucher system whereby:
 - A beneficiary will approach a partner bank to qualify for unsecured loan for the number of increments the beneficiary may be able to afford;
 - Upon approval of the funding a voucher is issued to a major hardware group against which pre-determined material parcels can be drawn based on the particular increment/s being addressed;
 - Furthermore upon approval, DoHS is notified and a pre-approved small contractor will be instructed to implement the applicable increment and once concluded and inspected, funding is transferred to the small contractor for labour;
 - Beneficiary communities can also use a Stokvel who will open a bank account at a partner bank until the savings are sufficient to address an increment of a stokvel member, after which the same process will ensue as with an unsecured loan.
- A Beneficiary can also complete the house with own funds and according to own requirements. The aforementioned incremental approach serve as a regulated program to achieve a completed unit that generally comply with the BNG house standards and whereby beneficiaries will have the peace of mind that they work with pre-approved contractors and payment system that protect their interest.

OUTCOME

- Minor changes to the Enhanced Services Policy is required.
- Address the housing demand up to R7000 income. All beneficiaries that can get a serviced site in terms of the current IRDP policy.
- Stimulate local job creation through:
 - Building of the enabling increment;
 - Enclosing the structure at the hand of unsecured finance/voucher or stokvel initiatives.
- An incremental approach to housing can also be used in the GAP/Affordable market. Servicing of sites through IRDP. Basic unit is provided and purchaser make incremental improvements in accordance with pre-approved plan.

CHALLENGES

- Acceptance of the product within beneficiary communities in the absence of uniform application of the approach to address housing for qualifying beneficiaries outside the most deserved category.
- Building control accepting an incremental product which will evolve organically over a period and providing an occupancy certificate. Non-compliance with SANS 10400XA and not NHBRC enrolled.
- Approval of product.
- Identification of suitable pilot project.

6.6 Risk Management: Fourth quarter 2019/2020 Risk Management Report Committee for Community Development (9/1/2/2)

Item 6.7 of the meeting of the Committee for Community Development, held on 25 July 2019 refers.

Council resolved per item 8.4.2 of 26 October 2016:

- (a) that the review of the Quarterly Risk Matrix Report be delegated to the relevant Portfolio Committees.
- (b) that the standardised agenda item for the Quarterly Risk Matrix Report be accepted.

A Risk Management report for the Committee for Community Development, Fourth quarter 2019/2020, dated 17 August 2020, is attached as **annexure 6.6**.

Objectives of Enterprise Risk Management

The objectives of risk management are to assist Management in making more informed decisions which:

- provide a level of assurance that current significant risks are effectively managed;
- improve operational performance by assisting and improving decision making and planning;
- promote a more innovative, less risk averse culture in which the taking of calculated risks in pursuit of opportunities, to benefit the municipality is encouraged; and
- provide a sound basis for risk management and internal control as components of good corporate governance.

Roles and Responsibilities

Council takes an interest in risk management to the extent necessary to obtain comfort that properly established and functioning systems of risk management are in place to protect Witzenberg Municipality against significant risks. Council has to report to the community, on the municipality's system of internal control. This provides comfort that the municipality is protected against significant risks to ensure the achievement of objectives as detailed in the Service Delivery and Budget Improvement Plan (SDBIP).

In terms of the Risk Management Framework the responsibilities of the Council in risk management includes:

- (a) ensuring that the Institutional strategies are aligned to the government mandate;
- (b) obtaining assurance from management that the Municipality's strategic choices were based on a rigorous assessment of risk;
- (c) obtaining assurance that key risks inherent in the Municipality's strategies were identified and assessed, and are being properly managed;
- (d) assisting the Accounting Officer / Authority to deal with fiscal, intergovernmental, political and other risks beyond their direct control and influence; and
- (e) insisting on the achievement of objectives, effective performance management and value for money.

The Municipal Manager is ultimately responsible for risk management within the municipality. This includes ensuring that the responsibility for risk management vests at all levels of management. The Municipal Manager sets the tone at the top by promoting accountability, integrity and other factors that will create a positive control environment.

Senior Management takes ownership for managing the municipality's risks within their areas of responsibility and is accountable to the Municipal Manager for designing, implementing, monitoring and integrating Enterprise Risk Management (ERM) into their day-to-day activities of the municipality. This should be done in a manner that ensures that risk management becomes a valuable strategic management tool.

Line Management/Risk Owners take responsibility for managing the municipality's risks within their areas of responsibility and is responsible for the designing, implementing, monitoring and integrating Enterprise Risk Management into their day-to-day activities of the municipality. The key focus is to ensure that controls implemented to mitigate risk are working as intended and that any deviations are reported and improved.

RESOLVED

that the Committee for Community Development, after consideration, takes notice of the Risk Management Report of the Directorate: Community Services for the Fourth Quarter of 2019/2020 and same be approved and accepted.

BESLUIT

dat die Komitee vir Gemeenskapsontwikkeling, na oorweging, kennis neem van die Risiko Bestuursverslag van die Direkoraat vir Gemeenskapontwikkeling vir die Vierde Kwartaal van 2019/2020 en dat die verslag goedgekeur en aanvaar word.

(5/14/1/17)**

A presentation was made by Messrs AGSA.

The Audit Strategy for 2019/2020, dated 30 June 2020, is attached as **annexure 5.1**.

The Chairperson conveyed, on behalf of the Performance, Risk and Audit Committee of Witzenberg Municipality, condolences to the office of the Auditor-general on the passing of the Auditor-general, Mr Thembekile Kimi Makwetu.

The Chairperson also expressed well wishes to the incoming Auditor-general, Ms Tsakani Maluleke.

Mr Johan Jansen van Rensburg from Messrs AGSA made a presentation in respect of the Audit Strategy. The following was highlighted:

- The AGSA audit scope is basically the same as previous years.
- Engagement letter was discussed with the Municipal Manager on 30 October 2020 and thereafter continuous meetings as AGSA progressed.
- Draft Management Report, scheduled for 21 February 2021; the Final Management Report and Audit Report on 16 February 2021.
- Final Audit Report on 28 February 2021.
- AGSA will look at consistency, relevance, presentation, reliability, disclosure and central services.
- In addition also compliance, strategic planning, procurement and contract management (SCM), expenditure management, utilisation of grants, revenue, asset and consequence management.
- Human Resources and liability management not a focus area this year. Audited the previous year.
- Information Technology will be assessed on level 1.
- No specific high risks at Witzenberg Municipality, but the following will be initially assessed as high risks:
 - Supply Chain, fraud management, revenue recognition, sources of estimation and override of controls.
- Internal Audit assists AGSA specifically with stock and cash counts.

- COVID-19 is taken into consideration with regard to site visitation and alternative procedures may be followed if needed.
- Reliance on management experts if needed.
- Legal confirmations to be done closer to audit date.
- AGSA offices close from 18 December 2020 and open on 11 January 2021. Compulsory leave due to impact of COVID-19 for all.
- Reduction of 2 % on the audit fee.

Council resolved per item 8.4.2 of 26 October 2016:

- (a) that the review of the Quarterly Risk Matrix Report be delegated to the relevant Portfolio Committees.
- (b) that the standardised agenda item for the Quarterly Risk Matrix Report be accepted.

A Risk Management report for the Committee for Technical Services, Second quarter 2020/2021, dated 27 January 2021, is attached as **annexure 6.1**.

Objectives of Enterprise Risk Management

The objectives of risk management are to assist Management in making more informed decisions which:

The key focus is to ensure that controls implemented to mitigate risk are working as intended and that any deviations are reported and improved.

The Head: Internal Audit highlighted the following in respect of the Risk Management: Second Quarter 2020 2021 namely:

- Strategic risk of roads and storm water in respect of maintenance of roads.
- High risk in respect of procurement of vehicles due to regulation 32 therefor vehicle replacement cannot take place
- ESKOM inability to provide increased electricity supply to the municipal area.

The Chairperson informed the meeting that the sewerage drains regularly overflow in Nduli at the informal settlement which creates a health risk.

The Director: Technical Services reported the following in respect of the overflow blockage of the sewerage drain in Nduli namely:

- All lines in Nduli are connected to one main sewerage drain.
- Manager: Water and Sewerage submitted a report with proposals and financial implications to address the sewerage problems to the Municipal Manager.
- Additional Expanded Public Works Programme (EPWP) workers were appointed to clean the sewerage drain regular.

RESOLVED

that the Committee for Technical Services takes notice of the Risk Management Report of the Directorate Technical Services for the Second Quarter 2020/2021, and after consideration, approved and accept same.

6.3 Risk Management: Second Quarter 2020/2021 Risk Management Report Committee for Local Economic Development and Tourism (9/1/2/2)

Council resolved per item 8.4.2 of 26 October 2016:

- (a) that the review of the Quarterly Risk Matrix Report be delegated to the relevant Portfolio Committees.
- (b) that the standardised agenda item for the Quarterly Risk Matrix Report be accepted.

A Risk Management report for the Committee for Local Economic Development for the Second Quarter of 2020/2021, dated 28 January 2021, is attached as **annexure 6.3**.

Objectives of Enterprise Risk Management

The objectives of risk management are to assist Management in making more informed decisions which:

- provide a level of assurance that current significant risks are effectively managed;
- improve operational performance by assisting and improving decision making and planning;
- promote a more innovative, less risk averse culture in which the taking of calculated risks in pursuit of opportunities, to benefit the municipality is encouraged; and
- provide a sound basis for risk management and internal control as components of good corporate governance.

Roles and Responsibilities

Council takes an interest in risk management to the extent necessary to obtain comfort that properly established and functioning systems of risk management are in place to protect Witzenberg Municipality against significant risks. Council has to report to the community, on the municipality's system of internal control. This provides comfort that the municipality is protected against significant risks to ensure the achievement of objectives as detailed in the Service Delivery and Budget Improvement Plan (SDBIP).

In terms of the Risk Management Framework the responsibilities of the Council in risk management includes:

- (a) ensuring that the Institutional strategies are aligned to the government mandate;
- (b) obtaining assurance from management that the Municipality's strategic choices were based on a rigorous assessment of risk;
- (c) obtaining assurance that key risks inherent in the Municipality's strategies were identified and assessed, and are being properly managed;
- (d) assisting the Accounting Officer / Authority to deal with fiscal, intergovernmental, political and other risks beyond their direct control and influence; and
- (e) insisting on the achievement of objectives, effective performance management and value for money.

The Municipal Manager is ultimately responsible for risk management within the municipality. This includes ensuring that the responsibility for risk management vests at all levels of management. The Municipal Manager sets the tone at the top by promoting accountability, integrity and other factors that will create a positive control environment.

Senior Management takes ownership for managing the municipality's risks within their areas of responsibility and is accountable to the Municipal Manager for designing, implementing, monitoring and integrating Enterprise Risk Management (ERM) into their day-to-day activities of the municipality. This should be done in a manner that ensures that risk management becomes a valuable strategic management tool.

Line Management/Risk Owners take responsibility for managing the municipality's risks within their areas of responsibility and is responsible for the designing, implementing, monitoring and integrating Enterprise Risk Management into their day-to-day activities of the municipality. The key focus is to ensure that controls implemented to mitigate risk are working as intended and that any deviations are reported and improved.

RESOLVED

that the Committee for Local Economic Development and Tourism takes notice of the Risk Management Report for the Second Quarter of 2020/2021 and same be approved and accepted.

BESLUIT

dat die komitee vir Plaaslike Ekonomiese Ontwikkeling kennis neem, na oorweging, van die Risikobestuursverslag vir die Tweede Kwartaal van 2020 / 2021 en dat die verslag goedgekeur en aanvaar word.

6.2 Risk Management: Second Quarter 2020/2021 Risk Management Report: Department Housing / Risiko Bestuur: Tweede Kwartaal 2020/2021 Risiko Bestuursverslag: Departement Behuising (2/12/1)

Council resolved per item 8.4.2 of 26 October 2016:

- (a) that the review of the Quarterly Risk Matrix Report be delegated to the relevant Portfolio Committees.
- (b) that the standardised agenda item for the Quarterly Risk Matrix Report be accepted.

A Risk Management report for the Committee for Housing Matters, Second quarter of 2020/2021, dated 27 January 2021, is attached as **annexure 6.2**.

Objectives of Enterprise Risk Management

The objectives of risk management are to assist Management in making more informed decisions which:

- provide a level of assurance that current significant risks are effectively managed;
- improve operational performance by assisting and improving decision making and planning;
- promote a more innovative, less risk averse culture in which the taking of calculated risks in pursuit of opportunities, to benefit the municipality is encouraged; and
- provide a sound basis for risk management and internal control as components of good corporate governance.

Roles and Responsibilities

Council takes an interest in risk management to the extent necessary to obtain comfort that properly established and functioning systems of risk management are in place to protect Witzenberg Municipality against significant risks. Council has to report to the community, on the municipality's system of internal control. This provides comfort that the municipality is protected against significant risks to ensure the achievement of objectives as detailed in the Service Delivery and Budget Improvement Plan (SDBIP).

In terms of the Risk Management Framework the responsibilities of the Council in risk management includes:

- (a) ensuring that the Institutional strategies are aligned to the government mandate;
- (b) obtaining assurance from management that the Municipality's strategic choices were based on a rigorous assessment of risk;
- (c) obtaining assurance that key risks inherent in the Municipality's strategies were identified and assessed, and are being properly managed;
- (d) assisting the Accounting Officer / Authority to deal with fiscal, intergovernmental, political and other risks beyond their direct control and influence; and
- (e) insisting on the achievement of objectives, effective performance management and value for money.

The Municipal Manager is ultimately responsible for risk management within the municipality. This includes ensuring that the responsibility for risk management vests at all levels of management. The Municipal Manager sets the tone at the top by promoting accountability, integrity and other factors that will create a positive control environment.

Senior Management takes ownership for managing the municipality's risks within their areas of responsibility and is accountable to the Municipal Manager for designing, implementing, monitoring and integrating Enterprise Risk Management (ERM) into their day-to-day activities of the municipality. This should be done in a manner that ensures that risk management becomes a valuable strategic management tool.

Line Management/Risk Owners take responsibility for managing the municipality's risks within their areas of responsibility and is responsible for the designing, implementing, monitoring and integrating Enterprise Risk Management into their day-to-day activities of the municipality. The key focus is to ensure that controls implemented to mitigate risk are working as intended and that any deviations are reported and improved.

RESOLVED

that the Committee for Housing Matters takes notice of the Risk Management Report for the Second Quarter of 2020/2021, and after consideration, same be approved and accepted.

BESLUIT

dat die Komitee vir Behuisingsaangeleenthede, na oorweging, kennis neem van die Risiko Bestuursverslag van die Departement Behuising vir die Tweede Kwartaal van 2020/2021 en dat die verslag na oorweging aanvaar en goedgekeur word.

**4. STATEMENTS, ANNOUNCEMENTS OR MATTERS RAISED BY EXECUTIVE MAYOR
 MEDEDELINGS, AANKONDIGINGS OF SAKE DEUR UITVOERENDE BURGEMEESTER GEOPPER
 (9/1/1)**

- (a) The Executive Mayor expressed his appreciation towards the Mustadafin Foundation for an event held in Ward 6. Approximately 500 meals and 2 500 food hampers were distributed to the elderly, children and also the residents of Maple Park in Ceres. The children also received winter packs.
- (b) The Executive Mayor mentioned that the 2020/2021 budget will be the last for the Executive Mayoral Committee of this term to table before the next local government elections.

- (c) The Executive Mayor referred to the deterioration in neatness of the various towns of Witzenberg Municipality. It seems that COVID-19 has lowered the standards of productivity of employees. The perception is that the permanent employees do less whilst the EPWP workers deliver the services. The Executive Mayor requested Senior Management to attend to the matter.
- (d) The Executive Mayor referred to the increasing number of COVID-19 affected people. It is noticeable that people stand together in groups without masks and there seems to be a lack of alertness for the danger of the virus. The Executive Mayor requested everyone to attend to the matter.
- (e) The Executive Mayor thanked everyone for their inputs with regard to the prevention of COVID-19.
- (f) The Executive Mayor requested Administration to come forward with new revenue streams for the municipality.
- (g) The Executive Mayor referred to the demands which were handed over by the EFF and mentioned that the Speaker will handle the matter.

| (b) | February / Februarie 2021 | Annexuer 7.1(b) |

The Director: Financial Services submit the Section 71 Monthly Budget Statement Reports of Directorate Finance for January and February 2021 and highlighted the following:

- 130 million rand currently in the bank account; the revenue situation stays the same
- Under performance on the Capital Budget in respect of expenditure. The Tulbagh dam is the major reason for the problem; the municipality still awaits the water license.
- On a question the Director: Financial Services responded that the difference of 12% in income equals approximately 4 million rand.
- The municipality experience a delay in the payment for municipal services by some state departments.
- There is a delay in the registration of indigent applications but the matter is attended to.

RESOLVED

That the Committee for Corporate and Financial Services recommends to the Executive Mayoral Committee and Council:

that the Committee for Corporate and Financial Services takes notice, after consideration, of the content of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for January and February 2021 and same be approved and accepted.

BESLUIT

dat die Komitee vir Korporatiewe en Finansiële Dienste aan die Uitvoerende Burgemeesterskomitee en Raad aanbeveel:

6. PERFORMANCE MANAGEMENT

6.1 Performance, Risk and Audit Committee: First Bi-Annual Report on Performance Management: 2019/2020 (5/14/4)

The Head: Internal Audit tabled the First Bi-Annual Report on Performance Management for 2019/2020.

RESOLVED

that notice be taken of the First Bi-Annual Report of the Performance, Risk and Audit Committee on Performance Management for 2019/2020, dated December 2020, and same be accepted.

6.2 Performance, Risk and Audit Committee: Second Bi-Annual Report on Performance Management: 2019/2020 (5/14/4)

The Head: Internal Audit tabled the Second Bi-Annual Report on Performance Management for 2019/2020.

The Performance, Risk and Audit Committee decided that the Chairperson, the Head: Internal Audit and PRAC member, Mr T Lesihla, will clarify the enquiry in respect of the Action Plan Status of some KPI's reported on as "not yet started" outside the meeting due to a possible long discussion.

RESOLVED

that notice be taken of the Second Bi-Annual Report of the Performance, Risk and Audit Committee on Performance Management for 2019/2020, dated February 2021.

6.3 Mid-year Budget Statement and Performance Assessment (Section 72) Report for 2020/2021: 1 July 2020 until 31 December 2020 (9/1/1 & 5/1/5/13)

The Director: Finance tabled the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020. The following matters were highlighted:

- Improvement of credit control since ceasing of COVID-19 lockdown: No credit control instituted until end of December 2020. Matter taken in January 2021 to the communities and first cut-off of electricity started in May 2021 with those who did not make arrangements with the municipality. The collection rate has increased noticeable since December 2020.
- Impact of renewable energy on municipal revenue: ESKOM cannot currently provide enough electricity to the municipality, therefore a consultant was appointed to investigate the various options for renewable energy. A business is currently approved to create renewable energy on condition that all excess energy be sold to the municipality on a tariff basis. The energy is sold by the municipality on a profit basis. Municipal policy only allows 15 % energy for the needs of a business in order to protect the revenue of the municipality. The report from the consultant is still awaited. ESKOM postponed the upgrade for energy from 2021 until 2030. The matter was escalated to the provincial and national government for assistance to help the municipality.

RESOLVED

- (a) *that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020.*
- (b) *That the Performance, Risk and Audit Committee recommends to Council:*

that notice be taken of the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2020 until 31 December 2020 and, after consideration, same be approved and accepted.

8.5 Internal Audit Report: Supply Chain Management (5/14/2)

RESOLVED

that notice be taken of the Internal Audit Report in respect of Supply Chain Management and same be accepted.

9. OTHER MATTERS

9.1 Vacant positions in Section Internal Audit (4/3/R)

The Municipal Manager reported that the municipality finds it difficult to fill the vacant position of Senior Auditor: Internal Audit. The position will be re-advertised. The Head: Internal Audit will continue as a consultant for one year after his retirement end of July 2021. The Manager: Projects and Performance will take over the responsibilities of the risk profile. The contract of the Intern will be extended for two (2) years with training to hopefully become an internal auditor.

Minutes: Performance, Risk and Audit Committee meeting: 21 May 2021

Another Intern will be seconded from the Finance Department to Internal Audit.

NOTED

9.2 COVID-19 pandemic and vaccination program (17/7/3/R)

The Municipal Manager reported that the possibility of a third wave of the COVID-19 virus is currently still low. People in the Witzenberg municipal area became aware of the danger of the pandemic and are careful. The schools are running and the vaccination program is driven by the Executive Mayor and Ward Committee members. The communities are more vigilant than in the past.

NOTED

10. NEXT MEETING (03/1/2/3)

Monthly Budget Statement Report Section 71 for January 2021

**Financial data is in respect of the period
1 July 2020 to 30 June 2021**

Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

Monthly Budget Statement Report Section 71 for February 2021

**Financial data is in respect of the period
1 July 2020 to 30 June 2021**

Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI's – Key Performance Indicators. Measures of service output and/or outcome.

MFMA – Municipal Finance Management Act (No 53 of 2003). The principle piece of legislation relating to municipal financial management.

Glossary (Continued)

MIG – Municipal Infrastructure Grant

MPRA – Municipal Property Rates Act (No 6 of 2004).

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMA sets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level. Also includes details of the previous three years and current years' financial position.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

Monthly Budget Statement Report Section 71 for March 2021

**Financial data is in respect of the period
1 July 2020 to 30 June 2021**

Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI's – Key Performance Indicators. Measures of service output and/or outcome.

MFMA – Municipal Finance Management Act (No 53 of 2003). The principle piece of legislation relating to municipal financial management.

Glossary (Continued)

MIG – Municipal Infrastructure Grant

MPRA – Municipal Property Rates Act (No 6 of 2004).

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMA sets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level. Also includes details of the previous three years and current years' financial position.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

RBIG – Regional Bulk Infrastructure Grant

R&M – Repairs and maintenance on property, plant and equipment.

SCM – Supply Chain Management.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic Objectives – The main priorities of a municipality as set out in the IDP Budgeted spending must contribute towards achievement of these strategic objectives.

TMA – Total Municipal Account

Unauthorised expenditure – Generally, spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement Policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget is divided, usually at department level.

WM – Witzenberg Municipality

Monthly Budget Statement Report Section 71 for April 2021

**Financial data is in respect of the period
1 July 2020 to 30 June 2021**

Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI's – Key Performance Indicators. Measures of service output and/or outcome.

MFMA – Municipal Finance Management Act (No 53 of 2003). The principle piece of legislation relating to municipal financial management.

Glossary (Continued)

MIG – Municipal Infrastructure Grant

MPRA – Municipal Property Rates Act (No 6 of 2004).

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMA sets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level. Also includes details of the previous three years and current years' financial position.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI's – Key Performance Indicators. Measures of service output and/or outcome.

MFMA – Municipal Finance Management Act (No 53 of 2003). The principle piece of legislation relating to municipal financial management.

Glossary (Continued)

MIG – Municipal Infrastructure Grant

MPRA – Municipal Property Rates Act (No 6 of 2004).

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMA sets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level. Also includes details of the previous three years and current years' financial position.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

SCM – Supply Chain Management.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic Objectives – The main priorities of a municipality as set out in the IDP Budgeted spending must contribute towards achievement of these strategic objectives.

TMA – Total Municipal Account

Unauthorised expenditure – Generally, spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement Policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget is divided, usually at department level.

WM – Witzenberg Municipality

Legal requirements

In terms of Section 52 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003):

52. General Responsibilities. — The mayor of a municipality—

- (a) must provide general political guidance over the fiscal and financial affairs of the municipality;
- (b) in providing such general political guidance, may monitor and, to the extent provided in this Act, oversee the exercise of responsibilities assigned in terms of this Act to the accounting officer and the chief financial officer, but may not interfere in the exercise of those responsibilities;
- (c) must take all reasonable steps to ensure that the municipality performs its constitutional and statutory functions within the limits of the municipality's approved budget;
- (d) **must, within 30 days of the end of each quarter, submit a report to the council on the implementation of the budget and the financial state of affairs of the municipality; and**
- (e) must exercise the other powers and perform the other duties assigned to the mayor in terms of this Act or delegated by the council to the mayor.

In terms of section 11 (4) (a), the Accounting Officer must within 30 days after the end of each quarter table in the municipal council a consolidated report of all withdrawals made in terms of subsection (1) (b) to (j) during that quarter. Section 11(1) read as follow:

"11. (1) Only the accounting officer or the chief financial officer of a municipality, or any other senior financial official of the municipality acting on the written authority of the accounting officer, may withdraw money or authorise the withdrawal of money from any of the municipality's bank accounts, and may do so only—

- (a) to defray expenditure appropriated in terms of an approved budget;*
- (b) to defray expenditure authorised in terms of section 26(4);*
- (c) to defray unforeseeable and unavoidable expenditure authorised in terms of section 29(1);*
- (d) in the case of a bank account opened in terms of section 12, to make payments from the account in accordance with subsection (4) of that section;*
- (e) to pay over to a person or organ of state money received by the municipality on behalf of that person or organ of state, including—*
 - (i) money collected by the municipality on behalf of that person or organ of state by agreement; or*
 - (ii) any insurance or other payments received by the municipality for that person or organ of state;*
- (f) to refund money incorrectly paid into a bank account;*
- (g) to refund guarantees, sureties and security deposits;*
- (h) for cash management and investment purposes in accordance with section 13;*
- (i) to defray increased expenditure in terms of section 31; or*
- (j) for such other purposes as may be prescribed."*

In terms of Section 66 of the MFMA the Accounting Officer must prepare a report on all expenditure incurred with relation to staff benefits.

Section 66 reads as follow:

"66. The accounting officer of a municipality must, in a format and for periods as may be prescribed, report to the council on all expenditure incurred by the municipality on staff salaries, wages, allowances and benefits, and in a manner that discloses such expenditure per type of expenditure, namely—

- (a) salaries and wages;*
- (b) contributions for pensions and medical aid;*

- (c) travel, motor car, accommodation, subsistence and other allowances;*
- (d) housing benefits and allowances;*
- (e) overtime payments;*
- (f) loans and advances; and*
- (g) any other type of benefit or allowance related to staff."*

The following regulations of the Local Government: Municipal Finance Management Act Municipal Budget and Reporting Regulations are relevant:

Quarterly reports on implementation of budget

31. (1) The mayor's quarterly report on the implementation of the budget and the financial state of affairs of the municipality as required by section 52(d) of the Act must be-
- {a) in the format specified in Schedule C and include all the required tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168(1) of the Act; and
 - (b) consistent with the monthly budget statements for September, December, March and June as applicable; and
 - (c) submitted to the National Treasury and the relevant provincial treasury within five days of tabling of the report in the council.

Publication of quarterly reports on implementation of budget

32. When publishing the quarterly reports on the implementation of the budget in terms of section 75(1)(k) of the Act, the municipal manager must make public any other information that the municipal council considers appropriate to facilitate public awareness of the quarterly report on the implementation of the budget and the financial state of affairs of the municipality, including -
- (a) summaries of quarterly report in alternate languages predominant in the community; and
 - {b) information relevant to each ward in the municipality.

PART 1 - IN-YEAR REPORT

Mayors Report

Speaker
Deputy Executive Mayor
Members of the Mayoral Committee
Councillors
Representatives of Provincial Government
Municipal Manager
Directors and officials
Distinguished guests
Members of the media

It is my privilege to present to you the quarterly Budget Statement Report for the three months from 1 October 2020 to 31 December 2020.

It was a very tough period for stakeholders within the operational sphere of the municipality. We have not applied any credit control measures during this period to assist our communities and businesses. We also have to convey our thanks to all for their patriotism and resilience in still paying their accounts and enabling the municipality to still perform its functions.

In an attempt to further provide financial relief to our community, no interest was charged on arrear municipal accounts, and the expiry date of indigent agreements was extended.

I also want to say thank you to all those employees whom, against all odds, still embrace the spirit of Ubuntu. I salute you all.

The year to date recovery rate excluding traffic fines is 88% against the annual target of 94%. Cognisance should be taken that it is only the second quarter of the financial year and that the comparative rate for the same period in the prior year was 92%. Government departments and commercial customers that are in arrears are receiving immediate attention in order to improve cash flow. National Treasury is currently assisting municipalities by issuing letter of demands to all national and provincial departments to pay their municipal accounts. Household debt remains a serious concern.

Capital expenditure is 23% of a budgeted amount of R 80 million. We are hopeful that the municipality will be successful in our application for roll-over of conditional grant funding for which the outcome is still pending.

COUNCILLOR BC KLAASEN
EXECUTIVE MAYOR

Recommendation

It is recommended that council take cognisance of the quarterly budget assessment for the period 1 October 2020 to 31 December 2020.

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

When publishing the quarterly reports on the implementation of the budget in terms of section 75(1)(k) of the Act, the municipal manager must make public any other information that the municipal council considers appropriate to facilitate public awareness of the quarterly report on the implementation of the budget and the financial state of affairs of the municipality, including -
- (a) summaries of quarterly report in alternate languages predominant in the community; and
 - {b) information relevant to each ward in the municipality.

PART 1 - IN-YEAR REPORT

Mayors Report

Speaker
Deputy Executive Mayor
Members of the Mayoral Committee
Councillors
Representatives of Provincial Government
Municipal Manager
Directors and officials
Distinguished guests
Members of the media

It is my privilege to present to you the quarterly Budget Statement Report for the three months from 1 January 2021 to 31 March 2021.

It was a very tough period for stakeholders within the operational sphere of the municipality. We have not applied any credit control measures during this period to assist our communities and businesses. We also have to convey our thanks to all for their patriotism and resilience in still paying their accounts and enabling the municipality to still perform its functions.

I also want to say thank you to all those employees whom, against all odds, still embrace the spirit of Ubuntu. I salute you all.

The year to date recovery rate excluding traffic fines is 89% against the annual target of 94%. Cognisance should be taken that the comparative rate for the same period in the prior year was 88%. Government departments and commercial customers that are in arrears are receiving immediate attention in order to improve cash flow.

Capital expenditure is 46% of a budgeted amount of R 90 million. Two multiyear capital projects are planned to commence in the near future. The required approval for the Tulbagh dam is still outstanding.

COUNCILLOR BC KLAASEN
EXECUTIVE MAYOR

Recommendation

It is recommended that council take cognisance of the quarterly budget assessment for the period 1 January 2021 to 31 March 2021.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

RBIG – Regional Bulk Infrastructure Grant

R&M – Repairs and maintenance on property, plant and equipment.

SCM – Supply Chain Management.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.

Strategic Objectives – The main priorities of a municipality as set out in the IDP Budgeted spending must contribute towards achievement of these strategic objectives.

TMA – Total Municipal Account

Unauthorised expenditure – Generally, spending without, or in excess of, an approved budget.

Virement – A transfer of budget.

Virement Policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget is divided, usually at department level.

WM – Witzenberg Municipality

Distinguished Guests
Members of the media

It is my privilege to present to you the quarterly Budget Statement Report for the three months from 1 April 2021 to 30 June 2021.

The challenges facing stakeholders within the operational sphere of the municipality continued throughout the fourth quarter of the 2020/2021 financial year with the presence of COVID 19 still eminent. The municipality started with the re-implementation of credit control measures. A moratorium was however placed on credit control measures for all indigent renewal applications to process the backlog of applications received.

With the above in mind, I want to express my gratitude to all the employees who persevered amidst the challenges and embraced the spirit of Ubuntu.

The year to date recovery rate excluding traffic fines is 90% against the adjusted annual target of 90%. Cognizance should be taken that the comparative rate for the same period in the prior year was 88%. Government departments and commercial customers that are in arrears are receiving immediate attention in order to improve cash flow.

For the financial year 96.8% of the operational revenue was raised. It is expected that the percentage will improve with the yearend transactions such as electricity and water revenue accrued until 30 June and the recognition of income in respect of grant conditions met during the year.

Only 79.1% of the budgeted operational expenditure was incurred as at 30 June 2021. This percentage will increase with the final calculations of depreciation, impairment of debtors, actuarial valuations of employee benefits, adjustments to the provisions for the rehabilitation of landfill sites and invoices received after 30 June such as bulk purchases from Eskom.

Capital expenditure is 76% of a budgeted amount of R 86 million. Two multiyear capital projects are planned to commence in the new financial year. The required approval for the Tulbagh dam was received and the project will thus commence in due course as well as the upgrade relating to the Van Breda Bridge.

COUNCILLOR BC KLAASEN
EXECUTIVE MAYOR

TABLE OF CONTENTS

1 Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality, and the month end balances of cash and short term investments. Cash receipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may not be paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted to assist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification system that facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of a municipality.

KPI's – Key Performance Indicators. Measures of service output and/or outcome.

MFMA – Municipal Finance Management Act (No 53 of 2003). The principle piece of legislation relating to municipal financial management.

Glossary (Continued)

MIG – Municipal Infrastructure Grant

MPRA – Municipal Property Rates Act (No 6 of 2004).

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMA sets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level. Also includes details of the previous three years and current years' financial position.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

TMA – Total Municipal Account

Unauthorised expenditure – Generally, spending without, or in excess of, an approved budget.

Virement – A transfer of the budget.

Virement Policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget is divided, usually at department level.

WM – Witzenberg Municipality

Legal requirements

In terms of Section 72 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003):

- (1) The accounting officer of a municipality must by 25 January of each year –
 - (a) assess the performance of the municipality during the first half of the financial year, taking into account –
 - (i) the monthly statements referred to in section 71 for the first half of the financial year;
 - (ii) the municipality's service delivery performance during the first half of the financial year, and the service delivery targets and performance indicators set in the service delivery and budget implementation plan;
 - (iii) the past year's annual report, and progress on resolving problems identified in the annual report; and
 - (iv) the performance of every municipal entity under the sole or shared control of the municipality, taking into account reports in terms of section 88 from any such entities; and
 - (b) submit a report on such assessment to –
 - (i) the mayor of the municipality
 - (ii) the National Treasury; and
 - (iii) the relevant Provincial Treasury.
- (2) The statement referred to in section 71(1) for the sixth month of a financial year may be incorporated into the report referred to in subsection (1)(b) of this section.
- (3) The accounting officer must, as part of the review –
 - (a) make recommendations as to whether an adjustments budget is necessary; and
 - (b) recommend revised projections for revenue and expenditure to the extent that this may be necessary.

Thereafter, the mayor must, in terms of Section 54(1) of the act:

- (a) Consider the report;
- (b) Check whether the municipality's approved budget is implemented in accordance with the service delivery and budget implementation plan;
- (c) Consider and, if necessary, make any revisions to the service delivery and budget implementation plan, provided that revisions to the service delivery targets and performance indicators in the plan may only be made with the approval of the council following approval of an adjustments budget;
- (d) Issue any appropriate instructions to the accounting officer to ensure-
 - (i) That the budget is implemented in accordance with the service delivery and budget implementation plan; and
 - (ii) That spending of funds and revenue collection proceed in accordance with the budget;
- (e) Identify any financial problems facing the municipality, including any emerging or impending financial problems; and

- (f) Submit the report to the council by 31 January of each year.

The following regulations of the Local Government: Municipal Finance Management Act Municipal Budget and Reporting Regulations are relevant:

- 33. Format of a mid-year budget and performance assessment.—A mid-year budget and performance assessment of a municipality referred to in section 72 of the Act must be in the format specified in Schedule C and include all the required tables, charts and explanatory information, taking into account any guidelines issued by the Minister in terms of section 168 (1) of the Act.19
- 34. Publication of mid-year budget and performance assessments.—
 - (1) Within five working days of 25 January each year the municipal manager must make the mid-year budget and performance assessment public by placing it on the municipal website.
 - (2) The municipal manager must make public any other information that the municipal council considers appropriate to facilitate public awareness of the mid-year budget and performance assessment, including—
 - (a) summaries in alternate languages predominant in the community; and
 - (b) information relevant to each ward in the municipality.
- 35. Submission of mid-year budget and performance assessments.—The municipal manager must submit to the National Treasury and the relevant provincial treasury, in both printed and electronic form—

Members of the media

It is my privilege to present to you Mid-Year Budget Statement and Performance Assessment Report for the six months 1 July 2020 to 31 December 2020.

The process of value for money spending is always a challenge for capital projects. The capital budget amounts R 80.8 million of which R 18.5 million was expended, bringing about an 23% expenditure of the projected 40% cash flow forecast. The main contributing factor to this is the R 14.9 million for the Tulbagh dam which could not be utilised as the Department of Water affairs failed to pay over the funding.

An adjustment budget will be compiled and submitted to Council for consideration due to operational requirements and amendments to allocations to Witzenberg Municipality as per the Provincial and National Adjustment Budgets.

The municipality for the last ten years received Unqualified Audits from the Auditor General of South Africa of which seven is consecutive "Clean Audits"

I am not in a position to report on the outcome of the audit in respect of the 2019/2020 financial year as the audit is still in progress.

The collection rate of 88% is 6% below the target of 94%, it is matter of concern as it has a direct impact on the cash position of the municipality. The total outstanding debt amounts to R 256 million of which R 203 million is already over 90 days. Water is the biggest contributor to the total outstanding debt at an amount of R 76 million.

The credit control measures could not be implemented due to effect of the lockdown regulations on our communities. The increase in outstanding debt might impact the available funds for capital and operating expenditure negatively for the next financial year.

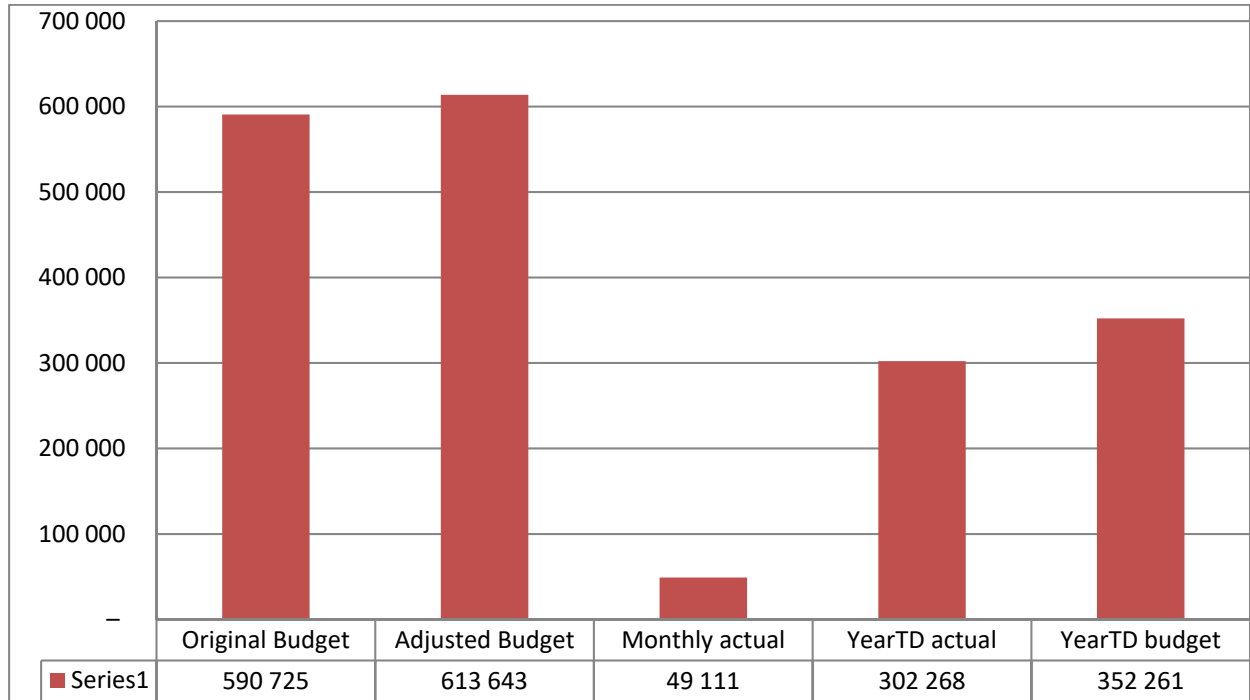

COUNCILLOR BC KLAASEN
EXECUTIVE MAYOR

Resolution

It is recommended that council take cognisance of the mid-year budget and performance assessment for the period 1 July 2020 to 31 December 2020.

Executive Summary

TOTAL OPERATIONAL REVENUE

49% of the service charges and 72% of property rates was levied for the six months until 31 December 2020. The rates for the full financial year for property owners that prefer to pay their rates annually were levied during July 2020. The consumption of services such as water and electricity are expected to increase during the next 6 months due to the agricultural season. Electricity consumption of major consumers such as factories and cold storages are closely monitored and management believes that future consumption could become a concern as more applications for renewable energy is received.

TOTAL OPERATIONAL EXPENDITURE

For the six months until 31 December 2020, 38% of the budgeted expenditure for the financial year was incurred. This figure will increase as some invoices are still outstanding. It is expected that the bulk purchases from Eskom will increase in the latter half of the financial year due to the agricultural season. Employee Related costs especially overtime payments and standby allowances should also be closely monitored to ensure that the expenditure item remains within budget estimates.

CAPITAL EXPENDITURE

For the six months until 31 December 2020, 23% of the budgeted capital expenditure for the financial year was incurred.

The project that contributes the most to the low spending on the capital budget is the Tulbagh Raw Water Dam. Steps will be implemented to ensure faster spending of the capital budget.

IDP & BUDGET PROCESS PLAN

SECTION ONE: INTRODUCTION & BACKGROUND

1.1. INTRODUCTION

The Integrated Development Plan (IDP), as the key tool for the Municipality to tackle its developmental role, represents a continuous cycle of development, planning, implementation and review. Implementation started after the adoption of the 1st - Generation IDP in 2006. Currently the municipality operates in the 5th - Generation IDP. The IDP is the strategic plan with a cycle period of five years. During its five-year life cycle the IDP is reviewed and updated annually.

The Annual Budget, in turn, provides the Medium Term Revenue & Expenditure Framework (MTREF) which sets out the financial path for the ensuing three years.

These two documents, i.e. the IDP and the Budget – along with the Performance Management System (PMS) – provide a means to assess the progress and achievements with regard to the strategic objectives of the Municipality, thus informing its financial and institutional planning.

With the input of the Provincial authority, local municipalities are continuously in the process of reviewing, improving and updating its IDP, as well as ensuring alignment with the MTREF.

This IDP and Budget Process Plan seek to address, *inter alia*, the:

- Identification of areas requiring additional attention in terms of legislative requirements, proper planning processes and sound financial management;
- Inclusion of the most current Census and own statistical data;
- Consideration and review of any other relevant and new information;
- Addressing comments received from the various role-players;
- Shortcomings and weaknesses identified through self-assessment;
- Preparation and review of sector plans and its alignment with the IDP;
- Preparation and review of the Performance Management System (PMS);
- Updating of the 5-year Financial Plan; and
- Preparation and finalization of the annual Budget in terms of the relevant legislation.

1.2. LEGISLATIVE FRAMEWORK

1.2.1. PROCESS PLAN

In order to ensure minimum quality standards of the IDP and Budget process – and a proper coordination between and within spheres of government – the preparation of the IDP and Budget Process Plan has been regulated by both the Municipal Systems Act and the MFMA.

In terms of Section 28 of the MSA, Council must adopt an IDP and Budget Process Plan. And Section 29 of the MSA specifies that such a Process Plan must include:

- Programs that set out timeframes for the different planning steps;
- Appropriate mechanisms, processes and procedures for consultation with:
 - Local communities, both in terms of needs and priorities as well as consultation during development;
 - Organs of state, traditional authorities, and other role-players in the drafting process; and
- Binding plans and planning requirements, i.e. policy and legislation.

In terms of Section 21 of the MFMA, the Executive Mayor must co-ordinate the process for the adoption of the annual Budget and the review of the IDP and related policies so that he/she can ensure mutual consistency and credibility.

The second part of the afore-mentioned Section of the MFMA stipulates that a Process Plan with timeframes must be tabled to Council for consideration at least 10 months prior to implementation of the annual Budget.

National Treasury has provided further guidance by the issuing of MFMA Circular 10. That circular provides specific guidance with regard to six distinct steps in compilation of the IDP and Budget.

The table below highlights the six steps, with a succinct description of each step:

Steps		Process
1	Planning	Schedule key dates, establish consultation forums, review previous processes
2	Strategizing	Review the IDP, set service delivery objectives for next 3 years, consult on tariffs, indigents, credit control, free basic services etc., and consider local-, provincial- and national issues, the previous year's performance and current economic and demographic trends etc.

---	-------------------	---

Local municipalities are required by the Municipal System Act (Act 32 of 2000) to consult and report back to communities on their planned activities as well as their performances so that communities can be afforded an opportunity to voice their opinions on the day-to-day functioning of the Municipality.

Development of an IDP Framework Plan

In terms of Section 27 of the MSA, the District Municipality must develop a Framework Plan which provides the linkage and binding relationships between the district and local municipalities in its jurisdiction area. In doing so, proper consultation, coordination and alignment of the IDP review process of the district municipality and various local municipalities can be maintained.

1.2.2. OTHER LEGISLATIVE IMPERATIVES

In an effort to comply with the current legislative framework, the host of binding legislation to be taken into consideration in the formulation of the IDP & Budget Process Plan is listed hereinunder:

- The Constitution of the Republic of South Africa, (Act 108 of 1996)
- Local Government: Municipal Demarcation Act, (Act 27 of 1998)

SECTION TWO: ORGANIZATIONAL ARRANGEMENTS

2.1 IDP / BUDGET STEERING COMMITTEE

As part of the IDP & Budget preparation process, the Mayor must establish an IDP & Budget Steering Committee. This committee must at least consist of the persons mentioned in Section 4 of the Budget and Reporting Regulations.

Section 4 of the Local Government: Budget and Reporting Regulations states the following:

Budget Steering Committee

4. (1) *The mayor of a municipality must establish a Budget Steering Committee to provide technical assistance to the Mayor in discharging the responsibilities set out in Section 53 of the Act.*
- (2) *The Steering Committee must consist of at least the following persons:*
 - (a) *the councillor responsible for financial matters;*
 - (b) *the municipal manager;*
 - (c) *the chief financial officer;*
 - (d) *the senior managers responsible for at least the three largest votes in the municipality;*
 - (e) *the manager responsible for Budgeting;*
 - (f) *the manager responsible for planning; and*
 - (g) *any technical experts on infrastructure.*

This IDP / Budget Steering Committee will act as a support structure to the Executive Mayor in providing a platform for him/her to provide political guidance and to monitor progress made in the IDP and Budget process. This Steering Committee must be reconstituted each year.

2.1.1. Composition

In order to comply with the legislative requirements, the Mayoral Committee has constituted the Witzenberg IDP/Budget Steering Committee structure as follows (inclusive political representation):

Vacant	
Vacant	
Vacant	
Vacant	
Vacant	
Vacant

Vacant	

2.1.2. Terms of Reference for the IDP / Budget Steering Committee

The Terms of Reference for the IDP / Budget Steering Committee are as follows:

- To provide terms of reference for the various planning activities
- To commission research studies
- Considers and comments on:
 - ☉ Inputs from sub-committee/s, study teams and consultants
 - ☉ Inputs from provincial sector departments and support providers
- To process, summarize and document the outputs
- Makes content recommendations, and
- Prepares, facilitates and minutes all meetings

2.2 IDP REPRESENTATIVE FORUM

2.2.1 Composition of IDP Representative Forum

The IDP Representative Forum (RF) is constituted as part of the preparation phase of the IDP, and will continue its functions throughout the annual IDP Review process. The composition of the IDP Representative Forum is as follows:

- MAYCO members
- Councillors
- Ward Committees
- Community Development Workers
- Municipal Manager and Senior Managers
- Stakeholder representatives of organised groups

The ward structure for Witzenberg is shown in the table below:

Ward	Status	Towns or Areas
1	Functional	N'duli
2	Functional	Wolseley farms (toward Botha and Breë Valley)
3	Functional	Ceres West
4	Functional	PA Hamlet (including Kliprug, and a portion of Bella Vista)
5	Functional	Ceres East
6	Functional	Bella Vista (including some farms in Warm Bokkeveld)
7	Functional	Wolseley (including Montana, Pine Valley, and section of Chris Hani)
8	Functional	Koue Bokkeveld farms (up until Op-Die-Berg)

11	Functional	Tulbagh (including Chris Hani, Witzenville and surrounding farms)
12	Functional	Warm Bokkeveld rural

2.2.2 Terms of Reference for the IDP Representative Forum

The terms of reference for the IDP Representative Forum are as follows:

- Represents the interest of the municipality's constituency in the IDP process;
- Provides an organisational mechanism for discussion, negotiation and decision-making between all the stakeholders in municipal government;
- Ensures communication between all the stakeholder representatives in municipal government;
- Monitors the performance of the planning and implementation process;
- Forms a structured link between the Municipality and representatives of the public;
- Participates in decision-making within the Representative Forums;
- Analyzes and discusses issues being developed;
- Ensures that priority issues of their constituents are considered;
- Ensures that annual business plans and SDBIP are developed, based on the IDP priorities and municipal Key Performance Indicators;
- Participates in the designing of IDP project proposals; and
- Discusses and comments on the final IDP product.

Witzenberg has not as yet formally constituted an IDP Representative Forum. Council has resolved that until such time as an IDP Representative Forum is created, the current Ward Committee structures should perform the role and function assigned to the Rep Forum. This Process Plan takes cognizance thereof, and all engagements indicated in this plan as devolving upon the IDP Representative Forum will be channeled to, and administered by, the Ward Committee structures.

SECTION THREE: ROLE-PLAYERS

3.1 ROLE-PLAYERS

The following role-players have been identified:

3.1.1. External Role-players

The external role-players identified are:

- Provincial Government Departments, specifically through the LGMTEC engagements and IGR structures;
- National government, specifically DPLG and National Treasury via guidelines issued;
- Representative Forums / Civil Society; and
- The Cape Winelands District Municipality.

3.1.2. Internal Role-players

The main internal role-players, apart from all officials in the Municipalities, are identified as:

- Council
- IDP / Budget Steering Committee; and
- Manager responsible for IDP.

3.1.3 ROLES AND RESPONSIBILITIES

The responsibility of the other spheres of government is to:

- Ensure vertical alignment of the IDP and Budget with Provincial and National sector plans.
- Monitor development and review of IDP and Budget process.
- Ensure responsiveness of the IDP and Budget.
- Contribute relevant information of Provincial Sector Departments, and to
- Contribute sector expertise and technical know-how.

The responsibility of the IDP Representative Forum is to:

- Ensure that community needs and priorities are communicated
- Ensure responsiveness of the IDP and Budget
- Ensure communication lines with represented organizations, and to
- Ensure information flow.

The responsibilities of Council are to:

- Decide on and adopt the IDP & Budget Process Plan; and to
- Decide on and adopt the IDP and Budget documents.

The responsibilities of the IDP / Budget Steering Committee are to:

- Identify additional role-players to serve on the IDP Representative Forum;
- Ensure that all relevant role-players are involved;
- Ensure that the review process is undertaken in accordance with agreed timeframes;
- Ensure that the process is focused on priority issues;
- Ensure that it is strategic and implementation-orientated; and to
- Ensure that sector requirements are adhered to.

The responsibilities of the IDP Manager, with regard to this process, are to:

- Ensure that the Process Plan is finalised and presented to the IDP / Budget Steering Committee;
- Adjust the IDP according to the proposals of the MEC;
- Ensure the continuous participation of role-players;
- Monitor and record the participation of role-players;
- Ensure that appropriate procedures are followed;
- Ensure documentation is prepared properly;
- Carry out the day-to-day management of the IDP process;
- Co-ordinate inputs received such as comments and enquiries;
- Ensure responses to comments and enquiries;
- Ensure alignment of the IDP with the District Municipality's framework;
- Co-ordinate the preparation of the Sector Plans and their inclusion into the IDP documentation;
- Co-ordinate the inclusion of the Performance Management System (PMS) into the IDP; and to
- Ensure the timeous submission of IDP documents to the relevant authorities.

SECTION FOUR: MECHANISMS AND PROCEDURES FOR PARTICIPATION

4.1 FUNCTIONS AND CONTEXT OF PUBLIC PARTICIPATION

The four major functions in the public participation process are:

- ◆ Needs orientation;
- ◆ Appropriateness of solutions;
- ◆ Community ownership; and
- ◆ Empowerment.

Similar to the preparation of the IDP, the public participation process in the annual drafting of the IDP review and Budget must be institutionalized. This is done in order to ensure that all residents and stakeholders have a fair and equal right to participate in matters of governance.

4.2 MECHANISMS FOR PARTICIPATION

The following mechanisms for participation will apply:

4.2.1 IDP Representative Forum (RF)

This forum represents all stakeholders and is as inclusive as possible. Efforts will be made to bring additional organizations into the RF and ensure their continued participation throughout the process.

Until such time though that Witzenberg has established an IDP Representative Forum, the Ward Committee structure will be utilized to fulfill the RF's role.

4.2.2 Media

A vigorous communication and information-sharing or dissemination campaign aimed at reaching out to all the communities will be undertaken in terms of the annual IDP and Budget process.

The following means of communication will be utilized:

- Municipal Website & Intranet;
- Notices at all Municipal Offices,
- Municipal Accounts;
- Loud-hailing the day before local Imbizo's (Meetings); and
- Advertisements in local news papers.

4.2.3 Information sheets

Information sheets will be prepared in English, Afrikaans and Xhosa, and will be distributed via the Ward Committee structure and/or Representative Forum. Information sheets will also be displayed on the Municipal Notice Boards, Municipal Website, in local media, and included in monthly municipal accounts.

4.2.4 Sector engagements

Dates, time and venues will be communicated in writing to each stakeholder at least seven days prior to the meetings. It is the responsibility of stakeholders to notify the Municipality of any changes in representatives, or contact details.

4.2.5 Local Imbizo's (Meetings)

All venues will be selected in a manner that ensures and enhances easy access for all community members to attend. Meetings should be either ward-based or per town / neighborhood, considering the size and distance.

Times chosen for the meetings should ensure maximum attendance by all the households. Venues will be prepared half an hour before starting time to allow community members to be properly seated before commencement of the session.

The communication medium will be the predominant language of the community, with arrangements for translation / interpretation, as the need may be.

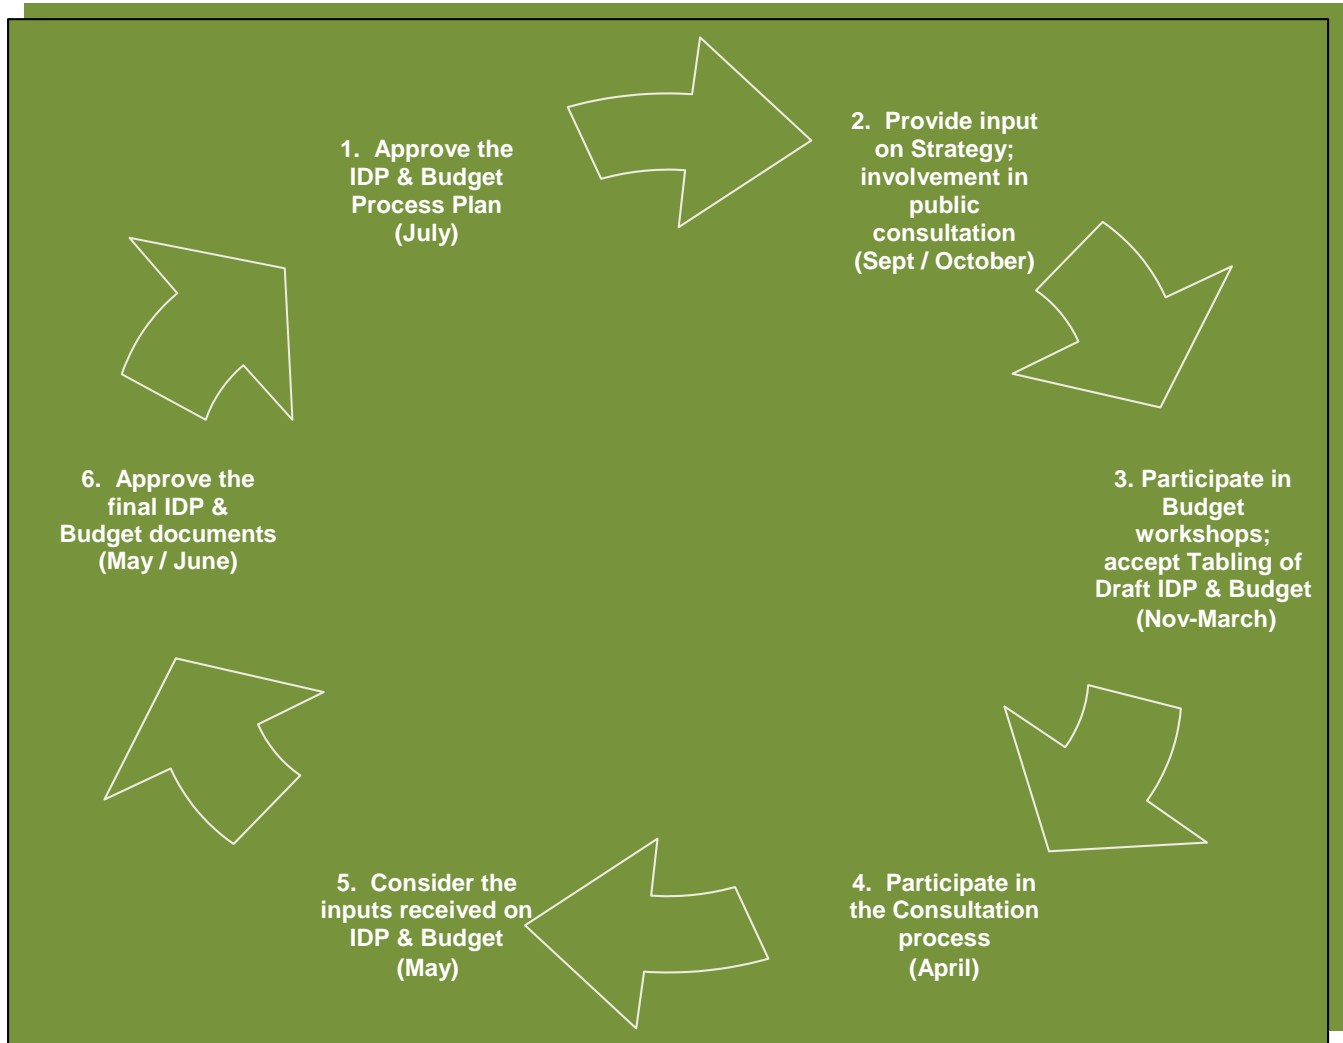

4.3 PROCEDURES / PROCESSES FOR PARTICIPATION

4.3.1 IDP Representative Forum

The IDP Representative Forum (when formally constituted and functional) will meet as indicated in the Process Plan.

4.3.2 Council Approval

The involvement of Council in the IDP and Budget compilation process is best illustrated in the process flow diagram below:

4.3.3 Newspapers

An outcome report will be submitted to the local newspaper on the completion of the adopted IDP and Budget documents, as well as an information spreadsheet on the key elements of the Final IDP and Budget.

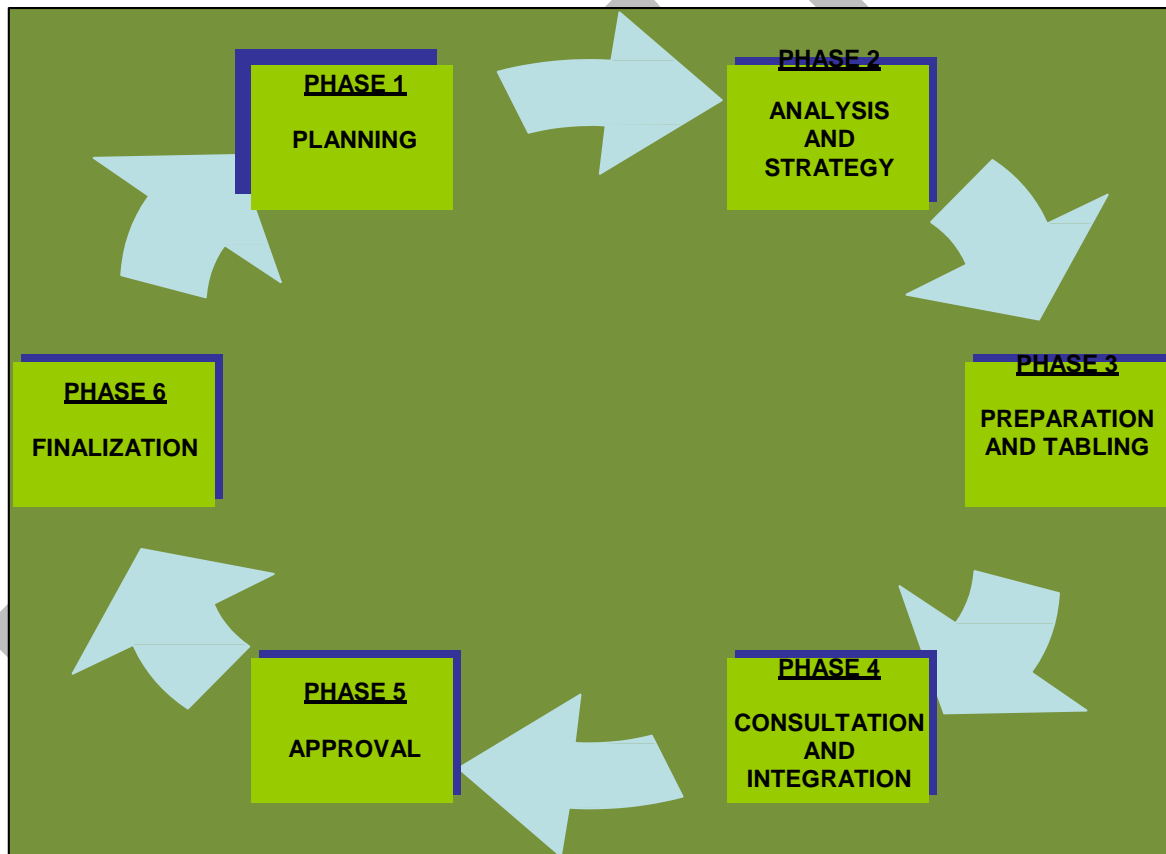

4.3.4 Information Sheets

At the completion of each phase an information sheet will be prepared in the three dominant languages, namely English, Afrikaans and Xhosa, providing an executive summary of the outcomes of the particular phase.

SECTION FIVE: ACTION PROGRAM

5.1 PHASES OF THE IDP AND BUDGET PROCESS

The IDP and Budget process speaks to Planning, Preparation, Implementation and Monitoring of the IDP, Budget, and the Performance Management System. The six distinct phases in the IDP and Budget process are indicated in the diagram below:

PHASE 1 - PLANNING

During this phase the Process Plan is divided into activities, and for each activity a timeframe is allocated as well as a linkage to the responsible person for each activity.

The Process Plan is compiled via a process of consultation with all the role-players.

PHASE 2 – ANALYSIS AND STRATEGY

Phase 2 comprises two stages, namely the Analysis and the Strategy formulation stages. For successful forward planning it is imperative to understand precisely what the current situation is as well as the historical trends. Therefore, both external and internal influences must be taken into account. And since all strategies and interventions are to be ward-based, all analyses, as far as possible, should speak to wards.

A proper analysis includes consultation with the whole spectrum of stakeholders, including the general public, as well as a thorough institutional assessment. It is important that all the stakeholders must have a common understanding of the gaps as well as the available resources – i.e. human, financial, property, plant and equipment.

Once the current resources and needs assessment has been completed, then only the formulation of a credible strategy to cover those gaps is possible.

PHASE 3 – PREPARATION AND TABLING

There are four distinct processes dealt with almost simultaneously in this phase, namely

- Preparation of draft Capital program (Next 3 years)
- Preparation of draft Operational Budget (Next 3 years)
- Preparation of draft Adjustment Budget, if necessary, and the
- Updating of the IDP.

And then the tabling of the following drafts is to be made, namely:

- Annual Report;
- Adjustment Budget;
- IDP; and
- Annual Budget.

PHASE 4 – CONSULTATION AND INTEGRATION

Consultation is done with three different types of stakeholders, namely: Government through LGMTEC's; structured civil society through IDP Representative Forum and/or Ward Committee structures, and with the community through Imbizo's/meetings in the different wards, neighborhoods or towns. All inputs, comments and objections received throughout this phase are considered, and recommendations are prepared. Thereafter the IDP and Budget is tabled to Council for consideration.

PHASE 5 – APPROVAL

Once the IDP and Budget documents are tabled, Council considers it for approval. Approval must take place before the start of the new financial year.

PHASE 6 – FINALIZATION

Once the IDP and Budget have been approved, the final documents are published. The Service Delivery and Budget Implementation Plan (SDBIP) is then developed. The performance agreements are also drafted, based on the approved documents.

WITZENBERG JUSTICE COALITION

AN OPEN LETTER TO THE WITZENBERG MUNICIPALITY

Stop cutting the electricity of the poor! Reconnect all households you have cut off!

To : The mayor, municipal manager, councillors and officials of the Witzenberg Municipality

From : The Witzenberg Justice Coalition and the Affected Communities

Date : July 2021

You have chosen to cut off the electricity supply to the poorest residents of this municipality. You have chosen to do this in the middle of the third wave of the deadly Covid pandemic. You have chosen to do this in the middle of the freezing winter. The cost of your decision is devastating for our people.

You are creating conditions for the coronavirus to be even more deadly. The cold will make people more vulnerable to infection. Some will rely on firewood for warmth and cooking and the smoke will damage their lungs. Some will eat less nutritious food and the immune systems will be weaker. Some will be unable to wash and maintain hygiene, which will increase the risk of infection.

As the Witzenberg Justice Coalition, we reject and condemn your actions. We will continue to mobilise people to fight back as we have always done.

Sometimes you say you have no choice, because the decisions depend on Eskom and the National Treasury. We say you have not been elected by Eskom or the National Treasury. If our fight is with them, your democratic duty is to stand with the people of the Witzenberg Municipality who elected you. You are willingly taking the side of the rich against the poor of Witzenberg. We entrusted the management of the municipality to you. Do not sell us out and blame others. We see you. We will fight you.

Our protest actions have forced you to reconnect many households you had cut off. We demand that you stop all cut offs and reconnect all households. We demand that you scrap all arrears.

2021/2022 ADJUSTMENT BUDGET FOR CONSIDERATION

1. PURPOSE

The purpose of this report is to:

- Document the 2021/2022 adjustment budget for consideration to the Municipal Manager and Executive Mayor.
- Provide the background information regarding the consideration and approval of the budget.

2. LEGAL FRAMEWORK

Chapter 4 of the MFMA provides the legal framework for municipal budgets. Section 28 deals with adjustment budgets and is quoted below:

"28. Municipal adjustments budgets.—(1) A municipality may revise an approved annual budget through an adjustments budget.

(2) An adjustments budget—

- (a) must adjust the revenue and expenditure estimates downwards if there is material under-collection of revenue during the current year;*
- (b) may appropriate additional revenues that have become available over and above those anticipated in the annual budget, but only to revise or accelerate spending programmes already budgeted for;*
- (c) may, within a prescribed framework, authorise unforeseeable and unavoidable expenditure recommended by the mayor of the municipality;*
- (d) may authorise the utilisation of projected savings in one vote towards spending under another vote;*
- (e) may authorise the spending of funds that were unspent at the end of the past financial year where the under-spending could not reasonably have been foreseen at the time to include projected roll-overs when the annual budget for the current year was approved by the council;*
- (f) may correct any errors in the annual budget; and*
- (g) may provide for any other expenditure within a prescribed framework.*

(3) An adjustments budget must be in a prescribed form.

- (4) *Only the mayor may table an adjustments budget in the municipal council, but an adjustments budget in terms of subsection (2) (b) to (g) may only be tabled within any prescribed limitations as to timing or frequency.*
- (5) *When an adjustments budget is tabled, it must be accompanied by—*
 - (a) *an explanation how the adjustments budget affects the annual budget;*
 - (b) *a motivation of any material changes to the annual budget;*
 - (c) *an explanation of the impact of any increased spending on the annual budget and the annual budgets for the next two financial years; and*
 - (d) *any other supporting documentation that may be prescribed.*
- (6) *Municipal tax and tariffs may not be increased during a financial year.*
- (7) *Sections 22 (b), 23 (3) and 24 (3) apply in respect of an adjustments budget, and in such application a reference in those sections to an annual budget must be read as a reference to an adjustments budget.”*

Section 23 of the Local Government: Municipal Finance Management Act: Municipal Budget and Reporting Regulations, regulates municipal adjustment budgets and is quoted below:

“Timeframes for tabling of adjustments budgets

- 23. (1) *An adjustment budget referred to in Section 28(2)(b),(d) and (f) of the act may be tabled in the municipal council at any time after the mid-year budget and performance assessment has been tabled in the council, but not later than 28 February of the current year.*
- (2) *Only one adjustment budget referred to in sub regulation (1) may be tabled in the municipal council during a financial year, except when the additional revenues contemplated in section 28(2)(b) of the Act are allocations to a municipality in a national or provincial adjustments budget, in which case sub regulation (3) applies.*
- (3) *If a national or provincial adjustments budgets allocates or transfers additional revenues to a municipality, the mayor of the municipality must, at the next available council meeting, but within 60 days of the approval of the relevant national or provincial adjustments budget, table an adjustments budget referred to in section 28(2)(b) of the Act in the municipal council to appropriate these additional revenues.*
- (4) *An adjustments budgets referred to in section 28(2)(c) of the Act must be tabled in the municipal council at the first available opportunity after the unforeseeable and unavoidable expenditure contemplated in that section was incurred and within the time period set in section 29(3) of the Act.*
- (5) *An adjustment budget referred to in section 28(2)(e) of the Act may only be tabled after the end of the financial year to which the roll-overs relate, and must be approved by the municipal council by 25 August of the financial year following the financial year to which the roll-overs relate.*
- (6) *An adjustment budget contemplated in section 28(2)(g) of the Act may only authorise unauthorised expenditure as anticipated by section 32(2)(a)(i) of the Act, and must be –*
 - a) *dealt with as part of the adjustment budget contemplated in sub regulation (1); and*
 - b) *a special adjustment budget tabled in the municipal council when the mayor tables the annual report in terms of section 127(2) of the Act, which may only deal with unauthorised expenditure from the previous financial year which the council is being requested to authorise in terms of section 32(2)(a)(i) of the Act.”*

2 **Progress to date:**

The Budget for 2021/2022 was approved by Council on 26 May 2021.

3. **DISCUSSION**

Councils approval for the adjustments to the budget as per the attached report are requested

4. **RECOMMENDATION**

a) That the adjustment budget of Witzenberg Municipality for the financial year 2021/2022 as set out in the budget documents be approved:

- i. Table B1 - Budget summary;
- ii. Table B2 Adjustments Budget Financial Performance (by standard classification);
- iii. Table B3 – Budgeted Financial performance (Revenue and Expenditure) by Vote;
- iv. Table B4 Adjustments Budget Financial Performance (revenue by source); and

Glossary

Adjustments Budget – Prescribed in section 28 of the MFMA. The formal means by which a municipality may revise its annual budget during the year.
Allocations – Money received from Provincial or National Government or other municipalities.
AFS – Annual Financial Statements.
Budget – The financial plan of the Municipality.
Budget Related Policy – Policy of a municipality affecting or affected by the budget, examples include tariff policy, rates policy and credit control and debt collection policy.
Capital Expenditure - Spending on assets such as land, buildings and machinery. Any capital expenditure must be reflected as an asset on the Municipality's Statement of Financial Performance.
Cash Flow Statement – A statement showing when actual cash will be received and spent by the Municipality. Cash payments do not always coincide with budgeted expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month it is received, even though it may not be paid in the same period.
CFO – Chief Financial Officer
DORA – Division of Revenue Act. Annual legislation that shows the total allocations made by national to provincial and local government.
Equitable Share – A general grant paid to municipalities. It is predominantly targeted to help with free basic services.
Fruitless and wasteful expenditure – Expenditure that was made in vain and would have been avoided had reasonable care been exercised.
GFS – Government Finance Statistics. An internationally recognised classification system that facilitates like for like comparison between municipalities.
GRAP – Generally Recognised Accounting Practice. The new standard for municipal accounting and basis upon which AFS are prepared.
IDP – Integrated Development Plan. The main strategic planning document of the Municipality
KPI's – Key Performance Indicators. Measures of service output and/or outcome.
MFMA – The Municipal Finance Management Act – No. 53 of 2003. The principle piece of legislation relating to municipal financial management.
MTREF – Medium Term Revenue and Expenditure Framework. A medium term financial plan, usually 3 years, based on a fixed first year and indicative further two years budget allocations. Also includes details of the previous three years and current years' financial position.
NT – National Treasury
Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactions which do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources are accounted for in Net Assets.
Operating Expenditure – Spending on the day to day expenses of the Municipality such as salaries and wages.
Rates – Local Government tax based on the assessed value of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.
R&M – Repairs and maintenance on property, plant and equipment.

SCM – Supply Chain Management.
SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprising quarterly performance targets and monthly budget estimates.
Strategic Objectives – The main priorities of the Municipality as set out in the IDP. Budgeted spending must contribute towards the achievement of the strategic objectives.
Unauthorised expenditure – Generally, expenditure without, or in excess of, an approved budget.
Virement – A transfer of budget.
Virement Policy – The policy that sets out the rules for budget transfers.
<p>Vote – One of the main segments into which a budget is divided. In Witzenberg Municipality the following votes and responsible senior manager was approved:</p> <ul style="list-style-type: none"> • Budget & Treasury Office – Director: Financial services • Civil Services - Director: Technical services • Community & Social Services – Director: Community services • Corporate Services – Director: Corporate services • Electro Technical Services - Director: Technical services • Executive & Council – Municipal Manager • Housing– Director: Community services • Planning - Director: Technical services • Public Safety– Director: Community services • Sport & Recreation– Director: Community services

PART 1 – ADJUSTMENTS BUDGET

Section 1 – Mayor’s Report

Speaker
Aldermen
Deputy Executive Mayor
Members of the Mayoral Committee
Councillors
Representatives of Provincial Government
Municipal Manager
Directors and officials
Introduction

It is my privilege to present to you the Roll-over Adjustments Budget for the 2021 / 2022 financial year.

This adjustment budget seeks to include funds relating to specific projects that were unspent at the end of June 2021. It is drafted in terms of requirements of the MFMA and seeks to adhere to the stipulations of specifically section 28(2) of the MFMA.

The reason for the tabling of this adjustment budget is fully disclosed in the executive summary of this report.

The roll-over budget is a mechanism instigated to ensure that funds committed to identifiable projects are spent. It increases expenditure on operational and capital programmes which in turn increases service delivery to the community. Increases in expenditure will be funded through the associated unspent grant funding or cash backed accumulated surpluses as at 30 June 2021

Tabling

Honourable Speaker, I recommend that the adjustments budget be approved.

COUNCILLOR B KLAASEN
EXECUTIVE MAYOR

Section 2 – Resolutions

ADJUSTMENTS MTREF 2021/2022

NERSA ELECTRICAL DEPARTMENT COMPLIANCE AUDIT 2020/2021

Purpose

The purpose of this report is to inform Council of the compliance audit by NERSA of the Electrical Department of the Municipality and to approve the CAP (Corrective Action Plan) as required to be submitted to NERSA.

Background

During September 2020, the National Energy Regulator of South Africa (NERSA) approached the Municipality to initiate a compliance audit of the Witzenberg Electrical Department via a self-assessment process since it was not possible for NERSA to conduct site inspections due to the COVID-19 pandemic restrictions.

The objective of the audit was to determine the level of compliance of the Licensee with the legal, financial and technical conditions of the electricity distribution licence.

The audit letter and report are attached hereto.

It was determined that Electrical Department complies with the conditions of the electricity distribution licence. There were however a few minor instances of non-compliance that must be addressed by means of a CAP that must be submitted within 120 days to NERSA from the date of 26 February 2021.

The 'minor issues' referred to in the NERSA report are: -

- a) The Licensee must budget 6% for repairs and maintenance as stipulated in the NERSA tariff guideline.
- b) The Municipality must make funds available to urgently replace the aging electrical network.
- c) The Licensee must initiate a preventative maintenance plan.

These have been captured in the proposed Corrective Action Plan below, intended for submission to NERSA once approved by Council.

NERSA has also since informed Council that they will be performing an on-site visit on 21 & 22 April 2021.

Recommendations

1. That Council notes the NERSA compliance audit outcome for the Electrical Department.
2. That the proposed Corrective Action Plan be approved by Council and submitted to NERSA.

EXECUTIVE SUMMARY

During September 2020, the National Energy Regulator of South Africa (NERSA) conducted a compliance audit on the Witzenberg Local Municipality ('the Licensee' or 'the Municipality') via a self-assessment process, as it was not possible to conduct site inspections due to the COVID-19 pandemic restrictions. The objective of the audit was to determine the level of compliance of the Licensee with the legal, financial and technical conditions of the electricity distribution licence.

After the audit, the findings were recorded in a draft report and forwarded to the Licensee for comments on the correctness of the findings. The comments from the Witzenberg Local Municipality were received and incorporated into the report, hence the report is considered final and a true reflection of the findings of the compliance audit. The objective of the final report is to assist the Licensee in identifying possible areas for improvement and to submit a corrective action plan (CAP) to NERSA, outlining a programme that addresses the instances of non-compliance.

This corrective action plan should be submitted to NERSA within 120 days of the receipt of the final report by the Licensee. NERSA will monitor the implementation of this corrective action plan by the Licensee.

The Witzenberg Local Municipality complies with the conditions of the electricity distribution licence. There were a few minor instances of non-compliance that must be addressed.

The following observations pertaining to the compliance audit were noted and highlighted to the Licensee.

Resources

The Departmental Structure for the Electricity Services Department was submitted to the audit team. The Witzenberg Local Municipality's Electricity Department organogram is divided into two divisions, namely the West and the East divisions. Each division is headed by a Superintendent. The Municipality's Electricity Department structure is aligned with the departmental needs. The structure had 44 approved positions and seven positions were vacant, which translates to a vacancy rate of 15%. The vacant positions were for Senior Electrician at the West Division and a team leader at the East Division, as well as two workers, two artisan assistants, and a clerk.

The Municipality also reported that the field vehicles, tools and equipment were adequate for the teams to carry out tasks effectively.

Financial Information

- a) The Witzenberg Local Municipality budgeted 4.9% of the total electricity expenditure for the maintenance of the electricity network (estimated actual salaries component spent on R&M of 50%), which is below the NERSA tariff guideline of 6%.
- b) The Witzenberg Local Municipality received a clean audit opinion from the Auditor-General of South Africa (AGSA) for the 2018/19 financial year.
- c) The Licensee mentioned that the Electricity Department was ring-fenced according to the Municipal Standard Chart of Accounts (MSCOA) and with regard to income and expenditure items.
- d) The Municipality's asset register is held and updated by the Finance Department. The recently generated master-plan asset register is updated on an annual basis by consultants.
- e) The Licensee was charging NERSA-approved tariffs. Evidence in the form of invoices was submitted to the NERSA audit team.
- f) The Licensee's bulk supply payment was up to date.

Network Condition

Network condition assessments were not conducted by NERSA due to the COVID-19 travel restrictions.

The average age of the network was not estimated. The Licensee reported that the major towns pre-date electricity. As such, some portions of its electrical network was outdated and generally require much care and replacement.

1. INTRODUCTION

1.1 Overview

The National Energy Regulator of South Africa (NERSA) regulates the energy industry in accordance with government laws and policies, standards and international best practices in support of sustainable development. The organisation issues licences, with conditions, to electricity distributors and therefore requires audits to be conducted to determine the level of compliance with the licence conditions.

NERSA is required to monitor and assess whether the electricity suppliers comply with the conditions of their licences. Section 4(a) (vii) of the Electricity Regulation Act, 2006 (Act No. 4 of 2006) ('the Act'), states that 'the Regulator must enforce performance and compliance; and take appropriate steps in the case of non-performance'. To implement the Electricity Regulation Act, the Energy Regulator approved a compliance monitoring framework for electricity distributors in 2011, which acts as a guideline on how compliance audits and monitoring must be conducted. NERSA conducts the compliance audits on licensed electricity distributors annually.

1.2 Audit Objectives

The key objectives of the compliance audit are to:

- a) evaluate and review activities of the regulated entities;
- b) determine the level of compliance of licensees with all the licence conditions governing their electricity business operations;
- c) check the level of compliance with the quality of service and the quality of supply standards; and
- d) inform the Energy Regulator of the quality of service and the quality of supply provided by the licensees across the country.

2. METHODOLOGY

Due to the COVID-10 pandemic, a self-assessment compliance audit was arranged with Witzenberg Local Municipality ('the Licensee' or 'the Municipality'). A questionnaire that covers all aspects of the distribution licence, key company and network statistics and asset management information was forwarded to the Licensee.

In September 2020, NERSA had a virtual meeting with the Witzenberg Local Municipality. NERSA gave a presentation that reviewed the audit scope, objectives, methods, procedures and communication channels necessary for the audit. All unclear details were clarified. The self-assessment compliance audit will be followed by site inspections at a later stage, when the COVID-19 regulations have been eased.

3. AUDIT TEAM & WITZENBERG LOCAL MUNICIPALITY REPRESENTATIVES

The audit team members from NERSA were:

- Mr Gregory Hopkins - Compliance Monitoring Engineer
- Mr Thabo Manaka - Compliance Monitoring Technician
- Mr Hendrick Mokhonoana - Compliance Monitoring Technician
- Ms Amanda Mtembu - Dispute Resolution Officer

The Witzenberg Local Municipality was represented by:

- Mr Joseph Barnard - Director Technical Services
- Mr Pierre van den Heever - Senior Manager Electro-Technical Services
- Mr Daniel Greeff - Manager Electro-Technical Services

4. GENERAL INFORMATION ON WITZENBERG LOCAL MUNICIPALITY

The Witzenberg Local Municipality is an electricity distribution licence holder with licence number NER/D/WC022. The supply areas listed in Schedule 1 of the distribution licence correspond with the areas that the Witzenberg Local Municipality was supplying at the time of the audit.

The Licensee has four main bulk supply points with an estimated installed capacity of 50.85MVA. Its Notified Maximum Demands (NMDs) and Maximum Demands (MDs) as listed below:

- a) Bon Chretien with an NMD of 22MVA and MD of 25.055MVA;
- b) Ceres with an NMD of 14.5MVA and MD of 13.219MVA (Bon Chretien and Ceres are regarded as a diversified load);
- c) Tulbagh Main with an NMD of 4.5MVA and MD of 4.182MVA; and
- d) Wolseley Main with an NMD of 4.5MVA and MD of 4.539MVA.

The Licensee has 12,630 customers, which are categorised as follows: 10,310 domestic prepaid, 1,639 domestic credit meters, 59 industrial and 568 commercial customers, with 54 registered Resellers. The average age of the network was not

estimated. The Licensee reported that the major towns pre-date electricity. As such, some portions of its electrical network were outdated and generally require much care and replacement.

The estimated geographical supply areas for the three towns were as follows:

Ceres	97.750 km ²
Tulbagh	3.498 km ²
Wolseley	3.421 km ²

5. AUDIT FINDINGS

During the site and office audit, a factual account of what was observed was recorded and discussed.

5.1 Key Utility Statistics

5.1.1 Departmental Structure

The Departmental Structure for the Electricity Services Department was submitted to the audit team. The Witzenberg Local Municipality's Electricity Department organogram is divided into two divisions, namely the West and the East divisions. Each division is headed by a Superintendent. The Municipality's Electricity Department structure is aligned with the departmental needs. The structure had 44 approved positions and seven vacant positions, which translates to a vacancy rate of 15%. The vacant positions were for a Senior Electrician at the West Division, two workers, two artisan assistants, a clerk and a team leader at the East Division.

The Municipality reported that although the Department is functioning adequately, there is always a need for more staff. Filling of vacant posts and requests for new posts are motivated to Senior Management from time to time and are considered on merit, taking into account the available finances, the efficiency of current personnel and the legal requirements.

However, certain critical posts must be filled/created to move from daily running mode to ensuring an increasingly reliable, safe and compliant electrical service, especially since the infrastructure is considered old and requires additional care and attention. The Municipality makes use of

contractors for major construction works and specialist services as part of a three-year tender.

The Municipality also reported that the current field vehicles, tools and equipment were adequate for the teams to carry out tasks. However, the average age of the vehicles is relatively high. Despite their workshops excelling at attempting to keep the vehicles roadworthy and on the road, there are challenges related to the reliability (availability) of these vehicles.

The Municipality's Electricity Department structure is detailed in Table 1.

Table 1: The Electricity Department structure

5.1.2 Training

The Licensee reported that employees are provided with training. All training requirements take requests by personnel and management, as well as budget constraints, into consideration.

External training includes, among others, courses on occupational health and safety, Operating Regulations for High Voltage Systems (ORHVS) courses and safe environment courses.

5.1.3 Health and Safety

The Witzenberg Local Municipality had appointed Mr Pierre van den Heever as the Responsible Person in terms of section 16.2 of the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993) ('the OHS Act'). Safety meetings are held as part of departmental meetings, on various aspect of OHS. A copy of the minutes of a safety meeting was submitted to the audit team.

5.1.4 Areas of Supply

The Witzenberg Local Municipality is an electricity distribution licence holder with licence number NER/D/WC022. The supply areas according to Schedule 1 of the distribution licence correspond with the areas that Witzenberg Local Municipality was supplying at the time of the audit.

5.1.5 Financial conditions

5.1.5.1 Separate Electricity Financial Account

The electricity distribution financial affairs of the Witzenberg Local Municipality are ring-fenced from the other businesses of the Municipality. The Municipality stated that it has implemented the Municipal Standard Chart of Accounts (MSCOA) from 1 July 2017 as enforced by National Treasury. This included the chart of accounts as a department segment; as such the electricity unit constitutes a department and is thus ring-fenced with regard to income and expenditure items.

The 2018/19 Financial Statements for the Witzenberg Local Municipality were audited by the AGSA. The Municipality received a clean audit opinion from the AGSA for the 2018/19 financial year. A copy of the report from the AGSA was submitted to the audit team.

5.1.5.2 Tariff application and approval process

The Witzenberg Local Municipality are charging customer tariffs approved by NERSA. The copy of a customer invoice submitted to the audit team confirmed that the tariff charged by the Municipality had been approved by NERSA.

5.1.5.3 Payment of bulk supply account

The Municipality's Eskom account was up to date. A copy of the latest Eskom account for the month of July 2020 was submitted to the audit team.

5.1.5.4 Promulgation of tariffs

The Witzenberg Local Municipality makes use of Public Participation meetings, Ceres Business Initiative and other businesses. The draft budget was made available for viewing and public input after being tabled at council. The final approved budget was available on the website and at the various municipal offices.

5.1.5.5 Budget versus Actual Spending on Maintenance Costs

Table 2: Figures of total expenditure vs budget and actual figures for maintenance

Financial Year	Total Expenditure (Electricity Department)	Maintenance Budgeted Figures	Maintenance Actual Figures
2018/19	R209,615,668.00	R4,725,051.00	R4,580,649.00
2017/18	R204,274,037.00	R5,346,864.00	R5,358,643.00
2016/17	R200,538,877.00	R4,280,092.00	R4,093,557.00
2015/16	R181,158,070.00	R4,337,169.00	R3,952,518.00
2014/15	R151,415,575.00	R4,012,124.00	R3,043,602.00

Graph 1: Comparison between budgeted and actual maintenance figures for the past five years

The graph shows the amount budgeted and actual amount spent on repairs and maintenance for the past five years. It also indicated that the budgeted and actual figures spent on repairs and maintenance were similar. The amount budgeted for the 2018/19 financial year was 4.9%, which is below the 6% tariff guideline requirements.

5.1.5.6 Stores

The Witzenberg Local Municipality does have sufficient critical spares in stock for the Electrical Network. The Municipality reported that it issues a supply of electrical materials equipment tender every three years, where the stores are replenished as and when required. However, there are occasional challenges when a tender runs out before a new one is awarded. This occurred during the COVID-19 pandemic.

5.1.5.7 Contract and Project Management

The Municipality mentioned that procurement was handled by the Supply Chain Management Department through its processes as set out by the National Treasury.

The contracts are given to the various departments for contract administration. Where a consulting engineer was appointed, the contract management is done by the Municipality and project management by the consulting engineer. This usually applies to projects with contract amounts greater than R2.5m. Smaller operational, repairs and maintenance projects are handled in-house with a minimised project management approach.

5.1.5.8 Asset Management

An asset management policy and asset register were available and copies of both were submitted to the audit team. The Municipality was in the process of updating the Municipal Asset Register to include low voltage (LV) assets. The Electricity Department was in the process of combining the latest Master Plan Asset Register with the Finance Asset Register.

The Licensee mentioned that the maintenance of the asset register is done by the Financial Administration Department.

The list of attributes found in the asset register are:

- a) name of asset;
- b) description;
- c) categorising of assets;
- d) area
- e) quantity;
- f) coordinates;
- g) date of construction;
- h) age; and
- i) recommended useful life.

The Witzenberg Local Municipality does have a Geographical Information System (GIS), however, it was electrically outdated. With the last electrical master plan update, however, an electronic updated electrical information system was made

available. The Municipality was in the initial stage of integrating this into a combined GIS. This process was expected to take a few years to reach full integration.

5.2 Key Network Statistics and Strategic Planning

5.2.1 Network information

The Licensee has four main bulk supply points with an estimated installed capacity of 50.85 MVA. Its Notified Maximum Demands (NMDs) and Maximum Demands (MDs) are listed below:

- a) Bon Chretien with an NMD of 22 MVA and MD of 25.055MVA;
- b) Ceres with an NMD of 14.5 MVA and MD of 13.219 MVA (Bon Chretien and Ceres are regarded as a diversified load);
- c) Tulbagh Main with an NMD of 4.5 MVA and MD of 4.182 MVA; and
- d) Wolseley Main with an NMD of 4.5 MVA and MD of 4.539 MVA.

According to Witzenberg Local Municipality, the total energy losses for the electricity business in the 2019/20 financial year was 10.6%. The Municipality could not break down the technical losses and non-technical losses, respectively. The Municipality is about to implement a 'Revenue Enhancement' programme, which primarily addresses electricity theft.

The Municipality mentioned that it was running out of NMD on all its Eskom intake points and Eskom is currently unable to comply with NMD requests due to its backbone network being saturated. Eskom's earliest possible update of their network is 2030 for Ceres and it did not have projects in the foreseeable future to increase the NMD for Tulbagh/Wolseley. The challenge was that developments and growth in these towns are stifled/stopped due to Eskom being unable to supply. The discussions between the Witzenberg Local Municipality and Eskom regarding this matter have been going on since 2012.

The Municipality officially applied for an additional 5MVA in May 2019, but the process is proceeding very slowly from Eskom's side. (Eskom proposed installing MV PFC on their network – the Municipality is willing to accept this option, but Eskom is not attending to the matter with the urgency it requires).

The electricity consumption for streetlights for the entire municipal area was 3,335,109 kWh per annum.

Network cable length is estimated to be as follows:

MV underground cables	70.1 km
MV OH	133.5 km
LV underground cables	66.52 km
LV OH	16.12 km

The Licensee did not estimate the average age of their network.

5.2.2 Load forecasting

The Witzenberg Local Municipality has an individual master plan for each of its towns, namely Ceres, Wolseley and Tulbagh. The master plan provides the load forecast and projected future growth of the network for each town from 2018 to 2028.

The Municipality conducts short-term (three-year) load forecasts. It is communicated to Eskom for NMD purposes and the following applies:

- a) Ceres had a conservative growth of 2 MVA per annum;
- b) Tulbagh had an average growth of 0.383 MVA per annum; and
- c) Wolseley had an average growth of 0.127 MVA per annum.

5.2.3 Risk assessment and strategies

As part of the master plan, the Witzenberg Local Municipality enlisted the services of consulting engineers in 2017 to conduct a risk assessment of the Municipality's network. The aim of the assessment was to ensure that the network is able to meet the current and future demand.

5.2.4 Demand Side Management (DSM)

The Witzenberg Local Municipality reported that it did not have formal Demand Side Management (DSM) systems or strategies in place.

5.2.5 Ring feeds

The Witzenberg Local Municipality mentioned that the 11kV network had sufficient ring feeds. Copies of the single line network diagram were submitted as proof.

5.2.6 Network diagrams

The single line network diagrams were updated in 2018 by the consulting engineers as part of the master plan. Copies were submitted to the NERSA audit team.

5.2.7 Network planning

The Witzenberg Local Municipality was in the process of conducting a protection study and proposed open points, as per the master plan. The Municipality also submitted copies of a business plan for the electrification of Nduli Informal, with cost estimates and technical details.

5.2.8 Simulation packages

The Municipality does not have a software package to simulate network conditions for network planning and expansion. However, it utilised consultants when simulations were required.

5.2.9 Maintenance plans/policies

The Witzenberg Local Municipality has a maintenance plan/policy in place. The Municipality reported that it did not follow the maintenance plan, as it did not perform work scheduled according to a cycle. However, maintenance was done as dictated by the problems experienced on the network.

5.2.10 Network inspections

The Licensee stated that it conducts formal network inspections. Copies of various inspection sheets for inspections conducted on the network were submitted to the audit team as proof.

5.3 Quality of Service

5.3.1 Monitor Quality of Service

The Licensee monitors the Quality of Service as required by the NRS 047 standard.

A Meter readings

According to the Licensee, meter readings are done on a monthly basis. The system calculates a consumption usage based on the previous month's consumption if the actual reading could not be read.

B Billing/customer account

Billing is done by the Finance Department. The billing was transparent and user friendly, and in line with the requirements of the NRS 047. The bills that were submitted to the NERSA audit team reflected all the required information.

C Account queries/complaints

Customers can lodge account complaints at the municipal offices' control room. The control room initiates a complaint report with an ER number and informs the standby electrician. The complaint is then attended to. Faults are reported to the municipal switchboard, which is operational 24 hours a day. Enquiries/requests are handled on an as-and-when-required/requested basis. Staff respond to emails, letters or walk-in visits to the office.

D Payment venues

There were enough venues for the payment of electricity accounts for the customers. The customers are able to pay their accounts at the municipal offices and the post office, as well as through easy pay and internet banking.

E Meter auditing and calibration

The Licensee conducts meter audits and verification tests when a customer requests a test for the accuracy of a meter. The Licensee recently performed meter audits of all its Large Power Users (LPUs).

F Disconnections

The Licensee sends the customer a notice alerting them that payment must be made within 14 days. If the payment is not made within 14 days, no final letter is issued. Instead, the disconnection is effected. Monthly penalty charges are levied on all accounts with arrears.

G Reconnections

Reconnections are done immediately after payments have been received. An additional fee for reconnection is charged.

H Quotations

When a customer applies for new electricity supply, the Licensee makes an assessment and supplies the customer with a quotation within one day. The Licensee stated that it keeps date-based records, and quotations do not exceed the maximum seven days as required by NRS 047.

I Planned outages

The Licensee distributes a written notice to customers before the planned outage. The notice is hand delivered in business areas and placed on social media platforms.

J Network Performance Statistics

The Municipality maintains a database of its performance on network statistics in terms of keeping up-to-date records, such as restoration times for all faults and the duration of unplanned outages experienced by the Municipality.

5.4 Quality of Supply (QoS)

5.4.1 Formal Power Quality Management System

The Witzenberg Local Municipality does have a formal Quality of Supply (QoS) management system in place to ensure that it is supplying electricity within the standards of NRS 048-4.

However, the Municipality does not report its QoS statistics to NERSA on an annual basis.

5.4.2 Monitoring of QoS

Quality of supply instruments monitor the four main in-feed supply points and other points. The points are Bon Chretien Sub – 11.5 kV, Ceres Kragstasie Sub – 11.5 kV, Ezelfontein Skool – 230 V, Tulbagh Main Sub – 11.5 kV, Wolfpack Sub – 11.5 kV and Woseley Main Sub – 11.5 kV.

The Municipality reported that it utilised the CT Lab's premier Power Quality Monitoring and Analysis System called Osprey Pro, which was accessible through the internet. It is a multi-user software system with role-based security. The data is stored at a network provider's data centre. The software was reported to have advanced fleet health functionality that reports in near real time if a hardware or data error occurs.

5.4.3 QoS Contracts

The Witzenberg Local Municipality did not have QoS contracts or service level agreements with key customers

5.4.4 Emergency plan

The Witzenberg Local Municipality did not have an emergency plan that lists its critical loads, however it mentioned that a list of essential loads on the network was provided by Eskom.

The Municipality had dedicated officials and an updated list of contact details for the officials. The Municipality also made use of the following platforms to communicate with customers during network system emergencies: social media, newspaper, pamphlets and loud hailing. Direct contact is made with LPUs.

5.5 Network Operation and Information Technology

5.5.1 Operation Control System

The Witzenberg Local Municipality did have a manual operation control centre for the switching of the MV network using line diagram in the offices of the Superintendents, with coloured pins indicating the status of the system (open points etc.).

5.5.2 Post-mortem incident reviews

The Licensee indicated that it did not conduct post mortem incident reviews as there no recent large incidents.

5.5.3 IT Department

The Witzenberg Local Municipality does have an IT Department that runs and maintains the organisation's information systems. The Municipality occasionally outsources IT support when required.

6. PLANT CONDITION

NERSA could not conduct a network condition assessment due to the COVID-19 lockdown and travel restrictions.

7. CONCLUSION

The Witzenberg Local Municipality's Electricity Department has sufficient human and capital resources to keep its electrical network in good operating condition. The Municipality had ensured that the electricity supply remained reliable and at an acceptable quality. However, the Municipality's master plan indicated that the electrical network was classified as being in poor condition and the electrical equipment needed urgent replacement. The Municipality complies with its licence conditions, with minor exceptions as listed below.

8. RECOMMENDATIONS

Based on the findings highlighted in this report, NERSA recommends the following:

- a) The Licensee must budget 6% for repairs and maintenance as stipulated in the NERSA tariff guideline.
- b) The Municipality must make funds available to urgently replace the aging electrical network.
- c) The Licensee must initiate a preventative maintenance plan.

9. THE WAY FORWARD

This final report is considered a true reflection of the findings of the audit that took place in September 2020. The Energy Regulator instructs the management of the Witzenberg Local Municipality to draft a remedial/corrective action plan that outlines steps to be taken to rectify the instances of non-compliance identified in this report, within 120 days of receipt of the final report.

Once NERSA has agreed with the corrective action plan from the Witzenberg Local Municipality, a monitoring process shall be instituted to enforce the implementation of the corrective action plan.

All communication should be forwarded to the Head of the Electricity Licensing, Compliance and Dispute Resolution Department, unless indicated otherwise by means of a formal letter signed by the Head of Department.

Dear Mr Nasson

FINDINGS FROM THE COMPLIANCE AUDITS CONDUCTED ON THE ELECTRICITY DISTRIBUTION INDUSTRY IN 2020: WITZENBERG LOCAL MUNICIPALITY

The National Energy Regulator of South Africa (NERSA) is pleased to inform you that on **05 February 2021**, the Energy Regulator noted the consolidated report on the findings from the electricity distribution industry compliance audits conducted in the 2020 calendar year.

Accompanying this letter is the final audit report for the Witzenberg Local Municipality, as well as a template of a corrective action plan (CAP) to rectify the instances of non-compliance identified in the compliance audit report.

Kindly peruse the final report and indicate, within 14 days of receipt of this letter, any issues that are regarded as confidential. Should NERSA not receive your response within the 14-day period, it will be concluded that the final audit report of the Witzenberg Local Municipality does not contain any confidential information, and the consolidated report will be published on NERSA's website.

In addition, NERSA requests that you study the attached final audit report and lead your management team in the development of a time-bound corrective action plan.

Regulator Members:

Ms MMD Nkomo (Deputy Chairperson)

*Mr N Gumede *Ms N Maseti *Mr MW Mkhize Mr S Mokoena Ms Z Mpungose Mr FK Sibanda

*Full-Time Regulator Members

NERSA is a Regulatory Authority established in terms of the National Energy Regulator Act, 2004 (Act No 40 of 2004)

The electricity management team of the Witzenberg Local Municipality must submit this corrective action plan to Mr Hendrick Mokhonoana at Hendrick.mokhonoana@nersa.org.za or Mr Thabo Manaka at Thabo.manaka@nersa.org.za within 120 days from the date of receipt of this letter.

For any further information, please contact Mr Dennis Seemela at 012 401 4794 or dennis.seemela@nersa.org.za.

We look forward to your cooperation in this regard.

Yours sincerely

SPATIAL DEVELOPMENT FRAMEWORK: CERES PRIORITY FOCUS AREA 1

Annexure attached: Spatial Development Framework: Ceres Priority Focus Area 1

BACKGROUND

With the drafting of the Spatial Development Framework specific areas needing further investigation and planning was identified. These areas, called "Priority Focus Areas", were identified due to their strategic importance for development.

The area located between Ceres, Nduli and Bella Vista is designated "Ceres Priority Focus Area 1". Under an extension of the SDF contract the consultant was appointed to draft a precinct plan that would guide future development of the area. The final draft of the plan is attached as an **Annexure** to this memo.

PROCESS

This process was initiated as an extension to the MSDF 2019/20 process. During the month of August and September 2020 the draft document was finalised through the development of a concept and first draft proposals. These proposals were submitted to municipal officials for inputs. Hereafter more detailed proposals such as ideas for structure, key interventions, guidelines, future infrastructure requirements etc. were developed and tested with internal departments and circulated to key stakeholders for inputs. During the months of October and November 2020 engagements and inputs were incorporated and the document was finalised. On 22 February 2021 the document was presented to Senior Management.

PRECINCT PLAN SUMMARY

The plan contains a strategic analyses and the detailing of concepts for future development of Priority Focus Area 1 for Ceres, identified during the 2019-2020 MSDF process as the area between Ceres, Bella Vista and Nduli, in the form of a Precinct Plan as part of the MSDF package. Conceptually, in terms of the overall distribution of uses and activities, it is proposed that:

- Movement connections between the three main concentrations of people and work/ commercial opportunity be improved.
- Activities relying on strong movement flows and exposure be located along major movement routes.
- Residential and space extensive uses be located behind activities reliant on major movement flows and exposure.
- Movement routes be designed in a manner also providing for non-motorised transport.
- Public and social facilities be located on non-motorised transport routes and in a manner accessible to all communities.
- A range of housing types be promoted, providing for all income groups.
- Development be phased, largely starting from the R46 and progressively incorporating land northwards towards Bella Vista.

Due to different characteristics and potentials of parts of the Precinct Plan area, four sub-precincts, was identified and proposed as follows:

Sub-precinct 1: The area of Vredebes and surrounds.

Sub-precinct 2: The area east of Retief Street.

Sub-precinct 3: The central section of mostly farmland south of the Schoonvlei Industrial area.

Sub-precinct 4: The Schoonvlei Industrial area.

In summary the proposal for each of the sub-precincts are as follows:

Sub-precinct 1:

Non-residential use along the edge of Vredebes abutting the R46 and that the Vredebes housing area could be extended westwards towards the proposed new activity Route. The land area south of the R46 and between Du Toit Fruit/ Ezelfontein Road and Nduli (measuring some 30ha in extent) has been included within the urban edge of the approved 2019 MSDF. Ideally this land should be developed for commercial/ industrial use abutting the R46 and residential use behind.

Sub-precinct 2:

As a principle, it is believed that this triangular shaped land area (measuring approximately 35ha in extent) should be developed for commercial and industrial use abutting major routes with residential use behind. As indicated under sub-precinct 1, the Vredebes housing area could be extended westwards towards the proposed new activity route, with commercial and institutional uses abutting major routes.

Sub-precinct 3:

Sub-precinct 3 is currently outside the urban edge in terms of the approved 2019 MSDF. The sub-precinct measures some 200ha in extent. In general terms, development of this area is the lowest priority of the sub-precincts comprising the Precinct Plan. Every effort should be made to prevent piecemeal development of this area until such time as other sub-precincts have been developed to a large extent. In terms of the future distribution of activities, development of the area should be structured with a north south route connecting Bella Vista, Schoonvlei, and the activity route proposed as part of sub-precinct 2. In general terms, land adjacent to the R303 and north-south route should be used for industrial and commercial opportunity, with residential opportunity behind.

Sub-precinct 4:

The Schoonvlei Industrial area is partially developed. Two large properties abutting the cemetery and Kamp Street – respectively measuring 16ha and 20ha in extent – remain vacant. The Cape Winelands District Rural Development Plan identifies a district Agri-Park as part of the Schoonvlei Industrial area. The facility is seen as a catalyst for rural economic development/ industrialisation ensuring development and growth in order to improve the lives of all communities in the district.

RECOMMENDATION

It is recommended that the Precinct Plan for Ceres Priority Focus Area 1 dated December 2020 be adopted as a supplement to the Witzenberg Spatial Development Framework.

Executive Summary and Main Focus of Precinct Plan

This report contains a strategic analyses and the detailing of concepts for future development of Priority Focus Area 1 for Ceres, identified during the 2019-2020 MSDF process as the area between Ceres, Bella Vista and Nduli, in the form of a Precinct Plan as part of the MSDF package (see Figure 1 for the delineation of the study area).

The potential of the area to accommodate significant growth and meet diverse needs, including economic development opportunity, a range of housing types, and integrated movement between largely fragmented settlement parts has been acknowledged in various initiatives. To maximise the potential of the area, the need for more detailed “precinct” level planning was identified, building on previous work undertaken as part of the WCG RSEP.

Existing regional and local policy documents support the integrated development of the area between Ceres, Bella Vista and Nduli, while parallel initiative such as the Agri-Park development aligns with the future vision of this strategic area.

A high-level analysis identified the need for non-motorised transport, improved movement routes and access as well as a wider range of housing typologies and other socio-economic opportunities.

In support of the developmental visions as set out in the current IDP and MSDF documents, the planning vision for this Precinct Plan is:

“To guide the development of the Precinct Plan area in a manner which serves Witzenberg’s overall urban development and management objectives, specifically the recognition and safeguarding of Witzenberg’s critical and diverse natural, agricultural, historic, cultural, commercial, and institutional assets while increasing livelihood opportunity for all its citizens.”

To achieve the IDP and MSDF vision, five considerations were stated as critical:

- 1.** First, maintain and protect the integrity, authenticity and accessibility of Witzenberg’s natural environment and associated resources.
- 2.** Second, maintain and expand the Municipality’s key regional and intra-regional infrastructure.
- 3.** Third, maintain and grow the agricultural assets within the Municipality.
- 4.** Fourth, maintain and expand access to Witzenberg’s unique sense of people and place.
- 5.** Fifth, maintain and expand opportunity associated with Witzenberg’s key settlements.

The focus on the Precinct Plan area specifically responds to the following implications of these considerations through:

- Directing urban growth, new development and public infrastructure investment to the main urban centres within the municipality, and to areas within the existing urban footprints of towns where current “buffer” areas are dividing communities.
- Strongly discouraging any development that does not promote integration.
- Prioritising infrastructure and public investment in settlements identified for growth and in a

manner supporting the approved settlement hierarchy for Witzenberg.

- Supporting infill development and increased land uses in areas where existing infrastructure will be able to support additional capacities and as a means to improve efficiency and cost effectiveness in infrastructure provision.
- Ensuring that changes in land use – urban or rural – maintain the integrity, authenticity and accessibility of significant cultural landscapes.
- Encouraging the establishment of appropriate yet strategic gateway nodes or entry points to the various landscapes of the region.

Figure 1. The study area for this Precinct Plan, as determined during the MSDF process.

- Avoiding the subdivision of agricultural land or changes in land-use to minimise the loss of agricultural activities while also avoiding the creation of uneconomical agricultural units.

Albeit full development of the precinct will result in the loss of some agricultural land, it will simultaneously prevent agricultural land loss elsewhere in areas less integrated with existing human settlement development.

The overall conceptual approach to developing the precinct – as fully motivated in the MSDF – is to accommodate most future growth in Witzenberg in an area where livelihood opportunity is maximised, specifically in relation to the distance between places of residence and work, commercial and social opportunity; as well as the opportunity to extend and enhance service infrastructure in a sustainable manner. Conceptually, in terms of the overall distribution of uses and activities, it is proposed that:

- Movement connections between the three main concentrations of people and work/commercial opportunity be improved.
- Activities relying on strong movement flows and exposure be located along major movement routes.
- Residential and space extensive uses be located behind activities reliant on major movement flows and exposure.
- Movement routes be designed in a manner also providing for non-motorised transport.
- Public and social facilities be located on non-motorised transport routes and in a manner accessible to all communities.
- A range of housing types be promoted, providing for all income groups.
- Development be phased, largely starting from the R46 and progressively incorporating land northwards towards Bella Vista (this would necessitate an adjustment of the approved MSDF urban edge).

Given different characteristics and potentials of parts of the Precinct Plan area, it is proposed to identify four sub-precincts:

Sub-precinct 1: The area of Vredebes and surrounds.

Sub-precinct 2: The area east of Retief Street.

Sub-precinct 3: The central section of mostly farmland south of the Schoonvlei Industrial area.

Sub-precinct 4: The Schoonvlei Industrial area.

Chapter 5 unpacks the development proposals for each sub-precinct, including proposals for movement routes, infrastructure, land uses and land budgeting. The high-level movement structure, distribution of land uses, and land budget provided in the Precinct Plan should provide sufficient information for service departments to undertake parallel bulk infrastructure planning to support the proposed development over time, including long term financial planning and budgeting.

Chapter 6 provides guidelines towards implementation including possible funding mechanisms as well as institutional arrangements to support the continuation of planning processes for the precinct. Within the overall framework set by the Precinct Plan (as a concept development framework for the Precinct Plan area), it is proposed that further planning in terms of the package of plans approach can proceed, once infrastructure planning for the overall area has been completed.

Background and Purpose

1. Background and Purpose

1.1. Terms of Reference and Study Area for Precinct Plan

The 2020 Municipal Spatial Development Framework (MSDF) sets out spatial policy, plans, proposals, guidelines, and implementation measures for Witzenberg Municipality as a whole and individual settlements within the Municipality. The individual town plans in turn each identify priority areas where more detailed planning, such as precinct plans, are required. Priority Focus Area 1 for Ceres was identified as the area between Ceres, Bella Vista and Nduli, where future growth should be accommodated in a structured and integrated manner.

Planning of this area is therefore identified in the MSDF as the first priority for more detailed planning. The potential of the area to accommodate significant growth and meet diverse needs, including economic development opportunity, a range of housing types, and integrated movement between largely fragmented settlement parts has been acknowledged in various initiatives. To maximise the potential of the area, the need for more detailed “precinct” level planning was identified, building on previous work undertaken as part of the WCG RSEP.

This report contains the continuation of a strategic analyses as well as the detailing of concepts for future development of this priority area in the form of a Precinct Plan as part of the MSDF package.

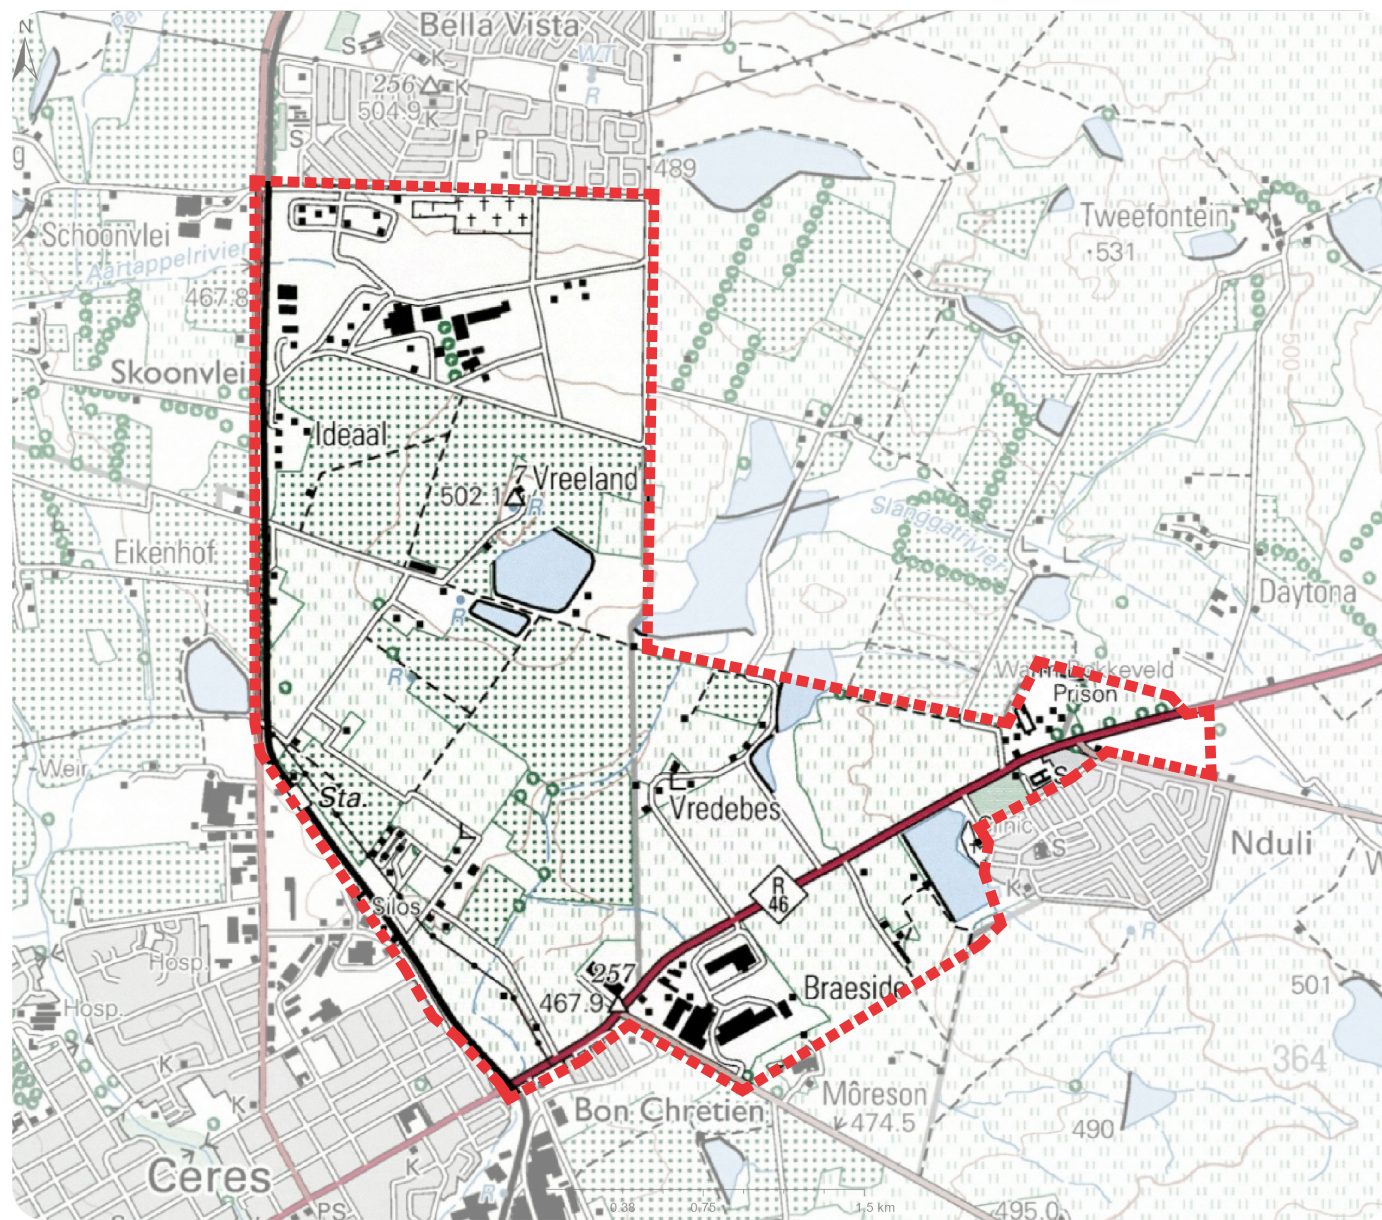

Figure 3. NGI Topocadastral Map of the Precinct Plan Area (CapeFarmMapper, gis.elsenburg.com)

1.2. Users of the Precinct Plan

This report is intended to guide policy makers and local officials in terms of facilitating the future development of this strategic area. These processes will in turn direct developers, land owners and parallel projects such as the WCG RSEP or Agri-Park programme in terms of investment and infrastructure allocation.

1.3. Background to the Precinct Plan: 2020 MSDF Proposals

According to the 2020 MSDF the purpose of the integration project of Ceres, Bella Vista and Nduli is to focus on the required detailed planning to accommodate significant growth in this area, and meeting diverse needs, including economic development opportunity, a range of housing types, and integrated movement between largely fragmented settlement parts.

The MSDF and its focus on this area follows core national and provincial spatial planning principles, including:

- Spatial integration, forging more sustainable and equitable spatial forms in settlement, transport, social and economic areas.
- Inclusion and access, ensuring that all people have access to housing, social and economic services, opportunities and choices.
- Growth, harnessing urban dynamism for inclusive, sustainable economic growth and development.

Focusing future development in the area between Ceres, Bella Vista and Nduli provides the opportunity to concentrate development in proximity to working opportunity, movement routes, and existing commercial and community facilities. It also provides the opportunity to extend and enhance service infrastructure in a sustainable manner and build on the significant Vredebes housing development and initiatives to upgrade Nduli. As a focus for new development, the best

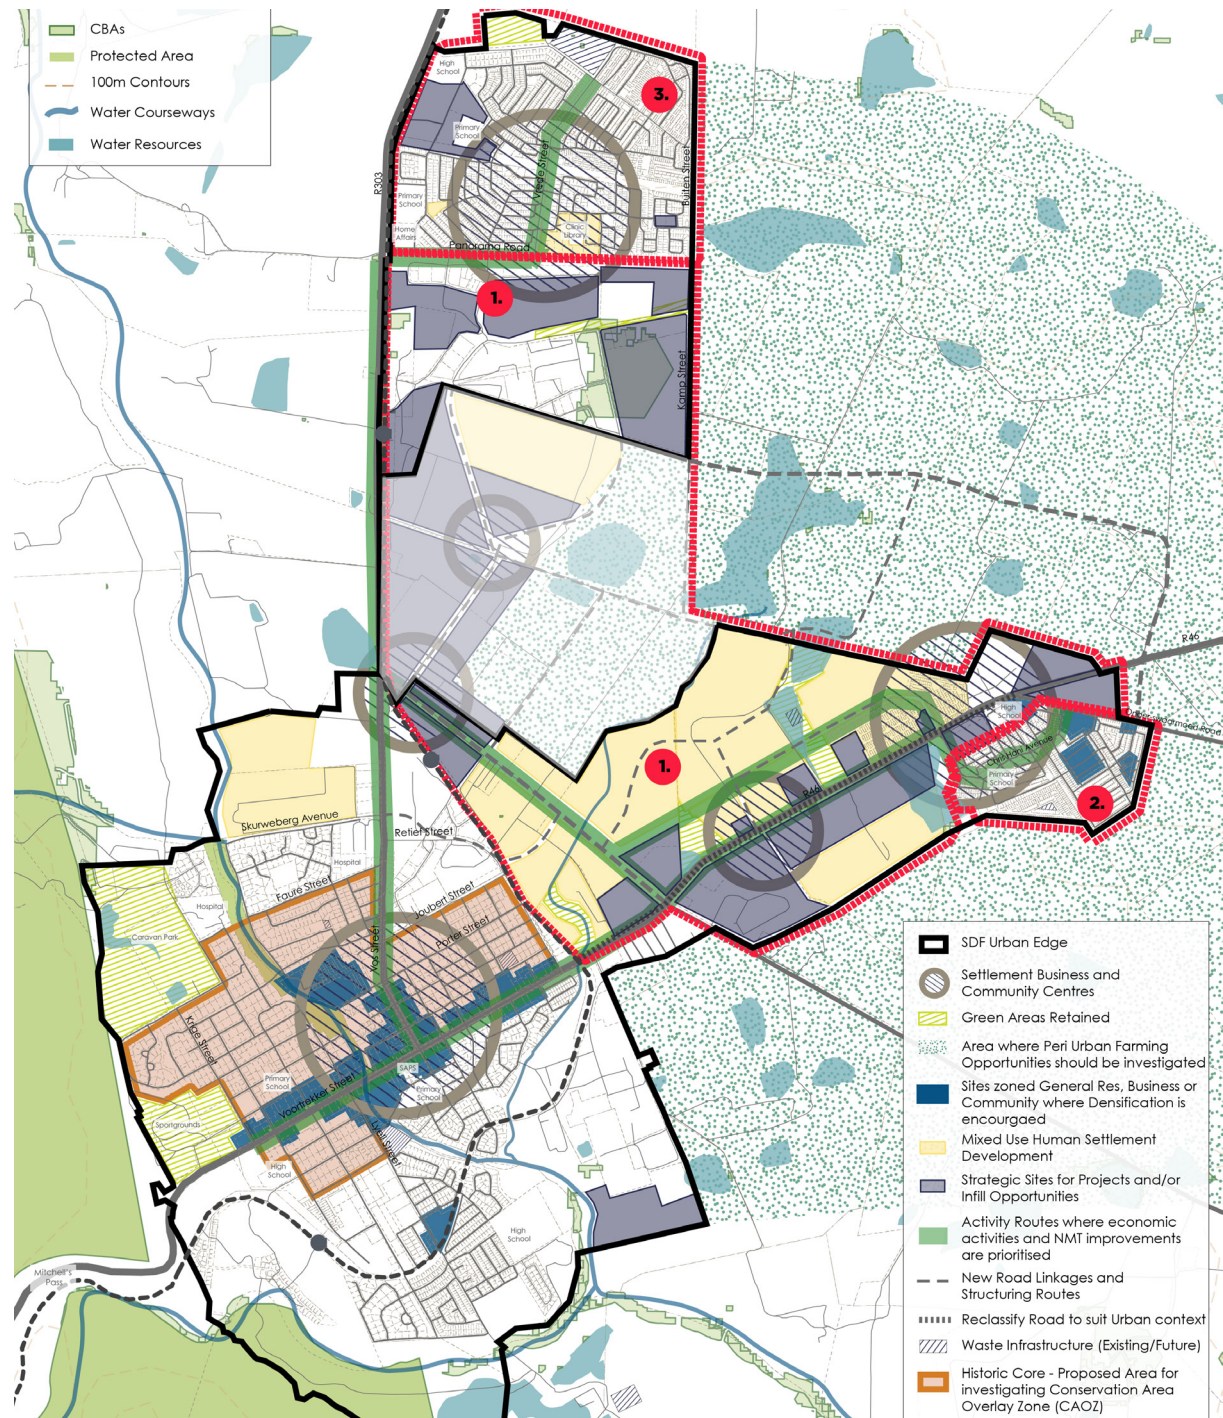

Figure 4. Development Plan for Ceres from 2020 MSDF

livelihood opportunity could be established for existing and new residents, building on existing investment, while, at the same time, protecting existing agricultural and nature resources.

In some way, the progressive development of Vredebes has started development of the area. So has a recent proposal for the establishment of a commercial centre on the R46 east of the existing Ceres town centre towards Nduli.

Given the strategic nature of the area, the MSDF recommends that the package of plans approach – incorporated in the Witzenberg Municipality Land Use Planning By-Law – is followed, enabling structured phases of negotiation, planning and approvals (including the approval of increasing levels of planning detail together with conditions for such approvals).

The MSDF sets out key aspects that precinct planning should consider, inter alia:

- Movement routes which integrate Ceres, Bella Vista, Vredebes, and Nduli (and attract higher order development and uses dependent on passing trade/ access).
- Activities and uses foreseen as part of an agripark.
- Housing opportunity, including opportunity at higher density, a more urban form, and richer range of typology, than traditionally and currently provided with government assistance in Bella Vista and Vredebes.
- The possible reconfiguration of “buffer” strip industrial land south of Bella Vista to also accommodate other uses closer to Ceres.
- Opportunity for start-up or smaller industry/ workshop entrepreneurs.
- An area and facilities which could accommodate large events (e.g. an agricultural festival/ exhibition).
- Higher order institutions.

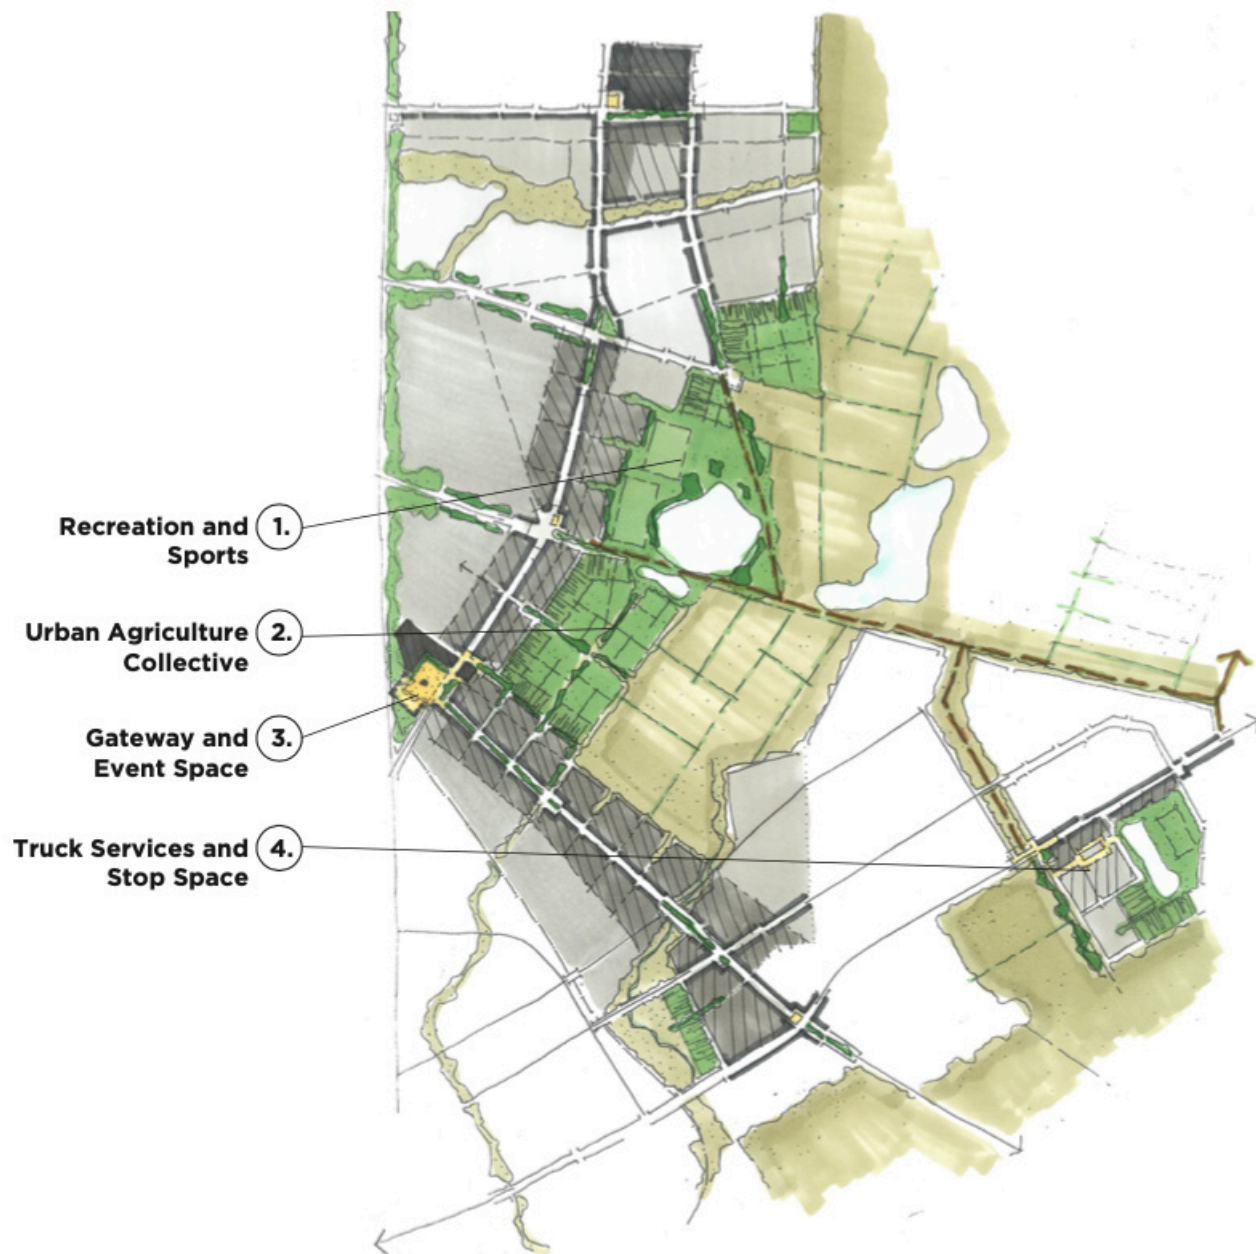

Figure 5. Concept development of the area between Ceres, Bella Vista, and Nduli (work in progress developed for the MSDF)

- Opportunity for small scale farming (to the east).
- A “truck stop” (with appropriate supporting facilities).
- A mixed-use area as part of Nduli with commercial opportunity and public space which can serve as a “gateway” attraction to the Koue Bokkeveld and Tankwa Karoo while providing livelihood opportunity for local residents.

The MSDF proposes that the precinct plan process and deliverables fit the criteria for funding allocation of the Neighbourhood Development Partnership (NDP) Grant of National Treasury, and that it could be beneficial to establish an overlay zone for this area in the municipal Zoning Scheme or make use of the SPOZ allocation.

Figure 5 illustrates the potential of the area in concept form. These proposals – drawn from the MSDF – will form the starting point of this Precinct Plan such that the proposals contained will build on these concepts and first draft ideas.

1.4. Structure of the Precinct Plan

The structure of this precinct plan is based on the DRDLR’s Guidelines in terms of the structure and content of a Precinct Plan to align with SPLUMA requirements. The structure has been amended based on project-specific requirements, terms of reference outcomes, and the fact that extensive background work has already taken place during the MSDF process. See Figure 6 for the revised structure of this precinct plan.

Part 1 sets out the background, project objectives, process and methodology and introduces the study area.

Part 2 sets out the policy context and mandate for framing the proposals within this precinct plan.

Part 3 provides a strategic overview of the contextual analysis of the study area and unpacks

relevant opportunities and constraints that inform the proposals.

Part 4 sets out a vision and conceptual spatial strategy by unpacking thematic areas on which the concept for future development is based.

Part 5 provides an overview of development proposals, spatially designated and unpacked while also providing indications of the possible infrastructure implications of the proposals.

Lastly **Part 6** unpacks the requirements for implementation, listing key projects per sub-precinct, and prioritises these according to timeframes and possible funding, as well as required institutional arrangements. Design guidelines and precedent visuals are also provided to assist in the cohesive implementation of projects and proposals.

1.5. Precinct Plan Process

This process was initiated as an extension to the MSDF 2019/20 process. During the month of August and September the draft document was finalised through the development of a concept and first draft proposals. These proposals were submitted to municipal officials for inputs. Hereafter more detailed proposals such as ideas for structure, key interventions, guidelines, future infrastructure requirements etc. were developed and tested with internal departments and circulated to key stakeholders for inputs. Workshops could not be held due to the Covid -19 restrictions. During the months of October and November engagements and inputs were incorporated and the document was finalised as required

Part 2.

Policy Context and Mandate

2. Policy Context and Mandate

The preparation of the Ceres Priority Area Precinct Plan occurs within an extensive legislative, policy, programmatic, and planning context which mandates, enables, and informs the work in progress. The following section highlights the key policy informants to derive at a clear mandate for future development of the study area.

2.1. Policy Context for Precinct Plans

Numerous policy frameworks focus the work of government holistically, the spatial arrangement of activities, or specific sectors. In the sections below, only the most specific policy informants to precinct planning are summarised.

2.1.1. The National Development Plan 2030

The National Development Plan (NDP), developed by the National Planning Commission and adopted in 2012, serves as the strategic framework guiding and structuring the country's development imperatives and is supported by the New Growth Path (NGP) and other national strategies. In principle, the NDPP is underpinned by, and seeks to advance, a paradigm of development that sees the role of government as enabling by creating the conditions, opportunities and capabilities conducive to sustainable and inclusive economic growth. The NDPP sets out the pillars through which to cultivate and expand a robust, entrepreneurial and innovative economy that will address South Africa's primary challenge of significantly rolling back poverty and inequality by 2030.

The legacy of apartheid spatial settlement patterns that hinder inclusivity and access to economic opportunities, as well as the poor location and under-maintenance of major infrastructure, are two of the nine identified core challenges facing

the country's development. Aimed at facilitating a virtuous cycle of expanding opportunity for all, the NDPP proposes a program of action that includes the spatial transformation of South Africa's towns, cities and rural settlements given the "enormous social, environmental and financial costs imposed by spatial divides".

Of particular relevance are the recommendations set out in Chapter 8: Transforming Human Settlements and the National Space Economy, including the upgrading of all informal settlements on suitable, well-located land; increasing urban densities to support public transport and reduce sprawl; promoting mixed housing strategies and compact urban development in close proximity to services and livelihood opportunities; and investing in public transport infrastructure and systems (with a special focus on commuter rail) to ensure more affordable, safe, reliable and coordinated public transport.

The spatial objectives outlined in the NDPP's "Urban Hub Toolkit" emphasises three key concepts to guide the restructuring of urban hubs and small towns South African towards vibrant sustainability. These are:

- The interchange zone: This is where the place where rail (if available), bus and taxi modes of public transport are within easy walking distance of one another. The connecting routes, or areas of movement, are designed to become areas of opportunity for retail and service-related businesses which will choose to locate along these routes in response to the high volumes of passing traffic. This improves economic viability (especially of small businesses) as such places become important hubs of activity while also increasing convenience for public transport users.
- Mixed use development and housing compaction: The aim is that the planning and

(re)design of urban hubs (CBDs), achieves more urban (rather than suburban) character and development typologies. This relates to both land use and residential density. With horizontally and vertically mixed-use development, new housing typologies and urban social facility design is possible. Together, these contribute to more lively and walkable places that provide better thresholds of support for public transport.

- Vibrant people friendly public places: The CBDs (or hubs) should be designed as socially, culturally and economically meaningful places. To do this requires that a range of accessible, inclusive and well-designed public spaces are available to residents and visitors to the hub.

2.1.2. Integrated Urban Development Framework (IUDF)

The IUDF, approved by National Cabinet in 2016, aims to steer urban growth nationally towards a sustainable model of compact, connected and coordinated towns and cities. The IUDF provides a roadmap to implement the NDPP's vision for spatial transformation, creating liveable, inclusive and resilient towns and cities while reversing apartheid spatial legacy.

To achieve this transformative vision, four overall strategic goals are introduced:

- Spatial integration; to forge new spatial forms in settlement, transport, social and economic areas.
- Inclusion and access; to ensure people have access to social and economic services, opportunities and choices.
- Growth: to harness urban dynamism for inclusive, sustainable economic growth and development.

- Governance; to enhance the capacity of the state and its citizens to work together to achieve spatial and social integration.

These strategic goals inform the priority objectives of nine policy levers, premised on the understanding that integrated urban planning forms the basis for achieving integrated urban development, which follows a special sequence of urban policy actions. Integrated transport needs to inform targeted investments into integrated human settlements, underpinned by integrated infrastructure network systems and efficient land governance.

2.1.3. The WCG Provincial Spatial Development Framework (PSDF)

The PSDF sets out to:

- Address the lingering spatial inequalities that persist because of apartheid's legacy – inequalities that contribute both to current challenges (lack of jobs and skills, education and poverty, and unsustainable settlement patterns and resource use) and to future challenges (climate change, municipal fiscal stress, food insecurity and water deficits).
- Provide a shared spatial development vision for both the public and private sectors and to guide to all sectoral considerations about space and place.
- Direct the location and form of public investment and to influence other investment decisions by establishing a coherent and logical spatial investment framework.

The spatial agenda advocated by the PSDF includes:

- Managing urban growth pressures to ensure more efficient, equitable and sustainable spatial performance.
- Aligning, and coordinating public investments and leveraging private sector and community

investment to restructure dysfunctional human settlements.

- Supporting municipalities in managing urban informality, making urban land markets work for the poor, broadening access to accommodation options, and improving living conditions.
- Aligning infrastructure, transport and spatial planning, the prioritisation of investment and on the ground delivery.

The PSDF sets out a number of key strategic spatial transitions required to achieve a more sustainable use of provincial assets, the opening-up of opportunities in the space-economy and the development of integrated and sustainable settlements. Included is integrated and sustainable settlements, implying a transition from fragmented, isolated and inefficient community facilities and places to integrated, clustered and well-located community facilities and places.

2.2. Planning Context

2.2.1. Draft Cape Winelands District Spatial Development Framework 2018/2019

The objectives of the Cape Winelands District Municipality (CWDM) SDF are to:

- Improve the quality of life for the people of the region by ensuring principle led responses.
- Plan in advance by considering future population growth, economic and climatic changes.
- **Manage the impact and exposure of external and internal threats to growth and development.**
- **Restructure urban settlements through compaction and densification.**
- Promote sustainable resource use and responsible rural development.

- Improve and conserve the district's natural environment.

Towards achieving these objectives the district SDF sets out key strategies and implementation proposals, with a more facilitative role at a regional level. Precinct specific proposals are thus not contained. However, the report proposes small scale farming on municipal commonage - this project entails the establishment of farming opportunities for existing small scale livestock farmers. Policy directives are thus guided by the district-wide approach to infrastructure and incentives for economic opportunities.

2.2.2. Witzenberg Municipality 2nd Review Integrated Development Plan (2019 - 2020)

The Witzenberg Integrated Development Plan (IDO) is the 4th Generation IDP developed and drafted in consultation with the people of Witzenberg, provincial government and sector departments.

The IDP focuses on the implementation of social housing programmes such as Vredebes and the upgrade of the informal settlement in N'Duli. These projects require major bulk infrastructure upgrading that will take up the largest portion of grant funding for the next five years.

One of the four key performance areas include the socio-economic support of the poor and vulnerable through programmes and policy, and enabling environments that attract investment to support the local economy. Proposals and identified projects include the construction of houses in Vredebes, making provision for "GAP" housing under the FLISP Programme of the Department of Human Settlements, and the continued support and implementation of the Agri-Park as an enabler for local economic growth.

Contextual Analysis

3. Contextual Analysis

3.1. Historical Context and Growth

According to research conducted in 2005 by the Centre for Social Science Research (CSSR) via the University of Cape Town (UCT), the history of Ceres can be conceptualised as a story of roads, routes and remoteness since long before deciduous fruit became a major industry. Settled in the 18th century, the town only experienced significant growth around the 1870s, when its location on the 'great road' to the north east that connected the Cape with the diamond mines of Kimberley brought it some prominence as a way station (Smuts & Alberts 1988). Ceres was formally established in 1854 on the farm of Jan Frederik Munnik, and municipal status was granted 10 years later. From the outset, the civic leaders assiduously promoted the development of both public and private gardens as well as tree planting on an extensive scale. This accounts for the many oak, poplar, pine and bluegum trees that continue to line the streets, farm roads and rural lanes of the area.

Increasing integration into national networks and markets opened the path for the development of fruit farming in the region, and while the wine farming areas in the surrounding Breede River region stagnated, mostly due to anti-apartheid sanctions, Ceres steadily grew. Mixed farming (fruit, wheat, vegetables and livestock) increasingly gave way to specialisation and, by the 1990s, Ceres was a major centre of intensive deciduous fruit production for export. By 1998, with more than 11 000 ha of land planted to deciduous fruit, Ceres was producing almost 60% of South Africa's entire pear crop, and had a gross geographic product of R265 million (du Toit, 2005).

Following an application by Ceres Fruit Growers for expansion of their business premises and housing for their workers, the divisional council took a call option in 1965 on the land where Bella

Vista is located today. On 6 November 1969 the area known as Area K was proclaimed a coloured area.

The expansion of the area was “problematic” as it was seen as an independent coloured area that had to replace the existing coloured areas of the town. The development of Nduli started during the 1940s when mention was made of the

provision of a ‘location’ for Black African people. However, Black Africans had been living in the Ceres district for a long time in Sakkiesdraai. Later accommodation was supplied outside the town in Nduli, meaning ‘on the hill’. During the 1960’s people were moved from Sakkiesdraai to this new development outside Ceres. After the abolishment of influx control the population of Nduli increased significantly and a housing shortage developed.

Figures 7 and 8 portray the development of the areas around Ceres, showing town expansion as well as the first layouts for Nduli and Bella Vista in the 80’s.

The area constituting the study area for this precinct plan is therefore characterised by these two outlying settlements on the northern and south eastern edges and their considerable distance between the town centre where, historically, economic opportunities have been concentrated. The rest of the study area developed through the expansion of agricultural industrial activities, cultivation and conversion of land pockets.

As can be seen on Figures 9 and 10, the areas where most significant growth has taken place is in the area just south of Bella Vista, called Schoonvlei where various industry activities have established, and the area north of Nduli called Vredebes where government funded housing and infrastructure has been implemented since 2016

3.2. Biophysical Context

3.2.1. Overview

The biophysical landscape directly surrounding the Ceres area is dominated by agricultural activities such as fruit orchards and fruit packaging facilities. With Ceres situated within the Upper Breede River catchment, these agricultural activities have had an impact on the river system, although, according to the 2017 Environmental Resources Protection Plan for the Breede River Catchment in the Western Cape report (WCG DEA&DP) the tributaries of the Upper Breede River are generally still in a good state. The main impacts have been from invasive alien vegetation (black wattle) and alien fish (sharptooth catfish and smallmouth bass). Habitat modification as a result of in-stream structures (dams and low water bridges), bulldozing, encroaching agricultural activities and mining have also impacted on the riparian and in-stream habitat.

Figure 11 indicates a slight hill due to topographical characteristics of the area south of Schoonvlei. The rest of the study area is relatively flat.

The study area is home mostly to farmlands and the associated infrastructure, of which includes water resources and dams. A stream also runs through the central part of the site, from the edge of Ceres town centre passing the northern portion of Vredebes. Although the status of these streams and water sources are not currently quantified in exact detail, and reports on the exact quality of soils in this precinct are not available at the time this report was compiled, it is imperative that the impact of climate change has resulted and will continue to result in changes in area, water use and welfare of the farmers in and around Ceres (Abiodun et al, 2018). The general trend, according to a 2016 case study of Ceres¹, will be the substitution of high valued crops (fruits) with vegetables and annual crops, with the emphasis

turning to get the best returns to water, rather than to land. Crops yielding better return to the decreased water availability will become more and more preferable. Water resources management is therefore important in ensuring that agricultural production can withstand the stresses caused by climate change. Improvement in irrigation efficiency is crucial in ensuring the availability of water.

Figure 12 relates to the biodiversity system which reinforces the importance of the natural streams as they are identified as critical biodiversity within the study area. This calls for the potential restoration and celebration of these natural features into future development proposals.

3.2.2. Key Findings and Informants

- A number of streams and waterbodies exist in the area which could be incorporated in the layout of the area.
- Natural systems should be incorporated in a manner which forms a continuous network.
- Development setbacks from water courses should follow prescribed norms and standards.

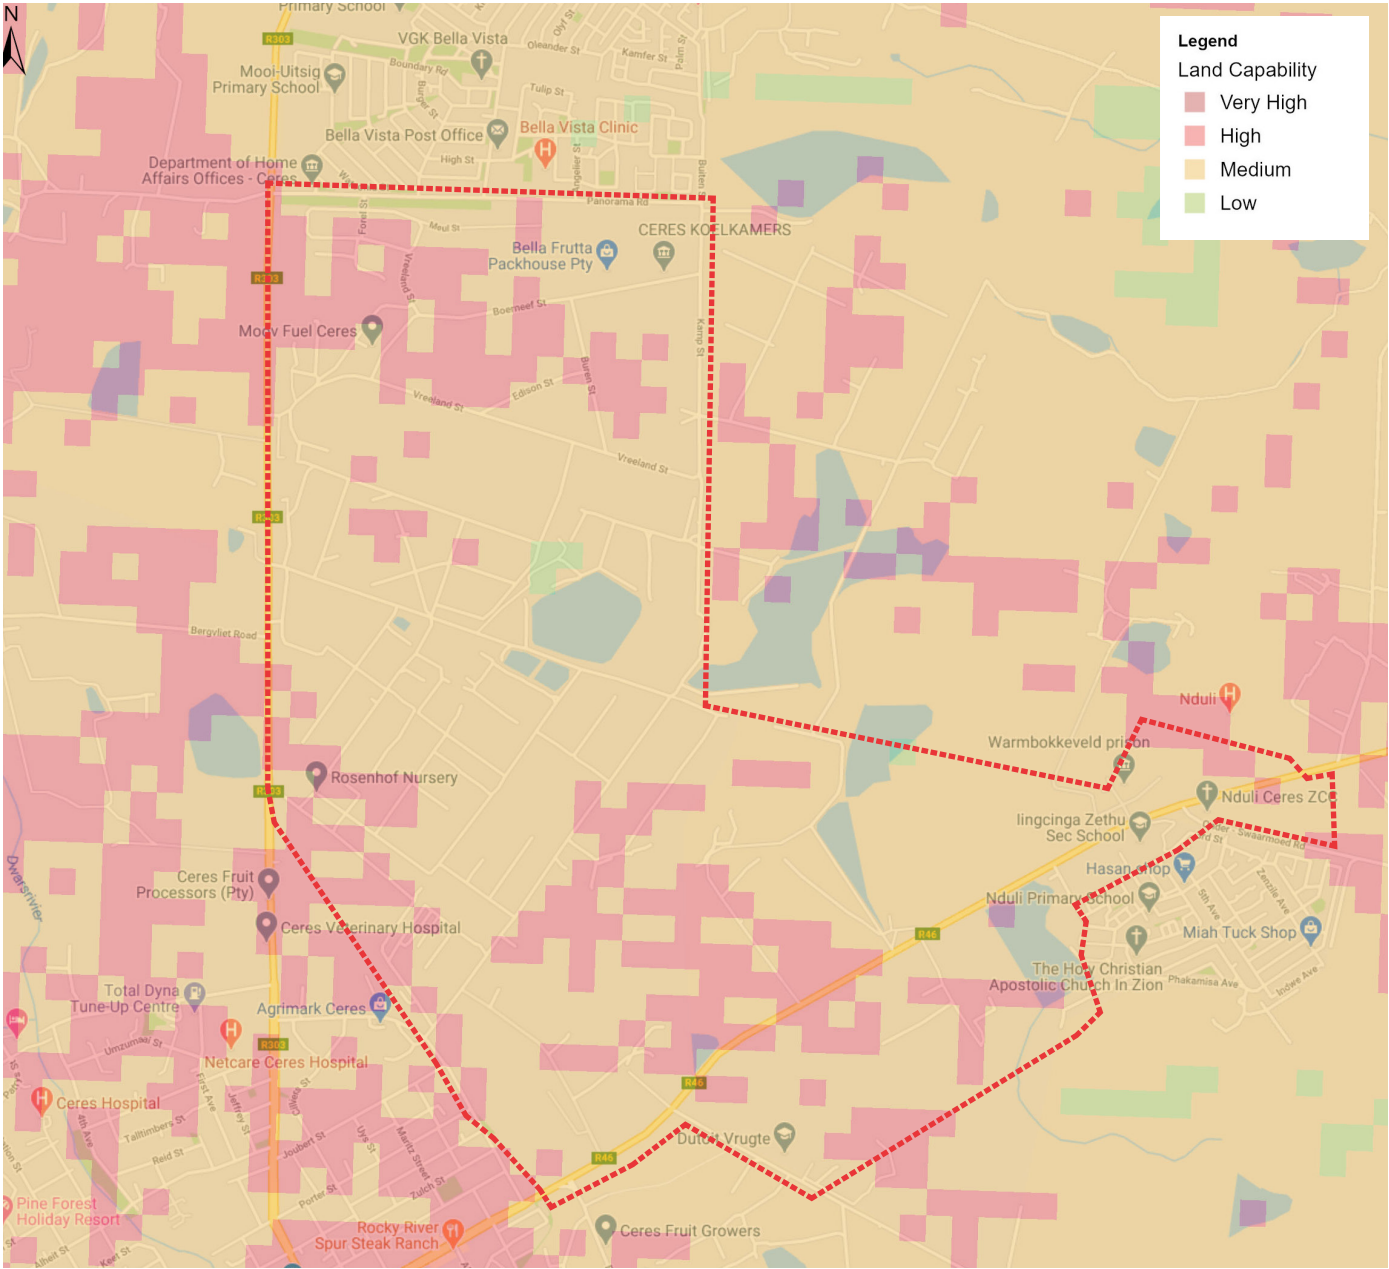

Figure 13. Land Capability (Cape Farm Mapper <https://gis.elsenburg.com>)

3.3. Socio-Economic Context

3.3.1. Overview

More than half of the population of Witzenberg Municipality is located in urban settlements, with the majority (58,3%) concentrated in Ceres (which includes Nduli and Bella Vista). Surrounding the planning area, Ceres can be typified as having the most opportunity and highest income residents. Bella Vista – mostly developed with formal housing – has lower mean incomes, fewer opportunity. Nduli is a focus of lower income residents, unemployment, and informal attempts at structuring housing. Each of these areas – Ceres, Bella Vista, and Nduli – has roughly an equal population size. Resident growth is faster, however, in Bella Vista and Nduli than in Ceres town.

The Witzenberg Municipality has a relatively small economy, contributing R8,2 billion to the economy of the CWD (13,5%) and provides employment for just over 60 000 people. The largest economic sectors in the Witzenberg economy in 2016 included the wholesale and retail trade, catering and accommodation sector (17,4%); the finance, insurance, real estate and business services sector (15,9%); and the agriculture, forestry and fishing sector (15,2%). Collectively, these sectors contributed R4 billion to the Witzenberg economy (48,5%), emphasising their importance locally and the impact of the sectoral performance on the overall stability of the Witzenberg economy.

The agriculture, forestry and fishing sector, the major contributor to employment in (22,6% in 2016), grew significantly in 2017 but shed an estimated 2 308 jobs in 2017, following job losses in 2016 as well. Since this sector is a valuable source of employment, particularly in rural areas, these continued job losses can contribute to the increase in poverty and the need for support from government institutions. Access to agriculture for small scale farmers and entrepreneurs remains limited.

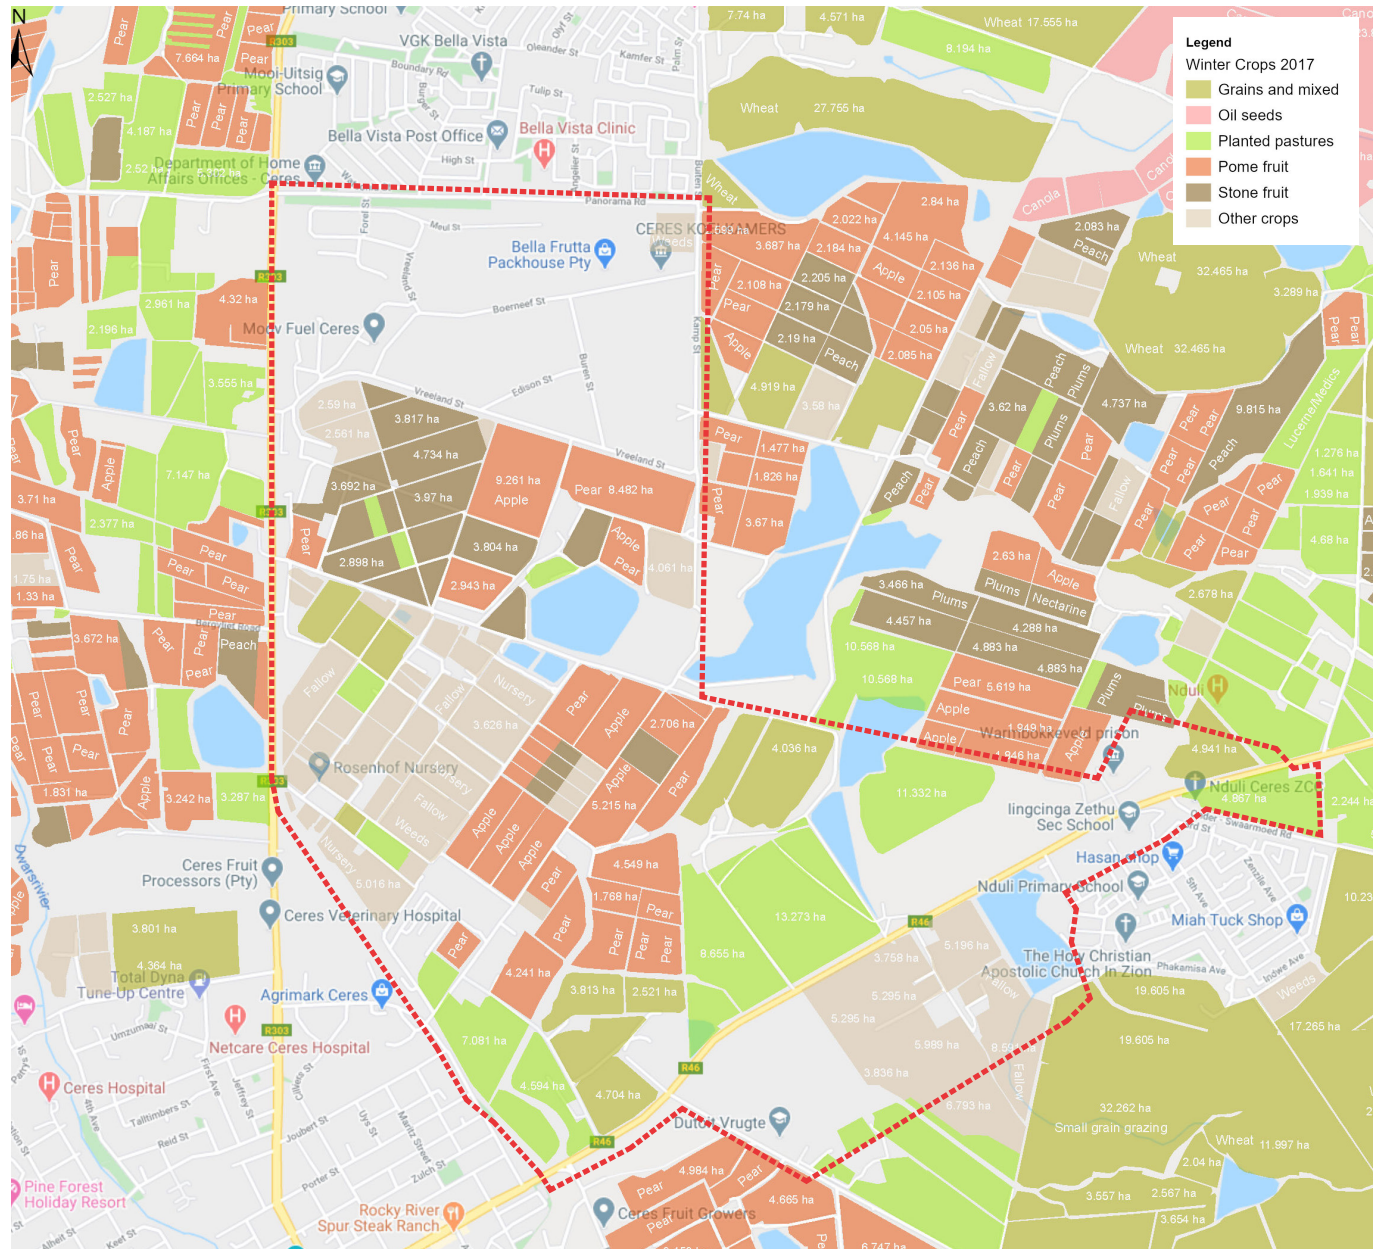

Figure 14. Crops Census 2017 (Cape Farm Mapper <https://gis.elsenburg.com>)

3.3.2. Key Findings and Informants

- Communities with lower incomes remain in areas generally marginalised from existing opportunity (resulting, inter alia, in high transport cost to access opportunity).
- Relatively low economic growth and performance continues in Witzenberg as a whole.
- Agriculture remains the largest employer (50%), However, the sector is experiencing a high rate of net job losses, and often only provides seasonal opportunities.
- While the areas' population is set to increase, the provision of skills, training and employment opportunities have not been able to meet current demand.
- Alternative models for farming and enabling economic growth such as eco-tourism or green agriculture, within the context of the Fourth Industrial Revolution towards future sustainability and resilience, have not been properly explored in this area.

Figure 15. Agricultural Infrastructure (Cape Farm Mapper <https://gis.elsenburg.com>)

3.4. Built Environment Context

3.4.1. Overview

As described in section 3.1., the Precinct Plan area in many ways came about through the establishment of Bella Vista, Schoonvlei, Nduli, Vredebes as “distinct” places and the gradual expansion of these areas towards each other. While large parts are still farmed as Pome Fruit, Stone Fruit, and Planted Pasture, there is pressure from the north, south, and east towards the “centre” of the area.

The edges of the area reflect various the settlement approaches followed in establishing these places, ranging from the grid-like subdivision of the residential area in the Piet Retief Street area (following the pattern of the old town), to the curvilinear lay-out of Schoonvlei and Vredebes. Along the R46, some industrial development benefit from access to this important route.

In many ways, the central undeveloped part of the area remains inaccessible from its surrounds, and therefore the surrounding areas from each other.

A previous conceptual framework plan prepared in 2012 for sub-precinct 2 (named “Marseaux” - see Figure 16) indicates the area west of the for farm-worker housing, residential, and industrial use (abutting the R46). Development of this area will effectively link Vredebes with Ceres town (see Annexure B for Vredebes layout). The Municipality has also received an application for a major shopping centre in sub-precinct 2 on Erf 9602, south of the R46 and at the intersection of the R46 and Ezelfontein Road (see Figure 18). The location of this facility is appropriate in relation to access to many parts of Ceres town and different communities. The proposal makes provision for ± 18 500 m² of GLA, which will include the shopping centre as well as car dealerships, a petrol station, restaurants and around 740 parking bays. The proposal includes three entrances.

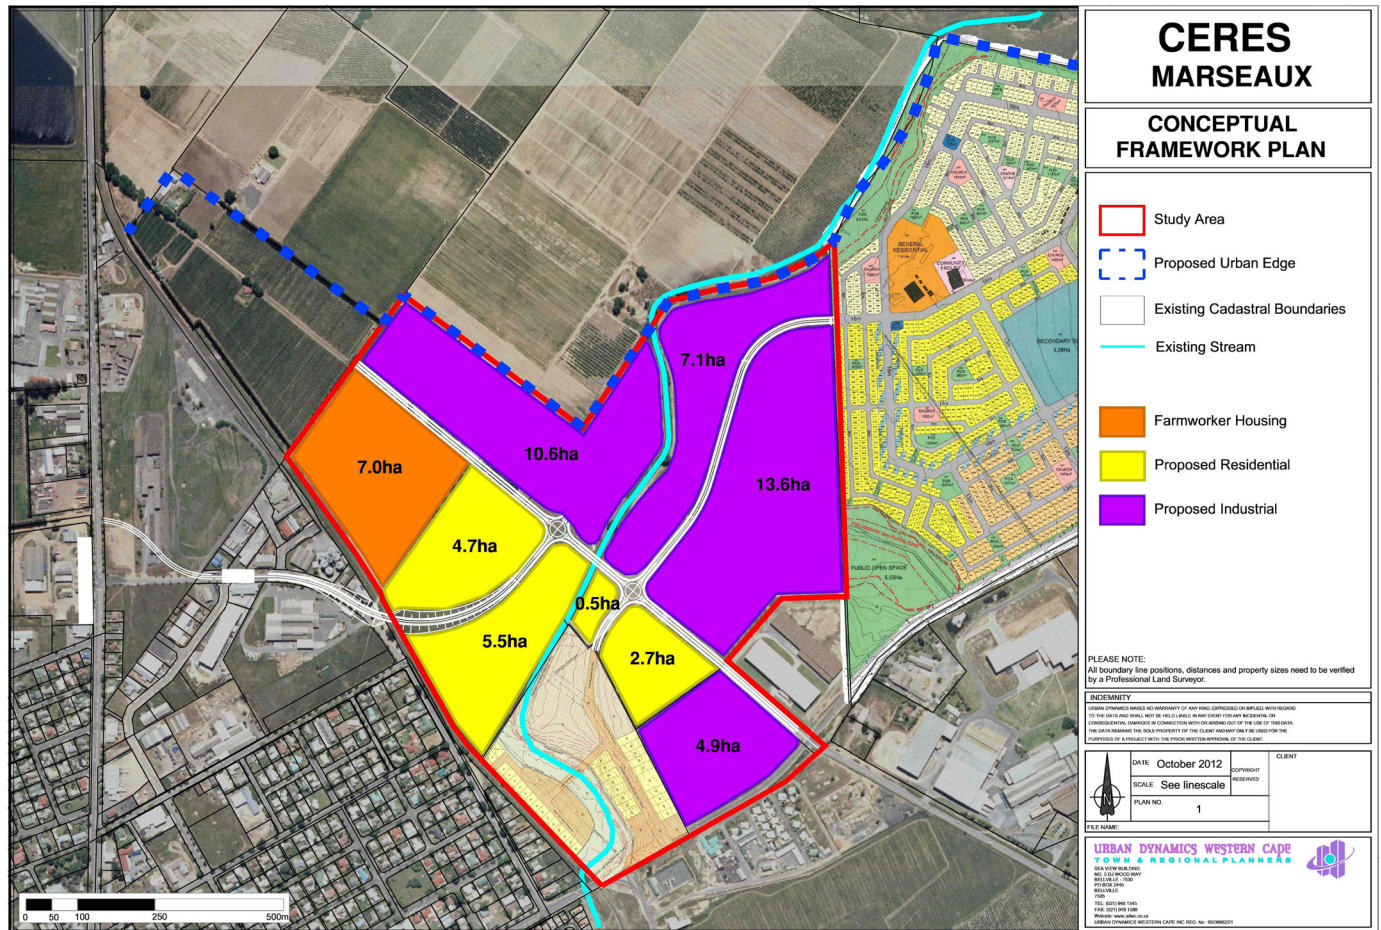

Figure 16. The conceptual framework plan prepared in 2012 for the area between the eastern portion of Ceres and Vredebes, titled “Marseaux” (Urban Dynamics, 2012)

Development of Marseaux and the shopping centre potentially knits Vredebes, Nduli, and Ceres town together, and provide for more convenient living, with work, social facilities, and commercial opportunities located closer to places of residence.

Critical to integrating the different areas will be providing for non-motorised transport along major routes, including the R303, R46, and routes provided internal to the precinct area.

As most of the area is farmed (and zoned agricultural), urban infrastructure networks do not exist, with infrastructure network expanded to service the surrounding areas as distinct places.

The area abuts two major regional distributor routes, the R46 and R303. Neither of these routes currently provide for non-motorised transport, enabling ease of access between Ceres, Bella Vista, and Nduli. Little direct access is possible between Bella Vista and Nduli.

In overall development, the area represents an agricultural “buffer” between Ceres town, Bella Vista and the Schoonvlei industrial area to its south, and Nduli and Vredebos. From a human development perspective, it potentially represents an area rich in opportunity, with a range of activities and associated opportunity in proximity. While some loss of agricultural land is inevitable, there is also the opportunity to maintain agricultural activity, including increased access to small scale farming.

The R46 in particular is not fully used as an attractor of development which benefits from passing flows, in that way also limiting ready access to residents of Nduli (and increasingly Vredebos) from a full range of urban activities in proximity to places of residence.

The range of housing types envisaged for Vredebos is arguably limited (in relation to overall needs in the area) and planned internal activity routes not enabling of full integration of the area with its surrounds (see Figure 17).

While new development will require expanded infrastructure, the opportunity exists to connect into established networks of the surrounding the area.

The Vredebos project when completed will have a significant influence on the municipal financial viability, service delivery, transport network and Ceres CBD. The Provincial Government will assist Witzenberg through the Regional Social and Economic Programme (RSEP) to develop an implementation plan for Vredebos to ensure an integrated and sustainable community. At the time of this report the plans were being reformulated to prioritise NMT facilities along major transport routes.

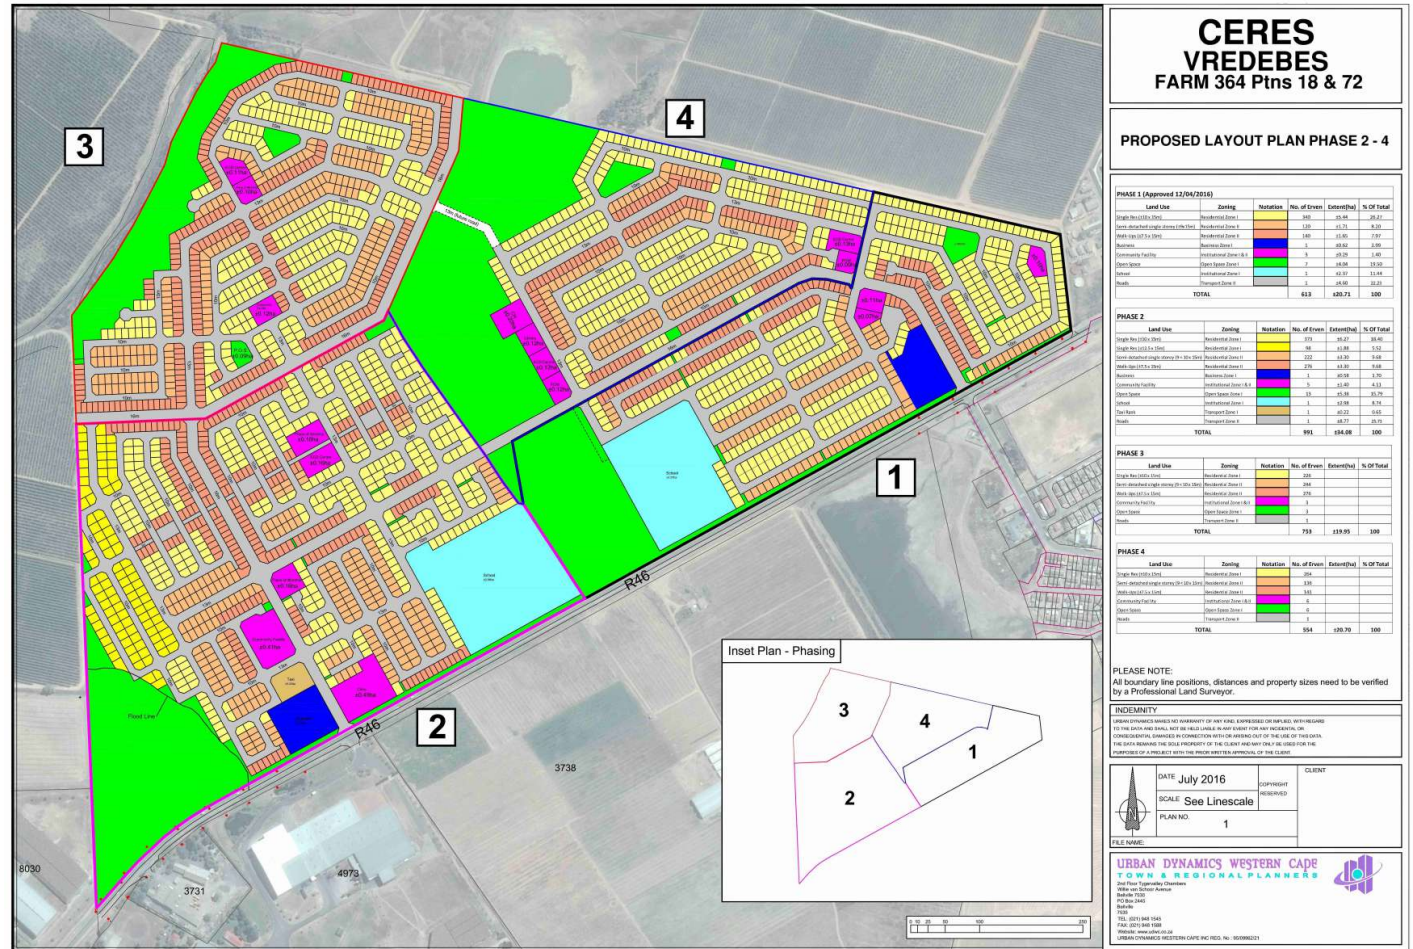

Figure 17. Layout plans for Vredebos - work in progress as phasing takes place (Urban Dynamics, 2012)

3.4.2. Key Findings

- While potentially very accessible, the area and adjacent development is currently not well integrated, specifically for non-motorised transport.
- The generative capacity of major routes adjoining the area – to attract higher order uses – has not been fully exploited.
- Current housing provided in the area do not provide a range of typologies fully meeting the needs of residents.
- Albeit new infrastructure will be required, infrastructure can connect to established networks surrounding the area.

3.5. Institutional Context:

3.5.1. Overview

As indicated in the MSDF, the Witzenberg Municipality has limited development planning and management capacity (especially given the large spatial extent of the Municipality). Nevertheless, the large Vredebes development is supported by inter-governmental institutional arrangements which can possibly be expanded to accommodate development of the priority area. National Treasury can also provide capacity and assistance through the Neighbourhood Development Partnership Grant mechanism.

Maximising the potential of the area for integration and accommodating future growth demand will require a more integrated approach institutionally. In many ways, the stage has been set for this to occur through previous work undertaken as part of the previous work undertaken as part of the WCG RSEP, and the recognition of the area as a integration and growth area through the 2019 MSDF (and associated urban edge recommendations).

Critical also for an integrated institutional response to the area is the provisions of Section 97 of the Witzenberg Municipality Land Use Planning By-Law (2015), which states that the Municipality may require a package of plans to be submitted for approval in respect of an application for rezoning of certain planning areas.

3.5.2. Key Findings

- Through the development of Vredebes, institutional arrangements have been developed which could be expanded to enable development of the area as a whole.
- National Treasury can provide development management capacity and assistance through the Neighbourhood Development Partnership Grant mechanism.

3.6. Synthesis of Spatial Challenges and Opportunities

Key challenges have been synthesised and listed below, as well as a list of opportunities that need to inform future development proposals.

- **Current major routes abutting the area do not provide for non-motorised transport and higher order uses dependent on passing movement flows.**
- **The Vredebes housing development provides for a limited range of housing typologies.**
- **New infrastructure will be required to serve the development.**
- **Witzenberg Municipality does not have extensive institutional capacity to manage major development extensions.**

- **Current major routes abutting the area can be reconfigured to enable non-motorised transport and attract uses dependent on passing movement flows.**
- **There is an opportunity to provide a broader range of housing typologies than provided in Vredebes.**
- **Albeit new infrastructure is required, infrastructure can connect to existing networks surrounding the area.**
- **Institutional arrangements developed for Vredebes can potentially be expanded to accommodate the development as well as the National Treasury's Neighbourhood Partnership Development Grant.**

Part 4.

Vision and Concept

4. Vision and Concept

4.1. Vision Statement

The Witzenberg Municipal IDP sets out the following vision to drive the agenda for integrated development and planning:

“A municipality that cares for its community, creating growth and opportunities.”

In line with this vision, the Municipality commits itself to improve the quality of life of its community by providing and maintaining affordable services, promoting social and economic development, ensuring for the effective and efficient use of available resources and facilitating effective stakeholder and community participation.

The vision developed for directing preparation of the MSDF in line with the IDP was:

“Managing spatial development and land use change in a manner that recognises and safeguards Witzenberg’s critical and diverse natural, agricultural, historic, cultural, commercial, and institutional assets while increasing livelihood opportunity for all its citizens.”

In support of the IDP and MSDF visions, the planning vision for the Precinct Plan is:

“To guide the development of the Precinct Plan area in a manner which serves Witzenberg’s overall urban development and management objectives, specifically the recognition and safeguarding of Witzenberg’s critical and diverse natural, agricultural, historic, cultural, commercial, and institutional assets while increasing livelihood opportunity for all its citizens.”

4.1.1. Key considerations

To achieve the IDP and MSDF vision, five considerations were stated as critical:

1. First, maintain and protect the integrity, authenticity and accessibility of Witzenberg’s natural environment and associated resources.

2. Second, maintain and expand the Municipality’s key regional and intra-regional infrastructure.
3. Third, maintain and grow the agricultural assets within the Municipality.
4. Fourth, maintain and expand access to Witzenberg’s unique sense of people and place.
5. Fifth, maintain and expand opportunity associated with Witzenberg’s key settlements.

The focus on the Precinct Plan area specifically responds to the following implications of these considerations:

- Directing urban growth, new development and public infrastructure investment to the main urban centres within the municipality, and to areas within the existing urban footprints of towns where current “buffer” areas are dividing communities.
- Strongly discouraging any development that does not promote integration.
- Prioritising infrastructure and public investment in settlements identified for growth and in a manner supporting the approved settlement hierarchy for Witzenberg.
- Supporting infill development and increased land uses in areas where existing infrastructure will be able to support additional capacities and as a means to improve efficiency and cost effectiveness in infrastructure provision.
- Ensuring that changes in land use – urban or rural – maintain the integrity, authenticity and accessibility of significant cultural landscapes.
- Encouraging the establishment of appropriate yet strategic gateway nodes or entry points to the various landscapes of the region.

- Avoiding the subdivision of agricultural land or changes in land-use to minimise the loss of agricultural activities while also avoiding the creation of uneconomical agricultural units.

Albeit full development of the precinct will result in the loss of some agricultural land, it will simultaneously prevent agricultural land loss elsewhere in areas less integrated with existing human settlement development.

4.2. Conceptual Approach

The overall conceptual approach to developing the precinct – as fully motivated in the MSDF – is to accommodate most future growth in Witzenberg in an area where livelihood opportunity is maximised, specifically in relation to the distance between places of residence and work, commercial and social opportunity; as well as the opportunity to extend and enhance service infrastructure in a sustainable manner. The area is situated between Ceres town, Bella Vista, and Nduli, each of almost equal population, and includes the major concentration of industry in Witzenberg. It is also abutted by major routes connecting Ceres to surrounding towns and areas.

In some way, the progressive development of Vredebes has started this integration process between Ceres town, Bella Vista, and Nduli. So has a recent proposal for the establishment of a commercial centre on the R46 east of the existing Ceres town centre towards Nduli (see Section 3.4).

Conceptually, in terms of the overall distribution of uses and activities, it is proposed that:

- Movement connections between the three main concentrations of people and work/commercial opportunity be improved.
- Activities relying on strong movement flows and exposure be located along major movement routes.

- Residential and space extensive uses be located behind activities reliant on major movement flows and exposure.
- Movement routes be designed in a manner also providing for non-motorised transport.
- Public and social facilities be located on non-motorised transport routes and in a manner accessible to all communities.
- A range of housing types be promoted, providing for all income groups.
- Development be phased, largely starting from the R46 and progressively incorporating land northwards towards Bella Vista (this would necessitate an adjustment of the approved MSDF urban edge).

Figure 19 illustrates the conceptual development approach for Ceres as developed for the recently reviewed MSDF. The diagram indicates new structures and movement routes between the urban centres of Ceres, Bella Vista and Nduli and implies the importance of the precinct area between these three nodes. The diagram provides a high level conceptual interpretation of the principles unpacked above, with areas for new development and a new urban node just north of the R46 indicated along with green networks and retained edges.

Figure 20. Development Concept for Ceres

Part 5.

Development Proposals

5. Development Proposals

Specific development proposals are indicated on Figure 21 and 22 and unpacked in the following sections in terms of movement routes, land uses and infrastructure implications.

5.1. Overview of Proposals

5.1.1. Sub-precincts

Given different characteristics and potentials of parts of the Precinct Plan area, it is proposed to identify four sub-precincts, (see Figure 20):

Sub-precinct 1: The area of Vredebess and surrounds.

Sub-precinct 2: The area east of Retief Street.

Sub-precinct 3: The central section of mostly farmland south of the Schoonvlei Industrial area.

Sub-precinct 4: The Schoonvlei Industrial area.

Sub-precincts are not cadastral entities but rather broad areas of like character and potential. They also overlap and span critical movement routes in some cases. This is because land adjacent to routes should be planned - in most cases - in an integrated manner.

Including areas of different use in each sub-precinct as far as possible brings the critical issue of integration and convenience to the fore, at the same time ensuring that sensitive interface issues between uses and activities are addressed.

Albeit excluded from the study area, Nduli could also be regarded as a sub-precinct, specifically as proposals related to the R46 and adjoining land - as well as other movement routes proposed which propose improved linkages between Nduli, Schoonvlei, and Bella Vista - is also aimed at the integration of this neighbourhood with its surrounds. Nduli is, however, the subject of a dedicated in-situ upgrade and improvement programme.

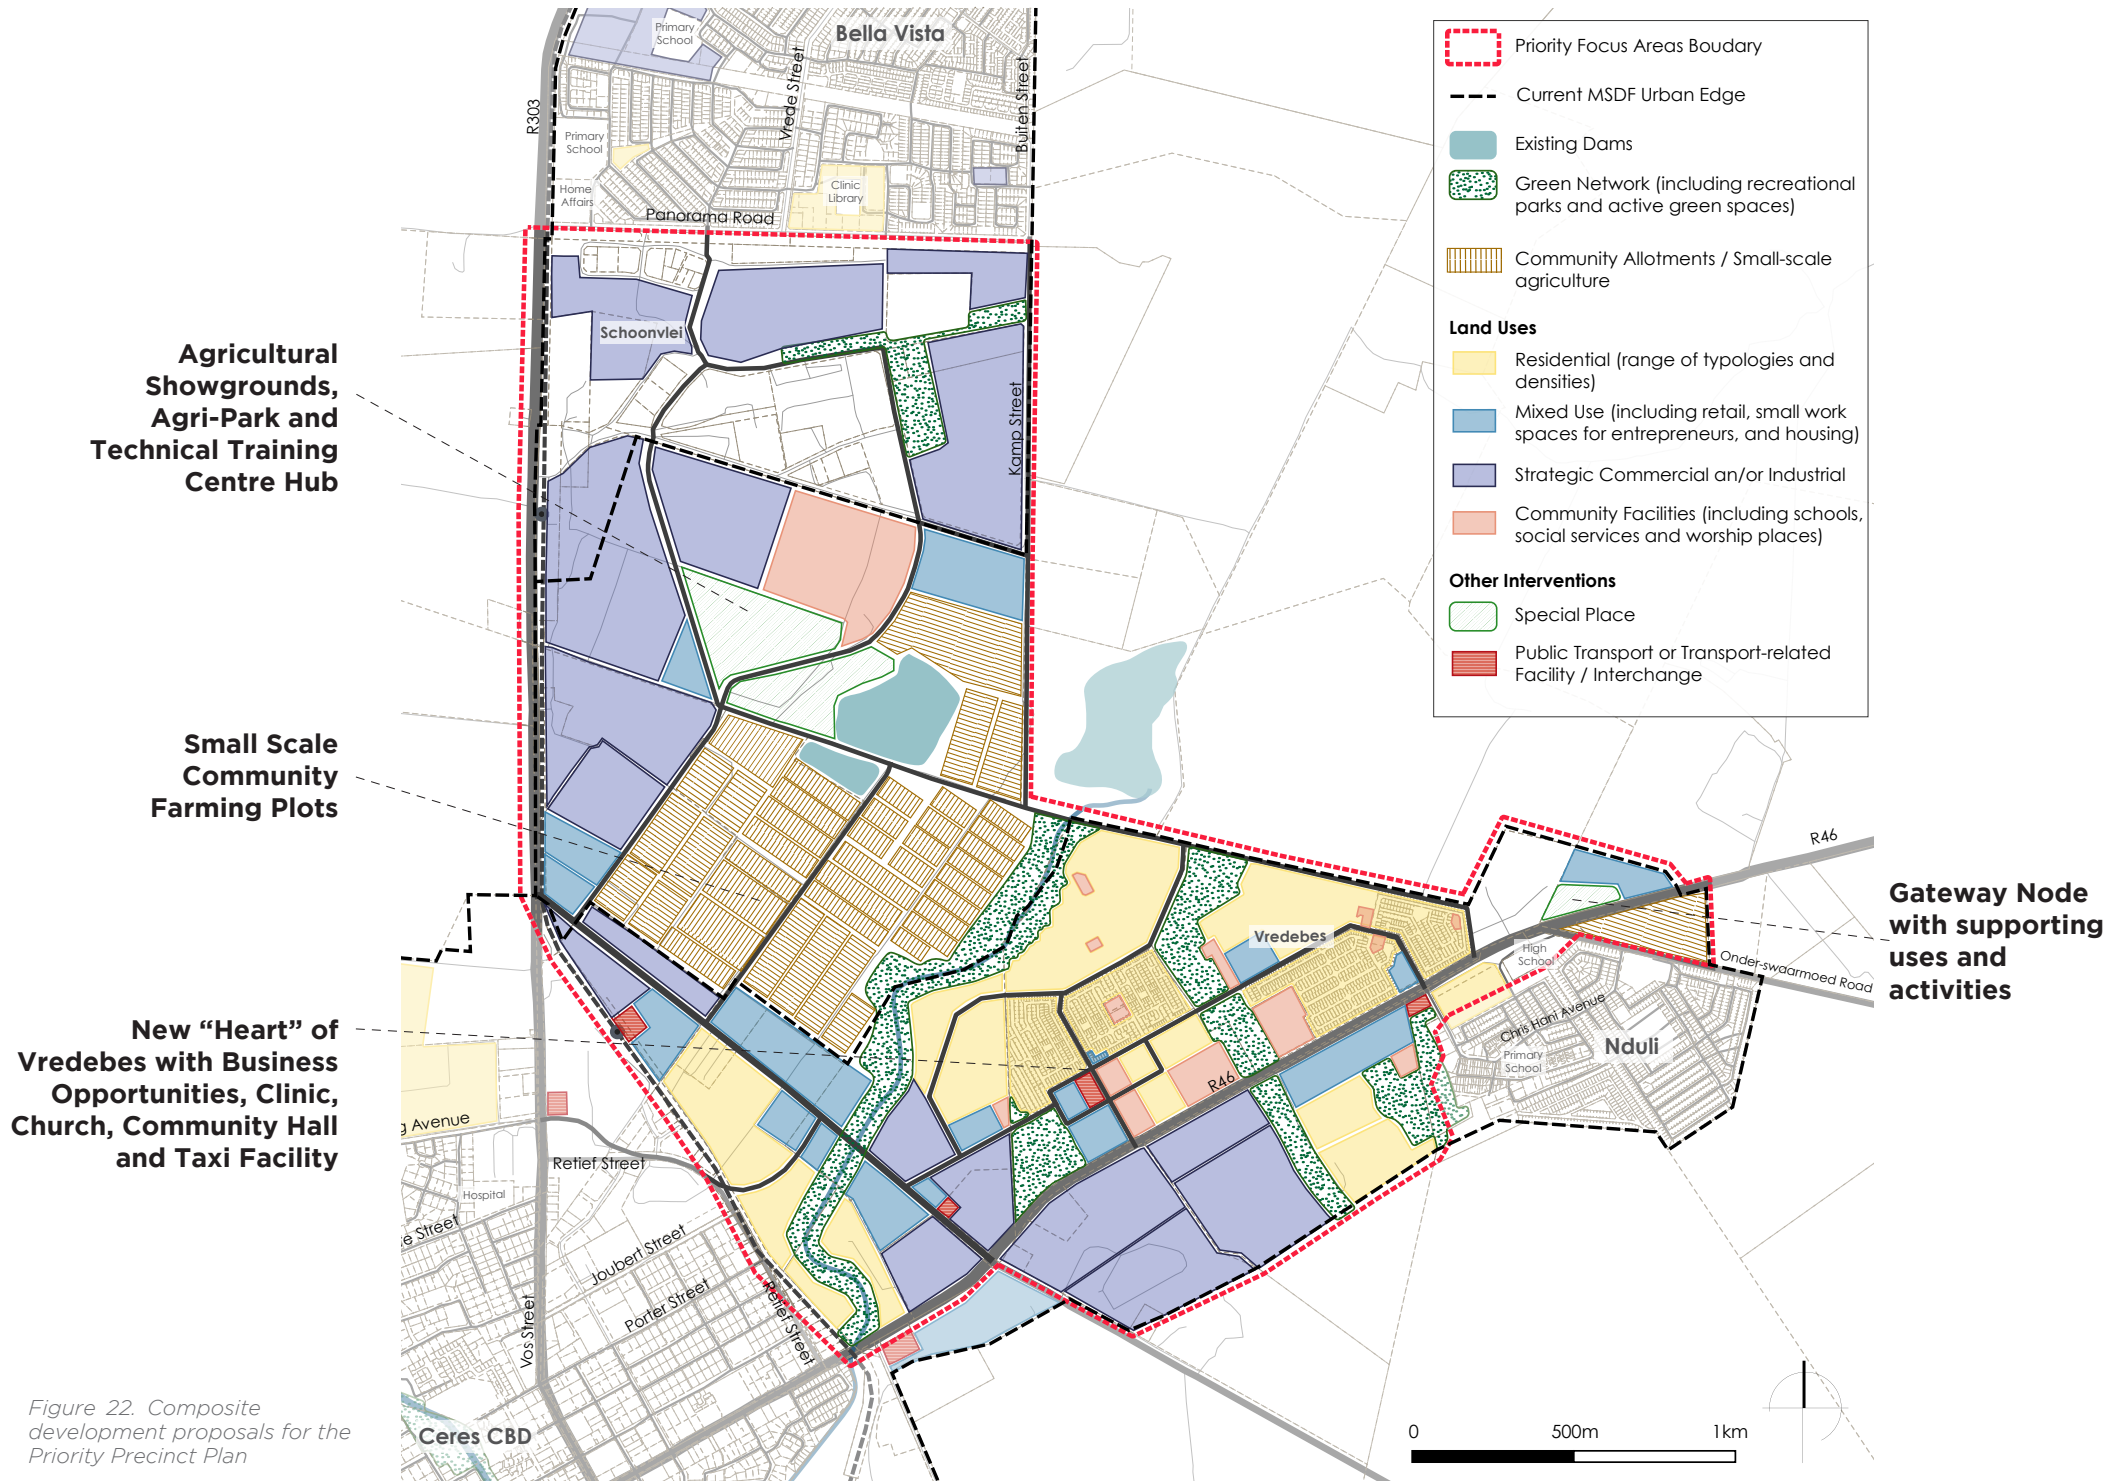

Figure 21. The 4 Sub-precincts

5.1.2. Movement routes

Key proposals related to movement routes are:

- The redesign of the cross-section of the R46 from Ceres to Nduli to accommodate both its function as a regional distributor (Class 1 Regional Distributor) and non-motorised transport (between Ceres, Vredebes, and Nduli).
- Upgrade of the R303 to enable safe non-motorised transport between Bella Vista and Ceres town.
- An activity route (Class 3 District Distributor) east of Retief Street and the rail line connecting the R46 (at the point where Ezelfontein Road connects with the R46) and the R303.
- A class 3 Regional Distributor connecting the R303, industrial area and R46 east of Nduli.
- The continuation of Skurweberg Avenue across the R303 to link with the new activity route.
- A connecting route from Vredebes to the activity route.
- North-south linkages between Bella Vista and the activity route (through the industrial area and the undeveloped area south of the industrial area).

These routes are largely as indicated on Diagram 14a of the Witzenberg Road Asset Management Plan (prepared by SMEC - see Annexure A).

Three aspects, however, require further consideration:

1. The current proposal indicate the class 3 Regional Distributor connecting the R303, industrial area and R46 east of Nduli, as continuing on the west-east alignment of Vreeland Street, through an agricultural area, and linking with the R46 some distance east of the Warmbokkeveld Prison. An alternative for this route could be via Vreeland Street and

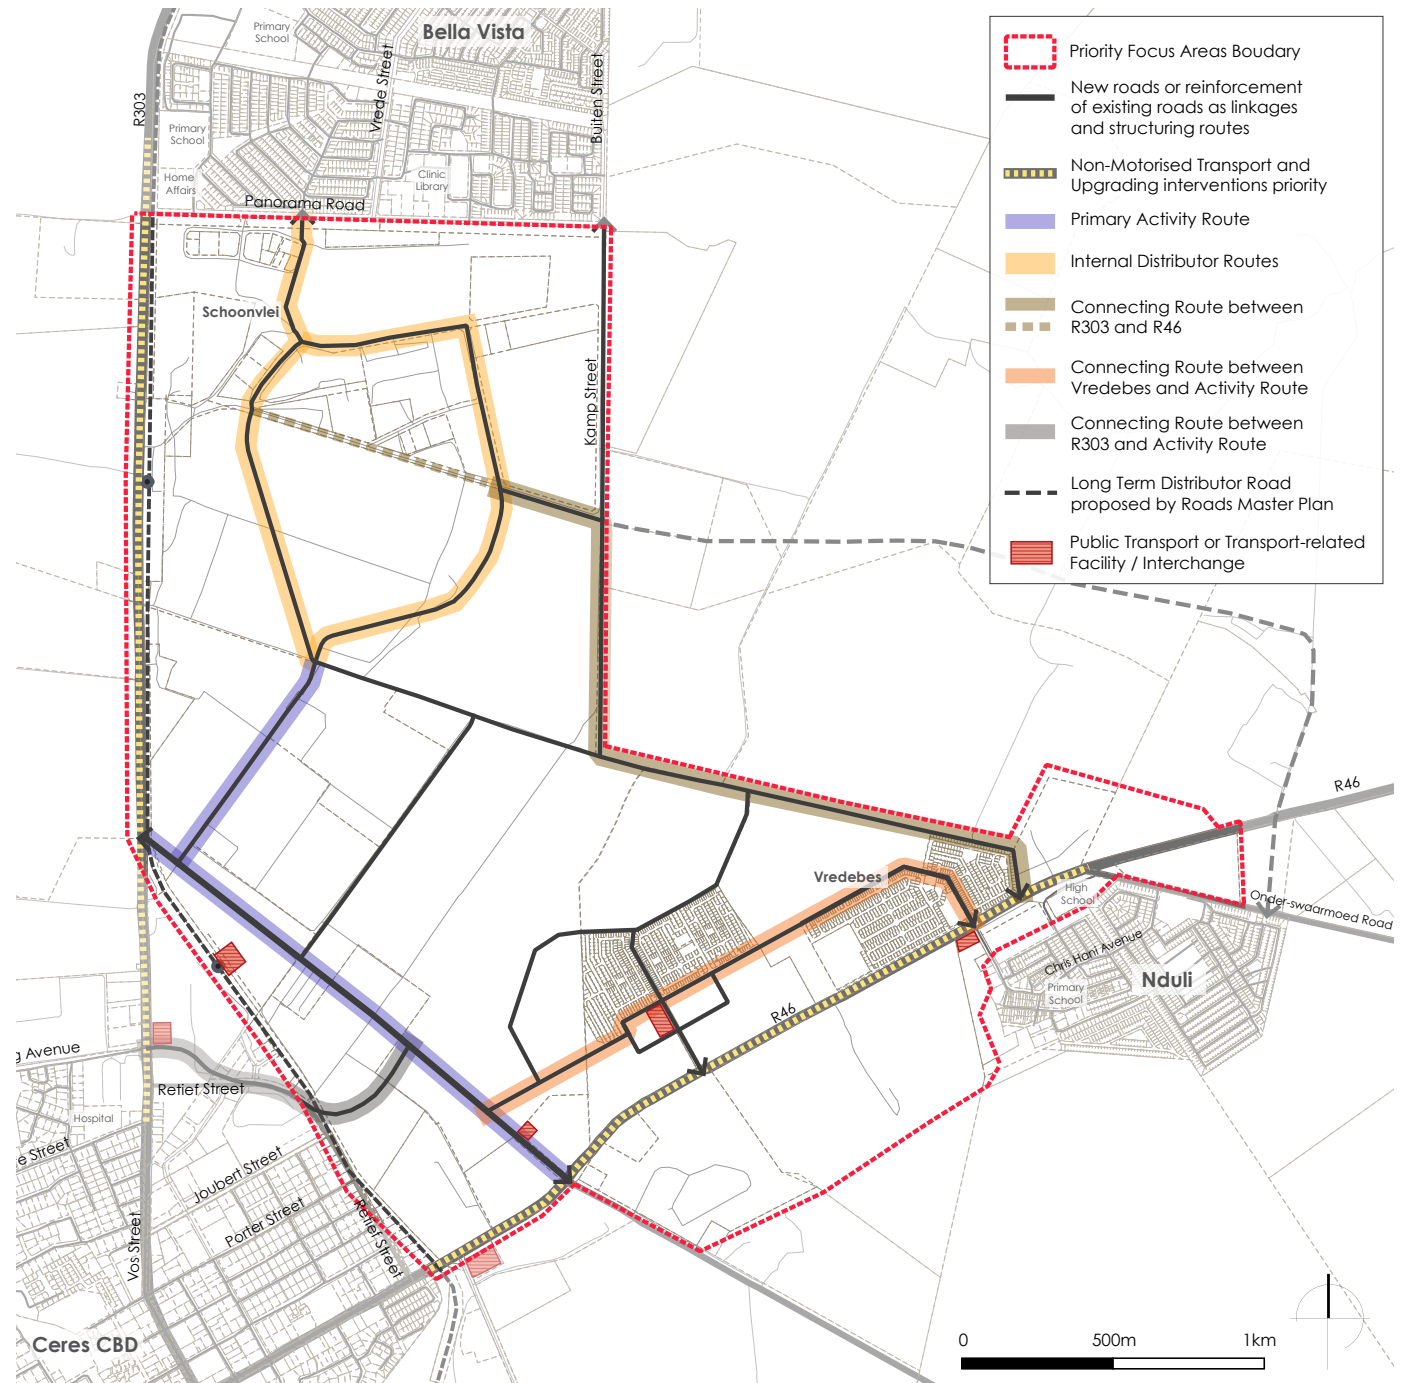

Figure 23. Movement Route proposals for Ceres Precinct Priority Area.

Kamp Street and then following the on-named route immediately north of Vredebes to link with the R46 closer to the Warmbokkeveld Prison. It is unlikely that the area of farmland crossed by the route indicated on diagram 14a will be developed over the longer term.

2. The Vredebes Road Hierarchy Plan indicates two 16m District Distributor routes, running largely parallel to the R46. The northern one is designed to continue and link to the activity route (Class 3 District Distributor) east of Retief Street while the southern Vredebes Distributor “stops short”. Ideally, this route should also be continued to link with the activity route east of Retief Street. Continuation of this route will also provide an interface between commercial and industrial use envisaged along the R46 and residential uses behind. This precinct plan therefore proposes the **amendments to the Vredebes layout plan to facilitate this connecting route.**
3. Diagram 14a (annexure A) indicates awkward, indirect north-south linkages between Bella Vista and the activity route through the industrial area and the undeveloped area south of the industrial area. This is largely owing to the curvilinear layout of Schoonvlei Industrial area which inhibits seamless through connections. It is believed critical that **easily negotiable routes through Schoonvlei should be established, at least for non-motorised transport.**

5.1.3. Land use

Sub-precinct 1:

Previous concept plans prepared in 2012 for most of sub-precincts 1 and 2 (named Ceres Vredebes: Conceptual Development Framework Overlay and Ceres Marseaux: Conceptual Framework Plan) indicates the area west of the Vredebes housing area for industrial use, also adjoining the proposed activity route connecting the R46 and the R303

(this area was indicated as Area D in the previous MSDF).

Except for two schools, a clinic, and open space, this proposal also indicates considerable housing abutting the R46.

A better distribution of land use appears to be one where commercial, industrial, and institutional activity abuts important routes and residential use is accommodated behind the commercial and industrial uses. Major movement routes are the focus for significant development related “energy”, and land adjacent to key section of these routes within settlements should be exploited for economic development opportunity.

This would imply more non-residential use along the edge of Vredebes abutting the R46 and that the Vredebes housing area could be extended westwards towards the proposed new activity route (this approach has been adopted in the 2019 Witzenberg MSDF).

The land area south of the R46 and between Du Toit Fruit/ Ezelfontein Road and Nduli (measuring some 30ha in extent) has been included within the urban edge of the approved 2019 MSDF. Ideally this land should be developed for commercial/ industrial use abutting the R46 and residential use behind.

In developing land abutting the R46 every effort should be made to also provide for small and emerging entrepreneurs, whether in the form of basic trading infrastructure or smaller structures to house business and service industries.

Previous proposals indicate a possible truck stop facility, west or east of Nduli. It is not believed desirable to accommodate such a facility directly adjacent to a residential area. A truck stop facility – should there be private sector interest – could be better located along the R303 or in association with the Schoonvlei Industrial area and the class 3 Regional Distributor connecting the R303, industrial area and R46 east of Nduli.

As indicated in the approved 2019 MSDF, the vacant area east of Nduli along the R46 is proposed as a mixed-use area with commercial opportunity and public space which can serve as a “gateway” attraction to the Koue Bokkeveld and Tankwa Karoo while providing livelihood opportunity for local residents.

Sub-precinct 2:

A previous conceptual framework plan prepared in 2012 for sub-precinct 2 (named “Marseaux”) indicates the area west of the for farmworker housing, residential, and industrial use (abutting the R46).

As a principle, it is believed that this triangular shaped land area (measuring approximately 35ha in extent) should be developed for commercial and industrial use abutting major routes with residential use behind. As indicated under sub-precinct 1, the Vredebes housing area could be extended westwards towards the proposed new activity route, with commercial and institutional uses abutting major routes.

The Municipality has received an application for a major shopping centre in sub-precinct 2, south of the R46 and at the intersection of the R46 and Ezelfontein Road. The location of this facility is appropriate in relation to access to many parts of Ceres town and different communities. Key matters to consider in land use management deliberations related to this facility are:

- The continuity of non-motorised transport routes past and to the facility.
- Safe and convenient public transport (taxi) drop-off and pick-up points associated with the facility.
- A transparent and well-landscaped interface between the facility and the R46.
- The provision of opportunity for small and emerging entrepreneurs as part of the facility.

Sub-precinct 3:

Sub-precinct 3 is currently outside the urban edge in terms of the approved 2019 MSDF. The sub-precinct measures some 200ha in extent.

In general terms, development of this area is the lowest priority of the sub-precincts comprising the Precinct Plan. Every effort should be made to prevent piecemeal development of this area until such time as other sub-precincts have been developed to a large extent.

In terms of the future distribution of activities, development of the area should be structured with a north south route connecting Bella Vista, Schoonvlei, and the activity route proposed as part of sub-precinct 2. In general terms, land adjacent to the R303 and north-south route should be used for industrial and commercial opportunity, with residential opportunity behind.

The Western Cape Rural Guidelines contain specific measures to support aspirant emerging farmers with access to land for commercial and subsistence farming purposes. Specifically, the Guidelines support creating opportunities to develop agricultural holdings in the urban fringe. In order to prevent the urbanisation of the urban fringe and ensure that areas set aside for small scale farming do not lead to uncontrolled urban sprawl or settlement formation, the Guidelines advise that authorities should restrict residential rights on agricultural holdings (but make provision for temporary structures on these properties for tool sheds, produce stores, security purposes, etc.). Further, municipalities should ensure that appropriate zoning or overlay zones are available and used for this purpose to differentiate from conventional agricultural areas, which accommodates multiple dwellings and ancillary uses. Land reform beneficiaries are encouraged to settle in nearby settlements.

Ideally, a portion of sub-precinct 3 should be retained for small-scale agriculture. The area east of the north-south connecting route will be ideal

Table 1. High-level land budget for the various sub-precincts

Sub-precinct	Specific Area	Developable Land (ha)	Residential / Institutional	Commercial / Industrial
Sub-precinct 1	Area west of Vredebes	±40ha	±30ha	±10ha
	South of the R46	±30ha	±20ha	±10ha
Sub-precinct 2	West of activity route	±35ha	±20ha	±15ha
Sub-precinct 3	Whole area currently excluded from the urban edge	±200ha	±30ha*	±70ha*
Sub-precinct 4	Schoonvlei Industrial	Larger sites measuring ±40ha in extent remain vacant	-	-

* Assuming about half the area (on the eastern side) is retained for small scale farming and exhibition purposes.

for this purpose. Reserving land to the east for emerging farmers is also appropriate in relation to location proximate to the proposed Agri-Park.

The approved 2019 MSDF indicates the potential opportunity of Witzenberg hosting large scale agricultural shows/exhibitions similar to the annual NAMPO Agricultural Trade Show at Bothaville, one of the largest agricultural exhibitions under private ownership in the southern hemisphere². The area of sub-precinct 3 south of the Schoonvlei Industrial area and east of the north-south route is ideally located as a venue for major shows/ exhibitions.

² An agricultural show can contribute significantly to local economic development and job creation. The four-day NAMPO show attracts up to 100 000 visitors, 750+ exhibitors, and utilises some 200 000m² exhibition space. The annual economic contribution of the show to Bothaville is estimated at some R35-45m, including daily occupancy of 5 000+ beds in guest houses and B&Bs in Bothaville and surrounding towns, as well as hundreds of temporary jobs. The facility provides water, power, communication, 22 temporary restaurant and take-a-way food establishments, and ablution facilities. A temporary media and business centre is provided, as well as commuter services between the Park and Bothaville.

Sub-precinct 4:

The Schoonvlei Industrial area is partially developed. Two large properties abutting the cemetery and Kamp Street – respectively measuring 16ha and 20ha in extent – remain vacant.

The Cape Winelands District Rural Development Plan identifies a district Agri-Park as part of the Schoonvlei Industrial area. The facility is seen as a catalyst for rural economic development/ industrialisation ensuring development and growth in order to improve the lives of all communities in the district.

As indicated above, the curvilinear street layout of the Schoonvlei Industrial area inhibits seamless and direct through connections between Bella Vista and sub-precinct 3. Every effort should be made to provide direct, easily negotiable north-south non-motorised transport routes through Schoonvlei.

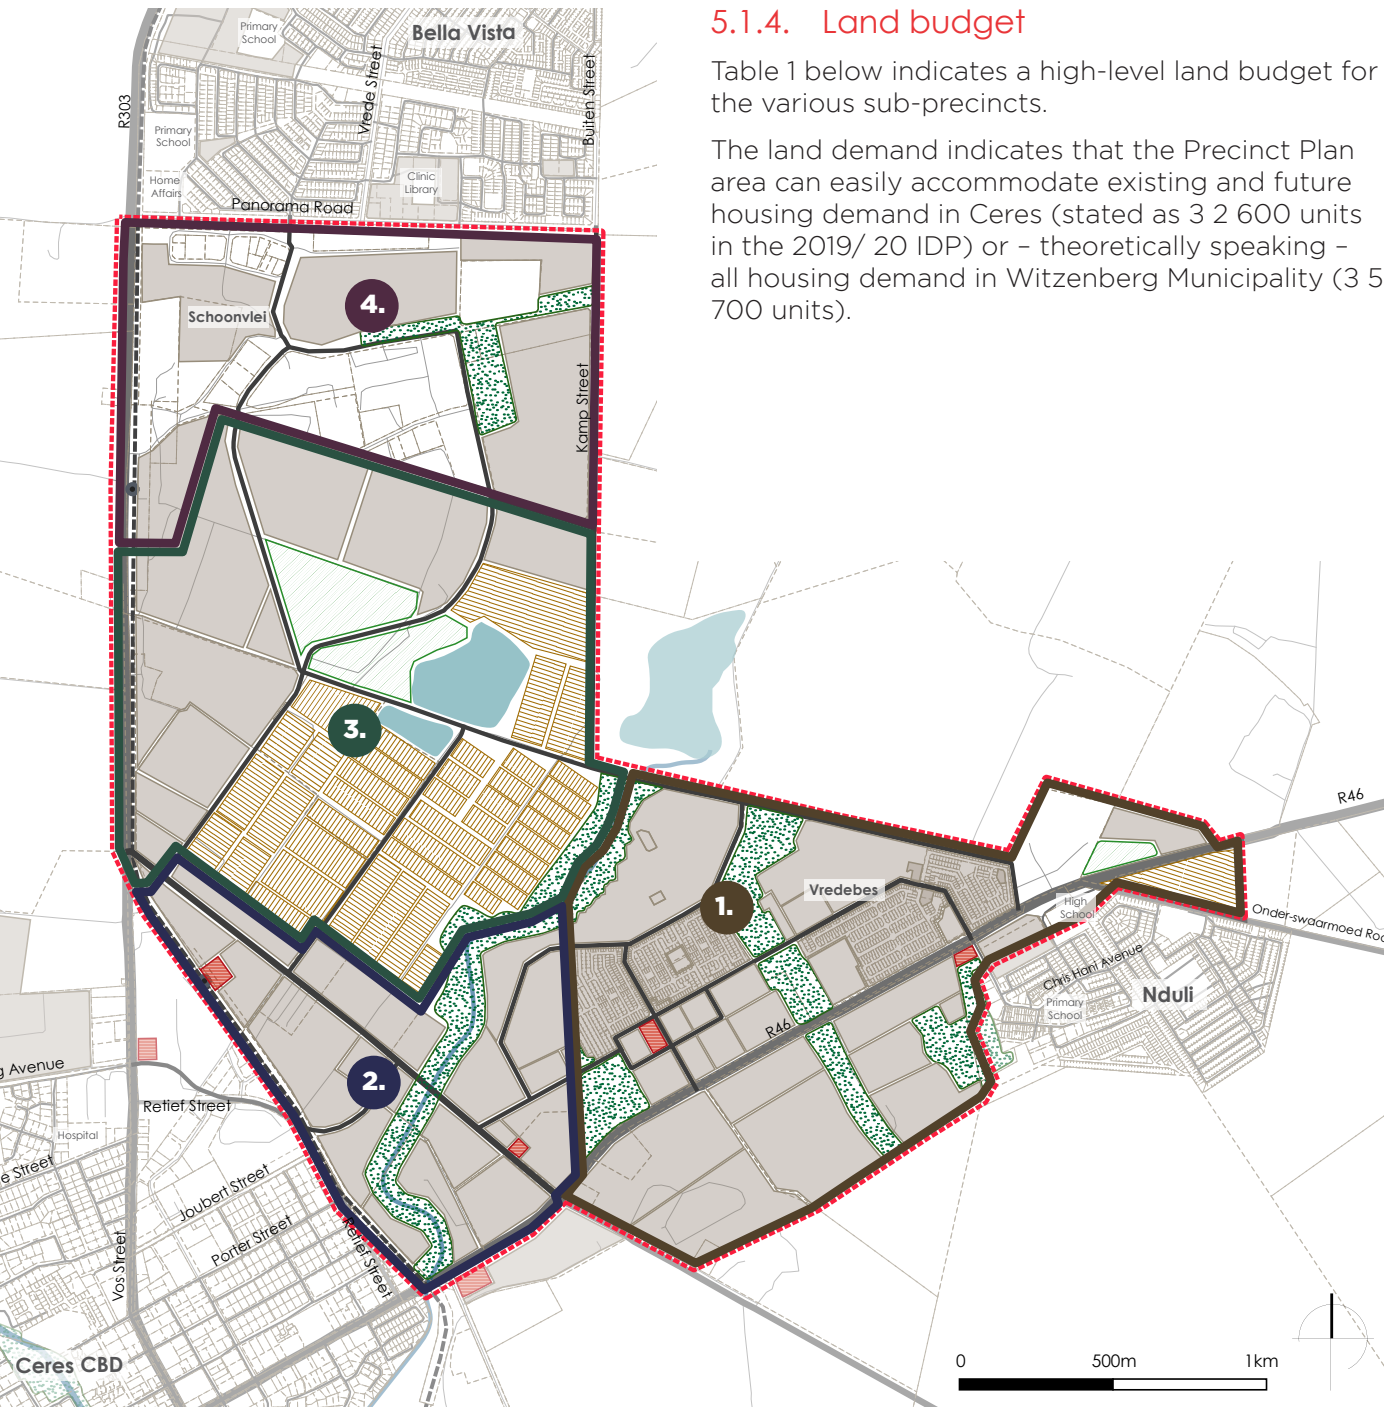

Figure 24. Full extent of development proposals for the Priority Precinct Plan in relation to Sub-Precincts

5.1.4. Land budget

Table 1 below indicates a high-level land budget for the various sub-precincts.

The land demand indicates that the Precinct Plan area can easily accommodate existing and future housing demand in Ceres (stated as 3 2 600 units in the 2019/ 20 IDP) or – theoretically speaking – all housing demand in Witzenberg Municipality (3 5 700 units).

5.2. Infrastructure Implications

As indicated in the 2019/ 20 IDP, Witzenberg Municipality has significant infrastructure challenges which may impede further development. Specifically:

- The Municipality is running at its NMD (Notified Maximum Demand) of 42,8 MVA. The current Eskom backbone network does not permit an increase of NMD until such time as their backbone network has been upgraded. The implications thereof are four years and R360m of investment, meaning that 2021 is the earliest that NMD can be upgraded.
- A number of landfill site in the Municipality are under stress, and where closed or to be closed, resource constraints limit rehabilitation. To address solid waste issues, development of a regional landfill site at Worcester is currently in process with the purpose to accommodate the municipalities of Witzenberg, Breede Valley (Worcester) and Langeberg (Robertson, Ashton, Montagu)

As with many other municipalities, limited resources underly infrastructure challenges.

Development of the Precinct Plan area will require infrastructure enhancements. To enable long-term resource planning, the nature of these enhancements and associated costs need to be determined.

With the short to medium term in mind, it is also critical to determine what capacity exists in relation to existing and planned infrastructure improvements, specifically in relation to sub-precinct 1, to enable, for example, the extension of Vredebes westwards and development of the part of sub-precinct 1 south of the R46.

Part 6.

Implementation

6. Implementation

6.1. Phasing

In terms of phasing, the following progression of development is foreseen:

6.1.1. Current parallel initiatives

- The completion of Vredebes (sub-precinct 1) and amendments as required to align with precinct plan proposals.
- Possible extension of Vredebes westwards should the need exist (sub-precinct 1).
- Private development of a shopping centre (sub-precinct 2).
- Upgrading of the R46 between Ceres town and Nduli, also accommodating non-motorised transport (sub-precincts 1 and 2).
- Upgrading of R303, also accommodating non-motorised transport (sub-precincts 3 and 4).
- Further development of Schoonvlei vacant land should demand exist (sub-precinct 4).

6.1.2. Medium term (5 years)

- Activity route and connections to Vredebes (sub-precincts 1 and 2).
- Development of sub-precinct 2.
- Development of the area of sub-precinct 1 south of the R46.

6.1.3. Longer term (10 years +)

- Inclusion of sub-precinct 3 within the urban edge.
- North-south connecting routes.
- Development of sub-precinct 3.
- Connector routes between Bella Vista, Schoonvlei and R46 north of Nduli.

6.2. Infrastructure Planning

The high-level movement structure, distribution of land uses, and land budget provided in the Precinct Plan should provide sufficient information for service departments to undertake parallel bulk infrastructure planning to support the proposed development over time, including long term financial planning and budgeting.

6.3. Funding

To date, the Witzenberg Municipality has been assisted in planning for the Precinct Plan area through the WCG's Regional Socio-Economic Programme (RSEP), an intergovernmental programme which focuses on urban upgrading and renewal focusing on previously disadvantaged neighbourhoods through pro-poor and social upliftment interventions and to address the legacies of spatial segregation in South Africa.

This is done by implementing physical projects that will have an immediate impact and demonstrate "what can be done" in order for municipalities to mainstream this directive in their normal day-to-day work and future planning initiatives and budgeting processes. In addition, non-physical projects are also undertaken (e.g. precinct planning, urban design, and facilitating partnerships and collaboration).

The Programme also aims to promote a "whole-of-society" approach which envisions provincial and local government partnering with active citizens, communities and stakeholders to promote social and economic inclusion; and furthermore, to establish a "whole-of-government" approach to enhance planning-led budgeting through coordinated multi-sector spending in the province.

The programme is therefore focused on bringing together a range of stakeholders, both local, provincial, national and private, in order to

achieve effective and efficient joint planning and implementation at the local level and to improve quality of life of citizens and in communities.

Following community workshops, the focus has therefore been on two projects. The first is pedestrian and cycle access between Bella Vista (along the R303/ Vos Street) and Nduli (along the R46) and the main town of Ceres (where most employment and commercial opportunity is located). A budget of R5,61 m has been approved for the pedestrian ways (R1,61 m has been provided by Witzenberg and the remainder by the RSEP). Construction of pedestrian walkways is planned for 2019/ 20. The second is focused on Vredebes (a large housing project) where it was found that social facilities will not be completed in parallel with housing development. It was agreed to establish a Collaboration Committee, tasked to assist with the coordinated and sustainable development of the area. A concept plan has been prepared to assist the work of the Collaboration Committee, to established during the 2019/ 20 financial year.

A definite option for Witzenberg to secure significant further funding for the Precinct Plan area is the National Treasury's Neighbourhood Development Programme (NDP).

This Programme provides technical assistance and grant funding to municipalities for capital projects that will leverage further public and private sector investment in strategic locations around the country. Through the NDP, Treasury established a partnership with the Department of Rural and Land Reform (DRDLR) in 2014 on the regeneration of small towns. The partnership established with DRDLR was to ensure that rural municipalities remain a priority. This programme calls for the focus area for intervention to be small towns and not villages or the rural hinterland.

According to National Treasury's NDP Guidelines, the outcome of a Precinct Plan must focus on a detailed composition of the future spatial structure of the identified precinct area by means of maps as well as design guidelines. In addition, the Precinct Plan must be able to prepare the Municipality for the submission of a precinct phasing plan and a table of prioritised projects for approval by NDP. A Precinct Plan must therefore also contain Project Plans with detail on individual projects.

The locally specific emphasis of a precinct plan will vary based on the specific context and local issues, but in general should contain sufficient detail to:

- Indicate desired patterns of land use within the precinct and set out basic guidelines for implementation.
- Identify programmes, projects and restructuring elements for the development of land within the precinct.
- Set out a clear implementation plan and the associated costs. Identify where public investment should be prioritised while also identifying 3rd party investment.

Therefore, a precinct plan must identify:

- Sub-precincts and associated detailed interventions.
- Required bulk capacities for implementation.
- Pipeline of projects (spatial and non-spatial) for funding and implementation across spheres of government.

The National Treasury methodology is aligned with the Municipality supported Package of Plans approach as outlined in Section 97 of the Witzenberg Municipality Land Use Planning By-Law (2015).

6.4. Land use management processes

The Witzenberg Municipality Land Use Planning By-Law (2015) has been adopted to regulate and control municipal land use planning. The preparation and adoption of the By-Law follows on and has occurred within the framework of:

- Section 156(1) of the Constitution conferring on municipalities the executive authority and right to administer local government matters as set out in Part B of Schedule 4 and Part B of Schedule 5 to the Constitution (and Part B of Schedule 4 to the Constitution listing municipal planning as a local government matter). SPLUMA requiring the executive authority of a municipality to oversee such responsibilities as it may designate to officials of such municipality and non-officials in the implementation of the Act.
- LUPA requiring a municipality to regulate inter alia the development, adoption, amendment and review of a zoning scheme for the municipal area, the procedures in terms of which the municipality receives, considers and decides on land use applications (including public participation and criteria for decision making).
- Section 156 (2) of the Constitution empowers municipalities to make and administer laws for the effective administration of matters that it has the right to administer.

In terms of Section 97 of the By-Law:

- The Municipality may require a package of plans to be submitted for approval in respect of an application for rezoning of certain planning areas.
- The general purpose of a package of plans is to provide for a mechanism to plan and manage the development of large or strategic urban development areas. It is a phased process of negotiation, planning and approvals,

whereby increasing levels of planning detail are approved together with conditions for such approvals.

- The Municipality may require that the area covered by a development framework shall extend beyond the land under consideration if, in its opinion, the proposed development will have a wider impact, and the municipality may determine the extent of such area.

Within the overall framework set by the Precinct Plan (as a concept development framework for the Precinct Plan area), further planning in terms of the package of plans approach can proceed (once infrastructure planning for the overall area has been completed).

6.5. Institutional Arrangements

To ensure integrated further planning and development of the Precinct Plan area, it is recommended that the Municipality form a working group comprising:

- Officials from the relevant service departments (specifically planning, engineering services, housing, and community services).
- Representatives from Provincial government (and National government should the NDP planning/ funding route be pursued).

6.6. Development guidelines

6.6.1. General Guidelines

Two sets of general guidelines are applicable to the Precinct Plan area:

1. The Western Cape Rural Guidelines include general development guidelines as well as specific recommendations for the location, form and management of specific activities in the rural area.
2. The PSDF's Settlement Toolkit which provides spatial guidance on the PSDF's proposals for key themes at municipal, rural, town and precinct scales.

As part of the area is envisaged to remain outside the urban edge – and a part of the rest abuts agricultural land – the Western Cape Rural Guidelines are applicable. In general terms, the guidelines state that development in the rural area should not:

Have a significant negative impact on biodiversity or ecological system services.

- Lead to the loss or alienation of agricultural land or has a cumulative impact there upon.
- Compromise existing or potential farming activities.
- Compromise the current and future possible use of mineral resources.
- Be inconsistent with the cultural and scenic landscape within which it is situated.
- Lead to inefficient service delivery or unjustifiable extensions to the Municipality's reticulation networks.
- Impose real costs or risks to the Municipality delivering on their mandate.
- Infringe on the authenticity of the rural landscape.

To support aspirant emerging farmers with access to land for commercial and subsistence

farming purposes, create opportunities to develop agricultural holdings in the urban fringe, and support different settlement options to allow rural dwellers and their dependants to fully benefit from the various tenure, housing and subsidy benefits and rights which are availed to them. Part of sub-precinct 3 has been identified as suitable for subsistence farming. The Western Cape Rural Guidelines maintains inter alia that:

- Where an agricultural land reform project is implemented on a farm, the same rights apply as in “normal” areas.
- If a group of individuals collectively own the land, the provision of housing to all beneficiaries of the land reform project is discouraged as only one homestead for the owner is allowed. The remaining occupants on the farm could be accommodated as agri-workers, but settlement formation should be guarded against.
- New agricultural holdings (small agricultural properties) in the urban fringe within the Agriculture SPC are encouraged for cultivation and livestock purposes.
- Municipal commonage (which should not be alienated or fragmented) and state-owned land should be considered for the establishment of (community) food gardens and the entry of new farmers into the market.
- A minimum agricultural holding size of 8000m² is recommended and such properties should include an independent water source, or a secured water source for the intended agricultural or economic activities and purposes on the land.
- In order to prevent the urbanisation of the urban fringe and ensure that areas set aside for small scale farming do not lead to uncontrolled urban sprawl or settlement formation, authorities should restrict residential rights on agricultural holdings (but make provision for temporary structures on these properties for

tool sheds, produce stores, security purposes, etc.).

- Municipalities should ensure that appropriate zoning or overlay zones are available and used for this purpose to differentiate from conventional agricultural areas, which accommodates multiple dwellings and ancillary uses.
- Land reform beneficiaries are encouraged to settle in nearby settlements. Only in exceptional cases, should authorities deviate from these guidelines and permit a maximum of one dwelling per agricultural holding for settlement of the owner or those who work the land.
- The subdivision of agricultural land in the rural landscape for individual title to provide security of tenure to agri-workers and rural dwellers are not supported.
- Agri-villages can be considered in a farming area where there is a concentration of agri-workers due to the type of agricultural activities (and a substantial demand for “off-the-farm” settlement), where there are no established settlements within practical commuting distance (approximately 30km), where the owners and workforce of a company farm (or a group of neighbouring farms) identify sufficient demand and the capacity for the establishment of a centrally located settlement where housing and communal facilities and services can be cost effectively provided to the local agri-worker community.
- Security of tenure is afforded by way of a lease or notarial deed of servitude, as the land and housing remain the property of the institution/legal entity.

The PSDF's Settlement Toolkit guidelines is organised around four themes. At the precinct scale, the following guidelines are applicable:

Accessibility

- Ensure that settlement layouts provide clear and direct pedestrian linkages and routes.
- Avoid convoluted road networks which favour vehicular circulation.
- Promote streets as multi-purpose spaces designed to accommodate all modes of transport and a range of activities.
- Encourage walking and cycling by providing safe, legible and attractive environments free from traffic and ensure that these
- routes are edged by buildings that overlook space rather than blank walls and backs of buildings.
- Manage parking so that it is used more efficiently and does not dominate the streetscapes of the town by placing it behind or to the side of the building to avoid impeding pedestrian access.
- Minimise driveway widths so as to conflict as little as possible with pedestrian traffic.
- Encourage pedestrian access by placing buildings adjacent to the street with minimal setbacks (no more than 3-5 meters for commercial and mixed-use or 6-8 meters for residential), rather than behind large parking lots. Primary entrances should open to the street and be located as close as possible to transit stops.

Activities Patterns and Land Use

- Local precincts within towns must be mixed use, with properly-scaled residential and commercial development to make transportation systems more efficient and affordable, to create economic opportunity and to enhance the community.
- Ensure that all communities and neighbourhoods have access to the full range of services, amenities and opportunities.

- Aim for “neighbourhood completeness” through clustering to increase the liveability, accessibility and vitality of settlements
- Group public facilities, services and government offices to increase convenience and efficiency and align this with higher densities
- Ground floor uses facing the street should be “active” uses as much as possible (such as retail or community uses) and should be mostly transparent (e.g., windows, display cases) rather than blank walls facing the street.

Facilities and Social Services

- Encourage multi-functionality, safety, legibility and access through well-designed community facilities.
- Edge community facilities with functional public spaces, housing or retail activities, not vast vacant land.
- Always consider positive edges and public interfaces, accessible and well-defined entrances when designing the form and layout of education and health facilities.

Informality, Housing Delivery, Inclusion and Urban Land Markets

- Improve the spatial design qualities of new housing projects through improved layout and unit design and appropriate orientation of buildings.
- Consider sustainable urban systems and infrastructure through green building technologies and infrastructure options.
- Prioritise investment into community facilities, public infrastructure and public space rather than a single focus on housing or top structures (as per the NDP).
- Encourage the development of new social housing stock and provide access to municipal

rental stock, land and buildings for social housing development.

6.6.2. Specific Guidelines

6.6.2.1 Movement routes

Albeit proposed movement routes – at the level of the Precinct Plan – have considered cadastral boundaries and the boundaries of current cultivated land units as far as possible to ensure easier negotiations and viable land units, the planning of movement routes should in the first instance pursue a logical grid system which is:

- Easily negotiable.
- Follow the shortest possible route for non-motorised transport.

Furthermore, the movement network should not be planned in the manner of the existing Schoonvlei Industrial area which prohibits through-movement and the easy connection and integration of sub-precincts.

The cross-section of distributor routes should specifically provide for non-motorised transport, as well as the planting of street trees.

6.6.2.2 Housing

It is critical that the range of housing options be increased, providing in the needs of more citizens.

General guidelines for a range of publicly assisted housing are provided below. Guidelines include options for incremental development, a new National and Provincial policy focus in response to resource constraints in providing a completed unit to each beneficiary.

Description	Urban Form	Density	Locations
Single Storey Freestanding Housing		Nett: 10 - 20 DU/Ha Gross: 30 - 50 DU/Ha	Small settlements and on periphery of towns or semi-rural settings
Single Storey semi-detached Housing		Nett: 20 - 25 DU/Ha Gross: 40 - 55 DU/Ha	On periphery of towns within walking distance of lower order public facilities
Single Storey Row Housing		Nett: 25 - 35 DU/Ha Gross: 45 - 60 DU/Ha	Close to lower order facilities such as schools and community centres and play areas
Double Storey semi-detached Housing		Nett: 30 - 40 DU/Ha Gross: 50 - 65 DU/Ha	Areas within close walking distance of higher order urban opportunities
Double Storey row Housing		Nett: 35 - 45 DU/Ha Gross: 55 - 75 DU/Ha	Inner city or town locations close to urban opportunities and around inner city public spaces
Multi Storey Row Housing		Nett: 40 - 50 DU/Ha Gross: 60 - 90 DU/Ha	Inner city or town locations close to urban opportunities

Incremental Housing		Build Plinth	Provides solid base for construction and deals with flooding issues
		Build Firewall	Prevents the spread of fires and provides structural element for additions
		Build Wet core	Bathroom and kitchen
		Build street facade	Defines street interface, positively impacting on the dignity of the unit as well as the character of the public environment
		Complete house with formal or informal construction methods (second storey can be added)	Initial informal construction gets structural integrity from the pre-existing structures and does not have a visual impact on the street, as it is behind the street facade.

Figure 28. Guidelines for the relationship between buildings (Wellington CBD Urban Design Framework: GAPP, 2016)

6.6.2.3 Built form and landscaping

The following figures illustrate guidelines in relation to the built form and landscaping of new development areas proposed for the precinct. These images were developed for the Wellington CBD Urban Design Framework (GAPP, 2016) and are useful in terms of their relevance to the Ceres context while still illustrating generic spatial guidelines relating to the following themes:

1. The relationship between buildings:

- Avoid large box uses on the perimeter block of activity streets.
- Avoid blank walls and dead edges
- Create permeable, accessible and varied blocks with small shop frontages and permeable facades.

2. The relationship between commercial buildings and streets:

- Avoid blank walls facing onto public realm
- Avoid narrow sidewalks and overly wide streets
- Ensure an active building edge with colonnade/overhang
- Ensure safety through surveillance
- Limit service entrances to back of building
- Avoid high walls on street edge and parking lots in front of building
- Create transparent & positive building edges
- Ensure safety through surveillance

3. The relationship between public facilities and streets:

- Ensure active fronts to public facilities
- Use low walls to define boundaries to forecourts
- When appropriate, encourage public facilities to open onto public space

4. The intensification of development over time:

- Put in place enabling zoning to encourage single storey buildings to intensify into mixed use buildings with active commercial ground floor and residential above

5. The interface between urban and rural development, river corridors, and street planting:

- Ensure active edges onto street
- Encourage positive frontages that open onto the river
- Introduce safe and overlooked pedestrian bridges
- Provide low maintenance pathways to accommodate pedestrians and cyclists.
- Introduce natural, lightweight look-out decks.
- Use deciduous trees that provide shade in summer and lets warmth through in winter.

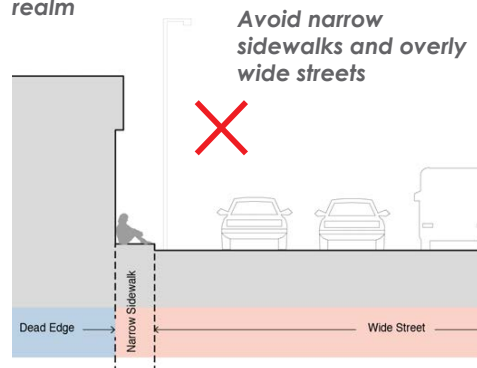

6. Design of street furniture, lighting, and surfacing of public spaces:

- Create seating and low walls that are robust and provide opportunities to sit and linger is safe spaces
- Ensure lighting is human scaled, especially around public spaces and along pedestrian routes
- Create a family of signage to be used throughout the town.
- Ensure signage is incorporated with buildings, lighting and street furniture to avoid over cluttering the street and public space environment.

7. Design of parking in commercial areas:

- Create parking lots that are multi-functional parking courts and accommodates public events as well as cars.

Avoid blank walls facing onto public realm

1. Ensure an active building edge with colonnade/overhang

1. Create transparent & positive building edges

Figure 29. Guidelines for the relationship between commercial buildings and streets (Wellington CBD Urban Design Framework: GAPP, 2016)

- Ensure parking courts are well landscaped with tree avenues and paving where possible.

Design of safe pedestrian crossing of streets:

- Use raised crossings to provide continuity and safety in the public realm as a continuation of the sidewalk over the street.
- Ensure raised crossing occur at important intersections acting as a traffic calming measures

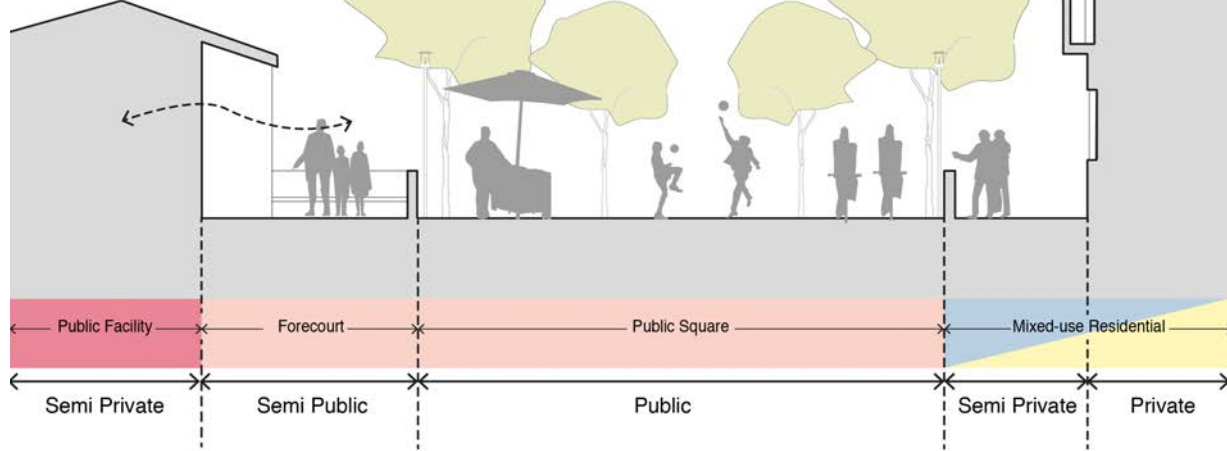

- Ensure raised crossings are gradual and occur over a minimum of 5m to accommodate trucks on provincial routes

Design of trading spaces abutting streets:

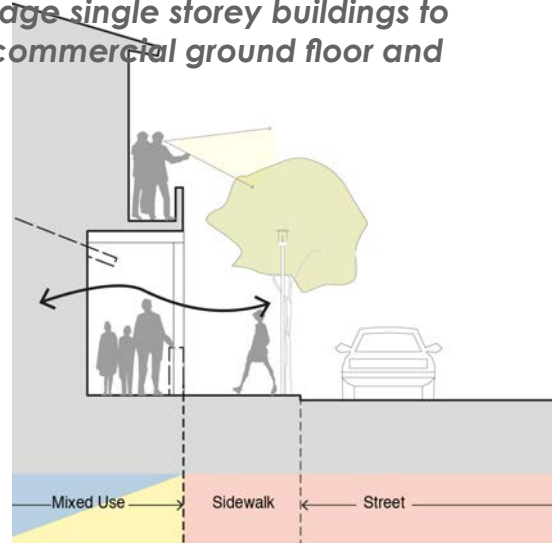

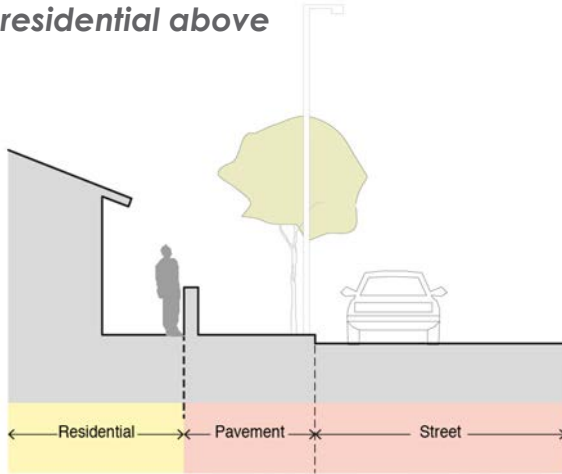

- Use street trading stalls to activate the dead edge of an existing building.

1. Ensure active fronts to public facilities 3. When appropriate, encourage public facilities to open onto public space

2. Use low walls to define boundaries to forecourts

1. Put in place enabling zoning to encourage single storey buildings to intensify into mixed use buildings active commercial ground floor and residential above

EXISTING SINGLE STORY RESIDENTIAL

ENVISAGED INTENSIFICATION

1. Ensure active edges onto street

2. Encourage positive frontages that open onto the river

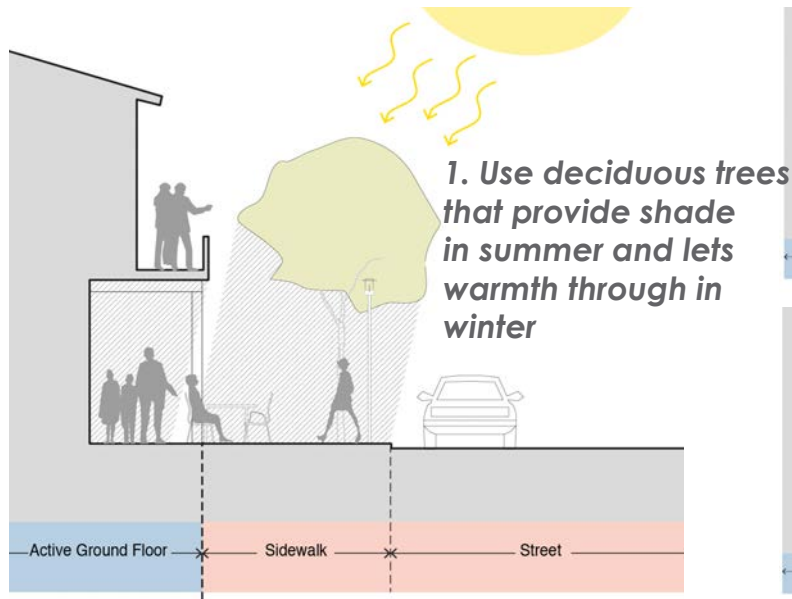

3. Introduce safe and overlooked pedestrian bridges

4. Provide low maintenance pathways to accommodate pedestrians & cyclists

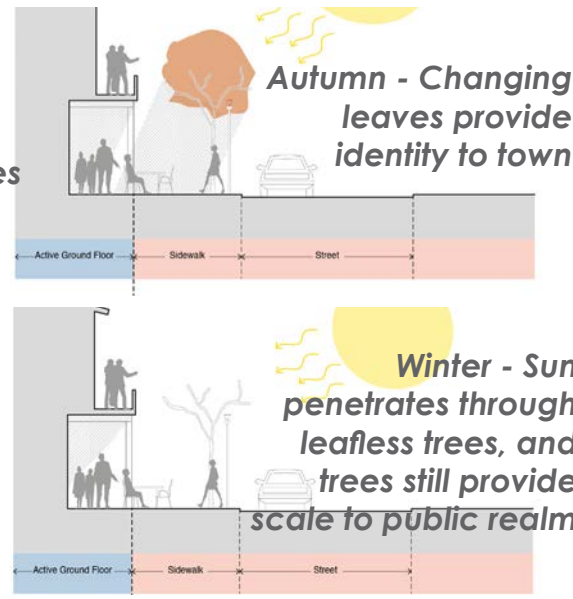

5. Introduce natural, lightweight look-out decks

Look out points (light weight, natural materials)

1. Use deciduous trees that provide shade in summer and lets warmth through in winter

Autumn - Changing leaves provide identity to town

Winter - Sun penetrates through leafless trees, and trees still provide scale to public realm

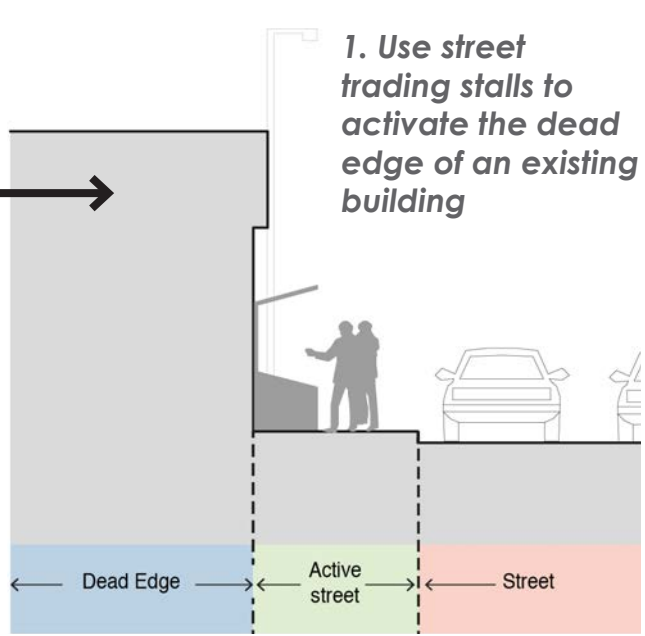

1. Create seating and low walls that are robust and provide opportunities to sit and linger in safe spaces

2. Ensure lighting is human scaled, especially around public spaces and along pedestrian routes

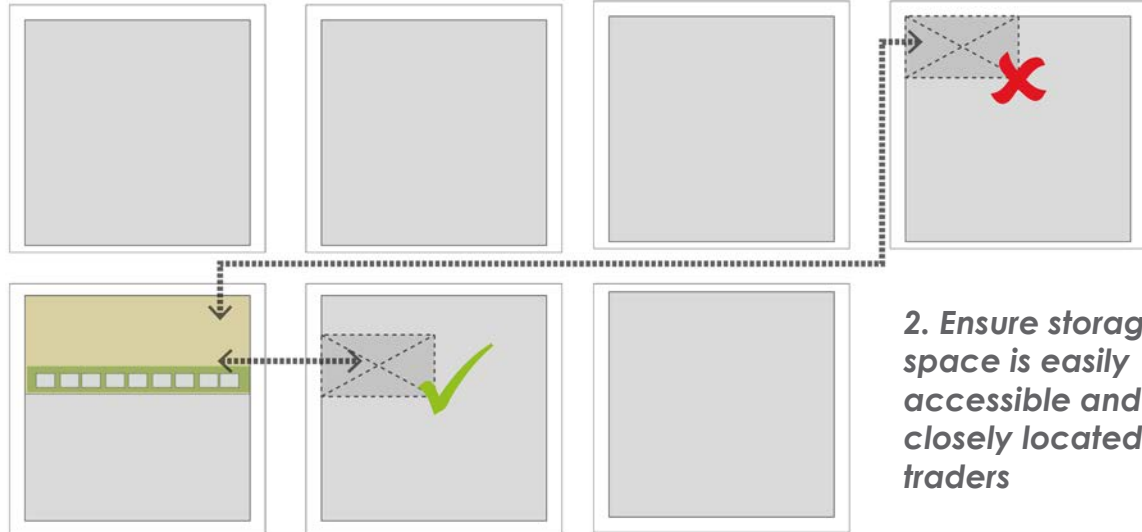

3. Create a family of signage to be used throughout the town.

4. Ensure signage is incorporated with buildings, lighting and street furniture to avoid cluttering the street and public space environment.

1. Use street trading stalls to activate the dead edge of an existing building

2. Ensure storage space is easily accessible and closely located to traders

6.6.2.4 Industrial development

Industrial/ manufacturing establishments should be encouraged to establish “public fronts”; outlets of products, areas illustrating how manufacturing takes place, or “plant tours”, where local goods can be purchased or visitors can learn about how goods are processed/ manufactured.

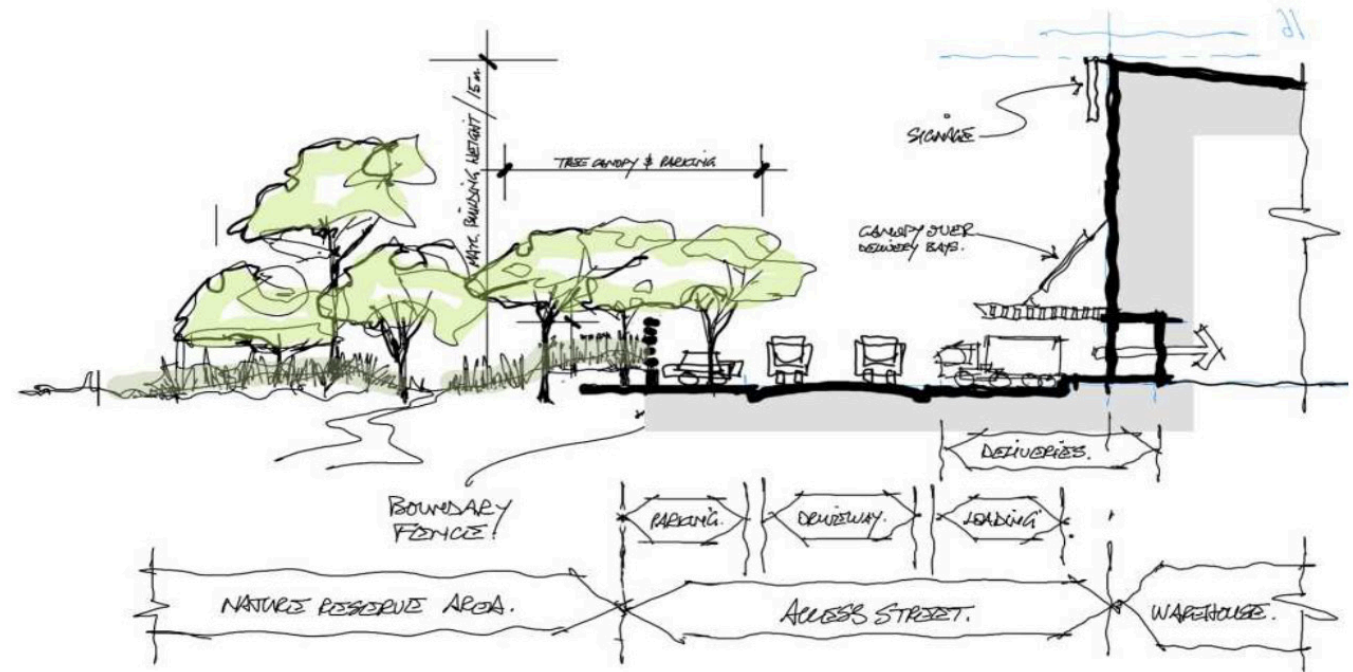

Figure 31. Example of outward frontage section for industrial precincts facing onto natural areas (Feasibility Study Opportunities and Constraints Report, February 2020 CK Rumboll and Partners)

Figure 32. Example of inward frontage section for industrial precincts (Feasibility Study Opportunities and Constraints Report, February 2020 CK Rumboll and Partners)

6.6.2.5 Institutional uses

- Strategically locate and align the provision of facilities and social services with access networks to ultimately increase convenience, access and viability (for example, schools should be located on district distributors).
- Cluster social facilities at accessible locations to optimise the catalytic potential of public services and buildings as instruments for urban regeneration and to define vibrant public spaces.

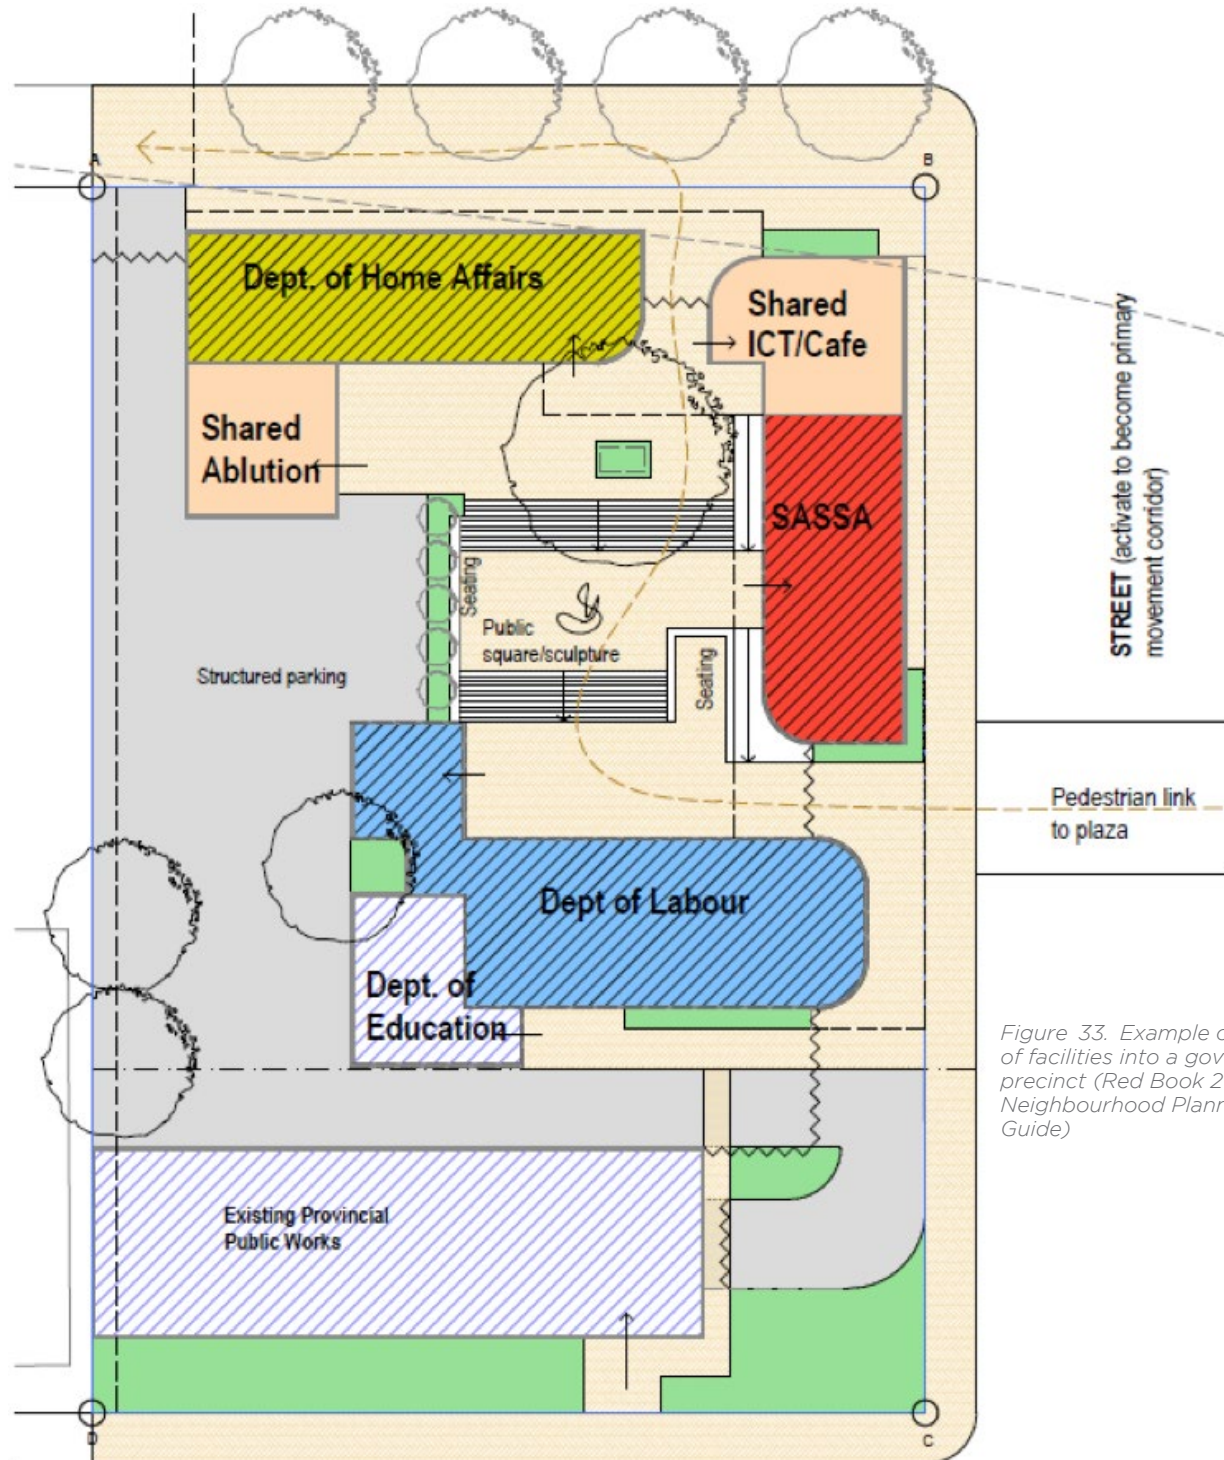

Figure 33. Example of clustering of facilities into a government precinct (Red Book 2019 - The Neighbourhood Planning & Design Guide)

6.6.2.6 Public space

- A range of public spaces should be provided, from small “packet parks” or seating areas to spaces for social ball-games.
- Public spaces should be positioned and designed for surveillance; excluding “dead” walled frontages and with abutting development overlooking them.

6.6.2.7 Space for small and emerging entrepreneurs

Traditionally, space for small and emerging entrepreneurs focuses on informal trading and the provision of various facilities – water, shading, storage, and so on – serving traders.

It is believed critical to expand access to facilities for small entrepreneurs beyond informal trading to include small workshops and commercial spaces.

One option could be to make Municipally owned industrial land available for the building of small work spaces benefiting from shared facilities.

Figure 34. Work Live Units sketch, by Babett Frehrking and Jonker Barnes Architects.

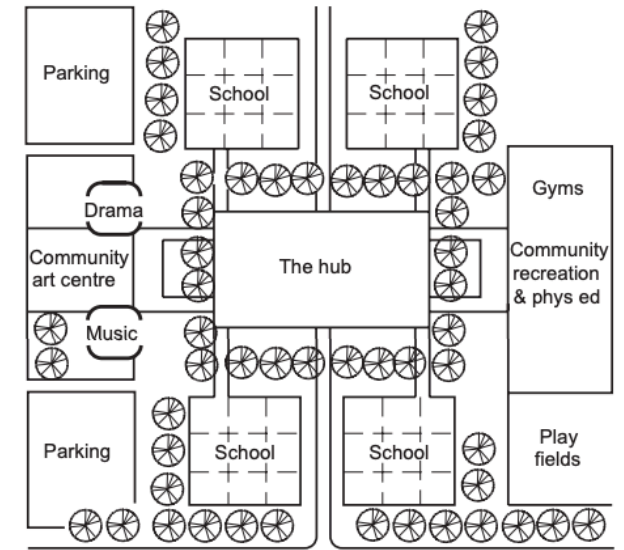

Figure 35. Public space forming the central hub supported by activities facing onto the public square.

6.6.2.8 Specific projects indicated in the MSDF

A “gateway” to the Tankwa

The MSDF identifies the opportunity for a mixed-use area as part of Nduli with commercial opportunity and public space which can serve as a “gateway” attraction to the Koue Bokkeveld and Tankwa Karoo while providing livelihood opportunity for local residents.

The most appropriate location is the triangular site east of Nduli abutting the R46. The area can provide:

- A restaurant/ eatery/ convenience store.
- Ablution facilities.
- Government information offices.
- Trading spaces for emerging entrepreneurs.
- Safe parking.

(See Elgin example of a market that promotes local economic development through the trading of local goods while attracting passers-by and build on existing tourist patterns.)

Gateway Example: Peregrine “Village”, Elgin

Peregrine Farm Stall has established itself as a tourist destination and pit stop for travelers traveling the N2. The site is nestled in the foothills of the Elgin Valley and has gained popularity over the years which in turn meant that both automobile and human traffic jams and a lack of seating were causing customers to decrease. In 2015 a branding company was approached to solve this problem, who’s solution saw the introduction of a shipping container “village” featuring the Padkos Express – a quick-serve coffee and pie station, surrounded by local pop-up stores in containers, with a kids play area in the centre. The architectural elements were sourced from the region and the design and aesthetics provide good shading as well as appropriate human scale spaces. The container material also ensures safety for products and provides protection against natural elements.

MEMORANDUM

To: Committee for Technical Services

From: Director: Technical Services
Senior Manager: Electro-Technical Services

Date: 2021/04/29

Ref: 16/3/04/1

AMAZING PIES EXPANSION AND PURCHASE ERF 8339 (ADJACENT TO VILKO)

1. Purpose

The purpose of this report is to request Council to consider allowing the moving and expansion of the Amazing Pies business to an erf 8339 (Adjacent to Vilko) whilst approving an increase in electrical capacity, under certain conditions.

2. Background

Subsequent to discussions with Amazing Pies the attached request for increased power was received (Annexure "A"). Although they are patently aware of the Municipalities NMD constraints due to Eskom's inability to supply Witzenberg increased capacity, the nature of their business is such that they are in no way currently contributing to our peak demand during our peak season (annually February to April), or any other time. In addition to this they are willing to install a Power Management System that would prevent them from exceeding their current allocated capacity of 50kVA during these peak periods.

The Amazing Pies business (*electrical demand*) typically peaks between 4h00 to 16h30 (See graph below), after which time their base load drops to less than 35kVA (office lights/ computers etc). The Municipalities peak consumption during peak season is between 18h30 to 20h00, at least 2 hours after the Amazing Pies peak. This means that it is not very likely that the Amazing Pies consumption pattern can negatively affect (increase) the Municipality peak. Refer to the graphs on the next page. The red lines superimposed on the graphs indicate the peak times during March 2021 when the Municipality peaked, versus that of Amazing Pies. The blue line is their base load.

The current capacity allocated to the proposed erf 8339 is 3 phase 80 Amps (50kVA). Amazing Pies are requesting a connection capacity of 3 phase 350 Amps (242kVA) with the undertaking to not exceed the 50KVA allocation during our peak periods. The automated Power Management System will automatically switch their power off during peak times should it ever happen that they are approach our peak period times. This Power Management System must be set-up to the satisfaction of the Technical Department in terms of reliability, capacity levels and times set.

The advantage of this arrangement is that not only does Council retain an existing and expanding medium size consumer, but Amazing Pies contribute to increased electricity sales to Council all year round, with no danger of them contributing to the Municipalities peak demand, not to mention their growing number of employees.

In addition to the above, Amazing Pies have negotiated with their current Landlord that their existing premises 150 Amp (90kVA) supply can be reduced to 100 Amp (60kVA). This is a reduction of 50 Amps (30kVA) that can be 'transferred' to the new premises. In effect, this shifts the 30kVA out of our peaks.

Comparison of Municipality's peaks versus Amazing Pies peaks -

With this as background, the Electrical Department is comfortable to allow Amazing Pies to upgrade from 50kVA to 242kVA should they move to their new premises, to be built on erf 8339, subject to the conditions as stipulated below.

3. Recommendations

- 3.1 That Council notes the intention of Amazing Pies to move their existing business to erf 8339 Ceres.

- 3.2 That Council approve the upgrade of the existing 3 phase 50kVA connection on erf 8339 Ceres to 242kVA on the condition that they not exceed their base load of 50kVA during Councils peak electrical demand periods.
- 3.3 That point 2 above is subject to the following: -
- a) The installation, at own cost of the applicant, of a suitable Power Management System that automatically disconnects the main power supply to the premises should the load not be below the allocated 50kVA during the Municipalities peak demand periods.
 - b) A submission by the applicant to at own cost, increase the available capacity at erf 8339 from 50kVA to 242kVA.
 - c) The mentioned Power Management System must be installed, maintained and operated to the satisfaction of the Director Technical Services as far as it is meant to achieve the goal of staying out of the Municipalities peak demand.
 - d) That the Power Management System must remain operational until such time that the capacity constraints due to Eskom are fully addressed or approval is granted by the Director Technical Services that this system can be disabled / removed.
 - e) That the Amazing Pies current landlord complete an application form to reduce his current allocation from 90kVA to 60kVA (100A three phase).

Kind Regards

Re: Application for Electricity

Introduction

Amazing Pies is a manufacturing business that manufactures and sells pastry products. Amazing Pies is passionate about people and the community.

Amazing Pies started business in Nov 2006 and have grown in Ceres with a passion to make the Witzenberg area a better place for all that live in it.

We have started 15 years ago as a small pie shop employing 3 people and by the grace of God was able to grow it to a thriving Brand that employs 65 people. We are growing stronger each year, even in these challenging times.

As a result of this we need to relocate our production and distribution plants to other premises that will cater for further expansion and job creation.

Request

Amazing Pies wants to cast their foundation in Ceres by acquiring a property on which we can build a warehouse which will house our production and distribution plants.

The problem is that with the current Eskom power supply crisis the power supply to Ceres is limited.

As I understand it the Witzenberg Municipality have no additional electrical capacity available to sell to business and household in the Ceres area because of Eskom's limitations until 2030.

Fortunately for Amazing Pies we do not use that much electricity and our usage of electricity is very stable (predictable) and our peak usage falls outside of the Witzenberg Municipality peaks. This will allow the Witzenberg Municipality potential extra electricity sales throughout the year.

Please find Amazing Pies power usage profile for the Witzenberg Municipality peak this year.

Amazingpies Power Usage

You will notice that Amazing Pies peak electricity usage is between 9h00 and 16h00 when our ovens and cooking pots are firing.

This falls outside of the Witzenberg Municipality usage peaks which usually occur between 18h00 and 20h00 during the months of February to April.

To assist you as Municipality even further we have negotiated with our landlord to move 50 amps of our current connection with us to the new premises. We would relocate our current usage to another point within the Municipal network and not add additional load on to the network.

We are also willing to install a power management system in the new property that will ensure that we do not use more than the already allocated 80 amps (50kVA) during the Witzenberg Municipality peak periods of 18h00 to 19h30 from February to April.

This system will tell us in advance when we are using too much electricity and ask us to start shutting down some machines and if we do not do that in time will shut our supply down and move it over to our generator.

We would require a 350-amp (240kVA) connection for the property. This would allow as enough room for future expansion.

I would like to make use of the opportunity to thank our Witzenberg Municipality for the hard work and effort you are putting into our community. We in the private sector do not have an idea of all the red tape and procedures that you must deal with, but not withstanding that we are still receiving exceptionally good service from you. I salute you.

Your kind consideration for our request will be appreciated

Your faithfully

Albe Nel

1. The following has reference: -
 - 1.1 Transport Impact Assessment, by Deca Consulting Engineers, for proposed housing developments on Erf 7074 and erf 2623 in Bella Vista, and
 - 1.2 Your letter titled Application for Rezoning and Subdivision of Erven 2623 and 7074, Ceres, Witzenberg Municipal Area: Main Road 310 (Km 3.99 & Km 5.04), dated 6 August 2014, with reference 16/9/6/1-30/11(Job 22413).
2. Main Road 310 connects Ceres to Bella Vista, Prince Alfred's Hamlet and the Koue Bokkeveld. As such, it carries relatively high numbers of freight traffic – up to 13% of the through traffic on MR310. The road has two 3,7-metre wide lanes, with 2,5-metre wide paved shoulders on both sides. There is a paved footpath a few metres away from the road.
3. A right turn lane has been provided for north-bound traffic on MR310 at the Panorama Street intersection.
4. At the Buiten Street intersection no provision has been made for turning lanes.

4. Both these intersections have been characterized as unsafe with numerous accidents as a result of turning vehicles from MR310 and left turners turning in front of approaching traffic on MR310.
5. In terms of the Western Cape Road Access Guidelines, left- and right turn lanes are required at both intersections. Left turn acceleration lanes is also required where Panorama Street and Buiten Street left turn traffic joins the main southbound traffic stream on MR310.
6. Based on the recommendations made in the TIA and the high number of accidents at these intersection, the following is requested:
 - MR 310 Road /Panorama Street intersection be upgraded with dedicated left and right turn lanes
 - MR 310 Road /Buiten Street intersection be upgrade with dedicated left and right turn lanes
 - MR 310 Road /Panorama Street intersection be upgrade with a left turn acceleration lane (southbound)
 - MR 310 Road /Buiten Street intersection be upgrade with a left turn acceleration lane (southbound)
7. We trust the abovementioned will meet your favourable consideration.

Dear Sirs

**APPLICATION FOR REZONING AND SUBDIVISION OF ERVEN 2623 AND 7074, CERES:
WITZENBERG MUNICIPAL AREA: MAIN ROAD 310 (KM 3,99 & KM 5,04)**

1. Your correspondence 15/4/1/1/7 dated 10 July 2014, refers.
2. Main Road 310 is affected at km 3,99 and km 5,04 by the proposed development. This section of Main Road 310 is currently in the outer municipal area.
3. This application consists of the following:-
 - 3.1. The development (rezoning and subdivision) of Erf 2623, Ceres into 197 residential plots, public space and a business plot;
 - 3.2. The development (rezoning and subdivision) of Erf 7074, Ceres into 66 residential plots, a crèche and a business plot and
 - 3.3. The proposed upgrading of the Intersection of Main Road 310 with Panorama Street (at km 3,99) and the proposed upgrading intersection of Main Road 310 with Buiten Street (at km 5,04).
4. Erven 2623 and 7074 do not border onto any Proclaimed Roads.
 - 4.1. The subject erven are both located more than 700 metres east of Main Road 310;
 - 4.2. The main routes to the subject erven are via Main Road 310 and turning east towards the development at the Panorama Street intersection (at km 3,99) as well as via Main Road 310 and turning east towards the development at the Buiten Street intersection (at km 5,04);
 - 4.3. In accordance with the traffic study of 11 June 2014 from Deca Consulting Engineers both of these intersections should be upgraded. The traffic study shows *inter alia* that the following improvements are warranted at the relevant intersections on Main Road 310:-

- a) A formal left turn acceleration lane should be placed on Main Road 310 (southbound) at the Main Road 310 / Panorama Street intersection
 - b) Dedicated right and left turn lanes should be provided on Main Road 310 at the Main Road 310 / Buiten Street intersection
5. It is inferred from the traffic study that there is a high accident rate at the Main Road 310 / Panorama Street intersection *inter alia* as a result of its geometric layout.
 6. It would be negligent to allow any occupation of the development even to take place without the necessary improvements to Main Road 310 having already been carried out.
 7. In order to expedite the provision of the necessary improvements to the above intersections it is recommended that the developer has the improvements undertaken at his cost in accordance with required specifications.
 - 7.1. The developer must discuss the requirements for the upgrading of the intersections with the Design Section of this Branch (Mr Wally Silbernagl (Wally.Silbernagl@westerncape.gov.za)). The Design Section of this Branch will finalise the implementation details of any intersection improvements deemed necessary by them.
 - 7.2. The Geometric and Materials design of the intersection must be endorsed by the Roads Department of your Council as being in order prior to the detail being submitted to the Design Section of this Branch for approval.
 8. This Branch in terms of Ordinance 15 of 1985 (Land Use Planning Ordinance), offers no objection to the proposed rezoning and subdivision of Erven 2623 and 7074, Ceres on condition that:-
 - 8.1. No more than 5% of the development even may be registered at the Deeds Office prior to the necessary improvements to the Main Road 310 / Panorama Street and Main Road 310 / Buiten Street intersections having been carried out and
 - 8.2. No occupation of any of the development even may be undertaken prior to the necessary improvements to the Main Road 310 / Panorama Street and Main Road 310 / Buiten Street intersections having been carried out.
 9. In terms of Roads Ordinance 19 of 1976 this Branch does approve the use of the Main Road 310 / Panorama Street and Main Road 310 / Buiten Street intersections for an access route to any new development without these intersections having been upgraded.

Yours faithfully

ERF 7074 AND ERF 2623 IN BELLA VISTA**

1. BACKGROUND

Deca was appointed by Asla Devco to prepare a transport impact assessment for a proposed housing development in Bella Vista. The development falls in two different areas: The first is located on Erf 7074 and is bordered by Vrede Street in the west, by Oleander Street in the north, by Jakaranda Street in the east and by the Eskom Power lines in the south; the second is Erf 2623 area is bordered by Jakaranda Street in the south, by the row of houses along Mopanie Crescent in the east, by Magnolia Street in the north and by the row of houses next to Willow Street in the west. Refer to the attached *Locality Plan*.

2. PROPOSED DEVELOPMENT

The northern portion of the development will consist of 66 single residential plots of approximately 120m² in size, with a crèche on the north-eastern corner and a business site on the eastern corner of the Wilge Street / Jakaranda Street intersection.

The southern portion of the development will have 197 single residential plots, public open space and a commercial plot. Please see the attached *Site Development Plans (Proposed Subdivision of Erf 2623 Bella Vista, Drawing No. M0597 BVD001 Rev 008, 9 June 2014, Macroplan and Proposed subdivision of Erf 7074, Bella Vista, Drawing No. M0597.D001.Rev 005, 6 February 2014, Macroplan)*.

3. EXISTING ROADS AND TRAFFIC SITUATION

In Bella Vista, Panorama Street, Buiten Street, Jakaranda Street, Vrede Street, Magnolia Street and Oleander Street / Limpopo Street may be viewed as Class 4 local distributors. All other roads are Class 5 residential access roads. The R303, which links Ceres to Bella Vista and Prince Alfred's Hamlet, is a Class 3 road. Class 4 roads serve both a mobility and activity function; being the main routes to residential areas

and as a result of high usage, also the ideal location for the placement of commercial activities. In Bella Vista, the comparatively high traffic volumes on the Class 4 roads has led to requests for traffic calming, which resulted in the provision of speed humps on most of these roads. This in turn has a negative effect on mobility and is not ideal.

It is recommended that the speed humps on Class 4 roads should be removed, or if that option is not feasible, that alternative traffic calming measures such as raised intersections or horizontal deviations in the travelled way should be implemented. At the very least, the existing speed humps should be rebuilt to the proper standard for a 30 or 40km/h speed.

Traffic counts were done at the main intersections of the Class 4 roads mentioned above during the week of 5-9 May 2014. The intersections were analysed by means of SIDRA and the results of the analysis are as follows:

3.1 Hamlet Road (R303) / Panorama Street / Blouberg Road

Bella Vista obtains access off the R303 via two roads: Panorama Street in the south and Buiten Street in the north. The R303 / Panorama Street intersection has one approach lane on each of the intersection legs, except for the southern leg, where there is a shared through- and left turn lane and an exclusive right turn lane. There is stop control on Panorama Street and Blouberg Road. All movements on the R303 operate at a level of service A (excellent) during both the AM and PM peak hours, whereas the side streets operate at a level of service B (very good). Although the left turn movement from Panorama Street onto the R303 operates at a very good service level, it is common practice at this intersection for left turners to use the paved shoulder (yellow line) of the R303 as an acceleration lane. There have been numerous accidents as a result of left turners turning in front of approaching traffic, and it is recommended that a formal left turn acceleration lane should be considered at this intersection.

3.2 Hamlet Road (R303) / Buiten Street

This intersection has only one lane per approach. The lack of an exclusive right turn lane on the R303 northbound has been the cause of a number of head / rear end collisions, some of which have been fatal. The analysis of the intersection shows that there are no congestion problems, with a level of service A on the R303 approaches and a level of service B on the Buiten Street approach during both the AM and PM peak hours. The Western Cape Provincial Road Access Guidelines indicate that an exclusive right turn lane, as well as an exclusive left turn lane needs to be provided at this intersection. Refer to *Diagrams 1 and 2*. It is recommended that these lanes should be provided as a matter of urgency.

3.3 Buiten Street / Vrede Street

This four-way stop controlled intersection has one lane per approach. The analysis of the intersection shows that it currently operates at a level of service D (satisfactory) on all approaches during the morning peak hour. During the afternoon peak hour, the western approach operates at a level of service E (poor). Although the analysis shows a poor service level, no long queues or excessive delays were observed on site. Four-way stop control is not ideal in controlling medium to high traffic volumes. If the stop control on Buiten Street is taken away so that only Vrede Street has stops, the service levels on the Buiten Street and Jakaranda Street approaches will improve to an A during the AM and PM peak hours, while the Vrede Street approaches will operate at a level of service B during both peak hours.

If the four-way stop was intended to serve as a traffic calming measure, it is suggested that the whole intersection should be raised (raised table) to serve as alternative traffic calming measure.

Diagram 1: Right turn lane warrants are met for the R303 / Buiten Street intersection

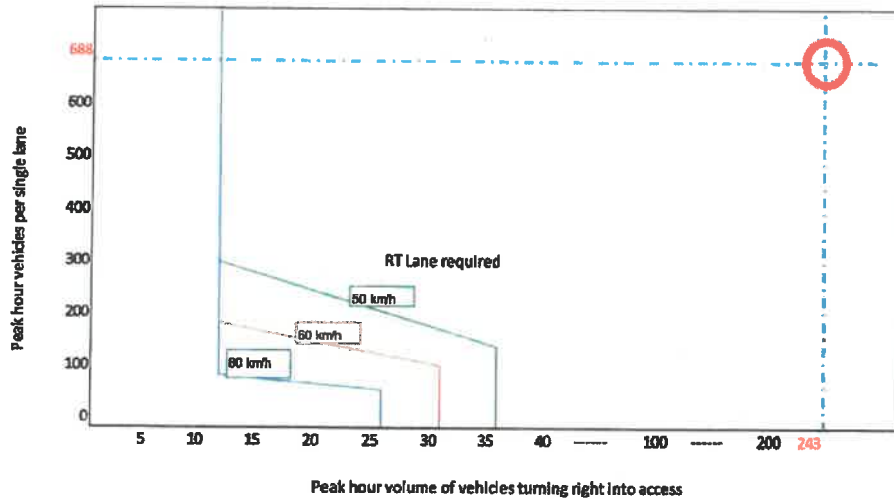

Diagram 2: Left turn lane warrants are met at the R303 / Buiten Street intersection

3.4 Vrede Street / Oleander Street / Limpopo Street

This intersection is situated in the centre of Bella Vista and carries high minibus taxi traffic volumes. The intersection is controlled through a four-way stop, with one lane per approach. The SIDRA results show that all movements operate at a level of service C (good) during the morning peak hour, but in the afternoon peak hour service levels on the southern and eastern approaches deteriorate to an E (poor). It is suggested that the stop control on Vrede Street should be removed, so that the intersection only has stop control on the Limpopo Street and Oleander Street

approaches. In this case, the Vrede Street approaches will operate at a level of service A and the side streets at a level of service B.

If the four-way stop was intended to serve as a traffic calming measure, it is suggested that the whole intersection should be raised (raised table) to serve as alternative traffic calming measure.

3.5 Vrede Street / Panorama Street

This T-junction has stop control on all approaches, and one lane on each approach. The analysis shows that all movements operate at a level of service C (good) during both the AM and PM peak hours. No improvements are proposed here.

Existing (2014) traffic volumes and service levels are shown in *Figure 1*.

4. TRIP GENERATION AND DISTRIBUTION

The residential trip generation rate for the development was calculated by first determining the residential trip generation rate for the whole of Bella Vista. The built-up area of Bella Vista is approximately 173 hectares in size with a residential density of around 25 units per hectare, which means that there are approximately 4300 residential units in Bella Vista. Inbound and outbound trips at the two entrances to Bella Vista were used to determine trip generation rates, as shown in *Tables 1 and 2* below.

Table 1: Trip generation rates for the morning peak hour

Total	AM Trips		AM Rate	AM Splits	
	In	Uit	Total	In	Uit
1414	590	825	0.33	0.4	0.6

Table 2: Trip generation rates for the afternoon peak hour

Total	PM Trips		AM Rate	PM Splits	
	In	Uit	Total	In	Uit
1127	570	557	0.26	0.5	0.5

A trip generation rate of 5 trips per 100m² GLA was used for the commercial properties, based on the vehicles trips observed to existing shops in Bella Vista. The morning peak hour trip rate for the crèche was taken as 0,8 trips per child, based on a trip generation study for crèches done by ICE Boland in 2012. It was assumed that the crèche would come out at around noon, and therefore no trips will be generated during the PM peak hour. The trip totals for the proposed new developments are summarised in *Tables 3 and 4*.

All residential trips were distributed through the intersections on Vrede Street onto either the northern (Buiten Street) or southern (Panorama Street) exits onto the R303. The commercial and crèche trips were assumed to be internal trips that would not leave the town of Bella Vista. The trip distribution is shown in *Figure 2*.

5. TRAFFIC IMPACT

Generated trips were added to existing traffic volumes to obtain expected 2016 traffic volumes. Affected intersections were re-analysed with the higher traffic volumes. There will be no change to the service levels of the R303 intersections with Buiten Street and Panorama Street, nor at the Buiten Street / Vrede Street or Vrede Street / Oleanders Street / Limpopo Street intersections. The only changes is a deterioration in the service level during the PM peak hour on the western Panorama Street approach at the Panorama Street / Vrede Street intersection; from a C to a D. Refer to *Figure 3*.

From the results of the intersection analysis, it can be concluded that the northern Bella Vista housing development will have a negligible traffic impact, and that the southern development will have a low traffic impact.

6. PUBLIC AND NON-MOTORISED TRANSPORT

Apart from the private vehicle trips discussed in the foregoing paragraphs, the two developments will also generate a fair number of pedestrian, cycling, bus and taxi trips.

It is recommended that a paved sidewalk should be provided along at least one side of Jakaranda Street, from Vrede Street down to Panorama Road. The development is within walking distance of the public transport embayments on Jakaranda Street, near Magnolia Street.

For the southern site, there are existing taxi embayments on Vrede Street, on either side of the Limpopo-Oleander Street intersection. There is a paved sidewalk along one side of Vrede Street all the way from Panorama Street to Buiten Street. It is recommended that a paved sidewalk should also be provided along Limpopo Street from Vrede Street to Waboom Street, and along Oleander Street from Limpopo Street to Magnolia Street to serve the pedestrian trips that will be generated by the new development. Taxi embayments may be required on Jakaranda Street, at the eastern end of the development, to ensure a safe pick-up and drop-off point for commuters residing in the eastern part of the new development.

7. COMMENT ON GEOMETRIC LAYOUT

The southern Erf 7074 development is hemmed in by the Eskom power line servitude to the south, with the effect that there will be no through roads except for the existing north-south links of Vrede Street, Magnolia Street and Jakaranda Street. Sufficient continuity of vehicular and pedestrian flow is obtained through the provision of east-west link road between Vrede Street and Magnolia Street Extension. Earlier sight distance concerns raised by the municipality have been addressed through the revised road layout.

The portion to the west of Magnolia Street also has an east-west link road, with a pedestrian link from the east-west road to the south across the public open space. The proposed road network is sufficient for vehicular traffic.

The northern Erf 2623 development has a crescent-type road layout similar to the surrounding residential area. No changes are proposed here.

8. CONCLUSIONS

The conclusions drawn from transport impact assessment for the proposed residential developments on Erf 7074 and Erf 2623 in Bella Vista, may be summarised as follows:

- The Erf 2623 development will consist of 66 residential plots, a crèche and a business plot;
- The Erf 7407 development will have 197 residential plots, public open space and a business erf;

Existing traffic

- Traffic counts were done at the R303 (Hamlet Road) intersections with Panorama Street and Buiten Street, as well as the Vrede Street intersections with Buiten Street, Limpopo / Oleander Street and Panorama Street;
- The intersections on the R303 operate at good service levels, but an exclusive left turn lane is required on the R303 southbound at Buiten Street and an exclusive left turn lane is required on the R303 northbound at Buiten Street based on the Road Access Guidelines warrants;
- The four-way stop controlled intersection of Buiten Street and Vrede Street has a poor service level (E) on the western approach during the afternoon peak hour and only the minimum acceptable service level (D) on the other approaches. Although the analysis shows a poor service level, no long queues or excessive delays were observed on site.
- Similar barely acceptable to poor service levels were calculate on some approaches at the Vrede Street / Limpopo Street / Oleander Street intersection;
- The Panorama Street / Vrede Street intersection operates at good service levels;

Development traffic

- Trip generation rates were calculated based on the existing trip generation rates for Bella Vista;
- The northern development will generate 68 trips (32 in, 36 out) during the AM peak hour when the crèche contributes trips, and 30 trips (15 in, 15 out) during the PM peak hour when the crèche is already closed;

- The southern development will generate 83 trips (35 in, 48 out) during the AM peak hour and 68 trips (34 in, 34 out) during the PM peak hour;
- The northern development will have a negligible traffic impact and the southern development will have a low traffic impact;
- The southern development is hemmed in by the Eskom power line servitude to the south, with the effect that there will be no through roads except for the existing north-south links of Vrede Street, Magnolia Street and Jakaranda Street.

9. RECOMMENDATIONS

The following recommendations are made based on the transport impact assessment for Erf 7074 and Erf 2623 in Bella Vista:

Changes required for existing roads and traffic

- It is recommended that the speed humps on Class 4 roads in Bella Vista (Buiten Street, Jakaranda Street, Vrede Street, Magnolia Street and Oleander Street / Limpopo Street) should be removed, or if that option is not feasible, that alternative traffic calming measures such as raised intersections or horizontal deviations in the travelled way should be implemented. At the very least, the existing speed humps should be rebuilt to the proper standard for a 30 or 40km/h speed;
- Based on a high number of accidents at the R303 / Panorama Street Intersection, it is recommended that a formal left turn acceleration lane should be considered on the R303 southbound;
- The Western Cape Provincial Road Access Guidelines indicate that an exclusive right turn lane, as well as an exclusive left turn lane needs to be provided on the R303 at the R303 / Buiten Street intersection;
- The four-way stop at the Vrede Street / Buiten Street intersection should be changes so that there is free flow of traffic on Buiten Street with stop control on Vrede Street only;
- The four-way stop at the Vrede Street / Limpopo Street / Oleander Street intersection should be changed so that there is stop control on the Limpopo Street and Oleander Street approaches and free flow on Vrede Street;
- If the four-way stops at Vrede Street / Buiten Street and Vrede Street / Limpopo / Oleander Street were intended to serve as a traffic calming measure, it is suggested that the whole intersection should be raised (raised table) to serve as alternative traffic calming measure;
- It is recommended that a paved sidewalk should be provided along at least one side of Jakaranda Street, from Vrede Street down to Panorama Road.
- It is recommended that a paved sidewalk should be provided along Limpopo Street from Vrede Street to Waboom Street, and along Oleander Street from Vrede Street to Magnolia Street to serve the pedestrian trips that will be generated by the new development.

Improvements associated with the development

- Taxi embayments may be required on Jakaranda Street, at the eastern end of the southern development, to ensure a safe pick-up and drop-off point for commuters residing in the eastern part of the new development.

We trust that you will find this transport Impact assessment in order. Kindly contact the undersigned should you have any queries.

MUNICIPALITY

- MEMORANDUM -

AAN / TO: Director: Technical Services
VAN / FROM: Senior Superintendent: Solid Waste and Cleansing
DATUM / DATE: 10 May 2021
VERW. / REF.: 1/03/R

RE: DRAFT WITZENBERG INTEGRATED WASTE MANAGEMENT BY - LAW

A. PURPOSE

To adopt a Witzenberg integrated Waste Management by-law to Council for consideration with a view to approving the proposals contained therein.

B. DISCUSSION

The By-law (ANNEXURE A) gives effect to the rights contained in Section 24 of the Constitution, Schedules 4(B) &5 (B) supported by Section 11 Of the Local Government Municipal Systems Act 200 (Act 32 Of 2000) where a Local Government may declare By-laws to govern the services that is delivered to the constituencies of the republic of South Africa.

As the functions of Cleansing, Refuse Removal, Refuse Dumps and Solid Waste Disposal fall within the jurisdiction of the Municipality, the Council may define and regulate; activities and functions on any matters pertaining the above and abbreviated as Integrated Waste Management.

The By-law on Witzenberg Integrated Waste Management aims to promote a safe environment for the benefit of all within Waste management and give effect to the right contained in Section 24 of the Constitution of the Republic of South Africa, 1996 and to regulate

- the avoidance, minimization, generation, collection, cleaning and disposal of waste; and
- Matters related thereto.

The attached By-Law document seeks to establish a set of guidelines which will inform a Witzenberg Integrated Waste Management By-Law that is achievable, sustainable and implementable in the Witzenberg Municipality context and is also aligned with the relevant National Legislation for the sector.

C. FINANCIAL IMPLICATION

The implementation of the Witzenberg Integrated Waste Management By-Law will have a positive financial impact on the Municipality. The By-Law also makes provision to enforce penalties where necessary.

D. RECOMMENDATIONS

- (a) that the By-Law on Witzenberg Integrated Waste Management, attached **ANNEXURE A**, be adopted by as per Section 12(2) to 12(4) & 13 of the Municipal Systems Act, as amended; and
- (b) that the adopted By-Law on Witzenberg Integrated Waste Management be sent to Provincial Government to be published in the provincial gazette.

CHAPTER 1 GENERAL PROVISIONS

Definitions

1. In this by-law a word or expression to which a meaning has been assigned in section 1 of or Schedule 3 to the Waste Act has the same meaning and, unless the context indicates otherwise—
 - “**Authorised municipal official**” means a person designated in terms of section 30(1)(a) as an authorised municipal official;
 - “**bulky waste**” means waste that by virtue of its mass, shape, size or quantity is inconvenient to remove by the routine door-to-door waste removal service provided by the Municipality or a service provider;
 - “**community scheme**” has the meaning assigned to it in the Community Schemes Ombud Service Act, 2011 (Act 9 of 2011);
 - “**compost**” means stabilised, homogenous, fully decomposed material of animal or plant origin to which no plant nutrients have been added and that is free of substances or elements that could be harmful to human beings, animals, plants or the environment;
 - “**composting**” means a controlled biological process in which organic materials are broken down by micro-organisms into compost;
 - “**drop-off facility**” means a storage facility that has a capacity to store in excess of 20 cubic metres of general waste, excluding household waste continuously;
 - “**event organiser**” means a person who organises an event requiring an event permit;

“event permit” means a permit issued by the Municipality in terms of the *[name of by-law]* By-law for holding an event;

“event waste” means waste generated from activities related to an event authorised by an event permit;

“garden waste” means organic waste that emanates from gardening or landscaping activities, including soil, grass cuttings, leaves and branches, but excludes waste products of animal origin or bulky waste;

“general waste storage facility ” means a storage facility that has a capacity to store in excess of 100 cubic metres of general waste continuously;

“health care risk waste” has the meaning assigned to it in the Western Cape Health Care Waste Management Act, 2007 (Act 7 of 2007);

“integrated pollutant and waste information system” means the online waste management information system of the Western Cape Department of Environmental Affairs and Development Planning;

“integrated refuse management plan” means an integrated refuse management plan contemplated in section 7;

“litter” means waste, excluding hazardous waste, that has been thrown, dropped, deposited, spilled or in any other way discarded somewhere other than in a receptacle, and **“littering”** has a corresponding meaning;

“mrf” means Material Recovery Facility

“municipal council” means a municipal council contemplated in section 157 of the Constitution of the Republic of South Africa, 1996;

“municipal indigent policy” means a policy for indigent users approved by the Municipality;

“municipal manager” means the person appointed as municipal manager by the Municipality in terms of section 82 of the Municipal Structures Act;

“Municipal Structures Act” means the Local Government: Municipal Structures Act, 1998 (Act 117 of 1998);

“Municipal Systems Act” means the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000);

“Nuisance” means any damage, inconvenience or annoyance to a person caused by the improper generation, handling, management, storage, placement, collection, transport or disposal of waste, including littering;

“organic waste” means waste of a biological origin that can be broken down into its base compounds by micro-organisms, other living things or other forms of treatment within a reasonable period, and includes garden waste, animal carcasses, food waste and wood waste;

“Plastic refuse bag” means a plastic bag of at least 40 to 45 micron thickness.

“peace officer” has the meaning assigned to it in the Criminal Procedure Act, 1977 (Act 51 of 1977);

“public place” includes—

- (a) a public road; and
- (b) any building or open or enclosed space, garden, park or other place used by the public or to which the public has a right of use or a right of access;

“public road” has the meaning assigned to it in the National Road Traffic Act, 1996 (Act 93 of 1996);

“receptacle” means a container approved by the Municipality and having the capacity for the temporary storage of waste;

“responsible person”, in relation to waste, means a person who—

- (a) generates the waste;
- (b) is the owner of the land on which the waste has been disposed of; or
- (c) was in control of the waste when it was disposed of;

“service delivery agreement” means an agreement between the Municipality and a person in terms of which a municipal service is provided by that person, either for that person's own account or on behalf of the Municipality;

“service provider” means a person who provides a municipal service in terms of a service delivery agreement with the Municipality;

“tariff” means the charge determined by the Municipality in terms of any applicable law for any service rendered by the Municipality or a service provider in terms of this by-law;

“the Municipality” means the *Witzenberg*

“the Waste Act” means the National Environmental Management: Waste Act, 2008 (Act 59 of 2008);

“waste collection day schedule” means a schedule contemplated in section 10(1);

“waste disposal facility operator” means a person designated in terms of section 30(1)(b) as a waste disposal operator;

“waste management hierarchy” means a method of managing waste in the following order: avoidance, reduction, reuse, recycling, recovery, treatment and disposal;

“waste stream” means waste that can be separated into different types of waste, including building and demolition waste, business waste, bulky waste, domestic waste, garden waste, hazardous waste, health care risk waste, industrial waste and recyclable waste.

Application of by-law

2. (1) This by-law must be read with the applicable provisions of the Waste Act.
- (2) This by-law applies to all persons in the area of the Municipality.
- (3) In the event of any inconsistency between a provision of this by-law and any other by-law regulating waste management, the provision of this by-law prevails.

Principles

3. (1) The principles contemplated in Chapter 1 of the National Environmental Management Act, 1998 (Act 107 of 1998), apply in all instances where this by-law applies.
- (2) The waste management hierarchy must be applied in the implementation of this by-law.
- (3) The application of this by-law must promote—
 - (a) sustainable development and a healthy environment through the management of waste within the area of the Municipality; and
 - (b) responsible citizenship by residents in the area of the Municipality to ensure sound waste management practices.

Obligations of waste generators

4. (1) A person must manage any waste generated by his or her activities or the activities of persons working in his or her employ or under his or her direction or control in such a manner that the waste does not cause harm to human health or damage to the environment.
- (2) An authorised municipal official may issue a compliance notice to a person contemplated in subsection (1) to take measures to ensure compliance with that subsection, including issuing an instruction to that person to—
 - (a) inform and educate persons working in his or her employ or under his or her direction or control about the environmental risks of their work and the manner in which their tasks must be performed to manage waste in a manner that avoids causing harm to human health or damage to the environment;
 - (b) investigate and assess the impact that his or her waste management activities have on the environment;
 - (c) start, continue and complete specific measures before a date specified in the compliance notice;
 - (d) cease, modify or control any waste management activity that is causing, has caused or may cause harm to human health or damage to the environment;

- (e) rehabilitate the effects of waste damage to the environment.
- (3) The municipal manager may issue a directive requiring generators of waste to separate certain waste types from the general waste stream.

Storage and receptacles for general waste

5. (1) A person who—
- (a) generates general waste to be collected by the Municipality; or
 - (b) separates waste streams to be collected by the Municipality for recycling, must place the waste in a receptacle approved, designated or provided by the Municipality or the relevant service provider, as the case may be, for that purpose.
- (2) A person contemplated in subsection (1) must ensure that—
- (a) the receptacle is stored on the premises where the waste is generated and away from a public place between collection days;
 - (b) on the collection day determined in the waste collection day schedule, the receptacle is placed outside the premises in an area accessible to municipal officials or service providers;
 - (c) measures are in place to prevent tampering with the receptacle by animals;
 - (d) a receptacle provided by the Municipality or service provider is not used for any purpose other than for the storage of waste;
 - (e) if the receptacle is stolen, damaged or corroded, the Municipality is notified and arrangements must be made by consumer for purchase of a replacement from the municipality as soon as the theft, damage or corrosion comes to his or her attention.
- (3) Where a receptacle is stolen as contemplated in subsection (2)(e), an authorised municipal official may request that the theft be reported to the South African Police Service before issuing a new receptacle.

Ownership of waste

6. (1) A person who generates waste is the owner of that waste until it is made available by that person for collection by the Municipality or a service provider in accordance with this by-law.
- (2) Waste becomes the property of the Municipality once it is made available for collection.
- (3) Subsections (1) and (2) do not apply to waste streams identified in terms of section 10(2)(d) and to waste disposed of unlawfully.

- (4) A person who generates waste contemplated in subsection (3) remains the owner of the waste until the waste is disposed of lawfully.
- (5) Waste on the following premises controlled by the Municipality:
 - (a) waste disposal facilities;
 - (b) waste transfer facilities; and
 - (c) facilities where waste is received, stored, recovered or treated, is the property of the Municipality.
- (6) No person may remove from or interfere with waste on premises contemplated in subsection (5), unless authorised by the Municipality.

CHAPTER 2

INTEGRATED REFUSE MANAGEMENT PLAN

Preparation of integrated refuse management plan

7. The municipal manager may issue a directive to a person or any category of persons who generates waste in the area of the Municipality, to prepare an integrated refuse management plan and to submit the plan to the Municipality for approval.

Contents of integrated refuse management plan

8. An integrated refuse management plan must include the following information:
 - (a) the quantity of waste generated;
 - (b) measures to prevent pollution or ecological degradation;
 - (c) targets for waste minimisation through waste reduction, reuse, recycling and recovery;
 - (d) measures or programmes to minimise the generation of waste and the final disposal of waste;
 - (e) measures or actions to manage waste;
 - (f) opportunities for the reduction of waste generation through changes to packaging, product design or production processes;
 - (g) mechanisms for informing the public of the impact of waste-generating products or packaging on the environment;
 - (h) the period required for the implementation of the plan; and
 - (i) methods for monitoring and reporting on the implementation of the plan.

CHAPTER 3

PROVISION OF WASTE MANAGEMENT SERVICES

Service providers

9. (1) The Municipality may discharge any of its functions pertaining to waste separation, collection, storage, processing, recycling, treatment and disposal by entering into a service delivery agreement with a service provider.
- (2) A service delivery agreement must—
- (a) accord with this by-law;
 - (b) stipulate service standards for the services to be rendered, including collection times and frequency;
 - (c) provide for the circumstances in which services rendered by the service provider may be limited; and
 - (d) require the service provider to be registered on the provincial integrated pollutant and waste information system.

Collection and transportation of general waste

10. (1) The Municipality must set a schedule of the days for the collection of waste and the location where the waste receptacles must be placed on those days.
- (2) The Municipality may—
- (a) set a waste collection day schedule for commercial and residential properties;
 - (b) collect waste outside of the set schedule on request by a person and at a fixed tariff;
 - (c) set the maximum quantities of waste that will be collected;
 - (d) by notice in the *Provincial Gazette*, identify waste streams that may not be collected by the Municipality or that are unsuitable for collection.
- (3) The Municipality must—
- (a) publish the waste collection day schedule, either in printed form or electronically; and
 - (b) take other reasonable measures to ensure that the public is notified of the schedule.
- (4) If waste that is being transported is spilt, leaked or detached or falls from a receptacle, vehicle or other conveyance, the Municipality may recover costs from the transporter for reasonable remedial measures undertaken by the Municipality.

Transporting waste for gain

11. A person transporting general waste for gain in the area of the Municipality must—
- (a) ensure that the receptacle, vehicle or other conveyance is adequate in size and designed for the type of waste transported;
 - (b) transport the waste in a manner that will prevent any nuisance;
 - (c) maintain the receptacle, vehicle or other conveyance in a clean and sanitary condition at all times; and
 - (d) ensure that the waste is transported to or deposited at a waste transfer facility, general waste storage facility, recycling facility or waste disposal facility authorised to accept such waste.

Collection of unsuitable waste

12. A person may not place waste identified in terms of section 10(2)(d) for collection, either on its own or mixed with any other waste for which the Municipality provides collection services, unless prior arrangement is made with the Municipality for special collection by the Municipality or a service provider.

Waste transfer facilities/Drop off facility/Material Recovery Facility (MRF)

13. A waste generator must, where applicable—
- (a) use an appropriate waste transfer facility as instructed by an authorised municipal official, a waste disposal facility operator or a service provider; and
 - (b) adhere to the operational procedures of the waste transfer facility as determined by the Municipality.

Disposal of waste

14. (1) An authorised municipal official, waste disposal facility operator or service provider may inspect all waste loads entering a waste transfer facility, general waste storage facility, recycling facility or waste disposal facility.
- (2) The inspection contemplated in subsection (1) may include—
- (a) visual and physical inspection of the waste, including the use of hand-held testing equipment; and
 - (b) a laboratory analysis of the waste.
- (3) An authorised municipal official may issue an instruction to the holder of waste that is potentially detrimental to the environment to—
- (a) have independent laboratory tests conducted before the waste is disposed of to assess whether the waste is suitable for a waste disposal facility; or

- (b) dispose of the waste at a specified waste disposal facility and provide proof of such disposal.
 - (4) If an authorised municipal official has concerns about the potential detrimental impact of any waste if not disposed of correctly, the authorised municipal official may dispose of the waste at an appropriate waste disposal facility.
 - (5) In the circumstances contemplated in subsections (2)(b), (3) and (4), or where waste contemplated in section 10(2)(d) is removed by the Municipality, the Municipality may recover any costs incurred from every responsible person, jointly and severally, including the costs associated with—
 - (a) the use of specialised equipment during the laboratory tests;
 - (b) laboratory analysis fees;
 - (c) administrative fees;
 - (d) transporting and disposal costs; and
 - (e) clean-up costs, where applicable.
 - (6) A person disposing of waste at a waste disposal facility owned or managed by the Municipality must adhere to the operational procedures of the facility.
- (7) **Control of disposal site/MRF/Drop-off**
 The municipality may control a disposal site, or may appoint agents or may contract some other person or body to control, manage and operate a disposal site on behalf of the municipality in accordance with the provisions of this by-law and the provisions of any other legislation that may be applicable.
- (8) **Access to disposal site/MRF/Drop-off**
- (1) No person shall enter the disposal site or shall be on such a site except on such days and at such times as shall be fixed by the municipality from time to time. A notice setting forth the days and hours during which a disposal site will normally be open for the dumping of refuse, shall be displayed by the municipality in a clearly visible place at or near the entrance to the disposal site.
 - (2) All customers, excluding residential customers, wishing to dump refuse will be issued with a refuse receipt on site, for payment or who are in possession of a written permission issued by the municipality which permits them to dump such refuse at a disposal site and persons having obtained the written consent of the municipality to recycle any materials or objects on such a site, shall be entitled to enter the disposal site or to be on the site.
 - (3) Notwithstanding anything to the contrary contained in this by-law, any employee of the municipality or anybody acting on behalf of the municipality and duly authorised thereto, may enter a disposal site at any time in exercising his or her duties.

- (4) Any person making use of the disposal site or entering the disposal site, do so at his or her own risk and the municipality shall accept no responsibility for the safety of such person or any damages or losses sustained by such person.
- (5) Anybody who enters a disposal site or who is found on such a site in contravention of the provisions of this section shall be guilty of an offence.
- (9) Off-loading of refuse and rubbish etc.
- (1) Any person who wishes to dump refuse or rubbish or any other obsolete object or thing of whatsoever nature at a disposal site shall off-load such refuse or rubbish or obsolete object or thing at such a place within the borders of the disposal site as the attendant may direct.
- (2) The municipality may set aside any disposal site or any part of a disposal site where only a particular kind of refuse may be deposited or dumped.
- (3) The municipality may limit the type or size of vehicle from which waste may be dumped or deposited at any disposal site.
- (4) The municipality may limit the quantity of waste in general or the quantity of a particular type of waste which may be dumped or deposited at any disposal site.
- (5) The municipality may require that any waste to be dumped or deposited at a disposal site shall be dumped or deposited at a particular place or in a specified manner only or that it be treated, wrapped or packaged in a specific manner before being dumped or deposited.
- (6) The municipality shall determine the days when and hours during which dumping may take place at any disposal site.
- (7) Any requirement imposed in terms of this by-law shall be indicated to the public by means of an appropriate notice erected at the entrance of the disposal site concerned.
- (8) Any person who disregards the reasonable instructions of the attendant shall be guilty of an offence.

CHAPTER 4 RECYCLABLE WASTE

Storage, separation and collection of recyclable waste

- 15.** (1) A person who undertakes any activity involving the reuse, recycling or recovery of waste, including any scrap dealer and formalised recycling group, must,
- before undertaking any such activity, ensure that the reuse, recycling or recovery of the waste is less detrimental to the environment than its disposal.
 - Obtain approval from the Municipal Manager to execute such activities.
- (2) The municipal manager may issue a directive to a person contemplated in subsection (1) to—
- (a) report to the Municipality monthly on the quantity of waste generated, quantities disposed of at an authorised waste disposal facility and quantities separated for recycling and recovery; or
 - (b) record the details contemplated in paragraph (a) monthly on the integrated pollutant and waste information system.
- (3) The municipal manager may issue a directive to a holder of waste to—
- (a) separate specified recyclable waste;
 - (b) use different receptacles for different specified categories of recyclable waste; and
 - (c) make recyclable waste available for collection.
- (4) The municipal manager may issue a directive requiring the executive body of a community scheme and the owners and occupants of residential properties within a community scheme to—
- (a) separate specified recyclable waste;
 - (b) use different receptacles for different specified categories of recyclable waste; and
 - (c) make recyclable waste available for collection in the specified manner.
- (5) If the Municipality or a service provider has provided separate receptacles for the purposes of subsection (3)(b) or (4)(b), a person may not use any other receptacle for recyclable waste.

Waste separation in geographical area

- 16.** (1) The Municipality may, by notice in the *Provincial Gazette*, require the holder of waste within a geographical area specified in the notice to—
- (a) separate specified recyclable waste;

- (b) use different receptacles for different specified categories of recyclable waste;
and
- (c) make the recyclable waste available for collection in the specified manner.
- (2) Before publishing a notice contemplated in subsection (1), the Municipality must publish a notice in the *Provincial Gazette*—
 - (a) setting out the recyclable waste that must be separated within the geographical area concerned in terms of the proposed notice;
 - (b) setting out the manner in which the specified recyclable waste must be placed for collection;
 - (c) setting out when the recyclable waste is to be collected; and
 - (d) inviting written comments on the matters contemplated in paragraphs (a) and (b).

**CHAPTER 5
PROHIBITIONS**

Prohibition of unauthorised disposal of waste

17. (1) No person may—
- (a) dispose of waste in or on any land or water body or at any facility unless the disposal of that waste is authorised by law; or
 - (b) knowingly or negligently cause or permit waste to be disposed of in a manner that is likely to cause harm to human health or damage to the environment.
- (2) If waste has been disposed of in contravention of this by-law, the municipal manager may issue a directive to the responsible person to remove the waste to an authorised waste disposal facility within a specified period.
- (3) If waste has been disposed of in contravention of this by-law and—
- (a) the responsible person fails to comply, or inadequately complies, with a directive contemplated in subsection (2);
 - (b) there is uncertainty regarding the identity or whereabouts of the responsible person; or
 - (c) there is an immediate risk of danger to the public or detriment to the environment, the Municipality may take any measure it considers necessary to contain and minimise the effects of the disposal of the waste, undertake clean-up procedures, and remedy the effects of the disposal of the waste.
- (4) The Municipality may recover any costs incurred in terms of subsection (3) from every responsible person, jointly and severally.

Prohibition of burning of waste

18. No person may burn, incinerate or apply any other thermal treatment technology to waste except in a thermal treatment facility authorised by the Municipality or the relevant competent authority.

Prohibition of littering

19. (1) No person may—
- (a) litter;
 - (b) dispose of waste onto any public place;
 - (c) disturb anything in, or remove anything from, any receptacle that has been placed for the purposes of collecting waste in such a manner as to cause the contents of the receptacle to spill or fall onto the ground; or
 - (d) allow a person under his or her employ, direction or control to do any of the acts contemplated in paragraph (a), (b) or (c).
- 21 (a) Notwithstanding the provisions of subsection (1), the owner of privately owned land to which the public has access, must within a reasonable time after any litter has been generated, remove such material.
- (b) if litter has been of or discarded in contravention of this By-law on privately owned land to which the public has access, the owner of that land must remove the litter from the property within a reasonable period.
- (2) A person who –
- (a) Owns;
 - (b) Is in control of; or
 - (c) Has a right to use,
- Land or premises may not use or permit the use of such premises for unlawful dumping of waste and must take responsible steps to prevent the use of such land or premises for that purpose.
- (3) In the event of a contravention of subsection (1),(2) or (3), the Director may issue a written notice to the offender, to –
- (a) Cease the contravention within a specified time;
 - (b) Prevent a further contravention or continuation of the contravention;
 - (c) Take whatever measures the director considers necessary to clean up or remove the waste;
 - (d) Rehabilitate the affected facets of the environment; and
 - (e) Ensure that the waste and any contaminated material which cannot be cleaned or rehabilitated is disposed of lawfully.

Provided that the Director may also require the offender to submit a plan for approval with timeframes for the removal of litter or waste as contemplated in subsection (1) (a), (b) an (c) and the rehabilitation of the area concerned.

- (4) In the case of non-compliance with subsection (4) the Municipality may elect to act to remove litter or waste contemplated in this section, in which event the person concerned shall be liable for the cost of such removal operation.

Prohibition of nuisance

20. (1) A person handling waste, whether during storage, collection, transportation, recycling, treatment or disposal, must—
 - (a) take reasonable measures to prevent it from being a nuisance to anybody or the environment; and
 - (b) take measures at his or her own cost to remedy any nuisance caused.
- (2) The municipal manager may issue a directive to a responsible person to take measures to ensure compliance with subsection (1).
- (3) If a directive is issued as contemplated in subsection (2) and—
 - (a) the responsible person fails to comply, or inadequately complies, with the directive;
 - (b) there is uncertainty regarding the identity or whereabouts of the responsible person; or
 - (c) there is an immediate risk of danger to the public or detriment to the environment, the Municipality may take any measure it considers necessary to prevent the nuisance, contain and minimise the effects of the nuisance and remedy the effects of the nuisance.
- (4) The Municipality may recover any costs incurred in terms of subsection (3) from every responsible person, jointly and severally.

CHAPTER 6
HANDLING DIFFERENT TYPES OF WASTE

Organic waste

21. (1) The occupant of premises on which—
- (a) organic waste is generated, may compost the waste on the premises, provided that the composting does not cause a nuisance or harm to human health or damage to the environment;
 - (b) organic waste is generated and not composted, must ensure that the waste is collected and treated or disposed of within a reasonable period after its generation.
- (2) The municipal manager may issue a directive to—
- (a) a transporter of garden waste or a person providing garden maintenance services to transport any garden waste to a facility designated by the Municipality for disposal;
 - (b) an organic waste generator to develop an integrated refuse management plan indicating measures to minimise and recover such waste; and
 - (c) an organic waste generator to transport the waste to designated facilities for treatment or disposal.
- (3) The Municipality or a service provider may, on the written request of the occupant of premises on which organic waste is generated, deliver an appropriate receptacle for the purpose of storing organic waste, in addition to any receptacle provided in terms of section 5(1) for general waste, on payment of a tariff.

Bulky waste

22. (1) A person generating bulky waste may not place the bulky waste with other waste that is to be collected by the Municipality in accordance with the waste collection day schedule, and must ensure that the bulky waste is recycled or, when it cannot be recycled, disposed of at a facility designated by the Municipality to receive bulky waste.
- (2) The Municipality or a service provider may, on the request of the occupant of premises at which bulky waste is generated, remove bulky waste from those premises on payment of a tariff.
- (3) The municipal manager may issue a directive to a service provider that collects bulky waste to—

- (a) report monthly to the Municipality on the quantities of bulky waste disposed of and the quantities separated for recycling; or
- (b) record the details contemplated in paragraph (a) monthly on the integrated pollutant and waste information system.

Building and demolition waste

23. (1) A person generating building and demolition waste may not mix building and demolition waste with waste to be collected by the Municipality in accordance with the waste collection day schedule, and must ensure that the building and demolition waste is recycled or, when it cannot be recycled, is disposed of at a facility designated by the Municipality to receive building and demolition waste.
- (2) The municipal manager may issue a directive to a person who generates building or demolition waste to separate the waste for treatment, recycling or reuse and to—
- (a) report monthly to the Municipality on the quantities of building or demolition waste generated, the quantities disposed of at an authorised waste disposal facility and the quantities separated for recycling and reuse; or
 - (b) record the details contemplated in paragraph (a) monthly on the integrated pollutant and waste information system.
- (3) A person who applies for approval from the Municipality to undertake demolition work in terms of the National Building Regulations, made under Government Notice R2378 of 1990 in *Government Gazette* 12780 dated 12 October 1990, must submit a demolition waste plan with the application.
- (4) The demolition waste plan must include a deconstruction plan describing the process proposed for the demolition and must set out detailed plans for maximising the recovery of reusable and recyclable waste.
- (5) The Municipality may, by notice in the *Provincial Gazette*, require a person operating or wishing to operate a building and demolition waste removal service in the area of the Municipality to—
- (a) register with the Municipality before undertaking such work; and
 - (b) provide such information as is specified in the notice or as the Municipality may reasonably require.
- (6) An application for registration to operate a building and demolition waste removal service must be in a form determined by the Municipality.
- (7) The Municipality must, within 30 days of receipt of an application for registration contemplated in subsection (6), consider the application and either—
- (a) register the applicant and issue a registration certificate to the applicant stating—

- (i) the name of the facility registered to operate as a building and demolition waste removal service;
 - (ii) the waste information registration number;
 - (iii) the type of waste handled by the facility;
 - (iv) the location of the facility; and
 - (v) the date of registration; or
- (b) by written notice send the application for registration back to the applicant for correction.
- (8) An application for registration that has been sent back for correction must be amended and resubmitted to the Municipality within 30 days after the date on which the Municipality issued the written notice to the applicant for the correction of the application.
- (9) An application for registration that has been amended and resubmitted as contemplated in subsection (8) must be dealt with as contemplated in subsection (7).
- (10) The Municipality may itself provide a building and demolition waste removal service on payment of a tariff.
- (11) A person who wishes to place an appropriate receptacle for the storage and collection or disposal of building and demolition waste on a public road must apply to the Municipality for written consent.
- (12) A receptacle contemplated in subsection (11) must—
- (a) be clearly marked with the name, address and telephone number of the person responsible for the receptacle;
 - (b) be fitted with reflecting chevrons or reflectors that clearly outline the front, sides and the back of the receptacle; and
 - (c) be covered at all times, except when receiving or being emptied of waste, so that no displacement of its contents can occur.

Hazardous waste

24. (1) The Municipality may, by notice in the *Provincial Gazette*, require a person who generates, treats, transports or disposes of hazardous waste, or who wishes to generate, treat, transport or dispose of hazardous waste, in the area of the Municipality to—
- (a) register with the Municipality before undertaking such work; and
 - (b) provide such information as is specified in the notice or as the Municipality may reasonably require.

- (2) An application for registration to generate, treat, transport or dispose of hazardous waste must be in a form determined by the Municipality.
- (3) The Municipality must, within 30 days of receipt of an application for registration as contemplated in subsection (2), consider the application and either—
 - (a) register the applicant and issue a registration certificate to the applicant stating—
 - (i) the name of the facility registered to generate, treat, transport or dispose of hazardous waste;
 - (ii) the waste information registration number;
 - (iii) the type of waste handled by the facility;
 - (iv) the location of the facility; and
 - (v) the date of registration; or
 - (b) by written notice send the application for registration back to the applicant for correction.
- (4) An application for registration that has been sent back for correction must be amended and resubmitted to the Municipality within 30 days after the date on which the Municipality issued the written notice to the applicant for the correction of the application.
- (5) An application for registration that has been amended and resubmitted as contemplated in subsection (4) must be dealt with as contemplated in subsection (3).
- (6) A person who generates hazardous waste or the owner of premises where hazardous waste is generated must contract with a service provider registered in terms of this section to treat, transport or dispose of such waste.

Waste tyres

25. (1) The Municipality may, by notice in the *Provincial Gazette*, require a person operating or wishing to operate as a tyre producer, tyre dealer, waste tyre collector, tyre stockpile owner or tyre recycling processor to—
 - (a) register with the Municipality before undertaking such work; and
 - (b) provide such information as is specified in the notice or as the Municipality may reasonably require.
- (2) An application for registration to operate as a tyre producer, tyre dealer, waste tyre collector, tyre stockpile owner or tyre recycling processor must be in a form determined by the Municipality.
- (3) The Municipality must, within 30 days of receipt of an application for registration as contemplated in subsection (2), consider the application and either—
 - (a) register the applicant and issue a registration certificate to the applicant stating—

- (i) the name of the facility registered to operate as a tyre producer, tyre dealer, waste tyre collector, tyre stockpile owner or tyre recycling processor;
 - (ii) the waste information registration number;
 - (iii) the type of waste handled by the facility;
 - (iv) the location of the facility; and
 - (v) the date of registration; or
 - (b) by written notice send the application for registration back to the applicant for correction.
- (4) An application for registration that has been sent back for correction must be amended and resubmitted to the Municipality within 30 days after the date on which the Municipality issued the written notice to the applicant for the correction of the application.
 - (5) An application for registration that has been amended and resubmitted as contemplated in subsection (4) must be dealt with as contemplated in subsection (3).
 - (6) The Municipality may, by notice in the *Provincial Gazette*, require the public to dispose of waste tyres at facilities designated in the notice.

Event waste

26. (1) An event organiser must submit an event waste management plan together with his or her application to the Municipality for an event permit.
- (2) The event waste management plan must set out in detail—
 - (a) how waste will be minimised and recovered for recycling; and
 - (b) the person responsible and measures in place for the clean-up, collection, recycling and disposal of the event waste.
- (3) The event organiser must ensure that the event waste is disposed of at an authorised waste disposal facility and provide the Municipality with proof of the disposal.
- (4) If any event waste has not been cleaned up and collected after an event has been held, the municipal manager may issue a directive to the event organiser or responsible person to remove the waste to an authorised waste disposal facility.
- (5) If a directive is issued as contemplated in subsection (4) and—
 - (a) an event organiser or responsible person fails to comply or inadequately complies with the directive;
 - (b) there is uncertainty regarding the identity or whereabouts of the event organiser or responsible person; or

- (c) there is an immediate risk of danger to the public or detriment to the environment, the Municipality may take any measure it considers necessary to clean up, collect and dispose of the event waste.
- (6) The Municipality may recover the costs incurred by it in terms of subsection (5) from the event organiser and any responsible person, jointly and severally.

Abandoned articles

27. The Municipality may remove and dispose of any article it reasonably considers abandoned, taking into account the following factors:
- (a) the location of the article;
 - (b) the length of time that the article has been at that location; and
 - (c) the nature and condition of the article.

CHAPTER 7

ADMINISTRATIVE MATTERS, COMPLIANCE AND ENFORCEMENT

Liability to pay tariffs

28. (1) The owner of premises for which the Municipality is providing waste management services contemplated in this by-law is liable for the payment of tariffs.
- (2) The Municipality may exempt or grant a rebate to any person or category of persons that are regarded to be indigent in terms of the municipal indigent policy from paying tariffs for waste management services.

Exemptions

29. (1) A person may apply in writing to the Municipality for exemption from any provision of this by-law.
- (2) An application contemplated in subsection (1) must be in a form determined by the Municipality and must be accompanied by a motivation for the exemption.
- (3) The Municipality may—
- (a) grant an exemption in writing, with or without conditions subject to which the exemption is granted;
 - (b) amend or cancel an exemption or a condition in an exemption; or
 - (c) refuse to grant an exemption.
- (4) In order to consider an application contemplated in subsection (1), the Municipality may obtain comments from members of the public who would be affected by the granting of the exemption.

- (5) If an exemption is granted subject to conditions, the exemption does not take effect until the applicant has submitted a written undertaking to the Municipality that he or she will comply with all the conditions.
- (6) If the applicant fails to comply with a condition of the exemption, the exemption is suspended with immediate effect.

Designation of certain officials

- 30.** (1) The municipal manager may—
- (a) designate as an authorised municipal official any staff member of the Municipality;
 - (b) designate as a waste disposal facility operator any staff member of—
 - (i) the Municipality;
 - (ii) any other organ of state; or
 - (iii) a service provider; and
 - (c) at any time withdraw a designation made in terms of paragraph (a) or (b).
- (2) A designation contemplated in subsection (1)(b)(ii) may be made only by agreement between the municipal manager and the relevant organ of state.

Functions of authorised municipal officials and waste disposal facility operators

- 31.** (1) An authorised municipal official—
- (a) must administer, implement and enforce this by-law; and
 - (b) may perform any function assigned to an authorised municipal official by this by-law, including conducting an inspection, investigating any act or omission that may constitute an offence in terms of this by-law, and monitoring and enforcing compliance with this by-law.
- (2) A waste disposal facility operator must administer, implement and enforce this by-law at a municipal waste transfer facility, general waste storage facility, recycling facility or waste disposal facility, as the case may be.

Premises inaccessible for waste collection

- 32.** If employees of the Municipality or a service provider contemplated in section 9 are—
- (a) Timpered from handling or collecting waste at any premises due to the layout of the premises; or
 - (b) endangered by an impediment on the premises when handling or collecting waste at any premises,

the municipal manager may issue a directive requiring the owner of the premises to undertake such alterations or additions to the premises as are necessary to remove the impediment at the owner's cost.

Only authorised customers are allowed to construct waste storage areas, all other customers must put out waste on the pavement on collection days.

Duty to produce documents

33. A person to whom a certificate, permit, authorisation or any other document contemplated in this by-law has been issued must produce it at the request of a peace officer or an authorised municipal official.

Directives

34. (1) The municipal manager may issue a directive to any person as contemplated in this by-law to take specific measures pertaining to waste within a specified period to ensure that the impact of waste on human health or damage to the environment is mitigated and to give effect to the waste management hierarchy.
- (2) Before issuing a directive contemplated in this by-law, the municipal manager must give notice in writing to the person to whom the directive is intended to be issued of the intention to issue the directive and give that person a reasonable opportunity to make representations in writing.
- (3) If urgent action is necessary for the protection of the environment, the municipal manager—
- (a) may issue the directive without giving written notice to the person beforehand; and
- (b) must give the person to whom the directive was issued an opportunity to make written representations as soon as is reasonable thereafter.

Compliance notices

35. (1) An authorised municipal official may issue a written compliance notice to a person if there are reasonable grounds for believing that the person has not complied with—
- (a) a provision of this by-law; or
- (b) a term or condition of any permit, authorisation, exemption or other document issued in terms of this by-law.

- (2) Before issuing a compliance notice, an authorised municipal official must give notice in writing to the person to whom the compliance notice is intended to be issued of the intention to issue the compliance notice and provide that person with a reasonable opportunity to make written representations.
- (3) If urgent action is necessary for the protection of the environment, an authorised municipal official—
 - (a) may issue a compliance notice without giving written notice to the person beforehand; and
 - (b) must give the person on whom the compliance notice was issued an opportunity to make written representations as soon as is reasonable thereafter.
- (4) A compliance notice must set out—
 - (a) details of the conduct constituting non-compliance;
 - (b) any steps the person must take and the period within which the steps must be taken;
 - (c) any actions the person may not perform, and the period during which the person may not do so;
 - (d) the steps the Municipality is entitled to take in terms of subsection (6) if the notice is not complied with; and
 - (e) the procedure to be followed to lodge an appeal against the compliance notice.
- (5) An authorised municipal official may, on good cause shown, vary a compliance notice and extend the period within which it must be complied with.
- (6) If a person to whom a compliance notice has been issued fails to comply with it, the Municipality may—
 - (a) take whatever steps it considers necessary, where applicable, to—
 - (i) clean up or remove the waste;
 - (ii) rehabilitate the premises, place or affected area at which the waste has been dumped or disposed of or is stored; and
 - (iii) ensure that waste and any contaminated material that cannot be removed, cleaned or rehabilitated is treated or disposed of lawfully; and
 - (b) recover the costs of taking any steps contemplated in paragraph (a) from every responsible person, jointly and severally.

Appeals

- 36.** (1) A person whose rights are affected by a decision taken by the Municipality in terms of this by-law may, unless the decision was taken by the municipal council, appeal against that decision in terms of section 62 of the Municipal Systems Act.

- (2) An appeal under this section suspends the operation of the decision concerned pending the finalisation of the appeal, subject to subsections (3) and (4).
- (3) A person who receives a directive or compliance notice issued in terms of this by-law must comply with that directive or compliance notice within the period stated in the directive or compliance notice, unless the appeal authority has agreed to suspend the operation of the directive or compliance notice as contemplated in subsection (4)(b).
- (4) The appeal authority may, on application and on good cause shown, direct that, pending the finalisation of the appeal—
 - (a) the operation of the decision forming the subject of the appeal, or any provision or condition attached thereto, is not suspended, either wholly or in part; or
 - (b) the operation of the directive or compliance notice contemplated in subsection (3), or any part of that directive or compliance notice, is suspended.

Limitation of liability

37. Neither the Municipality nor any other person is liable for any damage or loss caused by—
- (a) the exercise of any power or the performance of any duty under this by-law; or
 - (b) the failure to exercise any power or perform any duty under this by-law, unless the exercise or performance of, or the failure to exercise or perform, the power or duty is unlawful and—
 - (i) negligent; or
 - (ii) in bad faith.

Offences

38. A person commits an offence if that person—

CERES ROLBALKLUB ERF 1198 PHILIPSTRAAT CERES: VOORGENOME UITBREIDING VAN KLUBHUIS

DOEL

Om die Raad se oorweging vir die goedkeuring van uitbreiding aan bestaande klubhuis te versoek.

AGTERGROND EN BEREDENERING

Die perseel met verbeterings waarop die rolbalkklub geleë is is die eiendom van die Raad.

Die rolbalkklub is n sportkode wie weens die toenemende belangstelling in die sport 'n behoefte aan verbeterde klubfasiliteite ervaar en het hul reeds op eie koste bouplanne (aanhangsel A) vir die vergroting aan die bestaande ontspanningsarea laat optrek.

Die bestaande gebou beskik oor n rietdak; dog die aanbouing se dak sal van 'n IBR sinkdak voorsien word wat by bestaande dak sal inskakel.

Die beoogde uitbreiding van ongeveer 150m² se beraamde koste beloop R750 000 wat in twee fases voltooi sal word.

Die klub se eie finansiële vermoë is beperk en beoog hulle om eksterne finansiële ondersteuning van onder meer die Nasionale Lotery Agentskap te verkry.

WETGEWING

Wet op Nasionale Bouregulasies en Boustandaarde(Wet 103/1977)

FINANSIËLE IMPLIKASIES VIR DIE RAAD

Minimale verhoogde versekeringspremie ten op sigte van die geboustruktuur (dop versekering)

AANBEVELING

1. Dat die Raad goedkeuring van die beoogde uitbreidings aan die klubhuis oorweeg.
2. Dat die Raad 'n lang termyn huurooreenkoms met die Rolbalkklub sluit.

ERF 622 WOLSELEY – BEAR NIBBLES APPLICATION

Witzenberg Municipality
PO Box 44
Ceres
6835

Dear Sir/Mam,

INTEREST TO PURCHASE REMAINDER OF ERF 622, WOLSELEY:

1. BACKGROUND

Lotus Bakeries UK Ltd invested in an agri-processing business, Lotus South Africa Manufacturing, located on Erf 4109, Voortrekker Road, Wolseley in May 2019. It immediately created permanent job opportunities for 300 employees as well as procuring 90% of its raw materials (exceeding R35m per annum) from local suppliers in the Witzenberg region.

Following the success of this first phase (BEAR 1), Lotus South Africa Manufacturing commenced construction on the second phase (BEAR 2) of the manufacturing facility in June 2020. The second phase (BEAR 2) will provide immediate employment for 60 staff members once complete in January 2021. Once fully ramped up, phase 1 (BEAR 1) and 2 (BEAR 2) will ultimately provide 600 permanent job opportunities. The total capital investment to date equals R100m. A phase 4 (BEAR 3) extension of 2080 m² GLA on erf 4109 is planned for 2026.

Lotus South Africa's current model is to export bulk product to the UK and US where the retail packing is carried out. Over the course of 2020/21, this retail packing element is being migrated over to South Africa and ultimately the facility in Wolseley will manufacture and retail pack product for 26 different countries across the globe. In order to do this, phase 2 (BEAR 2) of the facility will house state of the art packaging equipment, starting with 2 lines but gradually extending to 6 lines over the next 5 years.

2. DEVELOPMENT PROPOSAL

The board of directors Lotus Bakeries Ltd (holding company of the Lotus Bakeries UK Ltd) have shown interest in investing in further land in order to move other manufacturing activities currently outsourced to international co-packers, to Wolseley.

The proposed agri-processing facility will incorporate the following once completed:

Factory / production space – 7 500m²

Office / staff facility / canteen & training facility – 1 050 m²

Packaging and raw material warehouse – 5 700 m²

Phase 1 (NEW 1)

- Investment will amount to an estimated R 100 000 000
- Job creation - 200 permanent job opportunities.
- Programme 1- 2 years
- Construction - proposed
 - Office / staff facility / canteen – 1 050 m²
 - Factory / production space – 2 500m²
 - Packaging & raw material warehouse – 1 900m²
 - Access road and parking
- Electrical requirement – 350 kVA

Phase 2 (NEW 2)

- Investment will amount to an estimated R 65 000 000
- Job creation - 100 permanent job opportunities.
- Programme 3-5 years
- Construction - proposed
 - Factory / production space – 2 500m²
 - Packaging & raw material warehouse – 1 900m²
- Electrical requirement – 350 kVA

Phase 3 (NEW 3)

- Investment will amount to an estimated R 75 000 000
- Job creation - 100 permanent job opportunities.
- Programme 6-9 years
- Construction - proposed
 - Factory / production space – 2 500m²
 - Packaging & raw material warehouse – 1 900m²
 - Access road
- Electrical requirement – 300 kVA

Please see the attached **Site Layout** (Drawing Number Dated: by Ulrich Bruwer) of the proposed extension on Erf 622.

The buildings will be equipped with energy efficient equipment, LED lighting, backup generator and solar panels in order to reduce the electricity load.

It is anticipated that solar panel totalling 1000 kVA will be installed over the 3 phases. (In accordance with council requirements and allowances)

Water & sewerage

- Attached, please find the GLS report recently undertaken for the neighbouring plot.
 - Erf 4109 Figure 1
 - Erf 4109 Figure 2
 - Erf 4109 Wolseley text
- It is evident that sufficient water and sewerage capacity is available given some infrastructural upgrades as proposed

Stormwater

- As per council requirements the design will make provision for stormwater attenuation in accordance with municipal bylaws. Detailed stormwater management plan will be submitted for consideration and approval.

3. CONCLUSION

The directors of the Lotus Bakeries Group of companies are very positive about the future growth opportunities in South Africa and are very keen to build on the success the current plant has seen in the last 12 months. They value the support to date from the local Witzenberg Municipal Council but also hope to build a long term relationship with the municipality and the Witzenberg area.

With this in mind, the company would like to secure the remainder of Erf 622 in order to execute it's 10 year strategic growth plans in Wolseley.

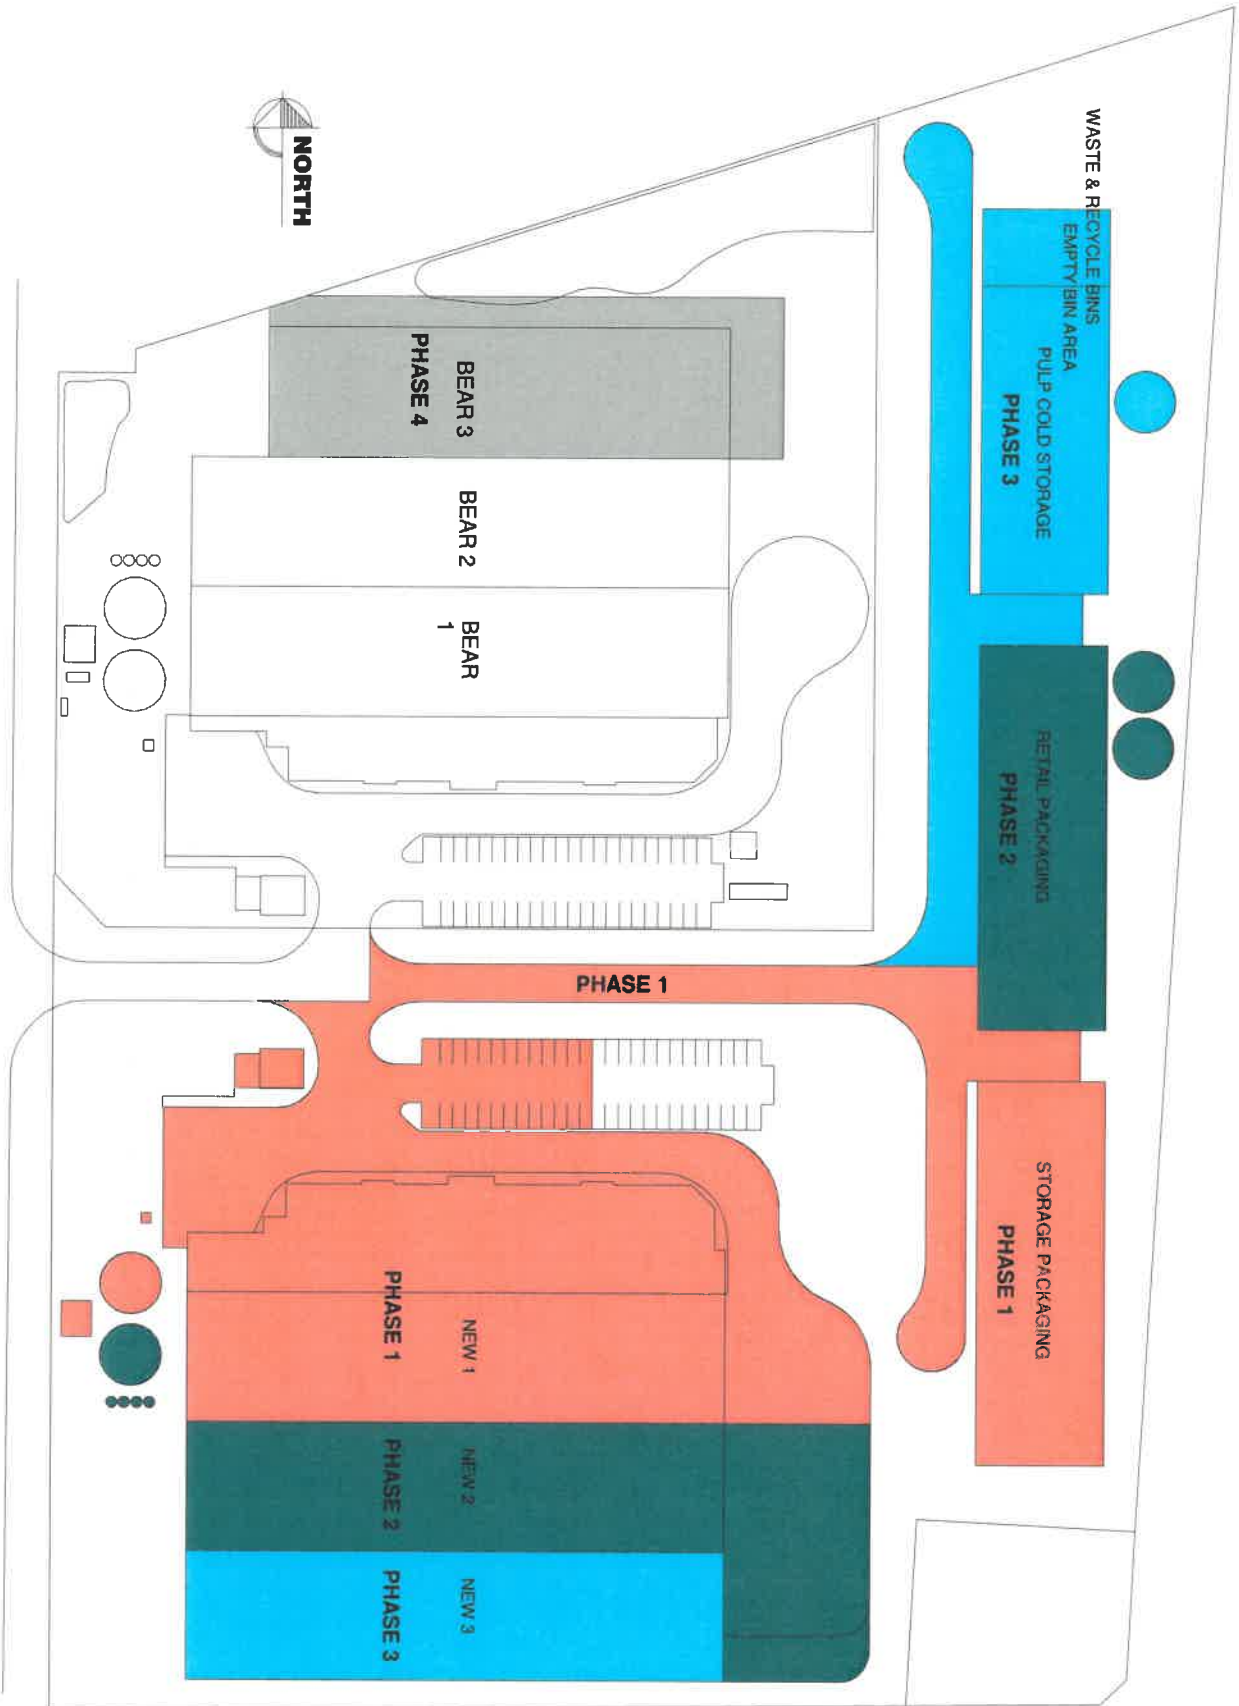

We would also like to take this opportunity to invite the Witzenberg Municipal management team for a site visit, so we can share first hand our vision for the future.

I look forward to hearing from you

Kind Regards

8.4.8 Subdivision and alienation of a portion of erf 622, Wolseley (7/1/4/2)

Item 8.1.2 of the Executive Mayoral Committee meeting, held on 1 December 2017, refers.

Report from the Municipal Manager, dated 29 November 2017:

“Purpose

To consider the alienation of a portion of erf 622, Wolseley (approximately 2 ha in size) to the Grassroots Group for the purpose of constructing an agri-processing facility as an LED initiative for the Wolseley area.

Deliberation

The Spatial Development Framework as well as the IDP of Council has earmarked Wolseley for industrial development. The national railway line, which runs through Wolseley, is the catalyst for the Special Economic Zone Development project that Council has approved and predominantly the reason why Wolseley is preferred for industrial development. The social statistics also show that poverty within the area is high hence the high unemployment figures and other social ills that is at the order of the day. The Grassroots Group is an agri-processing company that has been supplying local and international markets with quality natural health and lifestyle products for more than 22 years. Their main business is on a farm near Gouda where they are partnering with strategic partners in the dried fruit and health industries. A profile of Universal Orchard, a division of Grassroots, is attached as **annexure 8.4.8(a)**. The Grassroots Group has grown into a market leader in the bulk supply of dried edible health snacks, dried medicinal and herbal botanicals and decorative dried botanicals, which are exported internationally. Grassroots Groups has identified Wolseley as an area where they want to invest. The requirement is land of at least 2 hectares in size where they want to erect a building at the cost of R36 million. The value of the equipment will be approximately R10 million. This facility will provide 120 permanent job opportunities and 180 seasonal opportunities, which will span over a period of ten months from February until December. Of note is that the seasonal opportunities will be over the winter months when the unemployment figures within the municipal area are exceptionally high. This business opportunity will be a joint venture between Grassroots and an international company, who is already a market leader in the biscuit industry. The company has identified a portion of erf 622, Wolseley as the most appropriate site to construct the facility. A copy of an aerial Google map as well as a site plan from Messrs WPP, the town and regional planning consultants of Grassroots, is attached as **annexure 8.4.8(b)**. Grassroots gave an indication that if the projects is approved, they want to start with construction at the end of February 2018 so that the production of the facility can start at the end of September 2018.

Council resolved per council resolution 5.1.2 of 21 August 2017 inter alia:

- (a) that the municipal properties identified, i.e. plot 622, Wolseley and portion 8 of plot 363, Ceres, are not needed for minimum municipal services in terms of Section 14 of the Municipal Finance Management Act (Act 56 of 2003).
- (b) that the two (2) properties supra (c) be transferred for the use and benefit of the Public-Private Partnership.

Before the application for the Public Private Partnership was lodged with National Treasury the latter advised that it is essential for the application that municipal land be part of such application. The above erven identified are not sufficient for the purposes of the special economic zone and agri-port. The acquisition of private land is essential for the project. This project of Grassroots will also time perfectly with the agri-processing and special economic zone concept, because the products to be manufactured, will be destined for the international market.

Council is therefore requested to consider amending council resolution 5.1.2 of 21 August 2017 to allow for a portion of erf 622, Wolseley to be subdivided and alienated to the Grassroots Group.

Legal implication

Regulation 40 of the Municipal Finance Management Act allows for property to be sold at market related prices except when the public interest or the plight of the poor demands otherwise.

In terms of Section 5 of the Municipal Asset Transfer Regulations, a municipality may transfer or dispose of a non-exempted capital asset only after the Accounting Officer has conducted a public participation process to facilitate the determinations a municipal council must make in terms of Section 14(2)(a) and (b) of the Municipal Finance Management Act. This effectively means that Council's intention to alienate must be advertised to obtain public inputs in respect of Council's intention.

Financial implications

If the land is to be sold Council will not only generate income from the direct sale, but will also receive monthly income in respect of services and municipal rates.

Grassroots indicated that they will require 300 kWh electricity, 40 cubic metres of water per day and sewerage to service 300 workers. All the cost for the upgrading will be for the account of Grassroots, if so approved."

The Executive Mayoral Committee resolved on 1 December 2017:

That the Executive Mayoral Committee recommends to Council:

- (a) that Council grants provisional approval to alienate a portion of erf 622, Wolseley (approximately 2 ha in size) to the Grassroots Group for purpose of constructing an agri-processing facility as a Local Economic Development initiative.
- (b) that the Municipal Manager ensures that no problem arises with regard to a Public-Private Partnership resolution taken earlier and to avoid conflict with National Treasury regulations.
- (c) that Council will support the Local Economic Development initiative.

RESOLVED

- (a) *that Council grants provisional approval to alienate a portion of erf 622, Wolseley (approximately 2 ha in size) to the Grassroots Group for purpose of constructing an agri-processing facility as a Local Economic Development initiative.*
- (b) *that the Municipal Manager ensures that no problem arises with regard to a Public-Private Partnership resolution taken earlier and to avoid conflict with National Treasury regulations.*
- (c) *that Council will support the Local Economic Development initiative.*
- (d) *that the Municipal Manager submits a detailed report to Council pertaining to what labour will be utilised during the building process, given the amendment decided on the municipal supply chain management process as well as which designated groups will benefit.*
- (e) *that the Executive Mayor be mandated to engage with the developer in terms of the Black Economic Empowerment (BEE) opportunity and report back to Council.*
- (f) *that in terms of Section 14 of the Municipal Finance Management Act (Act 56 of 2000), erf 622, Wolseley is not needed to provide in the minimum level of basic municipal services.*

POLICY ON WARD COMMITTEES
(Review/Amended 2021)

1. PREAMBLE

It is essential for good governance that citizens are actively involved in the processes with regard to planning, budgeting, monitoring and evaluation of programmes/projects.

Ward Committees are regarded as the vehicle to promote good governance at local government level and must, in conjunction with the Council, execute the constitutional objects for government.

Witzenberg Municipality is governed as a municipality with a mayoral executive system combined with a Ward participatory system as per Section 9(d) of the Local Government: Municipal Structures Act, 1998.

The establishment and operation of a Ward Committee must be in accordance with Section 72 to 78 of the Local Government: Municipal Structures Act, 1998.

Amendment of section 73 of Act 117 of 1998, as amended by section 6 of Act 19 of 2008
28. Section 73 of the principal Act is hereby amended—

(a) by the substitution for subsection (1) of the following subsection:

“(1) A metropolitan or local council must establish a ward committee for each ward in the municipality within 120 days after the election of the municipal council, in accordance with section 22.”; and

(b) by the insertion after subsection (1) of the following subsection:

“(1A) (a) If a metropolitan or local council is unable to establish a ward committee or ward committees in accordance with subsection (1), the speaker must, prior to the expiry of the 120 days after the elections, in writing and on good cause shown, request the MEC, responsible for local government in the province concerned, for an extension

2. DEFINITIONS

In this policy a word or phrase to which a meaning has been assigned in the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998) and the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000), has that meaning, unless the context indicates otherwise.

3. PURPOSE OF POLICY

To provide a uniform and simplified Policy to Ward Committee members, Councillors and municipal officials on the establishment and operation of Ward Committees in Witzenberg Municipality.

4. ESTABLISHMENT PROCESS

Only local municipalities of the “Ward participatory type” may establish Ward Committees, when:

- i. The establishment notice (section 12 notice i.t.o the Municipal Structures Act) of a Municipality determines whether that particular municipality is of the “Ward participatory type”;
- ii. If a Municipality is allowed, in terms of its establishment notice, to have Ward Committees, the Council resolved to have Ward Committees and,
- iii. Subsequent (or together with) the decision to have Ward Committees, the council made a resolution, adopting an establishment notice for Ward Committees.

5. STATUS OF WARD COMMITTEES

The object of the Ward Committee is to enhance participatory democracy in Witzenberg local government.

The Ward Committee:

- ❖ Is an advisory body
- ❖ Is independent, and
- ❖ Must be impartial and perform its functions without fear, favour or prejudice.

6. FUNCTIONS AND POWERS OF WARD COMMITTEES

6.1 A Ward Committee may make recommendations to the Ward Councillor, or through the Ward Councillor to the local municipality on any matter affecting its ward.

6.2 A Ward Committee may have such duties and powers as may be delegated to it by the local council in terms of section 59 of the Municipal Systems Act.

6.3 The following represents duties and powers that may be delegated to Ward Committees by the municipality:

6.3.1 To serve as an official specialized participatory structure in the municipality.

6.3.2 To create formal unbiased communication channels as well as co-operative partnerships between the community and the council. This may be achieved as follows:

- (i) Advise and make recommendations to the Ward Councillor on matters and policy affecting the ward.
- (ii) Assist the Ward Councillor in identifying conditions, problems and needs of the residents.
- (iii) Spread information in the Ward concerning municipal issues such as the budget, integrated development planning, service delivery options, municipal properties and the performance management system.

- (iv) Receive queries and complaints from residents concerning municipal service delivery, communicate it to council and provide feedback to community on council's responses.
 - (v) Ensure constructive and harmonious interaction between municipality and community through the use and co-ordination of Ward residents meetings and other community development forums.
 - (vi) Interact with other forums and organizations on matters affecting the ward.
- 6.3.3 To serve as a mobilizing agent for community action. This may be achieved as follows:
- (i) Attending to all matters that affect and benefit the community.
 - (ii) Acting in the best interest of the community.
 - (iii) Ensure the active participation of the community in:
 - ❖ Service payment campaigns
 - ❖ Integrated Development Processes
 - ❖ Budgetary processes
 - ❖ Decisions on provision of municipal services
- 6.3.4 No executive powers shall be delegated to Ward Committees.
- 6.3.5 A Ward Committee may express dissatisfaction to the Municipal Council Speaker on the non-performance of a Ward Councillor.
- 6.4 The Ward Committee shall actively participate in relevant municipal development planning structures.

7. CAPACITY BUILDING AND TRAINING

- 7.1 Ward Committees should do an annual capacity building and training needs assessment for members of the committee.
- 7.2 An annual capacity building and training programme should be developed for each member of the Ward Committee.
- 7.3 An annual budget for the Capacity building and Training Programme should be prepared according to the needs assessment. (Ref: [Ward Committee Operational Plans](#))
- 7.4 The following requirements may be included in the training and capacity building programmes of the municipality:
- 7.4.1 Generic training needs, including:
- (i) Basic literacy
 - (ii) Communication
 - (iii) Interpersonal skills

- (iv) Community upliftment
- (v) Conflict management and negotiation skills
- (vi) Democracy and Community participation
- (vii) Identification, monitoring and prioritisation of needs. The above will include basic training in survey methodology; and
- (viii) Leadership

7.4.2 Training needs on Municipal Policy and Processes, including

- (i) Principles of good governance
- (ii) The establishment of Ward Committees, in terms of reference, nature and functions.
- (iii) Municipal structures, legislation and processes (including IDP)
- (iv) Intergovernmental community development
- (v) Municipal Service Partnerships
- (vi) Payment for service (credit control)

7.4.3 Specialised training needs, including

- (i) Meeting procedures and secretariat services (minute taking, report writing, letter writing, etc.)
- (ii) Administration (clerical/administration skills, bookkeeping, basic accounting, etc.)
- (iii) Budgeting
- (iv) Monitoring and evaluation
- (v) Policy development
- (vi) Project management
- (vii) Stress management
- (viii) Performance management

8. COMPOSITION OF WARD COMMITTEES

- 8.1 A Ward Committee consists of the Ward Councillor representing that Ward in the council (the Ward Councillor being the chairperson of the committee) ~~and not more than ten other members.~~
- 8.2 The procedure for electing members must take into account the need for women to be equitably represented in a Ward Committee and gender equity may be pursued by ensuring that there is an even spread of men and women on a Ward Committee where possible.
- 8.3 A diversity of interests in the Ward must be represented on the Ward Committee.

8.4 Subject to geographical conditions which may dictate otherwise, a diversity of interests may be pursued by ensuring the inclusion of the following interest groups on a Ward Committee:

- ❖ Youth
- ❖ Women
- ❖ Physically disabled and the elderly

8.5 The Ward Committee may appoint office bearers as required.

8.6 A Proportional Representative (PR) councillor is an ex officio member of the Ward Committee in which the PR councillor resides.

8.7 A Ward Councillor may delegate in writing the chairing of a meeting in his/her absence to PR councillor or any member of the Ward Committee.

9. ELECTION CRITERIA

The following criteria should apply for electing Ward Committee members:

9.1 To be elected as a member of a Ward Committee, a person must be a registered voter in the Ward.

9.2 A person is not eligible for election if he or she works for the Witzenberg Local Municipality or the Cape Winelands District Municipality.

9.3 A person should not be in arrears to the municipality for rates and service charges for a period longer than three months without having a valid debt collection agreement in terms of Council's Credit Control Policy.

9.4 A person should not be an unrehabilitated insolvent.

9.5 A person who is placed under curatorship should not be elected.

9.6 **A person should not be elected who after February 1997 has been convicted of an offence and sentenced to imprisonment without the option of a fine for a period of not less than 12 months.**

9.7 Persons of unsound mind who have been declared such by a competent court cannot be elected.

9.8 Members should be active in the sector or geographic area they represent and should be motivated to work on the Ward Committee by their commitment to working for a better life for their constituency.

9.9 Municipal community development workers, employed or otherwise, shall not be eligible for election as Ward Committee members.

10. ELECTION PROCEDURE

10.1 Three different election models may be applied by Witzenberg Municipality. These models are respectively based on sectoral and geographic representation, [or a combination of the two previously mentioned](#). It will be the responsibility of Council to decide on the applicability of each model. Since these models only represent frameworks, Council may decide to combine or adapt it according to specific circumstances.

10.2 Sectoral election model

10.2.1 Identification of interest groups:

- (i) The council identifies the key performance areas of each ward, e.g. local economic development, job creation, basic services, etc. (the list of key areas of interest provided for under "Composition of Ward Committees" may be used for this purpose).
- (ii) The council invites interest groups to state their interest in and concern with any of the key performance areas.
- (iii) The council identifies the clusters of interest groups (no more than ten) that qualify for election.

10.2.2 Election should take place as follows:

- (i) [The process of establishing Ward Committees in each of twelve \(12\) Wards will be facilitated by the Municipality in collaboration with officials from the local office of the Independent Electoral Commission \(IEC\). This process will be driven by the Integrated Development Planning Unit, with the Councils Speaker as Champion of this program.](#)
- (ii) [The Municipality will roll out the process, which will start after Local Government Elections](#)

[A media campaign will be launched to ensure maximum community participation in this process. This will include informing members of the community that they may only nominate and vote in ward committee elections in the wards in which they are a resident and registered to nominate and vote, as well as providing information of when and where the elections in each ward will take place and what they need to bring with them \(e.g. ID document\).](#)

[Through this establishment process, it is intended that members of the community will understand the purpose and potential benefits of the Ward Committee System. Community members should also be in a better position to make informed decisions with regard to nominating and electing appropriate members of Ward Committees and be able to hold Ward Committees accountable once they are established.](#)

10.3 Geographical election model

~~Should geographical conditions make it difficult to apply the sectoral election model, which might particularly be the case in farm areas, at least one representative per farm in the voting district must attend a meeting in the form of an electoral college. From this college the number of representatives more or less proportional to its occupants shall be elected as Ward Committee members. Portfolios are assigned afterwards to Ward Committee members as per section 8(4).~~

10.3.1 Should Council's reasonable efforts to establish Ward Committees in accordance with the three models not result in the outcome as required by the models above, the method of establishing a Ward Committee is left to the discretion of the Speaker after consultation with the relevant Ward Councillor.

10.4 The type of nomination process conducted is left to the discretion of the Council.

10.5 The election process is to be coordinated by the administrative division of the municipality with the consent of the municipal council.

11. CONDUCT OF MEMBERS

11.1 A member of the Committee:

11.1.1 Must perform the functions of the committee in good faith and without fear, favour or prejudice.

11.1.2 May not use the position or privileges of a member for private gain, or to improperly benefit another person.

11.1.3 May not act in any other way that compromises the credibility, impartiality, independence or integrity of the committee.

11.1.4 Must adopt the principle of accountability to the community.

11.1.5 Must be accessible for the community and ensure that all role players can relate to the processes and the issues at hand and are able to make their input into the processes of the committee.

11.1.6 Must adopt the principle of transparency to promote openness, sincerity and honesty among all the role-players in a participation process, and to promote the existence of trust and respect for the integrity of each role player, and a commitment by all to the overriding objectives of the process in the interest of the common good.

11.1.7 Must recognize diversity and understand the differences associated with race, gender, religion, ethnicity, language, age, economic status and sexual orientation, among others.

11.1.8 Must embrace all views and opinions in the process of community participation. Special effort should be made to include previously disadvantaged persons and groups, including youth and women, in the processes of the Ward Committee.

11.1.9 Must provide an apology with a valid reason to the Chairperson if a meeting cannot be attended.

11.2 Ward Committee members must sign a Code of Conduct, which should be administered by the Ward Councillor.

12. WARD COMMITTEE MEETINGS

12.1 Chairperson

12.1.1 Ward Committee meetings are convened and chaired by the Ward Councillor or as provided for under section 8(7).

12.1.2 Members of the Ward Committee must submit items to be discussed to the Chairperson well in advance.

12.1.3 The Chairperson will be responsible to prepare an agenda for Ward Committee meetings

12.2 Frequency of meetings

12.2.1 At the beginning of the year Ward Committees must determine a programme for Ward Committee meetings to coincide with meetings of the municipal council.

12.2.2 Regular meeting intervals need to be determined.

12.2.3 A formal Ward Committee must meet at least quarterly.

12.2.4 There are no limitations to the frequency of special Ward Committee meetings.

12.3 Quorum and decisions

12.3.1 A majority of Ward Committee members (50 % + 1 member) must be present before a vote may be taken on any matter.

12.3.2 A Ward Committee shall endeavour to take decisions based on consensus.

12.3.3 If consensus on any matter cannot be achieved, such a matter may be determined by a supporting vote of at least the majority of the members of the committee (50% + 1 of the committee members present).

12.4 Public meetings (Ward meetings)

12.4.1 Public meetings are mainly held in order:

- (i) To register the concerns and inputs of the community with regard to service delivery, general development of the community, disaster management and any other municipal concern the community may have.
- (ii) To report back to the public on issues that effect it.

12.4.2 Ward or public meetings shall be chaired by the Ward Councillor. A Ward Councillor may delegate in writing the chairing of the meeting in his/her absence to the ex officio proportional representative councillor on the Ward Committee or to any other member of the Ward Committee.

- 12.4.3 If the committee decides to hold a public meeting it must display notices in strategic places stating the time, date and place of the meeting and inviting the public to attend the meeting or meetings. Council shall take all reasonable steps to ensure that Ward Committees communicate effectively with the community with respect to planned meetings.
- 12.4.4 The scheduled time, date and place of the public meeting should be convenient so as to encourage the greatest number of people to attend. The venue:
- (i) Must be in a well known place
 - (ii) Must be easily accessible and where possible, also disabled friendly.
 - (iii) Must be large enough to accommodate all people present.
- 12.4.5 At a public meeting a representative of the committee must:
- (i) Explain the meeting procedures, such as adoption of minutes, time allowed for questions, etc.
 - (ii) Explain the issues the committee has to consider, including any options open to the committee.
 - (iii) Allow members of the public attending the meeting to air their views on these issues.
 - (iv) Answer relevant questions.
 - (v) Keep minutes of the meeting and inform the public that Ward Committee meeting and public meeting minutes are public documents and that the community has access to these documents and may make copies at their own cost.
 - (vi) Give feedback on previous issues, including reasons if there is a lack of progress.
- 12.4.6 Public meetings are not political platforms and Ward Committee members and the public should refrain from making party political statements, campaigning and canvassing.
- 12.4.7 For the purposes of participation in public meetings, a Ward Committee should keep a register of interest groups and organizations that are active in the ward.

12.5 Procedures

A Ward Committee with a supporting vote of the majority of its members may determine its own procedures subject to any directions of the councillor.

12.6 Work programme

The Ward Committee:

12.6.1 Must submit a programme ([Ward Based Operational Plans](#)) with specific outputs of work for one year to the office of the Municipal Manager in July of each year.

12.6.2 Must perform the functions as set out to achieve, and as indicated in the work programme (Ward based plan):

(i) On own initiative

(ii) On request by the councillor

(iii) On request by the Municipal Manager

(iv) In accordance with priorities and reasonable time frames determined by the Municipal Manager.

13. ADMINISTRATIVE SUPPORT

13.1 Municipalities must make administrative arrangements to enable Ward Committees to perform their functions and exercise their powers effectively.

13.2 Section 16(1)(c) of the Municipal Systems Act (No.32 of 2000) also requires that municipalities use their resources and allocate funds in their annual budgets for community participation.

13.3 Administrative support may include the following:

13.3.1 The promotion of Ward Committees in the community – informing the communities of the roles and responsibilities of Ward Committees.

13.3.2 The availability of administrative staff capacity to attend all scheduled / non-scheduled Ward Committee meetings and to assist the Ward Councillor and members in fulfilling their clerical and administrative functions.

13.3.3 To identify/arrange central meeting places in the Ward where communities have access to information and where Ward Committees can meet.

13.3.4 To provide the necessary logistical resources.

13.3.5 To assist with the translation of information and documentation for the community.

13.3.6 To provide transport where necessary.

13.3.7 To develop and provide capacity building and training programmes for Ward Committees on an ongoing basis during their term of office.

13.3.8 To facilitate Ward Committee elections.

14. TERM OF OFFICE

- 14.1 Members of a Ward Committee are elected for a term coinciding with that of the Council.
- 14.2 The same term of office will apply to all the Ward Committees.

15. VACANCIES

If a vacancy occurs among members of a Ward Committee, it must be filled in accordance with the following procedure:

- 15.1 The vacancy must be filled from the [list of original nominees](#).
- 15.2 Where applicable, the vacancy must be filled by a person from the sector left vacant.
- 15.3 Where nobody can be elected, the Ward Councillor may co-opt a suitable person who meets all the necessary requirements for election.

16. TERMINATION OF MEMBERSHIP

The following may serve as sufficient motivation to terminate the membership of Ward Committee members:

- ❖ Death
- ❖ Resignation
- ❖ Relocation from ward
- ❖ Election to position of councillor
- ❖ [Permanent or contract position at the Municipality](#)
- ❖ Failure to attend three consecutive meetings of the Ward Committee without apology
- ❖ Proven involvement in corruption
- ❖ Failure to adhere to meeting procedures or misconduct during Ward Committee meetings
- ❖ Does not submit priorities with the mandate of the community
- ❖ Becomes involved in activities that undermine the council or Ward Councillor's authority
- ❖ Dismissed in accordance with the resolution of the Ward Committee or by the executive mayor in consultation with the Ward Councillor
- ❖ Cease to be a member of the organization he/she represents.
- ❖ Is insolvent or declared mentally incompetent by a competent court.

17. BUDGET

- 17.1 ~~No remuneration is to be paid to Ward Committee members.~~
- 17.2 The municipality must annually budget for:
 - 17.2.1 Out of pocket expenses of members of Ward Committees in respect of their participation in Ward Committees.
 - 17.2.2 Capacity building and training programmes for committee members.
 - 17.2.3 An amount for Ward development projects.

18. ACCOUNTABILITY

As the accounting officer for the Ward Committee, the councillor must:

- 18.1 Keep full and proper records of:
 - 18.1.1 Minutes of the meetings
 - 18.1.2 All income and expenditure of the committee
 - 18.1.3 All assets, liabilities and financial transactions of the committee
- 18.2 Ensure that the committee's available resources are properly safeguarded and used in the most effective and efficient way.
- 18.3 Ensure that all statutory measures applicable to the committee are complied with.
- 18.4 Ensure the preparation of financial statements in accordance with generally accepted accounting practice, within a month after the end of each financial year.
- 18.5 Ensure that all decisions taken by the Ward Committee are formalised and submitted to the Office of the Executive Mayor for presentation to the council at intervals determined by the Speaker.
- 18.6 Report a view adopted by the Ward Committee to the council but can submit his/her disagreement with the view in the report.
- 18.7 Ensure the production of a progress report on major achievements and areas of failure, with reasons, two months after the end of each financial year.
- 18.8 Submit the progress report to the Municipal Manager for a review of the performance of the committee.
- 18.9 Implement any corrective measures to ensure effective and efficient performance of the committee as suggested by the Municipal Manager.

19. DISPUTE RESOLUTION

The following mechanisms are recommended when disputes arise within Ward Committees:

- 19.1 Every effort should be made to deal with disputes.
- 19.2 When a dispute arises, the Ward Councillor should appoint a person or persons (maximum 2) to try and resolve the dispute through mediation.
- 19.3 If the attempt at mediation fails, the matter then goes to the Ward Councillor who should arbitrate, provided that the matter does not involve the councillor and the majority of the members of the committee.
- 19.4 If the majority of committee members is still aggrieved, the matter should be taken to the council via a channel decided upon by council or through the Office of the Speaker. This should be avoided as far as possible.

20. FAILURE OF COUNCILLOR TO HOLD MEETINGS

- 20.1 The Speaker receives a report every six months on the performance of a Ward Councillor with respect to holding the minimum number of Ward meetings within a specific period.
- 20.2 Where a councillor fails to meet the stipulated minimum requirements the Speaker investigates the circumstances surrounding non-compliance and recommends certain sanctions to Council.

21. DISSOLUTION

- 21.1 The council may dissolve a Ward Committee if it fails to fulfil its objective.
- 21.2 The following may serve as indication that a committee may exceed its functions and fails to fulfil its object:
 - 21.2.1 When it fails to meet three consecutive times.
 - 21.2.2 When members decide to dissolve.
 - 21.2.3 When mal-administration, fraud, corruption or any serious malpractice has occurred or is occurring in a committee.
 - 21.2.4 There should be due notice before a council proceeds to dissolve a Ward Committee.

To whom concern

Report on stealing of cables in the Witzenberg Area

We are a private security company operating in the Witzenberg area since 2015 and it is still our goal to free the community from crime in this area. Theft of electrical and telephone cables is a very big problem in this area and therefore it is our mission to catch these thieves who are committing these crimes. The whole community are sick and tired of chasing these thieves and therefore we make us available to the public to solve this problem. We therefore request the whole community to contact us and make use of our services to solve this problem in the area.

Yesterday on the 10th June 2021 a mutual member of the community contacted us at about 10'clock providing information about people walking on the way to the local scrapyard with a bunch of cables. With the assistance of the community we were able to caught these people with the cables in their possession before entering the scrapyard.

Herewith are some photo's of the thieves and stolen cables:

Director: Marquin Wilfred Baadjies

The suspects admit that they provide the stolen cables to people in the Bella Vista area and that there are some more cable thieves and traders. With the assistance of the SA Police we had a round up with the necessary warrant to search identified houses in Bella Vista.

We have to keep this informant's identity secret and ensure his safety as his information will lead us to further suspects. We did not find any cables in the houses but we did find a small buyer who buy these cables. These houses is now identified as illegal scrap traders.

The two suspects who was arrested has led us to further suspects who was arrested today 11th June 2021 and are still in custody at the local police station in Ceres.

There will be further investigation to find the big illegal cable traders. One of the arrested suspects who is in custody are also being connected with the stealing and vandalism of the electricity pole of the Municipality which was broken down on 5th June 2021. A further suspect who was also identified to this act was arrested on 11th June 2021 at 11h45 and is currently in custody for the possession of a water pump with sharp equipment.

We trust that these steps will lead to the main suspects in this cable theft and trading.

We thank the community for assistance in this regard and we invite all the businesses and farmers in the Witzenberg Area to contact us for our services to ensure that we ensure a safe environment in Ceres and surrounding areas.

Yours faithfully

M. Baadjies
