

# TOP LEVEL Service Delivery Budget Implementation Plan for the Witzenberg Municipality 2010/2011

## Witzenberg Municipality

*“A united, integrated, prosperous  
municipality progressively free of  
poverty and dependency”*

<b>Legislation</b>	<p>The Municipal Finance Management Act No. 56 of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires that municipalities must prepare a service delivery budget implementation plan (SDBIP) indicating how the budget and the strategic objectives of Council will be implemented. The SDBIP is prepared in terms of Section 53(1)(c)(ii) of the Municipal Finance Management (MFMA), National Treasury MFMA Circular No. 13 and the Budgeting and Reporting Regulation.</p>
	<p>The SDBIP serves as a “contract” between the administration, council and community expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration in the applicable financial year. It provides the link between the mayor, the council (executive) and the administration, and facilitates the process for holding management accountable for its performance. It is therefore a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community to monitor the municipality’s performance on a quarterly basis. The SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the implementation of the budget, the execution of projects, the performance of senior management and the achievement of the strategic objectives set by council.</p>
	<p>The SDBIP is a layered plan that consists of a top layer and a supporting layer namely the departmental SDBIP.</p> <p style="text-align: center;">a) Top Level SDBIP (Municipal Scorecard)</p> <p>Circular 13, as well as the municipal budget and reporting regulations prescribe the submission of a Top Level SDBIP, which is focused on outcomes, to the Mayor with the draft budget. The Top Layer SDBIP contains the consolidated service delivery targets and in-year deadlines, and links such targets to top management. Only the Top Layer SDBIP will be made public and tabled before the council. The Top Layer SDBIP should also include per ward information, particularly for key expenditure items on capital projects and service delivery. This will enable each ward councilor and ward committee to oversee service delivery in their particular ward. The Top Layer SDBIP and its targets cannot be revised without notifying the council, and if there is to be changes made in service delivery targets and performance indicators, this must be with the approval of the council, following approval of an adjustments budget (section 54(1)(c) of MFMA). Council approval is necessary to ensure that the mayor or municipal manager do not revise service delivery targets downwards in the event <u>where there is poor performance</u>.</p>
	<p style="text-align: center;">The Top Layer of the SDBIP is made up of the following components:</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> One year detailed plan, with a three-year capital plan <ul style="list-style-type: none"> <li><input type="checkbox"/> The 5 necessary components includes: <ul style="list-style-type: none"> <li><input type="checkbox"/> Monthly projection of revenue to be collected for each Source (Expected Revenue to be collected)</li> <li><input type="checkbox"/> Monthly projects of expenditure (operating and capital) and revenue for each vote (S71 format)</li> </ul> </li> </ul> </li> <li><input type="checkbox"/> Quarterly projects of Services Delivery Targets and performance indicators for each vote. (Non financial measurable performance objectives in the form of targets and indicators. Level and standard of service being provided to the community) <ul style="list-style-type: none"> <li><input type="checkbox"/> Ward information of expenditure and Service Delivery</li> </ul> </li> <li><input type="checkbox"/> Detailed capital works plan broken down by ward over three year</li> </ul>
	<p style="text-align: center;">The Top Layer of the SDBIP must be submitted for approval to the Mayor within 14 days after the approval of the budget.</p>
	<p style="text-align: center;">b) Departmental SDBIP</p> <p>A detailed departmental SDBIP, which is focused on operational performance, must be prepared for each municipal department. This SDBIP provides more detail on each output for which top management is responsible and it serves as the portfolio of evidence for the Top Layer SDBIP. The Top Layer SDBIP is therefore the summary of all the departmental SDBIP’s.</p> <p>Departmental SDBIPs is based on initial revenue and expenditure projections provided by the budget office of the municipality. Initial revenue and expenditure projections are prepared taking into account; the strategic direction and priorities as set through the IDP (and its annual review); initial tariff modeling and any other external influences such as, sectoral department strategic plans and budgets; national and provincial strategic plans and allocations. Reference can also be made to current year and mid-year reports and the previous year’s annual report to develop the SDBIP. The departmental SDBIP should be compiled by senior managers for his/her department.</p>
<p style="text-align: center;">The Departmental SDBIP must provide the following information:</p> <ul style="list-style-type: none"> <li>Purpose (outcomes)</li> <li>Service Delivery description</li> <li>Measurable Performance objectives</li> <li>List of capital projects per Ward</li> <li>A review of past performance</li> <li>Resources utilized (inputs):</li> <li>Expenditure by GFS function and Major type</li> <li>Budget revenue by vote and source</li> <li>Types of staffing number and R-value</li> </ul> <p>The SDBIP must be approved by the Mayor within 28 days after the budget has been approved to ensure compliance with the above-mentioned legislation and the Top Level SDBIP should be published on the municipal website.</p>
