8. GERESERVEERDE BEVOEGDHEDE / RESERVED POWERS

8.1 Direktoraat Finansies / Directorate Finance

8.1.1 Finance: Draft Budget 2023/2024 and Draft Amended IDP 2023/2024
(5/1/1/22 & 2/2/1)

The following memorandum, dated 15 May 2023, was received from the Director: Finance:

"1. Purpose

The purpose of this report is to table the Draft Budget 2023/2024, Draft Amended IDP 2023/2024 to the Executive Mayor and Council.

2. Legal framework

Section 16 - 18 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) stipulates as follows:

'Annual budgets

16. (1) The council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.

(2) In order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year.

(3) Subsection (1) does not preclude the appropriation of money for capital expenditure for a period not exceeding three financial years, provided a separate appropriation is made for each of those financial years.'

'Contents of annual budgets and supporting documents

17. (1) An annual budget of a municipality must be a schedule in the prescribed format –

(a) setting out realistically anticipated revenue for the budget year from each revenue source;
(b) appropriating expenditure for the budget year under the different votes of the municipality;
(c) setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year;
(d) setting out –
(i) estimated revenue and expenditure by vote for the current year; and

(ii) actual revenue and expenditure by vote for the financial year preceding the current year; and

(e) a statement containing any other information required by section 215(3) of the Constitution or as may be prescribed.

(2) An annual budget must generally be divided into a capital and an operating budget in accordance with international best practice, as may be prescribed.

(3) When an annual budget is tabled in terms of Section 16 (2), it must be accompanied by the following documents:

(a) draft resolutions –
  (i) approving the budget of the municipality;
  (ii) imposing any municipal tax and setting any municipal tariffs as may be required for the budget year;
  (iii) approving the budgets for the relevant financial year of each municipal entity under the sole or shared control of the municipality; and
  (iv) approving any other matter that may be prescribed;

(b) measurable performance objectives for each vote in the budget, taking into account the municipality's integrated development plan;

(c) a projection of cash flow for the budget year by revenue source, broken down per month;

(d) any proposed amendments to the municipality's integrated development plan following the annual review of the integrated development plan in terms of section 34 of the Municipal Systems Act;

(e) any proposed amendments to the budget-related policies of the municipality;

(f) particulars of the municipality's investments;

(g) any prescribed budget information on municipal entities under the sole or shared control of the municipality;

(h) particulars of all proposed new municipal entities which the municipality intends to establish or in which the municipality intends to participate;

(i) particulars of any proposed service delivery agreements, including material amendments to existing service delivery agreements;

(j) particulars of any proposed allocations or grants by the municipality to –
  (i) other municipalities;

(ii) any municipal entities and other external mechanisms assisting the municipality in the exercise of its functions or powers;
(iii) any other organs of state;
(iv) any organisations or bodies referred to in Section 67(1);

(k) the proposed cost to the municipality for the budget year of the salary, allowances and benefits of –
(i) each political office-bearer of the municipality;
(ii) councillors of the municipality; and
(iii) the municipal manager, the chief financial officer, each senior manager of the municipality and any other official of the municipality at a remuneration package at least equal to that of a senior manager;

(l) the proposed cost for the budget year to a municipal entity under the sole or shared control of the municipality of the salary, allowances and benefits of –
(i) each member of the entity's board of directors; and
(ii) the chief executive officer and each senior manager of the entity; and

(m) any other supporting documentation as may be prescribed.'

'Funding of expenditures

18. (1) An annual budget may only be funded from –
(a) realistically anticipated revenues to be collected;
(b) cash-backed accumulated funds from previous years' surpluses not committed for other purposes; and
(c) borrowed funds, but only for the capital budget referred to in section 17 (2).

(2) Revenue projections in the budget must be realistic, taking into account –
(a) projected revenue for the current year based on collection levels to date; and
(b) actual revenue collected in previous financial years.' "

The following documents are attached:

(a) Tariff Setting Tool: Annexure 8.1.1(a).

(b) Draft Amended IDP 2023/2024: Annexure 8.1.1(b).

(c) Draft Budget: 2023/2024 – 2025/2026: Annexure 8.1.1(c).

(d) Draft Budget Related Policies: 2023/2024: Annexure 8.1.1(d).

(e) Draft Budget Schedules: 2023/2024 – 2025/2026: Annexure 8.1.1(e).

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) That the annual budget of Witzenberg Municipality for the financial year 2023/2024; and indicative for the two projected years 2024/2025 and 2025/2026, as set out in the schedules contained in Section 4, be approved:

(i) Table A2: Budgeted Financial Performance (expenditure by standard classification).

(ii) Table A3: Budgeted Financial Performance (expenditure by municipal vote).

(iii) Table A4: Budgeted Financial Performance (revenue by source).

(iv) Table A5: Budgeted Capital Expenditure for both multi-year and single year by vote, standard classification and funding.

(b) Property rates reflected in annexure 8.1.1(c) and any other municipal tax reflected in annexure 8.1.1(c) are imposed for the budget year 2023/2024.

(c) Tariffs and charges reflected in annexure 8.1.1(c) are approved for the budget year 2023/2024.

(d) The measurable performance objectives for revenue from each source reflected in Table A4 - Budgeted Financial Performance (revenue and expenditure) are approved for the budget year 2023/2024.

(e) The measurable performance objectives for each vote reflected in SA8 are approved for the budget year 2023/2024.

(f) That the new amended budget related policies be approved with implementation as from 1 July 2023:

(i) Tariff Policy
(ii) Property Rates Policy
(iii) Credit Control and Debt Collection Policy.
(iv) Cash Management and Investment Policy
(v) Consumer Payment Incentive Policy.
(vi) Municipal Supply Chain Management Policy
(vii) Petty Cash Policy
(viii) Indigent Policy
(ix) Budget Policy
(x) Budget Virement Policy
(xi) Asset Management Policy
(xii) Funding and Reserves Policy
(xiii) Cellular Telephone and Data Card Policy
(xiv) Borrowing Policy
(xv) Long Term Financial Plan Policy
(xvi) Transport, Travel and Subsistence Allowance
(xvii) Post-Employment Medical Aid Contributions
(xviii) Infrastructure Investment Policy
(xix) Cost Containment Policy

(g) That Council takes cognisance of the budget circulars issued by National Treasury and Provincial Treasury. (Only for information).

(h) That Council takes cognisance of the SIME/LG MTEC Integrated Planning and Budgeting Assessment and the responses by the municipality.

(i) that the Amended Integrated Development Plan (IDP) for 2023/2024 be adopted.

8.1.2 Implementation of Debt Collection and Credit Control Policy (5/12/P & 5/1/1/21)

A memorandum from the Director: Finance, dated 16 January 2023, is attached as annexure 8.1.2.

Council unanimously resolved on 25 January 2023:

that the matter in respect of the implementation of the Debt Collection and Credit Control Policy be held in abeyance in order for the following matters to be workshopped by Council:

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Installation of pre-paid water meters if other debt collection measures are not successful.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council:

That the following additional credit control steps be implemented:

(a) Cutting or blocking of electricity

(i) Amount equal to two months' debits are payable before restoring connection - (conventional meters).

(ii) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(b) Indigent households

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Indigent households be moved from conventional electricity to pre-paid electricity.

(c) Legal collection process

(i) Section 129 Notice (in terms of National Credit Act).

(ii) Fourteen days later after Section 129 Notice, summons is compiled.

(iii) Clerk of the Court issues the summons.

(iv) Sheriff of the Court serves the summons on the defendant.

If there is moveable property that can be attached:

(1) If no payment received on summons - Judgement and Warrant of Execution is issued on movable property.

(2) Council resolution on process to be followed.

(3) Instruction to sheriff to attach and remove movable property and to sell the attached property.

(4) Advertisement in newspaper of intention to sell movable property.

(5) Sale in execution of attached moveable property by sheriff.

If there is no moveable property that can be attached:

(1) Report with Nulla Bona on fixed property with municipal value for less than R300 000.00 to Council for write off.

(2) Municipal fixed property with value more than R300 000.00, Section 66 application compiled by private external attorney and application to sell immovable property in a sale of execution, brought before court.

(3) Council resolution on process to be followed.

(4) Advertisement in newspaper by attorney of intention to sell immovable property in local newspaper as well as Government Gazette.

(5) Sale in execution of attached immoveable property by sheriff.

(d) Pre-payment water meters

(i) Installation of pre-paid water meters if other debt collection measures are not successful.

(ii) That the water consumption can be limited to a maximum of 200 litres per day (6 kilolitres per month).

(e) that consumers be notified via their municipal account statements of the consequences of non-payment of their municipal accounts and that 30 % of payments will be allocated towards arrears when payment is made.

(f) that the above-mentioned steps (a)(ii) and b(ii) be implemented from 1 April 2023 and (d)(i) be implemented from 1 July 2023 respectively.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

That the following additional credit control steps be implemented:

(a) Cutting or blocking of electricity

(i) Amount equal to two months' debits are payable before restoring connection - (conventional meters).

(ii) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(b) Indigent households

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Indigent households be moved from conventional electricity to pre-paid electricity.

(c) Legal collection process

(i) Section 129 Notice (in terms of National Credit Act).

(ii) Fourteen days later after Section 129 Notice, summons is compiled.

(iii) Clerk of the Court issues the summons.

(iv) Sheriff of the Court serves the summons on the defendant.

If there is moveable property that can be attached:

(1) If no payment received on summons - Judgement and Warrant of Execution is issued on movable property.

(2) Council resolution on process to be followed.

(3) Instruction to sheriff to attach and remove movable property and to sell the attached property.

(4) Advertisement in newspaper of intention to sell movable property.

(5) Sale in execution of attached moveable property by sheriff.

If there is no moveable property that can be attached:

(1) Report with Nulla Bona on fixed property with municipal value for less than R300 000.00 to Council for write off.

(2) Municipal fixed property with value more than R300 000.00, Section 66 application compiled by private external attorney and application to sell immovable property in a sale of execution, brought before court.

(3) Council resolution on process to be followed.

(4) Advertisement in newspaper by attorney of intention to sell immovable property in local newspaper as well as Government Gazette.

(5) Sale in execution of attached immoveable property by sheriff.

(d) Pre-payment water meters

(i) Installation of pre-paid water meters if other debt collection measures are not successful.

(ii) That the water consumption can be limited to a maximum of 200 litres per day (6 kilolitres per month).

(e) that consumers be notified via their municipal account statements of the consequences of non-payment of their municipal accounts and that 30 % of payments will be allocated towards arrears when payment is made.

(f) that the above-mentioned steps (a)(ii) and b(ii) be implemented from 1 April 2023 and (d)(i) be implemented from 1 July 2023 respectively.

8.1.3 Quarterly Budget Statement [Section 52(d)] Report: 3rd Quarter 2022/2023 (1 January 2023 to 31 March 2023) (9/1/1 & 9/1/2/2)

The Quarterly Budget Statement [Section 52(d)] Report for the 3rd Quarter of 2022/2023 is attached as annexure 8.1.3.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the Quarterly Budget Statement [Section 52(d)] Report for the 3rd Quarter of 2022/2023.

(b) that the report supra (a) be referred to the Performance, Risk and Audit Committee as well as the Municipal Public Accounts Committee for their recommendations to Council.

8.1.4 Section 71 Monthly Budget Statement Reports of the Directorate Finance: June, September, October, November, December 2022 and January and February 2023 (9/1/2/2)

The following Section 71 Monthly Budget Statement Reports of the Directorate Finance are attached:

(a)	June 2022	Annexure 8.1.4(a)
(b)	September 2022	Annexure 8.1.4(b)
(c)	October 2022	Annexure 8.1.4(c)

(d)	November 2022	Annexure 8.1.4(d)
(e)	December 2022	Annexure 8.1.4(e)
(f)	January 2023	Annexure 8.1.4(f)
(g)	February 2023	Annexure 8.1.4(g)

The Committee for Corporate and Financial Services resolved on 17 November 2022 to recommend to the Executive Mayoral Committee and Council that the Committee for Corporate and Financial Services takes notice, after consideration, of the content of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for June and September 2022 and same be approved and accepted.

The Committee for Corporate and Financial Services resolved on 20 April 2023 to recommend to the Executive Mayoral Committee and Council that the Committee for Corporate and Financial Services, after consideration, takes notice of the content of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for October, November, December 2022, January and February 2023 and same be approved and accepted.

Extract from minutes of Performance, Risk and Audit Committee, held on 24 April 2023:

"The Chief Financial Officer submitted the Section 71 Monthly Budget Statement Reports of the Directorate Finance for August 2022 until February 2023.

The Performance, Risk and Audit Committee discussed the February 2023 report in depth and highlighted the following matters:

- The matter of procurement in respect of a Close Corporate business.
- That debt collection needs urgent attention.
- The attitude of indigent households for not applying nonetheless several imbizo's held.
- Actions for better communication with communities especially with regard to water usage.
- The Performance, Risk and Audit Committee to attend to and advise Council on the new water meters for implementation.
- The matter on the landfill rehabilitation sites.
- That the maintenance on capital infrastructure becomes bigger concerns.
- That the small number of tax payers in the municipality becomes a concern.
- That the municipality is compliant with regard to financial matters."

The Performance, Risk and Audit Committee resolved on 24 April 2023 to recommend to Council that notice be taken of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for August, September, October, November, December 2022, January 2023 and February 2023 and, after consideration, same be accepted.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken that the Section 71 Monthly Budget Statement reports for July and August 2022 have already been tabled to and accepted by Council on 6 December 2022.

(b) that notice be taken of the Section 71 Monthly Budget Statement reports of the Directorate Finance for June, September, October, November, December 2022 and January and February 2023.

8.1.5 Supply Chain Management: Paragraph 7(4) Quarterly Report ending 31 March 2023: Implementation of Supply Chain Management Policy (9/1/2/2)

The Supply Chain Management: Paragraph 7(4) Quarterly Report ending 31 March 2023: Implementation of Supply Chain Management Policy is attached as annexure 8.1.5.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the Supply Chain Management: Paragraph 7(4) Quarterly Report ending 31 March 2023.

(b) that the report supra (a) be made available to the public in terms of Section 21A of the Municipal Systems Act (Act no. 32 of 2000) after it has been tabled to Council.

8.1.6 Performance, Risk and Audit Committee: 2nd Bi-Annual Report on Performance Management: 2021/2022 (5/14/4)

The Second Bi-Annual Report of the Performance, Risk and Audit Committee on Performance Management for 2021/2022, dated September 2022, is attached as annexure 8.1.6.

RECOMMENDED

that notice be taken of the Second Bi-Annual Report of the Performance, Risk and Audit Committee on Performance Management for 2021/2022.

8.1.7 Performance, Risk and Audit Committee: 1st Bi-Annual Report on Performance Management: 2022/2023 (5/14/4)

The First Bi-Annual Report of the Performance, Risk and Audit Committee on Performance Management for 2022/2023, dated March 2023, is attached as annexure 8.1.7.

RECOMMENDED

that notice be taken of the First Bi-Annual Report of the Performance, Risk and Audit Committee on Performance Management for 2022/2023.

8.1.8 Quarterly Budget Statement [Section 52(d)] Report: 1st Quarter 2022/2023 (1 July 2022 to 30 September 2022) (9/1/2/2)

The Quarterly Budget Statement [Section 52(d)] Report for the first quarter of 2022/2023 is attached as annexure 8.1.8.

Council unanimously resolved on 6 December 2022 that notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the 1st quarter of 2022/2023 and the report be referred to the Performance, Risk and Audit Committee as well as the Municipal Public Accounts Committee for any recommendations to Council.

The Performance, Risk and Audit Committee resolved on 24 April 2023:

(a) That notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the first quarter of 2022/2023 and, after consideration, same be accepted.

(b) That the Performance, Risk and Audit Committee recommends to Council:

that Council, after consideration, refers the Quarterly Budget Statement Report in terms of Section 52(d) for the first quarter of 2022/2023 to the Municipal Public Accounts Committee for consideration and a recommendation to Council.

RECOMMENDED

that Council, after consideration, refers the Quarterly Budget Statement Report in terms of Section 52(d) for the first quarter of 2022/2023 to the Municipal Public Accounts Committee for consideration and a recommendation to Council.

8.1.9 Quarterly Budget Statement [Section 52(d)] Report: 2nd Quarter 2022/2023 (1 October 2022 to 31 December 2022) (9/1/2/2)

Report from Director: Finance, dated 16 January 2023:

"1. Purpose

The purpose of this memorandum is to submit the Quarterly Budget Statement Report to Council for information.

2. Background

The Quarterly Budget Statement [Section 52(d)] Report for the second quarter of 2022/2023 is attached as annexure 8.1.9."

Council unanimously resolved on 25 January 2023 that notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the 2nd quarter of 2022/2023 and the report be referred to the Performance, Risk and Audit Committee as well as the Municipal Public Accounts Committee for any recommendations to Council.

The Performance, Risk and Audit Committee resolved on 24 April 2023:

(a) That notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the second quarter of 2022/2023 and, after consideration, same be accepted.

(b) That the Performance, Risk and Audit Committee recommends to Council:

that Council, after consideration, refers the Quarterly Budget Statement Report in terms of Section 52(d) for the second quarter of 2022/2023 to the Municipal Public Accounts Committee for consideration and a recommendation to Council.

RECOMMENDED

that Council, after consideration, refers the Quarterly Budget Statement Report in terms of Section 52(d) for the second quarter of 2022/2023 to the Municipal Public Accounts Committee for consideration and a recommendation to Council.

8.2 Direktoraat Tegniese Dienste / Directorate Technical Services

8.2.1 Proposed positions of waste transfer stations (17/3/2)

A memorandum from the Director: Technical Services, dated 14 June 2022, is attached as annexure 8.2.1.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council:

(a) that the following erven be approved for the development and construction of drop-offs / transfer stations as follow:

(i) Bella Vista: Option 3 (Erf 8714)

(ii) Tulbagh: Option 2 (Open space at back of community hall and library)

(iii) Prince Alfred's Hamlet: Option 2 (Erf 1)

(b) that notice be taken that the erven have to be rezoned to "Authority Use".

(c) that the Senior Superintendent: Solid Waste and Cleansing Services performs the necessary administrative tasks (obtaining quotations etc.) for the rezoning of the said erven.

(d) that the Manager: Town Planning and Building Control manages and finalises the rezoning process.

(e) that a Public Participation Process be followed in respect of the proposed positions of waste transfer stations.

Council unanimously resolved on 28 March 2023 that the matter regarding the proposed positions of waste transfer stations be held in abeyance until being workshopped by Council.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that the following erven be approved for the development and construction of drop-offs / transfer stations as follow:

(i) Bella Vista: Option 3 (Erf 8714)

(ii) Tulbagh: Option 2 (Open space at back of community hall and library)

(iii) Prince Alfred's Hamlet: Option 2 (Erf 1)

(b) that notice be taken that the erven have to be rezoned to "Authority Use".

(c) that the Senior Superintendent: Solid Waste and Cleansing Services performs the necessary administrative tasks (obtaining quotations etc.) for the rezoning of the said erven.

(d) that the Manager: Town Planning and Building Control manages and finalises the rezoning process.

(e) that a Public Participation Process be followed in respect of the proposed positions of waste transfer stations.

8.2.2 Draft Integrated Waste Management Plan (IWMP) for Witzenberg Municipality
(17/3/2)

The following documents are attached:

(a) Memorandum from Senior Superintendent: Solid Waste and Cleansing, dated 12 July 2022: Annexure 8.2.2(a).

(b) Draft Integrated Waste Management Plan: Annexure 8.2.2(b).

The Committee for Technical Services resolved on 14 March 2023:

(a) That the Director: Technical Services conduct an on-site inspection at the old landfill site in Ceres regarding the illegal dumping of waste.

(b) That the Committee for Technical Services recommends to the Executive Mayoral Committee and Council:

that the Integrated Waste Management Plan (IWMP) for Witzenberg Municipality be workshopped by Council.

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council that the Draft Integrated Waste Management Plan (IWMP) for Witzenberg Municipality, after being workshopped, be approved.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that the Draft Integrated Waste Management Plan (IWMP) for Witzenberg Municipality, after being workshopped, be approved.

8.2.3 Feasibility bridging study for Breede-**Berg (Michell's Pass) water** transfer scheme
(16/2/2)

Memorandum from the Senior Manager: Water and Sewerage, dated 17 March 2022:

"Purpose

The purpose of this memorandum is to inform the Committee for Technical Services regarding the feasibility study being undertaken by the DWS for the Breede-**Berg (Michell's Pass) Water Transfer Scheme**.

Discussion

The Western Cape Water Supply System (WCWSS) currently supplies water to the City of Cape Town, surrounding urban areas and farmers. This scheme is owned and operated by the DWS and CCT. In order to meet the ever growing water requirements, the Western Cape Reconciliation Strategy Study investigated a range of bulk water supply schemes to augment the WCWSS.

In 2008 the DWS commissioned pre-feasibility level investigations into potential development of six surface water options. This study resulted in two schemes being further investigated to feasibility level. The two schemes were:

- Berg River – Voëlvlei Augmentation scheme (BRVAS), which is currently being implemented by the Trans Caledon Tunnel Authority (TCTA); and
- Breede–Berg (Michell's Pass) Transfer Scheme (BBTS), which is being further investigated by means of a Bridging Study.

The proposed BBTS comprises the diversion of winter water by means of a new diversion weir from the upper Breede River (Michell's Pass) at the same site as that of the current Artois Canal diversion. This water will be transferred with a pipeline to the upper reaches of the Klein Berg River, from where water will be conveyed via the existing Klein Berg Canal into the Voëlvlei Dam.

Two alternative schemes were considered to transfer water while also supplying the environmental water requirements (EWR) in the Breede River:

Alternative A involves the diversion of surplus winter water via the proposed weir on the Upper Breede River at Michell's Pass, into a new gravity pipeline. The pipeline will transfer water into the Blousloot stream, which is a tributary of the Klein Berg River. Summer reserve releases are proposed to be supplied from the Koekedouw Dam at Ceres.

Alternative B is similar to Alternative A, but makes provision for a new storage dam on the Boontjies River, a tributary of the Klein Berg River, which allows for the storage of water for water supply to the Artois Canal irrigators and the summer reserve flows for the Upper Breede River downstream of Michell's Pass diversion site.

Professional service providers (PSP) has been appointed by the DWS to do a bridging study. This study will run from August 2021 and has a contract period of 30 months. Part of this study is a public participation process with all Interested and Affected Parties in the Upper Breede River and will be extended to include parties in the Klein Berg River catchment. The bridging study also aims to thoroughly interrogate all the augmentation options and proposals and unpack these at engagements between stakeholders, DWS and the PSP.

The following documents are attached:

(a) Feasibility Bridging Study for Breede–Berg (Michell's Pass) water transfer scheme (Basic Information Document): Annexure 8.2.3(a).

(b) Feasibility Bridging Study for the proposed Breede–Berg (Michell's Pass) water transfer scheme (Letter from Department Water and Sanitation): Annexure 8.2.3(b)."

The Committee for Technical Services resolved on 14 March 2023 to recommend to the Executive Mayoral Committee and Council:

(i) that Council takes cognisance of the proposed feasibility bridging study.

(ii) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(i) that Council takes cognisance of the proposed feasibility bridging study.

(ii) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

(iii) that the matter in respect of the Feasibility bridging study for the Breede-Berg (Michell's Pass) water transfer scheme, after more information has been obtained, be workshopped by Council.

Council unanimously resolved on 28 March 2023:

(a) that Council takes cognisance of the proposed feasibility bridging study.

(b) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

(c) that the matter in respect of the Feasibility bridging study for Breede-Berg (Michell's Pass) water transfer scheme, after more information has been obtained, be workshopped by Council.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that Council takes cognisance of the proposed feasibility bridging study.

(b) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

8.2.4 NERSA Electrical Department Compliance Audit 2021/2022 (16/3/4/1)

The following documents are attached:

(a) Memorandum from Senior Manager: Electro-Technical Services: Annexure 8.2.4(a).

(b) Corrective Action Plan (CAP): Annexure 8.2.4(b).

(c) Letter from NERSA dated 31 May 2022: Annexure 8.2.4(c).

(d) Final Compliance Audit Report: Annexure 8.2.4(d).

(e) Email to Chief Financial Officer, dated 21 July 2022: Annexure 8.2.4(e).

It is noted that the audit was commenced during the 2021/2022 financial year, but only completed on 3 June 2022.

The Committee for Technical Services resolved on 14 March 2023 to recommend to the Executive Mayoral Committee and Council:

(a) that notice be taken of the NERSA Compliance Audit Outcome for the Electrical Department.

(b) that the proposed Corrective Action Plan be approved by Council and submitted to NERSA.

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(a) that notice be taken of the NERSA Compliance Audit Outcome for the Electrical Department.

(b) that the proposed Corrective Action Plan be approved by Council and submitted to NERSA.

(c) that the matter in respect of the NERSA Electrical Department Compliance Audit 2021/2022 be workshopped by Council.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the NERSA Compliance Audit Outcome for the Electrical Department.

(b) that the proposed Corrective Action Plan be approved by Council and submitted to NERSA.

8.2.5 Witzenberg Municipality: Local Integrated Transport Plan: 2022 until 2027 (16/P)

The following documents are attached:

(a) Memorandum from Senior Manager: Streets and Storm Water, dated 21 February 2023: Annexure 8.2.5(a).

(b) Integrated Transport Plan 2022 – 2027: Annexure 8.2.5(b).

The Committee for Technical Services resolved on 14 March 2023 to recommend to the Executive Mayoral Committee and Council that the Witzenberg Local Integrated Transport Plan for 2022 until 2027 be workshopped by Council.

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council that the Local Integrated Transport Plan for 2022 until 2027, after being workshopped, be adopted by Council.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that the Local Integrated Transport Plan for 2022 until 2027, after being workshopped, be adopted by Council.

8.2.6 Construction of Waverenskroon Dam, inlet pipeline and intake works (15/4/2/078)

A memorandum from the Manager: Water and Sewerage, dated 8 May 2023, is attached as annexure 8.2.6.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the report regarding the Waverenskroon Dam.

8.3 Direktoraat Gemeenskapsdienste / Directorate Community Services

8.3.1 Investigation regarding regional graveyard, Ceres
Ondersoek met betrekking tot streeksbegraafplaas, Ceres
(17/12/1/1)

A report from the Manager: Amenities and Environment, dated 22 November 2022, is attached as annexure 8.3.1.

The Executive Mayoral Committee resolved on 28 November 2022 to recommend to Council:

(a) that notice be taken of the investigation regarding a regional graveyard in Ceres.

(b) that notice be taken that an application for funding for the infrastructure development of the intended cemetery has already been registered with MIG.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the investigation regarding a regional graveyard in Ceres.

(b) that notice be taken that an application for funding for the infrastructure development of the intended cemetery has already been registered with MIG.

8.3.2 Report: Witzenberg Municipality: Disaster Management Framework
(17/7/2/1)

A report from the Manager: Disaster Management and Fire Services in respect of the Witzenberg Municipality: Disaster Management Framework is attached as annexure 8.3.2.

The Committee for Community Development resolved on 16 March 2023 to recommend to the Executive Mayoral Committee and Council that the Witzenberg Municipality: Disaster Management Framework be workshopped by Council.

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council that the Witzenberg Municipality: Disaster Management Framework, after being workshopped, be approved by Council.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council

that the Witzenberg Municipality: Disaster Management Framework, after being workshopped, be approved by Council.

8.3.3 **Presentation: Dunlop's Business in a Box initiative**
(17/19/1)

A presentation from Dunlop in respect if Dunlop's Business in a Box initiative is attached as annexure 8.3.3.

The Municipal Manager informed the meeting that the Dunlop Initiative will not be in the CBD, but in the informal areas in addition to the informal settlement areas as presented.

The Committee for Local Economic Development and Tourism resolved on 18 April 2023 to recommend to the Executive Mayoral Committee and Council that the Committee supports the initiative and that the land for the initiative be made available in the various areas.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that the initiative be supported and that the land for the initiative be made available in the various areas.

8.4 Direktoraat Korporatiewe Dienste / Directorate Corporate Services

8.4.1 Witzenberg Communication Strategy: 2023 – 2026 (6/2/4)

Memorandum from Manager: Communication and Marketing, dated 2 February 2023:

"1. Purpose

To present the revised Communication Strategy to Council for approval and adoption. The Communication Strategy for 2023 until 2026 is attached as annexure 8.4.1.

2. Discussion

The draft document was revised in collaboration with GCIS and the Western Cape Government's Communication Department. The existing policy is still applicable, with minor changes and updates made to current situation, challenges and communication needs.

The following are highlighted:

- Accounting Officer is the official spokesperson of the municipality;
- Political communications should reside with the Office of the Mayor;
- Strategic communications should reside with the Office of the Municipal Manager; and
- Operational communications should reside with the responsible Director: Corporate Services;
- Turnaround time for official media enquiries received is 48 hours for comment to meet deadline;
- Permission is to be requested from the Accounting Officer for the use of the municipal logo;
- All existing staff to play their part in Communications;
- Unit structure and capacity;
- Adequate budget to roll out initiatives and operations;
- Internal isiXhosa Translator/interpreter appointed;
- Communication methods used to communicate;
- Marketing and branding."

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(a) that the revised Communication Strategy for the period 2023 until 2026 be approved and adopted by Council as the communication blue print for all corporate communication needs.

(b) that the matter in respect of the revised Communication Strategy for the period 2023 until 2026 be workshopped by Council.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

that the revised Communication Strategy for the period 2023 until 2026 be approved and adopted by Council as the communication blue print for all corporate communication needs.

8.4.2 Minutes/Summary of Outcomes: SALGA Working Group meetings (12/1/1/11)

The following minutes/Summary of Outcomes of SALGA Working Group meetings are attached:

(a) Emergency Services and Disaster Management Working Group: Annexure 8.4.2(a).

(b) Health Working Group: Annexure 8.4.2(b).

RECOMMENDED

that notice be taken of the minutes and Summary of Outcomes of the SALGA Working Group meetings.

AANBEVEEL

dat kennis geneem word van die notules en Opsomming van Uitkoms van die SALGA Werksgroepe-vergaderings.

8.4.3 Request to exchange erf 85, Op-die-Berg for portion of erf 417/0, Op-die-Berg (7/1/4/2)

A memorandum from the Manager: Legal Services, dated 13 September 2022, is attached as annexure 8.4.3.

The Committee for Corporate and Financial Services resolved on 20 April 2023 to recommend to the Executive Mayoral Committee and Council:

(a) that a portion of erf 85, Op-die-Berg be swapped for a portion of erf 417/0, Op-die-Berg.

(b) that the subdivision and rezoning of erf 85, Op-die Berg, be for the account of the Dutch Reformed Church.

(c) that the transfer of erf 85, Op-die-Berg be for the account of the Dutch Reformed Church, in favour of developing business properties in the absence of alternative property.

(d) that the transfer of portion of erf 417/0, Op-die-Berg be for the account of the municipality as well as the subdivision and rezoning of erf 417/0 be for the account of the municipality.

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that a portion of erf 85, Op-die-Berg be exchanged for a portion of erf 417/0, Op-die-Berg.

(b) that the subdivision and rezoning of erf 85, Op-die-Berg will be for the account of the Dutch Reformed Church.

(c) that the transfer of erf 85, Op-die-Berg will be for the account of the Dutch Reformed Church in favour of developing business properties in the absence of alternative property.

(d) that the transfer of a portion of erf 417/0, Op-die-Berg as well as the subdivision and rezoning of erf 417/0 will be for the account of the municipality.

8.4.4 Request to purchase erf 2459, Ceres (7/1/4/1)

A memorandum from the Manager: Legal Services, dated 13 April 2023, is attached as annexure 8.4.4.

The Committee for Corporate and Financial Services resolved on 20 April 2023 to recommend to the Executive Mayoral Committee and Council:

(a) that consideration be given to the alienation of municipal property, erf 2549, Ceres in favour of Johan Mostert Trust.

(b) that in terms of Section 14.2 of the Municipal Finance Management Act (56 of 2003) erf 2549, Ceres is not required for minimum basic services. [MFMA Section 14.2(a)].

(c) that in terms of Section 14.2 of the Municipal Finance Management Act (56 of 2003) erf 2549, Ceres be sold at a market related price. [MFMA Section 14.2(a)].

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) that consideration be given to the alienation of municipal property, erf 2549, Ceres in favour of Johan Mostert Trust.

(b) that in terms of Section 14.2 of the Municipal Finance Management Act (56 of 2003) erf 2549, Ceres is not required for minimum basic services. [MFMA Section 14.2(a)].

(c) that in terms of Section 14.2 of the Municipal Finance Management Act (56 of 2003) erf 2549, Ceres be sold at a market related price. [MFMA Section 14.2(a)].

8.4.5 Alienation of municipal erf 3280, Tulbagh for church purposes (7/1/4/2)

Memorandum from Municipal Manager, dated 19 May 2023:

"Purpose

To consider the alienation of municipal erf 3280 Tulbagh in terms of Council's Supply Chain process for the purpose of constructing a church and conducting church services.

Deliberation

The land audit identified erf 3280, Tulbagh, registered in the Deeds Office under Title Deed 2670/2017 and held by the Witzenberg Municipality, as an erf for church purposes. See the map attached as annexure 8.4.5. The property is zoned in terms of the Council's zoning policy as institutional 2 which provides for religious activities to be conducted on the premises. The municipality has been flooded by the religious sector to make land available where they can construct a building to conduct services. Council is requested to consider the alienation of the erf in terms of Council's Supply Chain Policy.

Legal implications

The Municipal Finance Management Act in terms of Section 14 requires Council to consider whether the erf is needed to provide a minimum level of basic services. The erf is vacant and is not required by the municipality for minimum basic services.

Financial implications

There are no financial implications for the municipality. The erf is currently vacant and no income is derived from the erf. If the erf is sold then the municipality can collect rates and other income for services rendered."

RECOMMENDED

That the Executive Mayoral Committee recommends to Council:

(a) That erf 3280, Tulbagh is not required for basic services.

(b) That erf 3280, Tulbagh be alienated in terms of Council's Supply Chain Policy.

(c) That erf 3280, Tulbagh not be sold under the market related value of the property.

(d) That the Municipal Manager be mandated to sign all the necessary documentation to effect transfer of the said property.

8.1.1 AGSA Audit Report: 2021/2022 (5/14/1/19)

The AGSA Audit Report for 2021/2022 is attached as annexure 8.1.1.

Mrs Kalthiema Abrahams of Messrs AGSA made a presentation in respect of the AGSA Audit Report for 2021/2022. The following matters were discussed:

- Unqualified audit report
- Clean audit outcome
- Emphasis on matters
- Material impairments
- Responsibilities of the Accounting Officer
- AGSA congratulated the Witzenberg Municipality on obtaining a 10th consecutive clean audit report.
- The Performance, Risk and Audit Committee congratulated the Municipal Manager and Financial team of the municipality on obtaining a clean audit report.
- The Municipal Manager expressed his gratitude to AGSA, and especially to Mrs Kalthiema Abrahams and Mr Jeremy Kolkota, on obtaining a clean audit report and adding value to Witzenberg Municipality.

The Performance, Risk and Audit Committee resolved on 16 January 2023 to recommend to Council that notice be taken of the AGSA Audit Report for 2021/2022 and same be accepted.

The Executive Mayor conveyed congratulations to the Municipal Manager, Chief Financial Officer, Finance team and Council on obtaining a 10th Clean Audit Report. Councillor J Mouton responded that the ANC coalition is not in agreement, because a clean audit report does not mean that everything is in good order.

RESOLVED

that notice be taken of the AGSA Audit Report for 2021/2022 and same be accepted.

8.1.2 Finance: Draft Budget 2023/2024, Draft Amended IDP 2023/2024 and Draft Top Layer SDBIP 2023/2024
(5/1/1/22; 2/2/1 & 5/1/5/16)

The following memorandum, dated 17 March 2023, was received from the Director: Finance:

"1. Purpose

The purpose of this report is to table the Draft Budget 2023/2024, Draft Amended IDP 2023/2024 and Draft Top Layer SDBIP 2023/2024 to the Executive Mayor and Council.

2. Legal framework

Section 16 - 18 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) stipulates as follows:

'Annual budgets

16. (1) The council of a municipality must for each financial year approve an annual budget for the municipality before the start of that financial year.

(2) In order for a municipality to comply with subsection (1), the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year.

(3) Subsection (1) does not preclude the appropriation of money for capital expenditure for a period not exceeding three financial years, provided a separate appropriation is made for each of those financial years.'

'Contents of annual budgets and supporting documents

17. (1) An annual budget of a municipality must be a schedule in the prescribed format –

(a) setting out realistically anticipated revenue for the budget year from each revenue source;
(b) appropriating expenditure for the budget year under the different votes of the municipality;
(c) setting out indicative revenue per revenue source and projected expenditure by vote for the two financial years following the budget year;
(d) setting out –
(i) estimated revenue and expenditure by vote for the current year; and
(ii) actual revenue and expenditure by vote for the financial year preceding the current year; and

(e) a statement containing any other information required by section 215(3) of the Constitution or as may be prescribed.

(2) An annual budget must generally be divided into a capital and an operating budget in accordance with international best practice, as may be prescribed.

(3) When an annual budget is tabled in terms of Section 16 (2), it must be accompanied by the following documents:

(a) draft resolutions –
  (i) approving the budget of the municipality;
  (ii) imposing any municipal tax and setting any municipal tariffs as may be required for the budget year;
  (iii) approving the budgets for the relevant financial year of each municipal entity under the sole or shared control of the municipality; and
  (iv) approving any other matter that may be prescribed;
(b) measurable performance objectives for each vote in the budget, taking into account the municipality's integrated development plan;
(c) a projection of cash flow for the budget year by revenue source, broken down per month;
(d) any proposed amendments to the municipality's integrated development plan following the annual review of the integrated development plan in terms of section 34 of the Municipal Systems Act;
(e) any proposed amendments to the budget-related policies of the municipality;
(f) particulars of the municipality's investments;
(g) any prescribed budget information on municipal entities under the sole or shared control of the municipality;
(h) particulars of all proposed new municipal entities which the municipality intends to establish or in which the municipality intends to participate;
(i) particulars of any proposed service delivery agreements, including material amendments to existing service delivery agreements;
(j) particulars of any proposed allocations or grants by the municipality to –
  (i) other municipalities;
  (ii) any municipal entities and other external mechanisms assisting the municipality in the exercise of its functions or powers;
  (iii) any other organs of state;
  (iv) any organisations or bodies referred to in Section 67(1);
(k) the proposed cost to the municipality for the budget year of the salary, allowances and benefits of –
  (i) each political office-bearer of the municipality;
  (ii) councillors of the municipality; and

(iii) the municipal manager, the chief financial officer, each senior manager of the municipality and any other official of the municipality at a remuneration package at least equal to that of a senior manager;

(l) the proposed cost for the budget year to a municipal entity under the sole or shared control of the municipality of the salary, allowances and benefits of –

(i) each member of the entity's board of directors; and

(ii) the chief executive officer and each senior manager of the entity; and

(m) any other supporting documentation as may be prescribed.'

'Funding of expenditures

18. (1) An annual budget may only be funded from –

(a) realistically anticipated revenues to be collected;

(b) cash-backed accumulated funds from previous years' surpluses not committed for other purposes; and

(c) borrowed funds, but only for the capital budget referred to in section 17 (2).

(2) Revenue projections in the budget must be realistic, taking into account –

(a) projected revenue for the current year based on collection levels to date; and

(b) actual revenue collected in previous financial years.' "

The following documents are attached:

(a) Draft Top Layer SDBIP for 2023/2024: Annexure 8.1.2(a).

(b) Draft Amended IDP 2023/2024: Annexure 8.1.2(b).

(c) Draft Budget: 2023/2024 – 2025/2026: Annexure 8.1.2(c).

(d) Draft Budget Related Policies: 2023/2024: Annexure 8.1.2(d).

(e) Draft Budget Schedules: 2023/2024 – 2025/2026: Annexure 8.1.2(e).

(f) Tariff Setting Tool: Annexure 8.1.2(f).

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(a) that Council takes notice of the Draft Budget, the Draft Amended IDP and the Draft Top Layer SDBIP of the Witzenberg Municipality for the financial year 2023/2024 and the indicative budget for the two years 2024/2025 and 2025/2026 that have been tabled by the Executive Mayor in Council.

(b) that the documents be advertised and made available at all libraries and municipal offices of Council.

(c) that public meetings be conducted as per the IDP Public Participation Programme.

(d) that an executive summary in the form of a pamphlet be distributed to households within the Witzenberg municipal area.

UNANIMOUSLY RESOLVED

(a) that Council takes notice of the Draft Budget, the Draft Amended IDP and the Draft Top Layer SDBIP of the Witzenberg Municipality for the financial year 2023/2024 and the indicative budget for the two years 2024/2025 and 2025/2026 that have been tabled by the Executive Mayor in Council.

(b) that the documents be advertised and made available at all libraries and municipal offices of Council.

(c) that public meetings be conducted as per the IDP Public Participation Programme.

(d) that an executive summary in the form of a pamphlet be distributed to households within the Witzenberg municipal area.

8.1.3 Annual Risk Assessment Report: 2022 (2/12/1)

The Annual Risk Assessment report for 2022, dated June 2022, is attached as annexure 8.1.3.

The Performance, Risk and Audit Committee resolved on 9 September 2022 to recommend to Council that notice be taken of the Performance, Risk and Audit Committee's Annual Risk Assessment Report for 2022 and, after consideration, same be accepted.

Council unanimously resolved on 6 December 2022 that the Performance, Risk and Audit Committee's Annual Risk Assessment Report for 2022 be held in abeyance to be workshopped by Council.

UNANIMOUSLY RESOLVED

that notice be taken of the Performance, Risk and Audit Committee's Annual Risk Assessment Report for 2022 and, after consideration, same be accepted.

EENPARIG BESLUIT

dat kennis geneem word van die Prestasie-, Risiko- en Ouditkomitee se Risiko-evalueringsverslag vir 2022 en genoemde verslag, na oorweging, aanvaar word.

Councillor G Laban temporarily left the meeting at 12:48 with permission.

8.1.4 Finance: Proposed amendments to Indigent Policy (5/12/P)

Memorandum from Director: Finance, dated 2 February 2023:

"1. Purpose

The purpose of this memorandum is to submit proposed amendments to the Indigent Policy for consideration by Council. The policy is attached as annexure 8.1.4.

2. Legal framework

The definition of income as per the Indigent Policy is quoted below for ease of reference:

'All sources of income of a head of the family, and his or her spouse, for example salaries, allowances, pensions, rental and business income not limiting it to the examples mentioned, excluding state child support grants, care dependency grants, foster care grants or maintenance support.'

Paragraph 6 of the Witzenberg Indigent Policy sets out the qualification criteria for indigent households, and is quoted below for ease of reference:

'Assistance is provided to households that meet the criteria as set out in 6.1 and to old age homes that meet the criteria as set out in 6.1.'

6.1 The qualification criteria for urban households in order to receive assistance are as follow:

6.1.5 The households joint gross income may not exceed the level of R5,000 per month.

3. Discussion

No expenditure is taken into consideration in determining whether a household qualifies for indigent support or not.

Some households have monthly bond expenditure that reduces their disposable income to be used for living expenditure. This could result in a customer not meeting the current indigent qualification criteria."

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council:

The following amendments to the Indigent Policy are recommended:

(i) The definition of bond expenditure to be added:

"Monthly interest and redemption payments on a bond registered in the name of the head of the family, his or her spouse on condition that the applicant(s) occupies the house."

(ii) Add paragraph 6.1.5.1

"6.1.5.1 The household income as per paragraph 6.1.5 may be reduced with the monthly bond expenditure."

(iii) Amend paragraphs 7.1 and 7.2 to the following:

"7.1 Households with a joint monthly gross income less bond cost, not exceeding R3,000.

7.2 Households with a joint monthly gross income less bond cost, between R3,000 and R5,000."

UNANIMOUSLY RESOLVED

(a) The following amendments to the Indigent Policy were approved:

(i) The definition of bond expenditure to be added:

"Monthly interest and redemption payments on a bond registered in the name of the head of the family, his or her spouse on condition that the applicant(s) occupies the house."

(ii) Add paragraph 6.1.5.1

"6.1.5.1 The household income as per paragraph 6.1.5 may be reduced with the monthly bond expenditure."

(iii) Amend paragraphs 7.1 and 7.2 to the following:

"7.1 Households with a joint monthly gross income less bond cost, not exceeding R3,000.

7.2 Households with a joint monthly gross income less bond cost, between R3,000 and R5,000."

(b) That Administration review the Indigent Policy and add support for rental houses and then report back to Council.

8.1.5 Finance: Approval of long-term loan (5/4)

A memorandum from the Director: Finance, dated 21 February 2023, is attached as annexure 8.1.5.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council that the long-term loan be approved in terms of Section 46 of the Municipal Finance Management Act to finance the construction of both the fence and drop-off transfer stations.

UNANIMOUSLY RESOLVED

that the long-term loan be approved in terms of Section 46 of the Municipal Finance Management Act to finance the construction of both the fence and drop-off transfer stations.

8.1.7 Finance: Adjustment budget 2021/2022
(5/1/1/20)

The following documents are attached:

(a) Memorandum from Director: Finance, dated 12 January 2023: Annexure 8.1.7(a).

(b) Adjustment budget 2021/2022 to 2023/2024: Annexure 8.1.7(b).

(c) Budget schedules 2021/2022: Annexure 8.1.7(c).

Council unanimously resolved on 25 January 2023 that the matter in respect of the Adjustment Budget for 2021/2022 be held in abeyance for an investigation and be tabled at the next meeting.

Further to the last Council meeting, the following extract from the minutes of the Municipal Public Accounts Committee meeting, held on 17 January 2023:

"The Municipal Manager provided information to the Municipal Public Accounts Committee in respect of the process followed with the Annual Report, Financial Statements 2021/2022 as well as the completion of the Draft MPAC Checklist for consideration at the meeting.

The Director: Finance presented the Adjustment Budget for 2021/2022 and highlighted the following:

- The Chief Financial Officer provided clarity with regard to the cost for a rehabilitated landfill site. The municipality did not make provision for the expenditure. In accounting terms called "unauthorised expenditure". In terms of law must be submitted with the Annual Report.

The Chief Financial Officer mentioned that in terms of the GRAP requirements Council must make provision for the rehabilitation of the landfill site. An expert calculated the cost for the rehabilitation of the site. The cost was calculated in 2020 at R46 million, but increased with more than R50 million and in this financial year under review it increased with a further R52 million. The total cost two years later is R148 million. The cost for rehabilitation increase enormously fast. In the approved budget no proper provision was made for the asset. It was not expected that the cost will amount to R148 million in two years' time. However, this is only a book entry and not a payment entry. It is still an expenditure for the municipality.

Unfortunately the expenditure was only picked up at the end of the financial year and when the audit report was received. The only way to correct the matter is with the Annual Report. When Council considers the Annual Report they must also consider this matter in the budget report. The recommendation to approve the Adjustment Budget is supported by the Performance, Risk and Audit Committee and the Municipal Public Accounts Committee.

The Municipal Manager mentioned that no official could foresee the matter. It is only due to depreciation."

The Municipal Public Accounts Committee unanimously resolved on 17 January 2023 to recommend to Council:

(a) that no official or public office bearer that made, permitted or authorised the unauthorised expenditure acted deliberately or in grossly negligent manner.

(b) that the municipality has not suffered any loss as a result of the action.

(c) that the unauthorised expenditure not be recovered from any official or public office bearer, and that the amount be written off.

(d) that the adjustment budget of Witzenberg Municipality for the financial year 2021/2022 as set out in the budget documents be approved by Council.

Council delegated authority to the Municipal Public Accounts Committee per item 8.1.6 of 30 September 2020, more specifically Section 4.4 of the MPAC Charter, to deal with unauthorised, irregular, fruitless and wasteful expenditure in terms of Section 32 of the Municipal Finance Management Act (MFMA).

The Municipal Public Accounts Committee (MPAC) Charter is attached as annexure 8.1.7(d).

UNANIMOUSLY RESOLVED

(a) that Council established an Ad hoc Committee to determine whether the Municipal Public Accounts Committee has investigated the possible unauthorised, irregular or fruitless and wasteful expenditure with regard to the rehabilitation of the landfill site.

(b) that the Ad hoc Committee supra consists of:

(i) Councillor D Swart (DA)
(ii) Councillor P Daniels (DA)
(iii) Councillor J Mouton (ANC)
(iv) Councillor AL Gili (ANC)
(v) Councillor P Heradien (ICOSA)

Councillor G Laban joined the meeting again at 14:00.

8.1.8 Finance: Electricity: Cost of Supply and Tariff Study (5/1/1/21)

Memorandum from Director: Finance, date 21 February 2023:

"Purpose

The purpose of this report is to submit a report on the cost of electricity supply to Council for consideration.

Discussion

The purpose of the study is to determine the actual cost of delivering electricity services to different consumer groups and to determine tariffs based on the cost of supply."

The Electricity: Cost of Supply and Tariff Study is attached as annexure 8.1.8.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council that the Electricity: Cost of Supply and Tariff Study be approved and that it be submitted to NERSA for consideration.

Alderman JJ Visagie proposed and Alderman K Adams seconded that the recommendations as stipulated in the agenda be accepted.

Councillor A Gili proposed and Councillor K Yisa seconded that the matter be held in abeyance until the next meeting.

The Speaker called for a vote and the outcomes were:

Proposal		Outcomes of votes
(i)	As recommended	13
(ii)	Held in abeyance	7
(iii)	Votes abstained	1
(iv)	Absent	2
Total votes		23

RESOLVED

that the Electricity: Cost of Supply and Tariff Study be approved and that it be submitted to NERSA for consideration.

BESLUIT

dat die Elektrisiteit: Koste van Voorsiening- en Tariefstudie goedgekeur word en aan NERSA voorgelê word vir oorweging.

8.1.9 Implementation of Debt Collection and Credit Control Policy (5/12/P & 5/1/1/21)

A memorandum from the Director: Finance, dated 16 January 2023, is attached as annexure 8.1.9.

The Executive Mayoral Committee resolved on 24 January 2023 to recommend to Council that the matter in respect of the implementation of the Debt Collection and Credit Control Policy be held in abeyance in order for the following matters to be workshopped by Council:

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Installation of pre-paid water meters if other debt collection measures are not successful.

Council unanimously resolved on 25 January 2023:

that the matter in respect of the implementation of the Debt Collection and Credit Control Policy be held in abeyance in order for the following matters to be workshopped by Council:

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Installation of pre-paid water meters if other debt collection measures are not successful.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council:

That the following additional credit control steps be implemented:

(a) Cutting or blocking of electricity

(i) Amount equal to two months' debits are payable before restoring connection - (conventional meters).

(ii) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(b) Indigent households

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Indigent households be moved from conventional electricity to pre-paid electricity.

(c) Legal collection process

(i) Section 129 Notice (in terms of National Credit Act).

(ii) Fourteen days later after Section 129 Notice, summons is compiled.

(iii) Clerk of the Court issues the summons.

(iv) Sheriff of the Court serves the summons on the defendant.

If there is moveable property that can be attached:

(1) If no payment received on summons - Judgement and Warrant of Execution is issued on movable property.

(2) Council resolution on process to be followed.

(3) Instruction to sheriff to attach and remove movable property and to sell the attached property.

(4) Advertisement in newspaper of intention to sell movable property.

(5) Sale in execution of attached moveable property by sheriff.

If there is no moveable property that can be attached:

(1) Report with Nulla Bona on fixed property with municipal value for less than R300 000.00 to Council for write off.

(2) Municipal fixed property with value more than R300 000.00, Section 66 application compiled by private external attorney and application to sell immovable property in a sale of execution, brought before court.

(3) Council resolution on process to be followed.

(4) Advertisement in newspaper by attorney of intention to sell immovable property in local newspaper as well as Government Gazette.

(5) Sale in execution of attached immoveable property by sheriff.

(d) Pre-payment water meters

(i) Installation of pre-paid water meters if other debt collection measures are not successful.

(ii) That the water consumption can be limited to a maximum of 200 litres per day (6 kilolitres per month).

(e) that consumers be notified via their municipal account statements of the consequences of non-payment of their municipal accounts and that 30 % of payments will be allocated towards arrears when payment is made.

(f) that the above-mentioned steps (a)(ii) and b(ii) be implemented from 1 April 2023 and (d)(i) be implemented from 1 July 2023 respectively.

UNANIMOUSLY RESOLVED

that the matter regarding the implementation of a Debt Collection and Credit Control Policy be held in abeyance until after being workshopped by Council.

8.2.1 Bid 08/2/17/51: Upgrading of Van Breda Bridge and associated roadworks: Extension and variation of contract (08/2/17/51)

A memorandum from the Manager: Streets and Storm Water, dated 18 January 2023, is attached as annexure 8.2.1.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council:

(i) that the Accounting Officer approves the extension of the original contract, in favour of Amandla GCF Construction cc, with an increase of R7 840 000,00 which is 20 % of the original contract, provided that the expenditure is within the available budget of the municipality.

(ii) that the Accounting Officer recommends to Council the amendment of Contract 08/2/17/51: Upgrading of van Breda Bridge & Associated Roadworks, in favour of Amandla GCF Construction cc, to be expanded by a further 26 % or R10 193 422,68 which is inclusive of 15 % VAT, provided that the expenditure is within the available budget of the municipality.

(iii) that reasonable notice be given in the local newspaper of the intention to amend the contract.

(iv) that Council approves the amendment of Contract 08/2/17/51: Upgrading of van Breda Bridge & Associated Roadworks, in favour of Amandla GCF Construction cc, to be expanded by 46 % or R57 236 326,55 in construction cost inclusive of 15 % VAT, provided that the expenditure is within the available budget of the municipality.

(v) that a dispute be declared against Ingerop South Africa (Pty) Ltd , based on the fact that extension of time claims are to be paid by Witzenberg Municipality, which could have been avoided if all prescribed steps were followed during the design stage.

(vi) that an additional report be tabled to Council advising Council regarding legal proceedings for the recovery of additional costs created by the consulting engineer, Ingerop SA (Pty) Ltd Consulting Engineer.

UNANIMOUSLY RESOLVED

(a) that the Accounting Officer approves the extension of the original contract, in favour of Amandla GCF Construction cc, with an increase of R7 840 000,00 which is 20 % of the original contract, provided that the expenditure is within the available budget of the municipality.

(b) that the Accounting Officer recommends to Council the amendment of Contract 08/2/17/51: Upgrading of van Breda Bridge & Associated Roadworks, in favour of Amandla GCF Construction cc, to be expanded by a further 26 % or R10 193 422,68 which is inclusive of 15 % VAT, provided that the expenditure is within the available budget of the municipality.

(c) that reasonable notice be given in the local newspaper of the intention to amend the contract.

(d) that Council approves the amendment of Contract 08/2/17/51: Upgrading of van Breda Bridge & Associated Roadworks, in favour of Amandla GCF Construction cc, to be expanded by 46 % or R57 236 326,55 in construction cost inclusive of 15 % VAT, provided that the expenditure is within the available budget of the municipality.

(e) that a dispute be declared against Ingerop South Africa (Pty) Ltd , based on the fact that extension of time claims are to be paid by Witzenberg Municipality, which could have been avoided if all prescribed steps were followed during the design stage.

(f) that an additional report be tabled to Council advising Council regarding legal proceedings for the recovery of additional costs created by the consulting engineer, Ingerop SA (Pty) Ltd Consulting Engineer.

8.2.2 Proposed positions of waste transfer stations (17/3/2)

A memorandum from the Director: Technical Services, dated 14 June 2022, is attached as annexure 8.2.2.

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council:

(a) that the following erven be approved for the development and construction of drop-offs / transfer stations as follow:

(i) Bella Vista: Option 3 (Erf 8714)

(ii) Tulbagh: Option 2 (Open space at back of community hall and library)

(iii) Prince Alfred's Hamlet: Option 2 (Erf 1)

(b) that notice be taken that the erven have to be rezoned to "Authority Use".

(c) that the Senior Superintendent: Solid Waste and Cleansing Services performs the necessary administrative tasks (obtaining quotations etc.) for the rezoning of the said erven.

(d) that the Manager: Town Planning and Building Control manages and finalises the rezoning process.

(e) that a Public Participation Process be followed in respect of the proposed positions of waste transfer stations.

UNANIMOUSLY RESOLVED

that the matter regarding the proposed positions of waste transfer stations be held in abeyance until being workshopped by Council.

8.2.4 Draft Integrated Waste Management Plan (IWMP) for Witzenberg Municipality
(17/3/2)

The following documents are attached:

(a) Memorandum from Senior Superintendent: Solid Waste and Cleansing, dated 12 July 2022: Annexure 8.2.4(a).

(b) Draft Integrated Waste Management Plan: Annexure 8.2.4(b).

The Committee for Technical Services resolved on 14 March 2023:

(a) That the Director: Technical Services conduct an on-site inspection at the old landfill site in Ceres regarding the illegal dumping of waste.

(b) That the Committee for Technical Services recommends to the Executive Mayoral Committee and Council:

that the Integrated Waste Management Plan (IWMP) for Witzenberg Municipality be workshopped by Council.

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council that the Draft Integrated Waste Management Plan (IWMP) for Witzenberg Municipality, after being workshopped, be approved.

UNANIMOUSLY RESOLVED

that the Draft Integrated Waste Management Plan (IWMP) for Witzenberg Municipality, after being workshopped, be approved.

EENPARIG BESLUIT

dat die Voorlopige Geïntegreerde Afvalbestuursplan vir Munisipaliteit Witzenberg, nadat dit deur die Raad op 'n werkswinkel bespreek is, goedgekeur word.

8.2.5 Feasibility bridging study for Breede-**Berg (Michell's Pass) water** transfer scheme
(16/2/2)

Memorandum from the Senior Manager: Water and Sewerage, dated 17 March 2022:

"Purpose

The purpose of this memorandum is to inform the Committee for Technical Services regarding the feasibility study being undertaken by the DWS for the Breede-**Berg (Michell's Pass) Water Transfer S**cheme.

Discussion

The Western Cape Water Supply System (WCWSS) currently supplies water to the City of Cape Town, surrounding urban areas and farmers. This scheme is owned and operated by the DWS and CCT. In order to meet the ever growing water requirements, the Western Cape Reconciliation Strategy Study investigated a range of bulk water supply schemes to augment the WCWSS.

In 2008 the DWS commissioned pre-feasibility level investigations into potential development of six surface water options. This study resulted in two schemes being further investigated to feasibility level. The two schemes were:

- Berg River – Voëlvlei Augmentation scheme (BRVAS), which is currently being implemented by the Trans Caledon Tunnel Authority (TCTA); and
- Breede–Berg (Michell's Pass) Transfer Scheme (BBTS), which is being further investigated by means of a Bridging Study.

The proposed BBTS comprises the diversion of winter water by means of a new diversion weir from the upper Breede River (Michell's Pass) at the same site as that of the current Artois Canal diversion. This water will be transferred with a pipeline to the upper reaches of the Klein Berg River, from where water will be conveyed via the existing Klein Berg Canal into the Voëlvlei Dam.

Two alternative schemes were considered to transfer water while also supplying the environmental water requirements (EWR) in the Breede River:

Alternative A involves the diversion of surplus winter water via the proposed weir on the Upper Breede River at Michell's Pass, into a new gravity pipeline. The pipeline will transfer water into the Blousloot stream, which is a tributary of the Klein Berg River. Summer reserve releases are proposed to be supplied from the Koekedouw Dam at Ceres.

Alternative B is similar to Alternative A, but makes provision for a new storage dam on the Boontjies River, a tributary of the Klein Berg River, which allows for the storage of water for water supply to the Artois Canal irrigators and the summer reserve flows for the Upper Breede River downstream of Michell's Pass diversion site.

Professional service providers (PSP) has been appointed by the DWS to do a bridging study. This study will run from August 2021 and has a contract period of 30 months. Part of this study is a public participation process with all Interested and Affected Parties in the Upper Breede River and will be extended to include parties in the Klein Berg River catchment. The bridging study also aims to thoroughly interrogate all the augmentation options and proposals and unpack these at engagements between stakeholders, DWS and the PSP.

The following documents are attached:

(a) Feasibility Bridging Study for Breede–Berg (Michell's Pass) water transfer scheme (Basic Information Document): Annexure 8.2.5(a).

(b) Feasibility Bridging Study for the proposed Breede–Berg (Michell's Pass) water transfer scheme (Letter from Department Water and Sanitation): Annexure 8.2.5(b)."

The Committee for Technical Services resolved on 14 March 2023 to recommend to the Executive Mayoral Committee and Council:

(i) that Council takes cognisance of the proposed feasibility bridging study.

(ii) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(i) that Council takes cognisance of the proposed feasibility bridging study.

(ii) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

(iii) that the matter in respect of the Feasibility bridging study for the Breede-Berg (Michell's Pass) water transfer scheme, after more information has been obtained, be workshopped by Council.

UNANIMOUSLY RESOLVED

(a) that Council takes cognisance of the proposed feasibility bridging study.

(b) that Witzenberg Municipality is registered as an Interested and Affected Party (IAP).

(c) that the matter in respect of the Feasibility bridging study for Breede-Berg (Michell's Pass) water transfer scheme, after more information has been obtained, be workshopped by Council.

8.2.6 Report re**garding current challenges with N'duli main sewer line and** possible remedial actions with cost
(16/5/3/2)

A memorandum from the Manager: Water and Sewerage, dated 22 April 2022, is attached as annexure 8.2.6.

The Committee for Technical Services resolved on 14 March 2023 to recommend to the Executive Mayoral Committee and Council:

(a) that Council takes notice of the report.

(b) that the below short-, medium- and long-term interventions with the necessary budget be approved:

Short term

- Daily monitoring and cleaning of the line and manholes. Two EPWP workers have been dedicated to this task and to report blockages immediately.
- Cleaning of the sewer lines and manholes with high pressure vacuum and jetting trucks by external service providers every two months.
- Daily monitoring of the whole area and inspections conducted by foremen three times per day for the area.
- 24 hour response to any blockages reported in the area.

Medium term

- Acquisition of a mobile high pressure jetting machine and vehicle, dedicated to the area, as well as dedicated personnel. Provision to be made on the 2022 / 2023 budget. Estimated cost R 1 200 000.00
- Replacement of manhole covers with lockable covers in the area. Estimated cost R350 000.00

Long-term

- Relocate and upgrade existing sewer line (650m) R2 500 000
- Pipe open storm water trench (600mm x 1000mm) R3 882 000
- Screening and sand traps R1 100 000
- Mechanical equipment for screening structure R1 000 000
- Vandal proof cage for screening structure R250 000
- Storage tank underground (retention) R750 000
- Mechanical equipment to empty storage tank R750 000
- Fence off natural pond R120 000

(c) that professional consulting engineers be appointed to do a proper investigation, design and costing for the preferred interventions.

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(a) that Council takes notice of the report.

(b) that the below short-, medium- and long-term interventions with the necessary budget be approved:

Short term

- Daily monitoring and cleaning of the line and manholes. Two EPWP workers have been dedicated to this task and to report blockages immediately.
- Cleaning of the sewer lines and manholes with high pressure vacuum and jetting trucks by external service providers every two months.
- Daily monitoring of the whole area and inspections conducted by foremen three times per day for the area.

8.4.1 Performance, Risk and Audit Committee: Reconsidering appointment of PRAC member (5/14/4)

Report from the Head: Internal Audit, dated 6 February 2023:

"Council unanimously resolved on 29 November 2022:

(a) that appreciation be expressed towards Mr S Redelinghuys for the six years served on the Performance, Risk and Audit Committee and the contributions made.

(b) that the appointment of Mr J George for a further one-year term be approved.

(c) that the following three members be appointed:

(i) Jacobus Johannes Swarts
(ii) Rowan Graham Nicholls
(iii) Jacqueline Lapoorta"

Before the letter to Mr Rowan Graham Nicholls on his appointment to the Performance, Risk and Audit Committee was sent, it was noted that he is a member of more than two local government audit committees. Under National Treasury Circular 65 and the Council-approved Performance, Risk and Audit Committee Charter, this is disallowed.

Mr Nicholls's CV is attached as annexure 8.4.1."

The Executive Mayoral Committee resolved on 27 February 2023 to recommend to Council that Council reconsiders and approves that Mr Nicholls is not appointed and that the Municipal Manager be mandated to advertise for the appointment of a Performance, Risk and Audit Committee member.

UNANIMOUSLY RESOLVED

that Council approves that Mr Nicholls is not appointed and that the Municipal Manager be mandated to advertise for the appointment of a Performance, Risk and Audit Committee member.

EENPARIG BESLUIT

8.4.3 Witzenberg Communication Strategy: 2023 – 2026 (6/2/4)

Memorandum from Manager: Communication and Marketing, dated 2 February 2023:

"1. Purpose

To present the revised Communication Strategy to Council for approval and adoption. The Communication Strategy for 2023 until 2026 is attached as annexure 8.4.3.

2. Discussion

The draft document was revised in collaboration with GCIS and the Western Cape Government's Communication Department. The existing policy is still applicable, with minor changes and updates made to current situation, challenges and communication needs.

The following are highlighted:

- Accounting Officer is the official spokesperson of the municipality;
- Political communications should reside with the Office of the Mayor;
- Strategic communications should reside with the Office of the Municipal Manager; and
- Operational communications should reside with the responsible Director: Corporate Services;
- Turnaround time for official media enquiries received is 48 hours for comment to meet deadline;
- Permission is to be requested from the Accounting Officer for the use of the municipal logo;
- All existing staff to play their part in Communications;
- Unit structure and capacity;
- Adequate budget to roll out initiatives and operations;
- Internal isiXhosa Translator/interpreter appointed;
- Communication methods used to communicate;
- Marketing and branding."

The Executive Mayoral Committee resolved on 27 March 2023 to recommend to Council:

(a) that the revised Communication Strategy for the period 2023 until 2026 be approved and adopted by Council as the communication blue print for all corporate communication needs.

(b) that the matter in respect of the revised Communication Strategy for the period 2023 until 2026 be workshopped by Council.

UNANIMOUSLY RESOLVED

(a) that the revised Communication Strategy for the period 2023 until 2026 be approved and adopted by Council as the communication blue print for all corporate communication needs.

(b) that the matter in respect of the revised Communication Strategy for the period 2023 until 2026 be workshopped by Council.

EENPARIG BESLUIT

(a) dat die hersiene Kommunikasiestrategie vir die tydperk 2023 tot 2026 goedgekeur en aanvaar word deur die Raad as die kommunikasie bloudruk vir alle korporatiewe kommunikasiebehoeftes.

(b) dat die aangeleentheid aangaande die hersiene Kommunikasiestrategie vir die tydperk 2023 tot 2026 tydens 'n werkswinkel deur die Raad bespreek word.

ISIGQIBO SABUCALA

(a) Ukuba ubuciko bonxibelelwano oluhloliweyo kwixesha lonyaka ka2023 ukuya ku2026 buphunyezwe kwaye bupasiswe liBhunga kulungiselelwa imfuno zonxibelelwano olumanyanisiweyo.

(b) Ukuba lomba ophathelene nobuciko bonxibelelwano obuhloliweyo kunyaka ka2023 ukuya ku2026 kwenziwe uCweyo liBhunga.

7.1 Directorate Finance / Direktoraat Finansies

Section 71 Monthly Budget Statement Reports of Directorate Finance: July, August, September, October, November, December 2021, January and February 2022 / Artikel 71 Maandelikse Begrotingsverslaevan die Direktoraat Finansies: Julie, Augustus, September, Oktober, November, Desember 2021, Januarie en Februarie 2022
(9/1/2/2)

The following Section 71 Monthly Budget Statement Reports of the Directorate Finance are attached:
Die volgende Artikel 71 Maandelikse Begrotingsverslae van die Direktoraat Finansies word ingebind:

a)	July / Julie 2021	Annexure / Bylae 7.1(a)
(b)	August / Augustus 2021	Annexure / Bylae 7.1(b)
(c)	September 2021	Annexure / Bylae 7.1(c)
(d)	October / Oktober 2021	Annexure / Bylae 7.1(d)
(e)	November 2021	Annexure / Bylae 7.1(e)
(f)	December / Desember 2021	Annexure / Bylae 7.1(f)
(g)	January / Januarie 2022	Annexure / Bylae 7.1(g)
(h)	February / Februarie 2022	Annexure / Bylae 7.1(h)

The following matters were highlighted:

- that Council workshop the Credit Control aspects in order to address large outstanding debts.
- that the Post Office did not deliver Municipal accounts due to transport problems.
- that clients receiving indigent subsidy do not realise that their application has lapsed resulting in electricity which has been blocked.

RESOLVED

To recommend to the Executive Mayoral Committee and Council:

that the Committee for Corporate and Financial Services takes notice, after consideration, of the content of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for July, August, September, October, November, December 2021, January and February 2022 and same be approved and accepted.

BESLUIT

Om aan die Uitvoerende Burgermeesterskomitee en Raad aan te beveel:

dat die Komitee vir Korporatiewe en Finansiële Dienste kennis neem, na oorweging, van die inhoud van die Artikel 71 Maandelikse Begrotingsverslae van die Direktoraat Finansies vir Julie, Augustus, September, Oktober, November, Desember 2021, Januarie en Februarie 2022, en dat die verslae goedgekeur en aanvaar word.

7.2 Quarterly Budget Statement [Section 52(d)] Report: 1st Quarter 2021/2022 (1 July 2021 to 30 September 2021)
(9/1/2/2)

Item 8.1.4 of the Council meeting, held on 26 January 2022, refers.

The Quarterly Budget Statement [Section 52(d)] Report for the first quarter of 2021/2022 is attached as annexure 7.2.

Council unanimously resolved at the Council meeting, held on 26 January 2022:

(a) that notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the 1st quarter of 2021/2022.

(b) that the Quarterly Budget Statement Report in terms of Section 52(d) for the 1st quarter of 2021/2022 be referred to the Committee for Corporate and Financial Services and the Municipal Public Accounts Committee (MPAC) for consideration and thereafter to Council for approval.

Die Raad het eenparig besluit by die Raadsvergadering, gehou op 26 Januarie 2022:

(a) dat kennis geneem word van die Kwartaallikse Begrotingsverslag ingevolge Artikel 52(d) vir die 1ste kwartaal van 2021/2022.

(b) dat die Kwartaallikse Begrotingsverslag ingevolge Artikel 52(d) vir die 1ste kwartaal van 2021/2022 na die Komitee vir Korporatiewe en Finansiële Dienste en die Munisipale Publieke Rekeninge Komitee verwys word vir oorweging en daarna na die Raad vir goedkeuring.

RESOLVED

To recommend to the Executive Mayoral Committee and Council:

that notice be taken of the Quarterly Budget Statement [Section 52(d)] report of the Department : Finance for the 1st Quarter 2021/2022 (1 July 2021 to 30 September 2021).

BESLUIT

Om aan die Uitvoerende Burgemeesterskomitee en Raad aan te beveel:

dat kennis geneem word van die Kwartaallikse Begrotingsverslag van die Departement: Finansies ingevolge Artikel 52(d) vir die 1ste kwartaal van 2021/2022.

7.3 Quarterly Budget Statement [Section 52(d)] Report: 2nd Quarter 2021/2022 (1 October 2021 to 31 December 2021)
(9/1/2/2)

Item 8.1.5 of the Council meeting, held on 26 January 2022, refers:

The following memorandum, dated 19 January 2022, was received from the Director: Finance:

"The purpose of this memorandum is to submit the Section 52(d) Budget Statement Report for the 2nd quarter of 2021/2022 to Council for information.

The required report in terms of Section 52(d) is attached as annexure 7.3."

Council unanimously resolved at the Council meeting, held on 26 January 2022:

(a) that notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the 2nd quarter of 2021/2022.

(b) that the Quarterly Budget Statement Report in terms of Section 52(d) for the 2nd quarter of 2021/2022 be referred to the Committee for Corporate and Financial Services and the Municipal Public Accounts Committee (MPAC) for consideration and thereafter to Council for approval.

Die Raad het eenparig besluit by die Raadsvergadering, gehou op 26 Januarie 2022:

(a) dat kennis geneem word van die Kwartaallikse Begrotingsverslag ingevolge Artikel 52(d) vir die 2de kwartaal van 2021/2022.

(b) dat die Kwartaallikse Begrotingsverslag ingevolge Artikel 52(d) vir die 2de kwartaal van 2021/2022 na die Komitee vir Korporatiewe en Finansiële Dienste en die Munisipale Publieke Rekeninge Komitee verwys vir oorweging en daarna na die Raad vir goedkeuring.

RESOLVED

To recommend to the Executive Mayoral Committee and Council:

that notice be taken of the Quarterly Budget Statement [Section 52(d)] report of the Department : Finance for the 2nd Quarter 2021/2022 (1 October 2021 to 31 December 2021)

BESLUIT

Om aan die Uitvoerende Burgemeesterskomitee en Raad aan te beveel:

dat kennis geneem word van die Kwartaallikse Begrotingsverslag van die Departement: Finansies ingevolge Artikel 52(d) vir die 2de kwartaal van 2021/2022.

4.1.1 Draft IDP and Budget Process Plan for 2023/2024 (02/02/1)

Pursuant to the above statutory requirements, a Draft IDP and Budget Process Plan for the 2023/2024 cycle is attached as annexure 4.1.1.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the Draft IDP and Budget Process Plan for 2023/2024.

(b) that the Draft IDP and Budget Process Plan for 2023/2024 be published for public comments and inputs.

4.2 Direktoraat Tegniese Dienste / Directorate Technical Services

4.2.1 Small Scale Embedded Generation (SSEG) Policy: Methodology, allowable limit and motivation of renewable tariff (16/3/P)

The following documents are attached:

(a) Memorandum from Senior Manager: Electro-Technical Services, dated 30 November 2021: Annexure 4.2.1(a).

(b) Review and Strategic Input report: Annexure 4.2.1(b).

After a workshop held on 25 July 2022, the following recommendation is tabled to the Executive Mayoral Committee:

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) That Council rescinds Council resolution 8.2.8 "Approval of Energy Plan (Small Scale Embedded Generation – SSEG)" of 31 October 2018.

(b) that Council takes notice of the co-authored inputs and documentation of the Association of Municipal Electrical Undertakings, Western Cape Provincial Government, Cape Town and Green Cape as the nationally accepted standardised policy related to the implementation of Renewable Energy (Small Scale Embedded Generation) within municipalities.

(c) that Council adopts the NRS 097-2-1 (2010) and NRS 097-2-3 (2014) Grid Interconnection of Embedded Generation, Section 1 – Utility Interface, Section 2 – Simplified utility connection criteria for low-voltage connected generators as the basis of its Energy Plan and Small Scale Embedded Generation Policy.

(d) that the supporting documents, including the undermentioned, are accepted as official documentation related to the application processes related to any consumer intending to install Renewable Energy:

(i) Requirements for Embedded Generation
(ii) Contract for Embedded Generation
(iii) Application Form
(iv) Commissioning Form
(v) Decommissioning Form

(e) that any amendments to the relevant NRS standards automatically be included in the Council's Energy Policy.

(f) that any amendment to the Electrical Bylaws as well as the implementation of a RENEWABLE energy tariff will automatically form part of Council's Energy Policy as and when approved by Council.

(g) That the Municipality includes the principle of the RENEWABLE tariff as explained in the report for approval from NERSA in the 2022/2023 NERSA tariff application. This tariff will be additional and mandatory for new SSEG installations and new approvals and that Council considers the phasing in of the tariff on existing approved installations over a five year period.

(h) that Council reserves the right to refuse or limit the installation of Small Scale Embedded Generation plants if it is determined that they are having an onerous technical effect on the Quality of Supply of the Electrical Network of the municipality.

(i) that any Power Users (greater than 100kVA) applying for permission to install Small Scale Embedded Generation plants must supply proof of their facility having an average power factor of 0,85 or better before any application will be considered.

(j) that all existing Small Scale Embedded Generation installations commissioned prior to the approval of this Energy Policy will be required to comply with the policy as amended from time to time, whilst the municipality reserves the right to install suitable bi-directional four quadrant meters to monitor that connection at the consumers cost.

(k) that any meters currently installed and allowed in writing by the municipality to run in reverse, will be expected to comply with these requirements once the SSEG tariff is implemented.

(l) that for future applicants successfully requesting permission to install Small Scale Embedded Generation plants, the costs of installing the required bi-directional four quadrant meters are for the applicants' costs.

(m) that domestic conventional or pre-payment meters are not allowed to run backwards.

(n) for continued participation in the SSEG program customers must always be NET consumers.

(o) that permission to install Small Scale Embedded Generation will automatically lapse after 12 months from date of approval, if the installation process has not been started, unless an arrangement, in writing, has been agreed with the Municipality.

4.2.2 Proposal to allow increased electrical connections without impacting on notified maximum demand
(16/3/9)

A memorandum from the Senior Manager: Electro-Technical Services, dated 18 January 2022, is attached as annexure 4.2.2.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that Council notes the report of the Senior Manager Electro-Technical Services regarding the proposed measures to unlock development and increase electricity income despite the current limitation due to ESKOM not being able to supply additional capacity.

(b) that consumers and developers requiring additional electrical capacity be allowed to apply for an 'out of Munic peak Maximum Demand' if they comply with the undermentioned criteria:

(i) A report from an Electrical Consultant to the Director: Technical Services explaining the concept and methodology of the proposed load reduction during the council's peak periods based on the consumers current allocated MD (Maximum Demand) versus anticipated 'out of season peak MD'

(ii) Confirmation by the Consultant proving that the proposed concept will prevent the exceeding of the consumers current allocated MD during the Councils Peak Demand.

(iii) That the consumer provides monthly data / graphs to the Director: Technical Services proving that they have not exceeded their allocated Maximum Demand during the municipality's 'in season peak demand period'.

(iv) Council's current peak times are currently 1 February to 30 April of every year, from 17:00 to 20:30 on weekdays, with Council reserving the right to adjust the dates and/or times as Council's NMD pattern may change, which change will have to be accommodated by the consumer or developer.

(v) Any proposed Demand Reduction solution must be approved by the Director: Technical Services.

(vi) The costs of the applicant's upgrade from their current allocated capacity (MD) to their requested 'out of season peak capacity (MD)' will be for the applicant's account.

(vii) The costs of the required Consultant's report regarding the applicant's proposal will be for the cost of the applicant.

(viii) These measures will remain in place until ESKOM has sufficiently upgraded their backbone network to such an extent that the Municipality can declare that it has sufficient NMD to supply all new and increased capacity requests.

(ix) Once this is achieved, the consumer's 'out of peak MD' will become that consumer's new MD.

4.2.3 Partnership agreement of city-to-city partnership between Witzenberg (SA) and Essen (Belgium) relating to the VVSG Municipal International Cooperation 2022 to 2026 Multi-Annual Strategic Plan
(10/2/3)

An annexure to the Partnership Agreement is attached as annexure 4.2.3.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the Partnership Agreement of the city-to-city partnership between Witzenberg (South Africa) and Essen (Belgium) relating to the VVSG Municipal International Cooperation 2022 to 2026 Multi-Annual Strategic Plan, subsidised by the Directorate-general for Development Cooperation (DGD), Belgium, be approved.

4.3 Direktoraat Korporatiewe Dienste / Directorate Corporate Services

4.3.1 International relations: Twinning agreement with Essen, Belgium: Approval for Witzenberg delegation to visit Essen (10/2/3)

A copy of the minutes of the meeting between the Mayoral Committees of Essen Gemeente and Witzenberg Municipality is attached as annexure 4.3.1

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that the Executive Mayor (Alderman HJ Smit), Speaker (Councillor EM Sidego), Deputy Executive Mayor (Councillor FE Klazen), Councillor LA Hardnek and the Director: Technical Services (Mr J Barnard) be nominated as the delegation to visit Essen Gemeente, Belgium for the period 30 September 2022 until 7 October 2022.

(b) that the purpose of the invite is to coincide with the celebrations of the 20th anniversary of the Twinning Agreement between Essen and Witzenberg Municipality.

(c) that all the above-mentioned municipal representatives be paid the travel and subsistence allowances in terms of Council's policy.

(d) that the Municipal Manager ensures that in terms of the daily allowances the rand/euro exchange rate the prescriptions of the South African Revenue Services (SARS) be followed.

4.3.2 Request for long term lease agreement for Nduli Pig Farming (Pty) Ltd (7/1/4/1)

Memorandum from Acting Municipal Manager, dated 19 July 2022:

"1. Purpose

To consider a request from Nduli Pig Farming (Pty) Ltd for a long term lease agreement for a portion of land commonly known as farm 368/36 for purposes of pig farming.

2. Deliberation

Council resolved per Council resolution 9.7 of 21 August 2013 to lease a portion of land known as farm 368/36, as per annexure 4.3.2(a), to the Nduli emerging farmers for the purpose of farming with animals. The emerging farmers have over a number of years used this property predominantly for pig farming.

The emerging farmers have, through the PALS Office, established themselves as a private company and are currently operating as the Nduli Pig Farming (Pty) Ltd. The company has applied to the Department of Agriculture Rural Development and Land Reform for funding to assist with cost for the infrastructure development to allow them to conduct the business of piggery on the said premises. A copy of the Department's internal memorandum is attached as annexure 4.3.2(b). The indication is that Rural Development will assist the company subject to inter alia that a long term lease agreement be negotiated with the municipality for a period of between 20 to 30 years.

The Department has also approved the upgrade of a sewer line of the municipality that runs adjacent to the property which create problems for the other farmers in the area. The Department of Environmental Management has given notice to the municipality of the contravention in terms of the Environmental Management Act as a result of the sewerage spills emanating from the area next to the Onder-Swaarmoed sub-divisional road. The infrastructure upgrade for the company will inter alia be for pigsties and fencing. The benefit of the aforesaid upgrade will be that the premises will be safer for road users of the R44 as well as presenting visually neater and acceptable.

3. Financial implication

There will be no financial implications for the municipality.

4. Legal implications

The property has been previously advertised for public comment. The value of the property is not substantial and does not fall within ambit of the asset transfer regulations of 2008.

In terms of Regulation 40 of the Municipal Finance Management Regulations Council may deviate from market related rates when the public interest or the plight of the poor demands otherwise. The shareholders of the company are all from the emerging farmers of Nduli who do not have access to other land."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) That a long term lease agreement of fifteen years be approved in favour of the Nduli Pig Farming (Pty) Ltd for a portion as indicated on the annexure of Farm 368/36.

(b) That an option to renew the lease for a further five years be granted to Nduli Pig Farming (Pty) Ltd.

(c) That the land made available to Nduli Pig Farming (Pty) Ltd is not required for basic service delivery in terms of Section 11 of the Municipal Finance Management Act.

(d) That an annual rental fee of R1 500,00, escalating with 7 % a year, be paid by Nduli Pig Farming (Pty) Ltd to the municipality.

(e) That the Municipal Manager be mandated to sign a long term lease agreement as determined by Council with Nduli Pig Farming (Pty) Ltd.

(f) That Council's intention to enter into a long term lease agreement be advertised to the local community for any input or objection.

4.3.3 **Council's immovable property: Long lease or alienation of Klip River Park Resort, Tulbagh**
(7/1/4/1)

The following report, dated 22 May 2019, was received from the Municipal Manager:

"Purpose

To recommend to Council to consider extending the lease period of Klip River Park from 15 years to 30 years or alienating the property known as Klip River Park together with adjacent land in terms of Council's Supply Chain process.

Background

Council resolved per item 8.1.3 on 28 August 2008:

(i) That Klip River Park and surrounding land be retained as a holiday resort and a recreational area.

(ii) That possible developments to be requested from interested parties for consideration by Council in future.

(iii) That the report of the developers and interested parties be tabled to Council.

A Section 78 investigation as per the Municipal Systems Act of 2000 was then followed to look at the Council resolution with the view of entering into a private public partnership agreement. A report was compiled, which is attached as annexure 4.3.3(a). The report recommended that Council should either alienate the said land or follow a PPP process. During discussions with various stakeholders and National Treasury the option of a PPP was eliminated because of the possible turnover of the project (was being regarded as too small). The item was referred back to Council and it was resolved to follow a Supply Chain process in terms whereof Klip River Park would be leased on a long term period of 30 years.

The Supply Chain process was advertised on two occasions in both the National and Provincial newspapers without any success. An extract from the tender document which was then advertised, is attached as annexure 4.3.3(b). Site meetings during the advertisement process were compulsory and at all the meetings there were community members claiming that Council's process was flawed and that they would create problems for any successful bidder. At the last site meeting there were two company representatives who flew from Johannesburg and whom had shown genuine interest in as a potential lessee. They have, however, not submitted any bids after the said site meetings. Some of the inputs received during the clarification meetings and also from potential interested parties were that the lease period was not long enough and that the capital investment required at the park would not make the park a viable option for the 15 year period.

The area for rental in terms of the said Council resolution is approximately 14.5 ha. A copy of a Google aerial photo is attached as annexure 4.3.3(c).

The green section of Klip River Park is part of Galgeheuwel local nature reserve and cannot be developed whether the land is alienated or being part of a rental agreement. When the lease option was initially considered Council took into account the capital required to upgrade the park. At the time the park had to be re-electrified at a major cost. The swimming pool also required repairs which included a total replacement of the pump system. When the resort was operational it provided the following facilities:

(i) 18 Chalets
(ii) 69 Camping Sites
(iii) 4 Ablution blocks
(iv) Small office
(v) Swimming pool

Although the resort is not in operation there are two security guards guarding the property on a 24-hour basis. The cost of the security is approximately R35 000,00 per month. All the previous staff members were transferred and/or placed to other departments within the municipality. The previous report of 2010 has placed an evaluation of R5.2 million on the resort as well as the adjacent land. The resort forms part of commonage of Tulbagh. The municipal valuer has been requested for an updated valuation of the property in question.

Legal implication

If Council considers approving the long term lease agreement the process must be advertised in the local newspaper and submitted to Provincial and National Treasury for their comments as well. Council already took a decision that the land in question is not required for basic services as per the requirements of Section 14 of the Municipal Finance Management Act of 2003. The value of the land might be such that it will fall within the threshold of a special process that needs to be followed when such asset is alienated. In the latter instance it must also be advertised and Treasury must also be notified for inputs.

Financial implication

Council is not deriving any financial benefit from the property. Council in fact is losing money on the security spent as well as loss of potential income. Resorts are not a core function of Council."

Councillor JP Fredericks requested clarity in respect of the following:

(a) Council resolution 8.1.3 of 28 August 2008 which reads:

"that Klip River Park Resort and surrounding land be retained as a holiday resort and a recreational area."

(b) the outcomes of the IDP meeting that the municipality should advertise for a Public Private Partnership (PPP) development proposals.

The Acting Municipal Manager responded that the PPP will be followed if Council decides to do more at the Klip River Park Resort as was the case previously. Therefore that the wording "surrounding land" be removed and the focus be on the Klip River Park Resort as it is currently.

Also that the lease period of Klip River Park Resort be extended from 15 years to 20 years with an option to extend with another 10 years.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that Council resolution 8.1.3 of 28 August 2008, which reads

"that Klip River Park Resort and surrounding land be retained as a holiday resort and a recreational area"

be rescinded and changed to read:

"that Klip River Park Resort be retained as a holiday resort and a recreational area.

(b) that the lease period of Klip River Park Resort be extended from 15 years to 20 years with an option to extend with a further 10 years on condition the project is a success.

5. EXECUTIVE MAYORAL COMMITTEE-in-COMMITTEE

MINUTES OF THE SPECIAL PERFORMANCE, RISK AND AUDIT COMMITTEE MEETING OF WITZENBERG MUNICIPALITY, HELD VIRTUALLY ON FRIDAY, 26 AUGUST 2022 AT 09:30

PRESENT

Performance, Risk and Audit Committee

Mr J George (Chairperson)
Ms MC Fagan
Mr SA Redelinghuys

Officials

Mr D Nasson (Municipal Manager)
Mr M Mpeluza (Director: Corporate Services)
Mr HJ Kritzinger (Director: Finance)
Mr JH Swanepoel (Manager: Projects and Performance)
Mr W Mars (Manager: Financial Administration)
Ms A Sauls (Accountant: Budget and Assets)
Mr CG Wessels (Manager: Administration)
Ms M Arendse-Smith (Chief Administrative Officer)

1. OPENING AND WELCOME

The Chairperson welcomed everyone present. The Performance, Risk and Audit Committee complimented the Management Team for work well done and especially the preparation of the Annual Performance Report and the Annual Financial Statements.

NOTED

2. CONSIDERATION OF APPLICATIONS FOR LEAVE OF ABSENCE, IF ANY (3/1/2/1)

An apology for absence from the meeting was received from the Head: Internal Audit.

RESOLVED

that notice be taken of the apology for absence from the meeting, received from the Head: Internal Audit, and same be accepted.

3. CONFLICT OF INTEREST DECLARATION

The Chairperson requested PRAC members and participants of the meeting to declare on record any conflict of interest that may arise at this meeting and remove themselves from any proceedings, in relation to that matter, giving rise to that conflict.

The Conflict of interest declaration was verbally declared in the first person.

NOTED

4. CONFIDENTIALITY DECLARATION AND ATTENDANCE REGISTER

The Chairperson informed PRAC members and participants of the meeting that by confirming attendance by voice the attendee declares that, he/she shall maintain strict confidentiality in respect of any information of a confidential nature to which he/she may become privy at this meeting of PRAC, and shall only disclose such information as may become necessary or required for the proper performance of his/her duties and functions.

The Confidentiality declaration was verbally declared in the first person and attendance was confirmed by signing in virtually.

NOTED

5. PERFORMANCE MANAGEMENT

5.1 Draft Annual Performance Report: 2021/2022 (9/1/1)

The Draft Annual Performance Report for 2021/2022, as included in the 2021/2022 Annual Report as Chapter 3 and 4, is attached as annexure 5.1.

The Manager: Projects and Performance made a presentation. A detailed report in terms of spelling errors, language, sentence construction, punctuation etc. was submitted by Ms Fagan on behalf of the Performance, Risk and Audit Committee for purposes of correction and fine tuning. The Manager: Projects and Performance highlighted the following:

Strategic Performance (Top layer) SDBIP

- Improvement in expenditure.
- Electricity losses basically the same as previously.
- Revenue collection about 93 % to 95 % .
- Due to COVID 19 the municipality took a huge downward spiral. Rapid increase thereafter, but not yet fully satisfactory.
- Witzenberg Municipality selected as a pilot for the Vredebes Housing Project.

- Last fire drill during early 2022. The Performance, Risk and Audit Committee recommended that a fire drill be held again.
- The Performance, Risk and Audit Committee requested that the Director: Corporate Services reports at the next meeting on the total of work related injuries and what kind of First Aiders.
- The Municipal Manager to report to the Performance, Risk and Audit Committee at the next meeting in respect of the cost of IT downtime.
- The Performance, Risk and Audit Committee was satisfied after clarification regarding the Employment Equity levels.

RESOLVED

(a) that the Performance, Risk and Audit Committee duly noted the inputs on the Draft Annual Performance Report for 2021/2022 and accepted same.

(b) that the Manager: Projects and Performance attends to the various spelling errors, language, sentence construction etc. as indicated by the Performance, Risk and Audit Committee and corrects same.

(c) that a fire drill exercise be held at the municipality.

(d) that the Director: Corporate Services reports at the next meeting on the total of work related injuries and the status of First Aiders.

(d) that the Municipal Manager reports at the next meeting on IT downtime and the cost thereof.

6. AUDIT AND FINANCIAL MANAGEMENT

6.1 Review of annual financial statements for the year ended 30 June 2022 (5/3/1)

Memo from Director: Finance, dated 19 August 2022:

"1. Purpose

The purpose of this report is to submit the annual financial statements to PRAC for review.

2. Legal framework

In terms of Section 126(1)(a) of the Municipal Financial Management Act (Act 56 of 2003) the Annual Financial Statements must be submitted to AGSA before 31 August every year.

In terms of Section 166(2)(b) of the Municipal Financial Management Act (Act 56 of 2003) the Audit Committee must review the annual financial statements to provide Council with an authoritative and credible view of the financial position of the municipality.

3. Discussion

The financial statements for the year ended 30 June 2022 are attached as annexure 6.1."

The Director: Finance submitted and discussed the financial statements for the year ended 30 June 2022. The following matters were highlighted:

- The Performance, Risk and Audit Committee enquired about the absence of an Executive Mayor and Speaker for the period 9 November 2021 until 21 November 2021 and was satisfied with the clarification.
- The Performance, Risk and Audit Committee enquired with regard to the acting of a Municipal Manager for the period 31 May 2021 until 10 August 2021 and was satisfied with the clarification.
- The Performance, Risk and Audit Committee requested that the matter about an acting Municipal Manager be updated in the financial statement.
- The Performance, Risk and Audit Committee enquired in respect of the budget on interest and accepted the answer.
- The Performance Risk and Audit Committee declared satisfaction with the clarification in respect of the amounts for carrying values of disposals.
- The Performance, Risk and Audit Committee requested more disclosure in respect of "rental of investment property".
- The Performance, Risk and Audit Committee enquired and accepted the answer in respect of who had evaluated the performance bonuses of the Municipal Manager and Directors.
- The Municipal Manager confirmed that the insurance company will cover claims against the municipality.
- The Performance, Risk and Audit Committee requested the Chief Financial Officer to re-look the municipal contingency liability.

RESOLVED

that the Performance, Risk and Audit Committee considered the Annual Financial Statements for the year ended 30 June 2022 and that Management will take all inputs into consideration before submitting the documentation to the AGSA.

7. NEXT MEETING

The next meeting of the Performance, Risk and Audit Committee will be held virtually (MS Teams) on Friday, 9 September 2022 at 09:30.

NOTED

8. ADJOURNMENT

The meeting adjourned at 12:10.

Approved on _____ with / without amendments.

_____
J GEORGE
CHAIRPERSON

MJ Prins

that notice be taken of the PRAC Charter with effect from 1 July 2022 and, after consideration, same be approved.

9.7 Quarterly Budget Statement [Section 52(d)] Report: 4th Quarter 2021/2022 (1 April 2022 to 30 June 2022)
(9/1/1 & 9/1/2/2)

The Quarterly Budget Statement [Section 52(d)] Report for the Fourth Quarter of 2021/2022 is attached as annexure 9.7.

Council unanimously resolved on 24 August 2022

(a) that notice be taken of the Quarterly Budget Statement [Section 52(d)] Report for the Fourth Quarter of 2021/2022.

(b) that the report supra (a) be referred to the Performance, Risk and Audit Committee as well as the Municipal Public Accounts Committee for their recommendations to Council.

RESOLVED

That the Performance, Risk and Audit Committee recommends to Council:

that notice be taken of the Quarterly Budget Statement [Section 52(d)] Report for the Fourth Quarter of 2021/2022 and, after consideration, same be accepted.

9.8 Witzenberg Risk-based Audit Plan (RBAP): July 2022 until June 2025 (5/14/2)

The Witzenberg Risk-based Audit Plan for July 2022 until June 2025 is attached as annexure 9.8.

The following recommendation was tabled to the Performance, Risk and Audit Committee:

(a) For consideration to take notice or to advise Council and/or Management in terms of Section 166 of the Municipal Finance Management Act.

(b) that the Witzenberg Risk-based Audit Plan (RBAP) for July 2022 until June 2025 be approved.

RESOLVED

that the matter in respect of the Witzenberg Risk-based Audit Plan (RBAP) for July 2022 until June 2025 be held in abeyance until the next meeting for further discussions.

9.9 Internal Audit Report: Compliance with Division of Revenue Act (DORA): 2021/2022
(5/14/2)

The Internal Audit Report on Compliance with the Division of Revenue Act (DORA) for 2021/2022, dated July 2022, is attached as annexure 9.9.

The following recommendation was tabled to the Performance, Risk and Audit Committee:

(a) For consideration to take notice or to advise Council and/or Management in terms of Section 166 of the Municipal Finance Management Act.

(b) that the Internal Audit Report on the Compliance with Division of Revenue Act (DORA) for 2021/2022 and the recommendation of the Performance, Risk and Audit Committee be tabled to the Municipal Public Accounts Committee for notice.

RESOLVED

that the Internal Audit Report on the Compliance with Division of Revenue Act (DORA) for 2021/2022 be held in abeyance until the next meeting.

7. RESERVED POWERS / GERESERVEERDE BEVOEGDHEDE/AMAGUNYA

7.1 Lease agreement: Zanokhanyo Crèche: Tulbagh (7/1/4/1)

Memorandum from Acting Manager: Socio-Economic Development, dated 13 July 2022:

"Purpose

To request Council's approval for renewal of the lease agreement with the Governance Body for Zanokhanyo Crèche in Chris Hani Tulbagh, situated on a portion of erf 389, Tulbagh.

Background and deliberation

The crèche is a result of a twinning agreement with the town of Essen, Belgium and Witzenberg Municipality. The crèche was officially opened on 3 October 2009. The Department Social Development requested Grass Roots, an NGO (Non-governmental organisation), to assist the Crèche Committee with training in handling the 76 children in the program on a daily basis.

The crèche is a registered Non-profit organisation and receives a subsidy from Department Social Development. The crèche is registered for 80 children between the ages of six months and five years. Currently they have 80 children attending the facility and a waiting list of more than 100 children. The crèche follows a day program approved by the Department and comprises of four classrooms, a bathroom, office and kitchen. The crèche is functioning well and is managed by a governing body represented by parents from the community, which seems to be managed well. The personnel consist of a principal, four educators, and a cook.

Witzenberg Municipality entered into a lease agreement with the governance body of Zanokhanyo Crèche which expired on 30 August 2022.

Community value

The children from Chris Hani have the opportunity to be exposed to early childhood development in a facility where vulnerable children are safe and protected.

Sustainability

The Department Social Development will ensure the sustainability of the daily operations.

Legislation

Renewal of the lease agreement for a period of three years.

Financial implication

Fair market value is not applicable due to the economic and community value that are received in exchange for the lease of the asset. Council must determine the minimum yearly rental amount, also taking into consideration that the maintenance and repairs of this building are for the account of the Lessee."

RESOLVED

To recommend to the Executive Mayoral Committee and Council to consider the following:

(i) that Council enter into a further lease agreement with the governance body of Zanokhanyo Crèche for a three-year period for the purposes of operating a crèche.

(ii) that Council consider granting Zanokhanyo Crèche the option for renewal for a further three years after the new lease agreement has lapsed, on the discretion of the municipality.

(iii) that Council determine the minimum yearly rental amount.

(iv) that the property that will be leased, is not required for the provision of a minimum level of basic services. [MFMA Section 14.2(a)].

(v) that the Zanokhanyo Crèche is liable to pay for municipal services and that they are responsible to maintain the building;

(vi) that Zanokhanyo Crèche is responsible for own security measures such as alarms, guards, burglar bars etc.

(vii) that the building will stay the property of the municipality after the lease agreement has expired and/or is cancelled.

(viii) that the Municipal Manager be authorised to sign the lease agreement on behalf of the Council.

ISIGQIBO

(i) Ukuba iBhunga lenze isivumelwano neBhodi yoLawulo lweZanokhanyo crech lweminyaka emithathu ukuze bakwazi ukusebenza.

(ii) Ukuba ibhunga ligqale ukunika iZanokhanyo crech ithuba lokuqhasha iminyaka emithathu emveni kokuba isivumelwano sokuqala sithe saphelelwa.

(iii) Ukuba iBhunga lithathe isigqibo malunga neNtlawulo yarhoqo ngonyaka

(iv) Ukuba lendawo iqashisayo ingahambisani noMthetho we(MFMA) weCandelo 14.2(a)

(v) Ukuba iZanokhanyo inoxanduva lokubanonogada,i(alarm) amadindala kunye neentsimbi zokhuselo njalonjalo.

(vi) Ukuba iZanokhanyo iyakubanoxanduva lokukhusela nokunonophela isakhiwo.

(vii) Ukuba esisakhiwo siyakuhlala isesikaMasipala dekuphele isivumelwano okanye sirhoxiswe.

(viii) Ukuba Umlawuli-Masipala agunyaziswe ukuba atyikitye isivumelwano emele iBhunga.

7.2 Renewal of lease agreement: Vrolike Vinkies Enrichment and Development Centre, Ceres (7/1/4/1)

Memorandum from Acting Manager: Socio-Economic Development, dated 28 July 2022:

"Purpose

To request Council's approval for renewal of the lease agreement with Vrolike Vinkies Enrichment and Development Centre situated on erf 2019, Ceres also known as The Island Holiday Resort.

Background and deliberation

The crèche started in 2001. The crèche is a registered Non-profit organisation and receives a subsidy from Department Social Development. The crèche is registered for 98 children between the ages of six months and six years for the ECD Centre and for 41 children with special needs from ages three to sixteen. Children from Bella Vista, Nduli, Hamlet, Ceres and surrounding farms are enrolled at the crèche. They follow a day program approved by the Department. The crèche is functioning well and is managed by a governing body, represented by parents from the community. The governing body meets bi-monthly. The crèche seems to be managed well. The personnel consist of a CEO, manager for ECD, assistant manager for ECD, supervisor for disabilities, program implementer, six ECD practitioners, four disability carers, one cook, five general workers and a driver.

In August 2015 the Council granted the usage of the extra building previously used as a café to be utilised as a unit for children with special needs. Council also granted permission for the erection of two Nutech buildings to accommodate more children with special needs. Vrolike Vinkies received funding from the Lotto and Breadline for this project. This unit started with nine children, but currently accommodates 41 children from all towns in die Witzenberg area. The disability of the children includes cerebral, Down syndrome, epilepsy, blindness, intellectual and other disabilities. The children are supported by regular input from the physiotherapist and occupational therapist from Department Health. This is the only facility in the Witzenberg municipal area that includes children with special needs in the mainstream.

The practitioners receive training to stimulate the children with suitable exercise. Subsidy is received from the Department of Health. The Department Education is also involved with screening and placing of children. Currently they have a waiting list.

Witzenberg Municipality currently has a valid lease agreement with Vrolike Vinkies, but it expires on 31 August 2022. . Rental and services are paid up to date and the current rental amount is R876.04 per year.

Community value

Vrolike Vinkies is currently the only facility accommodating children with special needs in the Witzenberg area. Children from all areas have the opportunity to be exposed to early childhood development in a facility where vulnerable children are safe and protected.

Sustainability

Department Social Development, Department of Education and Department Health will ensure the sustainability of the daily operations.

Legislation

A lease agreement must be entered into."

RESOLVED

To recommend to the Executive Mayoral Committee and Council to consider the following:

(a) that Council consider the lease of Erf 2019 to Vrolike Vinkies Enrichment and Development Centre for a period of two (2) years.

(b) that Ms Andeline Coetzee (CEO) Chief Executive Officer of Vrolike Vinkies Enrichment and Development Centre be invited to the Committee for Community Development to make a presentation in respect of the financial sustainability of the Crèche at the next committee meeting.

(c) that the yearly rental amount be determined.

(d) that notice be taken that the property that will be leased, is not required for the provision of a minimum level of basic services in terms of Section 14.2(a) of the Municipal Finance Management Act.

(e) that Vrolike Vinkies Crèche is liable to pay for municipal services and that they are responsible to maintain the building.

(f) that Vrolike Vinkies Crèche is responsible for own security measures, such as alarms, guards, burglar bars etc.

(g) that the building will stay the property of the municipality after the lease agreement has expired and/or is cancelled.

(h) that the Municipal Manager be authorised to sign the lease agreement on behalf of the Council.

ISIGQIBO

Ukwenza isiphakamiso esiya kwiKomiti kaSodolophu neBhunga ukuba lithathele ingqalelo oku kulandelayo:

(a) Ukuba iBhunga ligqale isivumelwano iZiko leVrolike Vinkies enrichment) seminyaka emibini.UNkosk Andeline Coetzee oliGosa eliyiNtloko lesiGqeba soLawulo leZiko leVrolike Vinkies enrichment ukuba limenywe entlanganiswe elandelayayo ukuze lenze ulwandlalontetho ngokuphathelene nezeMali zaleCrech.

(b) Ukuba intlawulo yonyaka idakancwe liBhunga.

(c) Ukuba kugqalwe indlela yokuthengiswa engahambelaniyo nomthetho we(MFAM) ngokweCandelo 14.2(a)

(d) Ukuba iVrolik Vinkies enrichment inoxanduva lokuhlawula iinkonzo zikaMasipala nokunonotshelwa kwesakhiwo.

(e) Ukuba iZanokhanyo iyakubanoxanduva lokhuseleko kunye nokukhuselwa kwesakhiwo.
(f) Ukuba esisakhiwo siyakuhlala isesikaMasipala emveni kokuphelelwa kwesivumelwano okanye sarhoxiswa.

(g) Ukuba Umlawuli-Masipala agunyaziswe ukuba atyikitye isivumelwano emele iBhunga.

(9/1/1 & 5/1/5/14)

Item 8.1.6 of the Council meeting held on 26 January 2022 refers.

The following memorandum, dated 19 January 2022, was received from the Director: Finance:

"Purpose

The purpose of this report is to submit the 2021/2022 Section 72 Mid-year Budget and Performance Assessment Report for the period 1 July 2021 to 31 December 2021 to Council, for information.

Legislature framework

In terms of Section 72 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003):

(1) The accounting officer of a municipality must by 25 January of each year –

(a) Assess the performance of the municipality during the first half of the financial year.

(b) Submit the report to the Mayor, National Treasury and Provincial Treasury.

The mayor must, in terms of Section 54(1)(f) of the act submit the report to the Council by 31 January of each year.

Discussion

The Mid-year report for the 2021/2022 financial year is attached as annexure 7.2."

The Executive Mayoral Committee resolved on 24 January 2022 to recommend to Council:

(a) that notice be taken of the Mid-year Budget Statement and Performance Assessment Report for the period 1 July 2021 until 31 December 2021.

(b) that Council refers the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2021 until 31 December 2021 to the Committee for Corporate and Financial Services and the Municipal Public Accounts Committee (MPAC) for consideration and thereafter to Council for approval.

Council unanimously resolved on 26 January 2022:

(a) that notice be taken of the Mid-year Budget Statement and Performance Assessment Report for the period 1 July 2021 until 31 December 2021.

(b) that Council refers the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2021 until 31 December 2021 to the Committee for Corporate and Financial Services and the Municipal Public Accounts Committee (MPAC) for consideration and thereafter to Council for approval.

A committee member raised concerns regarding the finances of the municipality and prooposed th plans and strategies be put inplace to strenghten the municipalities income.

The Chairperson further proposed that alll 23 Councillors consider joining in on the concept o going from door to door to encourage citizens apply for the indigent allowance. Possible solutions must also be considered and enacted with regard to illegal immgrants based on the negative impact it has on the income of the municipality.

RESOLVED

that the Committee for Corporate and Financial Services recommends to the Executive Mayoral Committee and Council:

(a) that a Credit Control Strategy be workshopped by Council.

(b) that attention be given to the streaming in of illegal immigrants for possible solutions to curb the influx of illegal immigrants within the Witzenberg area.

BESLUIT

dat die Komitee vir Korporatiewe en Finansiële Dienste aan die Uitvoerende Burgemeesterskomitee en Raad aanbeveel:

(a) dat ´n Krediet Beheer Strategie deur die Raad gewerkswinkel word.

(b) that the item be placed on outstanding matters until feedback is obtained from Eskom	Manager: Legal Services	16 February 2023

6.1.1: Request to purchase portion of erf 414, Wolseley

The Municipal Manager indicated that the public must first express an opinion with regards to the closure of the open space and if there are no objections, a Public Participation Process will be followed and thereafter the item will be brought back to the committee.

6.1.2 Council's immovable property: Request for lease of land: Portion erf 1002, Ceres (Behind Dennebos): Aquaculture and rabbits

The Municipal Manager informed the meeting that the applicant in the matter has passed on, and that no other interested parties came forward to continue with the application.

6.1.3 Council's immovable property: Request to purchase erf 935, Wolseley

The Municipal Manager informed the meeting that the Ward Councillor, Councillor P Daniels, has no objection to the purchase of erf 935, Wolseley and that a Public Participation Process will commence.

6.1.4 Council's immovable property: Request to purchase erf 3607, Bella Vista, Ceres

An indication was given that engagements were held with the developers, who in turn are engaging with regards to the aspect of electricity supply.

RESOLVED

6.1.1 Request to purchase portion of erf 414, Wolseley

that the matter regarding the Request to purchase portion of erf 414, Wolseley be removed from the outstanding matters.

6.1.2 Council's immovable property: Request for lease of land: Portion erf 1002, Ceres (Behind Dennebos): Aquaculture and rabbits

(a) that the matter relating to Council's immovable property: Request for lease of land: Portion erf 1002, Ceres (Behind Dennebos): Aquaculture and rabbits be removed from the outstanding matters.

(b) that the interested parties engage with the Manager: Legal Services and thereafter the item be tabled at the Committee for Corporate and Financial Services.

6.1.3 Council's immovable property: Request to purchase erf 935, Wolseley

to recommend to the Executive Mayoral Committee and Council:

(a) that the municipal property located at erf 935, Wolseley, be alienated in favour of Wolfpack.

(b) that in terms of Section 14.2 of the Municipal Finance Management Act (56 of 2003), erf 935, Wolseley is not required for the provision of minimum level of basic services.

(c) that in terms of Section 14.2 of the Municipal Finance Management Act (56 of 2003), erf 935, Wolseley be sold at a market related price.

.

(d) that the potential sale be advertised in the local newspaper for public comment and / or any objections.

(e) that the Municipal Manager be mandated to sign all documentation to effect the transfer of the property to Wolfpack.

(f) that a Public Participation Process be followed and the matter then be tabled again before the Council.

6.1.4 Council's immovable property: Request to purchase erf 3607, Bella Vista, Ceres

that the matter in respect of Council's immovable property: Request to purchase erf 3607, Bella Vista, Ceres be held in abeyance until the next Committee meeting.

BESLUIT

MINUTES OF THE EXECUTIVE MAYORAL COMMITTEE MEETING OF WITZENBERG MUNICIPALITY, HELD IN THE TOWN HALL, VOORTREKKER STREET, CERES ON MONDAY, 28 NOVEMBER 2022 AT 08:30

PRESENT

Executive Mayoral Committee

Alderman HJ Smit (Executive Mayor)
Alderman K Adams
Alderman BC Klaasen
Alderman JJ Visagie
Councillor JP Fredericks

Councillors (ex officio)

Councillor EM Sidego (Speaker)
Councillor L Hardnek (Chairperson: MPAC)

Officials

Mr D Nasson (Municipal Manager)
Mr HJ Kritzinger (Director: Finance)
Mr J Barnard (Director: Technical Services)
Mr M Mpeluza (Director: Corporate Services)
Mr A Hofmeester (Manager: IDP)
Ms M Arendse-Smith (Chief Administrative Officer)
Mr C Titus (Committee Clerk)
Mr M Njokweni (Interpreter)

Other attendees

Mr J Conradie (Ceres Business Initiative)

1. OPENING AND WELCOME / OPENING EN VERWELKOMING

The Executive Mayor welcomed everyone present and requested Councillor L Hardnek to open the meeting with prayer.

NOTED

2. CONSIDERATION OF APPLICATION FOR LEAVE OF ABSENCE, IF ANY
AANSOEK OM VERLOF TOT AFWESIGHEID, INDIEN ENIGE
(3/1/2/1)

An application for leave of absence from the meeting was received from the Deputy Executive Mayor, Councillor F Klazen.

RESOLVED

that the application for leave of absence from the meeting, received from Councillor F Klazen, be approved and accepted.

BESLUIT

dat die aansoek om verlof tot afwesigheid van die vergadering, ontvang vanaf raadslid F Klazen, goedgekeur en aanvaar word.

3. MINUTES / NOTULES

3.1 Corrections to the minutes (3/1/2/3)

Councillor J Fredericks indicated that item 7.4.2 be amended to include and note that the Freedom Front Plus was not part of the decision to appoint an independent investigator in respect of the matter.

Alderman BC Klaasen noted that point (c) which reads "that during discussion of the matter by Council, Alderman B Klaasen be excused from the deliberations" be removed as it was requested by Alderman K Adams, but overruled by the Chairperson.

Furthermore, that Alderman Klaasen requested that an independent committee be appointed to investigate the matter and that the investigation be extended to include all the other Mayoral chains of the Witzenberg Municipality.

The Executive Mayoral Committee did not resolve on the matter and accepted the status quo of Alderman BC Klaasen staying in the meeting.

NOTED

3.2 Approval of minutes / Goedkeuring van notules (3/1/2/3)

The minutes of the Executive Mayoral Committee meeting, held on 24 October 2022, are attached as annexure 3.2.

RESOLVED

that the minutes of the Executive Mayoral Committee meeting held on 24 October 2022, be approved and signed by the Executive Mayor.

BESLUIT

dat die notule van die Uitvoerende Burgemeesterskomitee vergadering gehou op 24 Oktober 2022, goedgekeur en deur die Uitvoerende Burgemeester onderteken word.

7.1 Direktoraat Finansies / Directorate Finance

7.1.1 Quarterly Budget Statement [Section 52(d)] Report: 1st Quarter 2022/2023 (1 July 2022 to 30 September 2022)
Kwartaallikse Begrotingsverslag ingevolge Artikel 52(d): 1ste Kwartaal 2022/2023 (1 Julie 2022 tot 30 September 2022)
(9/1/2/2)

The Quarterly Budget Statement [Section 52(d)] Report for the first quarter of 2022/2023 is attached as annexure 7.1.1.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the 1st quarter of 2022/2023 and the report be referred to the Performance, Risk and Audit Committee as well as the Municipal Public Accounts Committee for any recommendations to Council.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

dat kennis geneem word van die Kwartaallikse Begrotingsverslag ingevolge Artikel 52(d) vir die 1ste kwartaal van 2022/2023 en die verslag na die Prestasie-, Risiko- en Ouditkomitee sowel as die Munisipale Publieke Rekeningekomitee verwys word vir enige aanbevelings aan die Raad.

7.1.2 Reconnection of electricity over the festive period
(5/12/1/R)

Purpose

To consider the reconnection of all electricity consumers over the festive period from 22 December 2022 until 4 January 2023.

Deliberation

It has become customary for Council to reconnect the electricity supply of defaulters over the festive period. This is in the spirit of goodwill and also to ensure that all households enjoy the festive season. In the past Council has drawn a distinction between the prepaid and the conventional consumers.

In terms of the conventional consumers they must pay a deposit of R500-00 because the electricity is supplied in advance. If the deposit is not levied Council will incur a loss.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that all residents have access to electricity and that no credit controls be implemented for the period 22 December 2022 until 4 January 2023.

(b) that conventional consumers pay a deposit of R500 as their electricity is supplied in advance.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

(a) dat alle inwoners toegang tot elektrisiteit het en dat daar nie kredietbeheermaatreëls toegepas word vir die tydperk 22 Desember 2022 tot 4 Januarie 2023 nie.

(b) dat konvensionele verbruikers 'n deposito van R500 betaal, aangesien hulle elektrisiteit vooruit verskaf word.

7.1.3 Section 71 Monthly Budget Statement Reports of the Directorate Finance: November, December 2021, January, February, March, April and May 2022
(9/1/2/2)

The following Section 71 Monthly Budget Statement Reports of the Directorate Finance are attached:

(a) March 2022: Annexure 7.1.3(a)
(b) April 2022: Annexure 7.1.3(b)
(c) May 2022: Annexure 7.1.3(c)
(d) July 2022: Annexure 7.1.3(d)
(e) August 2022: Annexure 7.1.3(e)

Extract from minutes of Performance, Risk and Audit Committee meeting, held on 24 June 2022:

"The Director: Finance tabled the Section 71 Monthly Budget Statement Reports for November 2021 until May 2022. The Performance, Risk and Audit Committee decided to focus on and discuss the May 2022 report. The following matters were highlighted:

- The Performance, Risk and Audit Committee expressed concerns that the capital expenditure budget will not reach target due to staff problems at the Van Breda Bridge and the vandalism and ESKOM problems at the Vredebes Housing Project.

- At the end of May 2022 R162 million was in the municipal bank account without any investments.
- The cost coverage ratio at the end of May 2022 was 2,9 months.
- The Performance Risk and Audit Committee considered the writing off of long outstanding debt.
- The Performance, Risk and Audit Committee recommended that the Municipal Public Accounts Committee advises Council to hold a workshop to discuss debt collection."

The Performance, Risk and Audit Committee resolved on 24 June 2022 to recommend to Council:

(a) that notice be taken of the Section 71 Monthly Budget Statement Reports for November and December 2021 and January, February, March, April and May 2022.

(b) that Council considers holding a workshop meeting to discuss the writing off of long outstanding debt.

(c) that the Municipal Public Accounts Committee considers to advise Council to hold a workshop to discuss debt collection.

The Committee for Corporate and Financial Services resolved on 20 October 2022:

(a) that the Section 71 Monthly Budget Statement Report of the Directorate Finance for June 2022 be held in abeyance as the report was listed incorrectly in the item.

(b) that the Committee for Corporate and Financial Services recommends to the Executive Mayoral Committee and Council:

that the Committee for Corporate and Financial Services takes notice, after consideration, of the content of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for March, April, May, July and August 2022 and same be approved and accepted.

Council resolved on 30 May 2022 that notice be taken of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for September, October, November and December 2021 as well as January and February 2022 and, after consideration, same be approved and accepted.

Alderman BC Klaasen requested clarity regarding the budget of the Van Breda Bridge and the Vredebes project.

The Municipal Manager indicated that there were technical problems with the Van Breda Bridge which required more testing, resulting in additional costs, but that it is on course now. The Vredebes project had suffered over time due to vandalism.

Alderman Klaasen enquired whether local contractors were appointed, after which the Municipal Manager indicated that it will be confirmed. It was also noted that when the top structures at Vredebes are built, funding will be applied for.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken that the Section 71 Monthly Budget Statement Reports of the Directorate Finance for September, October, November and December 2021 as well as January and February 2022 have already been tabled to and accepted by Council on 30 May 2022.

(b) that notice be taken of the Section 71 Monthly Budget Statement Reports of the Directorate Finance for March, April, May, July and August 2022 and, after consideration, same be approved.

(c) that a workshop meeting to discuss the writing off of long outstanding debt be considered.

7.1.4 Mid-year Budget Statement and Performance Assessment (Section 72) Report 2021/2022: 1 July 2021 until 31 December 2021 (9/1/1 & 5/1/5/14)

The following memorandum, dated 19 January 2022, was received from the Director: Finance:

"Purpose

The purpose of this report is to submit the 2021/2022 Section 72 Mid-year Budget and Performance Assessment Report for the period 1 July 2021 to 31 December 2021 to Council, for information.

Legislature framework

In terms of Section 72 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003):

(1) The accounting officer of a municipality must by 25 January of each year –

(a) Assess the performance of the municipality during the first half of the financial year.

(b) Submit the report to the Mayor, National Treasury and Provincial Treasury.

The mayor must, in terms of Section 54(1)(f) of the act submit the report to the Council by 31 January of each year.

Discussion

The Mid-year report for the 2021/2022 financial year is attached as annexure 7.1.4."

The Executive Mayoral Committee resolved on 24 January 2022 to recommend to Council:

(a) that notice be taken of the Mid-year Budget Statement and Performance Assessment Report for the period 1 July 2021 until 31 December 2021.

(b) that Council refers the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2021 until 31 December 2021 to the Committee for Corporate and Financial Services and the Municipal Public Accounts Committee (MPAC) for consideration and thereafter to Council for approval.

Council unanimously resolved on 26 January 2022:

(a) that notice be taken of the Mid-year Budget Statement and Performance Assessment Report for the period 1 July 2021 until 31 December 2021.

(b) that Council refers the Mid-year Budget Statement and Performance Assessment (Section 72) Report for the period 1 July 2021 until 31 December 2021 to the Committee for Corporate and Financial Services and the Municipal Public Accounts Committee (MPAC) for consideration and thereafter to Council for approval.

Extract from minutes of Committee for Corporate and Financial Services meeting, held on 20 October 2022:

"A committee member raised concerns regarding the finances of the municipality and proposed that plans and strategies be put in place to strengthen the municipality's income.

The Chairperson further proposed that all 23 Councillors consider joining in on the concept of going from door to door to encourage citizens to apply for the indigent allowance. Possible solutions must also be considered and enacted with regard to illegal immigrants based on the negative impact it has on the income of the municipality."

The Committee for Corporate and Financial Services resolved on 20 October 2022 to recommend to the Executive Mayoral Committee and Council:

(a) that a Credit Control Strategy be workshopped by Council.

(b) that attention be given to the streaming in of illegal immigrants for possible solutions to curb the influx of illegal immigrants within the Witzenberg area.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the Mid-year Budget Statement and Performance Assessment Report for the period 1 July 2021 until 31 December 2021, after consideration, be approved subject to:

(i) that a Credit Control Strategy be workshopped by Council.

(ii) that attention be given to the streaming in of illegal immigrants for possible solutions to curb the influx of illegal immigrants within the Witzenberg area.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

dat die Halfjaarbegrotingsverklaring en Prestasiebeoordelingsverslag vir die tydperk 1 Julie 2021 tot 31 Desember 2021, na oorweging, goedgekeur word onderhewig aan:

(i) dat 'n Kredietbeheerstrategie deur die Raad op 'n werkswinkel bespreek word.

(ii) dat aandag gegee word aan die instroming van onwettige immigrante vir moontlike oplossings om die instroming van onwettige immigrante binne die Witzenberg-omgewing te bekamp.

7.1.5 Supply Chain Management: Paragraph 7(4) Quarterly Report ending 30 June 2022: Implementation of Supply Chain Management Policy (9/1/2/2)

A memorandum from the Manager: Supply Chain, dated 6 July 2022, is attached as annexure 7.1.5.

Extract from the minutes of the Committee for Corporate and Financial Services meeting, held on 20 October 2022:

"A committee member enquired about the status of the security tender.

The Municipal Manager informed the meeting that after much consideration and adherence to legislative compliance the tender had been finalised and should be in effect from 1 November 2022."

The Committee for Corporate and Financial Services resolved on 20 October 2022 to recommend to the Executive Mayoral Committee and Council:

(a) that notice be taken of the Supply Chain Management Paragraph 7(4) Quarterly Report ending 30 June 2022.

(b) that the report supra (a) be made available to the public in terms of Section 21A of the Municipal systems Act (Act no. 32 of 2000) after it has been tabled to Council.

RESOLVED

that the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the Supply Chain Management Paragraph 7(4) Quarterly Report ending 30 June 2022.

(b) that the report supra (a) be made available to the public in terms of Section 21A of the Municipal systems Act (Act no. 32 of 2000) after it has been tabled to Council.

7.3.1 Lease agreement: Zanokhanyo Crèche: Tulbagh (7/1/4/1)

Memorandum from Acting Manager: Socio-Economic Development, dated 13 July 2022:

"Purpose

To request Council's approval for renewal of the lease agreement with the Governance Body for Zanokhanyo Crèche in Chris Hani Tulbagh, situated on a portion of erf 389, Tulbagh.

Background and deliberation

The crèche is a result of a twinning agreement with the town of Essen, Belgium and Witzenberg Municipality. The crèche was officially opened on 3 October 2009. The Department Social Development requested Grass Roots, an NGO (Non-governmental organisation), to assist the Crèche Committee with training in handling the 76 children in the program on a daily basis.

The crèche is a registered Non-profit organisation and receives a subsidy from Department Social Development. The crèche is registered for 80 children between the ages of six months and five years. Currently they have 80 children attending the facility and a waiting list of more than 100 children. The crèche follows a day program approved by the Department and comprises of four classrooms, a bathroom, office and kitchen. The crèche is functioning well and is managed by a governing body represented by parents from the community, which seems to be managed well. The personnel consist of a principal, four educators, and a cook.

Witzenberg Municipality entered into a lease agreement with the governance body of Zanokhanyo Crèche which expired on 30 August 2022.

Community value

The children from Chris Hani have the opportunity to be exposed to early childhood development in a facility where vulnerable children are safe and protected.

Sustainability

The Department Social Development will ensure the sustainability of the daily operations.

Legislation

Renewal of the lease agreement for a period of three years.

Financial implication

Fair market value is not applicable due to the economic and community value that are received in exchange for the lease of the asset. Council must determine the minimum yearly rental amount, also taking into consideration that the maintenance and repairs of this building are for the account of the Lessee."

The Committee for Community Development resolved on 20 October 2022 to recommend to Council:

(i) that Council enters into a further lease agreement with the governance body of Zanokhanyo Crèche for a three-year period for the purposes of operating a crèche.

(ii) that Council considers granting Zanokhanyo Crèche the option for renewal for a further three years after the new lease agreement has lapsed, on the discretion of the municipality.

(iii) that Council determines the minimum yearly rental amount.

(iv) that the property that will be leased, is not required for the provision of a minimum level of basic services. [MFMA Section 14.2(a)].

(v) that the Zanokhanyo Crèche is liable to pay for municipal services and that they are responsible to maintain the building.

(vi) that Zanokhanyo Crèche is responsible for own security measures such as alarms, guards, burglar bars etc.

(vii) that the building will stay the property of the municipality after the lease agreement has expired and/or is cancelled.

(viii) that the Municipal Manager be authorised to sign the lease agreement on behalf of the Council.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that Council enters into a further lease agreement with the governance body of Zanokhanyo Crèche for a three-year period for the purposes of operating a crèche.

(b) that Council considers granting Zanokhanyo Crèche the option for renewal for a further three years after the new lease agreement has lapsed, on the discretion of the municipality.

(c) that Council determines the minimum yearly rental amount.

(d) that the property that will be leased, is not required for the provision of a minimum level of basic services. [MFMA Section 14.2(a)].

(e) that the Zanokhanyo Crèche is liable to pay for municipal services and that they are responsible to maintain the building.

(f) that Zanokhanyo Crèche is responsible for own security measures such as alarms, guards, burglar bars etc.

(g) that the building will stay the property of the municipality after the lease agreement has expired and/or is cancelled.

(h) that the Municipal Manager be authorised to sign the lease agreement on behalf of the Council.

7.3.2 Renewal of lease agreement: Vrolike Vinkies Enrichment and Development Centre, Ceres
(7/1/4/1)

A letter from Vrolike Vinkies Enrichment and Development Centre, dated 28 July 2022, is attached as annexure 7.3.2.

Memorandum from the Acting Manager: Socio-Economic Development, dated 28 July 2022:

"Purpose

To request Council's approval for renewal of the lease agreement with Vrolike Vinkies Enrichment and Development Centre situated on erf 2019, Ceres also known as The Island Holiday Resort.

Background and deliberation

The crèche started in 2001. The crèche is a registered Non-profit organisation and receives a subsidy from Department Social Development. The crèche is registered for 98 children between the ages of six months and six years for the ECD Centre and for 41 children with special needs from ages three to sixteen. Children from Bella Vista, Nduli, Hamlet, Ceres and surrounding farms are enrolled at the crèche. They follow a day program approved by the Department. The crèche is functioning well and is managed by a governing body, represented by parents from the community. The governing body meets bi-monthly. The crèche seems to be managed well.

The personnel consist of a CEO, manager for ECD, assistant manager for ECD, supervisor for disabilities, program implementer, six ECD practitioners, four disability carers, one cook, five general workers and a driver.

In August 2015 the Council granted the usage of the extra building previously used as a café to be utilised as a unit for children with special needs. Council also granted permission for the erection of two Nutech buildings to accommodate more children with special needs. Vrolike Vinkies received funding from the Lotto and Breadline for this project. This unit started with nine children, but currently accommodates 41 children from all towns in die Witzenberg area. The disability of the children includes cerebral, Down syndrome, epilepsy, blindness, intellectual and other disabilities. The children are supported by regular input from the physiotherapist and occupational therapist from Department Health. This is the only facility in the Witzenberg municipal area that includes children with special needs in the mainstream.

The practitioners receive training to stimulate the children with suitable exercise. Subsidy is received from the Department of Health. The Department Education is also involved with screening and placing of children. Currently they have a waiting list.

Witzenberg Municipality currently has a valid lease agreement with Vrolike Vinkies, but it expires on 31 August 2022. . Rental and services are paid up to date and the current rental amount is R876.04 per year.

Community value

Vrolike Vinkies is currently the only facility accommodating children with special needs in the Witzenberg area. Children from all areas have the opportunity to be exposed to early childhood development in a facility where vulnerable children are safe and protected.

Sustainability

Department Social Development, Department of Education and Department Health will ensure the sustainability of the daily operations.

Legislation

A lease agreement must be entered into."

The Committee for Community Development resolved on 20 October 2022 to recommend to the Executive Mayoral Committee and Council:

(a) that Council considers the lease of erf 2019 to Vrolike Vinkies Enrichment and Development Centre for a period of two (2) years.

(b) that Ms Andeline Coetzee, Chief Executive Officer (CEO) of Vrolike Vinkies Enrichment and Development Centre, be invited to the Committee for Community Development to make a presentation in respect of the financial sustainability of the crèche at the next committee meeting.

(c) that the yearly rental amount be determined.

(d) that notice be taken that the property that will be leased, is not required for the provision of a minimum level of basic services in terms of Section 14.2(a) of the Municipal Finance Management Act.

(e) that Vrolike Vinkies Crèche is liable to pay for municipal services and that they are responsible to maintain the building.

(f) that Vrolike Vinkies Crèche is responsible for own security measures, such as alarms, guards, burglar bars etc.

(g) that the building will stay the property of the municipality after the lease agreement has expired and/or is cancelled.

(h) that the Municipal Manager be authorised to sign the lease agreement on behalf of the Council.

RESOLVED

that the matter relating to the renewal of the lease agreement with Vrolike Vinkies Enrichment and Development Centre, Ceres be referred back to the Committee for Community Development.

BESLUIT

dat die aangeleentheid met betrekking tot die hernuwing van die huurooreenkoms met Vrolike Vinkies Enrichment and Development Centre, Ceres terug verwys word na die Komitee vir Gemeenskapsontwikkeling.

7.3.3 Investigation on regional graveyard, Ceres
Ondersoek na streeksbegraafplaas, Ceres
(17/12/1/1)

A report from the Manager: Amenities and Environment, dated 22 November 2022, is attached as annexure 7.3.3.

Alderman BC Klaasen agreed with the regional graveyard, but not with the proposed location near the sewerage plant.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that notice be taken of the investigation on a regional graveyard in Ceres.

(b) that notice be taken that an application for funding for the infrastructure development of the intended cemetery has already been registered with MIG.

(c) that the matter be held in abeyance pending feedback regarding the abovementioned funding.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

(a) dat kennis geneem word van die ondersoek na 'n streeksbegraafplaas in Ceres.

(b) dat kennis geneem word dat aansoek om befondsing vir die infrastruktuurontwikkeling van die beoogde begraafplaas reeds by MIG geregistreer is.

(c) dat die aangeleentheid oorstaan hangende terugvoer omtrent die bogenoemde befondsing.

7.3.4 Project: CCTV Cameras along Voortrekker Road and Vos Street, Ceres (R46 Ceres to Nduli) and Voortrekker and Olienhout Streets in Prince Alfred's Hamlet
(17/7/5)

Report from Municipal Manager, dated 24 November 2022:

"Purpose

To consider recommending to Council to enter into a new three (3)-year agreement with Witzenberg Security Forum (Pty) Ltd to maintain and monitor the circuit television cameras installed along Voortrekker Road and Vos Street, Ceres (R46 Ceres to Nduli) and Voortrekker and Olienhout Streets in Prince Alfred's Hamlet.

Background

Council resolved on 23 August 2019 to enter into an agreement with Ceres Business Initiative to install CCTV cameras along Voortrekker Road and Vos Street, Ceres (R46 Ceres to Nduli) and Voortrekker and Olienhout Streets in Prince Alfred's Hamlet. At the time the capital investment for the project was R1.056 million and the operational cost R69 575 per month. CBI accepted responsibility for the capital investment as well as a contribution to the operational expenses. The municipality agreed to contribute R50 000-00 per month, escalating at 7 % annually. It was initially agreed that a non-profit company will be registered to enable all the parties to claim back in terms of payment made.

Witzenberg Security Forum (Pty) Ltd was eventually established with the directors being elected from the contributors of the project.

Deliberation

The business sector chose to fund their capital over a 5-year period which will end in two years' time. The sustainability of the project is dependent on the financial contribution of the municipality. The last payment in terms of the old agreement to be made on 30 November 2022. The private company established has requested that the municipality considers to extend its monthly contribution for a further two year period on the same terms and conditions as initially concluded. When the project was initiated LTS Security was selected as the preferred bidder, because of their experience and involvement in a similar project. They have established a control room with a response unit to monitor activities on the cameras. In terms of the agreement the security company reports on a monthly basis on all activities for the month.

Legal implication

Council must approve of the project and provide for it in the budget. Provincial Roads and Transport must give approval for the installation of the cameras on the provincial roads.

Financial implication

If Council so approves of the project the municipality will be responsible for a monthly contribution in the amount of R57 245-00. This commitment will be for a period of two years."

Alderman BC Klaasen noted that with previous engagements, the purpose of the CCTV cameras was to generate money in terms of special rated tariffs. The Municipal Manager indicated that there was never a decision for special rated tariffs.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that the project be approved and the budget provided for with a monthly contribution of R57 245-00.

(b) that Department Provincial Roads and Transport approves the installation of the cameras on the provincial roads.

(c) that the commitment be for a period of two (2) years.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

(a) dat die projek goedgekeur en 'n begroting voorsien word vir 'n maandelikse bedrag van R57 245-00.

(b) dat Departement Provinsiale Paaie en Vervoer die installasie van die kameras op provinsiale paaie goedkeur.

(c) dat die ooreenkoms vir 'n tydperk van twee jaar sal wees.

7.3.5 Lease of portion of erf 1, Pine Valley, Wolseley to Pine Valley Neighbourhood Watch: Old Malikhanye Crèche (7/1/4/1)

Report from Municipal Manager, dated 25 November 2022:

"Purpose

To consider recommending to Council that the Pine Valley Neighbourhood Watch be exempted from paying municipal services, except electricity and that same be included in the lease agreement to be signed between the parties.

Background

Council unanimously resolved on 22 June 2022:

(a) that approval be given for leasing of the Old Malikhanye Crèche, situated on erf 1, Pine Valley, Wolseley (portion of plot 1) to the Pine Valley Neighbourhood Watch for a period of three (3) years with an option of renewal for a further three years on the discretion of the municipality.

(b) that the property that is to be leased, is not required for the provision of a minimum level of basic services [MFMA Section 14.2(a)].

(c) that the property be leased "voetstoots".

(d) that the fair market value not be applicable due to the economic and community value that is received in exchange for the lease of the asset [MFMA Section 14.2(b)]. Council to consider exemption of rental charges and that only municipal services be paid for the building on condition that the municipality leases the building as it is and that the lessee does all repair and applicable maintenance work to the building.

Deliberation

A lease agreement was duly prepared and presented to the Neighbourhood Watch for signing. The said agreement is attached as annexure 7.3.5. The Neighbourhood Watch advised that they are a non-profit organisation and that their members are all volunteers serving the community during their free time. The Neighbourhood Watch does not receive any income nor do they generate income and is dependent on contributions from business and public. These contributions are more towards equipment and protective clothing. If the lease agreement is signed as presented it will mean that the Neighbourhood Watch will soon be in breach of the conditions of the agreement. Council is requested to consider exempting the Neighbourhood Watch from payment.

Legal implication

The Community Services Department will have to make provision in its budget for payment, because all services need to be paid for in terms of Council's Credit Control Policy as well as the Municipal Systems Act.

Financial implication

The Community Services Department will apply for additional funding during the adjustment budget to make provision for the additional expenses."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that approval be given for the leasing of the Old Malikhanye Crèche, situated on erf 1, Pine Valley, Wolseley (portion of plot 1) to the Pine Valley Neighbourhood Watch for a period of three (3) years with an option of renewal for a further three years on the discretion of the municipality.

(b) that the property that is to be leased, is not required for the provision of a minimum level of basic services [Municipal Finance Management Act Section 14.2(a)].

(c) that the fair market value not be applicable due to the economic and community value that is received in exchange for the lease of the asset [Municipal Finance Management Act Section 14.2(b)].

(d) that Council approves the exemption of rental charges and municipal services on condition that the lessee does all the repair and applicable maintenance work to the building.

(e) that the Community Services Department makes provision in its budget for payment, as all services need to be paid for in terms of Council's Credit Control Policy and the Municipal Systems Act.

(f) that the Community Services Department applies for additional funding during the budget process to make provision for the additional expenses.

7.4 Direktoraat Korporatiewe Dienste / Directorate Corporate Services

7.4.1 Council matters: Council recess for festive season 2022/2023 (3/1/2/3)

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that the recess period of Council for the 2022/2023 festive season will be from 16 December 2022 until 15 January 2023.

(b) that if the Speaker needs to call a Council meeting all Councillors must be available for a virtual Council meeting at all times.

(c) that the Executive Mayor and Deputy Executive Mayor will be on standby during the recess period.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel

(a) dat die Raad vir die 2022/2023 Feesseisoen vanaf 16 Desember 2022 tot 15 Januarie 2023 in reses sal wees.

(b) dat alle Raadslede ten alle tye vir 'n virtuele Raadsvergadering beskikbaar moet wees indien dit nodig sou wees dat die Speaker 'n Raadsvergadering belê.

(c) dat die Uitvoerende Burgemeester en Uitvoerende Onderburgemeester op bystand sal wees gedurende die resestydperk.

7.4.2 Proposed Council meeting program: January until December 2023 Voorgestelde Raadsvergaderingsprogram: Januarie tot Desember 2023 (3/1/2/3)

The following memorandum, dated 21 November 2022, was received from the Manager: Administration:

"1. Purpose

To obtain the approval of the Executive Mayoral Committee as well as Council for the proposed Council meeting program for January until December 2023.

2. For decision

Council.

3. Executive summary

The Council meeting program and meeting schedule for January until December 2023 is attached as annexure 7.4.2. It is recommended that the attached program for the period January until December 2023 be approved. SALGA and the Western Cape Government have requested that municipalities finalise their own Council calendar dates in order for them to synchronise dates with everybody.

Council is requested to approve the meeting program for January until December 2023. The Council meeting program of the Witzenberg Municipality has been synchronised with the meeting dates of the Cape Winelands District Municipality and is now submitted to Council for approval.

4. Discussion

4.1 Background and discussion

In terms of Section 19 of the Local Government Municipal Systems Act (Act 32 of 2000) the Municipal Manager must give notice to the public in a manner determined by the Municipal Council of the time, dates and venues of every ordinary meeting of the Council and special or urgent meetings of the Council except when time constraints make this impossible.

The proposed Council meeting program for January until December 2023 provides the list of scheduled meetings of Council, the Executive Mayoral Committee, the various Section 80 Committees, Municipal Public Accounts Committee (MPAC), Performance, Risk and Audit Committee (PRAC), the Local Labour Forum (LLF) and the Senior Management with the applicable time, date, venue or modus of the meetings.

Senior Management meetings are once again proposed to be held every Monday, Section 80 Committee meetings on the third Tuesday and Thursday of every month, but meetings of the Committee for Housing Matters on the last Thursday of the month, Council workshops on the day prior to the Council meeting and Council meetings on the last Tuesday of the month, depending on specific circumstances. Council meetings are also synchronised with the Council meetings of the Cape Winelands District Municipality. Meetings of the Executive Mayoral Committee are scheduled twice a month. All meetings can be held virtually or in contact depending on circumstances at the time.

4.2 Constitutional and policy implications

Compliance with any health regulation in case of contact meetings and compliance with municipal IT Policy in case of virtual meetings.

4.3 Environmental implications

This program has no environmental implications.

4.4 Financial implications

The monthly Council meetings are published in the local community newspaper, the cost of which is duly budgeted for.

4.5 Legal implications

In terms of Section 19 of the Local Government Municipals Systems Act (Act 32 of 2000) the Municipal Manager must give notice to the public in a manner determined by the Municipal Council of the time, date and venue or modus of every ordinary meeting of the Council and special or urgent meetings of the Council except when time constraints make this impossible.

Council meetings are planned for every month except for April, June, September and November 2023 and this exceeds the minimum requirement of one meeting per quarter as prescribed.

All legislative and policy requirements are complied with."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the proposed Council meeting program for January until December 2023 be approved.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

dat die voorgestelde program vir die Raad se vergaderings vanaf Januarie tot Desember 2023 goedgekeur word.

7.4.3 Request tor temporary moving of fence to make provision for extra parking during the construction of the Van Breda Bridge (7/1/4/1)

A memorandum from the Manager: Legal Services, dated 10 May 2022, is attached as annexure 7.4.3.

The Committee for Corporate and Financial Services resolved on 20 October 2022 to recommend to the Executive Mayoral Committee and Council:

(a) that permission be granted for the fence line of erf 1383 to be moved by approximately 8 meters towards the riverside for extra parking space.

(b) that the rental amount be determined and lease agreement be entered into for a period of 9 years 11 months.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that permission be granted for the fence of erf 1383 to be moved by approximately eight (8) meters towards the riverside for extra parking space.

(b) that the rental amount be determined and lease agreement be entered into for a period of 9 years and 11 months.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

(a) dat goedkeuring verleen word dat die heining van erf 1383 met ongeveer agt (8) meter na die rivieroewer verskuif word vir ekstra parkeerruimte.

(b) dat 'n huurbedrag vasgestel word en 'n huurooreenkoms aangegegaan word vir 'n tydperk van 9 jaar en 11 maande.

7.4.4 Request to lease erf 5171, Nduli, Ceres for a period of five years (7/1/4/1)

A report from the Manager: Legal Services, dated 22 November 2022, is attached as annexure 7.4.4.

Alderman BC Klaasen noted that the leasing of the property is for a good cause, but that it is a supply chain matter.

The Municipal Manager responded that Section 14.2 of the Municipal Finance Management Act makes provision for the exemption of market related value if it is in the interest of the broader community.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that a lease agreement be entered into for a period of five years.

(b) that a fair market related rental amount per month be determined by Council.

(c) that the building be leased as is and that the lessee do all the repair work on the building.

(d) that a Public Participation Process be followed and advertised for public comment and/or objections.

BESLUIT

Dat die Uitvoerende Burgemeesterskomitee by die Raad aanbeveel:

(a) dat 'n huurooreenkoms vir 'n tydperk van vyf jaar aangegaan word.

(b) dat 'n billike markverwante huurbedrag per maand deur die Raad vasgestel word.

(c) dat die gebou voetstoots verhuur word en dat die huurder alle herstelwerk aan die gebou doen.

(d) dat 'n Publieke Deelnameproses gevolg en geadverteer word vir publieke kommentaar en/of besware.

NOTED

5. PRESENTATIONS

5.1 AGSA Audit Report: 2021/2022 (5/14/1/19)

The AGSA Audit Report for 2021/2022 is attached as annexure 5.1.

Mrs Kalthiema Abrahams of Messrs AGSA made a presentation in respect of the AGSA Audit Report for 2021/2022. The following matters were discussed:

- Unqualified audit report
- Clean audit outcome
- Emphasis on matters
- Material impairments
- Responsibilities of the Accounting Officer
- AGSA congratulated the Witzenberg Municipality on obtaining a 10th consecutive clean audit report.
- The Performance, Risk and Audit Committee congratulated the Municipal Manager and Financial team of the municipality on obtaining a clean audit report.

- The Municipal Manager expressed his gratitude to AGSA, and especially to Mrs Kalthiema Abrahams and Mr Jeremy Kolkota, on obtaining a clean audit report and adding value to Witzenberg Municipality.

RESOLVED

That the Performance, Risk and Audit Committee recommends to Council:

that notice be taken of the AGSA Audit Report for 2021/2022 and same be accepted.

6. AUDIT AND FINANCIAL MANAGEMENT

6.1 Annual Financial Statements 2021/2022 **– after COMAF's** (5/3/1)

The Municipal Finance Management Act (no. 56 of 2003) Section 166(2)(b) states that:

"(2) An audit committee is an independent advisory body which must –

(b) review the annual financial statements to provide the council of the municipality with an authoritative and credible view of the financial position of the municipality, its efficiency and effectiveness and its overall level of compliance with this Act, the annual Division of Revenue Act and any other applicable legislation."

The Annual Financial Statements for 2021/2022 (after COMAF's) are attached as annexure 6.1.

The Chief Financial officer mentioned the few COMAF's in respect of the audit report and referred especially to:

(i) Debtor increases and
(ii) Increasing cost of landfill sites.

RESOLVED

(a) that the Performance, Risk and Audit Committee takes notice of the Annual Financial Statements 2021/2022 (after COMAF's) and accepts same.

(b) that the Performance, Risk and Audit Committee takes notice of the increasing cost of landfill sites and the matter of debt collection.

4.1 Quarterly Budget Statement [Section 52(d)] Report: 2nd Quarter 2022/2023 (1 October 2022 to 31 December 2022)
(9/1/2/2)

Report from Director: Finance, dated 16 January 2023:

"1. Purpose

The purpose of this memorandum is to submit the Quarterly Budget Statement Report to Council for information.

2. Background

The Quarterly Budget Statement [Section 52(d)] Report for the second quarter of 2022/2023 is attached as annexure 4.1."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the Quarterly Budget Statement Report in terms of Section 52(d) for the 2nd quarter of 2022/2023 and the report be referred to the Performance, Risk and Audit Committee as well as the Municipal Public Accounts Committee for any recommendations to Council.

ISIGQIBO

Ukuba ikomiti kaSodolophu yenze isiphakamiso esiya kwiBhunga:

Sokuba kugqalwe ingxelo yarhoqo ngeKota yohlahlolwabiwomali ngokweCandelo lama 52(d) seKota yesibini kunyaka ka2022/2023 kwaye lengxelo isiwe kwiKomiti yezokusebenza,uBungozi kunye noPicotho neKomiti yee-Akhawunti zoluntu kuMasipala.

4.2 Mid-year Budget Statement and Performance Assessment (Section 72) Report 2022/2023: 1 July 2022 until 31 December 2022 (9/1/1 & 5/1/5/15)

The following memorandum, dated 16 January 2023, was received from the Director: Finance:

"Purpose

The purpose of this report is to submit the 2022/2023 Section 72 Mid-year Budget and Performance Assessment Report for the period 1 July 2022 to 31 December 2022 to Council, for information.

Legislature framework

In terms of Section 72 of the Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003):

'(1) The accounting officer of a municipality must by 25 January of each year –

(a) Assess the performance of the municipality during the first half of the financial year.

(b) Submit the report to the Mayor, National Treasury and Provincial Treasury.

The mayor must, in terms of Section 54(1)(f) of the act submit the report to the Council by 31 January of each year.

Discussion

The Mid-year report for 1 July 2022 until 31 December 2022 is attached as annexure 4.2."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the Mid-year Budget Statement and Performance Assessment Report for the period 1 July 2022 until 31 December 2022.

ISIGQIBO

Ukuba ikomiti kaSodolophu yenze isiphakamiso kwiBhunga :

sokuba kugqalwe ingxelo yohlolo lwaphakathi enyakani yoHlahlolwabiwomali kunye nendlela yokusebenza ukusukela ngomhla woku 1 kweyeKhala 2022 ukuya kumhla wama 31 kweyoMnga 2022.

4.3 Implementation of Debt Collection and Credit Control Policy (5/12/P & 5/1/1/21)

A memorandum from the Director: Finance, dated 16 January 2023, is attached as annexure 4.3.

The following recommendation was tabled to the Executive Mayoral Committee:

That the Executive Mayoral Committee recommends to Council:

that the following additional credit control steps be implemented:

(a) Cutting or blocking of electricity

(i) Amount equal to two months' debits are payable before restoring connection - (conventional meters).

(ii) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(b) Indigent households

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Indigent households be moved from conventional electricity to pre-paid electricity.

(c) Legal collection process

(i) Section 129 Notice (in terms of National Credit Act).

(ii) Fourteen days later after Section 129 Notice, summons is compiled.

(iii) Clerk of the Court issues the summons.

(iv) Sheriff of the Court serves the summons on the defendant.

If there is moveable property that can be attached:

(1) If no payment received on summons - Judgement and Warrant of Execution is issued on movable property.

(2) Council resolution on process to be followed.

(3) Instruction to sheriff to attach and remove movable property and to sell the attached property.

(4) Advertisement in newspaper of intention to sell movable property.

(5) Sale in execution of attached moveable property by sheriff.

If there is no moveable property that can be attached:

(1) Report with Nulla Bona on fixed property with municipal value for less than R300 000.00 to Council for write off.

(2) Municipal fixed property with value more than R300 000.00, Section 66 application compiled by private external attorney and application to sell immovable property in a sale of execution, brought before court.

(3) Council resolution on process to be followed.

(4) Advertisement in newspaper by attorney of intention to sell immovable property in local newspaper as well as Government Gazette.

(5) Sale in execution of attached immoveable property by sheriff.

(d) Pre-payment water meters

(i) Installation of pre-paid water meters if other debt collection measures are not successful.

(ii) That the water consumption can be limited to a maximum of 200 litres per day (6 kilolitres per month).

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the matter in respect of the implementation of the Debt Collection and Credit Control Policy be held in abeyance in order for the following matters to be workshopped by Council:

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Installation of pre-paid water meters if other debt collection measures are not successful.

ISIGQIBO

Ukuba iKomiti kaSodolophu yenze isiphakamiso esiya kwiBhunga:

Sokuba umba ophathelene noMgaqo-nkqubo wokuqokelelwa kwamatyala nolawulo lokwenza amatyala,lurhoxiswe ngenxa yocweyo lweBhunga oluphathelene nalemiba ilandelayo:

(i) Inxalenye yemali yokuthengwa kombane irhoxiswe ngomnyinge wama (30 %).

(ii) Ukufakwa kwesixhobo sokubala ubungakanani bamanzi asetyenzisiweyo xa kukho ukusilela kwintlawulo kaMasipala.

7. GERESERVEERDE BEVOEGDHEDE / RESERVED POWERS

7.1 Direktoraat Finansies / Directorate Finance

7.1.1 Finance: Proposed amendments to Indigent Policy (5/12/P)

Memorandum from Director: Finance, dated 2 February 2023:

"1. Purpose

The purpose of this memorandum is to submit proposed amendments to the Indigent Policy for consideration by Council. The policy is attached as annexure 7.1.1.

2. Legal framework

The definition of income as per the Indigent Policy is quoted below for ease of reference:

'All sources of income of a head of the family, and his or her spouse, for example salaries, allowances, pensions, rental and business income not limiting it to the examples mentioned, excluding state child support grants, care dependency grants, foster care grants or maintenance support.'

Paragraph 6 of the Witzenberg Indigent Policy sets out the qualification criteria for indigent households, and is quoted below for ease of reference:

'Assistance is provided to households that meet the criteria as set out in 6.1 and to old age homes that meet the criteria as set out in 6.1.'

6.1 The qualification criteria for urban households in order to receive assistance are as follow:

6.1.5 The households joint gross income may not exceed the level of R5,000 per month.

3. Discussion

No expenditure is taken into consideration in determining whether a household qualifies for indigent support or not.

Some households have monthly bond expenditure that reduces their disposable income to be used for living expenditure. This could result in a customer not meeting the current indigent qualification criteria."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

The following amendments to the Indigent Policy are recommended:

(i) The definition of bond expenditure to be added:

"Monthly interest and redemption payments on a bond registered in the name of the head of the family, his or her spouse on condition that the applicant(s) occupies the house."

(ii) Add paragraph 6.1.5.1

"6.1.5.1 The household income as per paragraph 6.1.5 may be reduced with the monthly bond expenditure."

(iii) Amend paragraphs 7.1 and 7.2 to the following:

"7.1 Households with a joint monthly gross income less bond cost, not exceeding R3,000.

7.2 Households with a joint monthly gross income less bond cost, between R3,000 and R5,000."

7.1.2 New Preferential Procurement Policy and proposed amendments to Supply Chain Management Policy
(8/1/P)

The following documents are attached:

(a) Memorandum from Director: Finance, dated 30 January 2023: Annexure 7.1.2(a).

(b) Draft Preferential Procurement Policy: 7.1.2(b).

(c) Supply Chain Management Policy: 7.1.2(c).

Proposed changes:

(a) That the Preferential Procurement Policy be approved. The policy allows for preference to local suppliers.

(b) That the following provisions be deleted from the Supply Chain Management Policy:

(i) Remove the definition of Designated sector – was applicable to local content.

(ii) Amend paragraph 14(3) to allow for quotations from suppliers listed on the Central Supplier database (Database of National Treasury).

(iii) Remove the reference to local content from paragraph 27(1)(e).

(iv) Remove the requirement that the decisions of the bid adjudication committee must be sent via registered mail from paragraph 37(10).

(v) Remove paragraph 41(2) to (8) as it is applicable to local content.

(vi) Remove paragraph 68 – Preferential Procurement – as it is replaced with the Preferential Procurement Policy.

(vii) Include a paragraph dealing with the cancellation of tenders.

Alderman BC Klaasen recommended the following amendments to the preference point system:

(3) Regarding paragraph 5(2) of this Policy, 25% of the 20 points on the 80/20 preference points system and 25% of the 10 points on the 90/10 preference points system, will be allocated to promote B-BBEE in terms of the following scorecard:

No	B-BBEE status level of contributor	Number of points on 80/20 points system	Number of points on 90/10 points system
1	Level 1 contributor	5	2.5
2	Level 2 contributor	4.5	2.25
3	Level 3 contributor	3	1.5
4	Level 4 contributor	2.5	1.25
5	Level 5 contributor	2	1
6	Level 6 contributor	1.5	0.75
7	Level 7 contributor	1	0.5
8	Level 8 contributor	0.5	0.25
9	Non-compliant contributor	0	0

(4) The following points for specific goals per procurement process based on the 80/20 preference point system will be applied:

No	Procurement Process	Procurement ranges (inclusive of all applicable taxes)	Maximum points for Broad-Based Black Economic Empowerment (B-BBEE)	Maximum points for enterprises within Witzenberg Municipal area	Maximum points for enterprises within Cape Winelands District region	Maximum points for enterprises within the Western Cape Province
1	Formal written price and competitive tendering	R30,000 – R50 million	5	15	7.5	3

(5) The following points for specific goals per procurement process based on the 90/10 preference point system will be applied:

No	Procurement Process	Procurement ranges (inclusive of all applicable taxes)	Maximum Points for Broad-Based Black Economic Empowerment (B-BBEE)	Maximum points for enterprises within Witzenberg Municipal area	Maximum points for enterprises within Cape Winelands District region	Maximum points for enterprises within the Western Cape Province
1	Competitive tendering	Above R50 million	2.5	7.5	3.75	1.5

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the Preferential Procurement Policy and the proposed amendments to the Supply Chain Management Policy be approved, with application from 16 January 2023.

7.1.3 Proposed revisions to Service Delivery and Budget Implementation Plan 2022/2023 as per Section 54(1)(C) of Municipal Finance Management **Act and relevant Senior Managers' Performance Contracts**
(5/1/5/15)

A memorandum from the Manager: Projects and Performance, dated 15 February 2023, is attached as annexure 7.1.3.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the adjustments as proposed by the Manager: Projects and Performance, dated 15 February 2023, be approved.

7.1.4 Finance: Adjustment budget 2022/2023
(5/1/1/21)

The following documents are attached:

(a) Memorandum from Director: Finance, dated 21 February 2023: Annexure 7.1.4(a).

(b) Adjustment budget 2022/2023 to 2024/2025: Annexure 7.1.4(b).

(c) Budget schedules 2022/2023: Annexure 7.1.4(c).

Alderman BC Klaasen requested that the item regarding the adjustment budget be held in abeyance and it be minuted that a Mayco caucus was scheduled to discuss the adjustment budget in conjunction with item 7.2.1: Bid 08/2/17/51: Upgrading of Van Breda Bridge and associated roadworks: Extension and variation of contract.

Alderman K Adams counter proposed that the item be accepted as recommended.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

That the adjustment budget of Witzenberg Municipality for the financial year 2022/2023 as set out in the budget documents be approved:

(i) Table B1 - Budget summary

(ii) Table B2 Adjustments Budget Financial Performance (by standard classification)

(iii) Table B3 – Budgeted Financial performance (Revenue and Expenditure) by Vote

(iv) Table B4 Adjustments Budget Financial Performance (revenue by source) and

(v) Table B5 – Budgeted Capital Expenditure by Vote, standard classification and funding.

7.1.5 Implementation of Debt Collection and Credit Control Policy (5/12/P & 5/1/1/21)

A memorandum from the Director: Finance, dated 16 January 2023, is attached as annexure 7.1.5.

The Executive Mayoral Committee resolved on 24 January 2023 to recommend to Council that the matter in respect of the implementation of the Debt Collection and Credit Control Policy be held in abeyance in order for the following matters to be workshopped by Council:

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Installation of pre-paid water meters if other debt collection measures are not successful.

Council unanimously resolved on 25 January 2023:

that the matter in respect of the implementation of the Debt Collection and Credit Control Policy be held in abeyance in order for the following matters to be workshopped by Council:

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Installation of pre-paid water meters if other debt collection measures are not successful.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

That the following additional credit control steps be implemented:

(a) Cutting or blocking of electricity

(i) Amount equal to two months' debits are payable before restoring connection - (conventional meters).

(ii) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(b) Indigent households

(i) Portion of electricity purchases to be set off against arrear debt. (Auxiliary – 30 %).

(ii) Indigent households be moved from conventional electricity to pre-paid electricity.

(c) Legal collection process

(i) Section 129 Notice (in terms of National Credit Act).

(ii) Fourteen days later after Section 129 Notice, summons is compiled.

(iii) Clerk of the Court issues the summons.

(iv) Sheriff of the Court serves the summons on the defendant.

If there is moveable property that can be attached:

(1) If no payment received on summons - Judgement and Warrant of Execution is issued on movable property.

(2) Council resolution on process to be followed.

(3) Instruction to sheriff to attach and remove movable property and to sell the attached property.

(4) Advertisement in newspaper of intention to sell movable property.

(5) Sale in execution of attached moveable property by sheriff.

If there is no moveable property that can be attached:

(1) Report with Nulla Bona on fixed property with municipal value for less than R300 000.00 to Council for write off.

(2) Municipal fixed property with value more than R300 000.00, Section 66 application compiled by private external attorney and application to sell immovable property in a sale of execution, brought before court.

(3) Council resolution on process to be followed.

(4) Advertisement in newspaper by attorney of intention to sell immovable property in local newspaper as well as Government Gazette.

(5) Sale in execution of attached immoveable property by sheriff.

(d) Pre-payment water meters

(i) Installation of pre-paid water meters if other debt collection measures are not successful.

(ii) That the water consumption can be limited to a maximum of 200 litres per day (6 kilolitres per month).

(e) that consumers be notified via their municipal account statements of the consequences of non-payment of their municipal accounts and that 30 % of payments will be allocated towards arrears when payment is made.

(f) that the above-mentioned steps (a)(ii) and b(ii) be implemented from 1 April 2023 and (d)(i) be implemented from 1 July 2023 respectively.

7.1.6 Finance: Electricity: Cost of Supply and Tariff Study (5/1/1/21)

Memorandum from Director: Finance, date 21 February 2023:

"Purpose

The purpose of this report is to submit a report on the cost of electricity supply to Council for consideration.

Discussion

The purpose of the study is to determine the actual cost of delivering electricity services to different consumer groups and to determine tariffs based on the cost of supply."

The Electricity: Cost of Supply and Tariff Study is attached as annexure 7.1.6.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the Electricity: Cost of Supply and Tariff Study be approved and that it be submitted to NERSA for consideration.

7.1.7 Finance: Approval of long-term loan (5/4)

A memorandum from the Director: Finance, dated 21 February 2023, is attached as annexure 7.1.7.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that the long-term loan be approved in terms of Section 46 of the Municipal Finance Management Act to finance the construction of both the fence and drop-offs transfer stations.

7.2 Direktoraat Tegniese Dienste / Directorate Technical Services

7.2.1 Bid 08/2/17/51: Upgrading of Van Breda Bridge and associated roadworks: Extension and variation of contract (08/2/17/51)

A memorandum from the Manager: Streets and Storm Water, dated 18 January 2023, is attached as annexure 7.2.1.

Alderman BC Klaasen requested that the item regarding the adjustment budget be held in abeyance and it be minuted that a Mayco caucus was scheduled to discuss the adjustment budget in conjunction with item 7.1.4: Finance: Adjustment budget 2022/2023.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(i) that the Accounting Officer approves the extension of the original contract, in favour of Amandla GCF Construction cc, with an increase of R7 840 000,00 which is 20 % of the original contract, provided that the expenditure is within the available budget of the municipality.

(ii) that the Accounting Officer recommends to Council the amendment of Contract 08/2/17/51: Upgrading of van Breda Bridge & Associated Roadworks, in favour of Amandla GCF Construction cc, to be expanded by a further 26 % or R10 193 422,68 which is inclusive of 15 % VAT, provided that the expenditure is within the available budget of the municipality.

(iii) that reasonable notice be given in the local newspaper of the intention to amend the contract.

(iv) that Council approves the amendment of Contract 08/2/17/51: Upgrading of van Breda Bridge & Associated Roadworks, in favour of Amandla GCF Construction cc, to be expanded by 46 % or R57 236 326,55 in construction cost inclusive of 15 % VAT, provided that the expenditure is within the available budget of the municipality.

(v) that a dispute be declared against Ingerop South Africa (Pty) Ltd , based on the fact that extension of time claims are to be paid by Witzenberg Municipality, which could have been avoided if all prescribed steps were followed during the design stage.

(vi) that an additional report be tabled to Council advising Council regarding legal proceedings for the recovery of additional costs created by the consulting engineer, Ingerop SA (Pty) Ltd Consulting Engineer.

7.2.2 Proposed positions of waste transfer stations
(17/3/2)

A memorandum from the Director: Technical Services, dated 14 June 2022, is attached as annexure 7.2.2.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

(a) that the following erven be approved for the development and construction of drop-offs / transfer stations as follow:

(i) Bella Vista: Option 3 (Erf 8714)

(ii) Tulbagh: Option 2 (Open space at back of community hall and library)

(iii) Prince Alfred's Hamlet: Option 2 (Erf 1)

(b) that notice be taken that the erven have to be rezoned to "Authority Use".

(c) that the Senior Superintendent: Solid Waste and Cleansing Services performs the necessary administrative tasks (obtaining quotations etc.) for the rezoning of the said erven.

(d) that the Manager: Town Planning and Building Control manages and finalises the rezoning process.

(e) that a Public Participation Process be followed in respect of the proposed positions of waste transfer stations.

7.2.3 Water situation: Witzenberg
(16/2/1/1/1)

A memorandum from the Director: Technical Services, dated 22 February 2023, is attached as annexure 7.2.3.

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that notice be taken of the report regarding the water situation in Witzenberg.

None

NOTED

7.4 Direktoraat Korporatiewe Dienste / Directorate Corporate Services

7.4.1 Performance, Risk and Audit Committee: Reconsidering appointment of PRAC member
(5/14/4)

Report from the Head: Internal Audit, dated 6 February 2023:

"Council unanimously resolved on 29 November 2022:

(a) that appreciation be expressed towards Mr S Redelinghuys for the six years served on the Performance, Risk and Audit Committee and the contributions made.

(b) that the appointment of Mr J George for a further one-year term be approved.

(c) that the following three members be appointed:

(i) Jacobus Johannes Swarts
(ii) Rowan Graham Nicholls
(iii) Jacqueline Lapoorta"

Before the letter to Mr Rowan Graham Nicholls on his appointment to the Performance, Risk and Audit Committee was sent, it was noted that he is a member of more than two local government audit committees. Under National Treasury Circular 65 and the Council-approved Performance, Risk and Audit Committee Charter, this is disallowed.

Mr Nicholls's CV is attached as annexure 7.4.1."

RESOLVED

That the Executive Mayoral Committee recommends to Council:

that Council reconsiders and approves that Mr Nicholls is not appointed and that the Municipal Manager be mandated to advertise for the appointment of a Performance, Risk and Audit Committee member.

The Chairperson enquired why outside bodies were not invited to attend the meetings of the Committee for Community Development. The Municipal Manager informed the meeting that the previous Committee members requested that the South African Police Services and Community Police Forums not be invited due to the Covid-19 pandemic.

A Committee member requested that only the South African Police Services Station Commander be invited to the Committee for Community Development as they are the main body for reporting crime statistics and that the mandate of the Community Police Forums be determined.

The Chairperson informed the meeting that the homeless people of the Witzenberg area are sleeping in graveyards while people from towns beyond the Witzenberg area are staying at the Haven Night shelter. Furthermore, that the above-mentioned is a concern and must be addressed with the shelter.

The Municipal Manager responded that the matter will be addressed and that the Social Workers prepare a report to be tabled to the Committee for Community Services regarding the operations at the Haven Night Shelter.

RESOLVED

(a) that the Committee for Community Development takes notice, after consideration, of the content of the monthly reports of the Haven Night Shelter for November, December 2022, January and February 2023 and that same be accepted.

b) that the Social Workers obtain and table a report to the Committee for Community Development regarding the operations at the Haven Night shelter.

BESLUIT

(a) dat die Komitee vir Gemeenskapsontwikkeling kennis neem, na oorweging, van die inhoud van die maandverslae van die Haven Nagskuiling vir November, Desember, Januarie en Februarie 2023 en dat die verslae aanvaar word.

(b) dat die Maatskaplikewekers bekom en 'n verslag ter tafel lê rakende die werksaamhede van die Haven Nagskuiling.

5.2 Presentation: Vrolike Vinkies Enrichment and Development Centre, Ceres / Aanbieding: Vrolike Vinkies Sentrum vir Verryking en Ontwikkeling Sentrum
(7/1/4/1)

RESOLVED

(a) that the matter in respect of the presentation: Vrolike Vinkies Enrichment and Development Centre, Ceres be held in abeyance until the next meeting.

(b) that the Acting Manager: Socio-Economic Development invites Ms. Andeline Coetzee, Chief Executive Officer of Vrolike Vinkies Enrichment and Development Centre to attend the next committee meeting.

BESLUIT

(a) dat die aangeleentheid rakende die aanbieding: Vrolike Vinkies Sentrum vir Verryking en Ontwikkeling Sentrum oorstaan tot die eerskomende vergadering.

(b) dat die Waarnemede Bestuurder: Sosio-Ekonomiese Ontwikkeling me Andeline Coetzee, Hoof Uitvoerende Beampte uitnooi na die eerskomende vergadering.

A Committee member raised his concern in respect of animals roaming streets and roads.

Municipal Manager mentioned that the roaming of animals in the streets and roads are a national concern and that Council cannot provide land for cattle and animal farmers.

The Committee expressed their concern in respect of businesses dumping industrial waste into the river.

Municipal Manager reported that a site visit, in conjunction with Department: Environmental Affairs was made at the relevant river to obtain water samples in order to determine the content thereof. Further information will follow pending the results of the water samples.

The Committee expressed their concern regarding the erecting of illegal structures and farming of livestock at the old landfill site in Ceres and requested that it be addressed as soon as possible.

RESOLVED

(a) that the Committee for Community Development takes notice, after consideration, of the content of the monthly reports of the Section Amenities and Environment for August, September, October, November, December 2022 and January 2023 and same be accepted.

(b) that the Manager: Fire and Disaster Management and Chief Traffic and Law Enforcement Services investigate the illegal slaughtering of animals in Ceres.

(c) that the Municipal Manager table a report at the next meeting in respect of the status quo of the quality of the water of the rivers in Ceres.

(d) that the Municipal Manager consult with the Director: Technical Services in respect of the illegal dumping of waste and rubble at the old landfill site at Ceres and provide feedback at the next Committee meeting.

(e) that the Chief: Traffic and Law Enforcement Services ensures that the security services at the entrance of the old landfill site be stricter and that an additional security officer be stationed at the access control office.

BESLUIT

(a) dat die Komitee vir Gemeenskapsontwikkeling kennis neem, na oorweging, van die inhoud van die maandverslae van die Afdeling Geriewe en Omgewing vir Augustus, September, Oktober, November, Desember 2022 en Januarie 2023 en dat die verslae aanvaar word.

(b) dat die Bestuurder: Rampbestuur en Brandweerdienste en Hoof: Verkeersdienste en Wetstoepassing ondersoek instel ten opsigte van die onwettige slagting van diere in Ceres.

(c) dat die Munisipale Bestuurder 'n verslag by die eerskomende vergadering ter tafel lê met betrekking tot die status quo van die water kwaliteit van riviere in Ceres.

(d) dat die Munisipale Bestuurder konsulteer met die Direkteur: Tegniese Dienste rakende die onwettige storting van afval en bou rommel by die ou stortings terrein in Ceres.

(e) dat die Hoof: Verkeersdienste verseker dat die toegang by die ingang van die stortingsterrein verskerp sal word en dat 'n addisionele sekuriteit wag gestasioneer word by die toegang beheer kantoor.

A committee member enquired with regard to the filling of water tanks on farms and whether there are any rules and timeframes when water will be delivered.

The Municipal Manager reported the following

- that it is constitutional obligation to provide water for the community.
- that water tanks are filled twice a week.
- that the municipality cannot provide water for piggery, lively stock of farmers.
- that an agreement with the farm owners and Witzenberg Municipality must be concluded in respect of the distribution of water.

RESOLVED

(a) that the Committee for Community Development takes notice, after consideration, of the content of the monthly reports of the Section Disaster and Emergency Management and Fire Services for August, September, October, November, December 2022 and January 2023 and same be accepted.

(b) that the Manager: Water and Sewerage prepare a pamphlet informing the community not to abuse and to use water as a resource sparingly.

A report received from the Manager: Disaster Management and Fire Services in respect of the Witzenberg Municipality: Disaster Management Framework is attached as annexure 7.1.

'n Verslag ontvang vanaf die Bestuurder: Rampbestuur en Brandweerdienste met betrekking tot die Witzenberg Munisipaliteit: Rampbestuursraamwerk word aangeheg as bylae 7.1.

RESOLVED

To recommends to the Executive Mayoral Committee and Council:

that the Witzenberg Municipality: Disaster Management Framework after being workshopped, be approved by Council.

BESLUIT

Om by die Uitvoerende Burgemeesterskomitee en Raad aan te beveel:

dat die Witzenberg Munisipaliteit: Rampbestuursraamwerk, nadat dit deur die Raad op 'n werkswinkel bespreek is, goedgekeur word.

7.2 Report: Witzenberg Fire and Rescue Services, Fire Safety and Prevention Capacity Assessment conducted by the Department of Cooperative Governance
(17/7/2/1)

A report received from the Manager: Disaster Management and Fire Services in respect of the Witzenberg Municipality: Fire Safety and Prevention Capacity Assessment conducted by the Department of Cooperative Governance is attached as annexure 7.2.

RESOLVED

that the matter with regard to the Witzenberg Fire and Rescue Services, Fire Safety and Prevention Capacity Assessment conducted by the Department of Cooperative Governance be held in abeyance until the next meeting.

7.3 Renewal of lease agreement: Vrolike Vinkies Enrichment and Development Centre, Ceres
(7/1/4/1)

Item 7.3.2 of the Executive Mayoral Committee held on 28 November refers.

A letter from Vrolike Vinkies Enrichment and Development Centre, dated 28 July 2022, is attached as annexure 7.3..

Memorandum from the Acting Manager: Socio-Economic Development, dated 28 July 2022:

"Purpose

To request Council's approval for renewal of the lease agreement with Vrolike Vinkies Enrichment and Development Centre situated on erf 2019, Ceres also known as The Island Holiday Resort.

Background and deliberation

The crèche started in 2001. The crèche is a registered Non-profit organisation and receives a subsidy from Department Social Development. The crèche is registered for 98 children between the ages of six months and six years for the ECD Centre and for 41 children with special needs from ages three to sixteen. Children from Bella Vista, Nduli, Hamlet, Ceres and surrounding farms are enrolled at the crèche. They follow a day program approved by the Department. The crèche is functioning well and is managed by a governing body, represented by parents from the community. The governing body meets bi-monthly. The crèche seems to be managed well.

The personnel consist of a CEO, manager for ECD, assistant manager for ECD, supervisor for disabilities, program implementer, six ECD practitioners, four disability carers, one cook, five general workers and a driver.

In August 2015 the Council granted the usage of the extra building previously used as a café to be utilised as a unit for children with special needs. Council also granted permission for the erection of two Nutech buildings to accommodate more children with special needs. Vrolike Vinkies received funding from the Lotto and Breadline for this project. This unit started with nine children, but currently accommodates 41 children from all towns in die Witzenberg area. The disability of the children includes cerebral, Down syndrome, epilepsy, blindness, intellectual and other disabilities. The children are supported by regular input from the physiotherapist and occupational therapist from Department Health. This is the only facility in the Witzenberg municipal area that includes children with special needs in the mainstream.

The practitioners receive training to stimulate the children with suitable exercise. Subsidy is received from the Department of Health. The Department Education is also involved with screening and placing of children. Currently they have a waiting list.

Witzenberg Municipality currently has a valid lease agreement with Vrolike Vinkies, but it expires on 31 August 2022. . Rental and services are paid up to date and the current rental amount is R876.04 per year.

Community value

Vrolike Vinkies is currently the only facility accommodating children with special needs in the Witzenberg area. Children from all areas have the opportunity to be exposed to early childhood development in a facility where vulnerable children are safe and protected.

Sustainability

Department Social Development, Department of Education and Department Health will ensure the sustainability of the daily operations.

Legislation

A lease agreement must be entered into."

The Committee for Community Development resolved on 20 October 2022 to recommend to the Executive Mayoral Committee and Council:

(a) that Council considers the lease of erf 2019 to Vrolike Vinkies Enrichment and Development Centre for a period of two (2) years.

(b) that Ms Andeline Coetzee, Chief Executive Officer (CEO) of Vrolike Vinkies Enrichment and Development Centre, be invited to the Committee for Community Development to make a presentation in respect of the financial sustainability of the crèche at the next committee meeting.

(c) that the yearly rental amount be determined.

(d) that notice be taken that the property that will be leased, is not required for the provision of a minimum level of basic services in terms of Section 14.2(a) of the Municipal Finance Management Act.

(e) that Vrolike Vinkies Crèche is liable to pay for municipal services and that they are responsible to maintain the building.

(f) that Vrolike Vinkies Crèche is responsible for own security measures, such as alarms, guards, burglar bars etc.

(g) that the building will stay the property of the municipality after the lease agreement has expired and/or is cancelled.

(h) that the Municipal Manager be authorised to sign the lease agreement on behalf of the Council.

The Executive Mayoral Committee resolved on 28 November 2022 that the matter relating to the renewal of the lease agreement with Vrolike Vinkies Enrichment and Development Centre, Ceres be referred back to the Committee for Community Development.

RESOLVED

that the matter in respect of the renewal of lease agreement: Vrolike Vinkies Enrichment and Development Centre, Ceres be held in abeyance until the next meeting.

7.4 Municipal Building for Rental Purpose in Erf 5965, Nduli, Ceres, (Old Sizamele Creché) (7/1/4/1

A memorandum received from the Acting Manager: Socio-Economic Development, dated 22 November 2022, is attached as annexure 7.4.

'n Memorandum ontvang vanaf die Waarnemende Bestuurder: Sosio-Ekonomiese Ontwikkeling, gedateer 22 November 2022, word aangeheg as bylae 7.4.

RESOLVED

To recommend to the Executive Mayoral Committee and Council:

that Council's intention to lease the municipal building on erf 5965, Nduli, Ceres, (old Sizamele Crèche) be advertised in the local newspaper to obtain applications from interested Non-Governmental Organisations.

PROPERTY RATES

*Property rates are typically used to pay for services that are publicly accessed. This means that property rates are typically allocated to 'other' services. However, property rates might be allocated to a trading service if a portion of that trading service is publicly accessed. This may be the case for the street lighting component of electricity, for example. The user must enter the anticipated property rates revenue **in the year for which tariffs are being set**, and then allocate this revenue between the services in the table below. As a default, allocate all property rates revenue to 'other' services. There is a check to the right of the table that the amounts allocated to the services all add up to the total. Make sure that this check is zero.*

		FX016001	FX015001002	FX002001001	FX014001

Go to sheet

On this sheet, the user must enter data on expenditures anticipated in the year for which tariffs are to be set, and allocate these between services.

ALLOCATING DIRECT COSTS PER FUNCTION

Enter the total anticipated expenditure ***in the year for which the tariffs are being set*** *. This expenditure must then be allocated to each service in order to calculate the total direct cost of providing that service. The expenditure types in white cells are from the MBRR classification. The user may choose to enter other expenditure types in the yellow cells in the 'Type of expenditure' column. There is a check to the right of the table that the amounts allocated to the services all add up to the total. Make sure that this check is zero.*

Type of expenditure	Total (R)	Water (R)	Sanitation (R)	Electricity (R)	Solid waste (R)	Other services (R)	Governance and administration (R)	check = 0
Employee related costs	263 353 367	11 266 729	11 394 434	15 381 515	19 318 786	127 577 802	78 414 101	-

ALLOCATING GOVERNANCE AND ADMINISTRATION COSTS

The cost of supply of a service includes a portion of the governance and administration costs (overheads) of the municipality. Governance and Administration costs must thus be allocated between services in order to determine the full cost of supply of that service. Enter the % of governance and administration costs that will be allocated to each service in the grey cells below.

		FX016001	FX015001002	FX002001001	FX014001		
	Total (R)	**Water (R)**	**Sanitation (R)**	**Electricity (R)**	**Solid waste (R)**	**Other services (R)**	check = 0

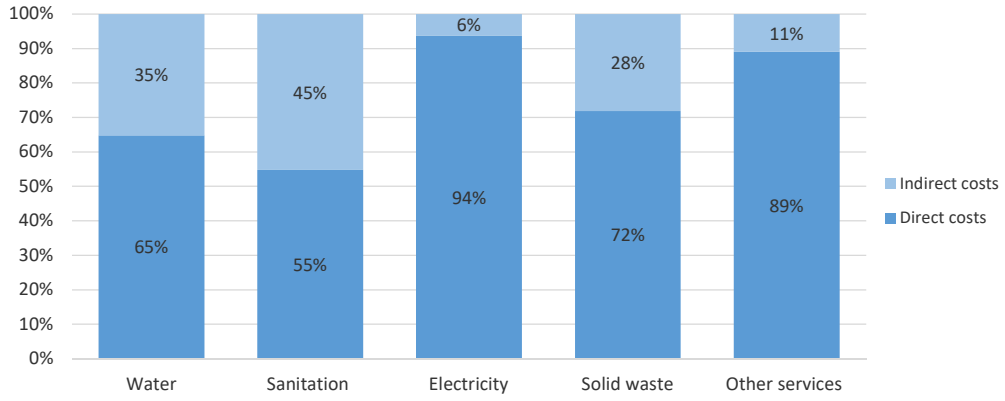
% indirect costs (overheads)		35%	45%	6%	28%	11%

Chart: Proportion of costs that are direct and indirect



On this sheet, the user must decide if deficits are to be accepted on any services. The user must then enter the surpluses to be generated on the trading services and check that these result in sufficient surplus to cross-subsidiseany deficits allowed and still generate an adequate surplus on the budget as a whole.

SUMMARY: EXPENDITURE ALLOCATED AND NON-TARIFF REVENUE RECEIVED AFTER ALLOCATION OF GOVERNANCE AND ADMINISTRATION

The table below summarises the allocation of expenditure and revenues in the previous sheets. Any non-tariff revenue allocated to the Governance and Administration function has been distributed between the services according to the allocation of the Governance and Administration expenditure between the services. There may be a gap to be filled through tariffs on 'Other services' if the property rates revenue and other non-tariff revenues are not sufficient to cover the costs of providing these services.

	Total (R)	Water (R)	Sanitation (R)	Electricity (R)	Solid waste (R)	Other services (R)
Direct expendtiure	**787 994 198**	50 486 926	33 191 065	412 346 506	69 981 945	221 987 756
Indirect expenditure	**137 005 621**	27 401 124	27 401 124	27 401 124	27 401 124	27 401 124
Total expenditure	**924 999 819**	**77 888 050**	**60 592 189**	**439 747 630**	**97 383 069**	**249 388 880**
Non-tariff revenue allocated to service	**294 901 754**	1 139 657	6 282 001	1 242 469	1 835 384	284 402 243
Non-tariff revenue allocated to Gov & Admin	**17 005 446**	3 401 089	3 401 089	3 401 089	3 401 089	3 401 089
Total non-tariff revenue allocated	**311 907 200**	**4 540 746**	**9 683 090**	**4 643 558**	**5 236 473**	**287 803 332**
Gap to be filled through tariffs	**613 092 619**	73 347 304	50 909 099	435 104 072	92 146 596	- 38 414 452

DEFICIT TO BE ACCEPTED ON SERVICES

Municipalities should move towards ensuring that all services at least break even. However, currently municipalities operate some services at a deficit. Enter the deficit that you are willing to accept on providing a service in the grey cells below. Bear in mind that you will have to generate surpluses on other services to cross-subsidise these deficits.

	Total (R)	Water (R)	Sanitation (R)	Electricity (R)	Solid waste (R)	Other services (R)
Expenditure	**924 999 819**	77 888 050	60 592 189	439 747 630	97 383 069	249 388 880
Enter deficit to be accepted as % of expenditure						
Deficit generated	- **38 414 452**	-	-	-	-	- 38 414 452

SURPLUS TO BE GENERATED ON SERVICES

The Municipal Powers and Functions Act Number 12 of 2007 allows municipalities to levy a surcharge on tariffs. Enter the total surcharge that you plan to levy in the year for which tariffs are being set on eacl service in the table below. Make sure that you have not indicated a surplus to be generated if you have already indicated that there will be a deficit in the table above. If you do this, the cell entry will be highlighted in bold red text.

	Total (R)	Water (R)	Sanitation (R)	Electricity (R)	Solid waste (R)	Other services (R)
Expenditure	**924 999 819**	77 888 050	60 592 189	439 747 630	97 383 069	249 388 880
Enter surplus to be generated as % of expenditure		3%	3%	3%	3%	
Surplus generated	**20 268 328**	2 336 642	1 817 766	13 192 429	2 921 492	-

In order for the budget to be fully funded, surpluses generated must be sufficient to at least cover anticipated deficits. If this is not the case, the user must reduce the deficits anticipated or increase the surpluses to be generated. The net surplus below is the total surpluses less the total deficits. It must be positive. If it is negative, adjust the deficits to be accepted on services or the surpluses to be generated until a positive figure is obtained.

Net surplus or deficit	**58 682 780**	*Net surplus is positive. No further adjustment is required.*
Net surplus or deficit as % of expenditure	**6,3%**	

ALLOCATION OF SURPLUS

If you are generating surpluses on some services and deficits on others, you will need to make some decisions about how the surpluses should be allocated to cross-subsidise the deficits. This must be done in the table below. The model provides a default allocation that allocates the available surplus to service in proportion to the deficit generated on a service. The user can choose to define an alternative allocation. Entries must be made in the grey cells only. This is not necessary for tariff setting, but only to confirm the overall funding of the budget.

	Total (R)	Water (R)	Sanitation (R)	Electricity (R)	Solid waste (R)	Other services (R)
Deficit generated	- **38 414 452**	-	-	-	-	- 38 414 452
Surplus generated	**20 268 328**	2 336 642	1 817 766	13 192 429	2 921 492	-
Default allocation of surplus to cover deficits	- **38 414 452**	-	-	-	-	- 38 414 452
Default % allocation of surplus		0%	0%	0%	0%	100%
Use default allocation?	Yes

1 EXECUTIVE SUMMARY

A. EXECUTIVE MAYOR FOREWORD

[redacted]

I thank you.

HJ Smit – Executive Mayor

B. MUNICIPAL MANAGER FOREWORD

The IDP [redacted]

David Nasson – Municipal Manager

2 INTRODUCTION

A. ABOUT THE IDP

I. EXECUTIVE SUMMARY

As Witzenberg Municipality we are proud to present this 1st Amendment of our 5th Generation IDP as developed and drafted in consultation with the people of Witzenberg, provincial government and sector departments, local business forums and civil society stakeholders.

The new five-year IDP sets out the vision and mission of the municipality and clearly defines the strategies and plans to deliver our objectives of infrastructure-led growth, sustainable human settlements, financial sustainability, LED, social development, strategic partnerships and international relationships.

The development of a credible IDP allows the municipality to engage in continuous planning, monitoring and evaluation of all the sector plans that form part of this IDP. The review of the 4th Generation IDP is therefore set out in the following way:

A thorough **analysis of the spatial, economic and environmental issues** in conjunction with the community, partners in government and other stakeholders has highlighted two major issues that will influence our strategies and planning over the next five years. The increased growth of especially our more vulnerable population will be addressed through the implementation of **social housing programmes such as Vredebes** and the upgrade of the informal settlement in N'Duli. These projects require major bulk infrastructure upgrading that will take up the largest portion of our grant funding for the next five years. The analysis of our **Agri-economic environment** has also indicated a positive growth over the next five years and is it essential that the municipality provides sufficient bulk and network infrastructure to support investment and job creation opportunities. It is in this regard that we will work together with the Department of Rural Development and Land Reform as well as the Department of Agriculture to ensure the successful implementation of the Agri-Park.

Witzenberg has identified four key performance areas (KPAs) based on the objectives of local government as set out in Section 156 of the Constitution.

The **KPA: Essential Services** includes the objectives of sustainable provision and maintenance of basic services and provision for the needs of informal settlements. These objectives include programmes and projects that will especially focus on the provision of **bulk infrastructure for housing project**s. The provision of **bulk electricity by Eskom** has been identified as a major risk as existing Eskom bulk infrastructure currently cannot provide for the growth requirements of Witzenberg. Other programmes and projects include the development and implementation of a **waste management strategy** with the focus on decreasing waste through the implementation of a material recovery facility and drop-off points to replace the garden waste skips. This will be done with the support and cooperation of Witzenberg's twinning municipality, Essen, in Belgium. The ongoing drought in the Western Cape has also had an impact on Witzenberg and

Draft Document

it is especially in **Tulbagh** where insufficient **water storage** capacity has resulted in the implementation of water restrictions. Funding has been allocated by the Department of Water Affairs for the construction of a storage dam over the next three years.

The key performance area of **Governance** includes the objectives of institutional development and transformation, financial viability and the strengthening of partnerships.

Financial Viability is essential towards a sustainable and developmental local government. We will especially focus on **debt management** to address non-payment, but will also continue to support our vulnerable communities through our **indigent and pro-poor policies.**

Our third key performance area of **Communal Services** includes the objective of providing and maintaining facilities and the environment. The Witzenberg mountains are the source of four of the Western Cape's major rivers and programmes. The focus will be on the **conservation of our natural environment**, the eradication of aliens in our rivers and ongoing awareness programmes that will be implemented in conjunction with various role-players.

The **Socio-Economic Support Services** KPA focuses on the objectives to support the poor and to create an enabling environment to support the local economy. The construction of houses in Vredebes will **improve the living conditions of those in informal settlements, overcrowded houses and structures in backyards.** The Vredebes development will also make provision for "GAP" housing under the FLISP Programme of the Department of Human Settlements.

The continued support and implementation of the Agri-Park will create **opportunities for investment, job creation and land reform** as an enabling environment for local economic growth.

We also understand that this is merely a strategic document and that the major challenge will be implementing and realising our plans. The Council and administration commit to achieving the objectives as set out in this IDP and urge the people of Witzenberg to walk this exciting road with us towards improved livelihoods.

Draft Document

II. DEFINITION

Integrated Development Planning is the process through which the municipality prepares a strategic developmental plan, which is the principal strategic instrument guiding all planning, management, investment, develop-ment and implementation decisions, taking into account input from all stakeholders.

The IDP crosses departmental divisions by linking the physical, social, institutional and economic components of planning and development with management and development structure. It also integrates and aligns planning in different spheres of government and therefore enforces and upholds the spirit of cooperative governance in the public sector.

The Constitution of the Republic of South Africa (1996) commits government to take reasonable measures, within its available resources, to ensure that all South Africans have access to adequate housing, healthcare, education, food, water and social security. Developmental local government can only be realised through integrated development planning and the compilation of a credible Integrated Development Plan (IDP).

III. LEGISLATION

Legal Framework for Integrated Development Planning

According to the Constitution of the Republic of South Africa, the local sphere of government is charged with the responsibility of implementing developmental local government as well as cooperative governance. The mandate to relate its management, budgeting and planning functions to its objectives gives a clear indication of the intended purposes of municipal integrated development planning, namely:

- Ensure sustainable provision of services
- Promote social and economic development
- Promote a safe and healthy environment
- Give priority to the basic needs of communities
- Encourage involvement of communities

The first piece of legislation drafted to reflect the responsibility of the local sphere of government to implement integrated development planning by means of the compilation of an IDP document, was the Local Government Transition Act (1993) as amended by the Local Government Transition Second Amendment Act (1996). In this legislation the IDP was presented as the main planning instrument that guides all planning and decision-making process of the municipality.

The Local Government Transition Act was an interim piece of legislation applicable to the local sphere of government until the demarcation of municipalities was finalised, and the need then arose to enact legislation regulating integrated development planning on a more permanent basis.

In 2000 the Local Government: Municipal Systems Act 32 of 2000 (MSA) came into effect. Section 25(1) of the Act stipulates that each municipal council must, after the start of its elected term, adopt a single, inclusive and strategic plan for the development of the municipality which:

- Links, integrates and coordinates plans and takes into account proposals for the development of the municipality;
- Aligns the resources and capacity of the municipality with the implementation of the plan;
- Forms the policy framework and general basis on which the annual budget must be based; and
- Is compatible with national and provincial development plans, and planning requirements binding on the municipality in terms of legislation.

The MSA is therefore the principal piece of legislation governing integrated development planning at municipal level. Municipalities are bound by it and must ensure its implementation. Other legislation and policy documents that

Draft Document

contain reference to integrated development planning are:

- The Constitution of the Republic of South Africa Act 108 of 1996;
- Reconstruction and Development Programme (RDP);
- Growth, Employment and Redistribution Strategy (GEAR);
- Tourism Act 72 of 1993;
- Development Facilitation Act 67 of 1995;
- National Water Act 36 of 1997;
- Housing Act 107 of 1997;
- White Paper on Local Government of 1998;
- Local Government: Municipal Structures Act 117 of 1998;
- National Environmental Management Act 107 of 1998;
- National Land and Transportation Transition Act 22 of 2000;
- Disaster Management Act 52 of 2002;
- White Paper on National Civil Aviation Policy (2005); and
- The Local Government: Municipal Finance Management Act 56 of 2003.

A further piece of legislation which has a tremendous impact on the IDP is the Municipal Finance Management Act (MFMA). Due to the coming into effect of this Act, the revision of the IDPs must be aligned with the stipulations and timeframes as set out in this Act.

Section 35 of the MSA states explicitly that an integrated development plan adopted by municipal council is the principal strategic planning instrument which:

- Guides and informs all planning and development, and all decision making with regard to planning, management and development in the municipality;
- Binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between a municipality's IDP and national or provincial legislation, in which case such legislation prevails; and
- Binds all other persons to the extent that those parts of the IDP that impose duties or affect the rights of those persons have been passed as a by-law.

Legislation stipulates clearly that a municipality must not only give effect to its IDP, but must also conduct its affairs in a manner which is consistent with its IDP.

IV. PROCESS

Developing the Integrated Development Plan

In compliance with the Municipal's Systems Act as amended, the IDP Review/ Amended and Budget Process Plan were adopted by full Council on 22 November 2021.

This IDP and Budget Process Plan inter alia seek to address the:

- Identification of areas requiring additional attention in terms of legislative requirements, proper planning processes and sound financial management;
- Inclusion of the most current Census and own statistical data;
- Consideration and review of any other relevant and new information;
- Addressing comments received from the various role-players;
- Shortcomings and weaknesses identified through self-assessment;
- Preparation and review of sector plans and its alignment with the IDP;
- Preparation and review of the Performance Management System (PMS);
- Update of the 5-year Financial Plan; and
- Preparation and finalisation of the annual Budget in terms of the relevant legislation.

The situational analysis process started in January 2022

All further actions in accordance with legislative and regulatory requirements, such as the final approval of the IDP, and the Medium Term Revenue and Expenditure Framework for the

Draft Document

ensuing three year financial cycles, SDBIPs, the submission of all the relevant documentation to the appropriate authorities and the making public of these final documents will be executed.

Public Participation Process

Section 29 of the Municipal Systems Act, No 32 of 2000 states that –
29. (1) The process followed by a municipality to draft its integrated development plan, including its consideration and adoption of the draft plan, must –
(b) through appropriate mechanisms, processes and procedures established in terms of Chapter 4, allow for—
(i) the local community to be consulted on its development needs and priorities;
(ii) the local community to participate in the drafting of the integrated development plan.

It provides an opportunity for all stakeholders with different needs and priorities to learn from each other and to negotiate and compromise around their viewpoints, leading to unification and consensus building.

The municipality adopted the 2022 – 2023 Reviewed/Amended IDP and Budget Process Plan on 22 November 2021. Amongst others, it includes appropriate mechanisms, processes and procedures for consultation and participation of local communities, organs of state, and other role-players in the IDP drafting process.

The diagram on the following page outlines the steps in developing the Amended Integrated Development Plan 2022 – 2023.

Public participation allows the municipality and the community to focus on itself, and develop a future-orientated vision and mission, proactively positioning itself and adapting and learning from an ever-changing environment.

B. VISION, MISSION, OBJECTIVES

I. VISION AND MISSION

Our Vision

A municipality that cares for its community, creating growth and opportunities.

Our Mission

The Witzenberg Municipality is committed to improve the quality of life of its community by:

- Providing and maintaining affordable services
- Promoting social and economic development
- The effective and efficient use of available resources
- Effective stakeholder and community participation

Value System

- Driven by the aspirations of our community, we will respect and uphold the Constitution of the Republic of South Africa.
- We commit ourselves to the Code of Conduct for Councillors and officials in terms of the Municipal Systems Act.
- We commit ourselves to the principles of sound financial management.

We subscribe to the principles of Batho Pele

- Consultation – Citizens should be consulted about service levels and quality when possible.
- Service standards – Citizens must be made aware of what to expect in terms of the level and quality of services.
- Access – Citizens should have equal access to the services to which they are entitled.
- Courtesy – Citizens should be treated with courtesy and consideration.
- Information – Citizens must receive full and accurate information about their services.
- Openness and transparency – Citizens should be informed about government departments' operational budgets and management structures.
- Redress – Citizens are entitled to an apology, explanation and remedial action if they are promised a standard of service that is not delivered.
- Value for money – Public services should be provided economically and efficiently.

Draft Document

II. STRATEGIC MAP

WITZENBERG MUNICIPALITY: STRATEGIC MAP 2023/24					
Vision	**Mission**	**Municipal KPA**		**Pre-determined Objectives**	
A municipality that cares for its community, creating growth and opportunities.	The Witzenberg Municipality is committed to improve the quality of life of its community by: - Providing & maintaing affordable services - Promoting Social & Economic Development - The effective & efficient use of resources - Effective stakeholder & community participation.	1	Essential Services	1,1	Sustainable provision & maintenance of basic infrastructure
				1,2	Provide for the needs of informal settlements through improved services
		2	Governance	2,1	Support Institutional Transformation & Development
				2,2	Ensure financial viability.
				2,3	To maintain and strengthen relations with international- & inter-governmental partners as well as the local community through the creation of participative structures.
		3	Communal Services	3,1	Provide & maintain facilities that make citizens feel at home.
		4	Socio-Economic Support Services	4,1	Support the poor & vulnerable through programmes & policy
				4,2	Create an enabling environment to attract investment & support local economy.

III. SWOT ANALYSIS

Strengths	Weaknesses
▪ Pro-poor policies (e.g. indigent; procurement) ▪ Close cooperation at management level ▪ Good dialogue with business and agricultural sectors ▪ Good water quality ▪ Effective international relations ▪ IGR structures and forums ▪ Budget control ▪ Natural environment ▪ Location for certain opportunities ▪ Good governance and good IGR ▪ Meeting constitutional obligations ▪ Visionary leadership ▪ Low vacancy rate in organisational structure ▪ Community engagements	▪ Financial limitations ▪ Town management ▪ Inadequate storm water systems in some areas ▪ Old asbestos water and sanitation networks ▪ Resealing and maintenance of roads ▪ Garden refuse – Tulbagh, Wolseley and N'Duli ▪ Law enforcement ▪ Ageing infrastructure ▪ Centralisation/town management ▪ High water losses ▪ Lack of integration policies, silo operations ▪ Office space ▪ Slow turnaround time ▪ Vulnerable IT (integration)
Opportunities	**Threats**
▪ Tourism potential ▪ Active ward committees and related activities ▪ Further international relations ▪ IGR and cooperation on transversal programmes ▪ Wolwekloof Learning Academy ▪ EPWP for poverty reduction ▪ Close working relationship with big business to enhance economic development ▪ Performance management system to monitor organisational performance not fully in place ▪ Pine forest ▪ Recycling and composting ▪ Renewable energy ▪ Reduce water losses/unaccounted to acceptable standards ▪ Available natural resources to stimulate economic growth ▪ Development of GIS ▪ Good communication and branding ▪ Marketing (internal and external) ▪ Expand international relationships ▪ Upgrade infrastructure ▪ LED pilot projects ▪ Land audit ▪ Natural environment ▪ Revenue enhancement ▪ Koekedouw Dam ▪ Rural wards – funding possibilities ▪ Improvement of client services ▪ Real law enforcement	▪ Seasonal agriculture-based labour shrinks revenue base ▪ Political volatility (fragile coalitions) ▪ High level unemployment/economically inactive people ▪ Increasing TB and HIV/Aids prevalence ▪ Vandalism, theft of municipal assets and property ▪ Legacy of decrepit infrastructure and insufficient infrastructure replacement programme ▪ Uncontrolled habitation in informal settlements ▪ Insufficient revenue base/lack of economic growth ▪ Equitable funding formula ▪ Insufficient land for graveyards ▪ Substance abuse can become a threat ▪ Farm eviction ▪ Tulbagh roads ▪ Service delivery in informal settlements ▪ Social ills – HIV and TB, crime, substance abuse ▪ Unemployment ▪ Migration / influx control ▪ Land availability ▪ Financial sustainability ▪ Cost of services ▪ Sustainability of low-cost housing ▪ Grant dependency ▪ Animal management ▪ NERSA legislation – non-compliance / compliance ▪ ESKOM / load shedding – incapacity to increase for demand from municipality

Draft Document

IV. GOVERNMENT ALIGNMENT

Municipalities are encouraged and supported by both national and provincial government to develop realistic and credible IDPs that not only comply with relevant legislation but also–

1. are owned by local leadership, municipal management and the community as the single strategic plan to direct resources within the municipality;
2. are driven by the management team and systems within the municipality with implementation regularly monitored during the year through the performance management system;
3. contain a long-term development strategy that can guide investment across the municipal area;
4. provide an investment plan for national, provincial and local government and non-governmental stakeholders to enhance and enable joint planning and resource alignment to improve service delivery to all stakeholders; and
5. include local area or ward plans to localise the strategy and implementation of the IDP.

National Policy Directives

There is a clear hierarchical structure of national policy directives starting with the Medium Term Strategic Framework for 2019-2044 (MTSF). The plan focuses on the seven priorities and related interventions of the sixth administration of government, and the integrated monitoring framework focuses on monitoring outcomes, indicators and targets towards the achievement of the priorities.

Medium-term Strategic Framework for 2019-2024 (MTSF)

The National Development Plan (NDP) 2030 issued in 2012 set out a long-term vision for the country and provides the programme through which South Africa can advance radical economic transformation through development planning. The Medium Term Strategic Framework (MTSF) 2014-2019 outlined the plan and outcome-based monitoring framework for implementing the NDP during the country's fifth democratic administration. This MTSF 2019-2024 outlines the priorities to be implemented in the sixth administration. It also outlines the priorities and interventions across South Africa's national development pillars.

The South African government sees development planning as a means to achieve national development goals. All three spheres of government conduct development planning: The MTSF reflects the NDP Five Year Implementation Plan and Integrated Monitoring Framework at a national level, the Provincial Growth and Development Strategies / Plans (PGDS/P) of all nine provinces, and will in 2020 incorporate the Integrated Development Plans (IDPs) at Metropolitan and District Municipality level to ensure effective service delivery.

Draft Document

▪ NATIONAL DEVELOPMENT PLAN – VISION FOR 2030

The plan, adopted by Cabinet on 11 November 2011, helps us to chart a new path for our country.

It focuses on putting in place the things that people need to grasp opportunities such as education and public transport and to broaden the opportunities through economic growth, the availability of jobs and change the life chances of our youth that remain underdeveloped by our apartheid history. Everything in the plan is aimed at reducing poverty and inequality.

In summary the plan has the following objectives that must be achieved by 2030:

1. Create Jobs
2. Expand Infrastructure
3. Transform Urban and Rural Spaces
4. Education and Training
5. Provide Quality Healthcare
6. Build a Capable State
7. Fight Corruption Transformation and Unity

Draft Document

- **PROVINCIAL STRATEGIC PLAN (PSP) – 2019 - 2024**

- **AN OUTLINE OF THE VISION-INSPIRED PRIORITIES**

1. SAFE AND COHESIVE COMMUNITIES

THE WESTERN CAPE IS A PLACE WHERE RESIDENTS AND VISITORS FEEL SAFE.

When people feel unsafe, it affects every area of their lives. For example, it prevents people from enjoying public spaces and travelling safely to work and discourages our businesses from growing and creating jobs. This is why safety is a theme in our other priorities, and every provincial department will contribute to a safer Province.

This priority focuses on improving law enforcement and addressing the root causes of violent crime, such as child abuse and unemployment.

2. GROWTH AND JOBS

AN ENABLING ENVIRONMENT FOR THE PRIVATE SECTOR AND MARKETS TO DRIVE GROWTH AND CREATE JOBS.

We want to make the Western Cape a place where businesses want to invest and from where businesses export their products. This means we must have excellent infrastructure, skilled workers, and companies that can compete with the best in the world. With this in place, more and more people in the Province will have jobs.

3. EMPOWERING PEOPLE

RESIDENTS OF THE WESTERN CAPE HAVE OPPORTUNITIES TO SHAPE THEIR LIVES AND THE LIVES OF OTHERS, TO ENSURE A MEANINGFUL AND DIGNIFIED LIFE.

We see a Western Cape where families are strong, our youth have the skills, knowledge, and personal character to succeed in the 21st Century world of technology and computers, and all of our people have access to excellent health services.

4. MOBILITY AND SPATIAL TRANSFORMATION

RESIDENTS LIVE IN WELL-CONNECTED, VIBRANT, AND SUSTAINABLE COMMUNITIES AND MOVE AROUND EFFICIENTLY ON SAFE, AFFORDABLE, LOW CARBON PUBLIC TRANSPORT.

We want to see a Western Cape where our people use safe, affordable, and green public transport and live in neighbourhoods that include different racial and income groups and are close to economic and social opportunities.

5. INNOVATION AND CULTURE

GOVERNMENT SERVICES ARE DELIVERED TO THE PEOPLE OF THE WESTERN CAPE IN AN ACCESSIBLE, INNOVATIVE, AND CITIZEN-CENTRIC WAY.

As your provincial government, we are constantly looking for ways to improve our services to you. We will assess our services regularly and try new things, and change what we are doing if we are not meeting your needs.

The Witzenberg Municipality, through its Integrated Development Plan, strives to align its priorities to those of provincial and national government, The following matrix provides the strategic alignment between the three spheres of government.

National Priorities (2019 – 2024)	***Western Cape Vision-inspired Priorities (2019 – 2024)***	***Cape Winelands District Strategic Objectives***	***Witzenberg Strategic Objectives***
5: Social cohesion & safe communities *2: Education, skills & health*	*1: Safe and Cohesive communities*	*SO 1: To create an environment and forge partnerships that ensure the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment*	*2.1 Support Institutional Transformation and Development.* *3.1 Provide and maintain facilities that make citizens feel at home.*
5: Social cohesion & safe communities	*1: Safe and Cohesive communities* *3: Empowering People* *5: Innovation and Culture*	*SO 1: To create an environment and forge partnerships that ensure the health, safety, social and economic development of all communities including the empowerment of the poor in the Cape Winelands District through economic, environmental and social infrastructure investment.*	*4.1 Support the poor and vulnerable through programmes and policy*
1: Economic transformation and job creation. *4: Spatial integration, human settlements & local government*	*4: Mobility and Spatial Transformation* *2: Growth and Jobs*	*SO : 2 Managing a sustainable bulk services strategy and transport system which foster social and economic opportunities.*	*1.2 Create an enabling environment to attract investment and support local economy.*

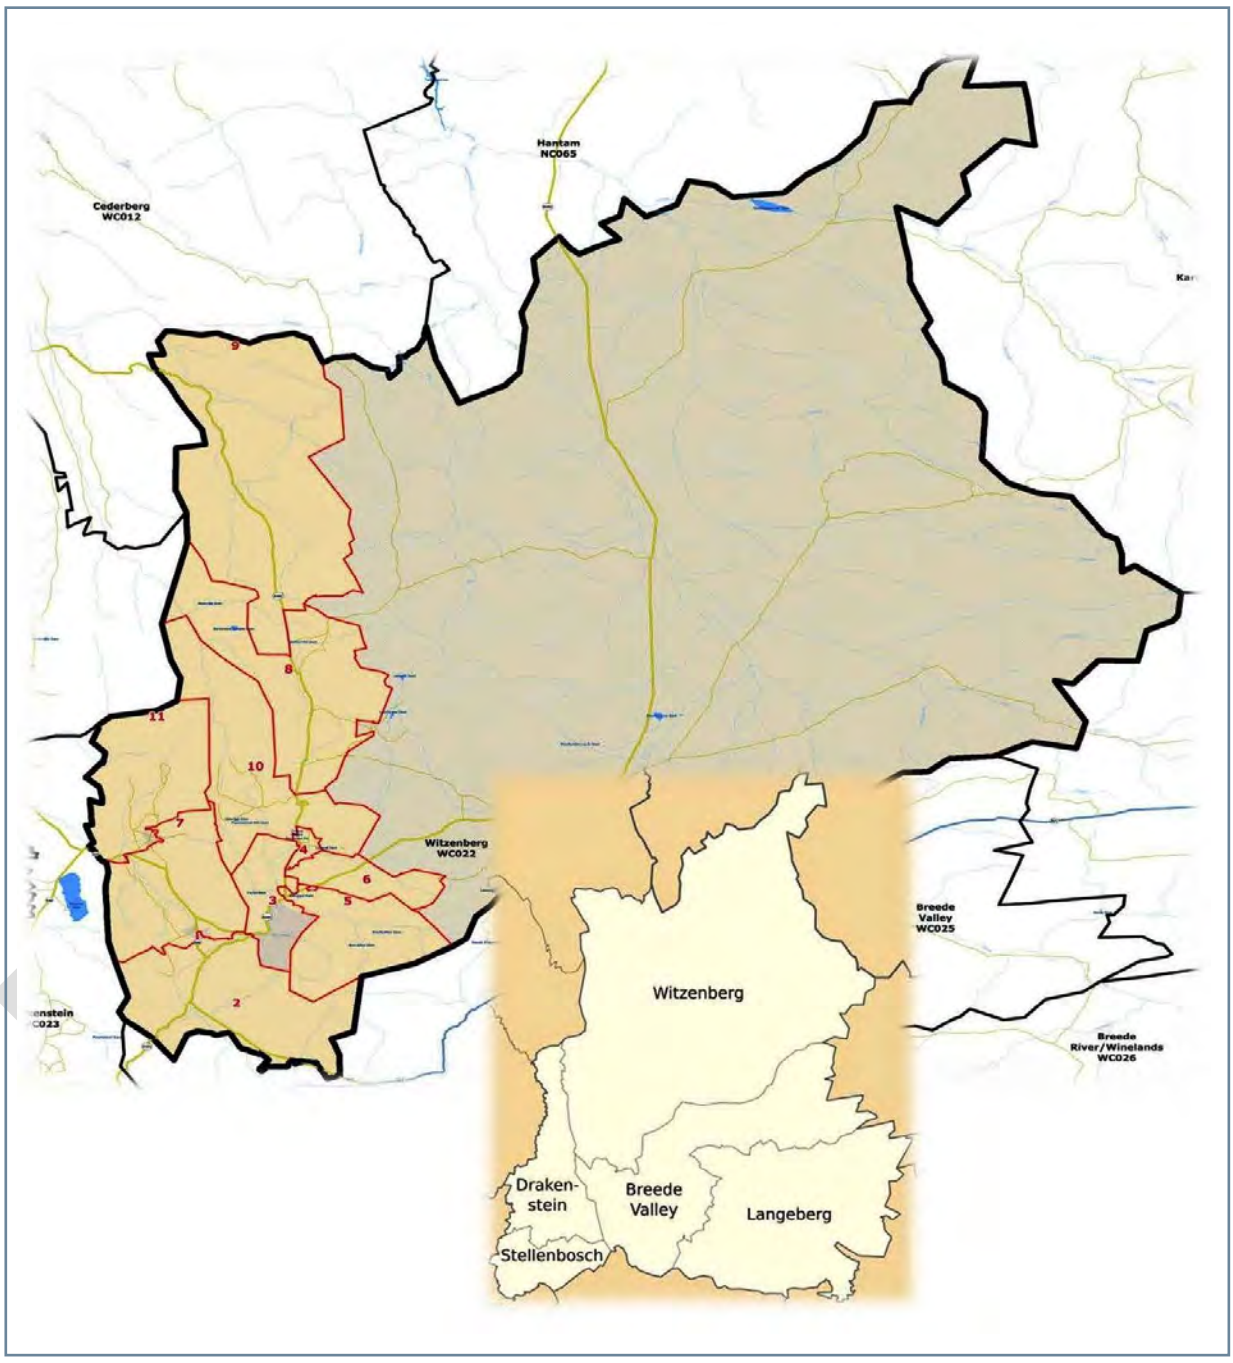
3 SITUATIONAL ANALYSIS

A. SNAPSHOT

I. MAP



The Witzenberg Local Municipality (LM), founded in 2000, is classified as a Category B-municipality and is responsible for basic service provision to the demarcated municipal area that includes the towns of Ceres, Tulbagh, Prince Alfred's Hamlet, Wolseley and Op-die-Berg. The rural areas within the municipal boundary are Ceres Valley, Koue Bokkeveld, Achter-Witzenberg and the northern portion of the Breede River Valley area.

The climate in Witzenberg is known for its hot and dry summer days. Winds are seasonal and generally north-westerly or south-easterly. The average annual rainfall in Ceres is about 1 088 mm and the average temperature range is 2,4°C to 29,9°C.

Located in the picturesque and fertile Breede Valley, Witzenberg is best known for its fruit and wine products. The region is also well-known for producing other agriculture-linked products such as olives and grain, as well as for producing beef and pork products. Horse and cattle stud farms are also found within the municipal area.

The principal socio-economic realities in our region are:

- Seasonal labour and social grant dependency
- Unemployment rate: 5 339 people
- People in poverty: 24 231
- Skills shortage (illiteracy rate = 36%)
- Youthful population: 56,8% of population is under 30 years of age
- Population concentration: 46,9% rural; 53,1% urban.

Analysis of socio-economic profile

The municipal summary below provides a fair reflection of the socio-economic reality of the municipality. This profile uses data primarily sourced from Statistics South Africa, the Socio-Economic Profile, the Municipal Economic Review and Outlook compiled by Provincial Treasury and administrative data from sector departments. The data sourced from sector departments are the most recent available. The latest survey data available at municipal level from Statistics South Africa is from the 2016 Community Survey; comparisons are also made with the 2011 Census, and the 2022 Socio-Economic Profile produced by Western Cape Provincial Treasury.

The Witzenberg Local Municipality (LM), founded in 2000, is classified as a Category B-municipality and is responsible for basic service provision to the demarcated municipal area that includes the towns of Ceres, Tulbagh, Prince Alfred's Hamlet, Wolseley and Op-Die-Berg. The rural areas within the municipal boundary are Ceres Valley, Koue Bokkeveld, Achter-Witzenberg and the northern portion of the Breede River Valley area.

The climate in Witzenberg is known for its hot and dry summer days. Winds are seasonal and generally north-westerly or south-easterly. The average annual rainfall in Ceres is about 1 088 mm and the average temperature range is 2,4°C to 29,9°C.

Located in the picturesque and fertile Breede Valley, Witzenberg is best known for its fruit and wine products. The region is also well-known for producing other agriculture-linked products such as olives and grain, as well as for producing beef and pork products. Horse and cattle stud farms are also found within the municipal area.

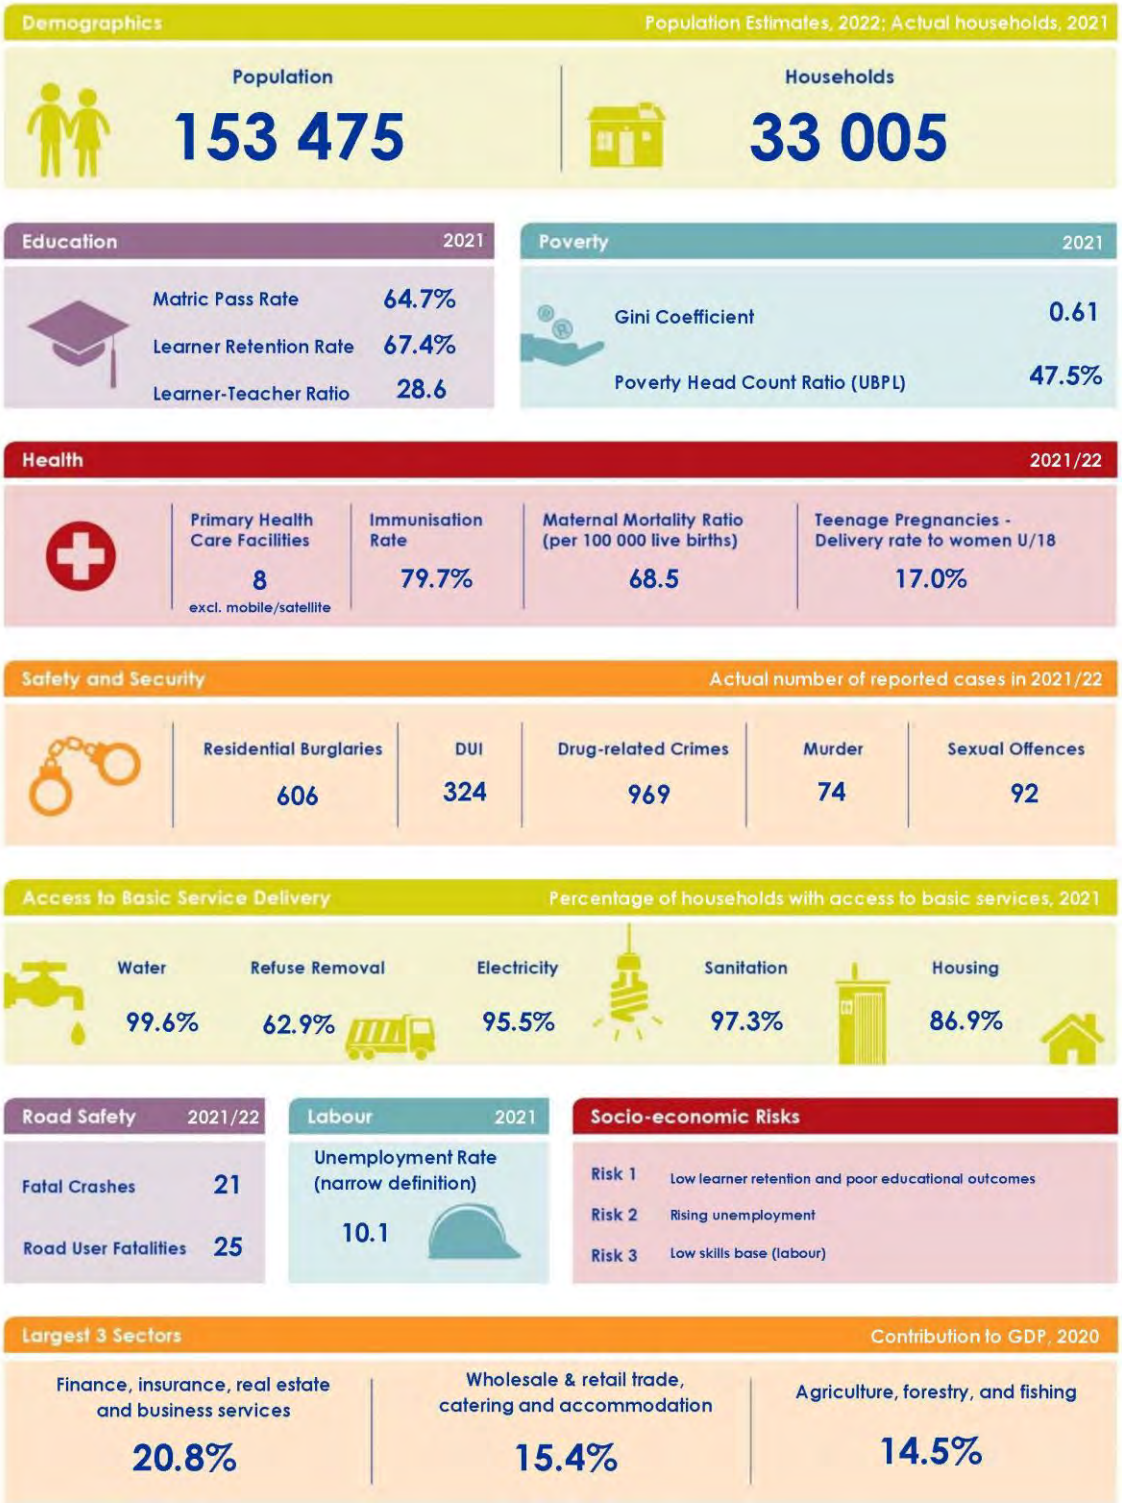
1 SNAPSHOT: WITZENBERG AT A GLANCE



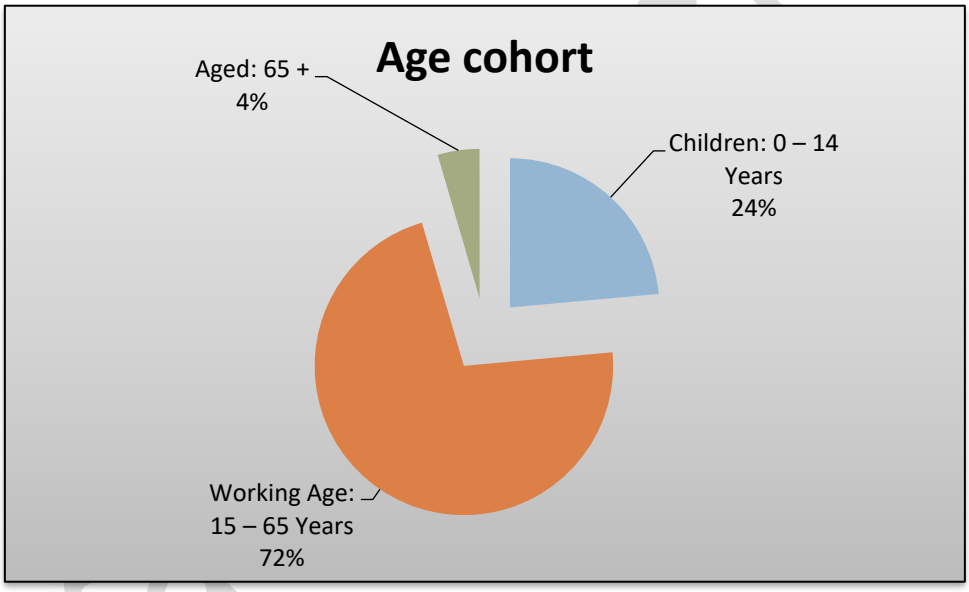
Source: Socio-Economic Profile- Provincial Treasury

Municipal demographics

As of 2022, 16 per cent of the Cape Winelands' population resides in the Witzenberg municipal area. The population totals 153 475 persons in 2022 and is estimated to be 167 536 persons by 2026. This equates to an estimated average annual growth rate of 2.2 per cent for the period. The estimated population growth rate of Witzenberg is therefore 0.5 percentage points higher than the estimated average annual population growth rate of the Cape Winelands District which is 1.7 per cent..

The overall sex ratio (SR) depicts the number of males per 100 females in the population. The data indicates that as of 2022, there are more males than females in the Witzenberg municipal area with a ratio of 52.1 per cent (males) to 47.9 per cent (females). The sex ratio is therefore 109, meaning that for every 100 women there are 109 men. The ratio increases towards 2025, before declining slightly 2026. The increase could be attributed to various factors such as a decrease in male mortality rates and the potential inflow of working males.

Witzenberg: Population age cohort, 2022



Source: Socio-Economic Profile - Provincial Treasury

The infographic also depicts the population composition of the municipal area per age cohort. These groupings are expressed as a dependency ratio which indicates those who are part of the workforce (Age 15 – 64) and those who are dependent on them (children or senior citizens). Between 2022 and 2026, the largest population growth was recorded in both the working age (15-64) and 65+ age category at 2.4 per cent. These predicted growth rates decrease the dependency ratio from 39.1 in 2022 to 37.9 in 2026. The decreasing dependency ratio is beneficial as it implies less pressure on social systems and municipal services. It indicates that a smaller proportion of the Witzenberg population is not working, and, as a result, there is less strain placed on the government for support and the working population to support the non-working population.

Basic education

Education is a powerful change agent that can uplift a nation and establish a healthy and efficient economy. Improved educational outcomes raise productivity, helps individuals acquire jobs, and plays a crucial role in securing economic and social progress. Through indirect positive effects on health and life expectancy, the level of education of a municipal area also influences its welfare.

Learner enrolment in the Witzenberg municipal area increased from 18 503 in 2019 to 19 112 in 2021 (an enrolment of 609 more learners compared to 2019).

Learner enrolment			Learner-teacher ratio	
Year	2020	2021	Average learner-teacher ratio (2020)	Average learner-teacher ratio (2021)
Witzenberg	18 705	19 112	27.8	28.6

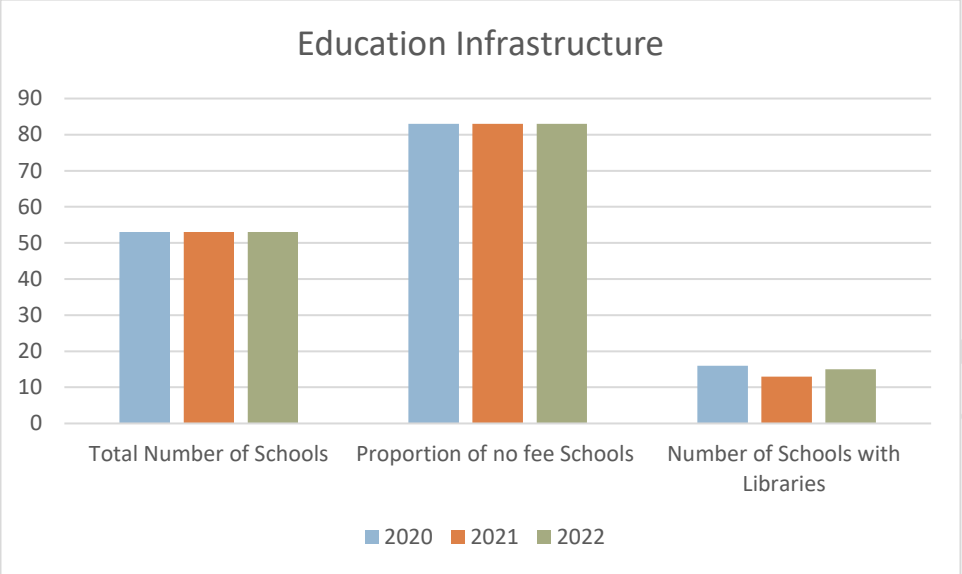
Source: Socio-Economic Profile - Provincial Treasury

Learner teacher ratios are indicative of the capacity of schools to accommodate more learners. The Department of Education sets learner-teacher ratio upper limits of 40:1 in ordinary primary schools and 35:1 in ordinary high schools. According to the 2021 School Realities publication, when counting only state-paid educators in the Western Cape, the average learner-teacher ratio was 39.8, a much higher ratio than the average ratio of 31.9 for schools with both state-paid and school-governing-body-paid educators. This reflects the potential challenges faced by state-funded public schools. In the Witzenberg municipal area, the average learner-teacher ratio for 2021 is 29:1 which is lower than the recommended upper limits of 35:1-40:1, enabling the possibility of higher-quality learning opportunities and more individualized teaching.

Education remains one of the key avenues through which the state is involved in the economy. In preparing individuals for future engagement in the labour market, policy choices and decisions in the sphere of education play a critical role in determining the extent to which future economic and poverty reduction plans can be realised. Witzenberg's matric pass rate is on a declining trajectory, from 73.9 per cent in 2019 to 64.7 per cent in 2021. This is the lowest rate when compared to other municipalities within the District. These results also do not take into consideration the drop-out rate which as stated above, is more than 30 per cent of learners

Draft Document

Educational facilities



Source: Socio-Economic Profile - Provincial Treasury

The number of public ordinary schools within the Witzenberg municipal area is recorded at 53 in 2021, which has remained unchanged over the past few years. The Western Cape Education Department has outlined the budget for education infrastructure which amounts to R25 million for the 2022/23 financial year. This allocation will be used for new and replacement infrastructure for Waveren Secondary School.

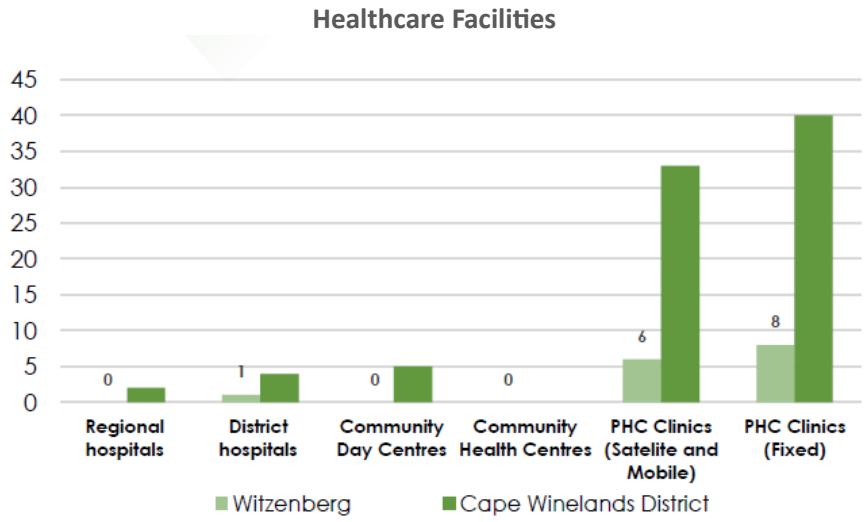
The No-fee Schools policy abolishes school fees in the poorest 40% of schools nationally for learners from Grade R to Grade 9. As per the policy, schools that do not charge fees will be allocated a larger portion of funding from the national budget per learner, to make up for the fees that would have been charged. The proportion of no-fee schools in the Witzenberg municipal area remains at 83 per cent in 2021, a total of 44 schools.

Of the 53 schools in the Witzenberg municipal area, 15 are equipped with libraries, and 1 under construction at Tulbagh High School. The availability of library facilities within schools contribute towards narrowing the academic attainment gap by allowing students access to information, this in turn is directly linked to improved educational outcomes.

Health

All citizens' rights to access to healthcare services are directly affected by the number and spread of facilities within their geographical reach. South Africa's healthcare system is geared in such a way that people have to move from primary level, with a referral system, to secondary and tertiary levels.

Draft Document



Source: Socio-Economic Profile - Provincial Treasury

In 2021 the Witzenberg municipal area had 8 fixed primary healthcare clinics and 6 mobile/satellite clinics. In addition to these primary healthcare facilities, there is 1 district hospital, as well as 9 ART treatment sites and 10 TB clinics. The municipal area has 34 out of 207 (16.4 per cent) healthcare facilities within the Cape Winelands District.

Emergency Medical Services

Health Indicator	*Witzenberg*	*Cape Winelands*
EMS operational ambulances	*5*	*37*
Number of operational ambulances per 10 000 people	*0.3*	*0.4*

Source: Socio-Economic Profile - Provincial Treasury 2022

The provision of more operational ambulances can provide greater coverage of emergency medical services. In 2021, the Witzenberg municipal area had a total 0.3 ambulances per 10 000 people servicing the municipal area. This number only refers to Provincial ambulances and excludes all private service providers.

HIV/Aids

Area	Total Registered patients receiving ART		Number of new ART patients	
	2020/21	2021/22	2020/21	2021/22
Witzenberg	6 810	5 369	594	522
Cape Winelands District	32 949	32 719	2 825	3 780

Socio Economic Provincial Treasury 2022

Witzenberg's total registered patients receiving antiretroviral treatment (ART) decreased by 1 441 patients, from 6 810 in 2020/21 to 5 369 in 2021/22. In turn, the number of new patients receiving ART also decreased from 594 in 2020/21 to 522 in 2021/22. A total of 32 719 registered patients received antiretroviral treatment in the Cape Winelands District, with the Witzenberg municipal area representing 16.4 per cent of these patients. There has been an average annual decrease of 7.1 per cent between 2016/17 (1 100) and 2021/22 (761) in the number of registered patients receiving TB treatment in the Witzenberg municipal area. Continuous ART is important for maintaining viral suppression. When ART is discontinued, it could lead to an increase in the transmission of HIV to others, as well as high care costs..

	Cape Winelands District	381	394	414
Per 100 000	Witzenberg	49	46	49
	Cape Winelands District	41	42	43

Source: Socio-Economic Profile - Provincial Treasury 2022

The number of actual murders in the Witzenberg municipal area increased from 69 reported cases in 2020/21 to 74 in 2021/22. This amounted to an increase in the murder rate from 46 occurrences per 100 000 people to 49 (6.52 per cent). The municipal area's murder rate in 2021/22 was higher than the

District average of 43 but notably below the Province as a whole (56).

Sexual offences

SEXUAL OFFENCES		2019/20	2020/21	2021/22
Actual Number	Witzenberg	136	90	92
	Cape Winelands District	1 012	790	806
Per 100 000	Witzenberg	94	61	61
	Cape Winelands District	110	84	84

Source: Socio-Economic Profile - Provincial Treasury 2022

Sexual offences include rape (updated to the new definition of rape to provide for the inclusion of male rape), sex work, pornography, public indecency and human trafficking.

The reported sexual offences declined by 46 cases from 2019/20 to 2020/2. In 2021/22, there were 92 reported sexual offences in the Witzenberg area compared to 90 in 2020/21. The rate per 100 000 people in Witzenberg (61) is below the District rate of 84. South Africa is amongst the top 5 countries in the world with respect to reports of rape, therefore it is a huge problem that needs to be addressed.

Drug-related offences

DRUG – RELATED OFFENCES		2019/20	2020/21	2021/22
Actual Number	Witzenberg	1 150	881	969
	Cape Winelands District	7 933	5 903	5 729
Per 100 000	Witzenberg	799	597	644
	Cape Winelands District	859	628	600

Source: Socio-Economic Profile - Provincial Treasury

Drug-related crimes refer to the situation where the perpetrator is found to be in possession of, under the influence of, or selling illegal drugs.

Drug-related incidences within the Witzenberg area decreased from 799 cases in 2019/20 to 597 cases in 2020/21. Thereafter, the number of incidences increased between 2020/21 and 2021/22, from 597 to 644. When considering the rate per 100 000 people, at 644 cases per 100 000 people in 2021/22, the Witzenberg area rate is above that of the District (600).

Driving under the influence

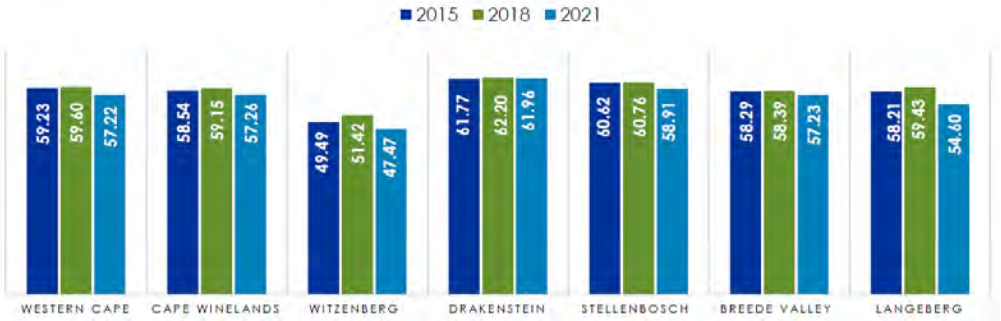
Source: Socio-Economic Profile - Provincial Treasury

A situation where the driver of a vehicle is found to be over the legal blood alcohol limit.

The number of cases of driving under the influence of alcohol or drugs in the Witzenberg area shows a significant increase from 80 in 2020/21 to 324 in 2021/22. In line with the increase in DUI's, the Witzenberg area experienced an increase in the number of road user fatalities (from 15 in 2020/21 to 25 in 2021/22). In addition to this, the municipal area experienced 21 fatal crashes in 2021/22.

Poverty

GDPR per capita is the measure of economic output that accounts for the total number of people. It is achieved by dividing the municipal area's total GDP by its total population in a particular year. An increase in GDPR per capita, i.e., GDPR per person, is experienced only if the economic growth rate exceeds the population growth rate. At R63 733 in 2021 (current prices), Witzenberg's GDPR per capita is below that of the CWD (R67 798) and significantly below that of the Western Cape (R81 650).

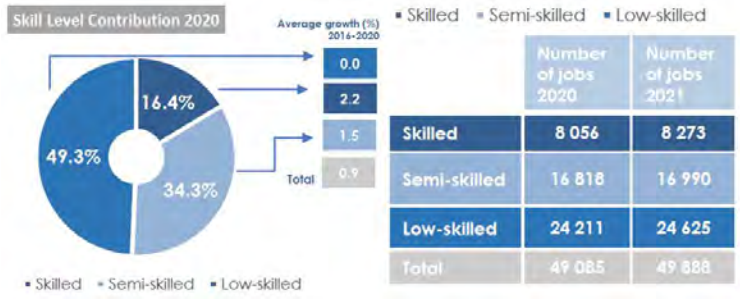


Source: Socio-Economic Profile - Provincial Treasury

The Upper Bound Poverty Line (UBPL) head count ratio is the proportion of the population living below the UBPL i.e., that cannot afford to purchase adequate levels of food and non-food items. The UBPL in South Africa is R1 227 (in April 2019 prices) per person per month.
Poverty affects the social development of communities through lower life expectancy, malnutrition and food insecurity, higher exposure to crime and substance abuse, lower educational attainment and poor living conditions. The NDP aims to eliminate poverty by 2030.

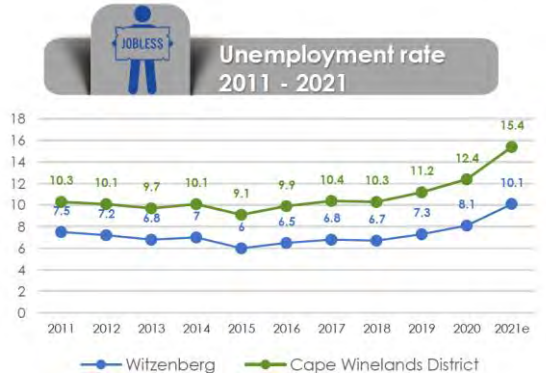
In 2021, 47.5 per cent of Witzenberg's population fell below the UBPL. This figure improved from the 49.5 per cent and 51.4 per cent recorded for the periods 2015 and 2018, respectively. The Witzenberg municipal area represents the lowest proportion of people living in poverty when compared to other municipalities in the District and is below that of the District figure (57.3 per cent) recorded in 2021.

Labour Market Performance



It is estimated that Witzenberg's total employed will in 2021 amount to 58 924 workers, of which 49 888 (84.7 per cent) are employed in the formal sector and 9 036 (15.3 per cent) are informally employed. Employment in the formal sector had an annual average increase of only 0.9 per cent from 2016 to 2020 while the informal sector suffered an annual average decline of 6.19 per cent over this period. The informal economy was responsible for the majority of the job losses in 2021. This is a concern as the informal economy should be able to act as a buffer during times of economic recession.

Most of the formally employed consisted of low-skilled (49.3 per cent) and semi-skilled (34.3 per cent) workers. The skilled category only contributed 16.4 per cent to total formal employment. From 2016 to 2020, the skilled category grew at a pace of 2.2 per cent per annum, followed by the semi-skilled category which grew at a pace of 1.5 per cent per annum, both of which outpaced the low-skilled employment category which experienced no growth over the period. The growth in the skilled and semi-skilled categories reflects the increasing market demand for skilled labour and the need for skills development initiatives, particularly considering the growing tertiary sector in the Witzenberg municipal area.



Witzenberg (estimated at 10.1 per cent in 2021) had the lowest unemployment rate in the Cape Winelands District. The unemployment rate in the municipal area is below the District average of 15.4 per cent and significantly below the Provincial rate of 25.1 per cent. Despite this, unemployment has been on an upward trajectory since 2015, and is largely driven by job losses as a result of the drought, loadshedding and economic recession over this period. The not economically active population has also increased from 2020 to 2021, as job losses and an insufficient supply of jobs have led to an increasing number of discouraged work- seekers. Unfortunately, most job losses affected low skilled and informal workers who are more vulnerable to living in poverty during times of economic decline

Draft Document

II. BASIC SERVICES ANALYSIS

Witzenberg Municipality provides basic services to all communities residing within the urban edge of towns located in the municipal area. Apart from sanitation services through the emptying of septic tanks in rural areas, no other basic services are provided on privately owned land outside residential built areas. All households in residential areas have access to services such as water provision, sanitation, electricity and waste removal. Informal settlements are serviced through communal water and toilet facilities.

The following statistics on the access to services for the whole of Witzenberg, including areas outside the urban edge, has been provided by Provincial Treasury:

Housing

Access to Formal Housing

Socio-Economic Profile 2020	Witzenberg	Cape Winelands District
Total number of households	33 005	236 480
Formal main dwelling	28 665	194 858
	86.9%	*82.4%*
Water (piped inside dwelling/within 200 m)	*99.6%*	*99.4%*
Electricity (primary source of lighting)	*95.5%*	*96.2%*
Sanitation (flush/chemical toilet)	*97.3%*	*96.6%*
Refuse removal (at least weekly)	*62.9%*	*77.6%*

Source: Socio-Economic Profile - Provincial Treasury 2022

With a total of 33 005 households in the Witzenberg municipal area, 86.9 per cent had access to formal housing. This is the second highest (after Langeberg) when compared to other municipalities within the District and higher than the District average of 82.4 per cent. The proportion of informal dwellings in the municipal area (12.3 per cent) is similar to the District's rate of 12.4 per cent.

With the exception of refuse removal services, access levels in the Witzenberg municipal area were at better levels than access to formal dwellings, with access to piped water inside/within 200m of the dwelling at 99.6 per cent, access to electricity (for lighting) at 95.5 per cent, access to flush or chemical toilet at 97.3 per cent and the removal for refuse at least weekly by local authority at 62.9 per cent of households. These access levels were above the District averages for water and sanitation services, and below District averages for electricity services and refuse removal.

Free Basic Services

Municipalities also provide a package of free basic services to households who are financially vulnerable and struggle to pay for services.

The stressed economic conditions continue to exert pressure on household income levels, which in turn is likely to see the number of indigent households and the demand for free basic services increase.

.

Access to basic services for residential communities

The following tables indicate access to basic services with regard to each residential community in Witzenberg. The figures show the number of formal households (accounts) connected to a service delivery network as well as the number of households in informal settlements with access to communal service points. The shortfall in housing units is derived from the Housing Waiting List information as contained in the audited 2017/18 Annual Report.

Basic service provision per ward/town (within urban edge).

Wards	Town	Nr. of Accounts				*Informal	Housing
		Water	Sanitation	Electricity	Refuse	Households	Waiting List

Top four service delivery priorities per ward/town.

Wards	Town	Priority Name & Detail	Progress During 2021/22
1,12	Nduli	Housing Project safety	Regular patrols at new housing developments
		Sports grounds needs to be restored/ upgraded	On-going vandalism & theft prohibits restoration
		Electrical theft needs to be clamped down	Illegal connections remain high priority to be addressed through newly developed Illegal electricity connection & theft strategy
		Taxi Violence	Public Transport Plan to address and continuous engagements with roleplayers.
		Provide street/security lights in unsafe areas	Periodic maintenance.
3,5	Ceres	Weekends the Town Main Roads have too much traffic	Spatial Development Plan completed. In progress with precinct plan for R46 towards Nduli.
		Housing need	635 Serviced sites completed & top structures being developed at Vredebes
		Rotational skip removal	New Waste Management Policy
		Playgrounds	Borehole for park irrigation
4,6	Bella Vista	Vandalizing of Municipal property	Increasing law enforcement & coordination with SAPS
		Business hub/mini CBD for Bella Vista	In process to develop container park at Bella Vista / Skoonvlei industry.
		Clamp down on illegal dumping of refuse.	New Waste Management Policy
4,1	Hamlet	Animal control in all areas	Increased law-enforcement
		Illegal occupation of land	Continued law enforcement and inspections
		Xhosa medium school for PA Hamlet area	Conveyed to Provincial Government
		Housing need	Development at Vredebes
9	Op-Die-Berg	Public transport	Negotiations needs to take place with Transport associations
		Restoration and securing of Skurweberg Sports grounds	Sports Master Plan Dev
		Illegal shops and shebeens need to be closed	Continued law enforcement & inspections
		Speed calming still a problem	Increased law enforcement
7,11	Tulbagh	More ablution facilities needed in Chris Hani area, and ASLA Camp	Upgrade of Informal Settlements project underway for Chris Hani
		Informal households utilising storm water as a means to dump their grey water & waste water, which contaminates river. Storm water network in Tulbagh needs to be maintained regularly	Formal housing to be included in housing pipeline to alleviate problem.
		Sewerage network in Chris Hani area needs to be maintained regularly	Periodic maintenance
		River Rehabilitation Programs	Negotiations needs to take place with illegal occupants on river banks
2,7	Wolseley	Illegal occupation of land	Continued law enforcement and inspections
		Restoration and securing of Pine Valley Sports grounds	Sports Master Plan Dev
		Back yard dwellers still a problem, housing need	Housing project planned for future, dependant on grant funding allocations.
		Illegal shops and shebeens need to be closed	Continued law enforcement and inspections

C SOCIO-ECONOMIC ANALYSIS (PROFILE)

Status of LED Strategy

The purpose of local economic development is to build up the economic capacity of a local area to improve its economic future and the quality of life for all. It is a process by which public, business and non-governmental sector partners work collectively to create better conditions for economic growth and employment generation.

The most prominent places in the WLM area are Tulbagh, Wolseley and Ceres, with Prince Alfred's Hamlet and Op-die-Berg two northern outposts. Activities around these settlements are essentially agriculture based, with the towns being "agricultural service centres", with some agri-processing related to wine, fruit, vegetables and other niche products. The region is also well-known for its fruit and wine products, as well as producing other agriculturally linked products such as olive and grain producing areas, beef and pork products. Horse and cattle stud farms are also found within the municipality.

The municipality has made tremendous progress in mobilising and harnessing the energies and expertise of the business sector in developing effective economic development strategies and programmes.

"To strategically partner with the private sector, other spheres of government and its agencies, development institutions and donor agencies and in concert develop sizable commercial projects which encompasses the imperatives of employment creation and broad-based black economic empowerment and contributing to the general expansion of the economic base of Witzenberg."

This has led to the creation of a relationship between Witzenberg Municipality and Ceres Business Initiative (CBI) who represents the major commercial farmers and businesses in Ceres and surrounding areas.

The other major economic driver in the area is the Tourism Sector and the municipality has undertaken a number of initiatives which should come to fruition over the next five years, including:

1. The Tourism Industry has recorded a very strong growth and has become an important element of the local economy. Key tourism activities include: wine tasting, 4x4 routes, hiking, game reserves, camping, horse riding, fishing, annual community festivals, snow in Ceres during the winter months, agricultural tourism attractions, fruit tours, San cave, museums and historic buildings.

2. Witzenberg Tourism caters for Cape Town and other Western Cape day and weekend tourists, as well as up-country seasonal tourists.

3. The strengthening and partnering with national, provincial and district municipality tourist initiatives.

4. The finalisation and completion of the National Road Corridor through Witzenberg.

5. The finalisation and completion of the Ceres Golf Estate Project.

6. The strengthening of international twinning and partnership agreements (Belgium).

7. The expansion and promotion of the Epic Mountain Bike Tour.

Draft Document

The expansion and promotion of the 4x4 trails, hiking trails, wine and fruit tourist routes

Skills levels

The municipal area had 59 731 employed workers in 2020, and this is expected to have decreased to 58 924 workers in 2021. The total share of formal employment was 82.2 per cent, with the majority of workers being low-skilled. The proportion of skilled employment in the municipal area was 13.5 per cent. The percentage of informal employment in 2020 was 17.8 per cent in the Witzenberg municipal area. The unemployment rate for 2020 was 8.1 per cent, and this is estimated to have increased to 10.1 per cent in 2021. Labour force participation is estimated to have reached 66.4 per cent in 2021 from 67.3 per cent in 2020..

Witzenberg skills levels

	2011	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021e
Skilled	347	330	307	329	336	404	199	338	344	-53	217
Semi-skilled	597	787	724	546	1 177	829	503	692	543	-536	172
Low-skilled	67	1 082	987	-73	3 214	524	69	484	607	-1 106	414

Source: Municipal Economic Review Outlook – PT

Between 2011 and 2020 a net total of 13 394 jobs were created in the municipal area, with the majority of jobs created for semi-skilled workers (5 862 jobs), followed by low-skilled workers (5 855 jobs), and 2 881 skilled jobs were created in the same period. A total of 1 204 informal jobs were lost between 2011 and 2020.

It is estimated that job losses continued in 2021, with an estimated 807 jobs lost. Formal labour indicated the most resilience. It is estimated that 217 jobs were created for skilled workers in 2021, which will recover the 53 skilled jobs lost in 2020. An estimated 172 jobs were created for semi-skilled workers in 2021, and for low-skilled workers it is estimated that 414 jobs were created. Informal employment continued to contract, with an estimated 1 610 jobs lost in 2021.

Growth in GDPR Performance

Between 2013 and 2019, the CWD recorded a downward trend in GDPR growth. This culminated in a contraction of 0.2 per cent recorded by the District in 2019. Downward trends in growth are attributable to events such as load-shedding between 2014 and 2015, as well as from 2018 onwards.8 Other causes include drought impacts on the District economy as a result of the decreased agricultural and agro-processing output.9 As the production of fruit and wine decreased in the District, agricultural exports also declined within the period.

In 2020, the CWD recorded a contraction in GDPR growth of 5.5 per cent. This contraction was below that of the Province, which recorded a contraction of 5.9 per cent during the year. The year was defined by the impact of the COVID-19 pandemic on the District economy, with all municipal areas recording contractions above 3.0 per cent. The largest contraction (6.4 per cent) was recorded by the

Stellenbosch municipal area. All trade as well as many industries in the District were affected by the national lockdown. As the District largely relies on trade and manufacturing, the CWD was greatly affected by policy responses to the pandemic, such as the national lockdown and restriction of economic activity limited only to essential goods and services.

It is estimated that the District recorded a growth rate of 5.3 per cent in 2021. It is also estimated that the Witzenberg municipal area led all the municipal areas, with a growth rate of 7.3 per cent in 2021. This is not likely to have had a large effect on the District's GDPR, as the Witzenberg municipal area has the second-smallest GDPR contribution to the District. However, it is forecast that the District will not be able to sustain the 2021 growth rate, with a forecast growth rate of 2.5 per cent in 2022. Forecasts in 2023 suggest that the District will continue the downward trend, with the District expected to record a growth rate of 0.8 per cent. Furthermore, forecasts for the District are likely to be impacted by increased inflation rates and monetary policy responses by the SARB to increase the repo rate. This is also seen in the estimated growth of the tertiary sectors in the District.

Household income

In 2020, the average monthly household income in the CWD was R17 537 (in current prices), which was lower than the average household income in the Western Cape in 2020. Between 2016 and 2020, the average household income in the Province declined by an average annual rate of 1.8 per cent, while that of the CWD declined by an average annual rate of 1.5 per cent.

The municipal areas that had the lowest average household income were the Langeberg (R14 250) and Breede Valley (R15 214) municipal areas. Notably the Witzenberg municipal area experienced the smallest decline in the period under review, contracting by an average annual rate of 0.2 per cent. The Drakenstein municipal area experienced a significant contraction in average monthly household income during the period under review (2.0 per cent). However, when considering the average inflation over the period, household income in these municipal areas did not grow sufficiently to compensate for higher prices. Since 2016, annual inflation has been on a declining trend, while remaining within the targets set by the SARB. At a rate of 3.3 per cent in 2020, inflation was at its lowest level in more than a decade. However, average inflation started increasing in 2021.

MUNICIPAL AREA	Average household income 2020 (current prices)	Trend 2016 – 2020

Source: Municipal Economic Review Outlook – PT Quantec Research, 2022 (e denotes estimate)

The Witzenberg municipal area had a total of 59 731 jobs in 2020. The tertiary sector was the largest contributor with 33 970 jobs (56.9 per cent), followed by the primary sector with 18 160 jobs (30.4 per cent) and the secondary sector contributing 7 601 jobs (12.7 per cent). Between 2011 and 2020 the municipal area created 1 339 jobs annually, on average, with the most jobs created in the trade sector (375 jobs). The municipal area lost 69 jobs annually, on average, between 2016 and 2020, with COVID-19 being the reason for the large number of jobs shed in 2020. The sector contributing the most to the job-shedding was the agriculture sector, with 866 jobs lost between 2016 and 2020.

The agriculture sector is estimated to have contracted by a further 617 jobs in 2021, with the largest share of the estimated total number of jobs lost within the municipal area. Some agricultural operations were affected by the COVID-19 regulations, for example the wine industry was not able to operate under level five regulations in 2020. The other possible explanation for job losses in the sector was the increase in the minimum wage from R20.76 to R21.69 per hour.

It is estimated that the effects of COVID-19 continued to result in job losses in 2021, with a total of 807 jobs lost. It is important for the municipal area to focus on skills development for workers to ensure that they have the necessary skills to be employed. The only sectors that are estimated to have created jobs in 2021 are the finance, general government and community services sectors.

V. SMALL, MICRO AND MEDIUM ENTERPRISES

Most current economic research data indicate that SMMEs play major role in creation of jobs at a local level. The Witzenberg SMME sector has been organised into an active business forum that meets regularly to develop new projects and shares business challenges. The municipality has organised a number of training sessions with this sector around mentoring and coaching, business skills, business plan writing, budgeting and financial planning etc. These programmes were organised through the Red Door, IDT, Seda, Provincial Economic Unit, DTI etc. These programmes will be expanded and specific attention will be given to the promotion of this sector through the municipal procurement supply chain.

Local contractors were capacitated with contractor development training, as well as Western Cape Department Supply Chain workshops, where they could also access information on SARS and the Construction Industry Development Board (CIDB). Mentoring projects for contractors are planned for the new financial year.

Arts and crafts entrepreneurs were capacitated with tourism awareness training and creativity workshops. Entrepreneurs were also connected with organisations in Cape Town such as the Cape Craft Development Institute (CCDI), where they were assisted with business services and product enhancement. Access to markets were provided to entrepreneurs by means of an arts and crafts expo and craft market.

A Tulbagh arts and crafts programme was also launched for youth in Tulbagh where training in products such as recycling, painting and mosaic were conducted by a local entrepreneur, thereby also empowering local artists to impart their skill. The youth were also connected with festivals where they could sell their products to tourists.

Tourism projects planned for the new financial year include increased efforts for entrepreneurs to access markets and business capacity building.

III. TOURISM

Witzenberg Municipality manages local tourism in the form of a service level agreement (SLA) with three local tourism organisations, which conduct marketing of the municipal area and local established businesses in order to draw investment and trade to the area.
Local businesses join as members of the local tourism authorities to participate in the marketing initiative. Membership holds businesses accountable to ethical norms and standards for the industry, and to a code of conduct. Tourism aims to market Witzenberg Municipality as an affordable holiday destination with activities for the entire family. Tourism liaises with district, provincial and national stakeholders to develop the Witzenberg brand through the attraction of tourists, awareness campaigns, roadshows, expos, events and festivals.
Tourism further aims to train and skill local entrepreneurs to meet tourism-related demands, and provide the requisite services and products necessary to promote local trade and economic development.
Their functions include:
Marketing the area, events and activities.
Creating opportunities for transformation, niching, diversification and support of new stakeholders.

Draft Document

Ensuring that tourism development remains on trend.
Promotion and development of Accessible Tourism.
To enlist new members and plan for the growth of both operations and market.
As per our SLA with Witzenberg Tourism, which is an external entity to Witzenberg Municipality, we have the following strategic priorities:
Promotion of our towns as travel destinations and as film and photoshoot locations (with attractive scenes in farm and desert areas, mountains, snow, and skylines).
Promotion and protection of the local towns, events and the municipal brand.
Promotion of conservation and Green Tourism.
Provision of statistical research and data outputs.
Promotion of Agri-Tourism.
The growth and expansion of tourism.
Witzenberg Tourism runs educational packages with schools, front of house staff, and local stores to promote clientele service. The entity also sources courses such as first aid training, communication, administration and hospitality to help local businesses improve their output and skill levels.
Part of the municipality's agreement with Witzenberg Tourism is to expand the broad demographic of tourism to encompass culture, heritage, diversity and transformation. We aim to develop two new travel routes within Witzenberg to promote social cohesion as well as introduce formal trade to township and rural areas.
Witzenberg Tourism has produced tear-off maps which are distributed to points of sale with high traffic, providing location and contact details of local tourist attractions. They have also produced a joint brochure called the Witzenberg Meander, covering activities throughout the municipality. Tourism bureaus for Wolseley, Ceres and Tulbagh also created their own brochures with niche marketing of their sectors in conjunction with social media promotion through Facebook and websites.
Witzenberg Tourism has been successful in marketing the destination to visitors within South Africa as an affordable and picturesque location for weddings, snow tourism, heritage tourism, agri-tourism, wine tourism, adventure tourism, cultural tourism, sports tourism and rural tourism.
Witzenberg Tourism also conducts quarterly educational visits of the areas to tourism authorities outside of our borders as well as to journalists, media groups and bloggers, in order to review and publicise the activities and services offered in the area. A significant area of focus in the IDP for tourism is access to qualitative and quantitative research, specific to our area.

Draft Document

5 SPATIAL ANALYSIS

EXECUTIVE SUMMARY AND MAIN FOCUS OF THE WITZENBERG MSDF

The 2019 Witzenberg Municipal Spatial Development Framework (MSDF) – once approved by Council – will replace the current MSDF prepared in 2012. The 2019 MSDF has been prepared within the legislative and regulatory framework set by the national Spatial Planning and Land Use Management Act (ACT 16 of 2013), provincial Land Use Planning Act (2014), and Witzenberg Municipality Land Use Planning By- Law, 2015. It is also directed by a range of policy and guideline documents prepared by different spheres of government, including the Western Cape Government Provincial Spatial Development Framework (2014) and the Witzenberg Municipality Integrated Development Plan (IDP) 2017-2022 (and annual reviews).

Based on analysis of existing patterns of spatial development within the municipal areas, and expected need for different activities to be accommodated over the planning period, the MSDF sets outline spatial policy, plans, proposals, guidelines, and implementation measures for Witzenberg Municipality as a whole and individual settlements within the Municipality.

In its direction, the MSDF has five specific foci:

1. The first is to maintain and protect the integrity, authenticity and accessibility of Witzenberg's natural environment and associated resources. Humanity depends on nature for physical and spiritual sustenance, livelihoods, and survival. Ecosystems provide numerous benefits or ecosystem services that underpin economic development and support human well- being. They include provisioning services such as food, freshwater, and fuel as well as an array of regulating services such as water purification, pollination, and climate regulation. Healthy ecosystems are a prerequisite to sustaining economic development and mitigating and adapting to climate change. The plan provides for activities enabling access to nature in a manner which does not detract from the functionality and integrity of nature and farming areas and landscapes.

2. The second is to maintain and expand the Municipality's key regional and intra-regional infrastructure. Appropriate infrastructure – whether in the form of transport routes or municipal services – is critical to support economic development, agriculture, and livelihoods.

3. The third is to maintain and grow the agricultural assets within the Municipality. Agriculture remains the mainstay of the regional economy and require on-going support. In a spatial sense, this specifically requires protecting high- value agricultural land from urban development.
The opportunity also exists to diversify farm income in a manner which does not detract from the functionality and integrity of farming areas and landscapes, and to expand access to farming to smaller entrepreneurs and emerging farmers.

4. The fourth is to maintain and expand access to Witzenberg's unique sense of people and place.
Important is the recognition and maintenance of unique landscapes, and diverse expressions over time of peoples' interaction with the landscape. Also critical is the SPLUMA principle of "spatial justice"; implying that past spatial and other development imbalances must be redressed through improved access to and use of land, as well as the inclusion of persons and areas that were previously excluded, with an emphasis on informal settlements, and areas characterised by widespread poverty and deprivation.

5. The fifth is to maintain and expand opportunity associated with Witzenberg's key settlements. Settlements need to be managed and provide for expansion in a manner which enables efficiency in infrastructure provision, integration and compaction to enable better thresholds and more sustainable movement, and protection of surrounding assets of nature and agriculture.

It is anticipated that a major review of the MSDF will occur every five years, in parallel with the municipal IDP. Improvements, amendments, and refinements to the MSDF can occur annually.

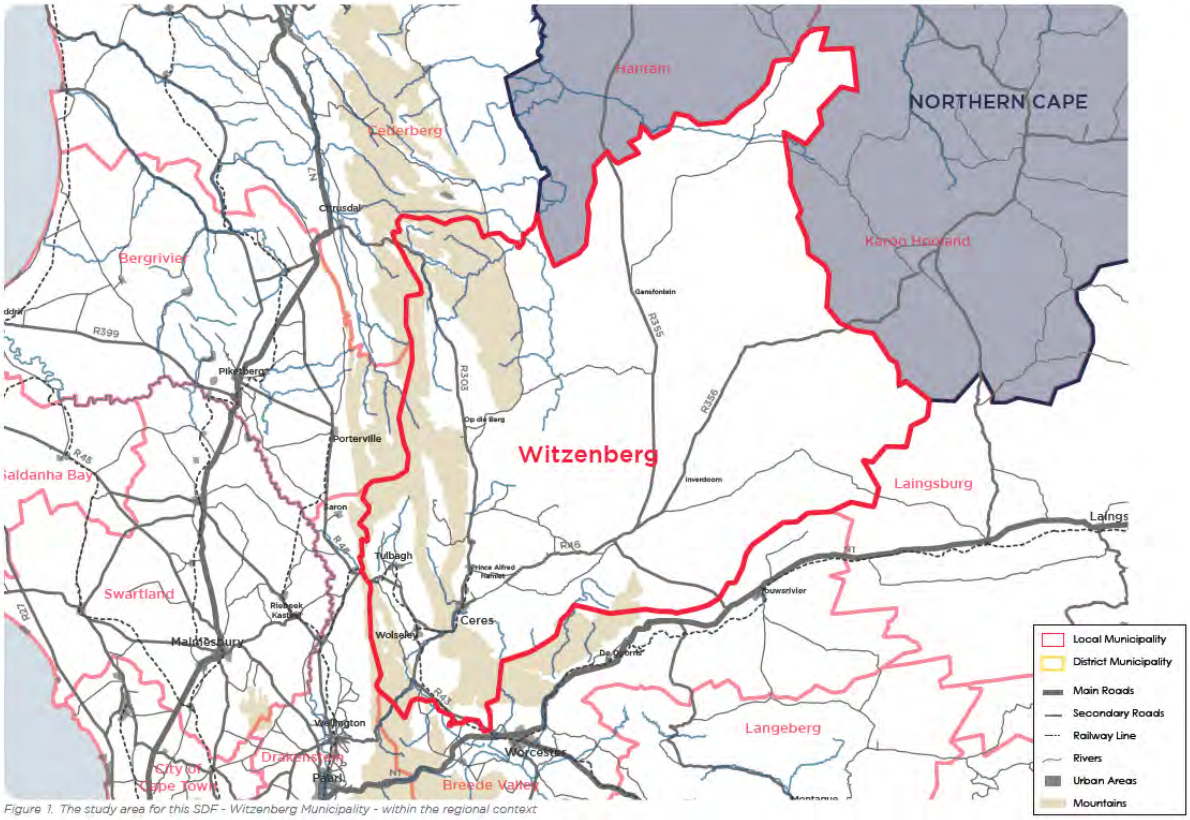

Figure 1. The study area for this SDF - Witzenberg Municipality - within the regional context

REGIONAL CONTEXT

Witzenberg Municipality is situated within the Cape Winelands District (CWD), the largest non-metro district within the broader Western Cape Province economy, contributing 11,7 % towards provincial GDPR and 14.2 % to provincial employment (as per the 2015 statistics recorded in the IDP 2017-2022). CWD is also the biggest producer of stone fruit in the Province, and accounts for approximately 74% of all stone fruit production. The most economic functional areas for the production of stone fruits in this region are the Ceres-Tulbagh area (40%) and the Montagu-Robertson area (39%). Most processors and storage facilities are located in these areas. Finished products are sent from these areas to Stellenbosch, Paarl and Wellington from where it is distributed to retailers. Most of the produce is directly exported (for example, the Du Toit Group exports to 50 countries).

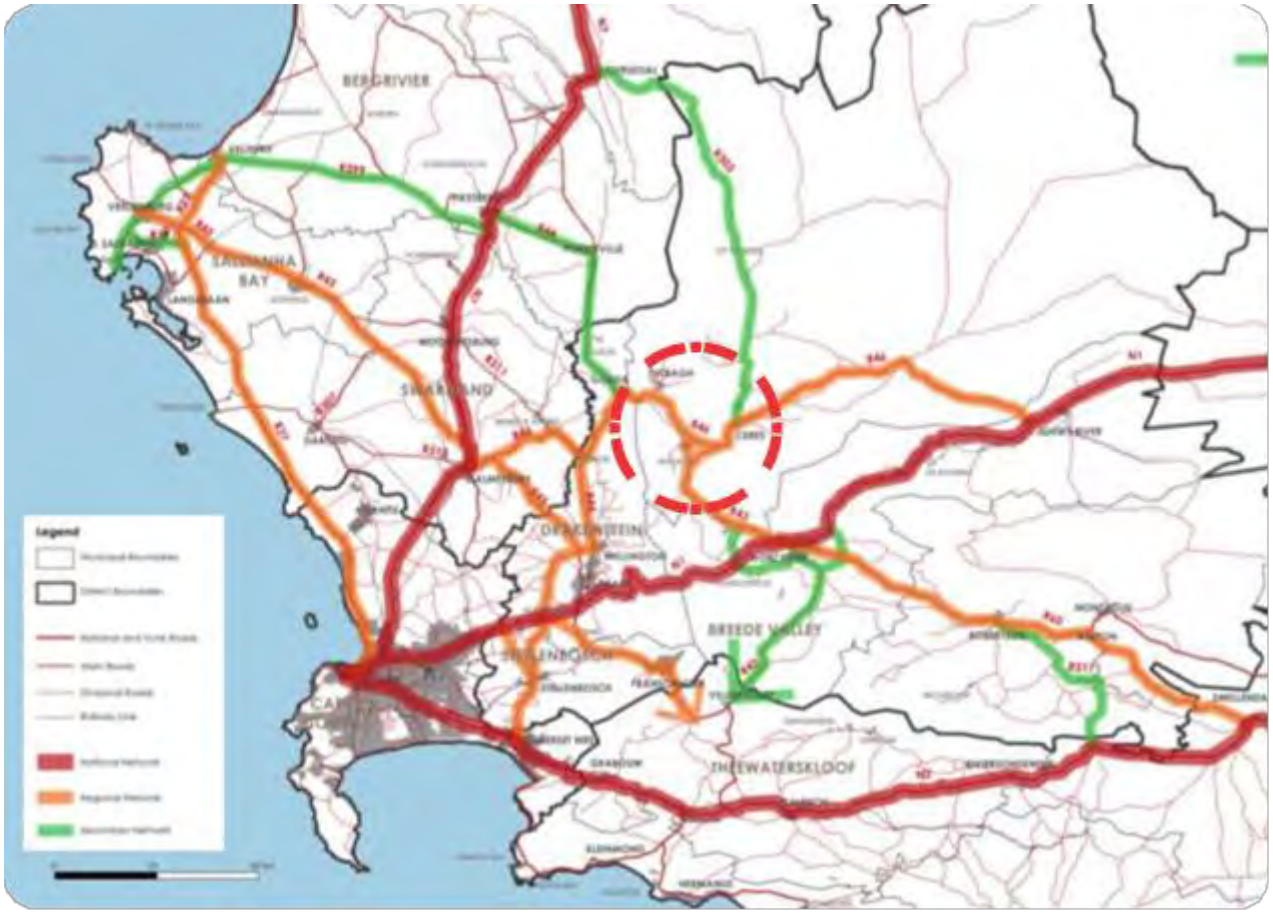
Witzenberg's importance as a functional region within the broader agricultural space economy and its role as a primary regional service center has been recognized through the identification of a possible Agri-park in Ceres. The area is also situated within one of the PSDF's identified Rural Development Corridors.

Ceres is strategically situated between the N1 and N7 national routes, forming part of the proposed regional road freight network as identified in the Greater Cape Metro and Greater Saldanha Regional Implementation frameworks.

These networks aim to improve linkages from Piketberg via Gouda/ Tulbagh through to Ceres and then linking into the N1 either via Worcester or Touwsriver, placing Ceres at the centre of the regional network.

In addition to WItzenberg's regional agricultural economic role, the area also hosts a high concentration of heritage resources, mountains, mountain passes and unique landscapes, as illustrated in Figure 21. Its position within the region as the primary gateway to the Warm and Koue Bokkeveld and Tanka Karoo also contributes to its strategic position and role in terms of tourism.

The position of Ceres and Tulbagh in relation to the GCM area and the PSDF Rural Development Corridors (GCM RSIF, 2017)



The position of Ceres in relation to the proposed regional road freight network of the Province (GS RSIF, 2018)

PLANS AND SETTLEMENT PROPOSALS

The sections below outline plans and written proposals for:

- Witzenberg Municipality as a whole.
- Individual settlements within Witzenberg Municipality.
- Guidelines for managing specific activities landscape-wide and within settlements.

It is important to remember that the plans constitute one type of planning instrument. Not all of the MSDF objectives or intent can be readily illustrated two dimensionally on a plan. Therefore, the plans are accompanied by descriptions of plan elements and associated proposals. The plans should be read with the written information contained in the descriptions accompanying the plans as well as the policies and guidelines contained in the MSDF. Each settlement plan is introduced by a concept plan, an illustration of the core ideas related to spatial management and development of the settlement.

As indicated elsewhere in this document, spatial plans and proposals can seldomly be fully implemented without supportive actions in other functional areas or sectors. For example, it is doubtful whether the desired form of compact, diverse, inclusive, and walkable settlements will be achieved without parallel supportive initiatives to manage the unimpeded use of private vehicles. For this reason, the plan descriptions also include – where important – related non-spatial proposals.

Broadly – and aligned to the SPLUMA MSDF guidelines – the settlement plans entail three types of actions or initiatives:

- Protective actions – things to be protected and maintained to achieve the vision and spatial concept.
- Change actions – things that need to change, transformed, or enhanced to achieve the vision and spatial concept.
- New development actions – new development or initiatives to be undertaken to achieve the vision and spatial concept.

Under these broad types of actions, strategic focus areas and settlement elements are dealt with; for example, protective actions will broadly relate to protecting elements of nature, agriculture, scenic landscapes, historically and culturally significant precincts and places, and so on.

WITZENBERG MUNICIPALITY AS A WHOLE

The overall plan for Witzenberg Municipality essentially comprises of:

- Landscape-wide Spatial Planning Categories

(SPCs) and associated land use guidelines.

- A settlement hierarchy and associated settlement development and management guidelines.
- Places of cultural and scenic significance.
- Municipal-wide infrastructure.

LANDSCAPE-WIDE SPATIAL PLANNING CATEGORIES

At the broadest level of municipal planning, desired land use patterns are reflected in the delineation of landscape-wide or municipal-wide Spatial Planning Categories (SPCs), namely Core, Buffer, Agriculture and Settlement categories. The definition of SPCs

is based on the Western Cape Biodiversity Spatial Plan, 2017 (WCBSP) which delineates the Western Cape's biodiversity network.

In general terms, the definition of SPCs is directed by the understanding that:

- The Western Cape's biological diversity underpins livelihoods, the Province's economy and the provision of ecosystem services. The spatial continuity and connectivity of the biodiversity network strengthens its resilience. Different categories of biodiversity areas indicated in the WCBSP Map and SPCs have specific management objectives, according

to their biodiversity priority. In broad terms,

the biodiversity priority areas need to be maintained in a healthy and functioning condition, whilst those that are less important for biodiversity can be used for a variety of other land uses.

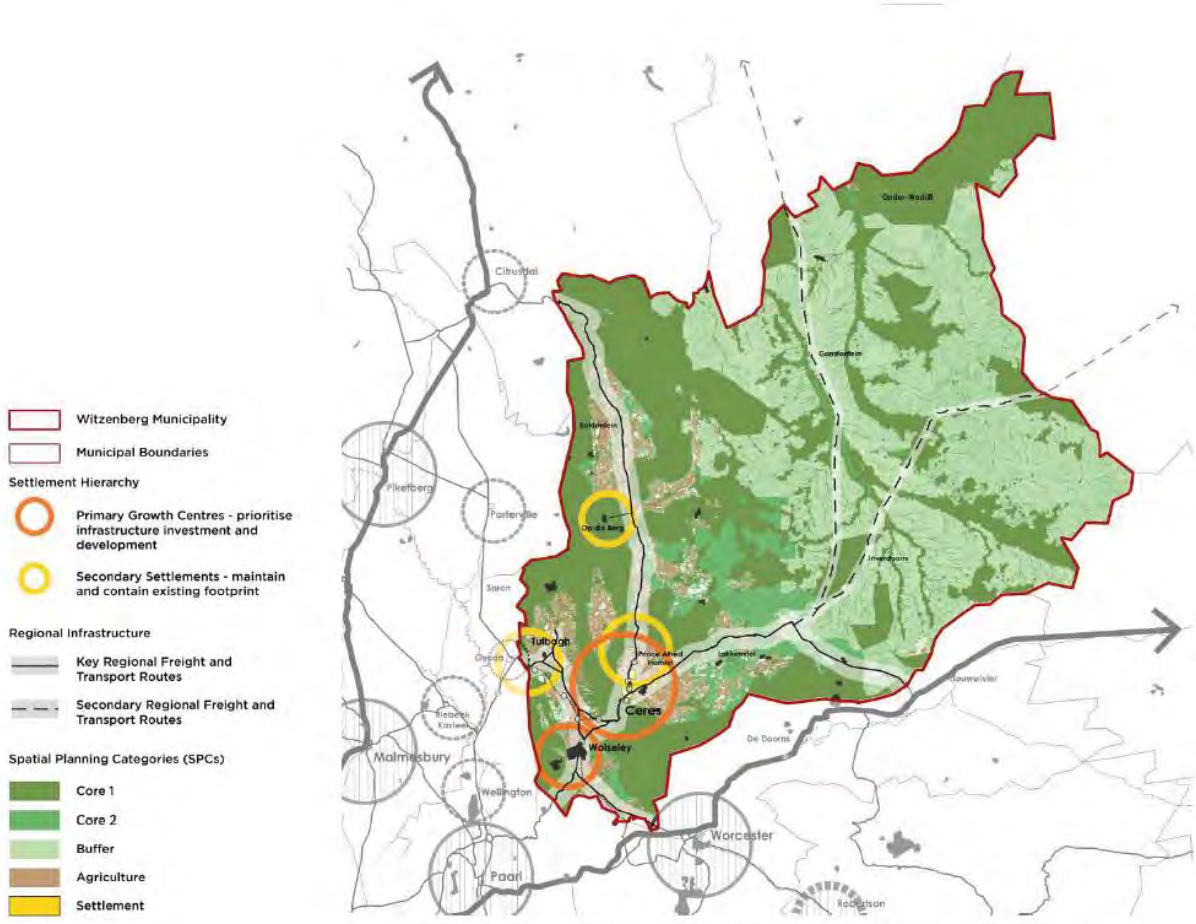
- Cultivatable soils and mineral resources are non-renewable assets, important foundations of the Western Cape economy. As agricultural output is the basis of the Western Cape's rural economy and an important input to the urban economy, safeguarding the Province's agricultural resources, and productively using them without compromising biodiversity, heritage and scenic resources, remains a key challenge. There is limited suitable land available for extension of the Province's agricultural footprint, and water availability limits the use of cultivatable soils.
- Settlements – of different sizes – support critical livelihood opportunity and economic exchange. A key concern is to maintain and grow the efficient functioning of settlements while preventing encroachment into priority biodiversity, agricultural, scenic areas.

The landscape- wide SPCs for Witzenberg Municipality. The tables also list the names of key places which forms part of each SPC, what activities are broadly supported in each category, the activities not supported, and the overall desired form of development in each category.

The activities supported and overall desired form of development in each SPC is based on the guidelines contained in the Western Cape Land Use Planning Guidelines Rural, March 2019. For a fuller explanation of each SPC, the full Rural

Guidelines document should be consulted1.

The guidelines were prepared to establish norms and standards based on evidence and is aligned with international, national, and provincial policy related to the sustainable use of natural resources and agricultural land.



Consolidated Municipal Framework Map for the Witzenberg Municipality as a whole

Landscape-wide Spatial Planning Categories

SPC	DESCRIPTION	KEY PLACES IN WITZENBERG	ACTIVITIES SUPPORTED	ACTIVITIES NOT SUPPORTED	OVERALL DESIRED FORM OF DEVELOPMENT
Core 1	Areas that must be maintained in, or restored to, a natural state in order to sustain biodiversity patterns and processes and the functionality of eco-system services.	• Formal protected areas and Mountain Catchment Areas: Tankwa Karoo NP, Matroosberg MCA, Cederberg MCA, Kouebokkeveld MCA, Winterhoek MCA, Hawequas MCA. • Private nature reserves. • Areas designated by the WCBSP as CBA1.	• Essentially Core areas are "no-go" areas from a development perspective. Human impact must be restricted to ensure that there is no further loss of natural habitat. • Conservation management activities should be encouraged. • Subject to stringent controls biodiversity-compatible land uses that may be accommodated include non-consumptive low impact eco-tourism activities (e.g. hiking trails, bird and game watching, and visitor overnight accommodation); and harvesting of natural resources (e.g. wildflowers for medicinal, culinary or commercial use). • Controlled livestock grazing and game farming must be informed by the habitat type, grazing potential and other site sensitivities. No further loss of natural habitat should occur and lower than standard stocking rates should be applied. • Land consolidation	• Mining or prospecting. • Extensive or intensive grazing. • Conversion of natural habitat for cultivation or forestry. • Large-scale eco-tourism. • Subdivision. • Expansion of settlements.	Small low-density footprints, and temporary structures are preferred with units carefully dispersed or clustered to achieve least impact. The use of alternative porous materials and innovative eco-friendly design concepts are encouraged.
Core 2	Areas in a degraded condition that must be rehabilitated in order to sustain biodiversity patterns and processes and the functionality of eco-system services. Includes areas that support the ecological functioning of critical biodiversity areas.	• Areas designated by the WCBSP as CBA2 or ESA1. • Lower slopes and foothills in Land van Waveren and Warm Bokkeveld. • Degraded reaches of the Groot and Doring Rivers in the Ceres and Tankwa Karoo. • Watercourses and their buffers in the Ceres and Tankwa Karoo.	• As for Core 1 whilst allowing for a limited increase in scale of development in less sensitive areas (provided ecological processes are not disrupted). • Where existing agricultural activities (e.g. extensive livestock or game farming) occur in Core 1 or Core 2 Areas, it needs to be subject to inter alia lower impact practices, lower than standard stocking rates, resting cycles wetland and riverbank protection, and avoiding areas containing red data species.	• Extension of intensive or extensive agriculture. • Mining or prospecting. • Large-scale cultivation. • Urban or industrial development.	As for Core 1. Detailed site-level mapping of habitat conditions should inform the placement of essential buildings or structures in Core Areas. Disturbed footprints should preferably be utilised.
Buffer 1	Large intact portions and remnants of natural or near natural vegetation not designated as Core Areas but in proximity to them.	• Areas designated by the WCBSP as Other Natural Area, in proximity to or adjacent to Core Areas. • Livestock farming areas in the Ceres and Tankwa Karoo.	• Conservation activities as per Core 1 and 2 Areas, including sustainable consumptive or non-consumptive uses. • Extensive agriculture such as game or livestock farming, subject to lower impact practices, sustainable stocking rates, rotational grazing cycles, protection of watercourses, and avoidance of areas containing species of conservation concern. • Development (e.g. structures) in support of both tourism and biodiversity conservation in Core Areas. • Extensive agriculture comprising extensive game and livestock farming, subject to inter alia lower impact practices, lower than standard stocking rates, resting cycles wetland and riverbank protection, and avoiding areas containing red data species.	• Case-specific determination based on impact on biodiversity.	Development should reinforce existing farm precincts and reflect similar vernacular in terms of scale, form and design. In the absence of existing farmsteads, development should reflect compact and unobtrusive characteristics, conforming to local vernacular in terms of scale, form and design. The design of all proposed development should embrace the spatial form, movement patterns, building design and conservation and ecology of the local area.

Landscape-wide Spatial Planning Categories (continued)

SPC	DESCRIPTION	KEY PLACES IN WITZENBERG	ACTIVITIES SUPPORTED	ACTIVITIES NOT SUPPORTED	OVERALL DESIRED FORM OF DEVELOPMENT
Buffer 2	Natural or near natural areas located in an agricultural matrix as the dominant land use.	• Areas designated by the WCBSP as ESA2 or Other Natural Area, located in an extensive or intensive agricultural matrix as the dominant land use. • River corridors on cultivated land in the Warm and Koue Bokkeveld and Land van Waveren.	• Activities and uses directly relating to the primary agricultural enterprise. • Additional land uses to facilitate diversification and "value adding", including restaurant and venue facility, farmstall and farm store, home occupation; local product processing, and tourist and recreational facilities. • Buffer 2 Areas within the "fringe" of settlements can accommodate space extensive uses not suited to location within the urban edge (e.g. regional sports and recreation facilities, tourist facilities); or associated with nuisance and buffer requirements (e.g. waste water treatment plants, cemeteries, solid waste disposal sites, airports, feedlots, quarries and mines, truck stops).	• Case-specific determination based on impact on agriculture and biodiversity.	Building development should reflect the style, scale, and form of the farmstead precinct or farm outpost, their buildings and setting. In the absence of existing farmsteads or farm outposts, development should be compact and unobtrusive, conforming to local vernacular in terms of scale, form and design.
Agriculture	Existing and potential intensive agricultural land where significant or complete loss of natural habitat and ecological functioning has taken place due to ploughing, hardening of surfaces, mining, cultivation, and so on.	• Existing intensive agriculture including irrigated and dry land crop cultivation, primarily in the western parts of the municipal area.	• Activities and uses directly related to the primary agricultural enterprise. • Additional dwelling units to support rural tourism and diversify farm income, to a maximum of 1 additional non-alienable du per 10 ha and 5 per farm. • Additional land uses to facilitate diversification and "value adding", including restaurant and venue facility, farmstall and farm store, home occupation; local product processing, and tourist and recreational facilities.	• Large scale resorts. • Tourist and recreation facilities.	Facilities for ancillary on-farm activities should be in scale with and reinforce the farmstead precinct, enhance the historic built fabric and respect conservation-worthy places (these could be natural areas or areas which are degraded but still provide ecological connectivity and/ or ecosystem services). Fragmentation of farm cadastral units should be prevented, and consent processes and spot zoning employed for managing land uses ancillary to or associated with agriculture.
Settlement	Existing towns, villages and hamlets..	• Ceres. • Wolseley. • Tulbagh. • Prince Alfred Hamlet. • Op-die-berg.	• "Normal" activities associated with urban development.	• New settlement formation that negatively impacts on municipal financial sustainability.	Development should: • Retain the compact form of smaller settlements. • Prevent settlement encroachment into agricultural areas, scenic landscapes and biodiversity- and ecological system service priority areas. • Maintain and enhance public spaces. • Reinforce the close relationship of settlements to the regional route structure. • Integrate new development into the settlement structure. • Respect socio-historical and cultural places.

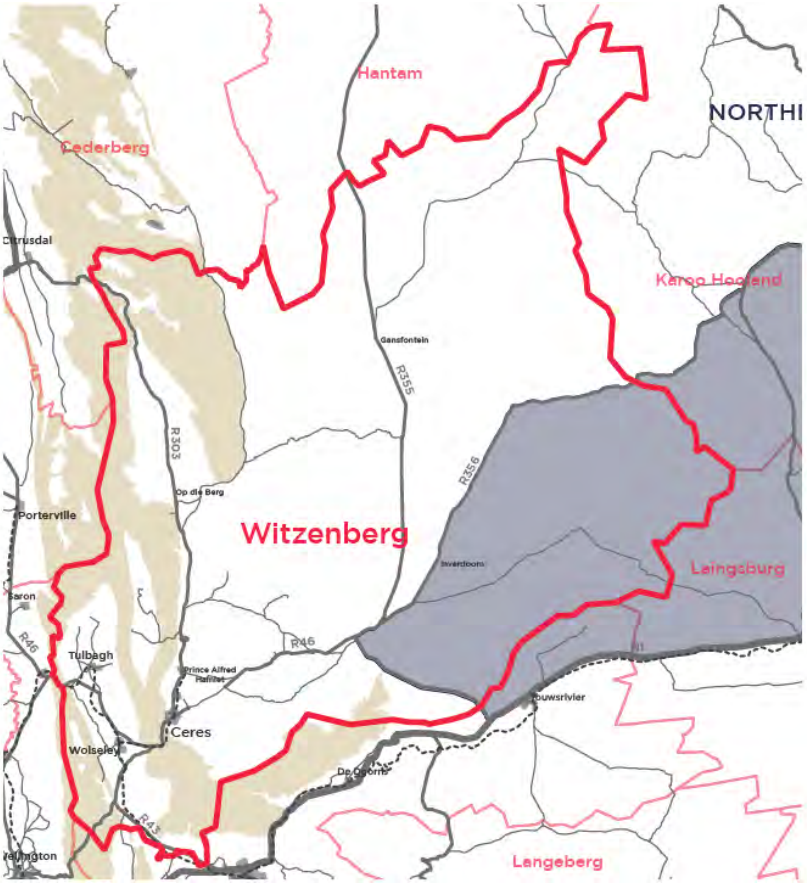
RENEWABLE ENERGY DEVELOPMENTCORRIDORS

The Strategic Environmental Assessment for Wind and Solar Photo-voltaic Energy in South Africa identified 8 Renewable Energy Development Zones (REDZs) in 2015 that are of strategic importance for large scale wind and solar photo- voltaic energy development including the roll-out of its supporting transmission and distribution infrastructure. New wind or PV projects located within one of the eight REDZ areas will now be subject to a Basic Assessment and not a full EIA process, as well as a shortened timeframe of 57 days for the processing of an Application for Environmental Authorisation.

The Council for Scientific and Industrial Research (CSIR) identified eight geographic REDZ's following a Strategic Environmental Assessment:

NAME	SIZE	PROVINCE
Cíverberg	5 263 km²	Western Cape
Komsberg	8 846 km²	Western Cape
Cookhouse	7 366 km²	Eastern Cape
Stormberg	12 041 km²	Eastern Cape
Kimberley	9 568 km²	Free State & Northern Cape
Vryburg	9 204 km²	North West
Upington	12 833 km²	Northern Cape
Springbok	15 214 km²	Northern Cape
Total	**80 335 km²**	

The Witzenberg Municipality forms part of the Komsberg REDZ. Any projects or renewable energy developments in the municipal area should preferably be located inside of this boundary, however, proposals for renewable energy developments outside of this boundary will be considered on a case by case basis based on its own merits.



The location of the Komsberg REDZ area within the Witzenberg Municipality

6 FINANCIAL VIABILITY

Capability of the municipality to execute capital projects

The capital budget for the next financial year amounts to R 68 million of which R 12 million is from own revenue. The rest of the capital budget is financed from Grants. Only funded capital projects are included in the capital budget.The upgrade to the Van Breda Bridge, The Tierhokskloof Bulk Pipeline, the construction of fencing at the Prince Alfred's Hamlet Landfill site, the construction of infrastructure at the Vredebes Housing Development and the construction of a Regional Cemetery are some of the key projects that will be undertaken during the new IDP phase.

Indigent support (including free basic services)

The equitable share allocation is utilized to fund the provision of free basic services to indigent households and informal areas.

The development of plots and building of RDP houses is a challenge to the financial viability and sustainability of Witzenberg Municipality as most of the beneficiaries will qualify for indigent support and will not contribute financially to the municipality, but will be entitled to municipal services.

In addition to the legislative R15 000 exempted valuation on a qualifying property, the first R105 000 of the municipal valuation of all residential properties are exempt from property rates.

Indigent households receive 50 kWh of electricity and 6 kilolitres of water per month while their basic charges for water refuse and sewerage are fully subsidised.

Indigents earning between R 3 000 to R 5 000 may qualify for 50% of benefits as indicated above

Indigent households with conventional electricity and/or water meters will be converted to prepaid meters to avoid over consumption, subject to affordability to the municipality.

Revenue enhancement and protection strategie

The revenue must be increased to ensure that Witzenberg Municipality can meet all the financial obligations and to improve service delivery. A policy providing for rebates on municipal services is available to new businesses/industries or extension of existing businesses/industries where new jobs are created.

New businesses and/or industries will not only increase the revenue base of the municipality, but will also assist in reducing unemployment – one of the largest challenges for Witzenberg Municipality.

Consumers with conventional water meters who do not pay their municipal accounts will be converted to prepaid meters to avoid increased outstanding debt in respect of water, subject to affordability to the municipality.

Municipal consumer debt position

The impairment provision for debtors have been emphasised by the office of the Auditor-General of South Africa.

The increase in the provision is due to:

Limited credit control procedures available in areas where Eskom is the service provider for electricity.
Limited application of the credit control procedures to indigent households.
Community resistance to the cutting of electricity in certain areas. Assistance from the South African Police Service is needed.

Grants and subsidies

Grants and subsidies are used for their intended purposes as per the Division of Revenue Act and/or Provincial Gazettes. The equitable share allocation is utilised to fund the provision of free basic services to indigent households and informal areas. Grants and

subsidies are utilised to finance 64% of the capital budget. Most of the capital expenditure financed from grants and subsidies are in respect of the provision of infrastructure, Material Recovery Facility, upgrading of Van Breda bridge in Ceres and the construction of the Tulbagh Dam.

Municipal Infrastructure Assets and Maintenance (Q&M)

The expenditure on repairs and maintenance needs to be increased. The limited revenue base of the municipality limits the amount of funding that can be earmarked for repairs and maintenance.

It is accepted that it is important to maintain municipal assets; therefore the funds available for repairs and maintenance are increases on an annual basis.

The implementation of MSCOA (Municipal Standard Chart of Accounts) regulations will improve the reporting on spending on repairs and maintenance.

~~**Current and planned borrowings**~~

~~Current borrowings are on the decline as no new loans were sourced in the recent past. The loan from the Development Bank of South Africa for the Koekedouw dam was redeemed during the 2016/17 financial year. It is envisaged that a new loan be obtained in the new financial year for the capital expenditure relating to waste management infrastructure~~

Municipality's credit rating

No official credit rating has been performed, but the financial indicators show positive movement during the last four financial years.

The cost coverage ratio improved from 1.5 months to 1,7 months, indicating that the municipality's cash and cash equivalents can cover the operating expenditure for 1,7 months.

The current ratio improved from 1.6:1 to 1.7:1 from 2020 to 2021, indicating that for every R1 owed in current liabilities, the municipality has R 1.7 in current assets available. The ratio improved slightly and it is above the acceptable norm of 1:1. An Improved ratio will result in an increased ability of the municipality to settle its debt when it becomes due. A positive liquidity position can also result in better interest rates being obtained if new loans are sourced, and can also provide confidence to companies that consider investing in the Witzenberg area.

Employee-related costs (including Councillor allowances)

The employee-related costs, including Councillor allowances, account for 32% of the operating expenditure over the medium term.

More vacant positions need to be filled to meet the demand of service delivery due to the growth of households that needs services. Any decrease in the mentioned ratio will impact negatively on service delivery.

The salary increase of permanent employees is negotiated nationally, limiting the municipality's influence over the annual salary increase. Councillors are remunerated in terms of national legislation as per annual Government Gazette publications.

Supply chain management (SCM)

Supply chain processes are followed in terms of the Municipal Supply Chain Regulations. Bids are awarded in term of the points scored according to the Preferential Procurement Policy Framework Act.

The Preferential Procurement Regulations were found to be invalid by the Supreme Court of Appeal and this judgement was subsequently upheld by the Constitutional Court in February 2022. Council awaits guidance from the National Treasury and the earliest indication is that Council needs to adopt its own Preferential Procurement Policy based upon the limits or points. It is of utmost importance that direction be provided at the earliest opportune time as this may have a significant impact on service delivery. This had

an impact on the roll out of project and also on operational execution of tasks.

7 DISASTER MANAGEMENT

Check Plan

Disaster Risk Management is not a sole responsibility that can be assigned to a municipal department. Instead, collective ownership of the principles of disaster risk management is essential if Witzenberg Municipality is to ensure the provision of sustainable service delivery. Whilst a response (as envisaged in the Disaster Management Act) is essential to ensure rapid relief and recovery from crisis, the elements of preparedness, planning and risk reduction are pivotal to success. This Plan is intended to be a working document that is expected to change as the contextual environment changes and will continually re-align to incorporate or make provisions for such changes.

A fully established and functioning Municipal Disaster Management Centre (DMC) is a key element of this plan. Therefore the Witzenberg Municipality consults with and operates in close collaboration with the Cape Winelands District Disaster M ntre. The completion of the Cape Winelands District-based Disaster Management Operating Centre in Worcester will serve the district's base needs.

In any event requiring DMOC activation, the primary role-players, i.e. disaster management representatives from both CWDM and the Witzenberg Municipality, the coordinator from SAPS, an EMS representative and any other sectorial representative are activated to these centres and coordinate all activities from this DMOC. Due to the regular occurrences of major events (e.g. floods) this DMOC is well established and functions effectively.

The need to appoint a full-time disaster management officer is crucial and needs to be addressed in the near future.

Risk prioritisation table for Witzenberg Local Municipality

Hazard	*Exposure*	*Severity*	*Probability*	*Actions needed*
Drought	*Occasional*	*Moderate*	*Normal*	*Preparedness Planning*

CPUT: Community-based Risk Assessment

Numerous workshops were held in the Witzenberg Municipality, and a wide spectrum of communities and applicable role-players were involved during the

information gathering sessions during the process (2008).

The results of the assessment, in tabular form, are as follows:

WITZENBERG MUNICIPALITY			
	LIKELY	***NORMAL***	***UNLIKELY***
Floods	*22*	*0*	*0*
Water management	*21*	*1*	*0*
Hazardous loads	*17*	*3*	*0*
Drought	*16*	*4*	*0*
Electricity theft	*14*	*5*	*0*
Economic vulnerability	*11*	*10*	*1*
Veld fire	*10*	*9*	*0*
Epidemics	*9*	*10*	*0*
Road infrastructure	*7*	*13*	*4*
Dangerous installations	*4*	*16*	*2*
Rapid development	*4*	*3*	*14*
Erosion	*1*	*19*	*1*
Structural fire	*0*	*20*	*0*
Bus accidents	*0*	*18*	*3*
Earthquakes	*0*	*6*	*15*
Nuclear spill-over	*0*	*0*	*16*

The above list illustrates the types of disasters that pose the highest risk within the area of the Witzenberg Municipality and their possible effects. The communities at risk can be derived from the risk list, and are also shown in the risk assessment that was conducted for the area.

To form a more realistic profile, it would be necessary to combine the two profiles and then indicate priorities – especially as some of the areas of risk identified are beyond the scope of municipal service delivery.

It will be seen from Disaster Management Risk reduction projects that common elements present in both are addressed.
It needs to be noted that the Cape Winelands District Municipality has initiated a further Risk Assessment Project, in conjunction with the University of Stellenbosch, with the focus on Ward Disaster Management Risk Assessment, i.e. the training of representatives in wards to empower them with the knowledge and skills to perform the assessments. The US was appointed for the compilation of, and the setting of training for selected officials and ward representatives.

Risk Assessment

The following table can be used as a template to reflect risk assessment outcomes in the IDP:

Risk	***Dept 1***	***Dept 2***	***Dept 3***	***Dept 4***
Risk A: *Fires*	*Fire Services Witzenberg and CWDM*	*Housing*	*Provincial Social Services*	
Risk B: *Floods*	*Disaster Management*	*Engineering Services*	*Traffic Services*	*SAPS and EMS*

Risk C: *Transportation of dangerous goods (rail and road)*	*Provincial Roads*	*Western Cape Province*	*Dept Health CWDM: Health*	

These main risks are taken from the risk assessment tables of both Africon and the community-based assessments, as they are the main commonalities derived from the specific risk assessments.

Fire Services Department

In terms of the Municipal Structures Act, B-Municipalities such as Witzenberg are responsible for all structural fires within their municipal area. The Cape Winelands District Municipality is currently assisting Witzenberg through an unofficial inter-governmental agreement to assist with this function. It is the objective of the municipality to incrementally over a five-year period establish a fire brigade service in terms of the firefighting functions and in accordance with SANS 10090: 2003. This will effectively mean the establishment of a 24-hour facility for the eastern area (Ceres, Nduli, Prince Alfred's Hamlet and Op-die-Berg) that will drastically improve reaction time. The municipality has started with the extension of this function to the western area (Wolseley and Tulbagh) and the eastern area (Nduli). Full-time staff and Working on Fire firefighting personnel and equipment were relocated to Tulbagh and Nduli for these purposes. A Manager Fire Services and Disaster Management and a Station Officer for Fire Safety and Fire Operations were appointed. The recent consultations with stakeholders at Op-die-Berg highlighted that there is a need to appoint firefighters and allocate equipment and vehicles to this area.

Risk reduction

Fire risks

Risk reduction in respect of fire risks is not really possible, although the enforcement of building plan codes takes place and all building plans are scrutinised for fire safety requirements. Mountain and veld fires, fires in informal structures and dwellings form the general basis of fires in accordance with fire statistics. The Planning for Fire Services is included in a Fire Protection Plan that is submitted annually for consideration and approval by the Witzenberg Municipal Council. It must be noted that municipalities need to do planning and evaluate budgetary priorities from the wards in accordance with national and provincial strategic objectives.

The Department of Cooperative Governance and Traditional Affairs (CoGTA) assesses the progress made by municipalities against five key performance areas (KPAs) and cross-cutting interventions adopted in the Five-year Local Government Strategic Agenda. The five KPAs that form the basis of the assessments are:

- Municipal Transformation and Organisational Development;
- Basic Service Delivery;
- Local Economic Development (LED);
- Municipal Financial Viability and Management; and
- Good Governance and Public Participation.

These elements will become the basis of priority determination when evaluating priorities during the IDP process, project identification and compilation of a budget. This in effect implies that municipal performance will be measured in terms of these standards.

Section 152 of the Constitution of the Republic sets out clear requisites for local government

in paragraph (d) "To promote a safe and healthy environment". As this forms the legal basis in terms of the Constitution, it can however not be totally ignored.

As disaster management is not a function allocated to one discipline, but to all disciplines in a local authority, it implies that the total budget must be evaluated for inclusion of Disaster Mitigation Projects. For instance, the provision of housing will be a disaster mitigation project as it implicates the reduction of informal structures. The provision and extension of electrical power in accordance with needs is a disaster mitigation project as it decreases the effects of dwellings without power (e.g. dangers with open fires) with all its consequences.

Municipal Risk Assessment Relating to Load Shedding

Infrastructure affected by Load Shedding with possible consequences

Service at Risk	Primary Impacts
Water	➢ Non-provision of fresh water
Sewerage	Failure to pump and treat sewerage ➢ Pollution could be caused ➢ Contamination could arise
Transport/Traffic	➢ Traffic disruptions ➢ Congestion of critical intersections ➢ Dysfunctional traffic lights ➢ Capacity to transport fuel ➢ Increased accidents
Health	Disruption of Health Facilities ➢ Hospitals ➢ Clinics and pharmacies ➢ Support activities
Emergency Services	Fire, Rescue and Emergency Medical Services ➢ Disruption of emergency call taking ➢ Disruption of communications ➢ Inability to co-ordinate resources
Communications/ Telecommunications and Information Technology	Disruption of telecommunications ➢ Disruption of mobile communications ➢ Shut down of IT systems ➢ Disruption of public radio and TV ➢ Disruptions of satellite networks ➢ Late payment of accounts
Commercial Industrial Financial Markets	Disruption of commercial enterprises ➢ Disruption of operations at vital installations and National Key Points ➢ Disruption of operations of Banks (ATM's and credit card systems) ➢ Non-functioning of commercial centres ➢ Non-functioning of cold storage facilities ➢ Non-functioning of municipal pay points

Law Enforcement and Security Services	Increased Security Risk ➢ Increased crime ➢ Decrease in surveillance capacity in key areas ➢ Public disorder

Fuel Security	Disruption of operations with high fuel demand ➢ Inability of movement of municipal vehicles ➢ Inability of emergency response by emergency vehicles ➢ Inability to fill critical emergency generators ➢ Inability of fuel supplier to supply fuel to Municipality
Funeral Homes	Inability to maintain cold staorage ➢ Inadequad generator capacity ➢ Inadequad fuel storage

The Municipal departmental response teams will:

- Represent their department at Municipal Joint Operation Centre at
- Witzenberg Fire, Rescue and Disaster Management Center. Determine nature and location of critical services affected.
- Determine impact of incident on municipal service delivery areas.
- Identify energy priorities.
- Identify resources needed to stabilize the situation.
- Mobilize municipal structures and assets.
- Implement action plans for crucial services.
- Communication with key clients.
- Implementation of business continuity plans.
- Escalation of issues beyond planned capability to Municipal Joint Operation Centre.

Floods

The Witzenberg municipal area is prone to floods. Over the past decade, flooding occurred at least once a year. Due to the effects of global warming and climate change with resultant cut-off lows, is has become increasingly difficult to forecast or predict critical time periods and/or affected areas.

As stated in the Spatial Development Plan, the Planning and Development Section takes cognisance of the effects and do their planning accordingly in the face of undetermined or ambiguous flood lines in some areas.

Response and recovery

Due to the fact that flooding and other events occur frequently in this area, there is a good understanding of the different roles allocated to the different sectors during any event of disaster potential or consequences. This is managed and coordinated by the immediate activation of a DMOC (Disaster Management Operational Centre, situated in Munnik Street in Ceres), in conjunction and cooperation with the Cape Winelands District Municipality.

Information Management and Communication

Information management and communication is vital regarding all aspects of Disaster Management, especially in an age where the development of technological infrastructure is occurring at an immeasurable pace. Uninterrupted service delivery and continuation of services are imperative aspects over the total sphere of Disaster Management, albeit recordkeeping, financial control, real-time logging of incidents and the effects and fiscal implications of all occurrences taking place in the management of a local authority.

Dissemination of information to governmental agencies, NGOs and other role-players in the all-encompassing era of electronic information sharing is of paramount importance to ensure that systems are compatible to prevent time losses and confusing information.

The two critical aspects regarding Information Technology in the Witzenberg are:

- The IT platform is being updated. Regarding this, short-term plans and budgets are in place. Acquisition processes for the upgrade/ replacement of infrastructure (soft- as well as hardware) as reflected in the three year budget is in place.
- The establishment of a DM recovery site: This is subject to the completion of the upgrade/replacement of infrastructure, thus of more medium and long-term implication. As with the previous aspect this is well reflected in the multi-year budget.

Training, education and awareness

In terms of reduction, apart from the normal first aid courses and such, the Cape Winelands District Municipality, in cooperation with the University of Stellenbosch, designed a training course in Ward Based Disaster Risk Assessment which commenced during August 2013. This course has as objective to train identified personnel and other persons to enable them to assist in Ward Based Disaster Risk Assessment which will serve to ensure that risk assessments per ward are carried out, risks addressed during ward meetings and tabled as such for consideration during the IDP and budgetary process.

Funding

In an analysis of the total municipal budget, the identified Disaster Management Risk Reduction Projects are as follows:

Project	*2012/13*	*2013/14*	*2014/15*	*2015/16*	*2016/17*	*2017/2018*
Replace Firefighting Vehicle						
Establish fire facility at Ceres, Op-die-Berg						*R500 000*
Acquisition of a rescue vehicle					*R2,300,000*	

Community Emergency Response Team (CERT)

The municipality embarked on this project that entailed performing a various tasks needed before, during and after fire emergencies and disasters, including public education programmes (community and schools), cutting fire breaks, data gathering, simple firefighting tasks, damage evaluation of structures, triage, first aid and assisting in the evacuation of residents. This freed highly trained professional responders for more technical tasks. A CERT team may self-activate (self-deploy) when their own

community is affected by fire or disaster. A self-activated team will size-up the loss in their community and begin performing the skills they have learned to minimise further loss of life, property, and the environment. They will continue to respond safely until redirected or relieved by the fire and emergency services or professional responders on-scene.

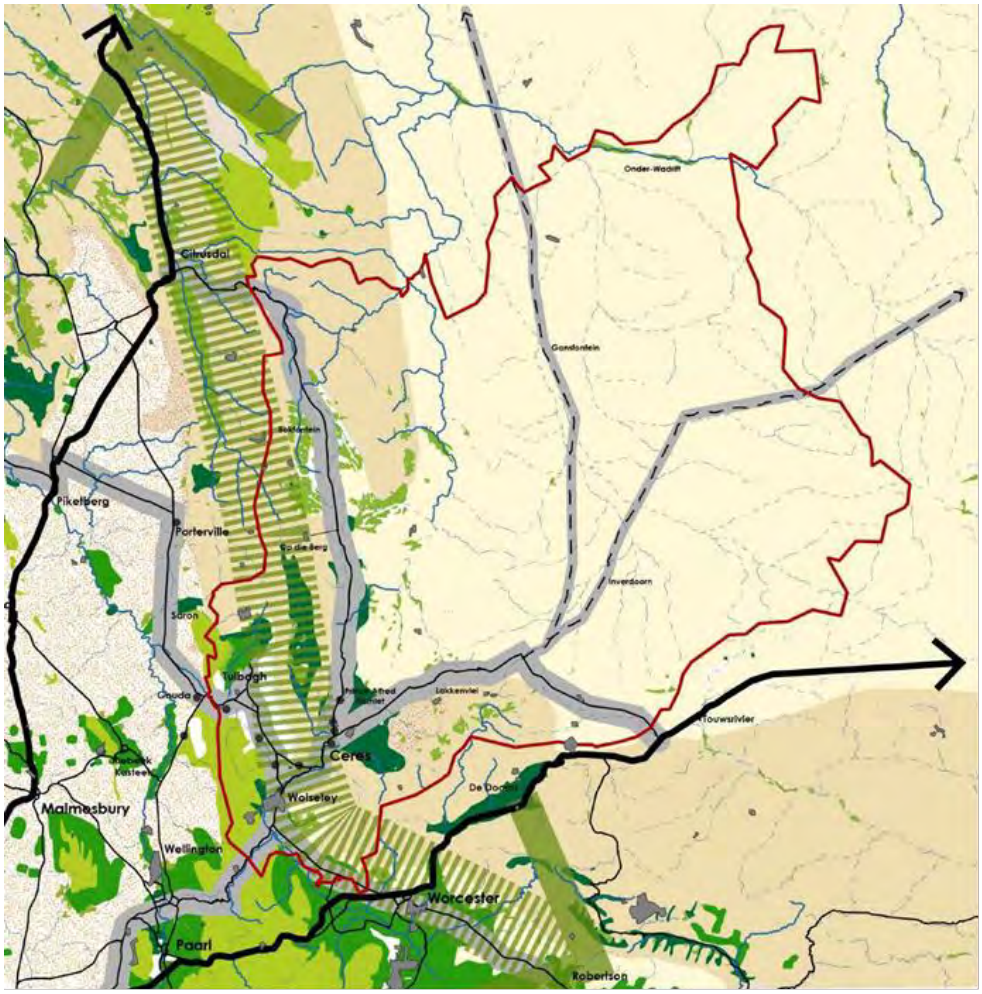
Annexure A- DoA-Proposed Agricultural Fwork for 4th Gen IDPs-29 September 2016.pdf

IV. AGRICULTURE IN THE WITZENBERG AREA

Focus: Protect food security while supporting sustainable diversification of the agricultural sector and encouraging more efficient methods and models.

Key Development Implications:

- Support private sector led institutional arrangements to enable joint planning and development of agriculture related activities.
- Avoid the subdivision of agricultural land or changes in land-use to minimise the loss of agricultural activities while also avoiding the creation of uneconomical agricultural units.
- Enable the diversification of farmer income through enabling complimentary uses on farms in a manner which does not detract from the functionality and integrity of farming areas and landscapes.
- Develop incentives for smarter/ green agricultural practices and technologies.
- Make municipal commonages and land on the edges of settlements close to communities available for small/ emerging farmers and/or community gardens.
- Support alternative farming models such as the possibility of transforming unused and uncontaminated industrial land into community gardens.
- Support private initiatives to provide in the housing needs of agri-workers and the provision and management of associated social services.



Agricultural Concept for Witzenberg - showing key farming areas, production types and supporting infrastructure concentrated along the agricultural band along the western edge of the municipal area
Deciduous fruit is the dominant product

1. Primary
    i. Deciduous: Apples, Pears, Nectarines, Peaches, Plums, Apricots
    ii. Onions

DISTRICT DEVELOPMENT MODEL & JOINT DISTRICT AND METRO APPROACH

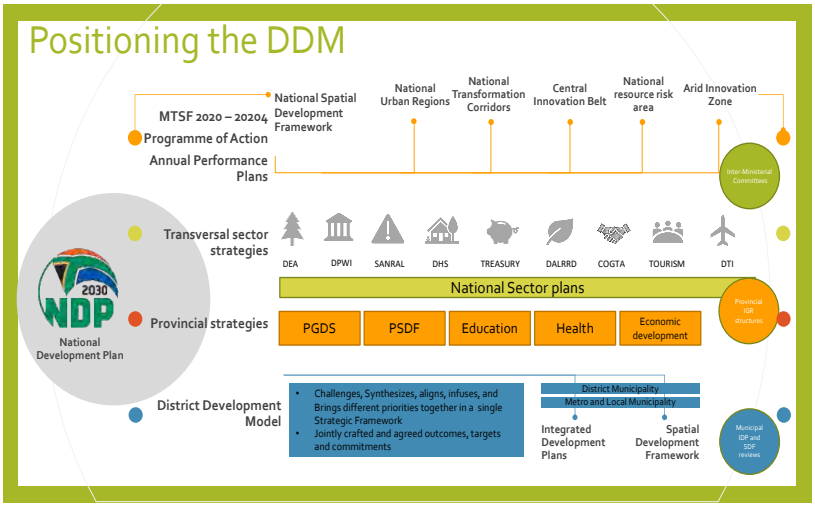
Cabinet adopted the District Development Model to build on the White Paper on Local Government (1998) which seeks to ensure that local government is capacitated and transformed to play a developmental role. The objectives are to:

- Coordinate a government response to challenges of poverty, unemployment and inequality particularly amongst women, youth and people living with disabilities;
- Ensure inclusivity by gender budgeting based on the needs and aspirations of our people and communities at a local level;
- Narrow the distance between people and government by strengthening the coordination role and capacities at the District and City levels;
- Foster a practical intergovernmental relations mechanism to plan, budget and implement jointly to provide a coherent government for the people of the Republic (solve silos, duplication and fragmentation) maximise impact and align plans and resources at our disposal through the development of 'One District, One Plan and One Budget';
- Build government capacity to support municipalities;
- Strengthen monitoring and evaluation at district and local levels;
- Implement a balanced approach towards development between urban and rural areas; and
- Exercise oversight over budgets and projects in an accountable and transparent manner.

President Ramaphosa in his budget Speech 2019 identified that there has been a pattern of operating in silos which has led to a lack of coherence in planning and implementation and has made monitoring and oversight of government's programme difficult. He thus called for the rolling out of a new integrated district-based approach to address service delivery challenges, localised procurement and job creation, to promote and support local businesses and involve communities.

The DDM 'One Plan' is a long-term (25 to 30 year) strategic framework guiding investment, service delivery and development in relation to each of the district and metro spaces.

- The DDM is positioned in relation to the NDP, MTSF and NSDF to enhance the overall system by synergizing national, provincial and local priorities in relation to the district and metro spaces.
- The One Plans as contemplated in the DDM does not deal with the non-strategic aspects that each of the existing plans may cover.
- Neither does it cover the full range of responsibilities that existing plans cover in relation to core powers and functions.
- They are IG strategic frameworks that make strategic sense of the available plans and synthesize or localize these plans in the context of the spatial and place making logic of the district and metropolitan spaces.



The Western Cape Government introduced the Joint District & Metro Approach in November 2018. As the JDMA was already institutionalized in the Province, the Provincial Cabinet endorsed the JDMA as a Western Cape approach towards the National District Development Model (DDM).

The JDMA is a geographical and team based, citizen focused approach with a Single District Plan to facilitate developmental initiatives and government services.

The Cape Winelands District (CWD) has followed the following comprehensive consultative approach to ensure the systematic institutionalisation of the JDA:

- One-on-one JDA introductory discussions between the JDA team leader and Municipal Managers and / or Senior Management Teams.
- A Joint District Approach (JDA) Coordination Interface Team between some national and provincial departments, the district and local municipalities was constituted which meet regularly to discuss matters related thereto.
- One-on-one discussions have been scheduled at political and administrative level between the District Municipality and Local Municipalities' Senior Management teams.

- The approach adopted to compile this profile was to agree on the aim of this profile: To provide an information source that at a glance highlights the challenges, what must be maintained and opportunities facing the Cape Winelands District; and
- Assist in informing catalytic or strategic projects for incorporation into the Joint District Approach Implementation Plan for this geographical area.

In view of the above, the following Strategic Priorities have been identified as of relevance to the Cape Winelands District JDA:

- Waste Management: Various Projects
- Community Safety Plan implemented
- District Urbanisation Management: Various Projects
- Develop and implement a District Plan to address Youth unemployment and related challenges
- Financial Sustainability
- Improving Resilience in terms of: Climate Change, Water Security and Electricity Security
- Working Group established to draft a Concept Paper on Data Governance (Beyond Profile 2020)
- IGR structures mapped and recommendations proposed for rationalisation
- JDA Communication Plan developed and implemented
- N1 De Doorns: Private Sector involvement in JDA

Project leaders have been constituted per priority area project identified. A core municipal and provincial team provides strategic direction and ensure that the interlinkages between the strategic priorities are managed.

The CWD JDA Implementation Plan is further underpinned by operational support plans; based on requests received following various engagements between the provincial departments and municipalities and that are not addressed on the Annual Performance Plans of provincial departments.

REGIONAL SOCIO-ECONOMIC PROGRAMME (RSEP) / VIOLENCE PREVI URBAN UPGRADING (VPUU)

~~Check with Projects and Performance~~

The Regional Socio-Economic Programme and Violence Prevention through Urban Upgrading Programme (RSEP/VPUU Programme) is an intergovernmental programme run in the Western Cape. The programme will comprise a variety of projects, driven by different role-players, including municipalities, provincial departments, the VPUU Not for Profit Company (VPUU NPC) and communities.

A core component of the programme is to promote learning and to mainstream lessons learnt, best practice and opportunities for replication in municipalities and towns.

The RSEP/VPUU Programme is about a capable state partnering with active citizens, communities and other stakeholders to plan and implement projects that improve quality of life. The majority of projects funded through the programme will be local and precinct-based, and these will mainly be urban upgrading projects that involve the development of physical infrastructure.

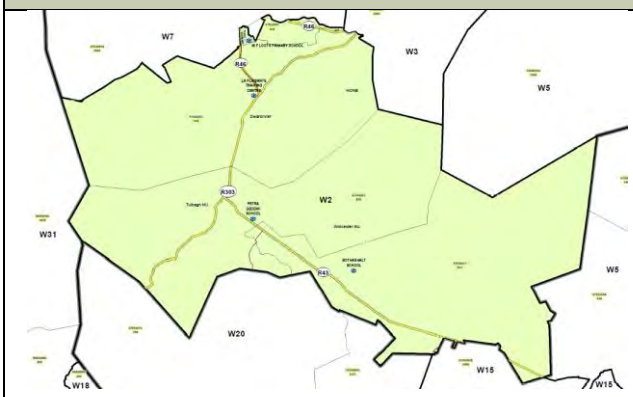
Infrastructure projects are supported by social projects that focus on providing activities, programmes or facilities for specific groups or address social challenges within communities, such as early childhood development, education, safety, economic development or social cohesion. All of the projects will be identified at municipal level through a collaborative process involving many stakeholders.

The scope of the actual work being undertaken under the RSEP/VPUU Programme operates at different scales and is grouped under eight streams. Under each of the streams, there are one or two overarching goals that indicate the

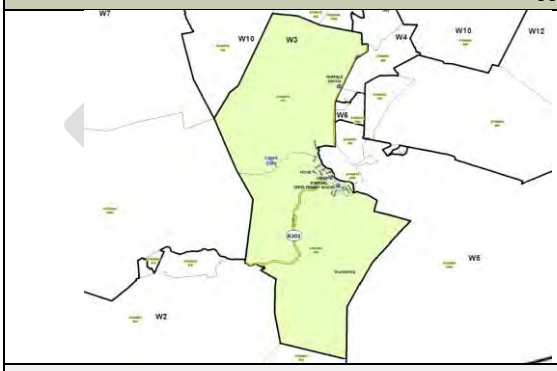
broad intentions of the work undertaken within that stream as well as a few objectives, which indicate some of the steps that may be taken to achieve the goal(s).

B. IDP PUBLIC NEED ANALYSIS

Wards 1 and 12	
	Library services should be restored Provide street/security lights in unsafe areas More secure fencing at public facilities Upgrading of older streetlights Better dialogue in future with the youth Water resources for small farmers Policies must be communicated with the community Safe “walk way” / bridge between N’Duli and Vredebes Ongoing programmes on speed control Combat erosion on sidewalks and streets (rehabilitation) Community facilities need to be upgraded Rehabilitation of graveyard and fencing More prepaid electricity selling points Mobile Clinic Services – Tankwa Karroo Area Maintenance of roads Satellite connectivity in rural areas, emergency and law enforcement connectivity Resource farm watch Information signage along gravel roads in Tankwa Karroo Area Television and network connectivity in the Tankwa Karroo Area Livestock Theft Unit to have more Programms in the Tankwa Karroo Area	Skips programme needs to be sustained Sewer network needs to be improved Sports grounds needs to be restored/ upgraded Electrical theft needs to be clamped down Mini CBD to be developed in N’Duli Implementation of recycling projects/ programmes JOJO Tank subsidies from small farmers Rehabilitation of playgrounds and parks Development programmes for women and persons with disabilities Police station for N’Duli Hostel facilities for primary school children in Tankwa Karroo Area ABET facilities in the Rural Areas Substance abuse in rural farming areas Rest areas on rural roads, maintenance, district to stop cutting down trees District Municipality to rehabilitate rest areas along farming main routes Solar/renewable energy for farm houses Firefighting volunteers Water Security Programmes for communities living in the Tankwa Karroo Area

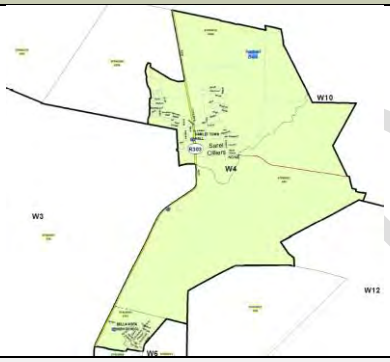
Wards 2 and 7	
	


Pine Valley library and swimming pool Bathroom facilities in the graveyard areas Secure fencing at the graveyard Substance abuse escalating under scholars Illegal shebeens and off-sales Job creation programmes Back yard dwellers still a problem, housing need Foreigners' activities (illegal) still a problem Bathroom facilities at informal settlements Wolseley requires a fire station Neighbourhood watches in all areas RDP houses are being sold to foreigners Drop-off and pick-up points at die Bossie, as you enter Wolseley Communal and church plots at Kluitjieskraal Mobile library service for the Breederiver area Homeless shelter	The water canal in Wolseley still a safety concern A concern on the education levels of Breederiver farming area, a need for training programs for people in these rural areas More Tourism programs to be rolled out Building a playpark in Kluitjieskraal and Pine Valley Taxi rank placements to be investigated Public bathroom facilities in the CBD The piece of land between Kluitjies Kraal and Pine Valley to be developed, or be made available for development e.g. food gardens, small scale farming ECD centers to be formalised Skills development programs in the Agri sector

Wards 3 and 5	
	


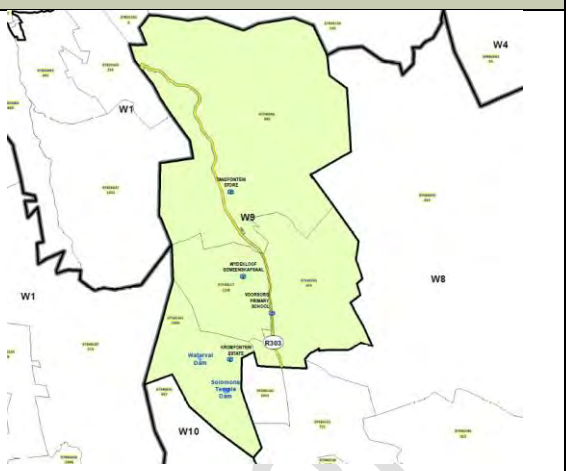
Playgrounds for the northeastern part of the Rooikamp area Animal control a big problem, dogs and stray animals / problem has escalated Better/more speed calming efforts Street signage to be upgraded	Owen Street unsafe due to poor street lighting Owen Street walkway to be developed, as this has become a main taxi route, unsafe for pedestrians Inspection/policing of shops, occupants use as accommodation

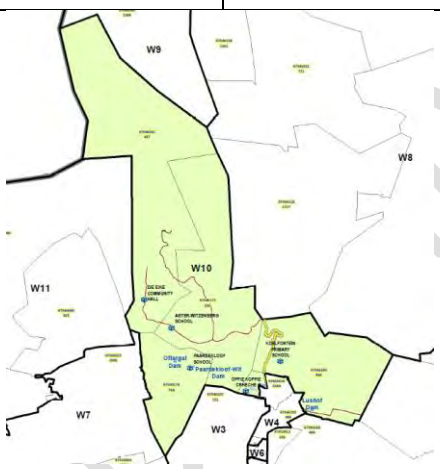
Mainmast light/ high-beam floodlights to be installed at parks and walk way areas Gap housing developments Free broadband and WiFi hotspots Establishment of CPFs in all areas and more regular SAPS patrols/ high crime still a problem Library in Lyell Street to be upgraded/ modernised Recreational facilities similar to neighbouring municipalities Sidewalks to be tarred or paved Streetlights to be upgraded, streetlights that are lower than the trees, outdated Community "Clean Green" programmes for the Rooikamp area Solar emergency street and floodlights in the Rooikamp Areas Heavy vehicles to be forced to use main routes Signage to prohibit heavy vehicles from using neighborhood streets	Walkway to be developed from the nature reserve, past the pine forest Homeless people problem getting out of hand Stormwater network a problem Walkway and lights from Egoli to Albert Crescent behind houses Railway line to be cleaned frequently, better quality fence Weekends the Town Main Roads have too much traffic Gambling taking place on street corners, SAPS need to act Bathroom facilities needed in cemeteries Better lighting needed along walkway to the Hospital Bus shelters for scholars on the outside rural roads Some playparks to be converted to gym parks

Wards 4 and 6	
	


Community hall for Phases 3, 4 and 5 Backyard dwellers still a problem – housing need Sports facilities for Phases 3, 4 and 5 High dropout rate of scholars a problem Business hub/mini CBD for Kliprug area Better controlled refuse removal in Phases areas Availability of church sites Not all dwellings connected to main sewer line Ongoing speed control programmes Animal control in all areas Xhosa medium school for PA Hamlet area More electrical selling points, even at Thusong Business hub/mini CBD for Bella Vista More prepaid electricity selling points Bus and taxi shelters for scholars Vandalization of Municipal property	Clamp down on illegal dumping of refuse Upgrade of Bella Vista Community Hall Sewer network a problem at graveyard Development of youth centre at one of municipal facilities Land availability for small farmers Off-ramp lanes at Bella Vista entrances Gap housing developments Major need for pavilions at sports grounds Need a walkway around Jakaranda, Vrede Street and Mooi Uitsig School Bella Vista clinic too small Thusong Centre open on Saturdays from 09:00 to 12:00 Walk way needed from Mooi Uitsig School to Vrede Street

Wards 8, 9 and 10





Clinic for the Agter Witzenberg area Ambulance services still a problem SAPS service must be intensified Bus and taxi shelters along main routes Fire station for Op-die-Berg and also to service surrounding areas Crime also escalating – CPF Sports grounds need secure fencing The location public ablutions facilities in the CBD area Speed calming still a problem Illegal house shops need to be regulated Illegal shebeens need to be closed Playgrounds and parks are unsafe Business development support programmes There are still streets that need tarring; Grond, Bokveld Street, etc. Upgrading of the R303 Gydo Pass Servicing of unserved erven	E-Centers needed Tourism/ ecotourism to be promoted in the area Bridge in Phase 5 to be repaired Christmas and holiday lights to be budgeted for Op-die-Berg River rehabilitation programme to be sustained No pavement curbs along main CBD routes Tarring of CBD open spaces and sidewalks Swimming pool needed for Op-die-Berg Subsidised water storage tanks for all houses Better quality street/security lights Investigation needed regarding trees in CBD area Spotlights floodlights needed at walkway over the foot bridge More municipal services to be rendered at Op Die Berg offices Illegal hokkies to be marked/numbered

Wards 7 and 11	
Replacement and maintenance of roads Substance abuse a problem in Tulbagh area Small-scale farmers need land for their animals Animal control must be intensified Sector departments need to assist with the establishment of sports facilities in farming areas Water shortage a problem during summer months Small business development opportunities Gap housing developments Traffic Services for Tulbagh Illegal house shops need to be regulated Upgrading of street lights Parks and playgrounds to be upgraded Better ablution facilities for schools on farms Libraries to be open on Saturday mornings Control the influx and illegal structures Informal housing getting out of control Development of vacant land/property	Illegal shebeens need to be closed Storm water network in Tulbagh needs to be maintained regularly The use of local contractors for municipal work Sewerage network in Chris Hani area needs to be maintained regularly River rehabilitation programmes to be sustained Development of Sports Facilities Tourism campaigns to be developed to attract more tourists Speed calming needed along main street walkway routs Roll out of programs for people with disabilities More ablution facilities needed in Chris Hani area, and ASLA Camp Scholar road safety to be looked at, school road/street crossings; traffic signage to be put up,

Draft

4 KEY PERFORMANCE AREAS

Witzenberg Municipality has identified four key performance areas that group related functions and activities into focused units. Strategic objectives have been developed for each of the KPAs that are further broken down into programmes, projects and activities. Key performance indicators will indicate performance and progress on our strategic objectives over the five-year IDP term. Note that the KPAs do not relate to directorates as currently being used in the municipality.

KPA **Essential Services** include the following functions:

- Water Services
- Sanitation Services
- Roads and Storm water
- Transport Management
- Electrical Services
- Street lighting
- Solid waste management and collection

KPA **Governance** includes the following functions:

- Human Resources
- Administration
- Information Technology
- Marketing and Communication
- Internal Audit and Risk Management
- Performance Management
- Traffic and law enforcement
- Building Control
- Town Planning
- Financial administration
- Income
- Supply Chain Management
- Integrated Development Planning
- Legal and property management
- Council

KPA **Communal** includes the following functions:

- Environmental Management
- Open Spaces
- Air and noise pollution
- Trading regulations
- Amusement facilities
- Cemeteries

Draft Document

- Fencing
- Amenities
- Sport facilities
- Parks and Recreation

KPA **Socio-Economic Support** includes the following functions:

- Social Development
- Local Economic Development
- Indigent support
- Housing
- Job creation

Key performance area 1:

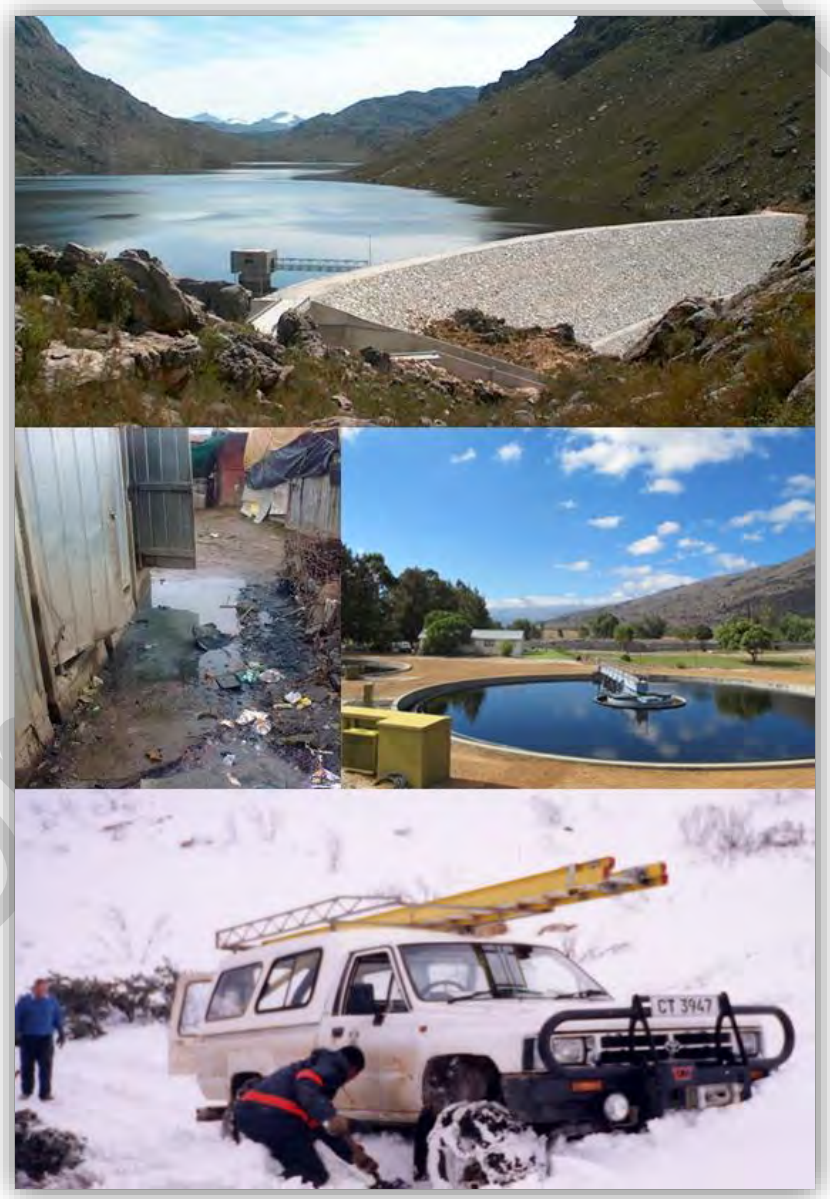
ESSENTIAL SERVICES

OBJECTIVE 1.1:

SUSTAINABLE PROVISION AND MAINTENANCE OF BASIC SERVICES

OBJECTIVE 1.2:

PROVIDE FOR THE NEEDS OF INFORMAL SETTLEMENTS THROUGH IMPROVED SERVICES



Draft

Key Performance Area 1

A. ESSENTIAL SERVICES

I. OBJECTIVE 1.1: SUSTAINABLE PROVISION AND MAINTENANCE OF BASIC SERVICES INFRASTRUCTURE

An important emphasis for the municipality is to ensure that basic services infrastructure is provided and upgraded to support areas of growth. The further maintenance of existing infrastructure will ensure the sustainable provision of services. This will happen by means of the following programmes:

▪ PROGRAMME 1.1 (A): UPGRADING OF BULK RESOURCES AND INFRASTRUCTURE

Water Sources, storage and purification

The main resources for **Ceres** are the Koekedouw dam with a capacity of 17 million m^3 of which the municipality is entitled to 10 million m^3. Current usage is 3,9 million m^3 p/a. At the current population growth rate of 2,67%, the current supply will be sufficient for the next 20 years, excluding supplementation from our boreholes. Emergency boreholes can supply 20% of our ADD. Water quality from Koekedouw is good and is only chlorinated before distribution.

Two reservoirs (3 and 5 Ml) serve as storage reservoirs to the distribution network of 114 km with four supply zones (Bella Vista, N'Duli, Ceres main supply zone and Ceres central PRV zone). The network includes a 2 X 2 Ml service reservoirs, a booster pump station to the pressure tower at Bella Vista (500kl) as well as a 750 kl and a 4,5 Ml service reservoir at N'Duli. All the bulk infrastructure for the planned housing projects have been completed and are in operation.

Moordenaarskloof and Tierkloof are the main resources for the supply of water to **Tulbagh** at present. Construction has been completed to provide an additional 1,2 x 10^6 m^3/a from the Klein Berg River. Additional boreholes were drilled adjacent to Nuwekloof pass but the yields are insufficient for supply to the town of Tulbagh. Moordenaarskloof is evenly shared with two other users (SAPCO and Kruysvallei). The existing storage dam arise insufficient and requires the implementation of water restrictions on an annual basis. Funding for the construction of the Waverenskroon dam has been approved from DWS, and the project is currently at the implementation stage (construction).

The purification plant consists of five slow gravity sand filters as well as a chlorination system. Two reservoirs (800 kl and 1 Ml) serve as clear water storage reservoirs to the distribution network of 29 km with two pressure zones. The network includes a booster pump station to the pressure tower (500 kl). A new reservoir will have to be constructed when private residential housing projects are implemented.

Wolseley receives its water supply from the Tierkloof weir. Purification consists of pressure filters and chlorination. The Ceres Road Reservoir (680 kl) and newly constructed 6 Ml Wolseley reservoir serve as storage reservoirs to the distribution network of 44 km with two pressure zones. The network includes a 4.5 Ml services reservoir (Stamper Street Reservoir), which has been resealed to prevent losses, and a booster pump station. An additional pump station

Draft Document

enables the transfer of irrigation water during periods of low flow from the Artois canal to this reservoir. The absence of a storage dam for Wolseley places the town at risk during periods of severe drought. The bulk supply line from the Tierkloof weir is at risk of collapsing due to age and is in need of replacement.

Prince Alfred's Hamlet's water sources consist of the Wabooms River weir, a fountain, three boreholes as well as a link through the agricultural pipe network of the Koekedouw Dam. Due to the quality of the raw water, only chlorination is required. Four 500 kl reservoirs serve as storage reservoirs to the distribution network of 32 km with only one pressure zone.

Op-die-Berg has three water sources, a fountain and two boreholes. Due to the quality of the water, only chlorination is required. Three reservoirs as follows: 50kl, 60kl and 500kl serve as storage reservoirs to the distribution network of 6 km with only one pressure zone. A new reservoir is required with the recent construction of 250 RDP houses. The absence of a storage dam places the town at risk during periods of severe drought.

Infrastructure Investment: Bulk Water (Note: Refer to final approved/adjusted budget for correct figures)			
Project Name	***Area***	***Budget***	***Year***
New Reservoir	***Tulbagh***	***R 7 200 000***	***2023/2025***
Tierhokskloof pipe line upgrade	***Wolseley***	***R 869 565*** ***R 10 919 000***	***2022/2023*** ***2023/2024***

Waste water treatment works and pump stations

Sewage and industrial effluent are collected from consumers via a sewer system and treated at the **Ceres** wastewater treatment plant. The plant services the areas of Ceres, N'Duli, Bella Vista and Prince Alfred's Hamlet. The sewer system includes nine booster pump stations. A portion of the treated effluent is used for irrigation. The **Tulbagh** wastewater treatment plant was upgraded in 2015 and the system includes three booster pump stations. The **Wolseley** Wastewater treatment plant was upgraded in 2014 and the system includes six booster pump stations. The **Op-die-Berg** wastewater treatment plant serves approximately 75% of the consumers and the rest are serviced with septic tanks. Septic tanks are emptied by the municipality on request.

PLANT	***SIZE (ML/DAY)***	***TECHNOLOGY***	***OPERATIONAL FLOW (% of design capacity)***

TULBAGH WWTW	***2.46***	***Activated Sludge***	***73***

Draft Document

The effectiveness of the plants is measured through the quality of waste water discharge with all plants achieving targets in 2017/18. The Op-die-Berg plant requires an upgrade of sandfilters as the quality of discharge decreases, especially during winter months due to insufficient evaporation.

Electricity bulk supply and substations

Witzenberg Municipality is the main provider of electrical services to the domestic and agricultural economy within its area of jurisdiction, whilst Ceres itself is synonymous with 'world-class fruit'.

Without a sufficient and sustainable electricity supply, this economy finds itself in dire straits. The hard-hitting facts are that Witzenberg Municipality is for all intents and purposes running at its NMD (Notified Maximum Demand) of 46,2 MVA (total). In fact, NMD was exceeded in 2019/2020 as well as the current 21/22. The current Eskom backbone network does not permit an increase of this NMD until such time as their backbone network has been upgraded. The implications thereof are eight years and R250 million, meaning that 2030 is the earliest our NMD can be upgraded. Eskom however originally moved this date from 2022 to 2030 and more recently back to 2025. Time will however show when the upgrade really happens.

A conservative estimate of 2,5% growth per annum is that Witzenberg Municipality's load will be in excess of 50 MVA by then.

The realistic estimate however includes agriculture's own estimate for their industry alone to be 2,5% in addition to the natural growth of Witzenberg mentioned above. This then is a projected growth, realistically, of 5% per annum over the next ten years. By this estimate Witzenberg Municipality's load will be 90+ MVA by 2030. The reality however is that Eskom's inability to supply capacity has had a huge negative effect on the economy of Witzenberg. The intermittent load-shedding also adding to our woes.

The following initiatives were implemented to assist over the short term:

- The Witzenberg Municipality installed power factor correction equipment at the Ceres main electrical substation, which effectively provides us with an additional 1 Mva of electricity.
- Although Eskom cannot currently increase Witzenberg's NMD, an application for an additional 5 MVA was however submitted in September 2019. This is deemed a short/medium term solution.
- Council has approved more than 5 MWp of solar panels for its consumers, although this is now limited in terms of a Council decision.

Over the short term (1-2 years), the above interventions will assist Witzenberg to provide in its customers' growing demand. Should Eskom not be in a position to complete the upgrade of their bulk electricity by 2030, the Witzenberg Municipality and its agricultural economy will be brought to its knees because of Eskom's inability to provide an increased Notified Maximum Demand.

On the municipal side Witzenberg has three main areas of supply with four Eskom intake points as follows:

- The **Ceres** electrical network receives its bulk electricity from Eskom via two 11kV bulk metering points at Eskom's Ceres Power Station (northwest of the urban area) and Bon Chretien (northeast of the urban area) substation, current NMD is 36,5 MVA.
- The **Tulbagh** electrical network receives its bulk electricity from Eskom via one 11kV

Draft Document

bulk metering point at Eskom's Tulbagh substation, current NMD is 4,5 MVA.

- The **Wolseley** electrical network receives its bulk from Eskom via a single 11kV bulk metering point at Eskom's Wolseley substation, current NMD is 5,2 MVA.

It remains the duty of any municipality to pursue all avenues of revenue enhancement in order to ensure the provision of the full bouquet of services to all its residents in a sustainable manner. Electricity provision to the un-electrified rural areas of Witzenberg municipal area is a huge untapped resource that the municipality is unable to exploit due to the current Eskom NMD constraints. In terms of the municipality's NERSA approved distribution licence, the municipal supply area is:

> *"The municipal area of WITZENBERG. Customers being supplied by Eskom or any other Licensed Distributor at the date of commencement of this licence are excluded from this licence"*

This implies that all un-electrified areas are considered 'green field' supply areas for the municipality and that Eskom is not allowed to supply electricity to these areas without the express permission of the municipality.

Load forecast

Below is a table depicting the current and immediate future growth.

	Ceres	**Tulbagh**	**Wolseley**
NMD	36.5 MVA NMD **(41.5)** Highest Registered 38.89 MVA (Feb 22)	4.5 MVA NMD Highest Registered 4.18MVA (Feb 22)	5.2 MVA NMD Highest Registered 5.1 MVA (Feb 22)
Developments proceeding	• Vredebes development (2850 RDP housing units) **5.2 MVA** • Bella Frutta **1 MVA** • Golfing estate dev (slow growth) **0.5MVA** • Erf 9602 Ceres Mall **1MVA** **[6.7 MVA]**	• Informal settlement growth **1 MVA** **[1 MVA]**	• Pine Valley 2H (120 Houses) **0.5 MVA** • Lotus Flower 3 **1.5MVA** (Construction phase) **[2 MVA]**
Developments on "hold"	• Belmont Development **0.5MVA** • Kleinbegin (220 RDP housing units) **0.5 MVA** • Mazoe (270 RDP housing units) **0.8 MVA** **[1.8 MVA]**	• Natural growth short term **0.5MVA** • Digby (315 housing units) **1MVA** • Waverenskroon (1350 housing units / Commercial 16 970m² / Institutional 20 775 m² / Recreation 24 400m² **1.5 MVA** **[3 MVA]**	• Natural growth short term **0.5MVA** • VV4 **1MVA** (phased) • Goedgevonden (269 units security/frail care) **1 MVA** **[2.5 MVA]**
	TOTAL 8.5 MVA	**Total 4 MVA**	**Total 4.5 MVA**

Proposed interventions

Eskom supplies the Ceres area with a 132 kV line that has, due to consistent growth in demand, reached its capacity in 2014. A moratorium on all new demand is currently in place. Upgrading the existing supply will consist of four phases with an associated cost of R250 million.

Management of landfill sites

The provision and operation of landfill sites in the Witzenberg Municipality have reached critical proportions due to drastically increased operating costs and permit conditions of existing sites, available landfill space and increasingly strict legislation to adhere to.

The **Ceres** landfill site has been closed since 1999 as a permit was not issued due to the nature of soil conditions that could lead to underground water pollution. Rehabilitation is however still outstanding at a cost of R 4,6m.

The **Prince Alfred's Hamlet** site is licensed for builders' rubble and garden refuse only, with the same geo-hydrological issues as the Ceres site. All builders' rubble and garden refuse from Ceres are dumped here. Vandalism and theft play a major role in the operation of the site as fences are stolen and infrastructure vandalised. Illegal entry also has the result that fires periodically break out at the site. Rehabilitation is however still outstanding at a cost of R54,3m.

The **Op-die-Berg** site needs to be closed in the near future due to high operating costs. Rehabilitation is however still outstanding at a cost of R6,1m.

The **Wolseley** site is licensed for general waste, garden refuse and builders' rubble and have sufficient space up to 2026. The municipality was forced to close the site, after the adjacent informal community burnt down the offices and damaged equipment, and it is not foreseen that the site will be opened again in the near future. Rehabilitation is however still outstanding at a cost of R28,2m.

The **Tulbagh** site has sufficient airspace for 3 months and a variation to the licence was applied for, but a court order was granted against the application. The court order indicated that the municipality has to resubmit its waste variation license with certain updates to the MEC to re-consider the amendment of our waste variation license.. If this Waste Variation License is not approved we will have to transport our solid waste to either Worcester or Drakenstein at high transport costs. The Tulbagh site needs to be upgraded to the value of R3,1m to comply with DEADP findings. Rehabilitation is however still outstanding at a cost of R19,3m.

The table below indicates the waste volumes generated per town:

Town	***Ton/annum***
Tulbagh	*4 284*
Wolseley	*4 887*
Op-die-Berg	*3 083*
Prince Alfred's Hamlet	*2 781*
Ceres	*9 664*
TOTAL	***24 699***

Witzenberg Municipality is in the process of developing a **long-term strategy for waste management** as a whole. The strategy will be required to address the following issues:

Component	Activity	Description
Waste avoidance	Public awareness	The municipality developed and implemented a public awareness programme to promote waste avoidance and waste minimisation at source.

Draft Document

Waste collection	Optimise collection System	The municipality to optimise its waste collection resources.
Waste diversion	Recycling	The municipality should cooperate with the private recyclers in the municipal area instead of competing with them. Source-separated recyclables could be collected by the private recyclers after a competitive bidding process (tender). A wet MRF will be constructed at Ceres over the next 2 financial years. A waste drop off site is being constructed at Wolseley.
	Composting of green waste	The municipality should extend its current garden waste separation system to ban all garden waste from the domestic waste stream, thereby also capturing the fine garden waste (grass cuttings) for the composting process. A chipping and composting facility should be developed at the existing Prince Alfred's Hamlet garden waste site.
	Crushing of builder's rubble	Builder's rubble should be stored until a size stockpile is created to justify the mobilisation of a crusher. Such a storage area can spatially be provided at the centrally located proposed transfer facility or until then, at the Tulbagh landfill area.
	Food waste	The quantity of food waste in Witzenberg is too low to economically justify anaerobic digestion, but the food waste fraction could be composted with the garden waste. This would require source separation of food waste, but it is recommended that this activity be postponed until the composting of green waste has been successfully implemented. A zero waste to landfill pilot is currently being done at Tulbagh.
	Waste-to-energy	Witzenberg's waste volumes are too low to economically justify waste-to-energy technologies.
Waste disposal	Disposal at licensed landfill	Witzenberg Municipality has the option to either utilise the proposed new regional landfill near Worcester or to further develop the existing Tulbagh landfill. It is recommended that the regional initiative be supported because the transport cost would be the incentive to maximise the diversion of waste from landfill. A centrally located transfer facility should be established near Wolseley where the collected waste, after diversion technologies have been applied, would be transferred to long-haul vehicles.

Investigate usage of **regional landfill sites**. The development of a regional landfill site at Worcester is currently in process with the purpose to accommodate the municipalities of Witzenberg, Breede Valley (Worcester) and Langeberg (Robertson, Ashton, Montagu). The operation of a regional site should see a decrease in operating costs, but transport costs should determine if such a shift would be viable.

Witzenberg Municipality has a long-term twinning agreement with Essen Municipality in Belgium. As part of their Federal Government Programme, an application was approved for intellectual assistance and funding for the abovementioned strategy and related

infrastructure such as the material recovery facility. The project will further assist with the establishment of drop-off points (transfer stations) in all towns that would replace the existing skip system. Additional funding for the MRF and one drop-off was approved MIG and own funding.

.

▪ PROGRAMME 1.1 (B): UPGRADE AND MAINTENANCE OF NETWORK INFRASTRUCTURE

Water and sanitation networks

The Witzenberg urban area is serviced through 327 km of water networks and 216.2 km of sewer networks with pipes varying in diameter. All urban areas have access to a water connection point with the exception of the informal areas of Tulbagh, Wolseley and N'Duli, which are supplied with communal water points. All urban areas have access to a sewerage connection point with the exception of approximately 25% of the Op-die-Berg and Prince Alfred's Hamlet consumers that are not connected to a network but use septic tanks that are emptied on request. The informal areas are provided with communal toilets. Septic tanks are serviced by two sewerage trucks over an area of 10,753 km² that entails mainly rural areas.

Normal maintenance and repair has increased drastically over the past couple of years due to the ageing of networks. A pipe replacement programme and upgrade of pump stations programme are being implemented and budgeted for on an annual basis. The increasing number of pipe breakages also has an influence on water losses, although water losses have decreased significantly over the past couple of years due to several interventions that were implemented.

Infrastructure Investment: Water & Sanitation (Note: Refer to final approved/adjusted budget for correct figures)			
Project Name	***Area***	***Budget***	***Year***
Water Network Replacement	***Witzenberg***	***R 100 000*** ***R 2 000 000***	***2023/2024*** ***2024/2025***
Sewer Network Replacement	***Witzenberg***	***R 100 000*** ***R 2 000 000***	***2023/2024*** ***2024/2025***

Electrical networks

Ongoing maintenance of the network is essential to safeguard network reliability and sustainability and to ensure safe working conditions for employees and consumer safety. The negative impact of loadshedding on the electrical infrastructure can however never be emphasised enough. With its uptake in 2022, the municipality has witnessed a deep incline in cable theft, substation vandalism estimated to over R 2million and electrical fire damage to the PFC Control panels due to excessive switching as a result of loadshedding. The cable network of **Ceres** is considered sufficient to handle a reasonable capacity increase over the foreseeable short to medium term.

In the case of both Wolseley and Tulbagh, the cable capacity is 2,38 MVA, which is insufficient to handle the Notified Maximum Demand and

Draft Document

the 35 mm cables should be replaced with 70 mm cables. Ageing infrastructure considered very outdated and even dangerous to operate are, e.g., oil circuit breakers which are estimated to be up to 50 years old and spares are not available. Old outdoor switchgear is susceptible to water ingress. Underway, is however a customer self-built project with plans of upgrading the existing 2x 95mm Incomer cables at Wolseley Main Switching station to 185mm, increasing the cable capacity to 5MVA.

The Electrical Masterplan is currently being reviewed. Witzenberg has developed a Small-scale Embedded Generation (SSEG) plan that supports the management of renewable energy production in the municipal jurisdiction. The municipality will continue with upgrading and installing street and public lighting to ensure a safe environment. However, continued cable theft and vandalism continue to pose a threat to the sustainable and safe provisioning of electricity and street lighting.

Illegal connections, especially in areas such as N'Duli and Pine Valley (Wolseley), pose a major threat in terms of electrical losses, loss of income and public safety if not properly addressed.

Although electricity losses are well managed at 10,5% annually it remains just above the 10% norm set by the Department of Energy, losses in areas such as N'Duli remain out of control, at times exceeding 85% mainly due to illegal connections with the result that only 15% of electricity supplied to the area is metered.

Especially in die winter, the N'Duli associated network trips due to overload. This constant tripping obviously has a frustratingly detrimental effect on the consumers with legal connections.

Infrastructure Investment: Electricity (Note: Refer to final approved/adjusted budget for correct figures)			
Project Name	***Area***	***Budget***	***Year***

MV Network Equipment	***Witzenberg***	***R 1 000 000***	***2024/2025***
Upgrade of MV Cables	***Witzenberg***	***R 600 000***	***2024/2025***

Solid waste collection

All formal urban residential erven receive a **weekly door-to-door waste collection** service with a wheelie-bin system being implemented for business. The implementation of the wheelie-bin system was necessary to ensure business pays for the amount of waste generated, as it was problematic with the provision of black bags in the past. The system further encourages recycling as business will save on waste removal costs when waste is collected by private recycling companies. It also addresses the problem of black bags and waste in boxes being left on pavements for collection that created pollution and unsightly streets. A new Compactor was procured in 2018/19 budget.

The **minimisation of waste** by private households is encouraged through public awareness and educational programmes. The strategic placement of large recycle bins at especially shopping centres and schools will be further expanded to support waste minimisation and recycling. The cost-effectiveness of recycling is still problematic as Witzenberg has low populations with limited volumes of waste generated. To

Draft Document

increase the cost-effectiveness of the business, private companies have engaged with commercial farmers and the agri-industry to collect waste to increase volumes.

Approximately 70 skips are distributed through-out towns for the **collection of garden refuse**. An additional skip truck was procured to alleviate backlogs, but illegal dumping, dumping of household waste in skips and overflowing skips still remain an immense challenge. The municipality appointed additional law enforcement officers in to assist with curbing of illegal dumping.

Witzenberg will further implement a **waste management strategy** as mentioned under Programme 1.1 Sustainable provision and maintenance of basic services infrastructure – Managing of landfill sites that will include the placement of **drop-off points** (transfer stations) to replace the skips. The first drop-off point in Wolseley is being constructed this financial year, drop off points will be strategically placed in all towns with permanent personnel. A thorough **public awareness campaign** with ward committees and door-to-door visits by Waste Ambassadors-ensure public buy-in. The project is partly funded with the assistance of **Essen Municipality in Belgium** with whom Witzenberg has a long-term twinning agreement.

The volumes of garden waste generated by the public are however insufficient to cost-effectively implement a composting facility and it is foreseen that Witzenberg will enter a **partnership with local private composting companies**. The strategy will also seek to implement more cost-effective operational methods as it is expected that the establishment of new RDP housing projects will put more pressure on the existing workforce and vehicles. Over the past 15 years, **residential households increased by approximately 30%** and it is expected that the trend will continue over the next 10 years mainly due to the implementation of RDP housing projects. The existing workforce and vehicles will therefore have to be increased to ensure a sustainable service.

▪ PROGRAMME 1.1 (C): TRANSPORT MANAGEMENT AND ROAD MAINTENANCE

Integrated Transport planning

The Witzenberg Local Integrated Transport Plan (LITP) 2022-2027 was prepared as part of the review of the Cape Winelands District (CWD) Integrated Transport Plan (DITP) for 2022 - 2027.

As per Section 36 of the National Land Transport Act (Act 5 of 2009) all Planning Authorities must prepare an Integrated Transport Plan (ITP) for their area for a five-year period. These ITPs need to be overhauled every five years and updated annually. The Integrated Transport Plans for the Cape Winelands District have been prepared to meet the minimum requirements for preparing an Integrated Transport Plan as published by the Department of Transport (Notice No 881, July 2016).

As part of the previous update of the Cape Winelands District Integrated Transport Plan (2014/15), the planning authorities for each of the local municipalities were re-categorised. The Witzenberg Local Municipality (WLM), through the previous update process, was classified as a Level 3 Planning Authority, which requires that a Local Integrated Transport Plan be prepared.

This report comprises the 5-year review of the Witzenberg Local Integrated Transport Plan, as part of the review of the Cape Winelands District Integrated Transport Plan.

The Witzenberg Local Municipality have had two excellent documents completed for it in the recent past, namely the Roads Master Plan (March 2020) and the Operating Licence Strategy (August 2020). With the upgrade of the IDP (March 2022) and the Spatial Development Framework (April 2022) there

Draft Document

was excellent recent information with which to compile this LITP to a very high standard.

The Roads Master Plan did not only provide the costing of required road projects and road maintenance actions, but also provided information of NMT projects and certain public transport projects.
The Witzenberg area has been experiencing urban development growth in the recent years. It is essential that all development planning be guided by a predetermined Roads Master Plan. The urban areas to be evaluated in the Roads Master Plan are Bella Vista, Ceres, Nduli, Op-die-Berg, Prince Alfred Hamlet, Tulbagh and Wolseley.

The Vision for Witzenberg LM Roads Master Plan was formulated to be "To provide a safe, reliable, effective and efficient road and transport system to serve the public of Witzenberg Municipality".

Due to the extent which the Roads Master Plan for Witzenberg must cover- with limited funding- the methodology would be to take information from existing sector plans and update only the information on which the capacity analysis of the roads will be based. This will ensure that all the road-related information is reported in one document where a more integrated approach is taken.

The Witzenberg Integrated Development Plan for 2019-2020 indicates that 56.6% of the population are low income earners (R1 – R50 514 per annum) with 6.4% of the 56.6% receiving no income. 38.0% of the population are middle income earners (R50 515 – R404 111 per annum) and the remaining 5.4% are the high-income earners, earning more than R404 112 per annum.

The service levels maintained in the Witzenberg LM is very positive. The main challenge is the ingress of people from outside the area that keeps the housing need constant. Housing currently have a high priority in Witzenberg LM.

In summary, the progress made in the development of "new areas" as earmarked in the 2012 SDF is slow. The focus is understandably on housing settlements as this is often where political pressure is focused.

The municipal road network is in good condition, 59% of road network being in a very good to good condition, 30% being in fair condition with 11% being poor and very poor. Out of the 204.8km of road, 91% is black top roads, 2% is block paved and 7% is gravel roads. The proposed maintenance cost over 2-3years is R42.4 mil.

Five bridges and 3 major culverts were assessed as part of the RRAMS project. The maintenance cost of these structures without professional fees were estimated to be R1.59 mil.

Traffic counts were done on 108 intersections. The AM & PM peak hours were extracted, and operational analysis were done for the current scenario and geometry. Only six intersections operated with an approach lower than LOS D.

A formal request was sent to WCG to obtain accident data within the Witzenberg LM area to identify hazardous locations. The request was denied. Potentially dangerous intersections on Vos Street (R303) and Voortrekker Street (R46) were identified by others and further investigated.

Minibus taxis is the main source of public transport within Witzenberg LM, in the absence of a public bus service. There is a need to consolidate the various taxi ranks in Ceres.

A host of new pedestrian walkways were identified as well as the required maintenance on existing facilities. In the town of Ceres, kerbs at pedestrian crossings must be dropped to improve universal access.

Precinct planning were previously done in Ceres and Tulbagh. A variety of projects were

Draft Document

proposed to connect nodes with general beautifying of the area, improve vehicular, pedestrian and cycle movements. The proposed cost for Ceres was R56 mil and R7.2 mil for Tulbagh.

New spatial plans from the 2020 SDF were used to assess new roads to be developed. Various new bridge connections were also identified in Ceres and Tulbagh.

The six intersections which previously exceeded LOS D, were further analysed at a 3.7% traffic growth over the next 5years. Some proposal is made in terms of the upgrading of these intersections. An additional two intersections in Nduli which did not exceed the LOS D were also analysed with a growth of 3.7% over the next 5 years, as these intersections are expected to see a rapid growth in traffic volumes upon completion of the Vredebes development.

The site for the new taxi rank has been identified and should be pursued within the short to medium term. Negotiations with the property owner must precede any formal planning.

Pedestrian and cycle facilities should be a requirement up to Class 4 roads which are generally bus or taxi routes. Class 5 roads may however be fitted with walkways or cycling lanes, if it serves public land-uses like schools, hospitals or community buildings.

Freight routes and by-pass routes were identified by previous studies. The initial survey, planning and environmental approvals should be sought in the short to medium term.

Mention is made of a Petroport truck stop facility outside Ceres. This would give the trucks a place to overnight and eliminate the current illegal parking within the Witzenberg LM towns.

Master Planning is key to provide long term steering of projects, with the SDF and IDP planning for a shorter term. Municipal Grants like MIG is key to the sustainability of municipal projects. Developer contributions should be used to augment the bulk infrastructure where required. Tariffs are not applicable to roads and transport.

The Witzenberg LM is geared to use and project manage consultants with internal staff concentrating on smaller capital projects and operational projects. Community Participation projects needs a champion within the municipality to drive it and the handling of labour related issues as they arise. It also requires full time supervision to guide low skilled labour.

Risk Management needs to be made part of the management processes. Officials in Witzenberg, like most others in the transportation field handle problems and challenges as it arises. The provincial roads and some bridges were identified as critical assets.

The strategy for prioritising projects would be;

- All maintenance and repair actions should happen over the short and medium term;
- All small to medium size capital projects should happen over the short and medium term;
- All project likely to fall outside of this scope should happen over the long term;
- The initial work for the long-term projects (survey, planning and environmental), should be done over the short to medium term;

It can be expected that projects will be shifted forward or backwards as priorities change. These priorities are often influenced by political influences as pressure mounts from communities. It could also be that co-funding becomes available or some developments are happening faster than expected.

Draft Document

The OLS document (August 2020) includes the following recommendations:

- The Provincial Regulatory Entity maintains a database of all current Operating Licences. Municipalities do not currently have access to this database. Regular engagement between Municipalities and the PRE is necessary to discuss the outcome of Operating Licence applications. This will ensure that all parties are informed about the status of OLs applications.
- Regular surveys should be conducted to establish the current situation in terms of supply and demand, verify the vehicles currently in operation and identify vehicles operating without Operating Licences. NPR cameras at key point could be put up to collect data on an ongoing basis.
- Surveys should be conducted during the picking season, when minibus taxis experience peak demand, and also during the off season. To avoid an oversupply of OLs, OLs should be issued based on the demand during the off season. During the picking season additional temporary licences could be issued to supplement the existing operating licences and accommodate the increased demand.
- A strategy should be developed to rationalise all existing OLs and manage the approval of OLs.
- Before issuing new OLs, the OLs of routes which are over supplied with public transport trips should be reassigned to routes which are undersupplied in terms of public transport trips.
- Operating Licences not brought into use within 90 days of approval or Operating Licences not used for a period longer than 180 days should be cancelled.
- No new Operating Licences should be approved on routes where there is an oversupply of public transport trips.
- Businesses should be made aware of the Operating Licence system and be encouraged to only use licenced vehicles for staff transport.
- Vehicles without Operating Licences should be subject to law enforcement as a matter of course. Operators without OLs should be encouraged to apply for OLs on routes where a demand for additional trips has been identified. A regularly-updated database which provides easy access for enforcement of OLS information and route descriptions should be established.
- When considering the impact that a development will have on the transport network, Traffic Impact Assessments should investigate the number of public transport trips a development will generate and address the provision of public transport in the area. This will help the Planning Authority to identify new routes and possible OL requirements.

Draft Document

Stormwater Master Planning

The Witzenberg area has been experiencing urban development growth in the recent years. It is essential that all development planning be guided by a predetermined Stormwater Plan.

The Vision for Witzenberg LM Stormwater Plan was formulated to be “To provide a database for the Witzenberg Municipality where all stormwater data can be viewed, queried, stored, added, maintained and expanded.

The Stormwater Master Plans must identify upgrades to the existing stormwater system and propose new infrastructure in order to meet

current and future infrastructure needs to accommodate growth. It must include a funding model and a programme for the implementation of all the projects identified and prioritized. It must evaluate the long-term viability of existing infrastructure to cope with expansion and augmentation."

The Witzenberg LED Strategy (2004) stated that flooding of stormwater pipes is common in winter as these pipes are not inspected for blockages in the summer as required. The Draft Reviewed IDP 2019-2020 indicated that some areas within the Witzenberg Municipality have inadequate stormwater systems.

The existing stormwater infrastructure within Witzenberg is made up of 68.6 km of reticulation and 35.6 km of open channel.

The condition of the stormwater infrastructure was assessed based on blockage and structural integrity. 92% were found to be less than 25% blocked, 3% were found be partially blocked, and 5% were full of material (litter or debris). 46% of the structures were in a good condition, 39% were found to be in fair condition, and 15% were found to be in poor (damaged or broken) condition.

For the study area 28% of the Witzenberg PCSWMM model (existing minor system) require new stormwater infrastructure (upgrades, replacements and additional stormwater systems).

Pipe replacement and new minor systems for resolving the problem areas are proposed in this report, together with preliminary cost estimates. Costs have been calculated for each conduit that requires upgrading or new infrastructure to increase the capacity of the existing stormwater network.

The total cost estimate for the installation and upgrading of the local minor stormwater network to either the 1:2 year and 1:5 year return period standard amounts to R180.8 million, excluding long-term upgrade proposals, and R190.2 million including long-term upgrade proposals.

The hydrological analyses have indicated that the future developments requires the inclusion of detention facilities in the modelling in order to reduce the estimated post-development flood peaks to the predevelopment flood peaks.

Where practically possible, developments should be required to accommodate the difference between the pre and post-development run-offs up to the 1:50 year flood, on the development. This will reduce major and minor stormwater run-off and improve water quality.

The detention ponds modelled and proposed to be implemented to reduce the future peak floods within Witzenberg Municipal area. The high level cost estimate to construct these detention ponds amounts to R159.9 million. The bulk stormwater infrastructure required to connect the future developments to existing watercourses or the existing stormwater network amounts to R19.7 million. The proposed bulk stormwater
The main concern is that developments within Ceres and Wolseley are within the 1:50 Koekedow Flood lines.

Draft Document

II. OBJECTIVE 1.2: PROVIDE FOR THE NEEDS OF INFORMAL SETTLEMENTS THROUGH IMPROVED SERVICES

The Constitution of South Africa sets out in Section 152.1 the responsibilities of local government with the emphasis on the provision of services to communities in a sustainable manner. The provision of services to formal billed households is covered under the previous strategic objective.

The provision of services to informal settlements create another type of challenge as informal communities are usually made up of the more vulnerable groupings with limited access to services, which usually consist of communal infrastructure.

It is for this reason that Witzenberg has identified informal settlements as one of its strategic objectives to ensure that the provision of services and upgrade of informal areas receive priority attention. This objective addresses the provision of services to existing informal settlements and the upgrade of informal areas through the Department of Human Settlements programme for the development of serviced sites.

The implementation of housing programmes such as RDP and FLISP is discussed under the Strategic Objective – "Support the poor and vulnerable through programmes and policy" as it relates to the construction of top structures.

PROGRAMME 1.2 (A): IMPLEMENTATION OF HUMAN SETTLEMENT PLAN (SERVICED SITES)

Serviced sites are funded by the Department of Human Settlements under the Upgrading of Informal Settlements Programme at approximately R60 000 per site. Services included are a water connection, toilet with washbasin and surfaced roads.

Electrical networks are funded by the Department of Energy. Serviced sites projects were recently completed at Prince Alfred's Hamlet (242 sites) and Pine Valley, Wolseley (158 sites). Although 605 serviced sites were completed in 2016/17 in Vredebes with a further 635 sites planned for 2018/19, these sites are earmarked for the construction of top structures. It is expected that serviced sites will be developed in the N'Duli informal settlement for beneficiaries who would not qualify for a housing subsidy at the Vredebes development.

At this stage the number of non-qualifiers is unknown as surveys are presently in process amongst the approximately 1096 families living in the N'Duli informal settlement. The N'duli housing project were planned to be implemented in 2021/22 to ensure alignment with the Vredebes construction of houses but due to the delay in construction on Vredebes the N'duli project could not start yet because of ESCOM's inability to provide electricity due capacity contrains on the grid. It is expected that some of the approved qualified beneficiaries in the N'Duli informal settlement will be accommodated at Vredebes. The informal areas in N'Duli are planned to be upgraded for top structures for those that qualify as well as serviced sites for the non-qualifiers.

Infrastructure Investment (Note: Refer to final approved/adjusted budget for correct figures)			
Project Name	***Area***	***Budget***	***Year***

Draft Document

Vredebes Access Collector	***Ceres, Vredebes***	***R 10 909 000*** ***R 2 284 454***	***2022/2023*** ***2023/2024***

The provision of serviced sites for non-qualifiers does create a problem as a number of the non-qualifiers are foreign citizens with the result that these can't be upgraded with top structures in the future. It is further experienced in areas such as Prince Alfred's Hamlet and Pine Valley where serviced sites were occupied in the past, that the sites are occupied by more than one family, in some cases as many as six families, which also hampers the upgrade to top structures as the additional families will have to be accommodated in a new project. A service provider was appointed by the DoHS so assist the municipality with the enumeration
of the informal settlements in Tulbagh and N'duli over the period 1 April 2019 to 31 March 2021.

- **PROGRAMME 1.2 (B): PROVISION AND MAINTENANCE OF COMMUNAL SERVICES**

The informal areas of N'Duli, Pine Valley and Tulbagh are serviced with communal toilets and water points.

The table below gives an indication of the number households and services ratio:

Informal household with communal services

Informal area	***Households***	***Water points***	***Toilets***
N'Duli, Ceres	**1114**	***25***	***14***
Tulbagh	**2440**	***102***	***145(including chemical toilets)***
Pine Valley, Wolseley	**2266**	***9***	***43 in total*** ***Only 15 in working condition***

Note: The number of service points as at end of June 2020. Tulbagh service points include serviced sites occupied by more than one household.

The aforementioned informal areas have limited access to an electrical network. The main reason being that the Department of Energy does not fund electrical networks in informal areas. The upgrade of informal areas to serviced sites is however funded. The maintenance of the communal facilities is managed by the housing section. Due to limited capacity and on-going vandalism, facilities are not always in a working order with blockages resulting in sewer overflows that lead to unhygienic conditions. It remains one of the biggest challenges for the Housing Department to provide education on the hygiene and usage of the public facilities. These conditions are further examples of the urgent need to upgrade the informal settlements. Refuse bags are distributed for weekly door-to-door collections. The system is not always effective with illegal dumping and littering ongoing. Skips are also placed at some areas with regular cleaning operations by the cleansing department.

- **PROGRAMME 1.2 (C): MANAGEMENT AND CONTROL OF INFORMAL SETTLEMENTS AND ILLEGAL OCCUPATION**

The programme focuses on the management and control of informal settlements in relation to in-migration and unlawful occupation especially in the informal settlements of N'Duli,

Draft Document

Tulbagh and Pine Valley (Wolseley). The growth of informal settlements is monitored through a bi-annual count by officials from the Housing Department. The demolishing of illegal structures through a legal process is however costly and time consuming. Capacity of law enforcers is limited and they have to work after hours and over weekends. Eight additional EPWP workers were utilised from 16 December 2018 to assist the housing officials and law enforcement to demolish illegal structures.

Two additional EPWP workers were appointed as from 1 April 2018 to assist with the cleaning of ASLA Camp p and these contract are still ongoing. However because of the constant growth of the settlement an additional 4 EPWP staff members were appointed in July 2022 to assist the daily cleaning of the toilets, streets and area around these settlements.

Draft Document

Key Performance Area 2

GOVERNANCE

OBJECTIVE 2.1:

SUPPORT INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION

OBJECTIVE 2.2:

ENSURE FINANCIAL VIABILITY

OBJECTIVE 2.3:

MAINTAIN AND STRENGTHEN RELATIONS WITH INTERNATIONAL – AND INTER-GOVERNMENTAL PARTNERS AS WELL AS THE LOCAL COMMUNITY

Key Performance Area 2

B. GOVERNANCE

I. OBJECTIVE 2.1 SUPPORT INSTITUTIONAL DEVELOPMENT AND TRANSFORMATION

▪ PROGRAMME 2.1 (A) HUMAN RESOURCES MANAGEMENT AND DEVELOPMENT

The Witzenberg Municipality employs 561 officials (30 June 2016) (permanent and temporary employees) excluding councillors, who individually and collectively contribute to the achievement of the municipality's objectives.

The primary objective of Human Resource Management is to render an innovative HR service that addresses both skills development and an administrative function. There were 49 vacant positions at the end 2015/16, resulting in a vacancy rate of 5,7%. Measurements are to be put in place to ensure that vacant positions are filled as soon as possible for service delivery to continue.

Witzenberg has put in place a set of human resource (HR) management and development processes, including performance management, personal development plans and workplace skills planning, all of which guide staff training and development. These also deliver effective talent management by creating a 'fit for purpose' organisation that is service delivery-oriented.

Performance management

The TASK process needs to be completed as a matter of urgency with proper job descriptions for all positions on the approved organogram. Witzenberg will further start with the roll-out of operating procedures in certain departments with evaluation measures to ensure effective personnel performance management. The latter will ensure more effective disciplinary action, and policies and measures will be put in place to ensure that disciplinary actions are timeously finalised.

Equity

The Employment Equity Act (1998), Chapter 3, Section 15 (1) states that affirmative action measures are measures designed to ensure that suitable qualified people from designated groups have equal employment opportunities and are equitably represented in all occupational categories and levels in the workforce of a designated employer. The national performance indicator also refers to: "Number of people from employment equity target groups employed in the three highest levels of management in compliance with a municipality's approved employment equity plan".

EE targets/Actual by racial classification

Development

Section 68(1) of the MSA states that a municipality must develop its human resource capacity to a level that enables it to perform its functions and exercise its powers in an economical, effective, efficient and accountable way. For this purpose the human resource capacity of a municipality must comply with the Skills Development Act (SDA), 1998 (Act No. 81 of 1998), and the Skills Development Levies Act, 20 1999 (Act No. 28 of 1999).

▪ PROGRAMME 2.1 (B): LAW ENFORCEMENT AND TRAFFIC

Draft Document

Witzenberg aims to expand partnerships with communities, the private sector and other departments and spheres of government to improve safety and security. The aims of the Traffic Department Law Enforcement Department are as follows:

- Reduce road accident fatalities within the region and increase service delivery to all the towns within Witzenberg.
- Develop road safety initiatives and programmes aimed at educational institutions from primary to tertiary level.
- Ensure increased legal compliance to through enforcement of municipal by-laws and traffic regulations.
- Implement the Violence Prevention through Urban Upgrading (VPUU) programme
- Develop strategies to reduce road fatalities within Witzenberg

VPUU is a systemic approach to neighbourhood upgrades. It is a multilateral collaboration between Witzenberg, the Provincial Government and residents of a specific geographic area. VPUU aims to prevent violence in these areas and, consequently, to improve the quality of life of the residents. The goals include a general increase in the safety of the beneficiary population, upgrades to neighbourhood facilities, and economic and community development.

We are acutely aware that the Traffic Department is understaffed, which impacts negatively on the department's ability to effectively deal with traffic violations within the municipal jurisdictional area. It is therefore critical that the law enforcement personnel (traffic component) be progressively expanded over the next five years. The traffic infrastructure also needs to be upgraded to comply with the provincial and national regulations and requirements. It is also envisaged to purchase new traffic vehicles over the IDP term in order to render the department competitive in combating traffic- related offences. Responding to traffic-related offences as well as general law enforcement matters is not only a municipal traffic function, but also includes positive action from other law enforcement agencies. Intergovernmental relations will thus be strengthened to combat crime effectively within the Witzenberg area and to promote a proactive stance to public safety. It is further envisaged that a specialised traffic officers' component (fast response unit) be established that will lead the municipality's zero tolerance approach to speeding, reckless, negligent and drunk driving. Strategies will include specialised operations to apprehend offenders and start a name-and-shame campaign.

During October 2020 Witzenberg Municipality, together with the Department of Community Safety recruited seven peace officers to assist with the enforcement COVID 19 regulations, these learners are to be utilised on twelve month learner ship program assist the municipality render more effective and efficient by-law enforcement within Witzenberg. Coupled with the intended expansion of the fleet of traffic vehicles, the visibility and effectiveness of traffic services in all the responsible areas of Witzenberg, especially the outer towns, will improve due to this initiative.

The gradual implementation of the amended organogram will streamline the different work components and not only improve the level of service in all spheres of the department, but also present career opportunities.

During the course of the second and third quarter of the 2020 resources within the uniform component was strained mainly due to the COVID 19 Disaster Management Act and the enforcement of said regulations. Currently most of the services are decentralised to Ceres and needs to be expanded to the other towns within Witzenberg.

The intended expansion of the law enforcement component and the increased number of prosecutions, coupled with the possible impounding of items, pose a storage dilemma because at present there is no storage facility

Draft Document

for impounded items. The long- term goal is to make available suitably secure storage facilities for such impoundments, which will in turn curb the present continuum of violations. For the period June 2020 until January 2021, 5 020 traffic cases, 40 arrest 58 vehicles were suspended by traffic officers. In addition for same period Law Enforcement Officers issued 789 violations with 23 arrest.

The Witzenberg Traffic Department is gradually expanding its services and operations, within all the towns however a decentralised approach will enhance service delivery to the various communities. However, this can only be done with expert planning, coupled with experienced management and the availability of adequate resources and financial provision.

▪ PROGRAMME 2.1 (C): SPATIAL AND TOWN PLANNING

The **Spatial Planning and Land Use Management Act** (Act 16 of 2013)(SPLUMA) brought about a new planning system which was implemented on 1 July 2015. The SPLUMA replaced the old 1985 Ordinance that was found to be unconstitutional. The most far-reaching changes are the following:

- Municipalities needed to regulate their own planning function within the legislative framework (SPLUMA) set by National Government. To this end the Witzenberg Land Use Planning By-Law was approved by Council and gazetted on 21 August 2015.
- Municipalities had to establish a Municipal Planning Tribunal (MPT) in order to determine land use and development applications. Witzenberg Council appointed the MPT members on 26 November 2015, consisting of 5 members; 3 internal and 2 external.
- Municipalities must adopt a single land use scheme within five years of implementation of the SPLUMA.
- The executive authority of the municipality is the appeal authority.
- Developments that will have an effect on provincial planning and agriculture will also need approval from the Provincial Department of Environmental Affairs and Development Planning.

Spatial Development Framework

Legislation requires that the Municipality adopt an SDF concurrently with the adoption of the IDP, which SDF must give spatial expression to the goals and objectives of the IDP.

Work commenced early in 2019 to review the SDF and Council approved the process plan on 31 July 2019.

Public engagements were held between 18 and 25 November 2019 at venues located in each of the towns. The draft SDF was also advertised in the press for public comment until 31 January 2020, and the Provincial Gazette with the closing date 30 March 2020.

Pursuant to section 13 of the Western Cape Land Use Planning Act, 2014 the draft SDF was presented to the Minister for comment on 4 February 2020. Comment was received from the Minister's Head of Department: Environmental Affairs and Development Planning on 5 February 2020.

On 27 May 2020 the final SDF was adopted by Council.

The MSDF has five specific focus areas.

The first is to maintain and protect the integrity, authenticity and accessibility of Witzenberg's natural environment and associated resources. The plan provides for activities enabling access to nature in a manner which does not detract from

Draft Document

the functionality and integrity of nature and farming areas and landscapes.

The second is to maintain and expand the Municipality's key regional and intra-regional infrastructure. Appropriate infrastructure – whether in the form of transport routes or municipal services – is critical to support economic development, agriculture, and livelihoods.

The third is to maintain and grow the agricultural assets within the Municipality. Agriculture remains the mainstay of the regional economy and require on-going support. In a spatial sense, this specifically requires protecting high-value agricultural land from urban development. The opportunity also exists to diversify farm income in a manner which does not detract from the functionality and integrity of farming areas and landscapes, and to expand access to farming to smaller entrepreneurs and emerging farmers.

The fourth is to maintain and expand access to Witzenberg's unique sense of people and place. Important is the recognition and maintenance of unique landscapes, and diverse expressions over time of peoples' interaction with the landscape.

The fifth is to maintain and expand opportunity associated with Witzenberg's key settlements. Settlements need to be managed and provide for expansion in a manner which enables efficiency in infrastructure provision, integration and compaction to enable better thresholds and more sustainable movement, and protection of surrounding assets of nature and agriculture.

It is anticipated that a major review of the MSDF will occur every five years.

Land Use Management

Under the previous planning system, the municipality had three zoning schemes. The Spatial Planning and Land Use Management Act, 2013 stipulates in Section 24(1) that a municipality must adopt a single land use scheme for its entire municipal area within 5 years from the commencement of said Act.

Consequently, on 30 September 2020 Council adopted the Zoning Scheme By-law.

Land Use Management at Witzenberg focus on:

- Capacity of engineering services;
- Community facility needs;
- Demographic conditions;
- Transportation and road network master planning;
- Urban and rural problems;
- Visual form;
- Biodiversity and heritage resources;
- Environmental opportunities and constraints;
- Current land use;
- Housing market;
- Agricultural resources;
- Land availability;
- Growth potential;
- Existing and anticipated private and public development.

The SDF is the primary means by which the above-mentioned land use management aspects are addressed and which provides appropriate guidance as necessary.

▪ PROGRAMME 2.1 (D): ADMINISTRATION

The Administration Section aims to ensure good governance, administrative transparency and openness. To promote clean and sound administration and to ensure access and information in respect of Council resolutions, minutes, policies and by-laws. Witzenberg has started to implement a paperless policy to reduce use of paper with Council agendas and minutes.

Draft Document

▪ PROGRAMME 2.1 (E): FLEET MANAGEMENT

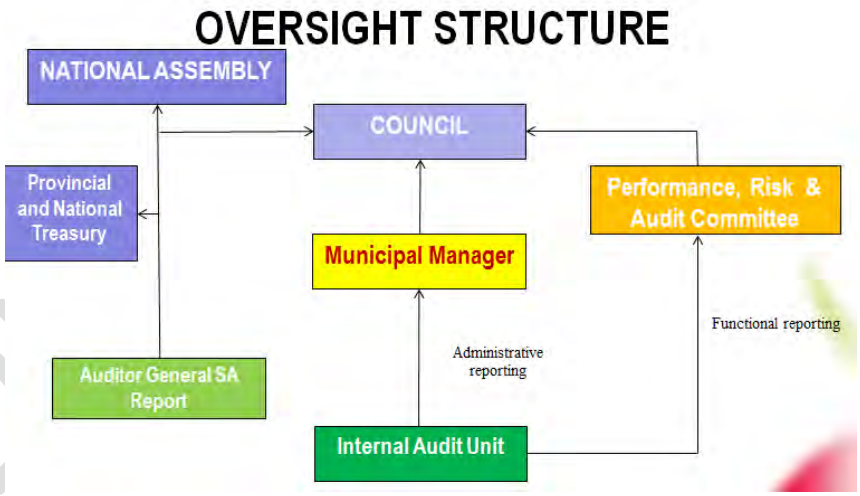
Witzenberg will develop a vehicle replacement policy that will entail the effective maintenance of vehicular resources and a well-planned replacement programme for ageing vehicle fleets spanning five, 10 and 15 years. Witzenberg is currently in the process of investigating the financial implications of long-term leasing. A vehicle tracking system will be implemented during 2017/18 to ensure effective monitoring and cost-effective usage of the municipal fleet.

▪ PROGRAMME 2.1 (F): TRANSPARENT GOVERNMENT (OVERSIGHT)

According to Section 62(c) of the MFMA, the municipality has and maintains effective, efficient and transparent systems of financial and risk management and internal control and **internal audit** operating in accordance with any prescribed norms and standards

Section 165 further states that a municipality must have an internal audit unit that advises the accounting officer and reports to the audit committee on the implementation of the internal audit plan and matters relating to -

- internal audit and internal controls; accounting procedures and practices;
- risk and risk management and performance management;
- loss control; and compliance with this Act, the annual Division of Revenue Act and any other applicable legislation.



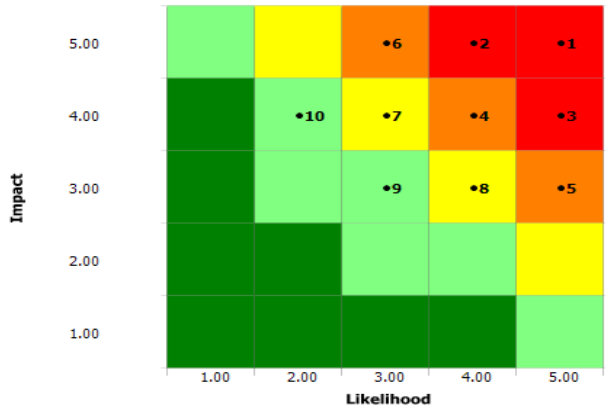
The Witzenberg Internal Audit unit must evaluate the adequacy and effectiveness of controls in responding to risks within the organisation's governance, operations and information systems regarding the:

- reliability and integrity of financial and operational information
- effectiveness and efficiency of operations and programmes
- safeguarding of assets; and
- compliance with laws, regulations, polices, procedures and contracts.

Internal Audit assists the organisation in maintaining effective controls (of which management is the custodian) by evaluating the effectiveness and efficiency and by promoting continuous improvement. A "fraud hotline" (0800 701 701) has been implemented and is communicated on a regular basis through newsletters.

Council takes an interest in **Risk Management** to the extent necessary to obtain assurance that properly established and functioning systems of risk management are in place to protect Witzenberg Municipality against significant risks. Council has to report to the community on the municipality's system of internal control. This provides comfort that the municipality is protected against significant risks to ensure the achievement of objectives as detailed in the Service Delivery and Budget Improvement Plan (SDBIP).

Inherent risk heat map for Witzenberg Municipality indicating the top major risks applicable.



Title	II	IL	IR	Pt

II – Inherent Impact; IL – Inherent Likelihood; IR – Inherent Rating; RR – Residual Rating; Pt – Map Indicator.

▪ PROGRAMME 2.1 (G): DISASTER MANAGEMENT AND FIREFIGHTING

2.1.1 Fire and Rescue Services

The CONSTITUTION OF THE REPUBLIC OF SOUTH AFRICA (ACT 108 OF 1996) establishes fire-fighting services as a Local Government matter. The FIRE BRIGADE SERVICES ACT (99

OF 1987) provides for the Witzenberg Municipality as a local authority to establish and maintain a fire brigade service for the following different purpose:

a. Preventing the outbreak or spread of a fire;
b. Fighting or extinguishing a fire;
c. The protection of life or property against a fire or other threatening danger;
d. The rescue of life or property from a fire or other danger;
e. Subject to the provisions of the Health Act, 1977 (Act No. 63 of 1977), the rendering of an ambulance service as an integral part of the fire brigade service; or
f. The performance of any other function connected with any of the matters referred to in paragraphs (a) to (e).

The Witzenberg Municipality therefore has the duty to perform the following firefighting functions:

- Coordination and regulation of local authority fire services, designated fire authorities and volunteer fire associations;
- Development of specialised fire services capacity to deal with specialised fire risks prevalent in the area such as veld fires, chemical incidents, informal settlement fires, etc.;
- Facilitation and coordination of the training and development of practitioners;
- Development and facilitation of the implementation of standardised municipal By-laws;
- Coordinate planning for the provision of fire safety and prevention;
- Development, support and implementation of community-based fire safety and Prevention programs;
- Preventing the outbreak and or spread of a fire;
- The provision of information, publicity, training, education and encouragement in respect of the steps to be taken to prevent fires and death or injury by fire;
- Conduct regular and random fire safety inspections;
- Provide advice on the means of escape from buildings and other property in case of fire;
- Fighting and extinguishing a fire; by making arrangements amongst others for having sufficient staff, equipment and vehicles at its disposal to deal with the fire risks in its area of jurisdiction;
- Provide for call taking and dispatching facilities to deal with incoming calls to report emergencies and summoning personnel and resources amongst others;
- Control and stabilisation of dangerous goods incidents;
- Protection of life and or property against fire or other related danger;
- Rescue of life and or property from fire or another form of entrapment;
- Rendering of an emergency medical care.
- Participation in special events planning;
- Provision of fire resilience training to fire practitioners and civil society at large;
- Conducting fire risk assessments;
- Provision of training and to fire services practitioners;

The SOUTH AFRICAN NATIONAL STANDARD for COMMUNITY PROTECTION AGAINST FIRE, SANS 10090:2018, is a measurement tool that indicates whether a fire service is meeting the minimum mandatory community fire protection standard, which in turn is indicative of whether a fire authority is indeed contributing to the objects of local government. The Witzenberg Municipality Fire and Rescue Service is currently classified as a category 5(b) which mean that we meet the performance criteria for staff availability and appliance availability by only 35% to 45%.

Draft Document

2.1.2 Disaster Management Services

DISASTER MANAGEMENT ACT (57 OF 2005), Sections 52 and 53 require each municipality and municipal entity to prepare a Disaster Management Plan (DMP). The Witzenberg municipality has a legislated duty to:

- Establish a functional Disaster Management Centre.
- Appoint of a Head of Centre and suitably qualified persons.
- Responsible for the implementation and maintenance of an all-hazard, full-spectrum comprehensive disaster management programme, ensuring:
  - Prevention
  - Mitigation
  - Preparedness
  - Response.
  - Rehabilitation and reconstruction
- Monitor progress with post-disaster recovery & rehabilitation.
- Serve as repository of and conduit for, disaster information.
- Be the advisory and consultative body on disaster issues.
- Make recommendations regarding DM funding.
- Make recommendations on legislation affecting DM.
- Promote the recruitment, training and participation of volunteers in DM.
- Promote disaster management capacity building, training and education throughout the republic, including in schools.
- Promote research into all aspects of disaster management.
- Liaise and coordinate its activities with other relevant DM Centres.

II. OBJECTIVE 2.2: ENSURE FINANCIAL VIABILITY

The objective is to ensure that Witzenberg Municipality is financially viable over the short term and sustainable over the long term, while tariff increases are kept as low as possible to ensure that tariffs are affordable to the community at large and competitive to ensure that new businesses and/or industries are attracted.

The development of plots and building of RDP houses are challenges to the financial viability and sustainability of Witzenberg Municipality as most of the beneficiaries will qualify for indigent support and will not contribute financially to the municipality, but will be entitled to municipal services. The current workforce also needs to be extended to ensure service delivery to the new houses.

The maximum electricity demand of the Witzenberg Municipality reached the maximum supply by Eskom. Increased demand can only be supplied by Eskom in 2030. The lack of available electricity supply has a negative effect on economic growth, which also has an effect on the creation of work opportunities and the financial viability and sustainability of the municipality.

The collection rate of the municipality has decreased from 94% to 88%. This was primarily due to credit control measures not being implemented as a form of Covid-19 relief to the community. It is expected that the collection rate will increase again as we have started to implement credit control measures and have thus

Draft Document

estimated that the budgeted collection rate for the new financial year will reach 91%.

▪ PROGRAMME 2.2 (A): INCOME AND DEBT MANAGEMENT

The revenue must be increased to ensure that Witzenberg Municipality can meet all its financial obligations and to improve service delivery. A policy providing for rebates on municipal services is available to new businesses/industries or extension of existing businesses/industries where new jobs are created.

New businesses and/or industries will not only increase the revenue base of the municipality but will also assist in reducing unemployment – one of the largest challenges for Witzenberg Municipality.

Witzenberg Municipality's revenue stream is modelled on a combination of past trends, forecasted economic and fiscal conditions. The revenue sources are monitored and determined to ensure sustainable medium-term to long-term cash flows.

Consumers are billed once a month for services rendered. In addition to the current practice of printing and mailing, technology will be utilised to implement an e-billing solution (**Citizen Mobile Portal**), using e-mail technology to make invoices more accessible and to encourage online transacting for citizens with internet access. Witzenberg will implement a Geospatial Information System to display billing information on maps to determine whether all users receive accounts and to easily view outstanding discrepancies.

The biggest problems exist in the towns of N'Duli, Prince Alfred's Hamlet and Op-die-Berg. The main reason being that effective debt collection through the cutting of electricity can't be implemented as Op-die-Berg and Prince Alfred's Hamlet are serviced by Eskom and in N'Duli illegal electricity connections can't be addressed due to safety issues of personnel.

▪ PROGRAMME 2.2 (B): EXPENDITURE MANAGEMENT

The financial goal was to pay off the external long-term loans and to finance new infra-structure. The bulk of the loans were redeemed and the future interest and redemption burden has been reduced significantly. The salary budget was kept below 30% of total expenditure. Controls are in place to mitigate the possibility of unauthorised, irregular and fruitless and wasteful expenditure being incurred.

▪ PROGRAMME 2.2 (C): SUPPLY CHAIN

Witzenberg Municipality is a large procurer of goods and services and as such it has enormous buying power to support economic growth through procurement. The supply chain unit will be revising their policies and procedures to ensure that goods and services are first secured locally. Unfortunately current legislation does not provide for any preference for local suppliers. The municipality will ensure that local SMMEs and local

Draft Document

businesses are adequately empowered to provide these goods and services.

▪ PROGRAMME 2.2 (D): MSCOA

The Municipal Standard Chart of Accounts (MSCOA) regulation will be implemented from 1 July 2017. To achieve this, the 2017/2018 budget must be tabled in the MSCOA format. The tendency of National Treasury to move the goalpost makes it even more difficult to achieve compliance with the regulation.

III. OBJECTIVE 2.3: MAINTAIN AND STRENGTHEN RELATIONS WITH INTERNATIONAL AND INTER-GOVERNMENTAL PARTNERS AND THE LOCAL COMMUNITY

▪ PROGRAMME 2.3 (A): COMMUNICATION AND MARKETING

Local government has a legal obligation and a political responsibility to ensure regular and effective communication with the community. The Constitution of the Republic of South Africa Act 1996 and other statutory enactments all impose an obligation on local government communicators and require high levels of transparency, accountability, openness, participatory democracy and direct communication with the community to improve the lives of all.

Good customer care is of fundamental importance to government organisations due to their constant interaction with members of the public. All local government entities strive to uphold the following constitutional ideals towards the development of acceptable policy and legislative framework regarding service delivery in public service:

- Promoting and maintaining high standards of professional ethics.
- Providing service impartially, fairly, equitably and without bias.
- Utilising resources efficiently and effectively.
- Responding to people's needs; citizens are encouraged to participate in policy making.
- Rendering accountable, transparent, and development-oriented public administration.

The Witzenberg Municipality Communication Strategy is a vital document which illustrates the views of local residents regarding communication as well as their perceptions of the municipality. Many of the views expressed display dissatisfaction with aspects related to elements beyond the scope of local government, such as access to housing, employment opportunities, education and healthcare.

However, local government acts as the conduit to expedite issues of this nature to the correct government entities, while supporting and investing in various programmes aimed at skills development, youth development, social development and short-term temporary employment. Levels of literacy and education,

Draft Document

understanding of language, public apathy, knowledge of government processes and access to communication tools can also affect how the public formulates perceptions of local government A successful communication strategy therefore links local demographics to the municipality's programme for the year, and influences budgetary expenditure according to the needs of the public. The aims of Witzenberg Municipality's Marketing and Communication Department are:

- To integrate communication.
- To offer service that communicates commitment, loyalty and interest.
- To generate content that engages the public with openness and positivity.
- To become proactive with communication instead of reactive.

and can potentially hamper how local government communicates and assimilates information, especially within rural environs.

- To make ease of access to communication and relaying information easier for the public.
- To effectively engage with international stakeholders and clients.
- To perform oversight and development of tourism expenditure and activities to promote the various towns within the municipality.
- To manage operations for contact centre query management and emergency services relay.

Communication is managed in the following ways:

▪ PROGRAMME 2.3 (B): INTEGRATED COMMUNICATION TECHNOLOGY

Witzenberg is in the process of developing an IT Governance Policy and will implement the following projects over the next five years:

Wide Area Network:
The establishment of a high speed backbone linking Ceres, Tulbagh, Wolseley and Op-die-Berg using AirFiber Micro towers. This will increase our network speed from 0,5 Mbps to 700Mbps which will greatly improve our footprint in these towns. Phase 1 is already completed. Phase 2 will be the upgrading of all client sites. Phase 3 configuration and qOs.

Disaster Recovery Site:
We have established a DR site at Traffic Services where we replicate from our live site. At the moment we are using virtualisation to replicate and synchronise our mission critical servers including our exchange, file, document servers. We are planning to increase these to include all servers. On completion of the WAN backbone, the movement of the site to Wolseley and the upgrading of the equipment to centralised storage. This project is critical as it would ensure business contingency during a disaster.

Citizen Mobile Portal:
We need to be able to provide all services to customers on a digital platform accessible via Mobile device or a PC/Laptop. This will include internet portals or mobile apps where users can access their accounts, perform payments, apply for services, fault reporting, procure prepaid services, refuse removal programmes, etc.

▪ PROGRAMME 2.3 (C): BUILDING STRATEGIC PARTNERSHIPS

Witzenberg is committed to working closely with the provincial and national spheres of government to put the needs of our community first. To achieve this, we engage with Provincial-

Draft Document

and National Government on various formal and informal platforms.
Witzenberg will formally engage Province and other municipalities through the Premier's Coordinating Forum at a political level, as well as by means of the IDP indabas and MTECH committees at an administrative level. Witzenberg is an active partner in the Consolidated Rural Development Programme (CRDP) with regular engagements with the Department of Rural development in this regard.

Witzenberg will continue with a long-term twinning agreement with Belgium Municipality, Essen.

Several projects relating to youth development and the environment were implemented successfully in the past. Current projects include a Flemish Programme on Youth development and upgrading of open spaces. A Federal Programme focusing on Waste Management will be implemented in 2017/18.

The **Thusong Centre** is a decentralised government access hub available to the public, allowing easier access to government services such as Social Development, Home Affairs, etc., eliminating the need for clients to travel great distances to their closest office.

Being a public hub, this building experiences high volumes of public visitors, placing much pressure on the building. The government stakeholders making use of the building are tenants to the municipality and the rental generated is used to manage the overheads of the centre. As a result, a frequent expenditure for this building is maintenance. There are also capital requirements at this site, as we need to reinforce the security of the building as well as look into the expansion of the centre to accommodate more offices for rental, and provide space in the form of a sports hall for training and conferencing, recreation, cultural or sports activities for the youth and the aged.

The staff at the site is appointed on a temporary basis and we require an administrator to be appointed on a permanent basis in order to address the needs of this facility.

Draft Document

Key Performance Area 3

COMMUNAL SERVICES

OBJECTIVE 3.1:

PROVIDE AND MAINTAIN FACILITIES AND AN ENVIRONMENT THAT MAKE CITIZENS FEEL AT HOME.

Key Performance Area 3

C. COMMUNAL SERVICES

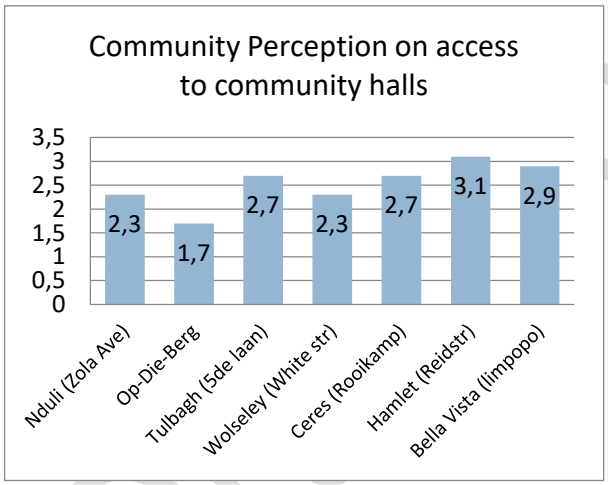
I. OBJECTIVE 3.1: PROVIDE AND MAINTAIN FACILITIES AND AN ENVIRONMENT THAT MAKE CITIZENS FEEL AT HOME

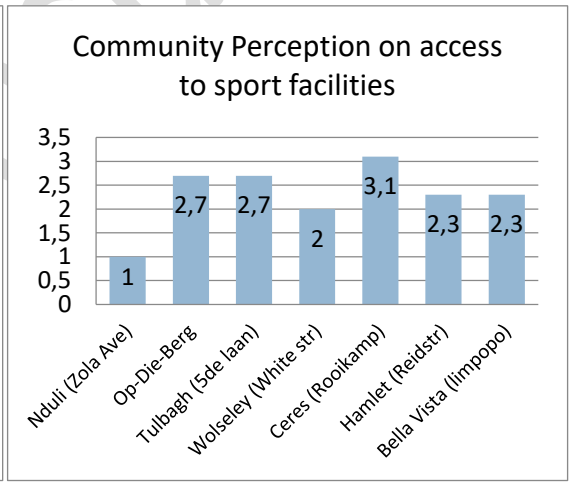
▪ PROGRAMME 3.1 (A): UPGRADING AND MAINTENANCE OF FACILITIES

Backlogs in repairs and maintenance (reactive maintenance) will be addressed, and proactive maintenance programmes for ageing infrastructure (community facilities, cemeteries, park equipment, small plant and machinery) will be investigated and implemented to meet minimum maintenance standards. The municipality aims to maintain all 55 community parks to the set standards. A five-year budgeted maintenance for communal facilities will be developed with standard operating procedures to ensure a cost-effective management of facilities.

Witzenberg will continue partnerships with local sport forums and will continue with the establishment of new sport forums in all towns. The planning and development of sport facilities will be done accordingly the Sport Master Plan.

Witzenberg has implemented a community satisfaction survey for public facilities and amenities and achieved an overall score of a "fair" perception on facilities from the community. The survey is an important tool to determine perceptions across communities and where focus and attention are required.





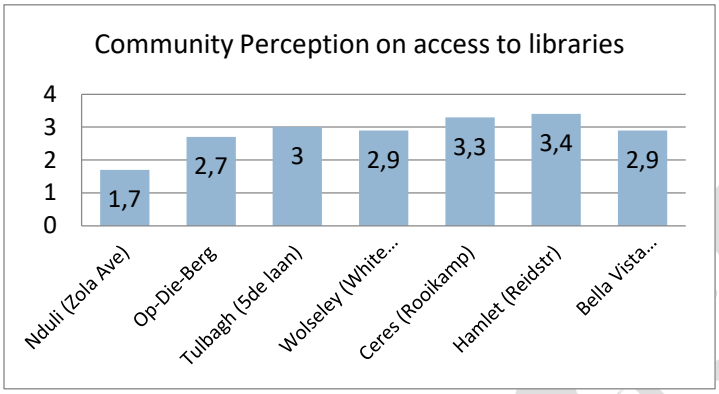
Perception scores: 1-poor, 2- fair, 3-good, 4-very good, 5-excellent

To address the escalating city burial demand resulting from population growth and over capacity of existing **cemeteries**, an approximate total of 4 ha of land is required for new cemeteries. It is especially the areas of Ceres, Bella Vista, N'Duli and Op-die-Berg that are in urgent need. To address the escalating burial demand, Witzenberg will identify suitable land and establish new burial sites for the areas as mentioned. Due to scarce suitable land, the possibility exists that a regional burial site might be developed for the greater Ceres area. The cemeteries of Wolseley and Tulbagh can be extended but proper fencing is required to cope with increasing vandalism and theft. Witzenberg will also implement an electronic booking system for burials.

Libraries are generally in a good state in terms of equipment with the exception of the John Steyn Library where urgent upgrading is required.

The libraries' core functions are primarily the:

- dissemination of information
- collection building of local, indigenous and international material
- provision of reference services
- creating awareness campaigns through exhibitions
- preserving and maintaining assets



Perception scores: 1-poor, 2- fair, 3-good, 4-very good, 5-excellent

Draft Document

- **PROGRAMME 3.1 (B): ENVIRONMENTAL MANAGEMENT**

The Witzenberg area is well-known for its scenic beauty being surrounded by mountain ranges, natural surroundings, fauna, and flora. The Witzenberg local municipality (WLM) is situated within the Cape Floristic region and is rich in biodiversity and associated ecosystem services. The livelihood of Witzenberg is totally dependent on its biodiversity and ecosystem services which are essential to ensure sustainable socio-economic development and also to support human well-being. However, WLM experiences a lot of environmental challenges such as rapid urbanization, limited resources such as water, land, energy, etc.; air, land & freshwater ecosystems pollution; drought, and climate change. The risks of environmental and ecosystem degradation, social and economic challenges, and a polluted environment that is unhealthy for the local community will increase the occurrence of epidemics, and viruses. The development of an integrated environmental strategy or framework to address complex environmental, social, and economic issues that will be essential to promote sustainability and sustainable development. The composition of an environmental steering committee which include internal and external stakeholders will ensure good and effective governance.

Biodiversity and the degradation of declared nature reserves and Critical Biodiversity Areas (CBAs) are at risk due to various anthropogenic activities such as but not limited to illegal land occupants, littering, overharvesting of indigenous vegetation, illegal sand mining, illegal overgrazing of animals, uncontrolled fires. Ungoverned nature reserves and CBAs lead to biodiversity loss, extinction of endemic fauna and flora,

increased climate change impacts, soil erosion, spreading of diseases and virus outbreaks, increased fire risks. Nature reserves, CBAs and Ecological Support Areas (ESAs) under the jurisdiction of the Witzenberg municipality must be maintained/restored and degraded areas must be rehabilitated to sustain biodiversity patterns and processes and the functionality of ecosystem services. The development of nature reserve management plans followed with the appointment of a nature reserve management team for protected areas is essential to ensure the conservation and sustainability of our natural environment. Stewardship agreements between the municipality and other governmental institutions (Cape Nature) or private entities will also assist to ensure the conservation of CBAs. The acquisition of vehicles to transport teams and equipment will be essential to ensure effective and efficient management of the reserves, and CBAs. Outdated nature reserve and municipal commonage by-laws must be reviewed. Collaborative and collective action between the municipality and other governmental and non-governmental institutions, adjacent landowners, local farmers, businesses, etc should be encouraged. Co-management and public-private partnerships to ensure resilience must be promoted. Promote community-based natural resource management to enhance disadvantaged communities' socio-economic development and prevent illegal exploitation of natural resources and environmental degradation.

- Law enforcement needs to expand to include monitoring of protected areas and commonage areas. Invasive alien vegetation is controlled and managed in terms of the control plans for the Ceres Mountain Fynbos nature reserve (CMFNR) and the Wolseley, Prince Alfred Hamlet and Op-Die-Berg commonage. Draft Invasive alien species control plans for the Prince Alfred Hamlet and Op-Die-Berg commonages have been developed and to ensure effective implementation of these plans, external funding is essential. Biological control methods will also be implemented for invasive aquatic and terrestrial plants. The main goal of the alien vegetation projects is to conserve water at mountain catchment areas, water source areas and riverbanks and also to conserve and promote biodiversity in the Witzenberg. Ceres Business Initiative (CBI) funds follow-up alien clearing and areas of low infestation projects in the CMFNR. The Environmental section is continuously liaising with national and international funders to support alien vegetation clearing projects in the Witzenberg area. Rivers in our urban areas are degrading due to illegal dumping, illegal water extractions, illegal land occupation, erosion, agricultural and industrial activities. The loss of important freshwater ecosystems, erosion can also lead to flooding, and biodiversity loss. The Ceres River Restoration Program (CRRP) is a 3-year pilot project funded by WWF. The aims of the project are to tackle the current negative impacts and challenges identified at the Dwars, Modder and Titus rivers. The aim of the program is to improve the integrity of the Dwars, Modder and Titus River sections within the Ceres peri-urban areas by developing a collaborative understanding of the activities and impacts, as well as a shared level of responsibility to restore, protect, and conserve the water resources and ecological infrastructure upon which all local businesses and farmers depend. Part of the program is to develop a sustainable integrated river management plan. Other interventions are removing invasive alien vegetation, replanting indigenous vegetation, and

Draft Document

developing partnerships with private landowners that will ensure the program's sustainability. The same type of program will be extended to the other degraded rivers in the Witzenberg area. Monitoring and awareness programs in conjunction with governmental institutions must be implemented with farmers, local community, factories and private owners to ensure the conservation and sustainability of our river ecosystems. Specialist studies have to be done to identify erosion control methods at rivers and rehabilitation of the Dwars River will continuously be implemented. Environmental education will be supported through the "Green Fingers" as well as an "adopt a river" project in conjunction with Cape Nature. The focus will be on "excercising respect for the nature". Other awareness campaigns include Arbor Week and Water Week.

Climate Change

The municipal climate change response has been identified in the National Climate Change response plan (NCCRP) for inclusion into IDP planning (DEA, 2010). Municipalities, especially, play a vital role in addressing the country's social, economic and environmental needs. Local government is tasked with the provision of services in a sustainable and equitable manner which includes climate change resilience, the facilitation of socio and economic development and the promotion of a safe and healthy environment for all. Climate change and climate variability already have a direct impact on the ability of municipalities to meet these objectives. Services that have a great impact on climate change within the WM is the Energy/Electricity, Town planning, Stormwater & roads, water & sanitation, waste management, human settlements, fire & disaster management, Environment, Parks & Amenities. LED & SD. The development of a climate change response strategy and climate adaptation and mitigation plan is essential. The establishment of a steering committee from a cross sector of departments to address the relevant climate change issues is important. The appointment of a champion official to drive the climate change planning process will be vital.

Air quality

Principal functions of municipalities as per National Framework for AQM

Air Quality is a function of all spheres of government, ranging from local, district, provincial and national government.

The setting of municipal standards for emissions from point, non-point or mobile sources in respect of identified substances or

mixtures of substances in ambient air, which through ambient concentrations, bioaccumulation, deposition or in any other way present a threat to health, wellbeing or the environment in the municipality. Municipalities have to monitor ambient air quality and point, non-point and mobile source emissions. The second generation Air Quality Management Plan review was approved by Council on 30 September 2020. The review takes place every five years. It is important to expand the plan parallel with economic growth and spatial development. It is therefore imperative that the plan be included in the IDP. Air Quality have budgetary implications as air emission monitoring appliances in this field is expensive and needs to be budgeted for. Work on the Air Quality By-law for the Municipality has been completed and needs to be approved by Council. The municipality is also in need of audio measuring equipment for the control of noise in its jurisdiction in terms of the Western Cape Noise Control Regulations PN200/2013. Monitoring of compliance in respect of offensive

Draft Document

odors caused by any activity is essential for the compilation of an atmospheric impact report. A new approach will be taken towards the development of an emissions inventory for unlisted fuel burning appliances in the Witzenberg Municipality. Currently stack observations are done on a weekly basis to observe efficient burning at boilers.

Wellbeing of communities

The application and regulation of the requirements of Section 24 of the Constitution must be complied with to ensure an environment that is not harmful to any person's health or wellbeing. Offensive odours, noise and dust by means of the use of monitoring equipment should be prioritized. The municipality currently does not own any monitoring equipment, thus there is a need for obtaining measuring equipment to combat offences in this regard sufficiently and thereby secure the wellbeing and safety of all inhabitants.

Roaming animals

Roaming animals are still problematic in some residential areas and of great concern for the municipality. Despite of efforts to control the problems, there are still many challenges. The Municipality currently employs 21 animal monitors in Ceres, Nduli, Tulbagh, PA Hamlet and Wolseley which brought some relief to a certain extent in combatting the problems. These problems varies from lack of land for grazing, keeping of too many animals by emerging farmers, ability to feed their animals and the lack of supervising their animals. Further problems of roaming animals occurs after working hours when these animals goes into the residential areas, entering private properties, destroying peoples gardens and also creates unsafe situations for residents and vehicles. The absence of an impoundment facility in the Municipal jurisdiction, hampers the successful control of these animals.

Parks and Urban Greening Program

Through 2022 Urban Forest Management Plan (UFMP) identified the issues and values that are crucial to the Witzenberg municipality (highlighting the central business district), describe a vision for the future of an urban forest, and provide approaches to achieve that vision. The Urban Forest Management Plan (UFMP) consists of several trees inventories (indigenous and common trees) from residential and municipality properties. Tree maintenance and planting needs have been identified. The plan extends beyond planting and pruning schedules to include a variety of long-term goals, strategies and priorities that address tree canopy in a comprehensive, systematic manner. It also requires that all tree works decisions have a focus on always retaining and protecting the current and future tree investments.

Vision

The vision is to establish urban forest that provides maximum benefit while sustaining a healthy, vital canopy over the residential and governmental zones and coexisting and adapting to the expanding development of the central business district.

Goal of The UFMP Include:

Develop, promote and maintain strong community involvement for the urban forest by increasing awareness among municipality staff, local/ private landowners, and residents about the benefits and services provided by the urban forest and how to care for it.

Outcome: Passionate, knowledgeable staff, landowners and residents.

Strategic Plan

Draft Document

STRATEGIC GOALS, OBJECTIVES, ACTIONS

SG 1: Grow the Urban Forest Through New Planting to Maximize (the Social, Economic and Environmental) Benefits of Trees and Urban Greening. Address disparity between soft-scapes and hardscapes.

OBJECTIVE	ACTION (HOW)
Maximise sustainable planting of trees in order to increase percentage canopy cover	• 1 Encourage and educate through workshops on value and benefits of trees
	• 2 Revise 5-year tree planting plan focused on access to alternative water sources
	• 3 Propagate and procure high quality plant material in line with 5 Year Tree Demand Plan
	• 4 Establish a committed tree planting team for big tree planting at focal points and visible sites

SG2: Protect the urban forest from threats and loss by preserving the town's existing trees

OBJECTIVE	ACTION (HOW)
Develop and give input into guiding documents for Tree Protection	• Review Tree Policy – conduct review workshops
	• Give input into Tree Bylaw (Environmental Bylaw)
Recognize trees for their special contributions to the City's landscape	• Invite nominations for Trees of Significance, implement higher level of protection and maintenance
Monitor and control diseases and pests	• Develop strategies to combat diseases and pests

SG3: Manage, monitor, measure and maintain the urban forest to ensure sustainability

OBJECTIVE	ACTION (HOW)
Maintain urban forest according to accepted best practice - including skill and competency development of staff and service providers	• Revise the Tree Work Procedures (TWP)
	• Workshop TWP to ensure skilled and trained staff and to minimize tree loss through comprehensive maintenance of trees
	• Revise / develop specifications for external contractors (minimum technical requirements and service standards)
	• Enforce Tree Work Procedures
Collect and use data to measure and monitor the urban forest	• Tree Inventory through GIS mapping that contains data for each tree • Procure and process Infrared Imagery to establish a baseline for urban forest canopy cover and to define canopy targets for future
	• Tree Planting Register maintained

SG4: Secure Resources

OBJECTIVE	ACTION (HOW)
Committed funding and resources for tree related programs and activities	Assess existing resources and identify gaps e.g. • Equipment / tools: mobile tankers, fixed tanks, pumps • Identify key technical positions and motivate for appropriately skilled and trained staff • Funding for special projects • Ensure sufficient operating funding is available for tree maintenance

SG5: Stakeholder Engagements and Awareness campaigns

OBJECTIVE	ACTION (HOW)
Source Urban Forest training and education opportunities	• Identify specialized training needs and facilitate training

Draft Document

OBJECTIVE	ACTION (HOW)
Experiential opportunities	• Engage with groups to establish partnerships to transfer special skills and knowledge • Utilize Nursery as training facility e.g. Bonsai training
Encourage participation in the planting, establishment and maintenance of trees	• Community Gardens • Participate in Friends Group initiatives where feasible
Participate in national, international awareness	• Arbor Month • Arbor City

OBJECTIVE	ACTION (HOW)
campaigns related to trees	
Increase knowledge and engagement (residents, community groups, private sector, public agencies)	• Establish External and Internal Reference Group/ Tree Committee • Press and media releases • Tree-Talk internal publication

Draft Document

Key Performance Area 4:

SOCIO-ECONOMIC SUPPORT SERVICES

OBJECTIVE 4.1:

SUPPORT THE POOR AND VULNERABLE THROUGH PROGRAMMES AND POLICY

OBJECTIVE 4.2:

CREATE AN ENABLING ENVIRONMENT TO SUPPORT LOCAL ECONOMY

Witzenberg Day for the Aged

Key Performance Area 4

D. SOCIO-ECONOMIC SUPPORT SERVICES

I. OBJECTIVE 4.1: SUPPORT THE POOR AND VULNERABLE THROUGH PROGRAMMES AND POLICY

▪ PROGRAMME 4.1 (A): SOCIAL DEVELOPMENT PROGRAMMES

Witzenberg is committed to the development of its **youth,** and recognises the important part they play in society. Young people living in Witzenberg face a number of challenges on a daily basis: Not only are youth unemployment levels high, but substance abuse, particularly drug abuse, is on the increase. In order to facilitate youth development and support, Witzenberg will improve its capacity to deliver on its various programmes. The programme interventions supporting youth development are multifaceted, taking into account the many challenges facing the youth.

An Implementation protocol has been signed with Western Cape Department of Social Development for the implementation of projects and initiatives in the Witzenberg Municipal area. The Protocol aims to address gaps in social development in the Witzenberg Municipal area. The Implementation Protocol agreement declare the Municipality and the Department of Social Development's shared commitment to the following in the context of social and community development:

- Building strategic partnerships towards developing communities in the Witzenberg Municipal precinct
- Promotion of the ideals of integrated governance
- Integrated, sustainable and community centred policies and programmes
- Co-ordination of shared work areas, responsibilities, skills and capacity, resources and concerns
- The Witzenberg Municipality & Department of Social Development will support, within its available resources, the following initiatives, with a special focus on Gender Based Violence (GBV) in building sustainable communities:
  - Gender Based Violence
  - Substance Abuse
  - Disability Programmes
  - HIV Programmes
  - Early Childhood Development
  - Homelessness
  - Community Development
  - Youth Development

A Joint District Approach (JDA) Social Cluster has been established that will aim to facilitate discussion around social development service delivery aspects in the various Municipal towns of Witzenberg. It will also aim to address developmental gaps in areas in order that a collaborative approach can be implemented, therefore strengthening initiatives across Government service delivery Departments and ensuring the majority of needs of the most vulnerable can be met. The JDA Social cluster meets quarterly and will be focussed on action and not duplication. The members of the Social cluster will encompass all relevant social development service delivery orientated government departments and related stakeholders.

The following major youth programmes will be implemented, in association with Government, private sector and public organisations:

- Skills development, including personal assessment, development plans and career pathing, entrepreneurial skills, income opportunity skills, technical training and computer skills development.

Draft Document

- Youth programmes with the focus on building physically, emotionally and spiritually healthy citizens who can contribute meaningfully to the community in a socio-economic context by means of nation-building programmes
- Establishing partnerships with private, public and government sector to strengthen youth initiatives for bigger, collaborative impact
- Identifying youth recreational infrastructure needs and funding opportunities for implementation
- Capacity building in the fields of organisational development, leadership skills training, moral regeneration and train-the-trainer initiatives.
- Greater awareness of youth at risk, teenage pregnancy, HIV/Aids, substance abuse, the risks of gang involvement, etc.
- Getting youth involved in public participation processes
- Creating platforms for youth to engage around topical issues that affect them, so that they can take ownership and advocate for change, where necessary.
- Putting practical monitoring and evaluation mechanisms in place to ensure that programmes and interventions are relevant and that those doing youth work are held accountable.
- Innovative IT development solutions to facilitate access.
- Creating linkages between corporate entities and assessed youth with a view to possible permanent employment.
- Creating platforms and opportunities for the youth to grow in various art forms such as dancing, drama and craft skills
- Linking the youth with skills training opportunities such artisan related training
- Conducting youth dialoque with vulnerable youth about social challenges and inspiring them
- Creating opportunities for youth to showcase their arts and crafts talents
-

Substance abuse is a priority area, given the high incidence of drug and alcohol abuse in Witzenberg. The substance abuse programme focuses on prevention, intervention, suppression and coordination services with other spheres of government It also include tackling the root cause of drug abuse and social dialogue regarding the impact that it have on society.

HIV is a reality in Witzenberg and thus the HIV programme focuses on awareness, early intervention and prevention, in association with Department of Health and other stakeholders. It include preventative actions, measures & discussions with the community.

Poverty alleviation requires a targeted effort to care for the marginalised and vulnerable in Witzenberg. Given the current economic environment of ever-higher unemployment and the increasing number of residents living below the poverty line, indigent programmes and other economic enabling measures require urgent attention. The main thrust of the programme is to facilitate the resources and conditions required to satisfy poor communities' physical, social and psychological needs. The current focus of the programme is to support food production and security through the establishment and maintenance of food gardens. Food gardens help improve household food security and people's nutritional status, and also offer an opportunity for a group of people to come together and produce food collectively.

People living with disabilities programme recognises the various challenges experienced by people with disabilities. Witzenberg focuses on awareness-raising initiatives concerning disability in order to break down the barriers and promote and foster social integration and opportunities for persons with disabilities. The programme interventions are aimed at empowering and promoting a fully inclusive society for persons with disabilities. Support to caregivers and parents of disabled children is another goal of this programme. Life skills, hand skills and social skills are some of the main areas of intervention

Draft Document

for youth who are differently disabled. Disability access discussions will also be facilitated for municipal buildings and then also with the private sector.

The **Gender programme** create an enabling environment that celebrates women rising above adversity, Witzenberg seeks to raise awareness of domestic and gender-based violence as well as the support services on offer to both women and men. The following programmes are provided in collaboration with numerous partner organisations:

- Women's Day events celebrating women rising above adversity
- Training to create greater awareness of domestic and gender-based violence
- Fatherhood training programmes, which entail the training and education of young men and fathers to improve gender relations and to facilitate prevention and early intervention in respect of domestic and gender-based violence
- Discussions regarding facilitating of establishment of safe house
- Awareness programme on domestic and gender-based violence during the 16 Days of Activism campaign

The **Protection of vulnerable children programme** is focused on coordinating services of all NGOs/FBOs and government departments in the field of working with children and their families.

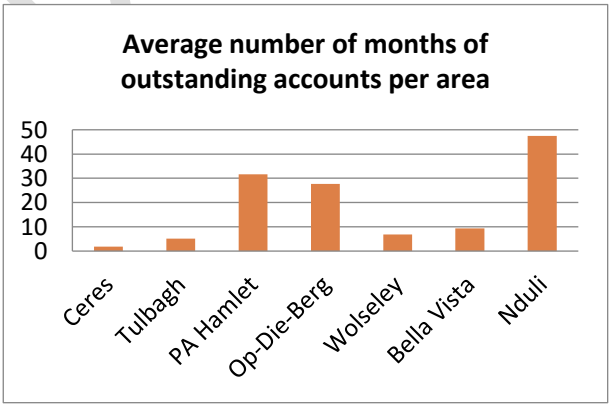
- Awareness and prevention of child abuse and child neglect.
- Fire, water and road safety awareness campaigns in collaboration with the relevant stakeholders.
- Support and assistance to other departments/stakeholders working with children.
- Assistance with addressing the problem of children under 16 who are roaming around in towns under supervised

The **Early childhood development** (ECD) programme supports quality ECD services with a variety of development components, such as ECD training, expansion and awareness, as well as the construction of ECD facilities. This also includes supporting and strengthening the role and function of the Witzenberg ECD Forum.

Furthermore, discussions must occur between the various education roleplayers regarding the need for more Model C schools on primary and secondary level.

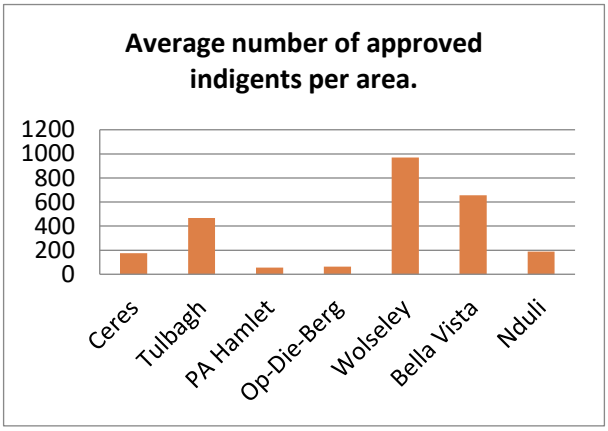
▪ PROGRAMME 4.1 (B): INDIGENT SUPPORT

Witzenberg supports the poor through its Indigent Policy and subsidises municipal services to approved households with an income of R3 000 or less per month or R5 000 or less. The total subsidy value per month is approximately R1, 8m. The outstanding debt of indigents of around R20m remains a challenge as no credit control procedures are currently implemented against indigents.



Draft Document

The table below gives an indication of the number



of indigents per area. The low numbers for areas such as Prince Alfred's Hamlet, Op-die-Berg and N'Duli are particularly clear. The main reason being the ineffectiveness of debt control measures as discussed under programme 2.2(a). The table above indicates the outstanding debt per area to show how it compares with the number of indigents per area.

- **PROGRAMME 4.1 (C): HOUSING PROGRAMME**

One of the Witzenberg's biggest challenges relates to growing informality – the expansion of informal settlements and the rising number of households living in makeshift shelters in backyards. Witzenberg needs to ensure integrated sustainable human settlements and access to housing for those in need in an incremental manner.

Interventions will require significant additional capital investment, together with a fundamental reconsideration of how to deliver more opportunities to access housing in an incremental, more rapid and more integrated, sustainable manner. Key elements for successful urban restructuring include higher-density housing developments in well-located areas, major improvements in public transport to link fragmented places, and higher employment levels in townships and informal settlements.

The table below gives an indication of the number of people on the municipals housing waiting list. Although the statistics includes farm residents and people from informal settlements, it is expected that the need might be much higher. The total of people on the waiting list amounts to approximately 8 300 with the agricultural sector indicating that the need of farm dwellers to obtain houses could also amount to approximately 9 000. There are approximately 17 000 residential consumers that receives services from the municipality and if the need indicated are to be accommodated all towns in the Witzenberg will have to be doubled. Currently the existing resources and infrastructure are not available to accommodate such a growth and it is not expected that it would be able in the near to medium future.

Housing Waiting List

Draft Document

	Ceres/Bella Vista	Tulbagh	PA Hamlet	Op Die Berg	Wolseley	Nduli	GAP for all areas
Series 1	2465	993	1191	850	1302	1499	1675

Witzenberg will implement the following projects over the next couple of years:

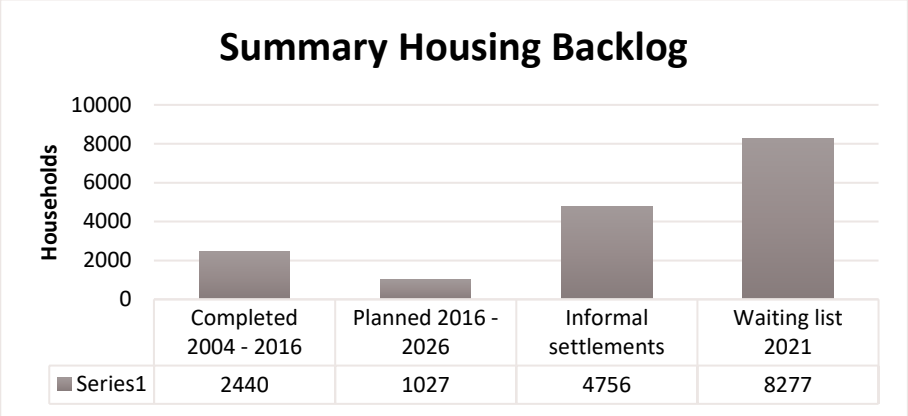
Project	***2018/19***			***2019/20***			***2020/21***		
	Sites	***Houses***	***Funds***	***Sites***	***Houses***	***Funds***	***Sites***	***Houses***	***Funds***
Vredebes (2911)		***30***	***R3.9 m***		*200 (IRDP)* *50 (FLIPS)*	*R26 m* *R3 m* *R12 m*	*200*	*200 (IRDP)* *50 (FLIPS)*	*R26 m* *R3 m* *R12m*
N'Duli (planning money only)	***0***	***0***							*R558*

Dependant on the allocation of funding from Provincial Government.

Gap (affordable) housing

The term 'gap housing' refers to houses that are provided to households earning between R3 501 and R22 000 per month, who are not provided for by the private sector or the state. The number of people seeking homes in the R150 000 to R350 000 price range has been growing steadily in the past years. The municipality recognises the critical importance of supplying houses within this price range for the proper functioning of the overall residential housing market. In this spirit, Witzenberg has undertaken the sale of serviced plots at reduced prices to enable buyers to build their own homes on a piecemeal basis via access to short-term loans or with employer assistance. The table below gives an indication of progress made in terms of the provision of housing over the past couple of years and the planning for the future.

Draft Document



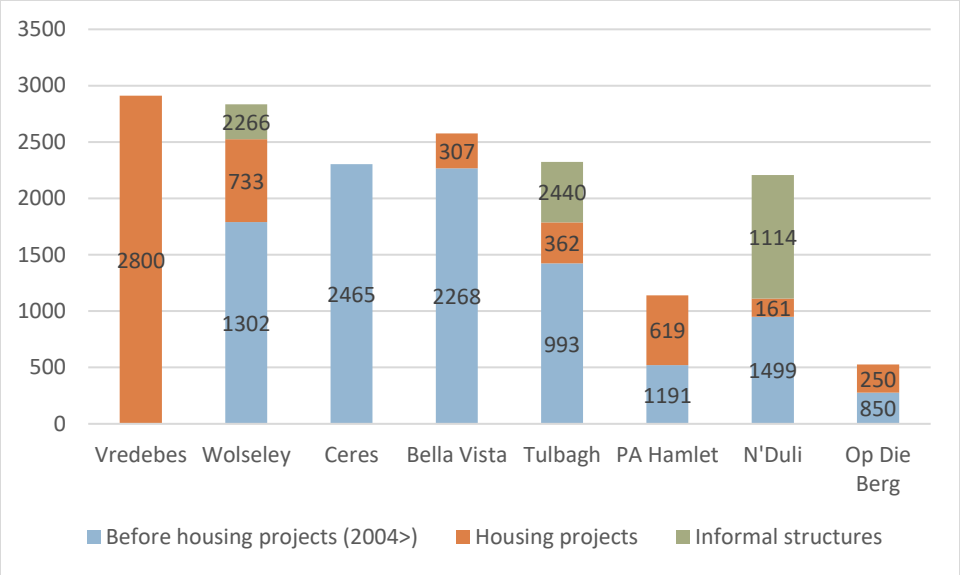
Resources and bulk infrastructure remains a major challenge in achieving planned targets. Witzenberg is in process of implementing the Bella Vista (307 units) and Vredebes (2 800 units) housing projects. Both these projects require significant bulk infrastructure upgrades. The Bella Vista project were completed in 2017 with the Vredebes project being developed over the next couple of years depending on the availability of funding to complete bulk infrastructure. Currently 229 top structures were completed until the end of 2020 in Vredebes and 529 sites serviced and completed in 2022.

All bulk water and sanitation infrastructure required should be completed by 2018 with the construction of houses can start. The upgrading of the adjacent R44, bus routes, bulk stormwater, and link road however require in the access of R150m. It should also be noted that the project's electricity requirements are approximately 5MVA of which Eskom cannot supply due to insufficient bulk capacity as discussed under Programme 1.1(a).

Witzenberg is committed to creating sustainable, integrated human settlements rather than merely providing low-cost housing. The Vredebes project when completed will have a significant influence on the municipal financial viability, service delivery, transport network and Ceres CBD. The Provincial Government will assist Witzenberg through the Regional Social and Economic Programme (RSEP) to develop an implementation plan for Vredebes to ensure an integrated and sustainable community. The main focus would be to ensure the buy-in of all sectors such as education, social and economic development, security, etc. and to align the construction of houses with the availability of social and technical infrastructure.

The table below gives an indication of the size of Vredebes. It also provides the number of beneficiaries per town over the past couple of years.

Draft Document



Rental stock disposal programme

During the 1980s, government initiated the discount benefit scheme to encourage tenants and sales debtors to acquire ownership of their saleable housing units. An asset management improvement programme will soon be finalised, which will enable Witzenberg to better manage and maintain its assets especially in terms of rental stock. To meet this need, Witzenberg will assess the possible sale or transfer of rental stock to clearly identified beneficiaries according to prescripts of the National Housing Codes. This will allow for a sense of ownership for community members and support economic independence for beneficiaries. Approximately 240 of these rental units are earmarked for transfer to tenants over the next three years.

- **PROGRAMME 4.1 (D): JOB CREATION**

The Expanded Public Works Programme(EPWP) is a national government programme that aims to provide social protection through the creation of jobs. The programme's mandate is "to contribute to development by providing work opportunities to poor and unemployed people in the labour-intensive delivery of public and community assets and services". EPWP programmes in Witzenberg will complement existing municipal service delivery and will also aim to provide unemployed persons with experience in environmental cleaning initiatives, infrastructure and maintenance projects, as well as social sector programmes. An existing operating procedure are regularly updated that would include the maintenance of an unemployed database for job seekers to be utilised with EPWP recruitment. The Department of Public Works Conditional Grant will be utilised to complement service delivery in the municipality, such as assistance to youth, maintenance of parks, rivers and open spaces, neighbourhoods, the various CBD (Central Business District), as well as road & storm water maintenance. There is also a focus on maintenance projects where unemployed persons can grow in their skills and obtain experience. At the same time municipal infrastructure are being maintained on a regular basis. Workers on the programme can also benefit from training initiatives (where funding is available).

The Municipality will aim to prioritize persons with disabilities, youth and women.

Draft Document

II. OBJECTIVE 4.2: CREATE AN ENABLING ENVIRONMENT TO SUPPORT LOCAL ECONOMY

▪ PROGRAMME 4.2 (A): LOCAL ECONOMIC DEVELOPMENT

Local Economic Development (LED) is concerned with promoting participation and local dialogue, as well as connecting people and their resources for better economic opportunities, job creation and a higher quality of life for both men and women.

LED is thus a participatory process and can be regarded as the process whereby the wealth in local communities is created not by government alone, but by the complement of private enterprise. These enterprises depend on favourable local business conditions to create prosperity, while the local governments have the key role of providing the enabling environment for businesses to succeed.

Witzenberg Municipality is committed to support local economic development not only through various Inter-governmental. The Witzenberg Local Economic Development Strategy is currently in its final stages of review. The implementation of the existing strategy is measured on a bi-annual basis.

Witzenberg Municipality will be supporting SMME developments through the following projects.

1. Small Business development

Facilitation of:

- Business training (entrepreneurship, business plans, marketing, financial management, customer service)
- SARS workshops (tax clearance, benefits for small business, business registration options)
- Contractor development (Construction & site compliancy)
- International business capacity building missions
- Mentorship programmes
- SMME email network establishment to distribute information and opportunities
- Business advice
- Business dialogue with small businesses in town to disseminate information, discuss challenges and tackle solutions together
- Liaison with small business forums
- Collaboration with Ceres Business Initiative

2) Linking entrepreneurs with funding opportunities by means of: information sharing, workshops& online application assistance:

- District Municipality, Provincial &National Government funding
- Corporate /Private (Company linked funding)

3) Linking clients with Supplier database registrations

- Municipal supplychain & Western Cape supplier database (assistance with completion of application forms)
- Central supplier database (online registrations at local E-Centre's)
- Small business consultations
- Referrals to organisations or State Departments

4) Facilitating access to markets

- Small Business infrastructure (construction of business centres)
- Small business expo's
- Linkages with government department procurement opportunities
- Linkages with tourism related opportunities at festivals

Draft Document

- Linking local contractors with construction opportunities
- Procurement input during tender supplychain processes
- Linkages with local established businesses

5) Application & processing of informal trader permits & business licence registrations

- Include an informal trader programme to provide training and support on a business level to informal traders
- Establishment of informal trader forum
- Assisting with red tape challenges/ blockages
- Identifying new & better trading space

6) Providing SMME opportunities in new developments

- Assistance with expediting business applications for municipal land
- Waste entrepreneurship interventions and capacity building
- Investigating possible land for business development
- Development of a policy for film production companies for permits to enable, attract and to streamline applications

7) Red tape reduction

- Implementation of municipal wide case management system that aim to fast track business and public complaints, solutions and swift implementation

Tourism

Witzenberg Municipality has a service level agreement (SLA) with three local tourism associations that conduct marketing of the municipal area and local established businesses in order to draw investment and trade to the area. Local businesses join as members of the local tourism authorities to participate in the marketing initiative. Membership holds businesses accountable to ethical norms and standards for the industry, and to a code of conduct.

Their functions include:

- Marketing the area, events and activities.
- Creating opportunities for transformation, niching, diversification and support of new stakeholders.
- Ensuring that tourism development remains on trend.
- Promotion and development of Accessible Tourism.
- To enlist new members and plan for the growth of both operations and market.

Tourism aims to market Witzenberg Municipality as an affordable holiday destination with activities for the entire family. Tourism liaises with district, provincial and national stakeholders to develop the Witzenberg brand through attraction of tourists, awareness campaigns, roadshows, expos, events and festivals. Tourism further aims to train and skill local entrepreneurs to meet tourism-related demands, and provide the requisite services and products necessary to promote local trade and economic development.

As per our SLA with Witzenberg Tourism, which is an external entity to Witzenberg Municipality, we have the following strategic priorities:

- Promotion of our towns as travel destinations and as film and photoshoot locations (with attractive scenes in farm and desert areas, mountains, snow, and skylines.)
- Promotion and protection of the local towns, events and the municipal brand.
- Promotion of conservation and Green Tourism. Provision of statistical research and data outputs.
- Promotion of Agri-Tourism.

Draft Document

- The growth and expansion of tourism.

Witzenberg Tourism runs educational packages with schools, front of house staff, and local stores to promote clientele service. The entity also sources courses such as first aid training, communication, administration and hospitality to help local businesses improve their output and skill levels.

Part of the municipality's agreement with Witzenberg Tourism is to expand the broad demographic of tourism to encompass culture, heritage, diversity and transformation. We aim to develop two new travel routes within Witzenberg to promote social cohesion as well as introduce formal trade to township and rural areas.

Witzenberg Tourism has produced tear-off maps which are distributed to points of sale with high traffic, providing location and contact details of local tourist attractions. They have also produced a joint brochure called the Witzenberg Meander, covering activities throughout the municipality.

Tourism bureaus for Wolseley, Ceres and Tulbagh also created their own brochures with niche marketing of their sectors in conjunction with social media promotion through Facebook and websites. Witzenberg Tourism has been successful in marketing the destination to visitors within South Africa as an affordable and picturesque location for weddings, snow tourism, heritage tourism, agri-tourism, wine tourism, adventure tourism, cultural tourism, sports tourism and rural tourism.

Witzenberg Tourism also conducts quarterly educational visits of the areas to tourism authorities outside of our borders as well as to journalists, media groups and bloggers, in order to review and publicise the activities and services offered in the area. A significant area of focus in the IDP for tourism is access to qualitative and quantitative research, specific to our area.

Ceres Business Initiative

The Ceres Business Initiative was originally founded as the Ceres Chamber of Commerce in 1936. The institution represents various business and enterprise areas in the Witzenberg area. The Witzenberg Municipality has a good relation with the CBI and plays an important supporting role in achieving the following goals of CBI:

- Building bridges between the municipality & the business community.
- Ensure that the town is clean & safe
- Accomplish economic growth, create opportunities for entrepreneurs
- To consult with the municipality regarding service delivery.

CBI has initiated several opportunities for small and upcoming entrepreneurs with support from its members and other role-players.

-

- **PROGRAMME 4.2 (B): UTILISING MUNICIPAL AND PUBLIC PROPERTY TO SUPPORT ECONOMIC GROWTH AND SUSTAINABLE DEVELOPMENT**

Witzenberg completed a land audit in 2009 indicating all municipal and public properties. These properties are categorised with the focus on underutilised properties. The land audit is updated regularly and an implementation plan was developed with annual implementation targets. The purpose is mainly to sell or make available underutilised municipal property to leverage growth, support economic development and job creation with the focus on sustainable development especially in poor communities.

Economic benefits include:

- small-business development through support initiatives stimulating local economic activity and possible job creation
- the creation of potential opportunity streams through mixed-use activities

Draft Document

- encouraging and enhancing entrepreneurship across various key sectors.

Witzenberg will, in conjunction with the Department of Rural Development and Land Reform and the Department of Agriculture, investigate the utilisation of **commonage land as part of the Agri-Park development**. The main purpose would be to grow the local economy, job creation and empowerment of the previously disadvantaged.

The investigation should give an indication of the preferred commodity as determined by soil conditions and available markets, but also water availability and support by existing commercial farmers.

Large tracks of commonage has been identified as Critical Biodiversity Areas. These areas are however not managed and protected as it is being overgrazed and illegal dumping occurs in some areas.

It is therefore necessary to investigate if the land

INTERNAL MONITORING AND REPORTING

Measuring of performance on Strategic Objectives is measured through the Service Delivery and Budget Implementation Plan as included in Chapter 7. The results are published in the Annual Report.

Departmental indicators are included in the Departmental SDBIP with monthly internal reporting to managers

C. ESTABLISHMENT OF WARD COMMITTEES

Through the establishment process, it is intended that members of the community will understand the purpose and potential benefits of the Ward Committee System. Community members would also be in a better position to make informed decisions with regard to nominating and electing appropriate members of Ward Committees and be able to hold Ward Committees accountable once they are established.

For the months of February and March 2022 Witzenberg Municipality had an intensive mobilisation campaign on the process for the establishment of Ward Committees. On 30 March 2022 the nomination process closed.

The verifications on nominations were done, some candidates were only disqualified after verifications were done. Candidates were disqualified if they were not registered voters, if they were nominated in the wrong voting district, if they were not nominated by a registered voter, if they were nominated by a voter that was not registered in the same voting district as the candidate, and if nominations were received after the deadline of 30 March 2022.

The election process was facilitated by contract workers who also did duty as contract workers for the Independent Electoral Committee (IEC) during the 2021 Local Government Elections. The elections in the different wards took place on 4, 5, 6 and 7 April 2022. **The newly elected Ward Committee inauguration took place on [redacted].**

6 STRATEGIC FINANCIAL OUTLOOK

A. EXECUTIVE SUMMARY

The National Treasury projects real economic growth of 5.3 per cent in 2023, following an expected growth estimate of 4.4 per cent in 2022. Real GDP growth is expected to moderate to 0.9 per cent in 2023. Over the next 3 years, GDP growth is expected to average 1.4 percent.

The economic outlook faces a range of risks, including weaker-than-expected global growth, further disruptions to global supply chains and renewed inflationary pressures from the war in Ukraine, continued power cuts and a deterioration in port and rail infrastructure, widespread criminal activity, and any deterioration of the fiscal outlook. Government is taking urgent measures to reduce load-shedding in the short term and transform the sector through market reforms to achieve long-term energy security. Several reforms are under way to improve the performance of the transport sector, specifically freight rail and to improve the capability of the state

The main risks to the economic outlook are weaker-than-expected growth, continued deterioration in the public finances and a failure to implement structural reforms. Electricity remains a binding constraint on economic recovery, with power interruptions expected to continue into 2023.

These factors may jeopardize South Africa's prudent macroeconomic and fiscal policies, which include inflation targeting and a flexible exchange rate, the local economy's ability to adjust to global volatility and the stable investment platform.

The Russia-Ukraine War continues to have a negative impact on key global markets. Fruit Exports in the Witzenberg Region has also been negatively affected and this may pose a real risk to job security in the area.

The municipality's notional maximum demand (NMD) ceiling has also been reached and this is hampering its ability to attract investments to the municipal area. Continued talks are underway with Eskom to increase Witzenberg Municipality's NMD.

Population statistics suggest that the municipality has experienced a steep increase in population during the past 10 years. The expansion of Informal settlements within the municipal area supports this argument and this places pressure on the municipality to provide basic services within these areas.

The municipality followed a conservative approach for projecting revenue. The municipality will have to improve their efforts to limit non-priority spending and to implement stringent cost-containment measures. South Africa's economy is increasingly vulnerable to a recession in the next 12 months, with an ongoing electricity crisis seen further curbing activity.

The probability of a recession stands at 68% in February 2023, up from odds of 45% in January 2023, according to various news agencies,

Draft Document

based on economist polls conducted in February 2023.

B. FINANCIAL STRATEGIC APPROACH

The 2023/24 MTREF process commenced with a technical analysis of previous years' performance outcomes, an assessment of the economic outlook, and consultation with various role-players. The process encompassed the following:

- Framework for and strategic direction of the budget provided by the MAYCO
- Long-term Financial Plan presentations to Council.
- Eskom's application for electricity tariff increases to the National Energy Regulator of South Africa (NERSA).

C. FINANCIAL MODELLING AND KEY PLANNING DRIVERS

The outcome of the LTFP modelling incorporated the assumptions outlined in the paragraphs below on which the 2023/24 MTREF was compiled. The principles applied to the MTREF in determining and maintaining an affordability envelope included:

- Higher-than-inflation repairs and maintenance provision to attain nationally benchmarked levels, thereby ensuring and enhancing the preservation of Witzenberg Municipality assets;
- Higher increases to selected cost elements subjected to higher-than-average inflationary pressure, such as employee related costs;
- The assumption of a 95% capital expenditure implementation rate;
- Credible collection rates based on collection achievements to date, and also incorporating anticipated improvements in selected revenue items;
- National and provincial allocations as per the 2023 Division of Revenue Act (DORA); and
- Province's 2023/24 MTREF allocations circular to municipalities.

D. ECONOMIC OUTLOOK/EXTERNAL FACTORS

The sluggish growth experienced in the South African economy is aggravated by the drought conditions, constraints in electricity supply decline in business confidence, Covid-19 pandemic, increase in living cost, increase in transportation cost and an increase in delivering basic services. The markets is also heavily constraint with imports and exports being hampered by the Russia-Ukraine War. The total impact on the economy of the Witzenberg area is not currently known, but we are of the opinion that there will be a definite impact as the area contribute heavily towards exports. This may result in increase in unemployment, social decline, criminal activity may increase during the coming months which will put the municipality under pressure in terms of collections

Draft Document

E. NATIONAL AND PROVINCIAL INFLUENCES

Conditional grant funding targets delivery of national government's service delivery priorities. It is imperative that Witzenberg Municipality understands and complies with the conditions stipulated in the Division of Revenue Act (DoRA) in order to access this funding. The equitable share constitutes unconditional funding, and is designed to fund the provision of free basic services to disadvantaged communities.

F. EXPENDITURE ANALYSIS – A THREE-YEAR PREVIEW

I. GENERAL INFLATION OUTLOOK AND ITS IMPACT ON MUNICIPAL ACTIVITIES

The MFMA Budget Circular for 2022/2023 indicates the following inflation forecasts:

2023/2024	5,3%
2024/2025	4,9%
2025/2026	4,7%

II. INTEREST RATES FOR BORROWING AND INVESTMENT OF FUNDS

Changes in interest rates will not affect the budget over the medium term as the interest rates on most of the existing loans are fixed. The interest and redemption expenses will decrease as loans are being redeemed.

III. COLLECTION RATE FOR REVENUE SERVICES

The collection rate for revenue service will be under more pressure due to the weak economic outlook. Prepaid water meters will be installed to reduce the provision for impairment of water debtors.

IV. SALARY, WAGES AND RELATED STAFF EXPENSES

The increase in employee-related costs is expected to be more than the inflation forecast as per collective agreement. The 2,5% notch increase will increase the employee-related costs even further. The job descriptions of all employees are in the process of being re-evaluated – the outcome of the evaluations is still unknown but it is expected that the salaries of some employees will increase.

V. REPAIRS AND MAINTENANCE

Higher-than-inflation repairs and maintenance provision is made in the budget to attain nationally benchmarked levels, thereby ensuring and enhancing the preservation of Witzenberg Municipality assets.

VI. DEPRECIATION

Depreciation charges will increase on an annual basis due to new assets being added to the asset register through the capital budget.

Draft Document

G. REVENUE ANALYSIS – A THREE-YEAR PREVIEW

I. GROWTH OR DECLINE IN MUNICIPAL TAX BASE

The revenue base is growing but the rate is not sufficient to support improved service delivery. The majority of the economic development in Witzenberg occurs in the rural areas where the municipality is not the service provider. The Skoonvlei area is being developed as an industrial area with assistance from Rural Development to attract industries to the town areas and to create job opportunities.

II. MAJOR TARIFFS AND CHARGES: ECONOMIC AND TRADING SERVICES

Witzenberg Municipality strives to keep tariff increases below inflation. The three-year indicative tariffs are determined for major services to illustrate the financial effect of medium-term operational and investment plans.

III. PROPERTY RATES

Property rates revenue is used to finance municipal functions other than economic and trade services. Property rates revenue is subsidised by the surpluses from economic and trade services. Property rates tariffs are therefore increased with more than the inflation forecasts. A new valuation roll will be implemented from 1 July 2023. The average valuations will be higher than those of the previous roll, but tariffs will be adjusted downward to limit the effect of the increased valuations. The limitations on property rates tariffs of Agricultural Property, Public Service Infrastructure and Public Benefit Organisation Property has a negative effect on the possible rates revenue.

Draft Document

H. IMPACT OF NATIONAL, PROVINCIAL AND LOCAL POLICIES ON OPERATING REVENUE

I. 2022 DORA

Allocations and grants to Witzenberg Municipality are included in the DoRA.

The equitable share allocation is utilised to fund the provision of free basic services to indigent households.

The Municipal Infrastructure Grant is mainly allocated to the provision of bulk service infrastructure to new low cost housing projects.

The Regional Bulk Infrastructure Grant is earmarked for Bulk Water Storage for the Tulbagh area.

II. MAJOR PARAMETERS

The following table summarises the major parameters applied to the operating budget:

Description	Budget year 2023/2024	Budget year +1 2024/2025	Budget year +2 2025/2026
CPI	5.3%	4.9%	4.7%
Collection rate	92%	92%	92%
Tariff Increases:			
Rates	6%	6%	6%
Electricity - Residential	20.7%	15.7%	17.7%
Electricity - Business	20.7%	15.7%	17.7%
Water consumption - Residential	6%	6%	6%
Water consumption - Business	6%	6%	6%
Sewerage	6%	6%	6%
Refuse removal	6%	6%	6%
Equitable share allocation	R 136 mil	R 149 mil	R 166 mil
Total grant allocations	R 211 mil	R 194 mil	R 215 mil

Draft Document

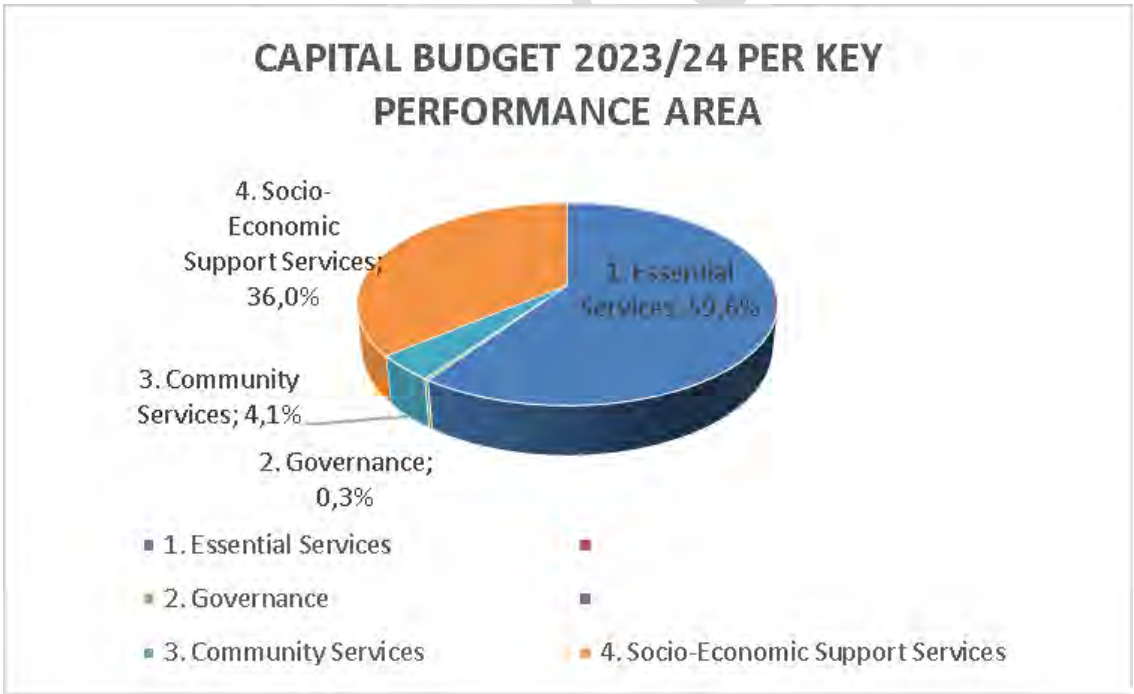
I. CAPITAL INVESTMENT FRAMEWORK

The past couple of financial years, capital investment were dominated by bulk infrastructure projects linked to especially the Vredebes subsidized housing project. The majority of the required bulk infrastructure has been completed and construction of houses and servicing of sites has commenced. No top structures will be constructed in the next two years due to the incapacity of Eskom bulk supply electricity network to Witzenberg as well as a policy change from the National Department of Housing where the focus will be more on serviced sites. It was indicated that upgrading of the electricity supply lines would only commenced by 2030. With regards to housing, 520 sites at Vredebes was completed with the purpose to accommodate the informal settlement at Nduli which should be upgraded the year after. Major projects mainly include the construction of a storage dam in Tulbagh that will be phased over 2 years, and other network upgrading for water/sanitation and electricity services.

The construction of a new Material Recovery Facility where solid waste will be recycled will be completed by July 2022 followed by the construction of drop-off points and transfer stations in various towns. The upgrading of the Van Breda Bridge in Ceres has commenced and expected to be completed by 2023/24.

In terms of the Witzenberg Strategic Map, the bulk of the funding is allocated to the key performance area of Essential Services with the strategic objectives related to the provision of services receiving the majority of capital funding as indicated in the graphs below.

NOTE: PLEASE REFER TO APPROVED BUDGET AND ADJUSTED BUDGET FOR UPDATED FIGURES IN TABLES BELOW.



Key Performance Area	Strategic Objective	Capital Budget 2023-24	Capital Budget 2024-25	Capital Budget 2025-26

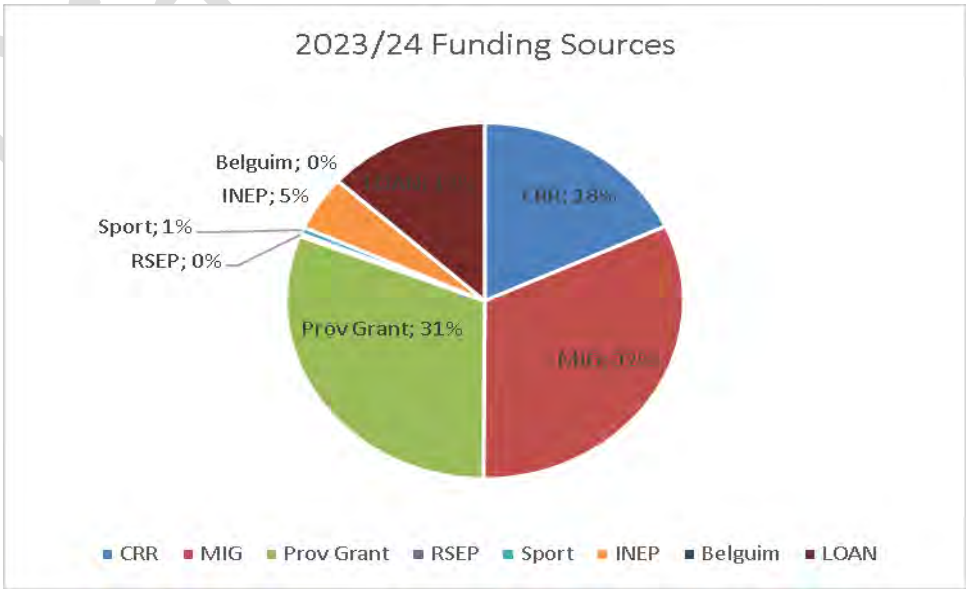
Funding Sources

The Capital Budget is funded by the following sources:

Funding Source Name		Institution	Purpose
Capital Replacement Reserve	CRR	Municipality	Mainly upgrading and equipment
Integrated Housing and Human Settlements Development Grant	IHHSDG	Dept. of Human Settlements	Capital funding for internal social housing developments' infrastructure networks as well as related bulk infrastructure. *Funding for top structures (houses) is included in the operational budget.*
Municipal Infrastructure Grant	MIG	Dept. of Cooperative Governance	Infrastructure that supports the poor, mainly bulk infrastructure related to social housing projects.
Regional Bulk Infrastructure Grant	RBIG	Dept. of Water Affairs	Bulk water and sanitation related projects.
Integrated National Electrification Programme	INEP	Dept. of Energy	Electrical networks for social housing projects.
Regional Socio-Economic Programme	RSEP	Provincial Government	Socio-economic upgrading – non-motorised transport – walkways.
Twinning agreement with Essen, Belgium	Belgium	Belgium Federal Government	Support in implementation of Waste Management Strategy
CWDM	District	Cape Winelands District Municipality	Identified projects. Non-motorised Transport such as walkways & pavements
Provincial Government	Prov Grant	Western Cape Provincial Government	Various Grant related to upgrading of main roads (bridges), fire fighting vehicles, libraries
Water Services Improvement Grant	WSIG	Department of Water and Sanitation	Upgrade to Waste Water Treatment Works
Loans	Loans	Financial Institution	Landfill Site Fencing & Transfer/Drop-off Facilities

The graph below gives an indication of the contribution value of the different funding sources to the capital budget:



Detailed five-year Capital Budget

7 PERFORMANCE MONITORING AND EVALUATION

The Municipal Systems Act requires that the IDP be reviewed every five years in line with municipal elections, with an annual review of the budget and progress. A Performance Management Policy Framework has been approved by Council.

The IDP is considered as the five-year strategic plan for the municipality and therefore provides an outline of Witzenberg Municipality's vision, mission, objectives and operational and service delivery indicators that are realistic and attainable.

The Municipal Finance Management Act 56 of 2003 (MFMA) and National Treasury MFMA Circular No. 13 requires that municipalities prepare a service delivery budget implementation plan (SDBIP) indicating how the budget and the strategic objectives of Council as included in the IDP will be implemented. The SDBIP is prepared in terms of Section 53(1)(c)(ii) of the Municipal Finance Management (MFMA), National Treasury MFMA Circular No. 13 and the Budgeting and Reporting Regulations.

The SDBIP serves as a "contract" between the administration, council and community; expressing the goals and objectives set by the council as quantifiable outcomes that can be implemented by the administration in the applicable financial year. It provides the link between the mayor, the council (executive) and the administration, and facilitates the process for holding management accountable for its performance. It is therefore a management, implementation and monitoring tool that will assist the mayor, councilors, municipal manager, senior managers and community to monitor the municipality's performance on a quarterly basis. The SDBIP will ensure that appropriate information is circulated internally and externally for purposes of monitoring the implementation of the budget, the execution of projects, the performance of senior management and the achievement of the strategic objectives set by council.

The SDBIP sets in-year information, such as quarterly service delivery and monthly budget targets, and links each service delivery output to the budget of the municipality, thus providing credible management information and a detailed plan for how the municipality will provide such services with the inputs and financial resources that will be utilised.

The SDBIP will determine the performance agreements of the municipal manager and senior managers, including the outputs and deadlines for which they will be held responsible. Expenditure information (for capital projects and services) per municipal ward is provided so that each output can be broken down per ward, where it is possible to support ward councilors to provide feedback to their communities on progress with service delivery.

Reporting on achievements are done through a mid-year report and combined in the Annual Performance report included in the Annual Report.

Circular 88 indicators, output & outcome included.

The tables below indicate the following (**Note: refer to approved SDBIP for final indicators & targets):**

- Strategic Map – Strategic Objectives and linkage to Key Performance Areas.
- Five-year Scorecard – Key Performance Indicators with targets linked to the Strategic Objectives
- Definitions of Key Performance Indicators

Draft Document

A. STRATEGIC MAP

WITZENBERG MUNICIPALITY: STRATEGIC MAP 2023/24					
Vision	**Mission**	**Municipal KPA**		**Pre-determined Objectives**	
A municipality that cares for its community, creating growth and opportunities.	The Witzenberg Municipality is committed to improve the quality of life of its community by: - Providing & maintaing affordable services - Promoting Social & Economic Development - The effective & efficient use of resources - Effective stakeholder & community participation.	1	Essential Services	1,1	Sustainable provision & maintenance of basic infrastructure
				1,2	Provide for the needs of informal settlements through improved services
		2	Governance	2,1	Support Institutional Transformation & Development
				2,2	Ensure financial viability.
				2,3	To maintain and strengthen relations with international- & inter-governmental partners as well as the local community through the creation of participative structures.
		3	Communal Services	3,1	Provide & maintain facilities that make citizens feel at home.
		4	Socio-Economic Support Services	4,1	Support the poor & vulnerable through programmes & policy
				4,2	Create an enabling environment to attract investment & support local economy.

B. 5 YEAR SCORECARD

A. KEY PERFORMANCE INDICATORS: 5 YEAR SCORECARD

(Refer to 2023/24 SDBIP for Quarterly targets)

KEY PERFORMANCE AREA: 1. ESSENTIAL SERVICES

Strategic Objective: 1.1 Sustainable provision and maintenance of basic infrastructure

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 2023/24	Target 2024/25	Target 2025/26	Target 2026/27	Target 2027/28	Definitions
TecDir1	Percentage expenditure on the preventative- & corrective planned maintenance budget of the Technical Department	Technical	95%	98%	98%	99%	99%	99%	Percentage reflecting year to date spend /preventative- & corrective planned maintenance budget votes of technical department. Maintenance as defined according to mSCOA and excludes emergency corrective maintenance.
TecDir3	% Expenditure on Capital Budget by Technical Directorate	Technical	90%	95%	95%	96%	96%	97%	Percentage reflecting year to date spend / Total capital budget less any contingent liabilities relating to the capital budget of the technical directorate. The total capital budget is the council approved adjusted budget at the time of the measurement. Contingent liabilities are only identified at the year end.
WS1.11 (Cir88)	Number of new sewer connections meeting minimum standards	Technical	New	10	10	12	12	14	The total number of new sewer connections (defined as connections to a flush toilet connected to the sewerage system or a septic tank or a VIP toilet) made as part of state-subsidised human settlements development. This is inclusive of new sewer connections to communal facilities that meet basic sanitation standards.
WS2.11 (Cir88)	Number of new water connections meeting minimum standards	Technical	New	10	10	12	12	14	Total number of new water connections meeting minimum standards (supply of water is Piped (tap) water inside dwelling/institution, Piped (tap) water inside yard, and/or Community stand: <200 m) as part of state-subsidised human settlements development. This is inclusive of new water connections to communal facilities that meet minimum standards.
WS3.1 (Cir88)	Frequency of sewer blockages per 100 KMs of pipeline	Technical	New	500	500	490	490	480	Number of blockages in sewers per 100km of sewer length per year. Blockages are defined as reported or logged blockages that result in an obstruction of system flow which may be caused by roots, obstructive items or other pipeline disruption.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 2023/24	Target 2024/25	Target 2025/26	Target 2026/27	Target 2027/28	Definitions
WS3.11 (Cir88)	Percentage of callouts responded to within 24 hours (sanitation/wastewater)	Technical	New	95%	95%	96%	96%	97%	Percentage callouts (inclusive of outages logged with the municipality and complaints related to outages) responded to within 24 hours (sanitation/wastewater). Responded to means that someone is on site and has initiated a process of resolving the matter within 24 hours. This does not mean the callout was resolved, only that the matter was logged, appraised and responded to within 24 hours of notification.
WS3.2 (Cir88)	Frequency of water mains failures per 100 KMs of pipeline	Technical	New	60	60	58	58	57	Number of water mains failures per 100km of mains pipe per year. "Mains" refers to all transmission and distribution pipes for water, the ownership of which is vested in the municipality for the purpose of conveying water to consumers.
WS3.21 (Cir88)	Percentage of callouts responded to within 24 hours (water)	Technical	New	95%	95%	96%	96%	97%	Percentage callouts (outages inclusive of complaints logged over outages) responded to within 24 hours (water). Responded to means that someone is on site and has initiated a process of resolving the matter within 24 hours. This does not mean the callout was resolved, only that the matter was logged, appraised and responded to within 24 hours of notification.
WS3.3 (Cir88)	Frequency of unplanned water service interruptions	Technical	New	12	12	11	11	10,5	Number of interruptions averaged per 1000 service connections per year. Interruptions are understood as occurring at the source and do not include the number of consumer units affected by an interruption.
WS4.1 (Cir88)	Percentage of drinking water samples complying to SANS241	Technical	New	98%	98%	98%	98%	98%	The percentage of water samples measured that comply with the SANS 241 requirements over a 12 month period for the defined parameters. See the SANS 241 requirements for a detailed breakdown of the various tests involved and the associated standard limits for application.
WS4.2 (Cir88)	Percentage of wastewater samples compliant to water use license conditions	Technical	New	85%	86%	86%	87%	87%	Percentage of Wastewater Quality Compliance to specified licence/permit/authorisation requirements tested during the municipal financial year. The percentage is calculated on the basis of aggregated results per Water Use License determinant.
WS5.1 (Cir88)	Percentage of non-revenue water	Technical	New	20%	20%	19%	19%	18%	Non-revenue water is defined as the sum of unbilled authorized consumption, apparent losses (unbilled unauthorised consumption and meter inaccuracies) and real losses (from transmission mains, storage facilities, distribution mains or service connections).
WS5.2 (Cir88)	Total water losses	Technical	New	30	30	28	28	27	Total (apparent and real) losses, expressed in terms of annual volume lost per service connection per day.
WS5.31 (Cir88)	Percentage of total water connections metered	Finance	New	99%	99%	99%	99%	99%	The number of metered water connections as a percentage of the total number of connections in the municipality.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 2023/24	Target 2024/25	Target 2025/26	Target 2026/27	Target 2027/28	Definitions
EE1.11 (Cir88)	Number of dwellings provided with connections to mains electricity supply by the municipality	Technical	New	10	10	12	12	14	Number of residential supply points commissioned and energised by the municipality
EE3.11 (Cir 88)	Percentage of unplanned outages that are restored to supply within industry standard timeframes	Technical	New	95%	96%	96%	96%	97%	The proportion of MTTRs that are within industry standards where MTTR is the average time it takes to restore unplanned outages. The following five categories of restoration time are applied as industry standards NSR 047: X=1.5, 3.5, 7.5, 24 and 168
EE3.21 (Cir88)	Percentage of planned maintenance performed	Technical	New	90%	90%	90%	90%	90%	This is a measure of the actual executed maintenance jobs planned as a percentage of budgeted planned maintenance effort in scheduled 'jobs'. A 'job' is a planned maintenance task scheduled by the municipality.
FinInc28	Number of formal residential properties for which refuse is removed once per week and which are billed for refuse removal as at period end.	Finance	13 465	13 465	13 500	13 550	13 570	13 590	The objective of the KPI is to report on the number of residential properties that have access to the service according to the number of properties billed for the service on the SAMRAS financial system Proxy measure for National Key Performance Indicator.
TecWat20	Percentage unaccounted water losses	Technical	14%	18%	17%	17%	16%	16%	Unaccounted-for water (UFW) is the difference between the quantity of water supplied to the municipality's network and the metered quantity of water used by the customers. UFW has two components: (a) physical losses due to leakage from pipes, and (b) administrative losses due to illegal connections and under registration of water meters. The reduction of UFW is a crucial step to improve the financial health and to save scarce water resources.
FM5.21 (Cir88)	Percentage of total capital expenditure on renewal/upgrading of existing assets	Finance	New	37%	38%	39%	40%	42%	This indicator measures the extent to which the municipality prioritise or protect its existing infrastructure assets. Renewal/Upgrading of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as restoration of the service potential of the asset.
FM5.22 (Cir88)	Renewal/Upgrading of Existing Assets as a percentage of Depreciation/Asset impairment	Finance	New	72%	75%	75%	78%	78%	This indicator measures the extent at which the municipality prioritise or protect its existing infrastructure assets. Renewal, Upgrading or Replacement of Existing Assets refers to costs incurred in relation to refurbishment, rehabilitation or reconstruction of assets to return its desired service levels. It is also referred to as replacement of an asset.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 2023/24	Target 2024/25	Target 2025/26	Target 2026/27	Target 2027/28	Definitions
FM5.3 (Cir88)	Percentage change of repairs and maintenance of existing infrastructure	Finance	New	30%	10%	10%	15%	15%	This indicator measures the extent to which the municipality spent on repairs and maintenance of infrastructure assets. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, secondary costs and etc.
FM5.31 (Cir88)	Repairs and Maintenance as a percentage of property, plant, equipment and investment property	Finance	New	2,0%	2,2%	2,2%	2,8%	2,8%	This indicator measures the extent at which the municipality spent on repairs and maintenance of infrastructure assets relative to its asset base. Repairs and maintenance is a group of accounts consisting of labour costs, material costs, secondary costs and etc.
EE4.4 (Cir88)	Percentage total electricity losses	Technical	New	10,0%	10%	10%	10%	10%	Electricity losses have two components: technical and non-technical. Technical losses occur naturally and consist mainly of power dissipation in electricity system components such as transmission and distribution lines, transformers, and measurement systems. Non-technical losses are caused by actions external to the power system and consist primarily of electricity theft, faulty or inaccurate meters, and errors in accounting and record-keeping. Losses is a measure of unaccounted for energy. Thus non-payment is not included as losses.
TR6.11 (Cir88)	Percentage of unsurfaced road graded	Technical	New	75%	75%	80%	80%	85%	The length of unsurfaced road which has been graded as a percentage of overall unsurfaced road network. Unsurfaced road is understood as a road without a prepared, durable surface intended to withstand traffic volume, usually a tar macadam (asphalt) or concrete surface. Usually dirt, gravel or natural surface. Road "graded" is the process of restoring the driving surface of a gravel or natural surface road to a desired smoothness and shape by removing irregularities such as corrugations and pot holes and redistributing gravel.. Usually dirt, gravel or natural surface. Road "graded" is the process of restoring the driving surface of a gravel or natural surface road to a desired smoothness and shape by removing irregularities such as corrugations and pot holes and redistributing gravel.
TR6.12 (Cir88)	Percentage of surfaced municipal road lanes which has been resurfaced and resealed	Technical	New	1%	1,0%	1,5%	1,5%	2,0%	The distance of surfaced municipal road lanes (class 3-5) in kilometres which has been resurfaced and resealed in relation to the total road lane length. A lane is part of a carriageway that is designated to be used by a single line of vehicles to control and guide drivers and reduce traffic conflicts. Lane widths may vary in width from 3.1m at their narrowest, to 5.5m lanes in higher-order mixed-usage streets. Total municipal road length is measured on a per lane basis, so a road that is four-lanes wide for 1 km has a total network length of 4kms for the purpose of this indicator.

146

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 2023/24	Target 2024/25	Target 2025/26	Target 2026/27	Target 2027/28	Definitions
TR6.13 (Cir88)	KMs of new municipal road network	Technical	New	No Target	2	3	3	3,5	The distance of municipal road network built in kilometres within the municipal area, by the municipality (inclusive of all its departments and implementing agents). This is inclusive of both surfaced and unsurfaced roads built by the municipality. A surfaced road refers to road installed with a durable surface material intended to sustain traffic, usually pavement or concrete. Total municipal road network length is measured irrespective of the road lanes for this indicator.
TR6.2(Cir88)	Number of potholes reported per 10kms of municipal road network	Technical	New	100	100	95	95	90	The indicator measures the number of potholes reported to the municipality normalised for the length of the municipality's surfaced road network. A municipal road network typically consists of residential roads and roads in built-up areas within its borders, that allow for the movement of goods, services and people that are the responsibility of the municipality to maintain. Potholes are defined as a depression in a road surface, usually asphalt pavement, where traffic has removed broken pieces of the pavement. It is usually the result of water in the underlying soil structure and traffic passing over the affected area. This indicator does not count multiple reports of the same pothole at the same location. This indicator is worded such that potholes are counted once and only once they have been reported, signalling awareness of and dissatisfaction with road quality by the public. Each municipality may have different systems or protocols to determine when it receives multiple reports for the same pothole. The Standard Operating Procedure by the municipality for the indicator should be instructive in this regard.
TR6.21 (Cir88)	Percentage of reported pothole complaints resolved within standard municipal response time	Technical	New	90%	90%	92%	92%	93%	The percentage of reported pothole complaints resolved within the standard time, as a percentage of all potholes reported. A reported pothole complaint refers to the report as the incidence, not the number of potholes that may be referred to in a given report. Municipal standard response times and operating procedures for service providers who may undertake this work for the municipality are confirmed at the municipal level in terms of the municipality's standard operating procedure for measuring the indicator.

Strategic Objective: 1.2 Provide for the needs of Informal Settlements through improved services

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 2023/24	Target 2024/25	Target 2025/26	Target 2026/27	Target 2027/28	Definitions
Tec Dir2	Number of subsidised serviced sites developed.	Technical	529	No target	130		50	50	A housing opportunity is incremental access to and or delivery of one of the following Housing products: Incremental Housing which provides a serviced site with or without tenure. A serviced site is being defined as a demarcated site with access to water & sanitation services located adjacent to a road.
Tec Wat 22	Percentage of households in demarcated informal areas with access to a water point (tap)	Technical	100%	95%	97%	97%	97%	97%	This indicator reflects the percentage of households in demarcated informal areas with access to a water point (tap). Access are being defined as households within 200m of a water point (tap). Certain taps may however have been vandalised or removed after provision. Excluding areas that was illegally occupied and not part of the municipalities planning initiatives. Proxy for National KPI.
Tec San 13	Percentage of households in demarcated informal areas with access to a communal toilet facility.	Technical	100%	95%	97%	97%	97%	97%	This indicator reflects the percentage of households in demarcated informal areas with access to a communal toilet facility. Access are being defined as households within 200m of a communal toilet facility. Certain toilets may however have been vandalised or removed after provision. Excluding areas that was illegally occupied and not part of the municipalities planning initiatives. Proxy for National KPI.
ENV 3.11 (Cir88)	Percentage of known informal settlements receiving basic refuse removal services	Technical	90%	90%	90%	90%	90%	90%	The proportion of recognised informal settlements within the municipal area which are receiving at least a basic standard of service for refuse collection and cleaning services.

KEY PERFORMANCE AREA: 2. GOVERNANCE

Strategic Objective: 2.1 Support Institutional Transformation and Development

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
Corp HR13	Percentage budget spent on implementation of Workplace Skills Plan.	Corporate	93%	96%	96%	96%	96%	96%	A Workplace Skills Plan is a document that outlines the planned education, training and development interventions for the organisation. Its purpose is to formally plan and allocate the budget for appropriate training interventions which will address the needs arising out of Local Governments' Skills Sector Plan, the municipality's strategic requirements as contained in the IDP and the individual departmental staffing strategies and individual employees' PDP's. The WSP shall also take into account the Employment Equity Plan, ensuring incorporation of relevant developmental equity interventions into the plan. Kpi measures percentage expenditure of vote allocated towards training needs as arise from WSP. Proxy for National KPI.
Corp HR12	Report on percentage of people from employment equity target groups employed in the three highest levels of management in the municipality.	Corporate	4	4 Reports	4 Reports	4 Reports	4 Reports	4 Reports	Quarterly reports on the percentage of people from employment equity target groups employed in the three highest levels of management in compliance with the municipality's approved employment equity plan. Quarterly report submitted to Municipal Manager. National Key Performance Indicator.
GG1.1 (Cir88)	Percentage of municipal skills development levy recovered	Corporate	New	80%	85%	85%	90%	90%	The indicator is a measure of the R-value of the municipal skills development levy recovered for the financial year as a percentage of the total municipal skills development allocation which the municipality could have claimed. The skills development levy is a levy imposed to encourage learning and development in South Africa as a percentage of the municipal salary bill. The funds are paid to the South African Revenue Service and

									can be recovered on the completion of successful skills development.
GG1.2 (Cir88)	Top management stability	Corporate	New	79%	79%	100%	100%	100%	Top management is defined as Section 56 and 57 Managers, as per the Municipal Systems Act (2000). This refers to the number of working days in which all of the top management positions in the municipality are filled by full-time employees not in an acting position, as a percentage of the total number of possible working days for those positions in a calendar year.
GG1.21 (Cir88)	Staff vacancy rate	Corporate	New	10%	8%	8%	7%	7%	The number of unfilled posts in the municipal organisational structure as a percentage of the total number of employee posts in the municipality's organisational structure. (Only budgeted positions on organigram)
GG1.22 (Cir88)	Percentage of vacant posts filled within 3 months	Corporate	New	80%	85%	85%	90%	90%	The percentage of posts for which an appointment decision has been made within three months of the authority to proceed with filling the post. 'Vacant posts' in this instance, refers to all budgeted posts on the municipal organogram for which a recruitment process has been initiated. A position is considered 'filled' when a recruitment decision is made and an offer of appointment formally accepted by a recruit, regardless of the start date. 'Authority to proceed with filling a post' refers to the point of time at which the relevant official authorises the filling of a vacancy in terms of relevant municipal policies and procedures. This refers to an individual post and does not apply to bulk recruitments.
GG5.11 (Cir88)	Number of active suspensions longer than three months	Corporate	New	2	2	2	2	2	Refers to the total number of active suspensions at the time of reporting that were initiated more than three months prior and had not yet been resolved.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
GG5.12 (Cir88)	Quarterly salary bill of suspended officials	Corporate	New	R0	R0	R0	R0	R0	The sum of the salary bill for all officials suspended from work or employment for the municipality for misconduct during the reporting period.
GG3.12 (Cir88)	Percentage of councillors who have declared their financial interests	Corporate	New	100%	100%	100%	100%	100%	The percentage of all councillors that have declared their financial interests for the financial year being reported against. Financial interests refers to all relevant financial matters or dealings which may create the potential for a conflict of interest.
GG4.1 (Cir88)	Percentage of councillors attending council meetings	Corporate	New	75%	80%	80%	85%	85%	The average percentage of members of the municipal council that attended council meetings.
GG2.31 (Cir88)	Percentage of official complaints responded to through the municipal complaint management system	Corporate	New	90%	92%	92%	93%	93%	The number of official complaints responded to as per the municipality defined norms and standards, as a percentage of the number of official complaints received. A complaint is any formal grievance, concern or issue registered with municipality as per its established systems and protocols. An official complaint, in this instance, should be formally logged within the Municipal Complaints Management System. “Norms and standards” refer to a municipality's agreed ability to respond promptly and appropriately to the complaints from the public, in line with protocols determined by the municipality, whether or not this is consistent with any external guidance or benchmarking. Note that resolution refers to an official municipal response to the complaint and does not provide for a determination of "satisfaction" with the municipal response on the part of the public.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 2021/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
FD1.11 (Cir88)	Percentage compliance with the required attendance time for structural firefighting incidents	Community	New	90%	90%	91%	91%	92%	Structural fire incidents are defined as incidents of fire outbreaks in habitable formal structures (buildings that have approved building plans) and habitable informal structures (informal residential dwellings where no approved building plans exist). The indicator measures the percentage of times that these incidents receive a response within the 14 minute standard. This measure of the attendance time is the difference between the time of call (the time an official call or notice is received at the official call or reporting centre) and the arrival time (refers to the time captured for the first arriving firefighting response unit regardless from where dispatched or regardless of order of dispatch). The indicator therefore measures the number of all incidents where the attendance time was 14 minutes or less as a percentage of all incidents.

Strategic Objective: 2.2 Ensure Financial Stability

FinFAdm10	Financial viability expressed as Debt-Coverage ratio	Finance	431	350	350	350	350	350	This indicator measures debt coverage as (total operating revenue – operating grants received) / debt service payments due within the year. This means the municipality is able to cover its debt service payments from operating revenue excluding grants number of times. Proxy for National KPI.
FinFAdm9	Financial viability expressed as Cost-Coverage ratio	Finance	3,22	2,8	2,8	2,8	2,8	2,8	This indicator measures: (available cash + investments) / monthly fixed operating expenditure. This indicates that with the available cash the municipality is able to pay its fixed

Ref	Key Performance Indicator	Reporting Directorate	Baseline 21/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
									operating expenditure for certain amount of months. Proxy for National KPI.
FinFAdm11	Financial viability expressed outstanding service debtors	Finance	69%	60%	60%	60%	60%	60%	These indicator measure service debtors to revenue (total outstanding service debtors / revenue received for services). This means that a % of revenue in the SFP is still outstanding as at year end. Proxy for National KPI.
LED3.31 (Cir88)	Average number of days from the point of advertising to the letter of award per 80/20 procurement process	Finance	New	150	140	130	120	120	The average number of days from the point of advertising to the letter of award per 80/20 procurement process. An 80/20 procurement process refers to public procurement as per the terms of the Preferential Procurement Regulations in terms of the Preferential Procurement Policy Framework Act for bids where an 80/20 Broad-Based Black Economic Empowerment (B-BBEE) thresholds of between R30 000 and R50 million applies. This would apply to tenders awarded within the financial year, and where disputes to the outcome of the tender process were not raised. This does not apply to requests for quotations.
LED3.32 (Cir88)	Percentage of municipal payments made to service providers who submitted complete forms within 30-days of invoice submission	Finance	New	97%	97%	98%	98%	98%	The percentage of municipal payments made to service providers within 30-days of complete invoice submission. The indicator measures the number of payments made on the basis of invoice submissions to the municipality within the accepted standard of 30 days or less. This measures 30 calendar days from the time of submission of an accurate invoice.
FM1.1 (Cir88)	Percentage of expenditure against total budget	Finance	New	92%	92%	93%	93%	94%	The indicator measures the percentage of expenditure in relation to the municipal budget. Expenditure refers to costs incurred by the municipality in the applicable financial year, inclusive of all capital and operational spending. The municipal budget refers to the municipal

Ref	Key Performance Indicator	Reporting Directorate	Baseline 21/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
									council approved annual budget for a particular financial year.
FM1.11 (Cir88)	Total Capital Expenditure as a percentage of Total Capital Budget	Finance	New	95%	95%	96%	97%	97%	This indicator measures the extent to which budgeted capital expenditure has been spent during the financial year. Capital expenditure is all costs incurred by the municipality to acquire, upgrade, and renew physical assets such as property, plants, buildings, technology, or equipment.
FM1.12 (Cir88)	Total Operating Expenditure as a percentage of Total Operating Expenditure Budget	Finance	New	98%	99%	99%	99%	99%	The indicator measures the extent to which operating expenditure has been spent during the financial year. Operating Expenditure (non-capital spending) is costs which the municipality incurs through its normal operations.
FM1.13 (Cir88)	Total Operating Revenue as a percentage of Total Operating Revenue Budget	Finance	New	94%	94%	95%	95%	96%	The indicator measures the extent of actual operating revenue (excl. capital grant revenue) generated in relation to budgeted operating revenue during the financial year. Operating revenue is revenue generated from sale of goods or services, taxes or intergovernmental transfers
FM1.14 (Cir88)	Service Charges and Property Rates Revenue as a percentage of Service Charges and Property Rates Revenue Budget	Finance	New	94%	94%	95%	95%	96%	The ratio measures the extent of actual Service Charges and Property Rates Revenue generated in relation to budgeted Service Charges and Property Rates Revenue during the financial year. Service Charges includes revenue generated from sale of water, electricity, refuse and sanitation. Property rates includes revenue generated from rates and taxes charged on properties.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 21/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
FM1.21 (Cir88)	Funded budget (Y/N) (Municipal)	Finance	New	Yes	Yes	Yes	Yes	Yes	A municipality considers inputs from the National Treasury and adopts a budget that is funded in line with Section 18 of the MFMA which states that a budget is funded from either revenue realistically to be collected and accumulated cash backed reserves not committed for other purposes. Accumulated cash backed reserves refers to surpluses accumulated from previous years not committed for other purposes. A budget is funded when a municipality reflects a surplus of R0 or more on budget table A8.
FM2.1 (Cir88)	Percentage of total operating revenue to finance total debt (Total Debt (Borrowing) / Total operating revenue)	Finance	New	0,30%	0,30%	0,35%	0,35%	0,40%	The purpose of the indicator is to provide assurance that sufficient revenue will be generated to repay Liabilities. Alternatively, it assesses the municipality's affordability of the total borrowings.
FM2.2 (Cir88)	Percentage change in cash backed reserves reconciliation	Finance	New	0%	0%	0%	0%	0%	The indicator measures the extent to which a municipality increases its reserves and the basis of cash backing of reserves. Data elements, for the purpose of this indicator, are drawn from the data contained in the budget table A8.
FM3.11 (Cir88)	Cash/Cost coverage ratio	Finance	New	3,00	3,00	3,00	3,00	3,00	The ratio indicates the municipality's ability to meet at least its monthly fixed operating commitments from cash and short-term investment without collecting any additional revenue, during that month.
FM3.12 (Cir88)	Current ratio (current assets/current liabilities)	Finance	New						The ratio is used to assess the municipality's ability to pay back its short-term liabilities (Debt and Payables) with its short-term assets (Cash, Inventory, Receivables).
FM3.14 (Cir88)	Liquidity ratio	Finance	New	1,00	1,00	1,00	1,00	1,00	This ratio only considers a municipality's most liquid assets – cash and investments. These are the assets that are most readily available to a municipality to pay short-term obligations. It is a stricter and more conservative measure because

Ref	Key Performance Indicator	Reporting Directorate	Baseline 21/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
									cash and cash equivalent is only used in the calculation.
FM4.2 (Cir88)	Percentage of total operating expenditure on remuneration	Finance	New	32%	32%	32%	32%	32%	The indicator measures the extent of remuneration costs to total operating expenditure. To control this indicator, an organisational review needs to be performed to address duplications and inefficiencies. The municipality needs to implement a proper remuneration policy and performance management system. Remuneration includes employee related costs (permanent and short term contracts) and remuneration for councillors.
FM4.3 (Cir88)	Percentage of total operating expenditure on contracted services	Finance	New	5%	5%	5%	6%	6%	This indicator measures the extent to which the municipality financial resources are committed towards contracted services to perform municipal related functions. Contracted services refers to costs incurred by the municipality in relation to services performed on behalf of the municipality by another agency or personnel. This includes outsourced Services, Contractors and Professional and Special Services.
FM4.3 1 (Cir88)	Creditors payment period	Finance	New	30 days	30	30	30	30	This indicator reflects the average number of days taken for trade creditors to be paid. It is a useful indicator to measure the cash flow or liquidity position of a municipality. Total outstanding creditors is total amount owed (capital and operating expenditure) by the municipality. Section 65 of the MFMA clearly prescribe municipalities to pay all monies owed within 30 days of receiving an invoice.
FM5.1 1 (Cir88)	Percentage of total capital expenditure funded from own funding (Internally generated	Finance	New	43%	42%	42%	40%	40%	The ratio measures the level to which municipality's total capital expenditure is funded through Internally Generated Funds and Borrowings. It also assess the level at which a municipality is able to generate own funds to finance revenue generating assets to enhance and sustain revenue streams.

Ref	Key Performance Indicator	Reporting Directorate	Baseline 21/22	Target 23/24	Target 24/25	Target 25/26	Target 26/27	Target 27/28	Definitions
	funds + Borrowings)								
FM6.13 (Cir88)	Percentage of tender cancellations	Finance	New	30%	25%	25%	20%	20%	This indicator measures the percentage of tender cancellations in relation to the total number of tender business cases that was recorded, advertised and closed.
FinDir3	Achieve an unqualified opinion of the Auditor-General on annual financial statements of the previous year.	Finance	Unqualified	Unqualified	Unqualified	Unqualified	Unqualified	Unqualified	This indicator measures good governance and accounting practices and will be evaluated and considered by the Auditor General in determining his opinion. An unqualified audit opinion refers to the position where the auditor having completed his audit has no reservation as to the fairness of presentation of financial statements and their conformity with General Recognised Accounting Practices.
FM7.11 (Cir88)	Debtors payment period	Finance	New	30 days	30	30	30	30	Net Debtor Days refers to the average number of days required for a municipality to receive payment from its consumers for bills/invoices issued to them for services.
FM7.12 (Cir88)	Collection rate ratio	Finance	New	92%	92%	92%	91%	90%	The ratio measures the revenue collection level of a municipality. It considers the level of increase or decrease of gross debtors relative to annual billed revenue. In addition, in order to determine the real collection rate bad debts written-off is taken into consideration
FM7.2 (Cir88)	Percentage of Revenue Growth excluding capital grants	Finance	New	10%	10%	12%	12%	14%	This Ratio measures the overall Revenue Growth excluding Capital Grants. In addition, this ratio will assist in determining if the increase in Expenditure will be funded by the increased Revenue Base or by some other means.

Strategic Objective: 2.3 To maintain and strengthen relations with international- & inter- governmental partners as well as the local community through the creation of participative structures.

LED2.12	Percentage of the municipality's operating budget spent on indigent relief for free basic services	Finance	New	5,0%	5,0%	5,0%	4,5%	4,5%	The amount municipal operating budget expended on free basic services to indigent households (R-value) as a percentage of the total operating budget of the municipality for the period. Free Basic Services are understood in terms of water, sanitation, electricity and waste removal services only.
LED1.21	Number of work opportunities created through Public Employment Programmes (incl. EPWP, CWP and other related employment programmes)	Community	401	400	405	410	410	410	Simple count of the number of short-term work opportunities provided through the municipality by Public Employment Programmes such as Expanded Public Works Programme, Community Works Programme and other related infrastructure initiatives. EPWP is a nationwide programme covering all spheres of government and SOEs. EPWP projects employ workers on a temporary or ongoing basis with government, contractors, or other non-governmental organisations under the Ministerial Conditions of Employment for the EPWP or learnership employment conditions. The CWP was established to provide an employment safety net to eligible members of target communities by offering them a minimum number of regular days of work each month. The programme targets unemployed and underemployed people. The stipends participants receive supplement their existing livelihood means and provide them with a basic level of income security. The indicator tracks the number of unique work opportunities generated within the quarter, regardless of the duration.

LED1.11	Percentage of total municipal operating expenditure spent on contracted services physically residing within the municipal area	Finance	New	6%	6%	7%	7%	7%	This indicator measures the value of municipal operating expenditure that has been spent on payments to contracted organisations with a physical address within the municipal area as a percentage of the total operating expenditure on payments to all contracted organisations. Contracted services are inclusive of consultancy services, and refer to services rendered by any entity outside of the municipality secured through a public procurement process.
LED3.11	Average time taken to finalise business license applications	Community	New	5 days	5	5	5	5	The indicator measures the average number of working days a business owner can expected to wait from the date of submission of a complete business licence application to the date of outcome of licensing decision from the municipality. Business license applications refer to those businesses registering to operate and do business within the municipal area. A 'complete application' refers to the point at which all of the required administrative information has been supplied, allowing the municipality to proceed with the processing. A 'finalised' application refers to an application where the municipality has taken a decision to approve or deny the application. An application is consider finalised at the point of the decision, regardless of the time between the decision and the communication of the application outcome.

1 Glossary

Adjustments Budgets – Prescribed in section 28 of the Municipal Finance Management Act. It is the formal means by which a municipality may revise its budget during a financial year.

Allocations – Money received from Provincial or National Government or other municipalities.

AFS – Annual Financial Statements

Budget – The financial plan of a municipality.

Budget related policy – Policy of a municipality affecting or affected by the budget.

Capital Expenditure – Spending on municipal assets such as land, buildings, distribution networks, treatment plants and vehicles. Any capital expenditure must be reflected as an asset on a municipality's balance sheet.

Cash Flow Statement – A statement showing when actual cash will be received and spentby the Municipality, and the month end balances of cash and short term investments. Cashreceipts and payments do not always coincide with budgeted income and expenditure timings. For example, when an invoice is received by the Municipality it is shown as expenditure in the month that the services or goods are received, even though it may notbe paid in the same period.

CFO – Chief Financial Officer / Director: Finance

DORA – Division of Revenue Act. An annual piece of legislation indicating the allocations from National Government to Local Government.

Equitable Share – A general grant paid to municipalities. It is predominantly targeted toassist with free basic services.

Fruitless and wasteful expenditure – Expenditure that was made in vain and would havebeen avoided had reasonable care been exercised.

GDFI - Gross Domestic Fixed Investment

GFS – Government Finance Statistics. An internationally recognised classification systemthat facilitates comparisons between municipalities.

GRAP – Generally Recognized Accounting Practice. The new standard for municipalaccounting and basis upon which AFS are prepared.

IDP – Integrated Development Plan. The main strategic planning document of amunicipality.

KPI's – Key Performance Indicators. Measures of service output and/or outcome.

MFMA – Municipal Finance Management Act (No 53 of 2003). The principle piece oflegislation relating to municipal financial management.

MIG – Municipal Infrastructure Grant

MPRA – Municipal Property Rates Act (No 6 of 2004) as amended.

MTREF – Medium Term Revenue and Expenditure Framework as prescribed by the MFMAsets out indicative revenue and projected expenditure for the budget year plus two outer financial years to determine the affordability level. Also includes details of the previous threeyears and current years' financial position.

NT – National Treasury

Net Assets – Net assets are the residual interest in the assets of the entity after deducting all its liabilities. This means the net assets of the municipality equates to the "net wealth" of the municipality, after all assets were sold/recovered and all liabilities paid. Transactionswhich do not meet the definition of Revenue or Expenses, such as increases in values of Property, Plant and Equipment where there is no inflow or outflow of resources areaccounted for in Net Assets.

Operating Expenditure – Spending on the day to day expenses of a municipality such as general expenses, salaries & wages and repairs & maintenance.

Rates – Local Government tax based on assessed valuation of a property. To determine the rates payable, the assessed rateable value is multiplied by the rate in the rand.

RBIG – Regional Bulk Infrastructure Grant

R&M – Repairs and maintenance on property, plant and equipment.

SCM – Supply Chain Management.

SDBIP – Service Delivery and Budget Implementation Plan. A detailed plan comprisingquarterly performance targets and monthly budget estimates.

Strategic Objectives – The main priorities of a municipality as set out in the IDP Budgetedspending must contribute towards achievement of these strategic objectives.

TMA – Total Municipal Account

Unauthorised expenditure – Generally, **s**pending without, or in excess of, anapproved budget.

Virement – A transfer of budget.

Virement Policy - The policy that sets out the rules for budget transfers. Virements are normally allowed within a vote. Transfers between votes must be agreed by Council through an Adjustments Budget.

Vote – One of the main segments into which a budget is divided, usually at departmentlevel.

WM – Witzenberg Municipality

2 Mayors Report

Speaker
Aldermen
Deputy Executive Mayor
Members of the Mayoral Committee
Councillors
Representatives of Provincial Government
Municipal Manager
Directors and officials

It is my privilege to present to you the budget for the 2023/2024 financial year as well as the 2024/2025 to 2025/2026 medium term revenue and expenditure framework.

It remains a challenge to collect sufficient funds for improved service delivery while tariffs must still be affordable to the community. Debt collection will have to improve to make more funds available for capital expenditure for much needed maintenance and replacement of aging municipal infrastructure. The level of outstanding debt was also highlighted in the Audit Report. Strict credit control and stewardship from council will have to improve to enhance our ability to collect what is due to the municipality.

The collection rate of the municipality has i n creased from 88% to 90%. This is still below the norm of 94%. We believe that the collection rate will rise again as we have started to implement credit control measures and have thus estimated that the budgeted collection rate for the new financial year will reach 92%. The collection rate is under pressure as no new business or expansions of current businesses can be allowed due to the inability of Eskom to increase the electricity supply to the municipal area. The ongoing load shedding have a negative effect on the financial sustainability of businesses, which are the main sources of job creation in the municipal area. We experience an alarming decrease in electricity sales that can only be attributed to load shedding.

The inability to implement credit control measures in the Eskom supply areasof Op-Die-Berg & Prince Alfred's Hamlet is of great concern. Strategic engagements with Eskom will be required to unlock the potential revenue collection. National revenue sourcessuch as the Equitable Share is decreasing and this will urge the municipality to explore other potential sources of income.

It is estimated that 19 293 households receive basic services from the municipality. Of these households 5 807 lives in informal areas where services need to be delivered, these households are not billed for services. The current indigent register has 3 024 households listed. The remainder of 10 463 households are billed for services. A recovery rate of 90% indicate that a maximum of 9 416 of the 19 293 households pay for the services delivered by the municipality.

It will be of utmost importance that we collectively strive to ensure that at all times we receive value for money on every rand spent from the municipal coffers. We must ensure radical constitutional economic growth to expand billable services. It must also be noted that Capital expenditure funded from our own resources and expenditure on repairs and maintenance is very limited due to a limited to no increase in cash and cash equivalents over the past 3 year.

The municipality cash and cash equivalents is only sufficient to cover expenditure for about 3 months. A balance must be found between improving the available cash and cash equivalents and spending money on service delivery.

Community Relief Initiatives

The following financial relief to the community was introduced in previous budgets. These reliefs have contributed tremendously to the economic upliftment of the citizens of our valley. We continuously strive to increase these package of financial relief but are constraintby the limited financial resources to implement the necessary relief to all citizens. We have so far implemented the below:

- The Indigent policy's qualifying criteria has been amended to only include the income of the property owner or account holder and his or her spouse.
- Households earning between R3 000 and R5 000 rand may qualify for a rebate equal to 50% of the normal indigent subsidy
- A pensioner's rebate in terms of Property Rates.
- A general exemption of on the first R150 000 of residential property as previous.

The capital budget

The capital budget for the next financial year amounts to R 71.6 million of which R 15.6 million is from own revenue. The rest of the capital budget is financed from Grants of R 46.7 million and a proposed external loan of R9 million.

As can be seen from the aforementioned, the municipality is too reliant on Grants to fund its capital expenditure. That said we are thankful for the Grants allocated to Witzenberg Municipality.

The bulk of the proposed capital expenditure is in respect of service delivery and infrastructure.

The operating budget

The operating revenue budget for next year amounts to R 903 million of which R 692 million is from own revenue. The rest of the operating budget is financed from Grants.

Tariff implications of the annual budget

Electricity:

The increase in electricity tariffs will be 18.49% for all customers. NERSA approved an 18.6% tariff increase for Eskom, the increase for municipalities are expected to be 18.49% as the increase is only applicable from 1 July.

Water:

The water consumption tariff increase will be ± 6% for all consumers.

Rates:

The increase of Property Rates Revenue will be 6%. The following ratios will be applicable:

Categories	**Ratio in relation to residential Property**
Residential Property:	
Bona Fide residential	1:1
Business / Commercial property:	1:2.75
Industrial Property	1:2.75
Agricultural Properties:	
Bona Fide Agricultural	1:0.25
Other Agricultural Properties	1:2.75
Public Service Purposes	1:2.75
Vacant Land	1:2.75
Public Service Infrastructure	1:2.75
Public Benefit Organisations	1:0.25
Building clauses	1:2.75

The ratios are amended to minimise the impact of the new valuation roll on the different categories of property owners.

Sanitation:

The increase of Sanitation Tariffs will be 6%.

Refuse removal:

The average tariff increase for Refuse Removal Tariffs will be 6%.

Tabling:

Honourable Speaker, I hereby table the annual budget, budget related policies, tariffs and the reviewed Integrated Development Plan.

ALDERMAN HJ SMIT
EXECUTIVE MAYOR

3 Draft Resolutions

(a) That the annual budget of Witzenberg Municipality for the financial year 2023/2024; and indicative for the two projected years 2024/2025 and 2025/2026, as set out in the schedules contained in Section 4, be approved:

(i) Table A2: Budgeted Financial Performance (expenditure by standard classification).

(ii) Table A3: Budgeted Financial Performance (expenditure by municipal vote).

(iii) Table A4: Budgeted Financial Performance (revenue by source).

(iv) Table A5: Budgeted Capital Expenditure for both multi-year and single year by vote, standard classification and funding.

(b) Property rates reflected in Annexure 8.1.8(c) and any other municipal tax reflected in Annexure 8.1.8(c) are imposed for the budget year 2023/2024.

(c) Tariffs and charges reflected in Annexure 8.1.8(c) are approved for the budget year 2023/2024.

(d) The measurable performance objectives for revenue from each source reflected in Table A4 - Budgeted Financial Performance (revenue and expenditure) are approved for the budget year 2023/2024.

(e) The measurable performance objectives for each vote reflected in SA8 are approved for the budget year 2023/2024.

(f) That the new amended budget related policies be approved with implementationas from 1 July 2023:

(i) Tariff Policy

(ii) Property Rates Policy

(iii) Credit Control and Debt Collection Policy.

(iv) Cash Management and Investment Policy

(v) Consumer Payment Incentive Policy.

(vi) Municipal Supply Chain Management Policy.

(vii) SCM Policy for infrastructure Procurement.

(viii) Preferential Procurement Policy.

(ix) Petty Cash Policy

(x) Indigent Policy

(xi) Budget Policy

(xii) Budget Virement Policy

(xiii) Asset Management Policy

(xiv) Funding and Reserves Policy

(xv) Cellular telephone and data card policy

(xvi) Borrowing Policy

(xvii) Long Term Financial Plan Policy

(xviii) Transport, Travel and Subsistence Allowance

(xix) Post-Employment Medical Aid Contributions

(xx) Infrastructure Investment Policy

(xviiv) Cost Containment Policy

(g) That the reviewed Integrated Development Plan be approved

(h) That Council takes cognisance of the budget circulars issued by National Treasury and Provincial Treasury. (Only for noting)

(i) That Council takes cognisance of the Top Layer SDBIP

4 Executive Summary

Economic outlook

The National Treasury projects real economic growth of 5.3 per cent in 2023, following an expected growth estimate of 4.4 per cent in 2022. Real GDP growth is expected to moderate to 0.9 per cent in 2023. Over the next 3 years, GDP growth is expected to average 1.4 percent.

The economic outlook faces a range of risks, including weaker-than-expected global growth, further disruptions to global supply chains and renewed inflationary pressures from the war in Ukraine, continued power cuts and a deterioration in port and rail infrastructure, widespread criminal activity, and any deterioration of the fiscal outlook. Government is taking urgent measures to reduce load-shedding in the short term and transform the sector through market reforms to achieve long-term energy security. Several reforms are under way to improve the performance of the transport sector, specifically freight rail and to improve the capability of the state

The main risks to the economic outlook are weaker-than-expected growth, continued deterioration in the public finances and a failure to implement structural reforms. Electricity remains a binding constraint on economic recovery, with power interruptions expected to continue into 2023.

These factors may jeopardize South Africa’s prudent macroeconomic and fiscal policies, which include inflation targeting and a flexible exchange rate, the local economy’s ability to adjust to global volatility and the stable investment platform.

The Russia-Ukraine War continues to have a negative impact on key global markets. Fruit Exports in the Witzenberg Region has also been negatively affected and this may pose a real risk to job security in the area.

The municipality’s notional maximum demand (NMD) ceiling has also been reached and this is hampering its ability to attract investments to the municipal area. Continued talks are underway with Eskom to increase Witzenberg Municipality’s NMD.

Population statistics suggest that the municipality has experienced a steep increase in population during the past 10 years. The expansion of Informal settlements within the municipal area supports this argument and this places pressure on the municipality to provide basic services within these areas.

The municipality followed a conservative approach for projecting revenue. The municipality will have to

improve their efforts to limit non-priority spending and to implement stringent cost-containment measures. South Africa's economy is increasingly vulnerable to a recession in the next 12 months, with an ongoing electricity crisis seen further curbing activity.

The probability of a recession stands at 68% in February 2023, up from odds of 45% in January 2023, according to various news agencies, based on economist polls conducted in February 2023.

Past performance

Witzenberg Municipality has now attained ten consecutive clean audit reports. Whilst the reports are very positive achievements one has to be honest and say that it tells the reader little about whether we have improved service delivery or even delivered on our constitutional mandate. What they do say is that the Council is reasonably honest in its operations to tax and spending on behalf of the local population.

Budget Summary

The Municipality's 2023/2024 budget amounts to R 983 million, represented by a CapitalBudget of R 71 million and an Operating Budget of R912 million.

The total 2023/2024 budget (operating and capital) will be financed from own income R 692 million, Government Grants R 212 million. Debt Impairment is estimated at R64 million

Revenue / tariff increases

- The increase of Property Rates Revenue will be ± 6%.
- The increase of Water Consumption Tariffs will be ± 6%
- The increase of Sanitation Tariffs will be 6%.
- The average tariff increase for Refuse Removal Tariffs will be 6%.
- The tariff increase for Electricity Tariffs will be 18.49%

Expenditure category increases

The budgeted increase in expenditure categories are as follows:

Expenditure by Type	**2022/2023**	**2023/2024**	**Increase**
	R'000	R'000	R'000
Employee related costs	203 981	232 587	14%
Job Creation	4 302	9 683	125%
Post-Employment Provisions	32 287	21 221	-34%
Remuneration of councilors	12 108	11 983	-1%
Depreciation & asset impairment	52 989	54 369	3%
Bulk purchases	314 411	360 544	15%
Debt Impairment	61 230	64 475	5%
Repairs & Maintenance	28 377	31 148	10%
Operational Projects	7 116	5 286	-26%
General Expenses	59 625	59 389	0%
Vehicle Expenditure	15 456	17 134	11%
Housing Top Structures	5 000	6 665	33%
Other Contracted Services	30 729	37 903	23%
TOTAL	**827 608**	**912 387**	**10%**

The increase in salary expenditure in based on an expected increase of 5.4% CPI as well as the notch increase of 2.5% for qualifying employees. This is in line with the new wage agreement. The municipality has also limited the budget for Overtime & Standby expenditure and expenditure on these items will be closely monitored.

It is estimated that the increase in bulk purchases will be 18.49%.

The financing of capital expenditure from own funds (CRR) totals R 15.6 million. This amount is earmarked to address specific infrastructural capital investment aligned to IDP focus areas. This level is considered to be affordable over the MTREF 3-year period.

Capital investment funding from Capital Grants represents a significant portion (65%) of the Municipality's Capital Budget in 2023/2024 and consist mainly of the Provincial Housing Grant, Public Transport Infrastructure Grant and the Municipal Infrastructure Grant (MIG).

The 2023/2024 Budget was compiled in terms of the Municipal Budget and Reporting Regulations and a phased-in process will be followed to include all information regarding the tables and supporting documentation.

Financial position and MTREF strategy

The financial position of Witzenberg Municipality is set out in Table A6: Budgeted Financial Position.

Integrated Development Plan & Priorities

The Strategic priorities as per the IDP I is available in Supporting Table SA4 Reconciliation of IDP strategic objectives and budget (revenue), Supporting Table SA5 Reconciliation of IDP strategic objectives and budget (operating expenditure) and Supporting Table SA6 Reconciliation of IDP strategic objectives and budget (capital expenditure).

Effect of the annual budget

The annual budget for 2023/2024 to 2025/2026 is disclosed in detail in 'Section 4: Annual budget tables' and in 'Annexure 2: Supporting budget tables'. Each of the summarised sections below is discussed in more detail later in this document.

Financial performance

The revenue by source for medium term revenue and expenditure framework can be summarized as follows:

Revenue by source	**2022/2023**	**2023/2024**	**Increase**
	R'000	R'000	R'000
Property Rates	108 503	113 917	5%
Service Charges: Electricity	341 246	403 471	18%
Service Charges: Water	53 649	56 887	6%
Service Charges: Waste Water	37 094	38 703	4%
Service Charges: Waste Management	43 839	46 173	5%
Indigent Rebate	-39 191	-36 601	-7%
Other Revenue	68 601	76 437	11%
Transfers and Subsidies	228 295	204 964	-10%
TOTAL	**842 037**	**903 952**	**7%**

The National, Provincial and District Context

The Municipality's budget must be seen within the context of the policies and financial priorities of National and Provincial Government as well as the district municipality. In essence, the spheres of Government are partners in meeting the service delivery challenges faced in Witzenberg Municipality. The Municipality alone cannot meet these challenges and we require support from the other spheres of Government through the directand indirect allocation of resources as well as the achievement of their own policies.

The following table shows the allocations to Witzenberg Municipality as set out in the National Division of Revenue Bill.

NATIONAL ALLOCATIONS	2023/2024	2024/2025	2025/2026
	R'000	R'000	R'000
UNCONDITIONAL GRANTS			
EQUITABLE SHARE	135,729	149,824	166,319
CONDITIONAL GRANTS INFRASTRUCTURE			
MIG	26,051	27,072	28,136
INEP	3,900	1,000	1,000

6 Overview of the Budget Process

6.1 Political oversight of the budget process

Section 53 (1) of the MFMA stipulates that the mayor of a municipality must provide general political guidance over the budget process and the priorities that guide the preparation of the budget.

Section 21(1) of the MFMA states that the Mayor of a municipality must coordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible.

Furthermore, this section also states that the Mayor must at least 10 months before the start of the budget year, table in municipal council, a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget.

This time schedule provides for political input from formal organizations such as portfolio Committees.

6.2. Schedule of Key Deadlines relating to budget and IDP process [MFMA s 21(1) (b)]

The IDP and Budget time schedule of the 2023/2024 budget cycle was adopted by Council during August 2022, 10 months before the start of the budget year in compliance with legislative directives.

The IDP and Budget Process Plan ensure that the role-players within the process are well prepared. All activities outlined within this document have been prepared in close inter-relation with the Framework that governs both the District and all local municipalities.

Public budget and IDP meetings will be held throughout Witzenberg and all members of the public are urged to attend.

6.3. Process used to integrate the review of the IDP and preparation of the Budget

Updating the IDP and Budget is an evolving and re-iterative process over a 10-month period. The initial parallel process commenced with the consultative process of the IDP in 2022 and the update of the MTREF to determine the affordability and sustainability framework at the same time.

6.4. Process for consultation with each group of stakeholders and outcomes

Following tabling of the draft budget in March 2023, local input has been solicited via notices published in the media and budget meetings held in the different towns. The budget documentation was also made available on the municipal website: witzenberg.gov.za

The majority of the comments from the community relates to service delivery issues which has already been included in the budget, subject to financial affordability. The rest of the inputs is already part of the IDP process and will, subject to financial affordability, be included in future budgets.

6.5. Stakeholders involved in consultations

The tabled budget was provided to National Treasury and Provincial Treasury in March/April 2023 for their consideration in line with S23 of the MFMA. Comments on the budget were received via Provincial treasury's SIME engagement and its overall assessment concluded that the budget is funded.

6.6. Process and media used to provide information on the Budget to the community

The Municipality's consultation process on its draft IDP and budget was published in the relevant media during April/May 2023, where input from various stakeholders were requested.

6.7. Methods employed to make the Budget document available (including websites)

In compliance with the Municipal Finance Management Act and the Municipal Systems Act with regards to the advertising of Budget Documents (including the Tariffs, Fees and Charges for 2023/2024), advertisements were placed in the media. The information relating to budget documentation was displayed at the notice boards in the municipal offices as well as libraries.

In compliance with S22 of the MFMA, the Budget documentation was published on the municipality's website.

7 IDP Overview and Amendments

- **VISION**

A Municipality that cares for its community, creating growth and opportunities

- **MISSION**

The Witzenberg Municipality is committed to improve the quality of life of its communityby:

- Providing and maintaining affordable services.
- Promoting Social and Economic Development
- The effective and efficient use of available resources
- Effective Stakeholder and Community participation

- **VALUE SYSTEM**

- Driven by the aspirations of our Community, we will respect and uphold the Constitution of the Republic of South Africa.
- We commit ourselves to the Code of Conduct for Councillors and officials in the Municipal Systems Act.
- We commit ourselves to the principles of sound financial management.

- **Alignment with Provincial and National Government**

Witzenberg Municipality's development plan needs to align with National and Provincial initiatives to ensure optimal impact from the combined efforts of government. In this regard there are six critical elements: Accelerated and Shared Growth-South Africa (ASGI-SA), National Spatial Development Perspective (NSDP), National Strategy for Sustainable Development (NSSD), Provincial Growth and Development Strategy (PGDS) andProvincial Spatial Development Framework (PSDF).

All these feed into and influence the Integrated Development Plan.

- **Witzenberg Municipality Budget Priorities (Key Performance areas)**

The Municipality's 2023/2024 to 2025/2026 integrated development plan focuses on four strategic focus areas. The concrete objectives for each strategic focus area have been outlined and elaborated on. These objectives will be used to further develop key performance

indicators against which performance implementation monitoring andreporting will be done. The corporate scorecard outlines these indicators and targets.

The four focus areas are:

- Essential Services
- Governance
- Communal Services
- Socio-Economic Support Services

8 Measurable performance objectives and indicators

(a) KEY FINANCIAL INDICATORS AND RATIOS

Information regarding key financial indicators and ratios are provided on Supporting Table SA8.

(b) MEASURABLE PERFORMANCE OBJECTIVES

Information regarding revenue is provided as follows:

Revenue for each vote - Table A3 Budgeted Financial Performance (revenue and expenditure by municipal vote)

Revenue for each source - Table A4 Budgeted Financial Performance (revenue and expenditure)

Provision of free basic services:

(i) Cost to the Witzenberg Municipality in rand value for each of the free basic services provided to indigent households:

	2023-2024	2024-2025	2025-2026
DESCRIPTION	**R'000**	**R'000**	**R'000**
Property rates	1 050	1 113	1 180
Water	3 887	3 939	3 993
Sanitation	10 658	11 297	11 975
Electricity	4 378	5 022	5 911
Refuse	9 114	9 661	10 241
Total	**29 087**	**31 032**	**33 299**

More detail is provided in Table A10 Basic service delivery measurement,

(ii) Level of service to be provided

The first R 150 000 of the municipal valuation of property in Town areas are exempt from property rates.

Indigent households will receive 50 kWh of electricity and 6 kilolitre of water per month while their basic charges for water refuse and sewerage will be subsidized.

(iii) Number of households to receive free basic services

There is budgeted for 3 000 households that will receive 50 kWh electricity per month as well as 6 kilolitre water per month. Provision has also been made for households earning between R3000 and R5000 which may qualify for 50% of the indigent subsidy

A further 5 807 households in informal areas receive all services excluding electricity free of charge.

9 Overview of Budget Related Policies and Amendments

The following budget related policies are tabled with the budget documentation for comments and inputs:

Budget Policy
Tariff Policy
Property Rates Policy
Credit Control and Debt Collection Policy
Cash Management and Investment Policy

Consumer Payment Incentive Policy
Petty Cash Policy
Indigent Policy
Budget Virement Policy
Asset Management Policy
Funding and Reserves Policy
Borrowing Policy
Cellular the phone and data card policy
Municipal Supply Chain Management Policy
Preferential Procurement Policy
Long Term Financial Plan Policy
Transport- travel- and subsistence allowance Policy
Post-Employment Medical Aid Contribution Policy
Infrastructure Investment Policy

Policies will be available at libraries in the municipal area and the website of the municipality.

The budget related policies were reviewed by management. The amendments recommended are explained below:

BUDGET POLICY

The aim of the policy is to set out the principles which the municipality will follow in preparing each medium term revenue and expenditure framework (budget) and the responsibilities of the mayor and officials.

No amendments are recommended.

TARIFF POLICY

The Municipal System Act requires Council to adopt a Tariff Policy. The general financial management functions covered in section 62 of the MFMA includes the implementation of a tariff policy. Specific legislation applicable to each service has been taken into consideration when determining this policy.

It is recommended that a paragraph be added to provide for the levying of deposits to cover possible damages losses or to cover expenses incurred due to the actions of the applicant.

PROPERTY RATES POLICY

A new Rates Policy is included in the budget documentation to give effect to the amendments of the Municipal Property Rates Act (No 6 of 2004) and to provide for rates to be levied in terms of the new general valuation.

The policy guides the annual setting of property rates.

It is recommended that the rebate in terms of section 12.3 for residential property be adjusted from R120 000 to R150 000. Thus, the Municipality will not levy a rate on the first value up to R 150 000 of the market value of Residential Property.

CREDIT CONTROL AND DEBT COLLECTION POLICY

This Policy has been formulated in terms of section 96 (b) and 98 of the Local Government: Municipal Systems Act, 2000 and the Credit Control and Debt Collection By-Law.

No amendments are recommended.

CASH MANAGEMENT AND INVESTMENT POLICY

The underlying cash is managed and invested in accordance with the Municipality's approved Cash Management and Investment Policy, which is aligned with National Treasury's municipal investment regulations dated 01 April 2005.

No amendments are recommended.

CONSUMER PAYMENT INCENTIVE POLICY

The purpose of the policy is to encourage residents of Witzenberg to pay for services and also to promote the culture of payment amongst its citizens.

Amendments recommended:

Verified debt as at 30 June 2021 to be "parked" and written-off in instalments as the conditions are met. Verified debt accrued after 1st July 2021 to be dealt with via an acknowledgement of debt and arrangement for payment by the participant.

PETTY CASH POLICY

The policy provides for the cash purchases up to a transaction value of R 2 000.00

No amendments are recommended.

INDIGENT POLICY

The aim of the policy is to ensure a sound and sustainable manner to provide affordable basic services to the poor by means of assisting them financially within the legal framework of the powers and functions of the municipality in order to improve the livelihood, in an effort to create a prosperous municipality free of poverty.

The following amendments are recommended:

That the definition of bond expenditure to be added:

“Monthly interest and redemption payments on a bond registered in the name of the head of the family, his or her spouse on condition that the applicant(s) occupies the house.”

Add paragraph 6.1.5.1

6.1.5.1 The household income as per paragraph 6.1.5 may be reduced with the monthly bond expenditure.

Amend paragraphs 7.1 and 7.2 to the following:

7.1 Households with a joint monthly gross income less bond cost, not exceeding R 3,000.

7.2 Households with a joint monthly gross income less bond cost, between R 3,000 and R 5,000.

BUDGET VIREMENT POLICY

National Treasury has advised municipalities to implement a Virement policy to ensure that funds can be shifted for of operational requirements to ensure that service delivery is not hampered.

No amendments are recommended.

ASSET MANAGEMENT POLICY

The aim of the policy is to ensure that the assets of the municipality are properly managed and accounted for.

FUNDING AND RESERVE POLICY

In terms of section 8 of the Municipal Budget and Reporting Regulations each municipality

must have a funding and reserves policy.

The policy aims to set standards and guidelines towards ensuring financial viability over both the short- and long term and includes funding as well as reserves requirements.

No amendments are recommended.

BORROWING POLICY

The policy aims to set out the objectives, statutory requirements as well as guidelines for the borrowing of funds.

No amendments are recommended.

CELLULAR TELEPHONE AND DATA CARD POLICY

The policy aims to curb the expenditure on cellular telephones by setting maximum expenditure levels and providing processes to approve and/or recover expenditure above the levels.

It is recommended that the benefits in terms of the policy be updated to be market related.

MUNICIPAL SUPPLY CHAIN MANAGEMENT POLICY

Section 111 of the MFMA requires each Municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act. The Municipality's Supply Chain Management Policy was approved by Council.

It is proposed that paragraph 48 (9) be added to the policy in terms of National Treasury circular 62:

"48 (9) Management of expansion or variation of orders against the original contract

The accounting officer may expand contracts by not more than 20% for construction related goods, services and/or infrastructure projects and 15% for all other goods and/or services of the original value of the contract."

PREFERENTIAL PROCUREMENT POLICY

The purpose of this policy is to provide for categories of preference in awarding of bids and to provide for the advancement of persons or categories of persons disadvantaged by unfair discrimination.

No amendments are recommended.

LONG TERM FINANCIAL PLAN POLICY

The long term financial plan policy integrates the financial relationships of various revenue and expenditure streams to give effect to the Integrated Development Plan.

No amendments are recommended.

TRAVEL MANAGEMENT POLICY

This policy applies to all Councillors and employees of Witzenberg Municipality who are travelling on official business.

It is recommended that the Travel management policy and the Transport Travel and Subsistence allowance policies be combined to reduce confusion.

POST-EMPLOYMENT MEDICAL AID CONTRIBUTION POLICY

The purpose of this policy is to determine guidelines for the management of contributions to medical aids, post-employment and to determine whether an employee is entitled to the post-employment medical aid benefit.

No amendments recommended

INFRASTRUCTURE INVESTMENT POLICY

This policy sets out the process and methodology for capital investment of any nature, regardless of the funding source.

No amendments are recommended.

10 Overview of Budget Related By-Laws and Amendments

No amendments to any By-Laws are recommended.

11 Overview of Budget Assumptions

Expenditure

Salaries and Allowances

Provision has been made for a 5.4 % increase in salaries plus an additional notch increase (2.5%) for qualifying employees

Provision has been made for a 6% increase in councillor allowances, the councillorallowances is subject to approval by the National Minister.

General expenditure

It is assumed that costs for services will increase in line with the CPIX. The current oil price is a concern and it is expected that the fuel price hikes will have a substantial effect on expenditure. It is also assumed that the capital projects for 2023/2024 will be completed during the financial year as there were budgeted for the depreciation of such projects asper general recognized accounting practice (GRAP). Depreciation on new capital expenditure is calculated at a varying rate ranging between 3 and 100 years depending on the nature of the asset.

Repairs and Maintenance

It is assumed that municipal infrastructure and assets will be maintained as per previousyears and that no major breakages will take place during the financial year.

Capital costs

It is assumed that interest rates will be stable during the financial year, but the provision for capital has not been decreased.

Bulk Purchases

It is assumed that electricity tariffs of Eskom will increase by 20.7% as from 1 July 2023,as approved by NERSA.

The NERSA Tariff Guidelines for municipalities has not been received but it is envisaged that the bulk cost increase will be adjusted to 20.7% for the final budget for consideration.

Income

Households

It is assumed that the total households in the municipal area (the tax base) will stay stable

during the financial year. The new RDP houses to be built will be for the benefit of families residing in informal areas. The total number of households is thus not expected to increase. Care must be taken that the informal structures are removed as soon as the beneficiaries moved to the new houses.

Collection rate for municipal services

It is assumed that the collection rate (percentage of service charges recovered) for the financial year will be the same as the current payment rate.

In accordance with relevant legislation and national directives, the estimated revenue recovery rates are based on realistic and sustainable trends. The Municipality's collection rate is set at an average of 92%. Adequate provision is made for non-recovery.

Grants

It is assumed that the National and Provincial grants as per Division of Revenue Act (DORA) which has been included in the budget will be received during the 2023/2024 financial year.

Indigents

It is assumed that the number of indigents will increase to an estimated 5000 during the financial year due to Covid-19 pandemic. This significant increase is also due the additional rebate the municipality is offering to households earning between R3 000 and R5 000

Efficiencies and cost containment measures

The municipality is committed through its applications and strengthening of its existing internal controls, policies and through the use of technology to ensure that the resources at its disposal will be used to the best of its ability. Cost containment measures has been implemented and operational expenses such travelling cost, catering services and consultant services are managed within the parameters of the Cost containment measures.

12 Overview of Budget Funding

Summary

The operating budget for 2023/2024 will be financed as follows:

	2022/2023	**2023/2024**	**Increase**
	R'000	R'000	R'000
Charged for electricity, water, refuse and sewerage	436 637	508 634	16%

Property Rates	108 503	113 917	5%
Provincial and National Operating Grants	143 981	157 615	9%
Sundry charges / Other	68 601	76 437	11%
Total Operating Revenue excl. Capital Transfers	**757 723**	**856 603**	13%

The capital budget for 2023/2024 to 2025/2026 will be financed as follows:

	2023/2024	**2024/2025**	**2025/2026**
	R'000	R'000	R'000
Own Funds (Capital Replacement Reserves)	15 923	16 400	19 930
Grants	46 744	23 541	24 942
Borrowing	9 000	-	-
Total Capital Budget	**71 664**	**39 941**	**44 872**

Reserves

All the reserves of the municipality are not cash funded. The process to accumulate sufficient funds is a long term process as tariff increases must be kept to a minimum, and service delivery must be continued.

Sustainability of municipality

The way that the budget is funded will ensure that the municipality will be sustainable on the short term. The full effect of huge increases in electricity tariffs may on the long run impact negatively on the sustainability of the municipality. This is a huge concern for the municipality and the municipality has no control over the increases approved by NERSA.

Impact on rates and tariffs

The way that the budget is funded will ensure that, except for electricity, refuse removal and water tariffs, service tariff increases will be ± 6%. Property rates revenue will increase with ± 6%. The municipality has no control over the increases of electricity tariffs and the proposed 20.7% increase in electricity tariffs is subjected to NERSA approval.

<u>Property valuations, rates, tariffs and other charges</u>

The rates tariffs as well as tariffs for electricity, water, refuse, sewage together with the sundry tariffs are listed in Section B – Tariffs. The tariff increases are also indicated.

Collection Rate

Income levels for service charges and rates for the budget year were based on the following revised collection rates:

Rates	86.0%
Electricity	99.0%
Water	70.0%
Sanitation	77.0%
Refuse	70.0%

Planned savings and efficiencies

The following areas were identified for possible savings after the efficiency of the usage ofthe assets/services has been evaluated:

- Overtime
- Standby
- Operational Cost
- Contracted Services
- Materials & Supplies

Contributions and donations received

There was not budgeted for any contributions and donations to be received.

Planned proceeds of sale of assets

The municipality envisage no sale of fixed property during the 2023/2024 financial year.

Planned use of previous year's cash backed accumulated surplus

Where cash backed accumulated surplus is available, the municipality will utilize it to fund the budget.

Particulars of existing and any new borrowing proposed to be raised

Borrowing of R9 million is proposed for funding of capital expenditure relating to solid

waste management infrastructure. This expenditure is rolled over from the 2022/2023 budget.

13 Expenditure on allocations and grant programs

Particulars of budgeted allocations and grants

Please refer to Supporting Table SA19: Expenditure on transfers and grant programs.

14 Allocations or grants made by the Municipality

Please refer to Supporting Table SA21 Transfers and grants made by the municipality.

15 Councillor allowances and employee benefits

Costs to Municipality:

Councillors allowances – Budgeted amounts

Position	**2023/2024 R**
Speaker (1)	713,001
Executive Mayor (1)	816,510
Deputy Executive Mayor (1)	730,797
Executive Committee (4)	2,612,034
Chairperson MPAC (1)	411,299
Other councillors (15)	6,699,457
TOTAL	**11,983,098**

Senior Managers (Including performance bonus provision) (budgeted amount)

Position	**2023/2024 R**
Municipal Manager	1 958 600
Director: Corporate Services	1 601 060
Director: Community Services	1 601 060
Director: Technical Services	1 601 060
Chief Financial Officer	1 601 060
TOTAL Senior Management	**8 362 838**
All other staff	**255 127 784**

Number of Councillors: 23

Number of Senior Managers employed: 4

(Vacancy: Director Community Services)

Details of employee numbers can be obtained on Supporting Table SA24: Summary of personnel numbers.

16 Monthly targets for revenue, expenditure and cash flow

The monthly targets for revenue and expenditure are provided in Supporting Table SA25 Budgeted monthly revenue and expenditure.

The monthly targets for cash flows are provided in Supporting Table SA30 Budgeted monthly cash flow.

17 Capital spending detail

Information/detail regarding capital projects by vote is provided in Supporting Table SA36: Detailed capital budget.

NB: Once in a quarter the hall may be utilised, without charge, by political parties that are represented in Council, for their political meetings with the community. The political party concerned must however present its intent to the Municipal Manager, and consent is subject to the availability of the facility. Priority will be given to the order in which applications are received.
NB: The Municipal Manager may use his discretion to offer a hall free of any charge to Youth-, Service-, Charity-, Community-, Sport-, Educational- and State Institutions, and Senior Citizens.

		6.4.2.5	**Temporary connection**								
			Temporary connections are supplied at the tariffs mentioned in 4.2.4 for a single phase connection, and at actual cost for a three phase connection. The cost or tariff payment is deemed as a deposit. On termination of the account, the deposit is refunded after the cost of consumption, any damage to the equipment, and a 20 % administrative charge have been recovered. The connection is supplied in accordance with the Municipality's Electricity by-laws, as amended.

10.4 Communication by municipal entities to National Treasury 25

Introduction

This budget circular provides guidance to municipalities with their compilation of the 2023/24 Medium Term Revenue and Expenditure Framework (MTREF). It is linked to the Municipal Budget and Reporting Regulations (MBRR) and the Municipal Standard Chart of Accounts *(m*SCOA), and strives to support municipalities' budget preparation processes so that the minimum requirements are achieved.

Among the objectives of this budget circular is to demonstrate how municipalities should undertake annual budget preparation in accordance with the budget and financial management reform agenda by focussing on key "game changers". These game-changers include ensuring that municipal budgets are funded, revenue management is optimised, assets are managed efficiently, supply chain management processes are adhered to, *m*SCOA is implemented correctly and that audit findings are addressed.

Municipalities are reminded to refer to the annual budget circulars of the previous years for guidance in areas of the budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

The National Treasury forecasts real economic growth of 1.9 per cent in 2022, compared with 2.1 per cent projected in the 2022 Budget Review, in response to global and domestic shocks. Growth is projected to average 1.6 per cent from 2023 to 2025. Implementing structural reforms, especially in the energy sector, remains crucial to improve the economy's productive capacity and competitiveness.

The recovery in economic activity that began in 2021 was driven by a strong rebound in global economic activity, high commodity prices and easing COVID-19 restrictions. The scarring impact of the pandemic on employment and investment decisions will likely weigh on the recovery over the medium term. Investment remains well below pre-pandemic levels.

The economy grew by 1.4 per cent in the first half of 2022 compared with the first half of 2021. Real GDP grew more than expected in the first quarter of 2022, with output returning to pre-pandemic levels. However, a deteriorating global environment, flooding in KwaZulu-Natal and the Eastern Cape, industrial action in the electricity and mining sectors, and prolonged and intense power cuts resulted in a broad-based contraction across most sectors during the second quarter. The third quarter was marked by frequent and prolonged power cuts, which significantly disrupted economic activity.

The following macro-economic forecasts must be considered when preparing the 2023/24 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2021 - 2026

Fiscal year	2021/22	2022/23	2023/24	2024/25	2025/26
	Actual	Estimate	Forecast		
CPI Inflation	5.2%	6.8%	4.7%	4.6%	4.6%

Source: Medium Term Budget Policy Statement 2022.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

It is noted that variations in regional specifics are possible, however, any variation of assumptions must be explicitly set out and well explained in the budget narratives, in the absence of which the Treasuries will refer the budget back to council for alignment to the macroeconomic performance projections.

2. Key focus areas for the 2023/24 budget process

2.1 Local government conditional grants allocations

Over the 2023 MTEF period, conditional grant allocations to municipalities will grow below inflation. This is due to a higher 2022/23 baseline (R3.8 billion) added to local government conditional grants in the 2022 Division of Revenue Amendment Act. Over the next three years, total local government resources, including the equitable share and indirect conditional grants increase at an annual average rate of 6 per cent.

The local government equitable share increases at an annual average rate of 7.8 per cent and municipal conditional grants increase by 3.6 per cent over the 2023 MTEF period. The local government equitable share formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the 2023 MTEF period.

The annual Division of Revenue Bill will be published in February 2023 after the Minister of Finance's budget speech. The Bill will specify grant allocations and municipalities must reconcile their budgets to the numbers published herein.

Municipalities are advised to use the indicative numbers presented in the 2022 Division of Revenue Act to compile their 2023/24 MTREF. In terms of the outer year allocations (2025/26 financial year), it is proposed that municipalities conservatively limit funding allocations to the indicative numbers as presented in the 2022 Division of Revenue Act for 2022/23. The DoRA is available at:
http://www.treasury.gov.za/documents/national%20budget/2022/default.aspx

2.2 Re-enforcing the 2023 Division of Revenue Bill, (DoRB) to facilitate improved intergovernmental relations

Towards enforcing a system of good intergovernmental relations as envisaged in the Chapter 3 of the Constitution and subsequent related legislation, the National Treasury would like to remind municipalities of Section 31 of DoRA that articulates the facilitation of personal liability for unnecessary litigation. Going forward, a municipality may therefore only institute litigation against any organ of state, state-owned enterprise, public-and/ or municipal entity after exhausting all dispute resolution mechanisms required and/ or available to the municipality in terms of existing intergovernmental relations processes, policy and/ or any related contract with the municipality, including in terms of the Municipal Finance Management Act, 2003, the Intergovernmental Relations Framework Act, 2005, and/ or the Electricity Regulation Act, 2006 (dispute processes administered by NERSA).

The 2023 DoRB will facilitate the personal liability of and refund of any expenditure related to such litigation to the national revenue fund (NRF) by any person responsible for the institution of litigation by a municipality without having exhausted all the available dispute resolution mechanisms. This will be done through the equitable share off-setting processes. Municipalities, parallel to instituting any litigation against any organ of state, must report such litigation to the Auditor-General, the National Treasury and to the relevant provincial treasury. The report must provide the details of all the dispute resolution processes that were attempted, supported by information explaining the failure of these attempts.

Division of Revenue Amendment Bill, 2022 (DoRAB)

Disaster response funding

Conversion of disaster response grants – To allow for adequate response to the April 2022 floods, funding was shifted between the disaster relief grants in August 2022. R145 million

was shifted from the Provincial Disaster Response Grant to the Municipal Disaster Response Grant and R120 million was shifted from the Municipal Emergency Housing Grant to the Provincial Emergency Housing Grant.

Additional funding for disaster response grants – In response to disasters that have occurred, most of the disaster funding for 2022/23 had been depleted by the time of the tabling of the DoRAB. To enable for response should a disaster(s) occur in the remaining months of the current financial year, R248 million is added to the Municipal Disaster Response Grant to enable immediate response by municipalities.

Additional funding for disaster reconstruction and rehabilitation[1] – For the reconstruction and rehabilitation of municipal infrastructure damaged by flash floods in the Western Cape (Overberg District Municipality, Cape Winelands District Municipality and Garden Route District Municipality) in December 2021 and the April 2022 floods in the Eastern Cape (Winnie Madikizela-Mandela Local Municipality) and KwaZulu-Natal (eThekwini Metropolitan Municipality, uMhlathuze Local Municipality, uThukela District Municipality, uMgungundlovu District Municipality and iLembe District Municipality), R3.3 billion is added to the Municipal Disaster Recovery Grant.

Purchasing of land for relocation of flood victims – R92 million is added to the Informal Settlements Upgrading Partnership Grant: Municipalities for eThekwini Metropolitan Municipality for the purchase of land identified for the relocation of displaced flood victims.

Changes to local government allocations

Roll-over of funds in the Integrated National Electrification Programme (municipal) Grant – R1 million is rolled over in the Integrated National Electrification Programme (municipal) Grant to fund 50 electrification connections in Swellendam in Dikgatlong Local Municipality.

Roll-over of funds in the indirect Regional Bulk Infrastructure Grant – R15 million is rolled over in the indirect Regional Bulk Infrastructure Grant to fund operational payments for the Vaal River pollution remediation project in Emfuleni Local Municipality.

Reprioritisation in the Neighbourhood Development Partnership Grant – R100 million of the Neighbourhood Development Partnership Grant is shifted from Schedule 5, Part B (direct) to Schedule 6, Part B (indirect) to fund project preparation, planning and implementation for municipalities that are having administrative and financial challenges that are affecting project implementation. These funds will be used for projects they were allocated for in the direct component. Affected municipalities are Mogale City Local Municipality, KwaDukuza Local Municipality and Emfuleni Local Municipality.

Changes to gazetted frameworks and allocations

Municipal Disaster Response Grant – The grant framework for the Municipal Disaster Response Grant is amended to allow for spending to respond to the disasters that occurred in December 2021 and April 2022.

Informal Settlements Upgrading Partnership Grant: Municipalities – The grant framework for the Informal Settlements Upgrading Partnership Grant is amended to ring-fence funds for

[1] There was an oversight in the allocations to Western Cape and KwaZulu-Natal, wherein the allocations or parts thereof allocated to the district municipalities in the DoRAB ought to have been allocated to the respective local municipalities in these districts. This is explained in detail in the section "*Correction of errors in the Municipal Disaster Recovery Grant framework and allocations to municipalities*" below.

the purchase of identified land for the relocation of flood victims who were previously residing in informal settlements that were washed away by April 2022 floods in eThekwini Metropolitan Municipality.

Municipal annexures – Changes to previously gazetted municipal allocations include a change of the name of a municipality. The name of Engcobo Local Municipality in the Eastern Cape is updated to Dr A.B. Xuma Local Municipality as per the Gazette published in terms of section 12 of the Local Government: Municipal Structures Act, on 30 May 2022.

Correction of errors in the Municipal Disaster Recovery Grant framework and allocations to municipalities

The National Disaster Management Centre (NDMC) has requested changes to the in-year allocations for the Municipal Disaster Recovery Grant in the DoRAB tabled in Parliament. Part of the funding allocated to uThukela and iLembe district municipalities in KwaZulu Natal (page 36 of the DoRAB), should have been allocated to Alfred Duma and KwaDukuza local municipalities, respectively. The allocations made to the Cape Winelands, Overberg, and Garden Route district municipalities in the Western Cape (page 39 of the DoRAB), should have been made to Breede Valley; Theewaterskloof and Swellendam; and Oudtshoorn and George local municipalities, respectively. These corrections also affect the ring-fencing in the grant framework (page 28 of the DoRAB).

Parliament has approved that the National Treasury correct the allocations and effect the required changes to the MDRG framework, as part of section 15(1) of the 2022 DoRA to ensure that MDRG allocations are correctly allocated to the municipalities assigned for the functions.

3. Pension fund defaults

There has been a growing trend where municipalities are deducting pension from the employees but are not paying it over to their pension fund. This in our view is inconsistent with the intent and spirit of the MFMA and constitute an act of financial misconduct in terms of section 171 of the MFMA read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings and potentially also a criminal offence in terms of section 173 of the MFMA read with other applicable legislation. Municipal Councils should refer these actions to the Disciplinary Boards for further investigation and should also consider laying criminal charges against the accounting officer and other responsible officials that has failed to perform the responsibility outlined in terms of section 65(2)(f) of the MFMA which states that “the accounting officer of a municipality must take all reasonable steps to ensure that the municipality complies with its tax, levy, duty, pension, medical aid, audit fees and other statutory commitments”. Municipal Councils should also consider further measures and actions in terms of the Pension Funds Administration Act, as may be applicable.

4. Municipal Standard Chart of Accounts (*m*SCOA)

4.1 Release of Version 6.7 of the Chart

On an annual basis, the *m*SCOA chart is reviewed to address implementation challenges and correct chart related errors. Towards this end, Version 6.7 is released with this circular.

Version 6.7 of the chart will be effective from 2023/24 and must be used to compile the 2023/24 MTREF and will be available from 20 December on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

Kindly note that, in accordance with section 8(2)(j) of the Municipal Property Rates Act (MPRA) as amended in 2014, municipalities may apply for categories other than the categories in 8(2)(a) to (i). Towards this end the Minister of Cooperative Governance and Traditional Affairs approved the following categories:

- Sports Clubs and Fields for Bitou Municipality and
- Residential sectional title garages for Drakenstein Municipality.

These categories were only approved for use by municipalities indicated above. System vendors must therefore block the use of these categories for all other municipalities. The Project Summary Document (PSD) on the National Treasury webpage will be aligned to the chart changes in version 6.7 where applicable. The PSD is also available on the above link.

For the National Treasury to consider a new chart change in version 6.8 of the chart, the issue must be logged with all relevant background and details on the *m*SCOA FAQ portal by 31 August 2023. The *m*SCOA FAQ portal can be accessed by all registered GoMuni users on the following link. https://lg.treasury.gov.za/ibi_apps/signin

4.2 Amendments to the regulated A1 schedules

The following tables of the A1 Schedule that was regulated in terms of the Municipal Budget and Reporting Regulations (MBRR), have been aligned to the *m*SCOA and Generally Recognised Accounting Standards (GRAP):

- A4: Statement of Financial Performance; and
- A6: Statement of Financial Position

In addition, tables A8 and A10 have been linked to the *m*SCOA data strings and will be included in the 2023/24 budget reports available on the GoMuni portal from 01 July 2023.

The amended and protected version of the A1 schedule will be available from 20 December on the link below:
http://mfma.treasury.gov.za/RegulationsandGazettes/MunicipalRegulationsOnAStandardChartOfAccountsFinal/Pages/default.aspx

System vendors and municipalities that are managing their own in-house systems must programme the amended schedules on their financial systems. Input fields for supporting tables that are not part of the non-financial data string must be created to ensure that a complete A schedule is generated from the core municipal financial system.

The *m*SCOA Regulations require that municipalities budget, transact and report on legislated *m*SCOA segments and directly on the core financial system and submit the required data strings directly from this system to the GoMuni Upload portal. To ensure that the data strings submitted are credible, municipalities must:

- Lock the budget adopted by Council on the core municipal financial system before submitting the budget (ORGB) data string to the GoMuni Upload portal;
- Close the core financial system at month-end as required in terms of the MFMA before submitting the monthly data string to the GoMuni Upload portal; and
- Generate the regulated MBRR Schedules (A, B and C) directly from the core municipal financial system.

The preparation of budgets on excel spreadsheets that is captured in the system at a later stage and manual correction of data strings by municipal officials or system providers are not allowed in terms of the *m*SCOA Regulations. Where a municipality makes use of a stand-alone 3rd party sub-system or a system provider has entered into an agreement or consortium for the provision of certain functionality with a 3rd party sub-system provider, such a 3rd party sub-system should host the relevant part of the *m*SCOA chart to seamlessly integrate with the core financial system without manual intervention.

4.3 Credibility of *m*SCOA data strings

The credibility and accuracy of the data strings must be verified by municipalities before submission as the data strings submitted will be used as the single source for all analysis and publications in the 2023/24 municipal financial year.

Municipalities have been given access to the GoMuni portal in April 2022 and should use the reports on GoMuni to verify the credibility of their submissions. It should be emphasized that errors in the data can only be corrected in the next open period. e.g., errors in the tabled budget (TABB) data string can only be corrected in the adopted budget data string (ORGB). Municipalities are not allowed to open closed periods to make corrections.

Municipalities are reminded that incorrect or incomplete data string submissions is considered as non-submission.

The credibility of the *m*SCOA data strings remains a concern in the following areas:

The inclusion of opening balances in data strings

Municipalities and system vendors must ensure that opening balances are included in the budget and in-year data strings. The opening balances at year end (month 12 – M12) of the previous financial year must be rolled over to the first month (M01) and updated with pre-audited (PAUD) and audit (AUDA) adjustments in the current financial year in the *applicable open period*. In other words, if the audit is completed on 31 October, then the changes in the opening balances must be reflected in the in-year submission for November 2022 (M05 submission). If opening balances and changes thereto are not included in the budget and in-year data strings, the C schedules will not populate correctly. This means that the movement of the balance sheet items will not have a starting point and the Statement of Financial Position (balance sheet) will be incorrect.

Accounting for Water Inventory

As per the guidance in MFMA Budget Circular No.115 (dated 04 March 2022), municipalities must budget and account for bulk water purchases as **inventory** under current assets in the Statement of Financial Position as per GRAP 12 (paragraph. 07).

In terms of GRAP 12:

Inventories are assets:

a. In the form of materials or supplies to be consumed in the production process;
b. In the form of materials or supplies to be consumed or distributed in the rendering of services; and
c. Held for sale or distribution in the ordinary course of operations, or
d. In the process of production for sale or distribution.

Inventory acquired through non-exchange transactions should be recorded at its fair value as at the date it is acquired. The cost of inventory, except for non-purified water, will be determined or recognised in accordance with paragraph 25 and 26, which is the primary and secondary costs in getting the water either to the treatment works or to the users of the water.

It is important to note that water cannot be issued if it was not purchased or brought into the inventory through system input transactions. Therefore, the total input volume of water related to water purified and water from natural sources should include both primary and secondary cost components. The allocation of secondary cost to the input volume of water will necessitate the utilisation of the Costing Segment in the *m*SCOA. This is crucial in determining cost reflective tariffs for water.

The fair value of water from natural resources such as boreholes, springs and fountains may be determined by the primary and secondary cost components. Secondary costs include:

- Labour
- Extraction cost
- Distribution cost
- Chemicals/ Treatment
- Maintenance
- Infrastructure
- Depreciation charges

The municipality must account for water from natural resources as follows:

Debit: System Input Volume: Natural Resources
Credit: Gains and Losses: Water at fair value

Water inventory must be budgeted to be acquired and recorded in the Current Assets: Inventory: Water as indicated below. The movement accounts in the *m*SCOA structure makes provision for the different methods of acquiring and the consumption/ issuing of Water inventory.

Current assets:
- Inventory: Water Opening balance: Non-Funding Transactions
- Inventory: Water: System Input volume: Bulk Purchases: Water Treatment/Natural Resources
- Water Authorised Consumption:
  a) Billed Unmetered Consumption
  b) Un-Billed Authorised Consumption
  c) Billed Metered Consumption
- Inventory: Water Losses (Apparent and Real Losses)

Water that is issued to Consumers must be issued from the inventory and expensed in the **Expenditure:** Inventory: Consumed -Water.

Water losses will reduce the Water inventory in current assets and the corresponding amounts should be captured in **Gains and Losses:** Inventory: Water: Fair value

It is important to note that the change in accounting for water through the inventory purchased process and the change of using a methodology to report the balance of water as at year-end may impact on the Annual Financial Statements (AFS). Municipalities must ensure that they update their accounting policy, document this process, and provide comparative figures when assessing and reporting their water balance to ensure that the GRAP guidelines of changes in reporting and materiality is applied correctly.

The Local Government Municipal Property Rates (MPRA) Amendment Act, 2014

Municipalities are reminded that section 8 of the MPRA on the determination of categories of rateable properties has been revised through the Local Government Municipal Property Rates Amendment Act, 2014 ("the Amendment Act").

Municipalities were required to implement the new property categorisation framework by not later than 01 July 2021. The *m*SCOA chart Version 6.7 will only make provision for the new framework. The old framework has been retired and municipalities must prepare their 2023/24 MTREF Budgets accordingly.

Fixed Asset Register

Municipal financials systems must comply with the minimum business processes and system requirements on fixed asset registers as articulated for the asset management module in MFMA Circular No 80. The asset management module should be embedded in the core financial system or seamlessly integrate from a third-party sub-system to the core financial system. This will enable the regular and seamless updating of the fixed asset register. The register must contain the following information as a minimum requirement:

- Description of the asset
- Date of acquisition or brought into use
- Purchase cost
- Location of the asset
- Function responsible for the asset
- Current value
- Depreciation and method utilised
- Remaining life of the asset
- Maintenance information
- Insurance Coverage

Municipalities will be required to upload their updated fixed asset register in a PDF format on the GoMuni Upload portal as part of their 2023/24 MTREF tabled and adopted budget submission and thereafter on a quarterly basis as part of their in-year reporting.

Recording of Schedule 6B Grants in *m*SCOA

Grants allocated in terms of Schedule 6B of DoRA should be recorded in terms of *m*SCOA as an allocation-in-kind. This means that the municipality will only record the transaction once they received a completed asset.

Importantly, a Schedule 6B grant may not be transferred to the end-user of the asset to construct the asset as this is in contravention with the conditional grant framework. If a transferring officer of a Schedule 6B grant consider the municipality capable of constructing its own asset, the grant should be re-gazetted and reclassified as a Schedule 5B grant. The grant will then be transferred directly to the municipality to construct the asset and the receipt and expenditure of the grant must be in accordance with GRAP 17. An adjustments budget in terms of Section 28(2)(b) of the MFMA and Regulation 23(3) of the MBRR must be adopted to include the grant funding and project in the MTREF budget.

In the case where a municipality is constructing an asset for a national department but will not be the end-user of the asset being constructed, the accounting must be done in terms of GRAP 11. There will be VAT implications as the municipality will be a contractor and act as an agent. It is important to ensure that the contract between the municipality and the department outlines the responsibilities of all parties.

Municipalities must ensure that they are making provision for VAT in accordance with the VAT Act, 1991 (Act No. 89 of 1991) and the VAT 419 guide issued by SARS. The National Treasury issued *m*SCOA Circular No.12 (dated 01 October 2021) that provides guidance on the recording of VAT in the *m*SCOA.

Impact of Balance Sheet Budgeting and Movement Accounting on Cash Flow Tables

From the analysis of the *m*SCOA data strings it is evident that the cash flow tables (A7, B7 and C7) are still not populating correctly or completely. This can be contributed to the fact that a number of municipalities still do not use balance sheet budgeting and movement accounting. Guidance on the use of balance sheet budgeting and movement accounting to populate tables A7, B7 and C7 correctly was provided in MFMA Budget Circular No. 107 (dated 04 December 2020) and *m*SCOA Circular No. 11 (dated 04 December 2020).

4.4 Regulation of Minimum Business Processes and System Specifications

National Treasury will review and regulate minimum business processes and system specifications for *m*SCOA by the end of 2024/25. In preparation for the regulation of the minimum requirements, municipalities should ensure that they comply fully with the current minimum business processes and system specifications articulated in MFMA Circular No. 80 (dated 08 March 2016).

Where a municipality is not fully compliant with the *m*SCOA requirements, a *m*SCOA Road Map must be in place to drive and fast track the *m*SCOA implementation in the municipality. The *m*SCOA Steering Committee, chaired by the Accounting Officer or his/ her delegate, must use the *m*SCOA Road Map to track progress and take correction actions where required.

Road Maps must be reviewed and updated annually as part of the budget process is updated and submitted to Council for approval together with their 2023/24 MTREF budget. Municipalities will be required to upload their updated *m*SCOA Road Maps in a PDF format on the GoMuni Upload portal as part of their 2023/24 MTREF tabled and adopted budget submission and thereafter on a quarterly basis as part of their in-year reporting.

Municipalities should ensure that they budget sufficiently to become and remain mSCOA compliant.

Guidance on the content of the *m*SCOA Road Map was provided in MFMA Budget Circular No. 115 (dated 04 March 2022).

4.5 *m*SCOA Training Initiatives

Training to municipalities and municipal system vendors

The National Treasury, in conjunction with CIGFARO, will conduct monthly training sessions aimed at municipalities, municipal system vendors and other relevant role-players. The training will focus on technical aspects of budgeting, transacting and reporting in the *m*SCOA and is aimed at improving the quality of *m*SCOA data strings. The draft programme is attached as **Annexure A.**

***m*SCOA eLearning Course**

The National School of Government is hosting the *m*SCOA eLearning Course that was developed by the National Treasury. The *m*SCOA eLearning Course provides government officials with the basic knowledge on the reform and how to record transactions using the *m*SCOA.

Government institutions can enrol their employees for this course by sending a request for training to the NSG at contactcentre@thensg.gov.za. If your institution has not attended any training with the NSG previously, then you will also be required to register on the NSG database. The *m*SCOA eLearning Course will be offered as no cost until 31 March 2022. Thereafter, delegates will have to pay to attend the course.

Any queries in this regard must be directed to the NSG at contactcentre@thensg.gov.za or tel number: 086 100 8326.

5. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. The weak economic growth has put pressure on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, Water Boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them and eliminate wasteful and non-core spending.

Municipalities must ensure that they render basic services, maintain their assets and clean environment. Furthermore, there must be continuous communication with the community and other stakeholders to improve the municipality's reputation. This will assist in attracting investment in the local economy which may result in reduced unemployment. Some municipalities are experiencing serious liquidity challenges. Therefore, the new leadership is advised to:

- Decisively address unfunded budgets by reducing non-priority spending and improving revenue management processes to enable collection; and
- Address service delivery failures by ensuring adequate maintenance, upgrading and renewal of existing assets to enable reliable service delivery.

5.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circulars No. 93, paragraph 3.1 and No. 98, paragraph 4.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this is a fundamental reason for municipalities not attaining their desired collection rates.

The purpose of the above mentioned MFMA Circulars is to ensure that the municipalities are using their entire revenue base as the basis for the revenue budget. It is essential that municipalities reconcile their most recent consolidated valuation roll data to that of the current billing system data to ensure that revenue anticipated from property rates is realistic. The municipalities should implement a data management strategy and develop internal capacity to perform these reconciliations and investigations to improve completeness of billing.

One of the aims of the reconciliation process is to identify exceptions, i.e. records on the roll and not on the billing system and records on the billing system and not on the roll. In addition, the reconciliation must identify duplicated records, missing data, and data errors. These exceptions should then be investigated, and remedial action strategies developed for data cleansing and other corrective actions. The Debtors Ageing data should also form part of the reconciliation process so that "debtors" can be tracked and assessed at a property record level and prioritised for verification of rates liability measured against a MPRA property and owner.

To facilitate reconciliation of the separate databases (Roll and Billing), a unique property identifier (common primary unique link code) must be created and populated for each rateable property on the roll system and on the rates billing system. This property identifier must be unique, without duplicates, and remain constant for the life of the property. The standards adopted by the South African Council for the Property Valuers Profession (SACPVP), namely South African Standard: Municipal Valuations for Property Rating, specifies that the Surveyor General Code SG 21-digit Code, derived, and created from the property description, be applied for all registered full title property defined in terms of part (a) of the definition of property.

For all other MPRA defined property, Part (a) Sectional Title, Part (b) Registered Rights, Part (c) Land Tenure Rights and Part (d) PSI, and apportioned multiple use property in terms of sections 8(2)(i) and 9(2), an added suffixed 5 digits to the SG 21-digit code must be assigned by the designated municipal valuer, thereby creating a unique 26-digit code. The municipality must ensure that the SG21 digit code and 26-digit coding system is applied in their valuation roll management system and billing system and engage with their designated municipal valuer and systems service providers to implement the unique property identifier.

Further it is important that municipalities who are performing a general valuation (GV) to implement a new valuation roll on 1 July 2023, must also as best practice compare the current consolidated roll to the new valuation roll. This can identify any anomalies and errors of category of property and market values for review and investigation and the option of lodging an objection by the municipality, where applicable. This process should also identify outliers and shifts in market values by category and area so that tariffs on the new roll can be modelled and determined in an equitable manner to avoid rates shocks.

Municipalities should undertake this exercise as a routine practice during the budget process so that supplementary adjustments to the valuation roll are kept up to date. In order to ensure that the most updated information is used for the reconciliations, municipalities are reminded to adhere and comply with s23(1)(2) of the MPRA and therefore use the Part A register as the basis for performing the reconciliations going forward.

Furthermore, municipalities are also advised and expected to comply with s8(1) of the MPRA in terms of the billing methodology that needs to be specified within their policies to ensure that the correct categories (based on the selection made by the municipality) are used in the reconciliation process.

The list of exceptions derived from this reconciliation will indicate where the municipality may be compromising its revenue generation in respect of property rates or whether the municipality is overstating its revenue budget.

A further test would be to reconcile this information with the Deeds Office registry. In accordance with the MFMA Circular No. 93, municipalities are once more requested to submit their reconciliation of the Valuation roll/Part A register to the billing system to the National Treasury on a quarterly basis by no later than the 10th working day. A detailed action plan must accompany the reconciliation where variances are noted.

The above information must be uploaded by the municipality's approved registered user(s) using the GoMuni Upload Portal at: https://lg.treasury.gov.za/ibi_apps/signin. If the municipality experience any challenge uploading the information, a request for an alternative arrangement may be emailed to linda.kruger@treasury.gov.za.

No operation can be sustainable if it does not collect its revenue. A municipality is no different. There is a misconception that a municipality may not interrupt or restrict the supply of water services of a defaulting consumer. The National Treasury confirms that neither the

Water Services Act, 1997 (Act No. 108 of 1997) or any other legislation prevents a municipality from cutting the supply of water to a defaulting consumer unless the consumer is an indigent in which case the water services to that household must be restricted to the national free basic water limit of 6 kilolitre water monthly (or 50 kilowatt hours in the case of free basic electricity monthly). This was confirmed by the Constitutional Court in the matter of Mazibuko and Others v City of Johannesburg and Others (CCT 39/09) [2009] ZACC 28; 2010 (3) BCLR 239 (CC); 2010 (4) SA 1 (CC) (8 October 2009).

Municipalities are urged to use the restriction/ interruption of supply of both water and electricity services as a collection tool. Effective from the tabling and adoption of the 2023/24 MTREF, municipalities' By-laws and policies must facilitate this and clearly stipulate the order in which any partial payment of the consolidated municipal bill (including property rates) will be applied as well as the process before the supply of water and electricity services will be cut. The National Treasury recommended that any partial payment firstly be applied to property rates, wastewater, waste management, water and lastly to electricity. When interrupting or restricting the supply of water it is important that such is undertaken together with the municipal engineer(s) to ensure a continued minimum supply of waste water.

5.2 Setting cost-reflective tariffs

Reference is made to MFMA Circular No. 98, paragraph 4.2. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (Financial and Fiscal Commission (FFC), 2011). Credible budgets are critical for local government to fulfil its mandate and ensure financial sustainability.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- A budget adequate to deliver a service of the necessary quality on a sustainable basis; and
- A budget that delivers services at the lowest possible cost.

The National Treasury issued a tariff setting tool and guide as part of MFMA Budget Circular No. 98 (refer item 4.2) on 6 December 2019 and since 2019, encouraged municipalities to utilise the tool. **With effect, the 2023/24 MTREF, all municipalities** (**except** *metropolitan cities and district municipalities that do not provide any services*) **as part of both the tabled and adopted MTREF submissions must submit the completed National Treasury tariff tool (in excel format)** illustrating that the revenue component of the budget is credible and funded and that the municipality's tariffs are cost reflective. If the municipality's initial calculation results in high increases to facilitate cost-reflectiveness, it is recommended that such are phased in over 3 to 5 years. The municipality's strategy in this regard should be included as part of the budget narratives.

This tool will assist in setting tariffs that are cost-reflective and enable a municipality to recover costs to fulfil its mandate. Going forward it is also imperative that every municipality fully embrace the Municipal Standard Chart of Accounts (*m*SCOA): costing component. Considering, *m*SCOA implementation is entering its sixth year of implementation, all municipalities must fully embrace and report also utilising the costing segment correctly. The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website.

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08.

5.3 Tariffs – achieving a balance between cost-reflectiveness and affordability

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other consumers while ensuring the financial sustainability of the municipality.

When setting tariffs, it is therefore critical to understand the economic environment specific to the municipality and consideration should include at least –

- *The socio-economic profile undertaken for the municipality* available on the National Treasury GoMuni portal – municipalities are encouraged to annually update their own socio-economic profile using the template model available on GoMuni;
- *The most recent average monthly household income in the municipality* as per Statistics South Africa (Stats SA) available on Statistics South Africa | Improving Lives Through Data Ecosystems (statssa.gov.za);
- *The average property value in the municipality* per its most recent approved general valuation roll and/ or supplementary general valuation roll;
- *The number of indigent households in the municipality,* including any variation in the number of indigent households included in the Equitable Share: free basic services component for the municipality vs the municipality's own indigency level discretion; and
- *The economic drivers and activities specific to the municipal area[2]; etc*.

The municipality's tariff-setting or other committee tasked with this role must understand and deliberately reflect on this context during the tariff-setting process. Considering the average monthly household income, the median affordable municipal bill would ideally not exceed proportionally the average monthly household income. This median affordable bill, in combination with the median average property value should inform the basis to determine any rebates to households with income below the median.

It is also important when setting particularly water and electricity tariffs that municipalities consider setting two-tier tariffs, that include a basic availability charge to recover the fixed (direct and indirect) cost associated with the service in conjunction with consumption-based tariff bands. For example, in a drought, such tariffs will facilitate the ability to pay for infrastructure and maintenance, treating chemicals and salaries, etc. while parallel facilitating water restriction based on inclining tariffs as consumption increase. Furthermore, it is important to link the municipality's water tariffs to dam levels, also approved as part of the budget process. For example, if the dam levels drop to 60 per cent the first tier of restriction tariffs should become applicable in terms of the municipality's approved tariff policy.

It is also noted that NERSA approves seasonal tariffs for Eskom but not necessarily for the municipality. It is important that the municipality clearly factor this in its tariff application to NERSA, illustrating the cashflow crunch if the municipality is not similarly allowed a seasonal tariff to recover the higher Eskom bulk cost during winter months.

Lastly, municipalities are cautioned against setting tariffs that include operating inefficiencies. This could lead to tariffs falling into the unaffordable range.

The Consumer Price Index (CPI) inflation is forecasted to be within the 3 to 6 per cent target band; therefore, municipalities are required to ***justify all increases in excess of the*** **projected inflation target for 2023/24** in their budget narratives and pay careful attention to

[2] The spatialised tax data is now available through National Treasury for all municipalities that provides an up to date information on economic activity within a municipal boundary.

tariff increases across all consumer groups. In addition, municipalities should include a detail of their revenue growth assumptions for the different service charges in the budget narrative.

5.4 Bulk Account Payments and Concessions

During 2018/19, intense work was undertaken to resolve systemic and structural issues pertaining to the electricity function in municipalities. Core to this work was addressing the escalating Eskom debt that threatened the sustainability of Eskom as well as that of municipalities.
During the process, Eskom agreed to provide relieve in certain areas. Municipalities are reminded of the following concessions that remain in place:

- The interest rate charged on overdue municipal bulk accounts were reduced from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms were extended from 15 days to 30 days for municipal bulk accounts; and
- Eskom allocation of municipality payments to capital first and then to interest.

These concessions align to the MFMA and are meant to curb municipal growing debt levels by allowing a more conducive payment regime than what was previously employed. In addition, municipalities are urged to budget for and ring-fence their payment of bulk services. Bulk current account payments must be honoured religiously to avoid stringent application of the bulk suppliers' credit control policy.

Municipalities are also urged to enforce a culture of payment for services through their normal credit control processes. In this regard it should be noted that municipalities are only compensated for free basic services based on an indigent user component calculation through the equitable share. As such, a municipality's allocation of free basic services to all of the municipality's consumers is not funded in the equitable share. Every municipality, during the budget process, must consider the affordability to the municipality when allocating free basic services above the national norm and to consumers other than indigent consumers. **If a municipality has any arrears on any of its bulk supplier's accounts, it must limit its provision of free basic services to registered indigent consumers only**.

5.5 Critical Notice Affecting STS Meters

As highlighted in previous MFMA Circular No. 115 (dated 06 December 2022) municipalities are once again alerted that there is still a pending business risk to the prepayment metering industry that requires urgency of action. The token identifiers (TID) used to identify each credit token will run out of available numbers in November 2024, at which point all STS meters will stop accepting credit tokens.

The remedy is to visit each meter and enter a special set of key change tokens in order to reset the meter memory. Municipalities are advised that the National Treasury, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a transversal contract for the provision of auditing, re-calibration and re-configuration services for standard transfer specification compliant prepayment meters that align to minimum and critical technical specifications for local government. In this respect the development of the transversal contract for smart prepaid meters as per NRS 049 (per latest approved version) is at an advanced stage and should be issued shortly by National Treasury.

If your municipality or municipality entity is currently in the process of procuring for a solution or is planning to, you are cautioned:

- Against proceeding prior to the OCPO having issued and awarded the transversal contract for the provision of inter alia auditing, re-calibration and re-configuration services for standard transfer specification compliant prepayment meters Terms of Reference (ToR); and

- That, with immediate effect, you must obtain the National Treasury's input prior to proceeding with any current procurement or proposed procurement for this purpose or any related solution or similar. This is to prevent unnecessary and wasteful expenditure on such solutions. Any request for National Treasury's input on the current or planned procurement of any related solution or similar or component thereof, must be directed to the National Treasury for the attention of the Local Government Budget Analysis Unit (Mr. Sadesh Ramjathan) Sadesh.Ramjathan@treasury.gov.za.

In this regard, municipalities will have two options to choose from:

- Firstly, to pursue the route of auditing, re-calibrating and re-configuring services for standard transfer specification compliant prepayment meters; and/ or
- Secondly, to replace the old meter with a new smart prepaid meter.

For both options, the municipality will have to budget accordingly as no additional funding will be available through the national fiscus.

Your assistance in proactively ensuring that the municipality and/ or its entities are not adversely affected by these processes will be appreciated.

5.6 Completeness and credibility of revenue related information in the Budget

The MBRR regulates the minimum level of information required from municipalities when compiling, implementing, monitoring, and evaluating the municipality's financial management situation. Failure to include the minimum required information hampers the municipal council, the public and stakeholders' ability to make informed decisions and engage on the matter. It also limits research, studies, and benchmarking undertaken for local, provincial, and national purposes.

The National Treasury would like to take this opportunity to caution municipalities that the MBRR prescribe the minimum level of information municipalities must include as part of their legal reporting obligations.

Going forward the Treasuries will place increased attention and focus on the adequacy of municipalities' submissions. The National Treasury regards this non-compliance to include the minimum level of information as serious and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution. In this context, National Treasury will particularly focus on the completeness of asset management related information as well as the statistical information required in the A, B and C schedules during the 2023/24 MTREF.

5.7 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for the price determination of the bulk costs of electricity. In the municipal financial year 2022/23, bulk electricity costs increased moderately at 9.61 per cent, compared to 17.8 per cent in the 2021/22 municipal financial year. Due to Eskom's funding needs, they are seeking higher tariff increases and have applied to NERSA for a 32 per cent hike from 1 April 2023/24. NERSA will make a final decision on the tariff application by 24 December.

In addition, a High Court hearing is still pending on the Multi-Year Price Determination (MYPD 5) application. The urgent High Court review requires NERSA to urgently process the Eskom revenue application for at least one year, as required by law. The timeframes for the review allow for a decision to be made in time for implementation by 1 April 2023.

5.8 Updated Municipal Borrowing Policy Framework

Cabinet approved the Update to the Policy Framework for Municipal Borrowing and Financial Emergencies on the 17th of August, 2022. The purpose of the Update is to re-examine the original Policy Framework, along with the legislation (i.e. Municipal Finance Management Act – MFMA) that was adopted to implement it, considering the experience with municipal borrowing that has accumulated since 2000.

The following key reforms have been introduced through the Update to the Policy Framework for Municipal Borrowing:

- The Policy Framework for Municipal Borrowing has been updated to introduce the necessary reforms that will expand the scope of responsible municipal borrowing and create an environment that attracts more players (e.g. insurers, pension funds, institutional investors and fund managers, and international Development Finance Institutions) in the municipal debt market space. The original core principles underlying municipal borrowing are maintained (i.e. creditworthy municipalities should borrow prudently to finance capital investment, and that there will be no bail-outs by the provincial or national government);

- The updated policy framework clarifies the role of Development Finance Institutions (DFIs), as it was not clearly articulated in the original policy. DFIs are required to pursue clear and agreed developmental goals, as outlined in the policy. The objective of this approach is to ensure that a DFI lending does not crowd out the private sector. Public-sector lenders, both domestic and foreign, should be guided by a social and developmental investment approach in which demonstrable social outcomes are considered alongside potential financial returns;

- The updated policy framework permits and clarifies innovative infrastructure financing mechanisms (such as pooled financing mechanisms, project finance, tax increment financing, revenue bonds, and pledging of conditional grants) that municipalities can use to leverage municipal borrowing. Municipalities are encouraged to explore these alternatives, and innovative infrastructure financing mechanisms permitted subject to the requirements contained in the Municipal Finance Management Act (MFMA) and

- The participation of both private and public sector market participants in the development of a liquid secondary market for municipal debt securities is also encouraged. The policy proposes options that can be explored to support the development and growth of an efficient and liquid market for municipal debt obligations.

The Updated Municipal Borrowing Policy Framework can be accessed at the MFMA website at the following link http://mfma.treasury.gov.za/Guidelines/Pages/default.aspx.

5.9 Tariff Policies

Municipalities must comply with the provisions of Section 74 of the Municipal Systems Act (MSA) which requires that a municipal council must adopt and implement tariff policy on the levying of fees for municipal services provided by the municipality itself or by way of service delivery agreements, and which complies with the provisions of this Act and with any other applicable legislation. Municipalities should also ensure that the tariff policies adhere to all the principles outlined in section 74(2) of the MSA. A municipality's tariff policies must also take into consideration variable factors such as water shortages and electricity feedback excess into the municipal system from new generation capacity. Municipalities must adopt by-laws to give effect to the implementation and enforcement of their tariff policies.

5.10 Non-Revenue Electricity and Non-Revenue Water/ Revenue Losses:

Water Service Authority municipalities and electricity licensed municipalities are urged to align both their non-revenue water and non-revenue electricity indicators and their set targets in the 2023/24 SDBIPs with identifiable infrastructure or operational projects and/ or programmes. Municipalities should improve on the baseline information included in the SDBIPs by indicating the volume of water losses (i.e., kilolitres/ mega-litres) and the amount of electricity losses (KwH or MWs) for the previous year. This approach will help to determine the progress of municipalities in curbing losses, which impact on municipal revenues, in both non-revenue water and non-revenue electricity.

6. Burial of Councillors

Salaries, allowances and benefits for political office-bearers and members is managed through Determination of Upper Limits of Salaries, Allowances and Benefits of Different Members of Municipal Councils notice issued by the Minister of Cooperative Governance and Traditional Affairs.

Section 167 of the MFMA provides that a municipality may remunerate its Councillors within the framework of the Public Office-Bearers Act, 1998 (Act No. 20 of 1998), setting the upper limits of the salaries, allowances and benefits for those political office-bearers and members. Any benefit which is not included in the above-mentioned notice will be deemed irregular expenditure and recovery thereof from the Councillor concerned is mandatory.

Municipalities may also refer to relevant Councillor Pension Scheme or personal funeral policies in existence for any funeral benefits relating to such Councillor

7. Funding choices and management issues

Municipalities are under pressure to generate revenue. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2023/24 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read with MFMA Circular No. 82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Prioritise the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings.

7.1 Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 dated 15 September 2021 through the agreement that was approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution should be used when budgeting for employee related costs for the 2023/24 MTREF. In terms of the agreement, all employees covered by this agreement shall receive with effect from 01 July 2023 and 01 July 2024 an increase based on the projected average CPI percentages for 2023 and 2024. The forecasts of the Reserve Bank, in terms of the January 2023 and January 2024, shall be used to determine the projected average CPI. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, in order to root out ghost employees.

According to the 2021 State of Local Government Finance Report, there are about 165 municipalities that are in financial distress. These municipalities need to ensure that they seek an early exemption from this dispensation of this salary agreement. Municipalities should also avoid paying out leave in cash while having major financial challenges.

7.2 Remuneration of Councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process. Any overpayment to councilors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of Section 167 of the MFMA and must be recovered from the councilor(s) concerned.

8. Transfers to municipalities

8.1 Criteria for the release of the Equitable Share

Section 216(2) of the Constitution of South Africa requires that the National Treasury must enforce compliance with the measures established to ensure both transparency and expenditure control in each sphere of government and may stop the transfer of funds to an organ of state if that organ of state commits a serious or persistent material breach of those measures.

The criteria for the release of the Equitable Share Instalments for the 2023/24 municipal financial year are as follows:

- The 2023/24 adopted budget must be funded and adopted by Council as per the legal framework, as required in terms of section 18 of the MFMA and consistent with the Budget Council and Budget Forum resolutions;
    a. The adopted budget must include budget allocations for bulk suppliers current account payments;
    b. Should the adopted budget still be unfunded, then a credible funding plan will be required to show how the municipality intends moving progressively out of this position into a funded state, if this plan has been adopted in the past, then a progress report must be submitted on the framework previously shared to guide municipalities which is aligned to the rescue phase of the new approach to Municipal Financial Recovery Service (MFRS);

c. Those municipalities that adopted an unfunded budget must work with their respective Provincial Treasuries to rectify this position in the lead up to the main adjustments budget process in February 2023; and
d. A council resolution showing commitment to address the unfunded position must be submitted by these municipalities to the National Treasury by 01 July 2023.

- Credible *m*SCOA data strings and source documents for the 2023/24 MTREF and 2022/23 audits must be generated directly from the core municipal financial system and successfully uploaded to the Local Government GoMuni Portal. Source documents must be submitted in PDF and no excel based spreadsheet/ templates will be accepted;
- The report submitted by bulk suppliers in terms of section 41 of the MFMA must indicate that the current account has been paid timeously in terms of section 65(2)(e) of the MFMA. In addition, where the municipality has a repayment plan with Eskom and/ or the water boards, proof that the current accounts have been paid and a copy of the agreed upon payment plan (or evidence of negotiations underway with creditors) must be submitted to the National and provincial treasuries;
- Municipalities must provide evidence that SARS, pension and other staff benefits deducted from municipal officials have been paid over the appropriate Funds and/ or institutions;
- The information requested in MFMA Circulars No. 93, 98 and 107 on the reconciliation of the valuation roll have been submitted to the National Treasury as per the required timeframes;
- The Competency Regulations reporting requirements have been complied with;
- Provide a copy of the Unauthorised, Irregular, Fruitless and Wasteful (UIF&W) expenditure register, the latest copy of the Municipal Public Accounts Committee (MPAC) recommendations, Council Resolution on UIFW as well as a copy of the council approved UIFW Reduction Strategy/ Plan, proof of establishment of the Disciplinary Board (or evidence of progress towards their establishment) including evidentiary evidence demonstrating functionality of the Disciplinary Board and updated audit action plan (where the audit has been completed);
- Those municipalities that received an adverse or disclaimed opinions for the 2020/21 financial year will not receive their funding allocation unless there is a council resolution committing to address these opinions with an implementable plan. The resolution must be signed by each member of the Council and submitted to National Treasury by 1 October 2023;
- The Municipal Financial Recovery Service progress reporting framework for financial recovery plans must be complied with by municipalities under intervention in terms of S139 of the Constitution;
- Additionally, those municipalities that have outstanding audits for both the 2020/21 and 2021/22 financial years as well as municipalities with outstanding 2021/22 audit opinions that also received an adverse or disclaimer opinion in 2020/21, will also not receive their allocation; and
- Any other outstanding documents as per the legal framework have been submitted including the AFS submission (municipality only and consolidated AFS).

Failure to comply with the above criteria will result in National Treasury invoking section 38 of the MFMA which empowers National Treasury to withhold a municipality's equitable share if the municipality commits a serious or persistent breach of the measures established in terms of Section 216(2) of the Constitution which includes reporting obligations set out in the MFMA and National Treasury requests for information in terms of Section 74 of the MFMA.

9. The Municipal Budget and Reporting Regulations

9.1 Schedule A – version to be used for the 2023/24 MTREF

National Treasury has released Version 6.7 of the Schedule A1 (the Excel Formats) which is aligned to Version 6.7 of the *m*SCOA classification framework and must be used when compiling the 2023/24 MTREF budget.

All municipalities must prepare their 2023/24 MTREF budgets in their financial systems and produce the Schedule A1 directly from their financial system.

Municipalities must start early enough to capture their tabled budget (and later the adopted budget) in the budget module in the financial system and must ensure that they produce their Schedule A1 directly out of the budget module. **Manual capturing on the A1 schedule version 6.7 is not allowed** in terms of the *m*SCOA Regulations.

National Treasury has protected the A1 schedule version 6.7 in order to ensure that the Schedule A1 generated directly from the financial system and not populated manually.

The budget, adjustments budget and Section 71 monthly reporting Schedules that have been regulated in terms of the MBRR have also been aligned to the *m*SCOA chart version 6.7. The revised MBRR Schedules for the 2023/24 MTREF and its linkages to the financial and non-financial data string are available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Pages/default.aspx

9.2 Assistance with the compilation of budgets

If municipalities require advice with the compilation of their respective budgets, specifically the budget documents or Schedule A1, they should direct their enquiries to their respective provincial treasuries or to the following National Treasury officials:

Province	Responsible NT officials	Tel. No.	Email
Eastern Cape	Matjatji Mashoeshoe	012-315 5553	Matjatji.Mashoeshoe@treasury.gov.za
	Pitso Zwane	012-315 5171	Pitso.Zwane@Treasury.gov.za
	Oreal Tshidino		Ophulusa.Tshidino@Treasury.gov.za
Buffalo City	Mandla Gilimani	012-315 5807	Mandla.Gilimani@treasury.gov.za
Free State	Sifiso Mabaso	012-315 5952	Sifiso.mabaso@treasury.gov.za
	Cethekile Moshane	012-315 5079	Cethekile.moshane@treasury.gov.za

National and provincial treasuries will analyse the credibility of the data string submissions.

9.3 Assessing the 2023/24 MTREF budget

National and provincial treasuries will assess the 2023/24 MTREF budgets to determine if it is complete, funded and complies with the *m*SCOA requirements. The *m*SCOA data strings for the tabled (TABB) and adopted (ORGB) budgets will be used for this assessment.

Municipalities should note that the MFMA legislated timeframes for submission of the tabled and adopted budgets are outer timeframes. In this context, different to previous MTREF's, going forward, if the municipality's budget is unfunded, council in terms of MFMA section 74 is requested to table and/ or adopt a budget funding plan together with the budget at the same time.

The Treasuries' **assessment period** of municipal budgets will be from **01 April to 30 June 2023 for both the tabled and adopted budgets**. **However,** (in a context of some municipalities persisting with unfunded budgeting practices)**, if the municipality tabled and/ or adopted an unfunded budget in the 2022/23 MTREF**, the municipality must adjust its schedule of key budget deadlines to facilitate an earlier Treasuries' assessment thereof between 1 April to 15 May 2023 for both tabled and adopted budgets. In this period the national and provincial treasuries will evaluate all municipal budgets for completeness and for being fully funded. Any adjustment that needs to be made must be done before the start of the municipal financial year on 30 June 2023.

Importantly, in order to generate an adopted budget (ORGB) data string, the budget must be locked immediately on the financial system at the start of the new municipal financial year on 1 July. Therefore, once the ORGB data string has been generated, errors in the ORGB can only be corrected via an adjustments budget in February of each year. In terms of the design principles of *m*SCOA, municipalities are not allowed to open the budget on the system for corrections after it has been locked. This means that the tabled budget data string (TABB) should in fact be verified and errors in the TABB should be corrected in the ORGB **before the adopted budget is locked on the financial system and the ORGB data string is generated**.

Amending an unfunded, incomplete and erroneous budget through an adjusted budget is also not encouraged as the National Treasury only considers an adjusted budget in the third and fourth quarter of the financial year for analysis and publication purposes. This will result in overspending and unauthorised expenditure not been monitored in the first six months of the financial year.

The National Treasury would like to emphasise that ***where municipalities have adopted an unfunded budget together with a funding plan that lacks credibility, they will be required to correct the funding plan and ensure that it is credible. The credible funding plan must be immediately adopted by the Municipal Council, and the changes to the***

budget must be effected in the mid-year adjustments budget to ensure compliance with Section 18 of the MFMA.

Municipalities with municipal entities are once again reminded to prepare consolidated budgets and in-year monitoring reports for both the parent municipality and its entity or entities. The following must be compiled:

- An annual budget, adjustments budget and monthly financial reports for the parent municipality in the relevant formats;
- An annual budget, adjustments budget and monthly financial reports for the entity in the relevant formats; and
- A consolidated annual budget, adjustments budget and monthly financial reports for the parent municipality and all its municipal entities in the relevant formats.

The budget and data strings that the municipality submits to National Treasury must be a consolidated budget for the municipality (including entities). The budget of each entity must be submitted on the D Schedule in pdf format.

In the past it was noted that municipalities have challenges to align the audited outcomes on the financial system to A1 Schedule. Municipalities must ensure that the audited figures and adjusted budget figures captured on the A1 Schedule aligns to the annual financial statements and Schedule B respectively.

10. Submitting budget documentation and A1 schedules for 2023/24 MTREF

To facilitate oversight of compliance with the Municipal Budget and Reporting Regulations, accounting officers are reminded that:

- Section 22(b)(i) of the MFMA requires that, ***immediately*** after an annual budget is tabled in a municipal council, it must be submitted to the National Treasury and the relevant provincial treasury in electronic formats. If the annual budget is tabled to council on **31 March 2023**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Monday, 03 April 2023**; and
- Section 24(3) of the MFMA, read together with regulation 20(1) of the MBRR, requires that the approved annual budget must be submitted to both National Treasury and the relevant provincial treasury within ten working days after the council has approved the annual budget. However, given that municipalities are generating the annual budgets directly from the financial system as required by the *m*SCOA Regulations and that the budgets must be verified before it is locked on the financial system and transacted against, municipalities must submit the approved budget to the National Treasury and the relevant provincial treasury in electronic formats ***immediately*** after approval by the municipal council. Therefore, if the annual budget is tabled to council **on 31 May 2023**, the final date of submission of the electronic budget documents and corresponding *m*SCOA data strings is **Thursday, 01 June 2023.**

Since the 2020/21 MTREF, municipalities are no longer required to submit hard copies of all required documents including budget related, Annual Financial Statements and Annual Reports to National Treasury via post or courier services. Electronic copies must be submitted in PDF format to the GoMuni Upload portal.

10.1 Expected submissions for 2023/24 MTREF

The following information should be submitted for the 2023/24 MTREF:

- The budget documentation as set out in the MBRR. The budget document must include the main A1 Schedule Tables (A1 - A10);
- The non-financial supporting tables (A10, SA9, SA11, SA12, SA13, SA22, SA23, SA24 etc. and any other information not contained in the financial data string) in the A1 schedule must be submitted in the prescribed *m*SCOA data string in the format published with Version 6.7 of the A1 schedule;
- The draft and final service delivery and budget implementation plan (SDBIP) in electronic PDF format;
- The draft and final IDP;
- The council resolution for the tabled and adopted budgets;
- Signed Quality Certificate as prescribed in the MBRR for the tabled and adopted budgets;
- D Schedules specific for the entities;
- A budget locking certificate immediately at the start of the new municipal financial year on 1 July;
- The National or Provincial treasury input to the tabled budget must be included as an Annexure to the adopted budget together with the municipality's explanation of how such was addressed in the adopted budget. If not, the explanation should provide reasons; and
- The bulk water-and electricity invoices for the 3 months immediately preceding respectively the tabled and adopted budgets, must be included as an annexure to the tabled and adopted budgets as part of supporting the municipalities provision for and calculations of payments to bulk suppliers over the 2023/24 MTREF.

10.2 Portals for the submission of information

Municipalities must ensure that the documents are submitted to the correct portals/ mailboxes. These portals/ mailboxes are:

https://lg.treasury.gov.za/ibi_apps/signin (GoMuni Upload Portal) – All documents required in terms of legislation, including:

- *m*SCOA Data Strings by approved registered users;
- Budget-related and in-year documents and schedules (A, B and C) by approved registered users; and
- Reconciliation of the valuation roll to the financial system (as per MFMA Circular No. 93).

Budget related documents and schedules must be uploaded by approved registered users using the GoMuni Upload Portal at: https://lg.treasury.gov.za/ibi_apps/signin. The GoMuni Upload Portal does not have the same size restrictions encountered with lgdocuments@treasury.gov.za, but requires all documents to:

- Be in PDF format only; and
- Each PDF file must NOT contain multiple document e.g. council resolution and quality certificate within the budget document. Each document type must be identified clearly and uploaded separately.

Municipalities may ***only*** send electronic versions of the above documents to lgdocuments@treasury.gov.za when experiencing problems with the GoMuni Upload Portal.

lgdataqueries@treasury.gov.za – Database related and submission queries and the grant rollover templates.

lgdocuments@treasury.gov.za – Any additional information required by National Treasury that is not listed under the GoMuni Upload portal such as the documents meeting the criteria to release Equitable Share and the contact list information.

FMCMM and Audit Action plans – using the web-enabled systems and as articulated in MFMA Circulars No. 113 and 114.

Please do not submit the same document to ALL the platforms listed above as it means that our Database Team must register the same documents three times which slows down the process. ***Any document/ queries that are submitted to the incorrect portal/ mailbox will be deleted and not processed***.

10.3 Publication of budgets on municipal websites

In terms of section 75 of the MFMA, all municipalities are required to publish their tabled budgets, adopted budgets, annual reports (containing audited annual financial statements) and other relevant information on the municipality's website. This will aid in promoting public accountability and good governance.

All relevant documents mentioned in this circular are available on the National Treasury website, http://mfma.treasury.gov.za/Pages/Default.aspx. Municipalities are encouraged to visit it regularly as documents are regularly added / updated on the website.

10.4 Communication by municipal entities to National Treasury

Municipal entities should not request meetings directly from National Treasury. National Treasury will only engage the entities through the parent municipalities. This includes all communications apart from the legislative reporting requirements.

10. SUBMITTING BUDGET DOCUMENTATION AND A1 SCHEDULES FOR 2023/24 MTREF 21

Introduction

This budget circular is a follow-up to MFMA Circular No. 122 that was issued on 09 December 2022. It aims to provide further guidance to municipalities with the preparation of their 2023/24 Medium Term Revenue and Expenditure Framework (MTREF) budgets and should be read together with the budget circulars that have been issued previously.

The grant allocations as per the 2023 Budget Review and the 2023 Division of Revenue Bill are also key focus areas in this circular. Municipalities are reminded to refer to the annual budget circulars of the previous years for guidance in areas of the budget preparation that is not covered in this circular.

1. The South African economy and inflation targets

GDP is expected to grow by 0.9 per cent in real terms in 2023, compared with an estimate of 1.4 per cent at the time of the medium-term budget policy statement (MTBPS), recovering slowly to 1.8 per cent in 2025.

The economic outlook faces a range of risks, including weaker-than-expected global growth, further disruptions to global supply chains and renewed inflationary pressures from the war in Ukraine, continued power cuts and a deterioration in port and rail infrastructure, widespread criminal activity, and any deterioration of the fiscal outlook.

Government is taking urgent measures to reduce load-shedding in the short term and transform the sector through market reforms to achieve long-term energy security. Several reforms are under way to improve the performance of the transport sector, specifically freight rail and to improve the capability of the state.

The following macro-economic forecasts must be considered when preparing the 2023/24 MTREF municipal budgets.

Table 1: Macroeconomic performance and projections, 2021 - 2026

Fiscal year	2021/22	2022/23	2023/24	2024/25	2025/26
	Actual	Estimate	Forecast		
CPI Inflation	4.9%	6.9%	5.3%	4.9%	4.7%

Source: Budget Review 2023.

Note: the fiscal year referred to is the national fiscal year (April to March) which is more closely aligned to the municipal fiscal year (July to June) than the calendar year inflation.

2. Key focus areas for the 2023/24 budget process

2.1 Local government conditional and unconditional grants allocations

Over the 2023 MTEF period, local government allocations will increase by a total of R14.3 billion, made up of R8.1 billion in the local government equitable share and R6.2 billion in direct conditional grants. This takes the total direct allocation to R521.7 billion over the same period. These allocations alleviate some of the financial pressures, particularly in basic services, where the costs of providing services are rising.

The *local government equitable share* and related allocations increases at an annual average rate of 7.8 per cent and municipal conditional grants increase by 3.5 per cent over the 2023 MTEF period.

The *local government equitable share* formula has been updated to account for projected household growth, inflation and estimated increases in bulk water and electricity costs over the 2023 MTEF period. It also includes allocations for the operational and maintenance costs associated with the provision of free basic services.

The 2023 Budget has ensured that sufficient provision has been made to ensure that all municipalities are fully subsidised to support indigent households. Following this, R1.35 billion has been left unallocated in the LGES formula for 2023/24 to serve as a precautionary measure should municipal electricity tariffs exceed the 20.7 per cent provided for in the formula (see section 5.7 on why this is above the 18.7 per cent approved by the Energy Regulator). If the actual increase in municipal bulk tariffs exceeds the provision made in the formula, it will be the first call on those unallocated funds. We will consider funding broader cost relief measures for municipalities if funds remain available after that.

The R6.2 billion in direct conditional grants is funded from the Budget Facility for Infrastructure (BFI) and is broken down as follows:

- **R2.2 billion** added to the Urban Settlements Development Grant to fund the implementation of projects in the eThekwini Metropolitan Municipality and the City of Johannesburg;
- **R461 million** added to the Public Transport Network Grant to align funding with the revised implementation plan and cash flow projections for the City of Cape Town's MyCiTi public transport network project; and
- **R3.4 billion** added to the Regional Bulk Infrastructure Grant to fund 3 water projects in Sol Plaatje Local Municipality, Drakenstein Local Municipality and Nelson Mandela Bay Metropolitan Municipality.

Notable changes to the conditional grants system

Housing emergency grants
Changes to conditional grants in the 2023 Budget include the discontinuation of the conditional emergency housing grants for provinces and municipalities. The baselines of these two grants are shifted to the Department of Human Settlements. This will allow the department to respond quickly in the event of an emergency housing need.

Changes to the INEP conditional grant frameworks
As part of government's efforts to accelerate access to electricity thereby addressing the energy crisis, Eskom and municipal INEP grants will begin funding alternative energy technologies such as rooftop solar and energy-saving devices. Due process must be followed to access funding for these new technologies. As a result, both Eskom and municipalities will need to conform to the set requirements by submitting business plans by 31 October 2023. These business plans, will need to be approved by the Department of Mineral Resources and Energy (DMRE) before they can be implemented. Priority should be given to new connections, i.e., non-grid technology should be targeted at households that do not have access to electricity.

The annual Division of Revenue Bill was published on 22 February 2023. The Bill specifies the grant allocations and municipalities must reconcile their budgets to the numbers published therein in compiling their 2023/24 MTREF.

The Division of Revenue Bill, 2023, which includes the annexures outlining allocations to each municipality is available at:
http://www.treasury.gov.za/documents/national%20budget/2023/default.aspx

2.2 Re-enforcing improved intergovernmental relations in the 2023 Division of Revenue Bill, (DoRB)

In order to strengthen the system of good intergovernmental relations as envisaged in the Chapter 3 of the Constitution and subsequent related legislation, municipalities are reminded of Section 31(3) of DoRA that provides for the facilitation of personal liability for unnecessary litigation. As required by subsection (1)(a) of this clause, read together with section 41(3) of the Constitution, a municipality may only institute litigation against any organ of state, state-owned enterprise, public- and/ or municipal entity after exhausting all dispute resolution mechanisms required and/ or available to the municipality in terms of existing intergovernmental relations processes, policy and/ or any related contract with the municipality, including in terms of the Municipal Finance Management Act, 2003, the Intergovernmental Relations Framework Act, 2005, and/ or the Electricity Regulation Act, 2006 (dispute processes administered by National Energy Regular of South Africa (NERSA)).

Section 31 is amended to include a clause that requires that where an organ of state decides to institute judicial proceedings against another organ of state, it must, within 10 working days of its decision, notify the National Treasury, the relevant provincial treasury, the Department of Cooperative Governance and the Auditor-General, of the details of compliance with Chapter 4 of the Intergovernmental Relations Framework Act, 2005, including an explanation of the failure to resolve the dispute.

2.3 Conditional grants usage

Conditional grant funds may only be used for the purposes, and subject to the conditions specified in the framework for each conditional grant. These conditions are binding in terms of sections 11 and 12 of the annual Division of Revenue Act. Any instruction by a municipal, provincial, or national official or politician that is inconsistent with the framework of a conditional grant is invalid. Municipalities are reminded that in terms of section 32 of DoRA, spending of a grant that is inconsistent with DoRA is considered irregular or unauthorised expenditure.

3. Pension and medical aid fund defaults

There has been a growing trend where municipalities are deducting pension and/ or medical aid contributions from officials but are not paying it over to their pension- and/ or medical aid fund. This is inconsistent with the intent and spirit of the MFMA and constitutes an act of financial misconduct in terms of section 171 of the MFMA read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014 and also a financial offence in terms of section 173 of the MFMA read together with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings. Municipal Councils should refer these actions to the Disciplinary Boards for further investigation and should also lay criminal charges against the accounting officer or any other responsible or delegated official who has failed to perform the responsibility outlined in terms of section 65(2)(f) of the MFMA which states that “the accounting officer of a municipality must take all reasonable steps to ensure that the municipality complies with its tax, levy, duty, pension, medical aid, audit fees and other statutory commitments”. Municipal Councils should also consider further measures and actions in terms of the Pension Funds Act, as may be applicable.

4. Municipal Standard Chart of Accounts (*m*SCOA)

4.1 Version 6.7 of the *m*SCOA Chart Go Live

Version 6.7 of the *m*SCOA chart will go live on 13 March 2023, whereafter tabled budget data strings can be uploaded on the GoMuni portal.

For new *m*SCOA chart changes to be considered for version 6.8 of the chart, a Frequently Asked Questions (FAQ) must be logged by 31 August 2023 on the *m*SCOA FAQ database on GoMuni. FAQ queries can be logged at:

https://lg.treasury.gov.za/ibi_apps/portal/mSCOA_FAQ

It is important that the issue logged is described clearly and that sufficient supporting evidence is provided to ensure that all aspects of the issue are considered. After investigating the query logged, the following actions will be taken:

- If the query does not require a chart change, the FAQ will be closed, and feedback will be provided to the logger.
- If the query warrants a chart change, it will be submitted for consideration and approval by the relevant committees within the National Treasury.

Chart changes are communicated in October of each year to allow sufficient time for municipalities and vendors to effect such changes. Chart changes are officially published in the MFMA Budget Circular in December of each year.

4.2 Additional requirements to change municipal financial systems

The cost and risk associated with procuring and implementing a new Enterprise Resource Planning (ERP) financial system necessitate careful consideration and extensive planning to ensure a smooth operational transition. Such a transition takes at least 18 months to conclude and does not come without challenges and disruptions in operations.

The National Treasury will regulate the minimum business processes and system specifications for *m*SCOA by the end of 2024/25. A new transversal tender for the provision of ERP financial systems that complies with these regulations will be put in place once the regulations have been issued. Municipalities should therefore exercise extreme caution when changing their financial systems at this stage to eliminate fruitless and wasteful expenditure by procuring financial systems that might not comply with the said regulations.

Municipalities are reminded to follow the due diligence processes set out in MFMA Budget Circulars No. 93, 98 and *m*SCOA Circulars No 5 and 6 prior to procuring new financial systems to protect them from making incorrect decisions in this regard.

In addition, and **with immediate effect**, municipalities must inform the National and relevant Provincial Treasury of any intention to replace the financial system currently operating at the municipality prior to inviting proposals from system providers. This is a requirement in terms of section 74 of the MFMA. The submission should include:

- A comprehensive motivation with specific reasons for why it is deemed necessary to replace the existing financial system;
- A copy of the service level agreement with minutes of the meetings between the municipality and the current service provider (financial system vendor) during the previous twelve months;
- An assessment to determine which modules of the existing financial system are being utilised by the municipality. Reasons must be provided for modules not in operation. Details and reasons must be provided on the use of third-party systems to provide functionality required in terms of MFMA Circular No. 80;

- An assessment to detail the proficiency of municipal users to utilise the current financial system properly. Reasons must be provided if users are not proficient in the use of the system and the details must be provided on how the system is being operated and transactions are being captured on the system in such cases;
- The date on which the existing financial system was implemented, the procurement and implementation costs and the current operational costs thereof must be disclosed;
- The organisational structure, specifically for the IT department/ function, clearly indicating management capacity and responsibility for operating the financial system;
- A technical assessment should be submitted indicating how the existing ICT infrastructure, server and network comply with the requirements of the current financial system; and
- Copies of all IT strategies, policies and procedural documents including the IT disaster recovery plan must be made available.

The above submissions and all enquiries must be forwarded to lgdocuments@treasury.gov.za. A working committee comprising representatives from the National and Provincial Treasuries, the Office of the Auditor-General and other relevant stakeholders will assess the submissions and respond with its findings. These findings must be tabled in Council and a council resolution must be submitted to lgdocuments@treasury.gov.za within 14 working days after the Council meeting has taken place.

It must be emphasized that the combination of both credible data inputs and an effective financial system is fundamental to ensure the quality and timeliness of financial reporting. If the data input into the financial system is incorrect then any management information generated by the system will lack credibility and reliability for decision making. Furthermore, a municipality with poorly designed business processes will not resolve the problem by implementing a new financial system. Processes must firstly be redesigned with the necessary data validation rules if the municipality is to improve its data integrity. This foundation is integral to ensuring that software applications generate credible information and can be used effectively by municipalities.

5. The revenue budget

Similar to the rest of government, municipalities face a difficult fiscal environment. The weak economic growth has put pressure on consumers' ability to pay for services, while transfers from national government are growing more slowly than in the past. Some municipalities have managed these challenges well, but others have fallen into financial distress and face liquidity problems. These include municipalities that are unable to meet their payment obligations to Eskom, Water Boards and other creditors. There is a need for municipalities to focus on collecting revenues owed to them and eliminate wasteful and non-core spending. It is important to note that the municipal equitable share as a policy instrument is meant to subsidies services to the poorest of the poor and not to pay municipal creditors. This bad practice by municipalities will have to be addressed as a matter of urgency. Municipal creditors should be advised that municipalities cannot use funds allocated for basic service provision to pay creditors.

Municipalities must ensure that they render basic services, maintain their assets and a clean environment. Furthermore, there must be continuous communication with the community and other stakeholders to strengthen awareness and participation and to improve the municipality's reputation. This will assist in attracting investment in the local economy which may result in increased employment.

Some municipalities are experiencing serious liquidity challenges. Therefore, the new leadership is advised to:

- Decisively address unfunded budgets by reducing non-priority spending and improving revenue management processes to enable collection; and
- Address service delivery failures by ensuring adequate maintenance, upgrading and renewal of existing assets to enable reliable service delivery.

5.1 Maximising the revenue generation of the municipal revenue base

Reference is made to MFMA Circulars No. 93, paragraph 3.1 and No. 98, paragraph 4.1. The emphasis is on municipalities to comply with Section 18 of the MFMA and ensure that they fund their MTREF budgets from realistically anticipated revenues to be collected. Municipalities are cautioned against assuming collection rates that are unrealistic and unattainable as this is a fundamental reason for municipalities not attaining their desired collection rates.

The purpose of the above mentioned MFMA Circulars is to ensure that the municipalities are using their entire revenue base as the basis for the revenue budget. It is essential that municipalities reconcile their most recent consolidated valuation roll data to that of the current billing system data to ensure that revenue anticipated from property rates is realistic. The municipalities should implement a data management strategy and develop internal capacity to perform these reconciliations and investigations to improve completeness of billing.

One of the aims of the reconciliation process is to identify exceptions, i.e. records on the general valuation roll that are not on the billing system and records on the billing system and vice versa. In addition, the reconciliation must identify duplicated records, missing data, and data errors. These exceptions should then be investigated, and remedial action strategies developed for data cleansing and other corrective actions. The Debtors Ageing data should also form part of the reconciliation process so that “debtors” can be tracked and assessed at a property record level and prioritised for verification of rates liability measured against a MPRA property and owner.

To facilitate reconciliation of the separate databases (General Valuation Roll and Billing), a unique property identifier (common primary unique link code) must be created and populated for each rateable property on the general valuation roll system and on the rates billing system. This property identifier must be unique, without duplicates, and must remain constant for the life of the property. The standards adopted by the South African Council for the Property Valuers Profession (SACPVP), namely South African Standard: Municipal Valuations for Property Rating, specifies that the Surveyor General Code SG 21-digit Code, derived, and created from the property description, be applied for all registered full title properties defined in terms of part (a) of the definition of property.

For all other MPRA defined property, Part (a) Sectional Title, Part (b) Registered Rights, Part (c) Land Tenure Rights and Part (d) PSI and, apportioned multiple use property in terms of sections 8(2)(i) and 9(2), an added suffixed 5 digits to the SG 21-digit code must be assigned by the designated municipal valuer, thereby creating a unique 26-digit code. The municipality must ensure that the SG21 digit code and 26-digit coding system is applied in their valuation roll management system and billing system and engage with their designated municipal valuer and systems service providers to implement the unique property identifier.

Further it is important that municipalities who are performing a general valuation (GV) to implement a new valuation roll on 1 July 2023, must also as best practice compare the current consolidated roll to the new valuation roll. This will identify any anomalies and errors of category of property and market values for review and investigation and the option of lodging an objection by the municipality, where applicable. This process should also identify outliers and shifts in market values by category and area so that tariffs on the new roll can be modelled and determined in an equitable manner to avoid rates shocks.

Municipalities should undertake this exercise as a routine practice during the budget process so that supplementary adjustments to the valuation roll are kept up to date. In order to ensure that the most updated information is used for the reconciliations, municipalities are reminded to adhere and comply with Section 23(1)(2) of the MPRA and therefore use the Part A register as the basis for performing the reconciliations going forward.

Furthermore, municipalities are also advised and expected to comply with Section 8(1) of the MPRA in terms of the billing methodology that should to be specified within their policies to ensure that the correct categories (based on the selection made by the municipality) are used in the reconciliation process.

The list of exceptions derived from this reconciliation will indicate where the municipality may be compromising its revenue generation in respect of property rates or whether the municipality is overstating its revenue budget.

A further test would be to reconcile this information with the Deeds Office registry. In accordance with the MFMA Circular No. 93, municipalities are once more requested to submit their reconciliation of the Valuation roll/ Part A register to the billing system to the National Treasury on a quarterly basis by no later than the 10th working day after the end of the quarter. A detailed action plan must accompany the reconciliation where variances are noted.

The above information must be uploaded by the municipality's approved registered user(s) using the GoMuni Upload Portal at: https://lg.treasury.gov.za/ibi_apps/signin. If the municipality experience any challenge uploading the information, a request for an alternative arrangement may be emailed to linda.kruger@treasury.gov.za.

Municipalities are reminded of the need to clearly communicate the GV appeals and objection process to residents to ensure that any disputes are timeously resolved.

Revenue Collection – No operation can be sustainable if it does not collect its revenue. A municipality is no different. There is a misconception that a municipality may not interrupt or restrict the supply of water services of a defaulting consumer. The National Treasury confirms that neither the Water Services Act, 1997 (Act No. 108 of 1997) or any other legislation prevents a municipality from cutting the supply of water to a defaulting consumer unless the consumer is an indigent in which case the water services to that household must be restricted to the national free basic water limit of 6 kilolitre water monthly (or 50 kilowatt hours in the case of free basic electricity monthly). This was confirmed by the Constitutional Court in the matter of Mazibuko and Others v City of Johannesburg and Others (CCT 39/09) [2009] ZACC 28; 2010 (3) BCLR 239 (CC); 2010 (4) SA 1 (CC) (8 October 2009).

Municipalities are urged to use the restriction/ interruption of supply of both water and electricity services as a collection tool. Effective from the tabling and adoption of the 2023/24 MTREF, municipalities' By-laws and policies must facilitate this and clearly stipulate the order in which any partial payment of the consolidated municipal bill (including property rates) will be applied as well as the process before the supply of water and electricity services will be cut. The National Treasury recommended that any partial payment firstly be applied to property rates, wastewater, waste management, water and lastly to electricity. When interrupting or restricting the supply of water it is important that such is undertaken together with the municipal engineer(s) to ensure a continued minimum supply of waste-water.

Municipalities should develop a Wheeling Framework to allow for the transmission of energy across their networks. These wheeling frameworks provide an opportunity for municipalities to generate revenue from their distribution networks. Provincial Treasuries or National Treasury can be approached for support to develop these frameworks.

5.2 Funding Depreciation

The information shared in Circular 115 regarding the funding of the depreciation refers. It is important to note that depreciation represents the cost of using assets in service delivery and forms part of the total cost of providing the municipal service. Accordingly, it should be included in the setting of cost reflective tariffs to recover the full cost of rendering the service, failing which the depreciation will not be cash backed on Table A7 and will remain a journal entry with no value as mentioned in MFMA Circular No. 115.

5.3 Tariff-setting – the impact of loadshedding

Loadshedding not only affects the electricity service but also some municipalities' ability to pump water, thereby negatively impacting the stability of water supplies and the related functioning of the wastewater reticulation network. The loadshedding crisis has been declared a state of disaster and will require tough budgeting choices for municipalities to make sure that basic municipal services are sustained. The regulations published in the Government Gazette No. 48152 on 27 February 2023 in terms of the Disaster Management Act, 2002 (Act 57 of 2002) require municipalities to "ensure continuous operation of water infrastructure and other specified essential infrastructure, including by installing alternative energy sources or other measures to provide an uninterrupted power supply." Municipalities are also required to "mobilise available resources" and "provide funds for this purpose, subject to affordability." As an immediate interim solution back-up electricity to pump water should be prioritised while being mindful of its affordability within the municipality's available funding sources and other critical priorities. The municipality need to adequately plan and prioritise funding in its 2023/24 MTREF for this purpose, including:

- When planning to pump water/ maintain the wastewater service by way of any alternative solution(s), it is important that the municipality properly plan and budget for the associated capital and operational costs to operate and maintain the solution(s) over the 2023/24 MTREF and longer-term;
- Any additional cost the municipality already incurred in this regard during the period of elevated loadshedding since December 2022 should be projected to continue in 2023/24 i.e. diesel to operate a generator;
- Although a state of emergency has been declared to deal with the continual loadshedding challenges in the country, it is likely that loadshedding will continue during the 2023/24 municipal financial year. It is proposed that municipalities factor in the impact of loadshedding on their electricity revenue projections, taking into account current experience in terms of loadshedding practices by Eskom;
- The additional costs of prolonged loadshedding should be considered;
- Municipalities are always asked to try to balance full cost recovery on services with affordability for their residents. In practice, this means that where the full increase in the cost of a service is not passed on to consumers, municipalities must offset the increased costs through savings identified elsewhere in their operations. Therefore, **reducing/ limiting overall expenditure** is a key part of budgeting for the response to loadshedding. The municipality should stick to its core mandate and functions and carefully review overall expenditure to manage the net effect. Measures should include aggressively cutting costs, frills, and vanity projects, dealing with bloated administrations and structures possibly duplicated across Municipal Manager and Mayoral offices, and applying for exemptions from the annual salary increases if these are not affordable;
- While municipalities are urged to maximise efficiency in their operations, tariff setting efforts should consider the need to make additional provision for repairs and maintenance associated with infrastructure breakdowns during loadshedding;
- **Reducing/ limiting overall expenditure –** the municipality should stick to its core mandate and functions – it is necessary to carefully look at the overall expenditure side to manage the net effect, including aggressively cutting costs, fancy, frills, vanity

projects, deal with bloated admin- and structures possibly duplicated across Municipal Manager and Mayoral offices, and apply for exemptions from the annual salary increases; and
- The cost should be considered and included when setting the tariffs of the service(s) to which it relates.

Municipalities should also budget for reduced bulk purchases and sales to municipal customers based on the same loadshedding assumptions cited above.

Municipalities should carefully monitor their Eskom accounts for any penalties that result from increased demand immediately after a period of loadshedding is ended. Eskom has indicated that they will reverse any penalties for exceeding notified maximum demand that results from the implementation of loadshedding. This should be factored into the tariff calculation to ensure that consumers are not overcharged.

Lastly, it is important to note that a municipality may only introduce a load-shedding levy or surcharge with the approval of the Minister of Finance and in terms of the legislated processes set-out in the MFMA and Municipal Fiscal Powers and Functions Act, 2007.

5.4 Setting cost-reflective tariffs

Reference is made to MFMA Circular No. 98, paragraph 4.2. The setting of cost-reflective tariffs is a requirement of Section 74(2) of the Municipal Systems Act which is meant to ensure that municipalities set tariffs that enable them to recover the full cost of rendering the service. This forms the basis of compiling a credible budget. A credible budget is one that ensures the funding of all approved items and is anchored in sound, timely and reliable information on expenditure and service delivery (Financial and Fiscal Commission (FFC), 2011). Credible budgets are critical for local government to fulfil its mandate and ensure financial sustainability.

A credible expenditure budget reflects the costs necessary to provide a service efficiently and effectively, namely:

- A budget adequate to deliver a service of the necessary quality on a sustainable basis; and
- A budget that delivers services at the lowest possible cost.

The National Treasury issued a tariff setting tool and guide as part of MFMA Budget Circular No. 98 (refer item 4.2) on 6 December 2019 and since 2019, has encouraged municipalities to utilise the tool. **With effect, from the 2023/24 MTREF, all municipalities** (**except** *metropolitan cities and district municipalities that do not provide any services*) **as part of both the tabled and adopted MTREF submissions must submit the completed National Treasury tariff tool (in excel format)** illustrating that the revenue component of the budget is credible and funded and that the municipality's tariffs are cost reflective. If the municipality's initial calculation results in high increases to facilitate cost-reflectiveness, it is recommended that such are phased in over 3 to 5 years. The municipality's strategy in this regard should be included as part of the budget narratives.

This tool will assist in setting tariffs that are cost-reflective and enable a municipality to recover costs to fulfil its mandate. Going forward it is also imperative that every municipality fully embrace the Municipal Standard Chart of Accounts (*m*SCOA): costing component. Considering, *m*SCOA implementation is entering its sixth year of implementation, all municipalities must fully embrace and report also utilising the costing segment correctly. The National Treasury Municipal Costing Guide is available on the link below on the National Treasury website.

http://mfma.treasury.gov.za/Guidelines/Documents/Forms/AllItems.aspx?RootFolder=%2fGuidelines%2fDocuments%2fMunicipal%20Costing%20Guide&FolderCTID=0x0120004720FD2D0551AE409361D6CB3E122A08.

5.5 Tariffs – achieving a balance between cost-reflectiveness and affordability

National Treasury encourages municipalities to maintain tariff increases at levels that reflect an appropriate balance between the affordability to poorer households and other consumers while ensuring the financial sustainability of the municipality.

When setting tariffs, it is therefore critical to understand the economic environment specific to the municipality and consideration should include at least –

- *The socio-economic profile undertaken for the municipality* available on the National Treasury GoMuni portal – municipalities are encouraged to annually update their own socio-economic profile using the template model available on GoMuni;
- *The most recent average monthly household income in the municipality* as per Statistics South Africa (Stats SA) available on Statistics South Africa | Improving Lives Through Data Ecosystems (statssa.gov.za);
- *The average property value in the municipality* per its most recent approved general valuation roll and/ or supplementary general valuation roll;
- *The number of indigent households in the municipality,* including any variation in the number of indigent households included in the Equitable Share: free basic services component for the municipality vs the municipality's own indigency level discretion; and
- *The economic drivers and activities specific to the municipal area*[1]*; etc*.

The municipality's tariff-setting or other committee tasked with this role must understand and deliberately reflect on this context during the tariff-setting process. Considering the average monthly household income, the median affordable municipal bill would ideally not exceed proportionally approximately 10 to 15 per cent the average monthly household income. This median affordable bill, in combination with the median average property value should inform the basis to determine any rebates to households with income below the median. Furthermore, municipalities contemplating to increase free basic electricity allocations as an indigent relief measure, should do so only after careful consideration of the long-term financial impact that such a decision might have.

It is also important when setting particularly water and electricity tariffs that municipalities are encouraged to set two-tier tariffs, that include a basic availability charge to recover the fixed (direct and indirect) cost associated with the service in conjunction with consumption-based tariff bands. For example, in a drought, such tariffs will facilitate the ability to pay for infrastructure and maintenance, treating chemicals and salaries, etc. while parallel facilitating water restriction based on inclining tariffs as consumption increase. Furthermore, it is important to link the municipality's water tariffs to dam levels, also approved as part of the budget process. For example, if the dam levels drop to 60 per cent the first tier of restriction tariffs should become applicable in terms of the municipality's approved tariff policy.

It is also noted that NERSA approves seasonal tariffs for Eskom but not necessarily for the municipality. It is important that the municipality clearly factors this in its tariff application to NERSA, illustrating the cash flow crunch if the municipality is not similarly allowed a seasonal tariff to recover the higher Eskom bulk cost during winter months.

Lastly, municipalities are cautioned against setting tariffs that include operating inefficiencies. This could lead to tariffs falling into the unaffordable range.

[1] The spatialised tax data is now available through National Treasury for all municipalities that provides an up to date information on economic activity within a municipal boundary.

The Consumer Price Index (CPI) inflation is forecasted to be within the 3 to 6 per cent target band; therefore, municipalities are required to ***justify all increases in excess of the* projected inflation target for 2023/24** in their budget narratives and pay careful attention to tariff increases across all consumer groups. In addition, municipalities should include a detailed account of their revenue growth assumptions for the different service charges in the budget narrative.

Additional loadshedding considerations when calculating anticipated revenue collection rates include:

- Consumption patterns amongst pre-paid users who work more sparingly with electricity units. This can have a lagging effect on revenue estimations i.e. although units are paid for up front, it is not necessarily used in high-demand periods; and
- A decline in average consumption patterns for post-paid customers.

As part of its debtor management strategy municipalities should clearly communicate the impact of loadshedding on municipal tariff setting, including through education campaigns. Consumers will expect a decrease in their electricity bills as consumption drops due to loadshedding. Not understanding the impact of tariff structures (fixed and demand-driven components) can create distrust and reduce willingness to pay municipal accounts.

5.6 Municipal Debt Relief

An optimally designed debt solution for Eskom can leverage the structural reform of the electricity sector that is needed both on the Eskom side and the municipal side, however, the municipal debt owed to Eskom pose a material risk to any Eskom debt relief package. In parallel the challenge of defaulting municipalities cannot be separated from a consumer culture to not pay for services.

Municipal Debt Relief that is **conditional and application based**, has therefore been sanctioned. The relief is aimed to correct the underlying behaviour and operational practices in defaulting municipalities and Eskom while in parallel, progressively introducing a smart metering solution to change consumer behaviour by instilling a culture of payment for services consumed. The proposal consists of 4 elements:

i. **Eskom will write-off all debt municipalities owe** as on 31 March 2023 (excluding the March 2023 current account). This will be done over three national financial years and require as a critical qualification that municipalities monthly honour their current (monthly consumption) Eskom and water accounts going forward and maintain a minimum average quarterly collection, etc;
ii. Secondly, **new mechanisms are explored to resolve non-payment** – this to include a dispute ombud mechanism and re-assigning the license of persistent defaulters;
iii. Thirdly, Eskom will continue to **implement a regime of installation of pre-paid meters** in Eskom supplied areas to improve Eskom collection. Municipalities are additionally encouraged to adopt a similar operating regime; and
iv. Lastly, the National Treasury will continue to implement municipal revenue enhancement initiatives, including a transversal tender for a smart pre-paid meter solution to change to a forward looking culture of payment of the consolidated municipal bill.

More details on the application process and related conditions for municipalities will soon be outlined and published through a separate MFMA Circular.

5.7 Bulk Account Payments and Concessions

Since 2018/19, intense work was undertaken to resolve systemic and structural issues pertaining to the electricity function in municipalities. Core to this work was addressing the

escalating Eskom debt that threatened the sustainability of Eskom as well as that of municipalities.

During the process, Eskom agreed to provide relieve in certain areas. Municipalities are reminded of the following concessions that remain in place:

- The interest rate charged on overdue municipal bulk accounts were reduced from prime plus 5 per cent to prime plus 2.5 per cent;
- Payment terms were extended from 15 days to 30 days for municipal bulk accounts; and
- Eskom allocation of municipality payments to capital first and then to interest.

These concessions align to the MFMA and are meant to curb municipal growing debt levels by allowing a more conducive payment regime than what was previously employed. In addition, municipalities are urged to budget for and ring-fence their payment of bulk services. Bulk current account payments must be honoured religiously to avoid stringent application of the bulk suppliers' credit control policy.

Municipalities are also urged to enforce a culture of payment for services through their normal credit control processes. In this regard it should be noted that municipalities are only compensated for free basic services based on an indigent user component calculation through the equitable share. As such, a municipality's allocation of free basic services to all of the municipality's consumers is not funded in the equitable share. Every municipality, during the budget process, must consider the affordability to the municipality when allocating free basic services above the national norm and to consumers other than indigent consumers. **If a municipality has any arrears on any of its bulk supplier's accounts, it must limit its provision of free basic services to registered indigent consumers only**.

5.8 Critical Notice Affecting STS Meters

As highlighted in previous MFMA Circular No. 115 (dated 04 March 2022) municipalities are once again alerted that there is still a pending business risk to the prepayment metering industry that requires urgency of action. The token identifiers (TID) used to identify each credit token will run out of available numbers in November 2024, at which point all STS meters will stop accepting credit tokens.

The remedy is to visit each meter and enter a special set of key change tokens in order to reset the meter memory. Municipalities are advised that the National Treasury, through the Office of the Chief Procurement Officer (OCPO), will soon facilitate a transversal contract for the provision of auditing, re-calibration and re-configuration services for standard transfer specification compliant prepayment meters that align to minimum and critical technical specifications for local government. In this respect the development of the transversal contract for smart prepaid meters as per NRS 049 (per latest approved version) is at an advanced stage and should be issued shortly by National Treasury.

If your municipality or municipality entity is currently in the process of procuring for a solution or is planning to, you are cautioned:

- Against proceeding prior to the OCPO having issued and awarded the transversal contract for the provision of inter alia auditing, re-calibration and re-configuration services for standard transfer specification compliant prepayment meters Terms of Reference (ToR); and
- That, with immediate effect, you must inform and obtain the National Treasury's input prior to proceeding with any current procurement or proposed procurement for this purpose or any related solution or similar. This is to prevent unnecessary and wasteful expenditure on such solutions. Any request for National Treasury's input on the current or planned procurement of any related solution or similar or component thereof, must be

directed to the National Treasury for the attention of the Local Government Budget Analysis Unit (Mr. Sadesh Ramjathan) at Sadesh.Ramjathan@treasury.gov.za.

In this regard, municipalities will have two options to choose from:

- Firstly, to pursue the route of auditing, re-calibrating and re-configuring services for standard transfer specification compliant prepayment meters; and/ or
- Secondly, to replace the old meter with a new smart prepaid meter.

For both options, the municipality will have to budget accordingly as no additional funding will be available through the national fiscus.

Your assistance in proactively ensuring that the municipality and/ or its entities are not adversely affected by these processes will be appreciated.

5.9 Completeness and credibility of revenue related information in the Budget

The MBRR regulates the minimum level of information required from municipalities when compiling, implementing, monitoring, and evaluating the municipality's financial management situation. Failure to include the minimum required information hampers the municipal council, the public and stakeholders' ability to make informed decisions and engage on the matter. It also limits research, studies, and benchmarking undertaken for local, provincial, and national purposes.

The National Treasury would like to take this opportunity to caution municipalities that the MBRR prescribe the minimum level of information municipalities must include as part of their legal reporting obligations.

Going forward the Treasuries will place increased attention and focus on the adequacy of municipalities' submissions. The National Treasury regards this non-compliance to include the minimum level of information as serious and if persistent will consider applying the available legal sanctions, including recourse in terms of section 216(2) of the Constitution. In this context, National Treasury will particularly focus on the completeness of asset management related information as well as the statistical information required in the A, B and C schedules during the 2023/24 MTREF.

5.10 Eskom Bulk Tariff increases

The National Energy Regulator of South Africa (NERSA) is responsible for the price determination of the bulk costs of electricity. In January 2023, NERSA approved tariff increases of 18.7 per cent in 2023/24 and 12.7 per cent increase in 2024/25. For purposes of calculating the free basic energy subsidy in the local government equitable share formula, the National Treasury has added 2 per cent to these increases. This is in anticipation of higher increases than those published in January, for municipalities, due to the difference in the financial years of Eskom customers and municipalities meaning that Eskom only has nine months to collect the allowable revenue from municipalities. R1.1 billion is added to the free basic energy subcomponent of the free basic services component of the local government equitable share formula to fund these higher tariff increases. To this end, the free basic electricity subsidy in the local government equitable share is calculated based on a 20.7 per cent tariff increase in 2023/24 and a 14.7 per cent increase in 2024/25. In the absence of an approved tariff increase in the outer year of the MTEF period, the formula assumes an increase of 17.7 per cent in 2025/26. This is the average of the estimated increases for the first two years of the MTEF period.

5.11 Updated Municipal Borrowing Policy Framework

Cabinet approved the Update to the Policy Framework for Municipal Borrowing and Financial Emergencies on the 17th of August, 2022. The purpose of the update was to re-examine the original Policy Framework, along with the legislation (i.e. Municipal Finance Management Act – MFMA) that was adopted to implement it, considering the experience with municipal borrowing that has accumulated since 2000.

The following key reforms have been introduced through the Update to the Policy Framework for Municipal Borrowing:

- The Policy Framework for Municipal Borrowing has been updated to introduce the necessary reforms that will expand the scope of responsible municipal borrowing and create an environment that attracts more players (e.g. insurers, pension funds, institutional investors and fund managers, and international Development Finance Institutions) in the municipal debt market space. The original core principles underlying municipal borrowing are maintained (i.e. creditworthy municipalities should borrow prudently to finance capital investment, and that there will be no bail-outs by the provincial or national government);

- The updated policy framework clarifies the role of Development Finance Institutions (DFIs), as it was not clearly articulated in the original policy. DFIs are required to pursue clear and agreed developmental goals, as outlined in the policy. The objective of this approach is to ensure that a DFI lending does not crowd out the private sector. Public-sector lenders, both domestic and foreign, should be guided by a social and developmental investment approach in which demonstrable social outcomes are considered alongside potential financial returns;

- The updated policy framework permits and clarifies innovative infrastructure financing mechanisms (such as pooled financing mechanisms, project finance, tax increment financing, revenue bonds, and pledging of conditional grants) that municipalities can use to leverage municipal borrowing. Municipalities are encouraged to explore these alternatives, and innovative infrastructure financing mechanisms permitted subject to the requirements contained in the Municipal Finance Management Act (MFMA); and

- The participation of both private and public sector market participants in the development of a liquid secondary market for municipal debt securities is also encouraged. The policy proposes options that can be explored to support the development and growth of an efficient and liquid market for municipal debt obligations.

The Updated Municipal Borrowing Policy Framework can be accessed at the MFMA website at the following link http://mfma.treasury.gov.za/Guidelines/Pages/default.aspx.

5.12 Tariff Policies

Municipalities must comply with the provisions of Section 74 of the Municipal Systems Act (MSA) which requires that a municipal council must adopt and implement a tariff policy on the levying of fees for municipal services provided by the municipality itself or by way of service delivery agreements, and which complies with the provisions of this Act and with any other applicable legislation. Municipalities should also ensure that the tariff policies adhere to all the principles outlined in section 74(2) of the MSA. A municipality's tariff policies must also take into consideration variable factors such as water shortages and electricity feedback excess into the municipal system from new generation capacity. Municipalities are urged to develop wheeling and Small-Scale Embedded Generation (SSEG) frameworks to guide the

development of associated tariffs. Municipalities must adopt by-laws to give effect to the implementation and enforcement of their tariff policies.

5.13 Non-Revenue Electricity and Non-Revenue Water/ Revenue Losses

Water Service Authority municipalities and electricity licensed municipalities are urged to align both their non-revenue water and non-revenue electricity indicators and their set targets in the 2023/24 SDBIPs with identifiable infrastructure or operational projects and/ or programmes. Municipalities should track improvements on the baseline information included in the SDBIPs by indicating the volume of water losses (i.e., kilolitres/ mega-litres) and the amount of electricity losses (KwH or MWs) for the previous year. This approach will help to determine the progress of municipalities in curbing losses, which impact on municipal revenues, in both non-revenue water and non-revenue electricity.

6. Burial of Councillors

Salaries, allowances and benefits for political office-bearers and members is managed through Determination of Upper Limits of Salaries, Allowances and Benefits of Different Members of Municipal Councils notice issued by the Minister of Cooperative Governance and Traditional Affairs.

Section 167 of the MFMA provides that a municipality may remunerate its Councillors within the framework of the Public Office-Bearers Act, 1998 (Act No. 20 of 1998), setting the upper limits of the salaries, allowances and benefits for those political office-bearers and members. Any benefit which is not included in the above-mentioned notice constitutes irregular expenditure and recovery thereof from the Councillor concerned is mandatory.

Municipalities may also refer to relevant Councillor Pension Scheme or personal funeral policies in existence for any funeral benefits relating to such Councillor.

7. Funding choices and management issues

Municipalities are under pressure to generate and collect revenue for service delivered. The ability of customers to pay for services is declining and this means that less revenue will be collected. Therefore, municipalities must consider the following when compiling their 2023/24 MTREF budgets:

- Improving the effectiveness of revenue management processes and procedures;
- Cost containment measures to, amongst other things, control unnecessary spending on nice-to-have items and non-essential activities as highlighted in the Municipal Cost Containment Regulations read with MFMA Circular No. 82;
- Ensuring value for money through the procurement process;
- The affordability of providing free basic services to all households;
- Not taking on unfunded mandates;
- Strictly control the use of costly water tankers and fix the water infrastructure to enable the sustainable provision of water;
- Automate business services where possible to increase efficiencies and lower customer costs;
- Prioritise the filling of critical vacant posts, especially linked to the delivery of basic services; and
- Curbing the consumption of water and electricity by the indigents to ensure that they do not exceed their allocation.

Accounting officers are reminded of their responsibility in terms of section 62(1)(a) of the MFMA to use the resources of the municipality effectively, efficiently and economically. Failure to do this will result in the accounting officer committing an act of financial misconduct which will trigger the application of chapter 15 of the MFMA, read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014.

7.1 Employee related costs

The Salary and Wage Collective Agreement for the period 01 July 2021 to 30 June 2024 dated 15 September 2021 through the agreement that was approved by the Bargaining Committee of the Central Council in terms of Clause 17.3 of the Constitution should be used when budgeting for employee related costs for the 2023/24 MTREF. In terms of the agreement, all employees covered by this agreement shall receive with effect from 01 July 2023 and 01 July 2024 an increase based on the projected average CPI percentages for 2023 (5.4 per cent according to the Reserve Bank's Monetary Committee Statement for January 2023) and 2024 (4.8 per cent according to the Reserve Bank's Monetary Committee Statement for January 2023). The forecasts of the Reserve Bank, in terms of the January 2023 and January 2024, shall be used to determine the projected average CPI. Municipalities are encouraged to perform an annual head count and payroll verification process by undertaking a once-a-year manual salary disbursement, to root out ghost employees.

According to the 2021 State of Local Government Finance Report, there are about 165 municipalities that are in financial distress. These municipalities need to ensure that they seek an early exemption from this dispensation of this salary agreement. Municipalities should also avoid paying out leave in cash while having major financial challenges.

7.2 Remuneration of Councillors

Municipalities are advised to budget for the actual costs approved in accordance with the Government Gazette on the Remuneration of Public Office Bearers Act: Determination of Upper Limits of Salaries, Allowances and Benefits of different members of municipal councils published annually between December and January by the Department of Cooperative Governance. It is anticipated that this salary determination will also take into account the fiscal constraints. Municipalities should also consider guidance provided above on salary increases for municipal officials during this process. Any overpayment to councilors contrary to the upper limits as published by the Minister of Cooperative Governance and Traditional Affairs will be irregular expenditure in terms of Section 167 of the MFMA and must be recovered from councilor(s) concerned.

8. Conditional Grant Transfers to Municipalities

8.1 Criteria for the release of the Equitable Share

The equitable share release criteria for 2023/24 were set out in MFMA Circular No. 122. To assist with managing this process, a guiding checklist has been developed (attached hereto as Annexure A) which municipalities can follow throughout the course of the year to ensure that the required documents are timeously uploaded to the GoMuni platform in line with the prescribed deadlines.

Going forward, municipalities will be required to submit the completed checklist as part of the quarterly performance reporting process for quarter 1 of the municipal financial year. According to section 52(d) of the MFMA, the mayor of a municipality must within 30 days of the end of each quarter, submit a report to council on the implementation of the budget and the financial state of affairs of the municipality. The report must then be submitted to National

and Provincial Treasury within 5 days of being tabled in council as per section 32 of the MBRR. The report for quarter 1 of 2023/24 must therefore be submitted to council by the end of October 2023 and submitted to National and Provincial Treasury by no later than 5 November 2023. By including the completed checklist in this report, municipalities confirm their adherence to the equitable share release criteria, including that all supplementary information (as defined in the checklist) was successfully uploaded to the GoMuni platform.

Please note that most of the information required for the release of the equitable share, is already uploaded/ submitted by municipalities as part of existing reporting requirements throughout the year. There are however a few items (clearly marked in the checklist) that does not have a dedicated storage location (for example, payments of employee benefits) on GoMuni. A dedicated Equitable Share Verification Folder will be created on GoMuni for this purpose.

8.2 Criteria for the rollover of conditional grant funds

In terms of Section 21 of the Division of Revenue Act, 2022 (Act No.5 of 2022) (DoRA) in conjunction with the Division of Revenue Amendment Act, 2022 (Act No. 15 of 2022) (DoRAA), the Act requires that any conditional allocation or a portion thereof that is not spent at the end of the 2022/23 financial year reverts to the National Revenue Fund (NRF), unless the rollover of the allocation is approved in terms of subsection (2). Furthermore, the receiving officer, provincial treasury and national transferring officer is required to prove to National Treasury that the unspent allocation is committed to identifiable projects, in which case the funds may be rolled over.

When requesting a rollover in terms of section 21(2) of the 2022 DoRA, municipalities must include the following information with their submission to National Treasury:

1. A formal letter, signed by the accounting officer addressed to the National Treasury requesting the rollover of unspent conditional grants in terms of section 21(2) of the 2022 DoRA;
2. A list of all the projects that are linked to the unspent conditional grants and a breakdown of how much was allocated, spent and the balance per project;
3. The following evidence indicating that work on each of the projects has commenced, as applicable to the specific rollover(s):

    a) Proof that a contractor or service provider was appointed for delivery of the project before 31 March; or
    b) Proof of project tender and tender submissions published and closed before 31 March or with the appointment of contractor or service provider for delivery of service before 30 June in cases where additional funding was allocated during the course of the financial year of the project;
    c) Incorporation of the Appropriation Statement;
    d) Evidence that all projects linked to an allocation will be fully utilised by 30 June 2024 (attach cash flow projection for the applicable grant).

4. A progress report (also in percentages) on the status of each project's implementation that includes an attached **legible implementation plan**);
5. The value of the committed project funding and the conditional allocation from the funding source;
6. Reasons why the grants were not fully spent during the year on the original allocation per the DoRA;
7. Rollover of rollovers will not be considered. Municipalities must therefore not include previous year's unspent conditional grants as rollover request;
8. An indication of the time period within which the funds are to be spent if the rollover is approved; and

9. Proof that the Municipal Manager and Chief Financial Officer are permanently appointed.

No rollover requests will be considered for municipalities with vacant or acting Chief Financial Officers and Municipal Managers for a period exceeding 6 months from the date of vacancy; this also includes acting appointments because of suspensions of either MM or CFO that are more than 12 months.

If any of the above information is not provided or the application is received by National Treasury (Intergovernmental Relations Division) after 31 August 2023, the application will be declined.

In addition, National Treasury will also consider the following information when assessing rollover applications; and reserves the right to decline an application should there be non-performance by the municipality in any of these areas:

1. Compliance with the in-year reporting requirements in terms of sections 71 and 72 of the MFMA and section 12 of the 2022 DoRA, **including the Municipal Manager and Chief Financial Officer signing-off on the information** sent to National Treasury;
2. Submission of the pre-audited Annual Financial Statements to National Treasury by 31 August 2023;
3. Accurate disclosure of grant performance in the 2022/23 pre-audited Annual Financial Statements, (i.e. correct disclosure of grant receipts and spending in the notes to the AFS);
4. Despite the fact that local government is required to comply with to different norms and standards prescribed by different legislations, municipalities are expected to fully comply with the provisions of DoRA that relate to rollover processes and disclose conditional grant performance in the 2022/23 pre-audited Annual Financial Statements (i.e Cash coverage and unspent conditional grants in the Statement of Financial Position) in order to verify grant expenditure; and
5. Cash available reflected in the Statement of Financial Position and Cash Flow Statements and the bank (net position including short term investments) as at 30 June 2023 is equivalent to the unspent amount at the end of the financial year. If the amount that is requested for rollover **is not entirely cash-backed**, such a rollover will not be approved. National Treasury will also not approve portions of rollover requests.

It should be noted that under no circumstances will the National Treasury consider requests to rollover:

1. The entire 2022/23 allocation to the municipality, in cases whereby the rollover request is more than 50 per cent of the total allocation, National Treasury will approve the rollover amount up to 50 per cent of the 2022/23 allocation;
2. Rollover request of the same grant for the third consecutive time. In a case where a municipality is applying for rollover as a result of additional funding, the application will be given a careful consideration;
3. Funding for projects procured through Regulation 32 of the Municipal Supply Chain Management Regulations (Gazette No.27636) – Projects linked to additional funding and disasters are exempted; and
4. A portion of an allocation where the proof of commitment for the rollover application is linked to invoices that were issued before or on 31 May 2023.

8.3 Unspent conditional grant funds for 2022/23

The process to ensure the return of unspent conditional grants for the 2022/23 financial year will be managed in accordance with section 22 of the DoRA. In addition to the previous MFMA Circulars, the following practical arrangements will apply:

Step 1: Municipalities must submit their June 2023 conditional grant expenditure reports according to section 71 of the MFMA reflecting all accrued expenditure on conditional grants and further ensure that expenditure reported to both National Treasury and national transferring officers reconciles;

Step 2: When preparing the Annual Financial Statements, a municipality must determine the portion of each national conditional grant allocation that remained unspent as at 30 June 2023. The unspent grant values must be determined based on the guidance that was provided in *m*SCOA Circular No. 13 in as far as VAT, retention and interest is concerned; and

Step 3: If the receiving officer wants to motivate in terms of section 22(2) of the 2020 DoRA that the unspent funds are committed to identifiable projects, the rollover application pack must be submitted to National Treasury by no later than 31 August 2023.

National Treasury will not consider any rollover requests that are incomplete or received after this deadline.

Step 4: National Treasury will confirm in writing whether or not the municipality may retain any of the unspent funds as a rollover based on criteria outlined above by 20 October 2023;

Step 5: National Treasury will communicate the unspent conditional grants amount by 08 November 2023. A municipality must return the remaining unspent conditional grant funds that are not subject to a specific repayment arrangement to the National Revenue Fund by 17 November 2023; and

Step 6: Any unspent conditional grant funds that should have but has not been repaid to the National Revenue Fund by 17 November 2023, and for which a municipality has not requested a repayment arrangement, will be offset against the municipality's 06 December 2023 equitable share allocation.

All other issues pertaining to Appropriation Statement and reporting on approved rollovers are addressed in the Annexure to MFMA Circular No. 86.

9. The Municipal Budget and Reporting Regulations

9.1 Alignment of Municipal Budget and Reporting Regulations (MBRR) Schedules

The revised Regulated MBRR Schedules (A1, B, C, D, E and F), as aligned to the *m*SCOA chart and GRAP are published on the National Treasury web page and can be accessed using the following link.

http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Documents/Forms/AllItems.aspx?RootFolder=%2fRegulationsandGazettes%2fMunicipal%20Budget%20and%20Reporting%20Regulations%2fDocuments%2f2023%2d24&FolderCTID=0x0120001860D4A2BD7AD042BF8427FC3BB59F67

The alignment of the A1 Schedules required substantial changes to the reporting formats used for budgeting and reporting purposes which required the creation of new A1 Schedule codes to ensure that the data strings populate the new reporting formats. The relevant changes were also made in the reporting formats relating to versions 6.1 to 6.7 of the *m*SCOA chart to ensure that the historical data are populating when reports are drawn from GoMuni.

To ensure that ERP systems generate the A1 Schedule aligned to version 6.7 of the *m*SCOA chart, municipalities and system vendors should refer to the linkages provided on GoMuni. The following reports on GoMuni should be used for this purpose:

- List *m*SCOA account linkages to A1 Schedule based on 6.7 under menu option *m*SCOA Reporting; and
- List *m*SCOA A1 schedule codes WIP (i.e. new A1 Schedule codes) under menu option *m*SCOA Administration.

Both reports can be located under:

https://lg.treasury.gov.za/ibi_apps/portal/Local_Government_Database

The new format for the non-financial data strings A1D and A1F is available on the link below:

http://mfma.treasury.gov.za/RegulationsandGazettes/Municipal%20Budget%20and%20Reporting%20Regulations/Documents/Forms/AllItems.aspx?RootFolder=%2fRegulationsandGazettes%2fMunicipal%20Budget%20and%20Reporting%20Regulations%2fDocuments%2f2023%2d24&FolderCTID=0x0120001860D4A2BD7AD042BF8427FC3BB59F67

The A1D is the data string which populates information which we do not extract from the TABB while the A1F populates the budget information which we do not extract from the ORGB. Municipalities should ensure that they use the new format when submitting the non-financial data strings.

10. Submitting budget documentation and A1 schedules for 2023/24 MTREF

The MFMA and its Regulations require the submission of *m*SCOA data strings for budgets, in-year reporting, and annual financial statements in a specific format and by a required timeframe. The credibility and accuracy of the *m*SCOA data strings must be verified by municipalities prior to submission to the GoMuni Upload portal. Since the financial system must be locked at the end of the month in order to generate a *m*SCOA data string, municipalities may not open closed periods to correct errors. Errors must be corrected in the next open period. Providers of municipal financial systems must ensure that the necessary internal controls are built into the system to prevent the opening of closed periods on the financial system and the bypassing of such controls. This also applies to the correction of information in closed periods for 3rd party systems that should be integrating with the main financial system in terms of the requirements of the *m*SCOA Regulations.

From 1 July 2023, Municipal Managers and Chief Financial Officers will be required to sign off on the financial and non-financial data strings submitted to the GoMuni Upload portal when they submit their data strings. The schedules prescribed in terms of the Municipal Budget and Reporting Regulations (MBRR) populated from the *m*SCOA data strings on National Treasury's Local Government and Reporting System (LGDRS) must also be signed off monthly. These sign-offs are for audit purposes and serves as a confirmation by the municipality that the data strings submitted are accurate. Details on the submission of the signed-off figures will be communicated in due course.

In terms of Section 171 of the MFMA, financial misconduct by municipal officials includes the provision of incorrect or misleading information in any document which must be submitted to the National Treasury.

From 1 July 2023, the GoMuni Upload portal for the monthly in-year data strings will be closed at 16h00 on the 10th working day of each month. All publications by the National and Provincial Treasuries are now solely sourced from the *m*SCOA data strings submitted by

municipalities and several stakeholders including Statistics South Africa (STATSSA), Auditor General South Africa (AGSA), the Reserve Bank, and NERSA are in the process of streamlining some of their reporting to the information contained on the National Treasury Local Government Database and Reporting System (LGDRS). The resubmission of data strings after the legislated timeframes is not only illegal but also causing challenges in data sets used by various stakeholders for analysis and reporting purposes. **No data string submissions will therefore be accepted by the National Treasury after the 10th working day of the respective month**.

ANNEXURE A: Equitable Share Verification Checklist:

General Requirements

Criteria	Verification Requirement	Yes/No
2023/24 Adopted Budget	Council resolution, adopted *m*SCOA budget data strings (ORGB), PDF version of adopted MTREF budget uploaded to GoMuni Upload portal immediately after approval.	
• Is the municipality's completed tariff tool (National Treasury format) included as part of its budget submission (MFMA Budget Circular No. 98 (refer item 4.2).	The completed National Treasury EXCEL tariff tool uploaded to GoMuni with the adopted budget by start of budget year i.e. **1 July 2023**.	
• Are allocations made for bulk suppliers current account payments?	Allocations reflected in *m*SCOA budget data strings (ORGB) and budget schedules/ document.	
If unfunded budget position–	-	
• Is a Budget Funding Plan (BFP) adopted with the budget?	Copy of the adopted Budget Funding Plan uploaded to GoMuni with the adopted budget by start of budget year i.e. **1 July 2023**.	
	PDF version of BFP/progress report uploaded to GoMuni Upload portal by start of budget year i.e. **1 July 2023**.	
	Is the BFP credible and show how the municipality intends moving progressively out of this position into a funded state?	
	In the case of the latest progress report being submitted, is it aligned to the rescue phase of the new approach to Municipal Financial Recovery Service (MFRS)?	
• Council resolution reflecting commitment to address unfunded position.	PDF copy of resolution uploaded to GoMuni Upload portal by start of budget year i.e. **1 July 2023**.	
***m*SCOA**		
• Submission of Data Strings	Successful submission of all financial and non-financial *m*SCOA data strings to the GoMuni Upload portal	
	Timeous submission of all financial and non-financial *m*SCOA data strings to the GoMuni Upload portal	
	Data strings submitted are credible as per the analysis done by NT/PTs	
	Data strings are generated directly from the main municipal financial system	
	The regulated MBRR Schedules are generated directly from the core municipal financial system	
	Successful submission of all financial and non-financial *m*SCOA data strings to the GoMuni Upload portal	
• Submisison of documents	Municipal documents required in terms of legislation and MFMA Circulars have been submitted timeously and in the required format to the GoMuni Upload portal.	
• Financial System Changes	Municipality has followed the processes in Circulars No. 93, 98, 123 and mSCOA Circulars No 5 and 6 to change their financial system.	
UIF & W		
• UIF&W Register	Documents need to be uploaded to NTs eMonitoring Webpage	
• MPAC recommendation on UIF&W		
• Council Resolution on UIF&W		
• UIF&W Reduction Strategy		
Disciplinary Board		
• Does the municipality have a functional disciplinary board?	Proof of establishment (or efforts to establish DC Board) uploaded to NTs eMonitoring Webpage NTs eMonitoring Website.	
Competency Regulations		
• Has the minimum municipal competency regulations reporting requirements been adhered to?	In line with the Competency Regulations, consolidated reporting information must be uploaded to GoMuni by **30 January 2023** and **30 July 2023**.	
Audit Process		
• Opinion Received	Did the municipality receive an adverse or disclaimed audit opinion or had outstanding audits for two consecutive financial years?	
• Adverse or disclaimed audit opinion	Council resolution signed by each member of the Council was was uploaded to NT's eMonitoring Webpage within 1 month after conclusion of the audit process reflecting council's commitment to address the opinion.	
• Is a council approved audit action plan in place?	Audit action plan, together with council resolution, to be uploaded to NT's eMonitoring Webpage within 60 days from audit report issuance.	
Interventions (where applicable)		
• In the event of a discretionary or mandatory intervention in terms of section 139 of the Constitution, is a Financial Recovery Plan (FRP) in place?	The FRP and monthly progress reports submitted in terms of sections 145 and 146 of the MFMA must be uploaded to GoMuni Upload portal for each month since the inception of the FRP.	

Quarterly Requirements

Criteria	Verification Requirement	Quarter 3 (Jan – March)	Quarter 4 (April – June)	Quarter 1 (July – Sept)	Quarter 2 (Oct – Dec)
Bulk Supplier Payments					
• Were current account payments to bulk suppliers (Eskom and Water Boards) timeously made?	PT/NT to verify status according to MFMA S41 Report. No action required from municipality if account in good standing.	-	-	-	-
• *If current account in arrears, are payment agreements in place?*	Copy of payment agreement or evidence of discussions are uploaded to on GoMuni Upload portal.				
Staff benefit Deductions					
• Were a) SARS, b) pension and c) other staff benefits timeously paid over to the relevant funds/institutions?	Proof of payment for each category, for each month of the quarter uploaded to on GoMuni Upload portal.				
Reconciliation of Valuation Roll					
• Has the valuation role been reconciled to the financial system?	In line with MFMA Circulars No. 93, 98 and 107, proof of the verification for each quarter should be uploaded on GoMuni Upload portal.				

Western Cape Government

FOR YOU

Strategic Integrated Municipal Engagement 2023

Cape Winelands District

Witzenberg Municipality

2023 SIME ASSESSMENT KEY RECOMMENDATIONS

INTEGRATED PLANNING

It is recommended that the Municipality:

- when adopting the proposed amendment to the 2022 - 2027 IDP, set out reasons for such amendment in a memorandum which must accompany the submission to the MEC for DLG;
- update the status of sector plans indicating that adoption is in process and include when sector plans are due for review in the adopted IDP;
- consider prioritising the approval of the Stormwater Master Plan, Infrastructure Growth and Workplace Skills Plans and ensure integration of these into subsequent reviews/amendments of the 2022 - 2027 IDP; and
- consider the various recommendations and suggestions of sector departments included in section 2.2.4 of this report dealing with IDP alignment.

Environmental and Planning Analysis

- Several MSDF proposals remain unfunded. It is recommended that the Municipality consider allocating funds from its budget for this purpose or explore external funding opportunities. The Municipality is acknowledged for drafting an updated CEF.
- Detailed findings and recommendations are highlighted under section 2.4 of the report.

ECONOMIC AND FINANCIAL SUSTAINABILITY

Financial Sustainability

The tabled municipal budget is funded with threats to sustainability over the MTREF and the following should be considered with the finalisation of the final budget for adoption:

- The long outstanding debtors for water are increasing and efforts to improve this should be reviewed.
- Two of the trading services, wastewater and waste management, are trading at a deficit whilst electricity and water are being utilised to cross-subsidise other services.
- Continue to closely monitor the impact of changes in the electricity distribution business and their impact on the funding model of the municipality.
- Repairs and maintenance remain below the national norms and standards. It is recommended that the Municipality provide a detailed explanation that the budgeted allocations is adequate to secure ongoing health of infrastructure.

- Municipality needs to relook at the huge increase (144.4 per cent) budgeted overtime for other employees and find alternative ways to contain expenditure on this item such as looking at shift work where possible.
- Contracted services are above the national norm. It is recommended that the Municipality weigh the cost benefit of building capacity in-house versus the increasing budget allocation to the outsourcing of certain functions to contractors.
- A history of underspending on the capital budget impacts the credibility of the budget and measures should be put in place to expedite spending.
- The funding mix shows a good balance; however, the Municipality is urged to continue to maintain the capital replacement reserve for smoothing over the medium to long term.
- The Municipality should maintain or improve on its current, liquidity and cash coverage ratios beyond the MTREF period to maintain its sustainability.
- The Municipality must address the findings related to the segment tool analysis shared with the Municipality to ensure that the final budget considers all the recommendations and correct segment use is achieved. Municipality to also consider the NT requirements stipulated in the MTREF Budget Circular 123 should it plan to acquire a new mSCOA compliant ERP financial system.

Economic Sustainability

- In addition to the various strategies being implemented to improve solid waste management, a formal waste pickers programme could be established in the municipal area. This would require mapping and registering 'pickers', establishing legal frameworks, providing training and support, offering formal contracts, providing social benefits, and raising public awareness.
- To combat the risk of water shortages in the future, the Municipality should consider embarking on water conservation programmes to reduce the overall demand for water.
- Given that Eskom supply constraints is one of the most pressing challenges facing the Municipality and may only be addressed in 2030. The Municipality should explore alternative measures to promoting growth within the region. These include but are not limited to:
    - A greater focus on tourism – Invest in attractions and events that can draw visitors. This can help create new business opportunities in the tourism industry and increase the revenue for local businesses. The Municipality currently has a strong focus on tourism, and effective strategies are in place. Other options to explore would be to leverage the strong agricultural focus in the municipal area such as agro-tourism experiences allowing visitors the opportunity to learn about local agriculture. Other examples include regular farmers' markets that feature local farmers and artisans.
    - Promote telecommuting and remote work – This will reduce the need for businesses to operate from a physical location and may help reduce energy consumption and costs while providing more flexible work options for employees.
- Focus on local production and supply chains, which could reduce transportation costs and make it more attractive for businesses to operate locally. This can involve promoting local sourcing and production or investing in infrastructure to support local businesses.

Supply Chain Management

- The Municipality has Directorates that have projects values of more than R10 million must take cognisance of NT MFMA Circular 62, which states that, "Goods, services and/or infrastructure projects above the value of R10 million (all applicable taxes included) may only be advertised after the CFO has verified in writing that budgetary provision exists for the commencement of the particular project".
- It is of utmost importance for the Municipality to consider SCM Regulations 5 to those contracts' values expected to exceed R10 million.
- The Municipality should utilise a commodity-based strategy for standardisation of item expenditure, which will assist in determining the sourcing strategies and achieve economies of scale. This will further assist the Municipality to identify certain commodities for alternative procurement decisions such as District Transversal Contracts, framework agreements and bulk procurement.

SECTION 1: INTRODUCTION

The 2023 SIME assessment encapsulates comments by the Western Cape Government (WCG) on the draft 2023/24 MTREF Budget, 2023/24 Integrated Development Plan (IDP), Spatial Development Framework (SDF) and other associated documents.

The assessment covers the following key areas; conformance with the MFMA, MSA & Municipal Budget and Reporting Regulations (MBRR); an integrated, spatial and environmental Planning analysis of the IDP and SDF and the responsiveness, credibility and sustainability of the tabled budget.

The WCG plans to meet the executives of your Municipality in May 2023, where the key findings and recommendations of this report will be presented and deliberated upon. The planned engagement will contextualise the Municipality's challenges and responses as presented in the draft budget, IDP, LED, SDF and as well as other strategic matters for discussion between the two spheres of government. All the information related to the assessment and analysis of the draft annual budget, IDP and SDF are found in the report below.

The budget snapshot below provides a high-level overview of key socio-economic and financial indicators of the Witzenberg Municipality in relation to the regional economy.

SECTION 2: INTEGRATED PLANNING

2.1 INTEGRATED DEVELOPMENT PLANNING

2.1.1 Introduction

An Integrated Development Plan (IDP) is the principal strategic planning instrument which guides and informs all planning and development, and all decisions with regard to planning, management and development in a municipality. An IDP provides the strategic direction for all the activities of a municipality over five years linked to the council term of office.

Each municipal council must annually review and may amend the IDP of the municipality. Should the review process determine that an amendment is required, a municipality should follow the process as stipulated in Regulation 3 of the Local Government: Municipal Planning and Performance Management Regulations of 2001 (MSA Regulations).

The 2023/24 IDP review of the Witzenberg Municipality (the Municipality) took into consideration any changed circumstances and an assessment of the performance measurements. Based on Council Resolution dated 27 March 2023, the Municipality intends to adopt an amended IDP in May 2023.

2.2 INTEGRATED PLANNING ANALYSIS

2.2.1 IDP Overview

The tabled IDP reflects that the Council's vision, mission and strategic objectives of Council will remain unchanged. A detailed SWOT analysis is captured in the tabled IDP, which identifies the key challenges and reaffirms the Council's strategic trajectory to address the service delivery challenges and community needs identified.

The socio-economic information contained in the tabled IDP is based on the most recent data from the Socio-Economic Profile for Local Government 2022, which include statistics such as population projections, households, safety and security, health and education. The existing level of development and the key challenges have been identified together with communities that do not have access to basic services, including rural (farm) communities.

The tabled IDP reflects that the Municipality has identified six Strategic Objectives (SO) that are linked to four key performance areas (KPAs), which are further broken down into programmes, projects and activities. The tabled IDP reflects the Municipality's development priorities and clearly illustrates how these are aligned to national and provincial strategic goals.

A summary of the long-term financial plan is reflected in the tabled IDP, which also includes budget projections for the next 3 years. An organogram of the senior management team is included in the tabled IDP and key performance indicators and performance targets are also reflected which are linked to the relevant SOs.

The tabled IDP identifies extensive challenges around waste management but also reflects on the Municipality's long-term twinning agreement with Essen Municipality in Belgium, relating to support around waste management. As part of the twinning agreement, an application was approved for assistance with a long-term strategy and related infrastructure such as a material recovery facility for waste management in Witzenberg.

A comparative assessment between the tabled IDP and the 2022–2027 IDP reveals minor changes, namely;

- Updates on the statistical information that informs the situational analysis;
- Municipal Risk Assessment Relating to Loadshedding; and
- Additions to the Joint District and Metro Approach section.

2.2.2 IDP process including community consultation

In terms of Sections 28 and 29 of the Municipal Systems Act 32 of 2000 (MSA), a municipality must follow a prescribed process when reviewing and/or amending an IDP. The process to be followed must allow for the local community to be consulted on its development needs and priorities, for the community to participate in the drafting of the IDP and for organs of state and other role players to be identified and consulted on the drafting of the IDP.

Key activities and deadlines for the process must be set out in a Time Schedule tabled in terms of Section 21 of the Municipal Finance Management Act 56 of 2003. Furthermore, Regulation 3 of the MSA Regulations provides that a proposal to amend an IDP may only be introduced by a council member or committee of council; that it must be accompanied by a memorandum and that a district municipality must consult with the local municipalities when intending to amend their IDP and that local municipalities must similarly consult the district municipality if they intend to amend their IDP.

The Municipality adopted an amended Process Plan–2023/24 together with the tabled IDP in March 2023. The amended Process Plan reflects a comprehensive participation process through community imbizos, jamborees, sector engagements, and ward committee meetings in October 2022. It is noted that this round of consultation focussed on the outcome of the analysis phase of the tabled IDP, and community needs identified in the relevant Ward-based Plans.

A second round of engagements scheduled for April 2023, follows the same structure, process, procedure and mechanism as the previous round in October 2022. The amended Process Plan also reflects engagement on the proposal to amend the 2022 - 2027 IDP with the district and local municipalities.

The Municipality has thus followed the prescribed process to review and amend its IDP, which allowed for the local community and various other stakeholders to participate on their development needs and priorities and to participate in the drafting of the tabled IDP. Furthermore, the tabled IDP identifies the plans and planning requirements binding on the Municipality in terms of national and provincial legislation as required by section 29 of the MSA.

A proposal to amend the 2022 - 2027 IDP was accompanied by a memorandum (ref: 03/02/02), outlining the public participation programme and co-signed by the Executive Mayor, approving the proposal. It is noted that the memorandum was approved on 15 March 2023 and published for public comment. However, the memorandum did not provide clear reasons for the proposed amendment. The Municipality is encouraged to clearly set out the reasons for the decision to amend the 2022 - 2027 IDP in the memorandum to Council when adopting the amended IDP.

2.2.3 IDP compliance

The core components of an IDP are set out in section 26 of the MSA and Regulation 2 of the MSA Regulations. An assessment of the tabled IDP reflects compliance with the MSA and partial compliance to the MSA Regulations in that the memorandum did not set out clear reasons for the proposed amendment to the 2022 - 2027 IDP.

2.2.4 IDP alignment

According to Section 32 of the MSA the MEC may within 30 days of receiving a copy of an IDP, or within such reasonable period as may be approved, request a municipality to adjust the plan or amendment in accordance with the MEC's proposal if it is in conflict with or is not aligned with or negates any of the development strategies of other affected municipalities or organs of state. Section 26 of the MSA further requires that IDPs must be aligned with and not negate the national and provincial development plans and planning requirements binding on the municipality in terms of legislation.

The tabled IDP reflects alignment between national and provincial development plans such as National Development Plan, Provincial Strategic Plan (PSP) with the Municipality's SOs. In addition, the Municipality's catalytic projects as well as social support received is reflected in the Joint District and Metro Approach Implementation Plan for the Cape Winelands district.

Economic Development

The tourism sector is a key driver of economic activity in the municipal area, with several tourism related initiatives being planned over the remaining years of Council's term. Planned initiatives include for example, the finalisation of both the national road corridor through Witzenberg and the Ceres Golf Estate Project. The tabled IDP further reflects the Municipality's intention to expand the Epic Mountain Bike Tour, which presents a unique opportunity to leverage the locational advantage of the municipal area.

The tabled IDP reflects that agriculture is the largest sector of the local economy where several agri-processing activities relating to wine, fruit and vegetables are undertaken. To this end, the Municipality established a strategic partnership with the Ceres Business Initiative with the aim of developing effective economic development strategies and programmes to create employment and contribute to the imperatives of Broad-Based Black Economic Empowerment. The Municipality's aim towards unlocking the economic potential in the agricultural sector, include incentivising green agricultural practice and technologies, supporting alternative farming models i.e., transforming unused industrial land into community gardens, and supporting private sector initiatives that address the housing needs of agri-workers. The tabled IDP however, does not provide a clear strategy and mitigation plan to address concerns around rural safety and the impact of energy disruptions to the agricultural infrastructure such as cold storages, packhouses and irrigation water pumps.

The economic activities and planned initiatives are linked to the Municipality's SO 4.2: Create an enabling environment to support local economy, which further aligns to the Western Cape Recovery Plan's focus on growing the economy and creating jobs. The time is however opportune for the Municipality to critically assess linkages, opportunities and prepare for the alignment of planning, collaboration and joint delivery through the Growth for Jobs Strategy spearheaded by the Western Cape Government (WCG). Leveraging this opportunity may assist the Municipality in maximising the economic potential of the local economy.

Municipal Infrastructure, Human Settlements and Transport

The prolonged drought in the Western Cape Province (the Province) in recent years has had a significantly negative impact on the well-being of the Province and poses a high risk to the livelihood of many residents, retaining economic activity and thus job security. Water resources and the availability of water in the Province, are known to be affected by climate change. Changes in rainfall and temperature translate into increased hydro-meteorological variability and uncertainty and result in impacts on stream flows and certain demands. It is commonly known that the Province can expect more frequent, intensive, and persistent drought events, which require a holistic methodology and an integrated, collaborative, and coordinated response from all government departments and stakeholders. Water security and climate resilience has therefore become a key priority.

To address this challenge, the WCG registered water security as a transversal risk and the Department of Local Government (DLG) has been designated as the coordinating department for managing the Provincial Transversal Water Risk and identified mitigation measures. A 15-year Water Resilience Plan was completed during the 2022/23 financial year following an extensive consultation process with various stakeholders. The strategic outcome of this Plan is the development of municipal water infrastructure with the purpose of enhancing water resilience through augmenting water supply, water infrastructure capacity upgrading, water source management and water demand management across the Province.

The tabled IDP reflects on challenges to water security, with reference to illegal dumping in rivers, illegal water extractions, land invasions, erosion and under-regulated industrial activity. As a response to some of these challenges, the Municipality implements programmes aimed at conserving water and promoting biodiversity on mountain catchment areas, water source areas and riverbanks. Threats to the freshwater ecosystem are further mitigated through the Ceres River Restoration Project, funded by the World Wildlife Fund, an Alien Vegetation Clearing Project and water security awareness campaigns. These projects are expected to offset some of the water security risks affecting community members, organized agriculture and the local business community.

The WCG is determined to ramp up energy security and decrease the reliance on Eskom throughout the Province by implementing a comprehensive Western Cape Energy Resilience Programme. As part of the Whole of Government Approach in managing the energy crisis, the DLG in collaboration with the Provincial Energy Resilience Team will assist municipalities to pilot various energy solutions, which will include technical advice in this specialised field to find the best-fit energy options, appropriate to municipalities, as well as assistance with Municipal Energy Planning.

The DLG allocated funds to municipalities through the Emergency Municipal Loadshedding Relief Grant, as an urgent response to the increasing frequency and severity of loadshedding affecting municipalities and its impact on basic service delivery, health and the economy. The purpose of the grant is to provide municipalities with a financial contribution towards the purchase and installation of back-up energy supply, which may include generators, renewable power sources, batteries and all ancillary costs, for water and wastewater infrastructure as an immediate response to prolonged loadshedding.

The Strategic Environmental Assessment for Wind and Solar Photo-voltaic energy has identified the municipal area as one of the eight Renewable Energy Development Zones. This identification reflects the strategic importance of the locality in the context of energy resilience, with the Municipality further identifying renewable energy as a key opportunity as part of the SWOT analysis undertaken throughout the IDP review process.

The tabled IDP provides project information on the Vredebes and Bella Vista social housing developments, however, budgetary allocations are not reflected beyond the 2020/21 financial year, demonstrating a gap to the Department of Infrastructure Business Plan. In addition, the Municipality should reflect the beneficiary selection criteria where top structure beneficiaries are prioritized and provide an indication on how the Municipality will manage the shift in the housing policy position of the national Department of Human Settlements i.e., from the prioritisation of top structures to the delivery of serviced sites.

In terms of transport, the Municipality reflects that the Integrated Transport Plan (ITP) was recently prepared as part of the update to the 2022-2027 Cape Winelands District ITP, in addition to the development of a Roads Master Plan. The tabled IDP reflects on planning initiatives to secure land for the expansion of the local taxi rank, rise mobility through increasing the footprint of Non-Motorized Transport and implementing recommendations from the Operating License Strategy. These initiatives reflect alignment to the strategic intent of the PSP with reference to Vision Inspired Priority 4 – Mobility and Spatial Transformation, as well as the strategic direction of the former Department of Transport and Public Works 2020 - 2025 Strategic Plan.

Health, Social Services and Amenities

In respect of social services, the Municipality reflects projects and initiatives geared towards addressing gender-based violence, substance abuse, community development, homelessness and people with disabilities, which is consistent with the programmes agreed upon in the Implementation Protocol entered into between the Municipality and the Department of Social Development.

The Municipality points out the intrinsic relationship on how the number and geographical spread of healthcare facilities impact on the right of access to healthcare. To this extent, the Municipality has eight fixed Primary Healthcare Facilities, supported by six mobile/satellite clinics and a district hospital. The Municipality should, however, reflect integration of the District Health Plan in a manner that demonstrates planning synergies to implementing the strategic direction and programmatic approach towards extending healthcare coverage.

Through Programme 3.1(A): Upgrading and maintenance of facilities, the Municipality reflects a commitment to continue fostering partnerships with local sport forums and the establishment of new ones in accordance with the Municipality's approved Sport Master Plan. The Municipality further indicates that a Community Satisfaction Survey was undertaken to determine community members' perception of public facilities and amenities. The Municipality acknowledges the survey as a key instrument in determining the locus of attention in relation to public facilities and amenities investment going forward.

Safe and Cohesive Communities

In respect of disaster management readiness, the tabled IDP reflects on several strategies, structures and processes in place to promote a disaster resilient municipal area. To this extent, the Municipality's Chief of Fire and Disaster Management functionary is represented at the Disaster Management Advisory Forum co-ordinated quarterly by the Cape Winelands District Municipality.

Several community safety concerns were registered as part of the Municipality's public participation processes, including poor street lighting, illegal electrical connections, an unsafe water canal in Wolseley and general concerns around scholar road safety. To this extent, the Municipality aims to implement the Violence Prevention through Urban Upgrading Programme, The District Safety Plan and continue the enforcement of the Municipality's by-laws to manage community safety within the municipal area.

The Municipality's interventions towards promoting community safety reflects alignment to the strategic intent of the PSP, with reference to Vision Inspired Priority 1 – Safe and Cohesive Communities and the Western Cape Safety Plan.

2.2.5 Outstanding areas for improvement

The Municipality adequately responded to the identified areas for further improvement outlined in the 2022/23 SIME Assessment Report however, the tabled IDP does not reflect the latest adopted Housing Pipeline which has been approved by Council. The Municipality is encouraged to reflect the latest Council approved Housing Pipeline in the adopted IDP.

2.3 KEY FINDINGS

2.3.1 Key findings

Based on the above assessment, below is a summary of key findings:

- The memorandum accompanying the proposal to amend the 2022-2027 IDP does not set out clear reasons for the proposed amendment;
- The tabled IDP depicts the relevant sector plans indicating the status of the sector plans, however, not all plans reflect when they are due for a review; and
- The tabled IDP does not reflect the following sector plans; Stormwater Master Plan, Infrastructure Growth Plan and Workplace Skills Plan.

2.4 ENVIRONMENTAL AND PLANNING ANALYSIS (INPUT FROM DEA&DP)

2.4.1 COMPLIANCE, PERFORMANCE, IMPLEMENTATION AND CHANGING CIRCUMSTANCES

- Spatial Planning

There is no evidence that a performance review was undertaken. The Municipality is reminded that a performance review entails a review of how well the municipality is performing in terms of the implementation of its MSDF. This should accompany the IDP review which, like the MSDF, should focus on how well the municipality is performing in terms of the implementation of its IDP.

There is some evidence of alignment of the MSDF with the 2023/24 budget allocations, e.g.:

- The library proposed in Nduli.
- New transfer station/drop off centre in Ceres.
- Significant budget allocation for the upgrade of water infrastructure in Tulbagh.
- Upgrade of the Van Breda Bridge.
- Roads and electricity infrastructure in Vredebes (The IDP notes that because of the challenges due to Eskom, only priority electrical infrastructure is proposed in 2023/24 and it is hoped that the next financial year will have a more positive outlook)

Several other MSDF proposals remain unfunded. It is recommended that the Municipality consider allocating funds from its budget for this purpose or explore external funding opportunities. The Municipality is acknowledged for drafting an updated CEF.

- Biodiversity Management:

Biodiversity Spatial Plan

Please take note of the enabling of certain prescripts in the Western Cape Biodiversity Act, Act 6 of 2021, which includes legislative requirements pertinent to municipalities in terms of a Biodiversity Spatial Plan adopted by the provincial Minister. Sections 36, 37 (1), 37(2)(c), 37(2)(f); and of particular importance, 37(3) of the Western Cape Biodiversity Act should be noted by all municipalities within the Western Cape.

In addition to the above, the current Biodiversity Spatial Plan is being revised and an updated version is likely to be adopted in terms of section 36 of the Western Cape Biodiversity Act before the end of the 2023/24 municipal year.

Alien invasive plant clearing

Municipalities are reminded of the Ecological Infrastructure Investment Framework was developed for the Western Cape and speaks directly to the clearing of alien invasive plants for water gains, fire and flood risk reduction, and improved food security. Recent inclusions of ecological infrastructure in policies that pertain to municipal infrastructure should be noted. In many areas of the province, alien plants utilise considerably more water than their indigenous counterparts, and the eradication of these plants would often result in downstream water gains. Additionally, alien plants are known to increase the risk and intensity of wildfires and flooding, which impact on municipal infrastructure as well as require disaster risk response. It is important to keep these relationships in mind when prioritising interventions that aim to augment a municipality's water supply.

- Climate Change

The Climate Change Directorate within DEA&DP led the revision of the Western Cape Climate Change Response Strategy. The 2022 Strategy lists four guiding objectives for climate change response, namely: 1) Responding to the climate emergency, 2) Transitioning in an equitable and inclusive manner to net zero emissions by 2050, 3) Reducing climate risks and increasing resilience, and 4) Enabling a Just Transition through public sector, private sector and civil society collaboration. Each of the Guiding Objectives is supported by a preliminary list of key responses, which are detailed in an Implementation Plan. The Implementation Plan adds detail to the response actions outlined in the strategy and identifies the role players required to drive the actions. It also specifies timeframes for the actions and a framework within which the actions can be evaluated to measure progress and overall impact.

A new resource was released last year to assist municipalities with the most up to date climate science and projections. The document titled "SmartAgri: Updated Climate Change Trends and Projections for the Western Cape" (2022) was completed for the Western Cape Department of Agriculture by the Climate Systems Analysis Group at the University of Cape Town.

The IDP recognises the growing concerns around climate change and indicates a few 'important interventions. The manifestation of these concerns in the development plan and budget allocations is not evident though.

- Air Quality

It is unclear whether an Air Quality Management Budget has been allocated within the tabulated draft budget. A budget allocation to implement/ review and adopt the Air Quality Management Plan is to be secured to:

- develop (or update) the Air Quality By-law, inclusive of noise control,
- conduct awareness raising and capacity building,
- monitor ambient air quality (passive or continuous monitoring of air pollutants via either a fully equipped ambient air quality monitoring station or low-cost air quality sensors), and
- implement air quality management intervention strategies in its jurisdiction.

STRATEGIC RISK / ISSUE	PROPOSED ACTION
Witzenberg does not have an Air Quality Management By-law.	Consider adopting an air quality By-Law to assist with air quality management compliance and enforcement.
Noise complaints handling in respect of the Western Cape Noise Control Regulations P.N. 200/2013, for an activity in terms of nuisance or disturbance matters.	Must designate/appoint a Noise Control Officer, in terms of Section 9 of the Western Cape Noise Control Regulations P.N. 200/2013.

- Waste Management:

Waste Management Licensing

- Waste management facilities in Witzenberg include Tulbagh WDF, Op-Die-Berg WDF, Wolseley WDF (not in use) and Prince Alfred Hamlet WDF. Recent Departmental audit scores are Prince Alfred Hamlet WDF 12.09 per cent and Wolseley WDF 1.88 per cent.
- Wolseley has been abandoned but needs to be properly decommissioned. A large number of houses are situated on the periphery, so there is a community placed at risk.
- Internal and external audits are not conducted at all waste facilities.

The Municipality's current integrated waste management infrastructure cannot accommodate the projected waste quantities over the next 5 years. It seems that the Municipality made funds available as they are in the process of doing some environmental impact assessments at their facilities. The IWMP for Witzenberg contains capital and operational budgets for planned waste infrastructure such as drop-offs and MRFs.

The Regional Cape Winelands WDF will be located in Worcester. The District Municipality is in the process of appointing service providers to get the regional WDF design approved, where after commencement with construction to occur. The EA for the regional facility indicates that the Licence is valid until the airspace has been reached. An airspace determination plan is thus required annually, which will supply new figures on an annual basis. The Regional Landfill Site is planned to become operational 2024.

As 2024 is very soon, the construction and various approval process will have to be completed before the site can be used. This date is very close to the end of the commencement period. If any further delays are caused, the WML may also have to be varied to extend the commencement period.

A presentation about various waste management issues, including landfill airspace, was delivered on 2 December 2022, at the Cape Winelands District Municipality's Waste Summit. The DEA&DP is also in communication with the District Municipalities officials facilitating the licensing and the DWS requirements.

The Municipality submitted a second draft of its OWDP in April 2023.

Waste Minimisation & Policy

The Municipality only has a by-law relating to refuse removal which was published in 2005. We are aware that the Municipality has updated and completed a new waste by-law, but it still needs to be approved by Council and gazetted.

They have a drop-off in Wolseley for general, recyclable and garden waste. Here residents are offered a R3.00 rebate incentive on their waste rates, per bag of recycling brought to the drop-off. There is also a new MRF which has recently become operational. It is mostly operating as a dirty MRF where recyclables are manually separated from general waste. Material is currently being stockpiled, but buyers are being sought. More staff are also being trained to work at and increase the output at the MRF.

The Municipality supplies green bags to residents to separate garden waste at source, although this is not yet been properly diverted as the chipper is broken. However, lots of green waste does get diverted by private entities (e.g., Lumbri Composting). A draft Organic Waste Diversion Plan was submitted to the Department for review, but a final plan will be put together by the consultants appointed by the District Municipality, and this is nearing completion.

The Municipality has a Recycling Forum that brings together relevant role players that are working within the waste sector. They have also been one of the municipalities selected as part of the Departments

Wastepreneur Integration project and have worked with the service provider to plan and realise the best way to better integrate wastepreneurs and wastepickers.

Waste Information

The Municipality has five (5) registered waste activities on the Integrated Pollutant and Waste Information System (IPWIS) namely: Prince Alfred Hamlet Waste Disposal Facility D03118-01, Tulbagh Landfill D03119- 02, Witzenberg Recovery D15721-01, Op Die Berg Waste Disposal Site D04146-01, Wolseley Waste Disposal Facility D04076-01.

For the period Jan - Dec 2022 the number of reports submitted for the Municipality are as follows: Prince Alfred Hamlet Waste Disposal Facility D03118-01 (12/12), Tulbagh Landfill D03119 - 02 (12/12), Witzenberg Recovery D15721 - 01 (12/12), Op Die Berg Waste Disposal Site D04146 - 01 (12/12), Wolseley Waste Disposal Facility D04076 - 01 (12/12).

For the period Jan - December 2022, Witzenberg Municipality disposed 11 752T. The Municipality diverted 5171T and has a diversion rate of 20 per cent.

2.4.2 KEY FINDINGS AND RECOMMENDATIONS

Several MSDF proposals remain unfunded. It is recommended that the Municipality consider allocating funds from its budget for this purpose or explore external funding opportunities. The Municipality is acknowledged for drafting an updated CEF.

- Biodiversity

Towards the end of managing, controlling and eradicating alien plants, it was noted that Witzenberg does have an invasive species monitoring, control and eradication plan, but that the plan had not yet been approved by DFFE. However, it was not possible to ascertain what the annual target for clearing and follow-up were for the year under review or the associated budget. The inclusion of a succinct overview of these targets and budgets would be advantageous in next year's assessment.

In terms of spatial alignment between the SDF and the Biodiversity Spatial Plan, it was noted, with thanks, that the Witzenberg SDF has been aligned with the Biodiversity Spatial Plan.

- Climate Change

It is recommended that climate change be recognised in the disaster risk assessment and planning as a factor that will make the identified natural hazards (flooding, fires, drought) more intense or more frequent in future – and correspondingly requiring increasing pro-active response interventions

Similarly, the bulk resources and infrastructure component of the IDP needs to look to the future when business-as-usual infrastructure maintenance and upgrades will not satisfy demands. More detail can also be provided in terms of the maturity, rollout and impact of the Small-Scale Embedded Generation plan.

It would also be good, going forward, to see sustainability considerations explicitly forming part of capital expenditures.

- Waste Management

Waste Licensing

In terms of compliance, certain sector plans may need updating and therefore the SDBIP must highlight this.

The Municipality has largely neglected its compliance with the waste management licence conditions for its landfills. Wolseley landfill has seemingly been abandoned and the surrounding community is at risk, so the Municipality needs to legally decommission this facility urgently. Prince Alfred Hamlet landfill burns routinely as illegal access has been prevalent for several years. Low Departmental audit scores must urgently be addressed, as they have not improved in recent years.

Waste Minimisation & Policy

The new MRF holds great potential, and the Municipality is encouraged to implement a two-bag system so that clean recyclables are brought to the MRF. The Municipality is also encouraged to consider integrating the wastepickers in the area into the MRF. Lastly, we encourage the Municipality to take forward the plans and actions put together in the Departments' Wastepreneur Integration Project.

The Municipality is well set up to divert organic waste as green waste is already being separated, however, this is currently being landfilled. This needs to be urgently addressed as by 2027 all organic waste will be prohibited from landfill.

Waste Information

Through IPWIS report submissions the municipality achieved a compliancy score of 100 per cent within this period, thus the Municipality is compliant with respect to the National Waste Information regulations. There is no recommended action as the Municipality is compliant in terms of their registration and reporting to the IPWIS. Reporting on the IPWIS must be updated and continuous and regular waste reporting must be submitted to the IPWIS. Waste diversion initiatives must be reported to the IPWIS. Municipalities are reminded to report on organic waste to the IPWIS.

Waste Management Planning

There is no clear indication that the Municipality's current IWMP was adopted by Council. The amended IDP (2021/22) indicates that the IWMP was adopted by Council but the 2022 – 2023 IDP amendment mentions that the adoption is in process. The Municipality needs to submit the Council Resolution for the approval of their current IWMP.

There should be updates on the implementation of the IWMP in the next Annual Report. The Department will provide municipalities with a reporting template to report on the implementation of their IWMP. The reporting template must be included in the Annual Report submitted to Provincial Treasury and the Provincial Department of Local Government.

SECTION 3: ECONOMIC AND FINANCIAL SUSTAINABILITY

3.1 Introduction

This section provides an assessment of key indicators related to the responsiveness, credibility and sustainability of the tabled budget.

Key to assessing the above criteria is the alignment of the municipality's budget to its strategic objectives, where if there are gaps identified, recommendations will be provided considering the municipal areas current socio-economic challenges.

The revenue and expenditure analysis and risks section provide a gap analysis with regards to trading services, analysing the credibility, tariff structure and responsiveness of the municipality's budget.

As capital infrastructure development is a key catalyst for economic growth and sustainability, the municipality's capital funding mix, capital budget implementation and procurement planning assessment are critical to understand the municipal area's growth trajectory.

3.2 Sustainable Economic Development (LGBO)

Key budget priorities in terms of IDP Strategic Objectives

This section assesses whether the budget is aligned to the Integrated Development Plan (IDP) of the municipality, specifically to the municipality's strategic objectives. The extent to which national and provincial priorities and plans were considered is also analysed and well as progress towards reaching key national goals.

Table 1 Strategic Objectives for the 2023/24 Medium Term Revenue & Expenditure Framework

Strategic Objective	2023/24 Medium Term Revenue & Expenditure Framework OPEX				2023/24 Medium Term Revenue & Expenditure Framework CAPEX			
R thousand	Budget Year 2023/24	Budget Year 2024/25	Budget Year 2025/26	Average Annual Growth	Budget Year 2023/24	Budget Year 2024/25	Budget Year 2025/26	Average Annual Growth
Essential Services	612 218	666 430	753 165	10.9%	65 121	23 883	14 383	-53.0%
Governance	176 768	188 343	201 307	6.7%	180	190	5 150	434.9%
Communal Services	122 424	125 010	132 928	4.2%	3 130	16 074	25 183	183.6%
Socio-Economic Support Services	13 589	12 403	13 154	-1.6%	500	_	_	_
Total Expenditure	925 000	992 185	1 100 554	9.1%	68 930	40 147	44 716	-19.5%

Source: Witzenberg Municipality, A-Schedules

- The Municipality's 2023/24 MTREF budget is aimed at improving the livelihoods of its residents. The strategic goals noted above are aligned to the strategic goals in the IDP and reflect financial commitments to all four key performance areas.
- The operating budget is concentrated within the 'Essential Services' Key Performance Area (KPA) (66.3 per cent) as it encompasses all the main functions for the sustainable provision and maintenance of basic services infrastructure. Operating expenditure for Essential Services increases by 16.7 per cent from the 2022/23 adjustments budget and will increase at 10.9 per cent on average per annum over the MTREF period. Average annual growth across the ensuing MTREF is an above inflationary increase for these key mandated areas, indicating that as population grows and the demand for these services

increase, the Municipality can provide basic services at an adequate level and may improve the quality of services provided.

- The Essential Services KPA addresses allocations for water, sanitation, and electrical services, roads and transport management as well as street lighting and solid waste management. The Municipality's 2023/24 budget allocations thus prioritises basic trading services and service delivery which is the core mandate of the municipality.

- The remaining operating budget (R312.782 million) is distributed across the three KPA's with Governance allocated 19.1 per cent, Communal Services 13.2 per cent, and Socio-Economic Support Services 1.4 per cent.

- The total capital expenditure budget has decreased by 31.1 per cent from 2022/23. Over the MTREF it is envisaged to further decrease by 41.7 per cent in 2024/25, before increasing by 11.3 per cent in 2025/26.

- The majority of the capital expenditure allocation (R65.121 million; 94.4 per cent) is allocated to the provision and maintenance of basic services, the needs of informal settlements as well as the provision of bulk infrastructure. This is followed by a 4.5 per cent allocation towards providing and maintaining facilities that make citizens feel at home, and marginal allocations to the rest of the strategic objectives.

- These objectives take the socio-economic reality and priorities of the Municipality into account and encompass the strategic goal of delivering on adequate basic service provision, infrastructure-led growth and sustainable human settlements.

3.3 Revenue and Expenditure Analysis and Risks

3.3.1 Budget Overview

Table 2 Budget overview for the 2023/24 MTREF Budget:

Witzenberg	CURRENT YEAR					MEDIUM TERM REVENUE & EXPENDITURE FRAMEWORK					
Description	2022/23	2022/23	2022/23	2022/23	2022/23	2023/24	2023/24	2024/25	2024/25	2025/26	2025/26
R thousand	Original Budget	Adjusted Budget	Treasury Calculation	Full Year Forecast	Pre-audit outcome	Budget Year +0	Treasury Calculation	Budget Year +1	Treasury Calculation	Budget Year +2	Treasury Calculation
Total Operating Revenue (excluding capital transfers and contributions)	748,205	767,216	767,216	767,216	499,845	848,469	848,469	930,323	930,323	1,051,651	1,051,651
Total Operating Expenditure	799,484	830,734	839,222	830,734	417,966	925,000	938,946	992,185	1,011,452	1,100,554	1,128,132

BUDGET FUNDING POSITION	FUNDED					FUNDED		FUNDED		FUNDED	

Source: A1 schedules, NT funding tool, TABB data strings.

- For the past 3 year the Municipality has been budgeting for operating deficits as well as over the 2023/24 MTREF, indicating that this is becoming a common practice. After the reversal of non-cash items such as depreciation, the Municipality is still in a deficit. The deficit is funded with accumulated reserves, but depreciation and asset impairment are not fully cash backed.

- It should be noted that reserves or accumulated funds provide for a degree of stability by reducing the reliance on government grants and debt to finance capital projects and acquisitions. Operating surpluses should be adding to reserved funds and as such, budgeting for operating deficits creates risks to stability and sustainability of future operations.

- The Municipality is advised to ensure that a portion of the depreciation expense is integrated into the tariffs going forward. This will enable the Municipality to fund the replacement of assets once they have reached their useful life. The draft budget indicates limited reserves to be cash backed (A8 table) which is an indication that the Municipality does not generate enough surpluses to contribute towards building a sufficient Capital Replacement Reserve Fund (CRR). This is also evident in the high reliance on grants to fund capital projects during the MTREF.

- When assessing the Municipality's historically achieved (audited) collection rates and budgeted revenue over the 2023/24 MTREF, an increase in the average collection rate for rates and service charges has been noted and this results in positive projected cashflows and places the Municipality in a funded position over the 2023/24 MTREF. The Municipality has gradually moved from an 84.4 per cent collection rate average for rates and service charges in 2020/21 to an 86.2 per cent average in 2021/22 and 91 per cent average in 2022/23. The Municipality is assuming a collection rate of 92 per cent which seems credible based on the previous audited results.

- The Municipality's budget is funded but with threats to its sustainability over the 2023/24 MTREF. The Municipality's cash and cash equivalents remain positive over the entire 2022/23 MTREF, however, the budget report states that the Municipality only has sufficient cash and cash equivalents to fund its operations for 3 months. The expansion of the revenue base should be a key financial lever in the Long-term Financial Plan as the Municipality is already increasing electricity service charges above inflation which could lead to the municipal bill becoming unaffordable over an extended period of high increases.

- To cushion the Municipality against price increases, cost of employment, inflation and interest rates, the Municipality is encouraged to implement cost containment measures and fiscal discipline, exploit alternative revenue sources and protect the revenue capacity of its current revenue streams.

3.4 Trading Services

The Municipality anticipates realising an increase in operating revenue of 10.6 per cent for 2023/24. The most significant components of the operating revenue budget are Service charges - electricity (49.2 per cent), Transfers recognised - operational (18.7 per cent) and Property rates (12.1 per cent). Although service charges indicate real growth from the previous financial year it should be noted that pressure will be exerted on surplus margins due to well above inflation increases of bulk purchases, a stagnating revenue base and increasing informal settlements.

Source: A2 & LGES tables

- Revenue generated from Service charges - Electricity is projected at R417.38 million, R481.35 million and R564.73 million over the MTREF. This service is the largest contributor to the operating revenue budget (49.2 per cent) and increases by 23.7 per cent in 2023/24. Whilst the Municipality was still awaiting NERSA's final guide to the electricity tariff increases the Municipality has assumed an electricity tariff increase of 20.7 per cent for 2023/24 and an average increase of 17.7 per cent over the MTREF. The proposed tariff increase should be aligned to NERSA proposed guideline increase for municipal customers of 15.1 per cent for 2023/24. This will have a significant impact in lowering the revenue and surpluses from electricity and may affect the funding position of the Municipality.

- The Municipality has budgeted for electricity revenue growth at an average of 18.8 per cent over the 2023/24 MTREF and an average price increase of 17.7 per cent in electricity tariffs (depending on NERSA's final guidance). The electricity bulk purchases are expected to grow at an average rate of 17.2 per cent over the 2023/24 MTREF however, this is only the costs of the electricity bulk purchases and does not include other direct and indirect costs. Based on the cost recovery calculation above, it is expected that the Municipality will be making a surplus of R5.04 million on the supply of electricity. The Municipality is highly reliant on electricity profit margins and the risk of changes in the market from either bulk price increases or changes in the consumption patterns will adversely affect profit margins and regular reviews of actual performance and budget parameters are advised.

- Declining consumption patterns due to price pressures caused by well above inflationary bulk purchases, increases which cannot be fully transferred to the consumer and the impact of loadshedding, surplus margins will be impacted adversely. The expansion of the green energy utilisation and rapid emerging of renewable energy technology will also be a contributing factor to declining surplus margins. Therefore, the sustainability of the service over the medium to long term should be monitored and incorporated as an integral element of the long-term funding model as energy security has been identified as a catalytically intervention for sustainable development.

- The Municipality's individual collection rate for electricity revenue is 99 per cent mostly due to electricity sales being largely prepaid. Hence, only 1 per cent is anticipated as unlikely to be collected. Electricity debtors as at end February 2023 were only 2.6 per cent of total outstanding debtors over 90 days' category which is an indication that the Municipality can collect revenues due from this service and the budgeted collection rate of 99 per cent could be realistic. The electricity distribution losses slightly decreased in percentage terms from 10.8 per cent in 2020/21 to 10.7 per cent in 2021/22 financial year. The current levels for electricity distribution losses are slightly above the National Treasury norm of between 7 and 10 per cent and NERSA guideline of 10 per cent. The slight decrease in the value of units lost is material, hence it is recommended that the Municipality puts measures in place as part of the overall repairs and maintenance strategy to prevent any further increases in losses.

3.4.1.2 Responsiveness to Energy Demand and Provision

Municipal challenges	• 95.5% of households have access to electricity – slightly below the district average (SEP-LG, 2022). • Load shedding. • Vandalism and copper theft. • Availability of vehicles. • Exceeded notified maximum demand, ageing electrical network and challenge for available funding to replace aging equipment. • Electricity supply and associated infrastructure may not be able to meet future demand adequately enough. No new developments can be approved at this stage as per Eskom. • The maintenance of the electrical network remains a major challenge especially with regards to illegal connections which result in unplanned interruptions as networks becomes overloaded.
Electricity Expenditure Analysis	• From a capital expenditure budget perspective, the energy allocation increased by 17.9% between 2022/23 and 2023/24 and will continue to increase by an average annual 15.2% across the MTREF. Average annual growth across the ensuing MTREF appears to be consistent with the current inflation rate for key mandated areas indicating desired levels of sustainability. • The budget will largely be spent on infrastructure for the Vredebes Electrical Network (R3.391 million), which is subject to the ability to continue with the project due to the risk of vandalism. This will positively contribute to building the municipal area and economy for the future, and for the benefit of all residents. • The interventions at the Vredebes development offers individuals the opportunity to expand, add value to their assets, as well as start businesses from their homes to generate economic activity and stimulate job growth in the community. • The rest of the capital infrastructure allocation will be spent on fencing in Tulbagh, for which the tender process has already commenced (R2 million) and R100 000 on MV Network equipment. • The upgrading of the fencing in Tulbagh will reduce the risk of vandalism and theft highlighted as key risks above and can ensure that the electrical equipment remains operational and reliable, reducing the risk of downtime and service interruptions. • Ongoing maintenance is essential to safeguard network reliability and sustainability to ensure safe working conditions for employees and consumer safety. Furthermore, plans to renew and upgrade MV networks shows good prospects for reducing electricity losses and reducing the backlogs in access to electricity. This will positively affect future sustainability and boost economic growth.

	• The Municipality is faced not only with the crippling effects of loadshedding, but also the inability of Eskom to supply capacity and increase the Notified Maximum Demand (NMD) which the municipality has exceeded. Not having a sufficient and sustainable electricity supply has significant implications on economic growth, social development, environmental sustainability, and technological advancement. Additionally, electricity provision to the unelectrified rural areas in the municipal area is an untapped resource that the municipality cannot exploit due to current Eskom constraints. • Despite these challenges, the Municipality is commended for implementing short term initiatives to alleviate some of the electricity constraints and face its customers' growing demand. These include the installation of power factor correction equipment in Ceres, the approval of more than 5 MWp of solar panels for consumers. Additional innovations include the customer self-built project that is underway, with plans of upgrading the existing cables at Wolseley main switching station to increase cable capacity. • The Municipality has also developed a small-scale embedded generation (SSEG) plan that supports the management of renewable energy production. This is part of the Municipality's response to loadshedding, by allowing SSEG connections through the NRS 097 guidelines and the SALGA-AMEU supported documents. A cost of supply study is currently being conducted to allow for cost reflective and encouraging export tariffs.

3.4.2 Water Services

3.4.2.1 Water Services Credibility and Sustainability

Diagram 2 Water trading service trends

	2020/21 - Aud	2021/22 - Aud	2022/23 - Orgb	2022/23 - Adj	2023/24 - Orgb	2024/25 - Orgb	2025/26 - Orgb

Indigent (LGES)	21 410	R 46 450	R 51 274	R 56 919

Source: Municipal Tariff list

- As depicted in the diagram above, the Municipality is expecting revenue growth in water services of 5.8 per cent on average over the 2023/24 MTREF whereas expenditure is expected to grow by an average rate of 8.1 per cent over the MTREF. Even though water revenue is expected to grow less than the expenditure over the 2023 MTREF, water revenue for 2023/24 is still projected to produce a surplus of R2.51 million based on the revenue and cost to produce water services.

- The Municipality's individual collection rate for water revenue is 70 per cent, therefore 30 per cent of receivables from water revenue is estimated to be impaired. Furthermore, Water debtors as at end February 2023 were 30.6 per cent of total outstanding debtors over 90 days' category and is the largest contributor to the total outstanding debt which is an indication that the Municipality is experiencing challenges in collecting revenues due from this service with the budgeted collection rate of 70 per cent which could be realistic. However, the Municipality made provision for debt impairment on water revenue of R14.94 million which is slightly understated when compared to the billing of R53 million.

- Setting tariffs should reflect a balance between affordability for households and consumers and ensuring the financial sustainability of the municipality. The surplus of R2.51million is only a reflection of the expected revenue and expenditure for water services but does not account for indirect costs as highlighted in the tariff setting tool. The Municipality is reminded that the allocation of secondary cost to the input volume of water will necessitate the utilisation of the costing segment in the mSCOA and this is crucial in determining cost reflective tariffs for water.

- In addition to the cost of water, real and unavoidable water losses are also inevitable, and it is noted that water distribution losses for 2020/21 and 2021/22 financial years amounted to 12.1 per cent and 13.9 per cent respectively which are well within the range of 14-16 per cent treasury norm, however the increase is concerning.

- The Municipality did not provide information pertaining to its water consumer consumption growth (SA9 incomplete in this regard), however, it should be noted that with population growth increases in consumption, expected revenue and in expected costs, maintenance and labour can be expected. Water is a scarce commodity and with the increased consumption the Municipality is urged to apply control measures to restrict usage to acceptable levels should consumption spiral in order to prevent the scarcity of water resources.

- In terms of budgeting for water inventory, the Municipality does not purchase any water inventory, however, the value of the natural water resources needs to be ascertained and brought to book. The value of the natural resources needs to be journalised to "Assets: Current Assets: Inventory: Water: System Input Volume: Natural Sources". Once journalised, the consumption needs to be provided for (consumption decreases the water inventory asset) and the water losses need to be accounted for (reduces natural resources). The amount that has been consumed in the A6 should be recognised as an expense in the A4 (expenditure: Inventory Consumed: Water). Any water losses reported in the A6 should be allocated to gains and losses in the A4 to recognise the decrease in water inventory and the increase in water losses expense in the A4. Lastly, should the value of the natural resources for water inventory change, fair value adjustments have to be made.

3.4.2.2 Responsiveness to Water Services Demand and Provision

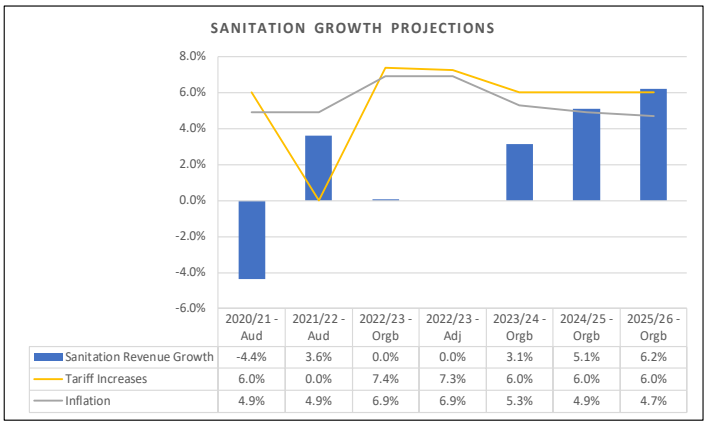
Municipal challenges	• Water infrastructure is at risk due to loadshedding affecting the provision of fresh water. • Vandalism at various water reservoirs and pump-stations and infrastructure. • Deteriorating water pipe infrastructure. • Out-dated equipment and limited budget for infrastructure refurbishment. • Limited staff capacity/staff shortages affecting service delivery. • Moordenaarskloof and Tierhokskloof are the main resources for the supply of water to Tulbagh at present, but yields are not sufficient - requires the implementation of water restrictions on an annual basis. • The absence of a storage dam for Wolseley and Op-die-Berg places the towns at risk during periods of severe drought. • The bulk supply line from the Tierhokskloof weir is at risk of collapsing due to age and needs replacement.
Water Expenditure Analysis	• As was the case for the 2022/23 financial year, water has been prioritised and remains the main budgeted allocation in the Trading Services capital budget (47.1%). This spending will facilitate the upgrading of the Tierhokskloof bulk pipeline (R13.876 million), the Tulbagh Reservoir (R3.534 million) and the renewal of water pipes and valve replacements (R100 000). These projects directly respond to the critical municipal challenges highlighted above and displays the Municipality's commitment to ensure a reliable and sustainable water supply for its residents.

	• To combat the risk of water shortages in the future, the Municipality could consider embarking on water conservation programmes to reduce the overall demand for water. This may include public awareness campaigns, incentives for water-efficient fixtures and appliances, and educational programmes. • Leak detection and repair programmes can also be used to identify and fix leaks in the water distribution system – this will enable a reduction in water losses and increase the availability of water. The Municipality can also invest in groundwater management programmes to ensure the sustainable use of groundwater resources. This may include monitoring groundwater levels, regulating groundwater withdrawals, and implementing conservation measures. • Overall, enhancing water security in the municipal area can lead to a healthier, more resilient, and prosperous community.

3.4.3 Wastewater Services

3.4.3.1 Wastewater Services Credibility and Sustainability

Diagram 3 Wastewater trading service trends



Cost Recovery	Direct and Indirect	2023/24	Surplus/ Deficit	
	Revenue	R33 059 123	-R131 942	
	Expenditure	R33 191 065		

Source: NT tariff setting tool

2023/24 Tariffs	Basic Charge	Tariff Increase (Mun)	Tariff Increase (WC Avg)
Business	Yes	6%	7%
Households	Yes	6%	7%

Source: Municipal Tariff list

Basic Service Delivery	Number of Households	Operational Cost of Waste water Services (R'000) 2023/24	2024/25	2025/26
Indigent (SA10,SA1)	8807	R 10 658	R 11 297	R 11 975
Indigent (LGES)	21 410	R 31 320	R 34 572	R 38 378

Source: A2 & LGES tables

- Sanitation services is expected to cost the municipality more than what will be generated. Total revenue after revenue forgone and expected cost of free basic services amounts to R33.06 million and expenditure is projected to be R43.58 million thus an estimated deficit of R131 942. Deficits on individual revenue items are usually funded by surpluses from other revenue items and service charges as well as the equitable share allocation. The Municipality is encouraged to review its sanitation tariff in order to break even.

- Over the 2023/24 MTREF sanitation revenue growth is expected to increase on average by 4.8 per cent. While sanitation expenditure growth has exceeded the revenue growth by 7.4 per cent over the past audited years, spiking again over the 2023/24 MTREF with an increase on average of 6.7 per cent above the average revenue growth of 4.8 per cent.

- The Municipality has budgeted for a tariff increase in sanitation revenue of 6 per cent on average and inflation is estimated to be 5 per cent on average over the MTREF. In order to for the Municipality to keep up with the expenditure growth in delivering sanitation services, which grows faster than the estimated inflation rate, a tariff charge above inflation seems necessary to be able to minimise deficits and ensure the continued delivery of wastewater management services.

- The Municipality's individual collection rate for sanitation services is estimated to be 77 per cent, indicating that 23 per cent is realistically anticipated to not be collected. However, every effort should still be made to collect the revenues due. The Municipality's budgeted debt impairment for sanitation services is R7.57 million, an accurate estimate based on their billing. However, the Municipality is not

funding the debt impairment (it reduces possible sanitation revenue and provision should be made to cover the costs of services delivered and not being able to be collected thereon). The debt impairment should be funded by a revenue source, even if debt impairment is a non-cash item, it should still be funded by a revenue source, i.e., sanitation revenue should fund any sanitation losses or impairment.

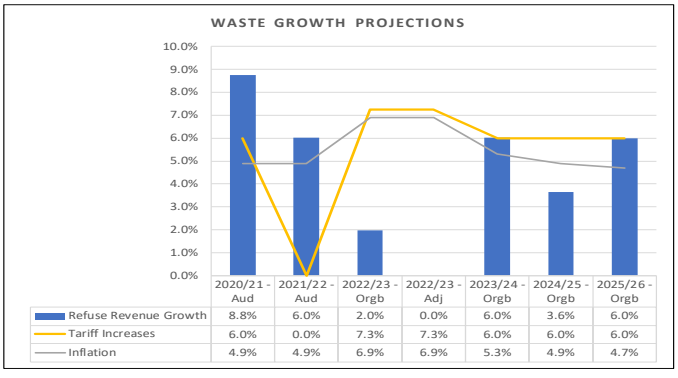
3.4.3.2 Responsiveness to Wastewater Services Demand and Provision

Municipal challenges	● Sewerage services are affected due to loadshedding, failure to pump and treat sewerage resulting in contamination and pollution. ● Vandalism challenges at various sewer pump stations and WWTW's. ● Limited budget for infrastructure refurbishment, upgrade and replacement of vehicles and out-dated equipment. ● Limited staff capacity/staff shortages affecting service delivery needs. ● Upgrade of sand filters required at Op-die-Berg plant – quality of discharge declines due to insufficient evaporation.
Wastewater Expenditure Analysis	● The capital expenditure budget for waste-water management decreased from R16.278 million to R100 000 (99.3%) in 2023/24, making provision for more pressing infrastructure challenges within the other Trading Services functions. The allocation will be used for sewer network replacements. The Municipality upgraded the security of pumpstations in the 2022/23 financial year, to address the vandalism challenges of sewer pump stations and improve service delivery within the municipal area. ● Despite limited funds, the Municipality addresses the municipal challenges and gaps displaying a clear alignment between the IDP and budget. Increasing expenditure on wastewater management can provide many economic benefits for the Municipality. These benefits include cost savings, improved public health, increased property values, job creation, sustainable development, and improved water supply. These benefits can help to stimulate local economic growth and provide a better quality of life for residents.

3.4.4 Waste Removal Services

3.4.4.1 Waste Removal Services Credibility and Sustainability

Diagram 4 Waste removal service trends



Cost Recovery	Direct and Indirect	2023/24 R'000	Surplus/ Deficit	
	Revenue	R31 314 824	-R38 667 121	
	Expenditure	R69 981 945

		2023/24	2024/25	2025/26
Indigent (SA10,SA1)	8807	R 9 114	R 9 661	R 10 241
Indigent (LGES)	21 410	R 26 255	R 28 981	R 32 172

Source: A2 & LGES tables

- Refuse revenue reports a projected deficit of R38.67 million for 2023/24. Expected revenue after the cost of free basic services and revenue forgone is estimated to be R31.32 million while direct costs are expected to be R69.98 million. Refuse revenue has grown at an average of 5.6 per cent from 2019/20 to 2022/23 and is expected to grow on average by 5.2 per cent over the 2023/24 MTREF. Costs of delivering waste management services have been increasing exponentially in relation to the revenue with a historic average growth rate of 98.8 per cent from 2019/20 to 2022/23 (almost doubled in costs). Over the 2023/34 MTREF the expenditure growth is expected to decline by 1.6 per cent.

- Tariff increases for refuse services are projected to increase on an average by 6 per cent, although it is above the estimated average inflation rate of 5 per cent over the MTREF, the increase is justified by comparing the revenue growth projections to the expenditure growth projections.
- The Municipality's individual estimated collection rate for refuse revenue is 70 per cent thus foreseeing an anticipated debt impairment of 30 per cent. The Municipality's provision for debt impairment for 2023/24 amounts to R9.98 million for refuse revenue which appears accurate based on the billing. Although debt impairment is only making provision for accounts that are likely not to be paid, it should not discourage the Municipality from employing every effort to collect such revenues due.
- The IDP indicates that the provision and operation of landfill sites in the Witzenberg Municipality have reached critical proportions due to drastically increased operating costs and permit conditions of existing sites, available landfill space and increasingly strict legislation to adhere to. The operational landfill sites will incur substantial costs to rehabilitate (R112.5 million needed to rehabilitate). The Municipality has no cash-backed reserves for the rehabilitation of landfill site which raises a risk in terms of the sustainability of the service over the long-term.
- Therefore, it is recommended that the Municipality must fast track its long-term strategy for waste management in order to move towards integrated waste management which will increase the recovery of waste material and thereby save landfill airspace, promote the waste economy, reduce the environmental impacts of waste management, create jobs achieve sustainability over the medium to long-term.

3.4.4.2 Responsiveness to Waste Removal Demand and Provision

Municipal challenges	• The management and upkeep of landfill sites have reached a critical state, primarily because of rising operating expenses and permit restrictions, limited landfill capacity, and the need to comply with increasingly stringent regulations. • Major obstacles to waste management include vandalism and theft at the Prince Alfred's Hamlet landfill site (fences are stolen and infrastructure vandalised) as well as illegal entry which results in periodic fires at the site. • High operating costs of Op-die-Berg site means that it will need to be closed. • The Municipality was forced to close the Wolseley site due to the informal community burning down the offices and damaging equipment. • Another risk includes the approval of the waste variation license at the Tulbagh landfill site which, should it not be approved, the Municipality will need to transport solid waste to Worcester or Drakenstein at high transport costs. For all landfill sites, rehabilitation costs are still outstanding. • Illegal dumping, dumping of household waste in skips and overflowing of skips is a serious problem in the municipal area. • Establishing a regional site in Worcester could potentially lower operating expenses, but the feasibility of it will ultimately depend on the associated transportation costs.
Waste Expenditure Analysis	• The Municipality has allocated 37.8% of its Trading Services capital budget towards waste management for the 2023/24 financial year. The capital expenditure budget increases by 429.5% when compared to the 2022/23 adjustments budget which is significant. There was however a sizeable decrease between the 2021/22 main budget (R10.453 million) and the adjustments budget (R2.653 million) which places the 2023/24 increase into perspective. • The funds for capital infrastructure will be used for a refuse removal truck to alleviate backlogs (R5.048 million), new drop off-transfer station that would replace the existing skip system (R6 million) and fencing of the Prince Alfred's Hamlet landfill site (R3 million). These augmented budget allocations indicate a clear acknowledgement of the issues highlighted in the IDP. With regards to the waste management challenges identified by the Municipality, the key projects unequivocally demonstrate the budget's responsiveness to the current crisis and demand.

	• The IDP notes that due to the small population and limited volumes of waste generated, it may not be feasible for the Municipality to implement a recycling system. The strategic placement of large recycling bins at shopping centres and schools will however be expanded to support waste minimisation and recycling. • It is clear that the Municipality is taking proactive measures to address waste management challenges and critical gaps by implementing effective strategies to help alleviate the backlog and ensure a cleaner and healthier environment for its citizens. The development of a long-term Waste Management Strategy is promising and aims at addressing waste avoidance, optimising the collection system, waste diversion and disposal. Additional actions include the implementation of a material recovery facility and drop-off points to replace garden waste skips. • Given the various waste challenges faced in the municipal area, another avenue to consider would be to encourage formal waste pickers in the municipal area and incorporate them into the waste management system. Formalising waste pickers can help to improve waste management as they can be integrated into the municipality's waste collection and disposal system. • Additional benefits include an increase in recycling rates, reduction in costs and job opportunities. Additionally, it would assist the municipality with its challenges of waste generation in informal settlements as the waste pickers can remove waste from the streets.

Property Rates

Revenue from property rates is expected to grow on average by 7.2 per cent over the 2023/24 MTREF, or estimated value on average of R109.88 million over the 2023/24 MTREF making property rates the Municipality's third largest revenue source following electricity revenue and operational transfers. The Municipality has budgeted for property rates by usage when looking at the data strings which is in accordance with section 8 of the MPRA, However, failed to complete the draft budget table SA12a. The number of properties outlined in SA12b of 2022/23 final budget and SA12b of the 2023/24 draft budget remains the same, highlighting a stagnating rate base.

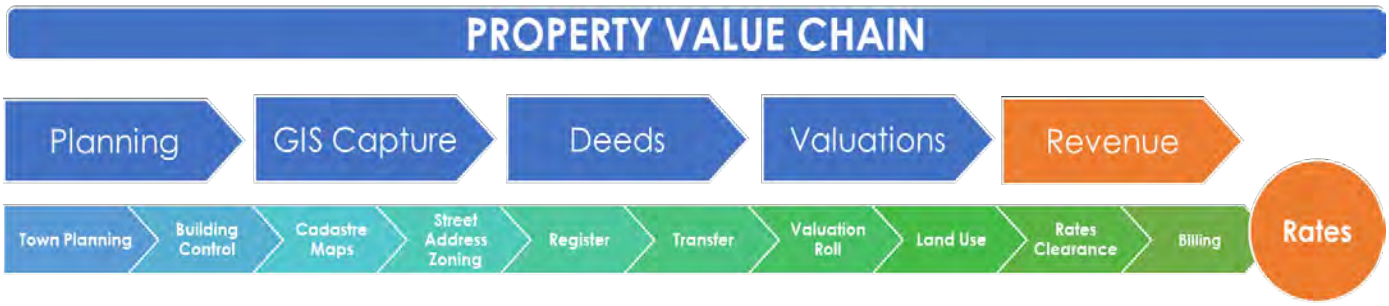
Municipalities require a reliable source of revenue to provide for basic services and perform their functions. Property rates would be classified as the most important source of general revenue for the municipality and as such MFMA Circular 89 stipulates that more effort is required to maximise revenue derived from property rates. MFMA Circular 93 further requires the submission of the reconciliation between the General Valuation Roll and financial system which will provide the support on projected increases. However, Municipality failed to complete table SA11 which relates to property rates valuation.

The Municipality applied an 86 per cent collection rate to property rates, thus anticipates that 14 per cent is unlikely to be collected. Based on the revenue billing for property rates, it is estimated that R14.31 million will be impaired, however, the Municipality budgeted for an impairment amount of R1.94 million projected impairment. The estimated impairment compared to the Municipality's expected collection rate is understated and this could be due to the fact that property rates are taxes and as such prescription on rates is 30 years and this period allows municipalities to explore all efforts to recover any outstanding amounts.

The Property Value Chain

The municipality's main asset is its property. Its main source of income is derived from charging for property rates. It is essential that municipalities reconcile their most recent consolidated valuation roll data to that of the current billing system data to ensure that revenue anticipated from property rates is realistic. Municipalities should implement a data management strategy and develop internal capacity to perform these reconciliations and investigations to improve completeness of billing. Diagram 5 below highlights the key inputs into the Property Value Chain to realise maximum revenue from property rates.

Diagram 5 Property Value Chain



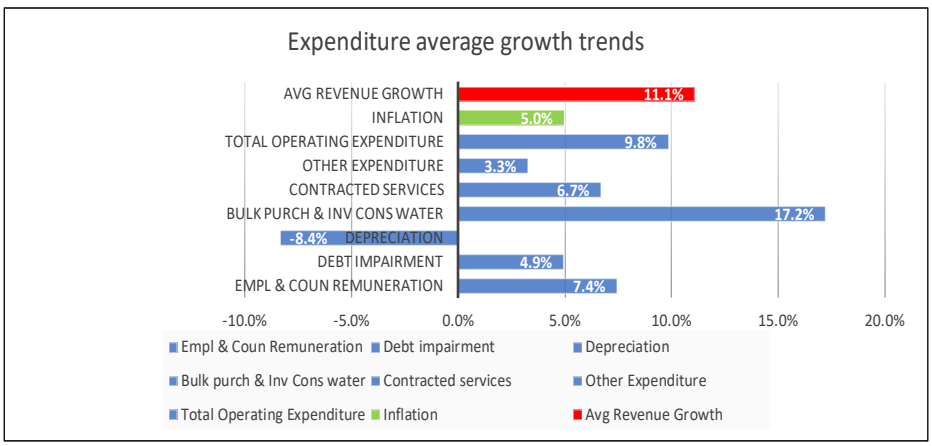
3.5.1 Other revenue risks

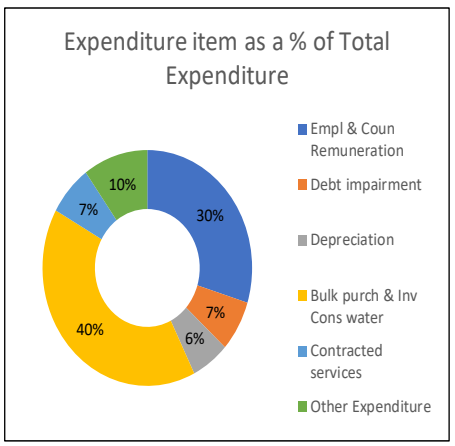
- Transfers recognised - Operational constitutes 18.7 per cent of the total operating revenue budget in 2023/24 which is second largest and indicates a reliance on grant funding to fund its daily operations. Current economic pressures and fiscal constraints of the country may greatly influence available funding for distribution in the future. Given the Municipality's grant dependency, it is therefore necessary to adopt a conservative approach when budgeting especially for outer years.

3.5.2 Operating Expenditure

Employee related costs and electricity bulk purchases remain the largest cash outflows for the municipality. Over the 2023/24 MTREF an average of 7.5 per cent increase is noted in the cost of employment although the budget report mentions a provision for a 5.4 per cent salary increase and 2.5 per cent notch increase for 2023/24. In addition, NERSA has proposed an 18.5 per cent hike in electricity meaning the municipality will have to acquire electricity at a cost of 18.5 per cent higher in 2023/24. Electricity will become more expensive and load shedding taking its tall as a result drive consumer to using electricity sparingly and seeking alternative energy solutions that will cause electricity revenue to decline but also have the same decline effect for electricity bulk purchases as demand decreases.

Diagram 6 Operating expenditure trends





- For 2023/24 budget year the operating expenditure is anticipated to increase by 11.3 per cent when compared to the current year budget which is lower than the revenue projection of 10.6 per cent with bulk electricity purchases being the largest contributor.

- Bulk electricity purchases make out an average 43.3 per cent of the total expenditure budgeted over the 2023/24 MTREF. An expected average of 17.2 per cent year on year increase is anticipated by the municipality on electricity bulk purchases. Increases in electricity bulk purchases is outside the control of the municipality as NERSA has approved an electricity hike of 18.5 per cent for municipalities, leaving

municipalities with no other option but to absorb these price increases into their annual projections and try to alleviate the impact on consumers where possible.

- Employee related costs and councillors' remuneration are the second largest operational expense for the municipality. The NT norm for employee related costs is between 25 to 40 per cent of the total expenditure and the Municipality's ratio for employee related costs is 29.7 per cent of the total expenditure budget for 2023/24 which is within the NT norm.

- The Municipality has made provision for a 5.4 per cent salary increase for 2023/24 and a 2.5 per cent notch increase for qualifying officials in their expenditure budget hence a combined increase of 7.9 per cent. The increase that the Municipality provided for is in line with the current wage agreement, however, to contain costs the Municipality must limit the budget for overtime expenditure which currently reflects an increase of R10.50 million or 144.4 per cent when compared to current budget. It is also indicated that the job descriptions of all employees are in the process of being re-evaluated and the outcome of the evaluations is still unknown, but it is expected that the salaries of some employees will increase which will increase the expenditure on this item further.

  In view of the current revenue projections and economic outlook, the Municipality is encouraged to monitor employee related costs closely to ensure the expenditure item is within the affordable limits as increases should correspond with adequate revenue provisions as to not adversely impact the financial health of the Municipality. A key consideration is the prioritising only critical vacancies, avoid excessive overtime and optimising existing staff complement by limiting use of consultants. Municipality is also encouraged to change current employment conditions to be in line with the current loadshedding challenges. The Local Labour Forum should be consulted, and SALGA can provide advice, but for the Municipality to sustain its wage bill it must be agile in its approach or else it will deplete its reserves by funding additional hours employees will work.

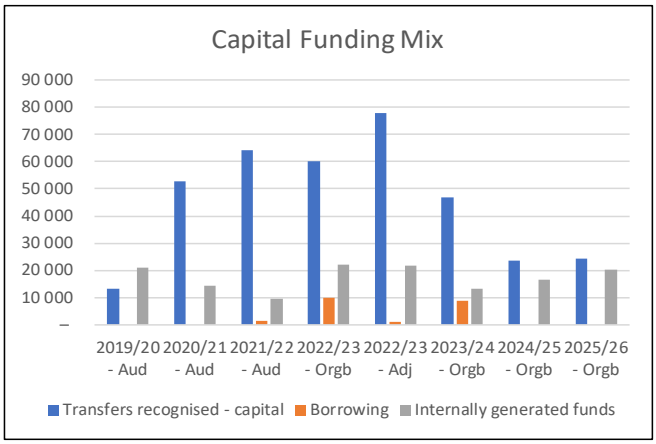
- Depreciation and asset impairment for the 2023/24 MTREF is R44.34 million on average or 4.5 per cent of total expenditure. Depreciation is a non-cash item, but it is an accounting value determining the value by which an asset decreases over time through its use. Therefore, it is important that depreciation expenditure is funded so that funds can be reserved for the replacement or upgrading of infrastructures and assets, especially those infrastructures and assets used in the production of delivering essential basic services. However, currently the Municipality did not provide a funding source for depreciation and asset impairment and remains a journal entry with no value cash backed.

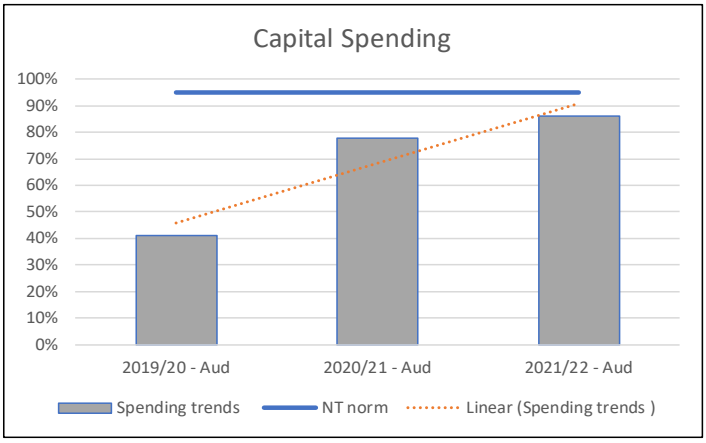
- The Municipality budgeted an average amount of R66.50 million for contracted services over the 2023/24 MTREF consisting of outsourced services (average of R32.57 million), consultants and professional services (average of R26.83 million) and contractors (average of R7.09 million). Against the backdrop of employee related cost being the main cost driver, it would be recommended that, depending on the service delivery model, that the Municipality weigh the costs and benefits of building capacity in-house versus the increasing budget allocation to the outsourcing of certain functions to contractors, when reviewing the employee strategy in the long term financial plan to avoid ongoing reliance on contractors. Over the 2023/24 MTREF contracted services makes out an average of 6.6 per cent of the total expenditure. The NT norm is between 2 – 5 per cent. This indicates that the Municipality is slowly becoming over reliant on contracted services to perform municipal related functions.

- In terms of the budget allocation towards other expenditure, the Municipality should review and assess the necessity of all expenditure to identify any areas where expenditure can be curbed. Improvements in service delivery must come through efficiency gains, savings, reducing waste and enhancing cross-sector collaboration. The Municipality should stringently implement cost containment measures over the MTREF and to ensure the Municipality's spending is within the available revenue. The Municipality is also encouraged to review the current cost containment policy to be in line with the adjustments that National Treasury proposed in the latest circular.

3.5.3 Capital Funding Mix

Diagram 7 Capital funding mix





- Over the past 3 audited years, the Municipality's capital spending implementation has improved from 41 per cent in 2019/20 to 78 per cent in 2020/21 and 86 per cent in 2021/22. The trend indicates that the Municipality has progressed in terms of its capital budget implementation post COVID however, it is still below the NT norm of 95 per cent.

- Over the 2023/24 MTREF the Municipality's capital budget is expected to be funded primarily through capital grants followed by own revenues and borrowings. Estimated capital grants over the 2023/24 MTREF is on average 60.4 per cent of the capital budget followed by own funding of 35.3 per cent and borrowings of 4.4 per cent. When the capital funding mixes over the 2023/24 MTREF is compared to the past 3 audited years it is noted that the Municipality is budgeting for a decline in dependency on capital grants to fund their capital budget. The audited average for capital grants is 67.5 per cent over the past 3 years whereas the 2023/24 MTREF reports a decline to 60.37 per cent.

- Although there is a slight decline in capital grants to fund the capital budget over the 2023/24 MTREF, an increase in borrowings is noted. In addition, the use of own funds to fund capital expenditure over the 2023/24 MTREF signals an upward trajectory from an average of 31.8 per cent to an estimated average of 35.3 per cent over the 2023/24 MTREF. The gearing ratio is within the National Treasury acceptable norm of 45 per cent, indicating that the Municipality has the capacity to increase funding through borrowings, however, this should be considered within the cash flow requirements of the Municipality.

- Capital spending funded from internally generated funds amounts to R13.19 million. The Municipality will maintain a capital replacement reserve amount of R12.54 million as per A6-Financial Position and it is unclear from the budget documentation how the Municipality will sustain the contribution towards the capital replacement reserve based on the financial position of the Municipality.

- The funding mix of the Municipality is balanced in context of the restrained financial position of the Municipality however it would be recommended that the Municipality apply prudent fiscal management and closely monitoring the realisation of cash-backed surpluses to be used for capital.

- In terms of data string analysis, the A6 deposits recognised amounts to R75.58 million for conditional grants. The corresponding liability for unspent grants to be recognised amounts to R35.07 million. The deposits and receipts should reconcile. No liability has been recognised for Provincial Capacity building and other and provincial Infrastructure. Transfers to revenue and capital should reconcile with capital grants recognised and operation grant recognised (the Municipality should budget to recognise grants after it has been spent). The Municipality's transfer to capital/revenue does not reconcile to the transfers

recognised. Lastly, grant accruals (current liability) should reconcile to the grant spending and input VAT recognised should be the balancing figure or difference between the spending and accruals. The Municipality did not make provision for the recognition of input VAT although the data strings was created.

3.5.4 Capital Expenditure Trends

Diagram 8 Asset Management

	2019/20 - Aud	2019/20 - Aud	2020/21 - Aud	2022/23 - Org b	2022/23 - Adj	2022/23 - Org b	2023/24 - Org b	2024/25 - Org b
% renewal of total capex	67.4%	16.2%	11.5%	46.6%	56.0%	36.9%	67.8%	56.6%
% renewal of total depreciation	58.0%	58.1%	38.4%	108.6%	106.4%	46.7%	69.2%	64.4%
R&M As % of PPE	-247.0%	23.0%	1.0%	2.0%	2.0%	3.0%	3.0%	3.0%

- The Municipality allocated 53.9 per cent of the capital budget towards trading services or revenue generating assets and the largest component is towards water management and waste management.
- Repairs and maintenance expenditure average an amount of R30.86 million over the 2023/24 MTREF. This equates to 3 per cent of the total value of PPE. The NT norm is 8 per cent hence the Municipality's provision for repairs and maintenance is below the set standard. The purpose of the norm is so that municipalities can perform adequate repairs and maintenance to assets to ensure adequate maintenance to prevent breakdowns and interruptions in service delivery.
- Repairs and maintenance allocated to trading services average an amount of R10.58 million per annum over the 2023 MTREF. That is an average of 34.3 per cent of the total repairs and maintenance budget per annum over the 2023 MTREF. Repairs and maintenance are allocated towards electrical infrastructure, water infrastructure and sanitation infrastructure but no amount was allocated towards solid waste infrastructure over the 2023/24 MTREF. This raises a concern as currently the Municipality is using a loan to repair and maintain/ upgrade a landfill site (R3 million for fencing landfill site).
- Renewal and upgrading of assets for 2023/24 amounts to R25.41million per annum or 36.9 per cent of the total capital expenditure which is below the NT norm is 40 per cent. In addition to the low levels of renewing and upgrading of assets in 2023/24, the Municipality further reported in budget related documentation the deterioration and ageing of infrastructure which raises the possible risk in terms of the safeguarding of the asset base.
- The current performance as at 28 February 2023 is at 47.4 per cent of the adjusted budget. Possible under spending is foreseen if the Municipality does not closely monitor the capital performance. The Municipality is requested to focus on project implementation plans from the project managers and in consultation with supply chain demand management plans, that will also assist in capital performance

management and ensuring capital budget is spent within National Treasury Norms of at least 95 per cent of the Capital Budget as per MFMA circular 71.

- In terms of monthly budget projections, the Municipality took its total estimated expenditure and divided it by 12. Municipality needs to address the issue of straight-line budgeting on capital expenditure and consider the timing transfers from National Treasury, consider seasonal fluctuations, and look at actual trends from previous years.

3.5.5 Other Capital Infrastructure Responsiveness

Municipal challenges	• The municipal road network is in good condition, but challenges include funding backlogs on bituminous pavements, deteriorated Tulbagh roads, upgrading needs on provincial roads (funds approved for upgrades), upgrading needs for public transport infrastructure (no funding for proposals from Transport Master Plans). There is also a need to consolidate the various taxi ranks in Ceres.

Capital Expenditure Analysis	• The municipal transport budget for Witzenberg indicates that there is R26.9 million allocated towards road infrastructure projects for the 2023/24 financial year.
	• A large majority of the funds (R24.513 million) will be allocated towards the widening and upgrading of the historic Van Breda Bridge over the Dwars River on Voortrekker Road in Ceres, together with the associated roadworks on the approaches and in the adjacent area that must be adjusted and upgraded to accommodate this upgrading. The project will be completed by 2023/24 and will provide significant benefits to the local community and economy. Some of these benefits include:
	  ◦ Improved transportation since the bridge is a vital link between Ceres and surrounding areas. It will reduce traffic congestion and travel time, making it easier for people and goods to move in and out of the area.
	  ◦ It will also result in increased economic activity and increased employment opportunities and income for the local community.
	  ◦ The upgrade will also improve safety, as the bridge was narrow with poor visibility, making it unsafe for motorists and pedestrians. Upgrading the bridge can reduce the number of accidents and fatalities for all road users.
	  ◦ This infrastructure investment will also result in enhanced tourism which the municipality should greatly leverage. It will be easier for tourists to visit the Ceres area – which is a popular tourist destination and can lead to increased tourism revenue for the local economy.
	  ◦ Stimulates job creation in the municipal area and enables businesses to grow both locally and beyond.

3.5.6 Utilising Strategic Procurement as a lever to enhance Local Economic Development (LGSCM)

Demand Management and procurement planning has become a national concern, hence National Treasury issued MFMA Circular No. 94 requiring the Municipalities to submit the procurement plan together with the Budget, Service Delivery and Budget Implementation Plan (SDBIP) to address the weaknesses in the procurement planning processes, impacting on the slow spending on the capital budgets resulting into a negative impact on service delivery.

Procurement planning in the Local Government sphere is a developing process but needs to be enhanced as the absence thereof has been attributed for poor service delivery and not meeting municipal service delivery goals.

Therefore, the alignment between the IDP, budgeting and procurement planning processes has become increasingly important to ensure optimal and effective utilisation of the Municipality's budgets and to achieve this objective is to utilise procurement as a strategic tool to drive local economic development (LED).

For this reason, the development a procurement plan is so important taking into account environmental, social aspects in addition to traditional economic or financial considerations in conjunction with the demand plan to source items of a strategic nature and where possible source alternate suppliers or alternate commodities.

3.5.6.1 Procurement Plan

The assessment of the procurement plan can be utilised as a management tool to assist municipalities with the following:

- Determine procurement timeframes, allocate resources accordingly and identify any potential implementation risks.
- Monitor procurement processes to ensure everything is on track and concluded on time, which will lead to improved procurement efficiency; and
- Identify opportunities for strategic sourcing and bulk buying.

Key findings

- The Municipality is commended for having a duly completed Procurement Plan in place whereby the expenditure amount on the plan is aligned to its A-schedules Table A5 Budgeted Capital Expenditure by Functional Classification and Funding for the Budget year 2023/24. This is indicative that the demand management and procurement planning is integrated within the Municipality.
- Furthermore, it was determined from the procurement plan submitted by the Municipality that, there are items that have the potential of being seen as splitting of an order of which the Municipality should mitigate, as the method of procurement for those items are not clearly defined in the plan for items such as the procurement of furniture and equipment.
- The Municipality should consider linking large capital projects to the FIPDM, such as Housing, Water and Sanitation, Energy (MER) project and Roads projects as identified on the procurement plan. It should be noted that these capital projects are considered long-term contracts of which Section 33 of the MFMA needs to be adhered to.

SECTION 4: REVIEW OF THE HISTORICAL FINANCIAL INFORMATION

4.1 THE FINANCIAL PERFORMANCE AS PER THE AUDITED ANNUAL FINANCIAL STATEMENTS

The assessment of the financial health and performance is an integrated process involving a review of a municipality's audited annual financial statements, audit report and ratio analysis. The results of the ratio analysis are used to support financial decisions and to identify factors which may influence the financial stability of the municipality.

Adverse ratio outcomes show potential areas requiring action to ensure sustainability. The assessment trend analysis is based on the audited financial statements for 2020, 2021, and 2022; however, the table provides a five-year time frame for analysis (2018 to 2022) to provide a more comprehensive perspective for evaluating the 2022/23 budget.

The analysis is conducted as per National Treasury MFMA Circular No. 71. Provincial Treasury has analysed these ratios and the following items are highlighted.

4.2 SUMMARY AND FINDINGS FROM HISTORICAL TRENDS (LG ACCOUNTING)

NT WEB-BASED PORTAL STATUS: -

The ratio results are those of the PT for the period under review as the ratio results are still to be uploaded.

4.2.1 Asset Management

No.	Financial ratios & norms	2018 Audited	2019 Audited	2020 Audited	2021 Audited	2022 Audited	*CAGR	Projection	Overall Rating
1	Impairment of Property, Plant and Equipment, Investment Property and Intangible Assets (Carrying Value): 0%	0.00%	0.09%	0.00%	0.06%	0.21%	N/A	N/A	▲
2	Repairs and Maintenance as a % of Property, Plant and Equipment, Investment Property (Carrying Value): 8%	2.10%	1.92%	1.54%	2.82%	2.10%	0.05%	2.10%	▲

- The repairs and maintenance for the period under review ratio results are below the desired NT norm of 8 per cent. Therefore, the outcome computed for the 2022 year of 0.21 per cent possibly indicates that insufficient expenditure gets incurred on repairs and maintenance to the extent that it could impact the use of the assets and increase the impairment of valuable assets. Therefore, the Municipality should ensure that the repairs and maintenance is performed per the planned asset management strategy.
- The Impairment of Property, Plant and Equipment, Investment Property, and Intangible Assets (Carrying Value) ratio outcome of 2.1 per cent indicates that the Municipality manages and maintains its assets well by ensuring they are always in good condition for the continuation of service delivery.
- Therefore, conditional assessments must continually inform asset maintenance programs that critical infrastructure be more closely monitored and secured. In addition, maintenance programs should consider and take note of wear and tear items, which could signal more frequent maintenance of assets as they age. These measures will ensure reduced risks of loss and damage and limit downtime in service delivery. Finally, these measures ensure that IDP objectives get achieved, thus entailing that SDBIP gets successfully implemented.

4.2.2 Cost Coverage

No.	Financial ratios & norms	2018 Audited	2019 Audited	2020 Audited	2021 Audited	2022 Audited	*CAGR	Projection	Overall Rating
3	Cash/Cost Coverage Ratio (Excluding Unspent Conditional Grants):1 - 3 months	2.4 Months	2.0 Months	1.7 Months	1.9 Months	2.5 Months	1.05%	2.5 Months	▲

- In assessing cash coverage results, the ratio results indicate that the Municipality can meet its operating commitments from cash and short-term investments and positively reflect on its cash management.
- Management should read the outcome cost coverage ratio and the Working Capital Management (WCM) ratio in conjunction, as it directly impacts each other. For example, the Municipality might need to collect cash from customers on time, as indicated by the WCM ratio outcomes. Thus, this position will further improve the cash flow if the Municipality improves its revenue collection and ensure that debtors pay what is due to the Municipality timeously.

4.2.3 Liability Management

No.	Financial ratios & norms	2018 Audited	2019 Audited	2020 Audited	2021 Audited	2022 Audited	*CAGR	Projection	Overall Rating
4	Debt (Total Borrowings)/ Revenue: 45%	1.47%	1.21%	0.79%	0.45%	0.34%	-30.52%	0.24%	▲
5	Capital Cost (Interest Paid and Redemption) as a % of Total Operating Expenditure: 6% - 8%	0.92%	3.24%	2.44%	1.75%	2.37%	26.78%	3.00%	▲
6	Capital Cost (Interest Paid and Redemption) as a % of Total Operating Revenue: 6% - 8%	3.57%	3.37%	2.57%	1.81%	2.29%	-10.52%	2.05%	▲

- The Municipality has managed their liabilities well, supported by the Debt to Revenue ratio, which remains well below the norm, easing concerns about whether it could generate enough revenue to service debt obligations. In addition, the Municipality has the capacity to take on additional borrowings, evidenced by other ratios discussed above and low current costs of servicing the debt.
- However, when the Municipality decides to take on additional funding, all other cash flow projections need to get considered for affordability purposes. Therefore, management should not read this ratio set; consideration should get given to Working Capital Ratios.

4.2.4 Expenditure Management

No.	Financial ratios & norms	2018 Audited	2019 Audited	2020 Audited	2021 Audited	2022 Audited	*CAGR	Projection	Overall Rating
9	Remuneration as a % of Total Operating Expenditure: 25% - 40%	30.86%	31.61%	30.17%	31.12%	31.05%	0.15%	31.10%	
10	Contracted Services as a % of Total Operating Expenditure: 2% - 5%	6.86%	7.87%	6.88%	8.05%	4.84%	-8.36%	4.43%	
11	Irregular, Fruitless and Wasteful and Unauthorised Expenditure/ Total Operating Expenditure: 0%	0.00%	4.97%	4.26%	0.30%	1.28%	N/A	N/A	

- Remuneration to Total Operating Expenditure ratio results has remained relatively constant over the review period, averaging 30.96 per cent. Thus, the outcomes have remained within the NT norm of 25 – 40 per cent. However, the Municipality needs to be cautious about an increasing wage bill without deriving any additional capacity to improve the delivery of its service imperatives.

- The ratio results for contracted services have fluctuated yearly over the five years under review. This ratio indicates that minimal functions get outsourced to consultants, which the Municipality gets commended for. However, the Municipality is still encouraged to analyse its contracted service to find ways to reduce this expenditure where necessary. An increase in the ratio exposes the Municipality to risks such as an inability to build capacity and ongoing reliance on contractors.

- The Irregular, Fruitless & Wasteful and Unauthorised Expenditure ratio results have improved from 4.97 per cent in 2019 to 1.28 per cent during the 2022 financial year. The municipality is reminded to remain cognisant that Irregular, Unauthorised, Fruitless and Wasteful expenditure may indicate inadequate control. Therefore, management must investigate the rules in place and re-engineer the appropriate process to enable the non-occurrence of these forms of expenditure.

4.2.5 Working Capital

No.	Financial ratios & norms	2018 Audited	2019 Audited	2020 Audited	2021 Audited	2022 Audited	*CAGR	Projection	Overall Rating
7	Net debtors' days: ≤30 days	56 days	57 days	58 days	58 days	54 days	-0.99%	54 days	
8	Creditors Payment Period (Trade Creditors): 30 days	43 days	40 days	41 days	42 days	38 days	-3.26%	36 days	

- The Net debtors' days of the Municipality indicate that debtors take 57 days to settle their accounts on average. Though there is an improvement in the 2022 financial year, the ratio outcome is above the NT norm of 30 days. This result indicates that the Municipality could be exposed to cash flow risk due to the Municipality experiencing challenges in collecting outstanding monies from debtors. The development will receive further support in the 2022 financial year. The Municipality has R284,67 million (receivables from exchange transactions (Consumer debtors) + property rates), and 77.18 per cent of debtors are outstanding for more than 90 days. Therefore, the Municipality should also implement stricter credit control measures to avoid debt going beyond 30 days. Failure to collect what is due to the Municipality might cripple the revenue base, consequently affecting the Municipality's cash flows.

- The Creditors' Payment Period ratio results may have improved over the period under review; the results remain above the NT norm of 30 days. Longer than 30 days to settle creditors indicates that the Municipality may be experiencing cash flow problems. This ratio further means the Municipality may need to manage its Working Capital adequately or that adequate controls need to be in place to

ensure prompt payments. The Municipality will be required to provide further explanations in this regard. In addition, non-compliance with MFMA regulations guiding creditors' paying should get considered.

- In conclusion, the WCM components indicate areas of improvement concerning the strategies used in collecting monies and paying amounts due timeously. The Municipality is thus encouraged to revise their approach and address gaps; matters not attended to could result in future shortcomings concerning cash availability and the Municipality's day-to-day operations.

4.2.6 Going Concern

No.	Financial ratios & norms	2018 Audited	2019 Audited	2020 Audited	2021 Audited	2022 Audited	*CAGR	Projection	Overall Rating
12	Total Liabilities to Total Assets: <50%	22.12%	21.92%	22.01%	24.24%	25.51%	3.63%	26.43%	▲
13	Total Debt to Total Assets	0.69%	0.55%	0.39%	0.22%	0.17%	-29.05%	0.12%	▲
14	Current Ratio: 1.5-2:1	2.2	2.0	1.8	1.7	2.3	0.34%	2.3	▲

- In analysing the Going Concern of the Municipality, we first examine the ratio outcomes on various ratios. The Total liabilities to Total Assets ratio result fluctuated over the period under review. As a result, the ratio results are within the NT norm of <50 per cent. This outcome we can interpret as 25.5 per cent of the Municipality's assets getting funded by non-equity sources. These results further indicate that the entity has adequate resources to continue operations indefinitely.

- Additionally, the other going concern-related ratios indicate that the Municipality is still in an excellent financial position as the debt financing of the Municipality's assets are at an acceptable level. The Municipality is encouraged to ensure that they continue to manage its debt financing.

- They are additionally looking at the Municipality's liquidity ratio concerning its liquid assets. The current assets cover the current liabilities in the short term, and the Municipality is further encouraged to manage and enhance this going forward.

** CAGR = Compound annual growth rate is a business and investing specific term for the geometric progression ratio that provides a constant rate of return over the time period. CAGR = [(End Value/Beginning Value) ^1/number of years of growth] - 1*

▲	Favourable
▲	Unfavourable
▲	Needs Improvement

4.3 MSCOA IMPLEMENTATION

4.3.1 mSCOA Priorities

- Ensure governance of mSCOA implemented at municipalities, i.e., roadmaps in place and adequate, SteerComs in place and functional, champions appointed and active.

- Promote the use of the FAQ database for all queries and report updates via forums (i.e., MAF, AWC).

- Perform on-site inspection and assessment of municipalities' systems and implementation to determine compliance (circulars, legislation, regulation), vulnerability and progress of mSCOA implementation.

4.3.2 Credibility of mSCOA data strings

MFMA Circular No. 122 states that the credibility and accuracy of the data strings must be verified by municipalities before submission as the data strings submitted will be used as the single source for all analysis and publications in the 2023/24 municipal financial year. Municipalities have been given access to the

GoMuni portal in April 2022 and should use the reports on GoMuni to verify the credibility of their submissions. It should be emphasized that errors in the data can only be corrected in the next open period. e.g., errors in the tabled budget (TABB) data string can only be corrected in the adopted budget data string (ORGB). Municipalities are not allowed to open closed periods to make corrections.

Table 3 mSCOA Segments Use Analysis

mSCOA Western Cape Segment Analysis		
No	Segment	Witzenberg
1	Project Segment	TABB 2023/24
1.1	Maintenance	Adequate use
1.1.1	Corrective Maintenance	
1.1.1.1	Planned	Budget allocated
1.1.1.2	Emergency	Budget allocated
1.1.2	Preventative Maintenance	
1.1.2.1	Condition Based	Budget allocated
1.1.2.2	Interval Based	Budget allocated
1.2	Typical Work Streams	Adequate use
1.3	Municipal Running Costs	Excessive use Municipal Running Costs project. Consider transferring some of that to Typical Work Stream.
1.4	Default	Adequate use
2	Fund Segment	
2.1	Use of Fund Segment	Fund segment not correctly applied to all items (e.g. depreciation and sanitation)
3	Function Segment	
3.1	Use of Function Segment	Adequate use
4	Costing Segment	
4.1	Use of Costing Segment	Adequate use
5	Region Segment	
5.1	Use of Region Segment	Did create stings for different wards, however, did not allocate a budget for all services/transactions/items
6	Item Segment :	
6.1	Property Rates	Impairment loss under estimated based on billing (A6) and collections (A6).
6.2	Service Charges	Billing transactions - no provision for the recognition of the output VAT accrual Impairment understated based on A6 billing and A6 collections No provision for VAT consequences of doubtful debts
6.3	Fines	The use of non-funding transactions for overdue book fines to be corrected A6 fines issued do not agree to A4 fines revenue A7 fine receipts do not agree to A6 fine payments received and direct payments in the A4
6.4	Employee Related Costs	A4 expenditure do not agree to A6 accrual/deposits A6 accrual/laibility do not agree to A7 withdrawals payment or clearning of salary account
6.4.1	Senior Management	Budget allocated
6.4.2	Municipal Staff	Budget allocated
6.5	Councillors Remuneration	Budget allocated
6.6	Bulk Purchases	Budget allocated
6.8	Debt Impairment	The use of non-funding transactions should be corrected. Debt impairment is understated when billing and collections are compared
7.1	Contracted Services	
7.1.1	Outsourced	Budget allocated
7.1.2	Consultants and Professional Services	Budget allocated
7.1.3	Contractors	Budget allocated
8.	Other Materials	
7.1.2	Inventory Consumed	Adequately used
7.1.3	Water Inventory	Is not applying the principles of GRAP 12

Provincial Treasury has provided the TABB segment tools analysis to the municipality, with the goal of assisting municipalities in examining their data and determining if the information is appropriately retrieved across all segments before finalising the ORGB data strings. TABB shall be rectified in the ORGB before the adopted budget is locked on the financial system and the ORGB data string is created. Furthermore, it is recommended that the Municipality make themselves available for a session (through MS Teams) on the TABB segment analysis to provide further clarification on the segment analysis tools.

SIME 2023/24 – Witzenberg Municipality

- **2023/24 MTREF Assessment Response (Summary 1- 2 slides)**
- **Key Areas for Discussion**
- **Top Municipal Priority areas for discussion (5 slides)**
- **Capital Budget Discussion (5 Slides)**
  - *Service delivery objectives & challenges*
  - *Funding mix & external borrowing strategy*
  - *Infrastructure pipeline*
  - *Long-term financial planning*
- **Key service delivery & fiscal risks (1 slide)**
- **Conclusion (1 slide)**

2023/24 MTREF
Assessment Response

MTREF Assessment Response (1)

- The long outstanding debtors for water are increasing and efforts to improve this should be reviewed.

  In process to obtain council approval for prepayment water meters.

- Two of the trading services, wastewater and waste management, are trading at a deficit whilst electricity and water are being utilised to cross-subsidise other services.

  The revenue in respect of waste water and waste management are reduced by the subsidies given to indigent households (revenue foregone)

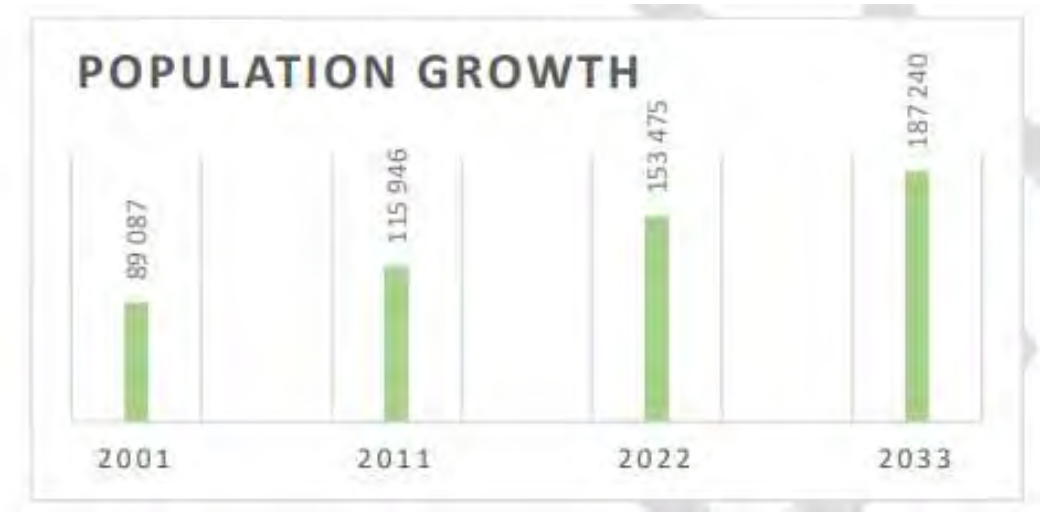
- Repairs and maintenance remain below the national norms and standards. It is recommended that the Municipality provide a detailed explanation that the budgeted allocations is adequate to secure ongoing health of infrastructure.

  The municipal own cost such as employee cost, vehicle cost etc. is not included in the Repairs and maintenance cost.

MTREF Assessment Response (1)

- Municipality needs to relook at the huge increase (144.4 per cent) budgeted overtime for other employees and find alternative ways to contain expenditure on this item such as looking at shift work where possible.

The overtime budget was historically limited in an attempt to reduce the expenditure, it was unfortunately not successful. The 2023/2024 budget is based on actual expenditure. New rules for standby and overtime have been implemented from March 2023 with the aim to limit expenditure in relation to overtime and standby.



No corresponding increase in employee numbers.

MTREF Assessment Response (1)

- Contracted services are above the national norm. It is recommended that the Municipality weigh the cost benefit of building capacity in-house versus the increasing budget allocation to the outsourcing of certain functions to contractors.
- The main contributor to contracted services is the provision for security expenses. The police service does not provide protection for municipal assets, thus the municipality must self provide for the protection.

CAPITAL BUDGET 2023/24 R'000

PROPOSED LOAN	
Transfer Stations	6 000
Fencing Landfill site	3 000

CAPITAL BUDGET 2023/24 R'000

MIG FUNDING	
Vredebes Access Collector	2 284
Tulbagh Reservoir	3 533
Refuse Removal - Yellow Fleet	5 048
Tierhokskloof – Wolseley - Bulk Pipeline	10 919

MTREF Assessment Response (1)

Key findings – Integrated planning – section 2

- *Finding – The 2023 SIME report found that we are in non-compliance due to an outstanding performance review.*

A review of how well the municipality is performing in terms of the implementation of its MSDF are being drafted and will be submitted as part of the idp.

- *Finding – Climate Change – bulk resources and infrastructure component of the IDP needs to look to the future when business-as-usual infrastructure maintenance and upgrades will not satisfy demands.*

The CEF has been compiled to deal with this matter, the Infrastructure Investment Plan will also be updated to cover this aspect.

- *Finding - More detail can also be provided in terms of the maturity, rollout and impact of the Small-Scale Embedded Generation plan.*

Response will be updated , as we are busy with the compilation of our energy plan.

MTREF Assessment Response (1)

Key findings – Integrated planning – section 2 .

- *Finding - Wolseley landfill has seemingly been abandoned and the surrounding community is at risk, so the Municipality needs to legally decommission this facility urgently.*

We will attend to this in future financial years.

- *Finding - Prince Alfred Hamlet landfill burns routinely as illegal access has been prevalent for several years.*

The fence of the landfill was stolen by community members, we are busy with a bid to erect concrete hollow core fencing around the landfill site.

- *Finding - Low Departmental audit scores must urgently be addressed, as they have not improved in recent years.*

This is due to the fact that the landfill is not fenced off, and vagrants are uncontrollable, once the landfill are fenced off it will improve

MTREF Assessment Response (1)

Key findings – Integrated planning – section 2

- *Finding - The Municipality is well set up to divert organic waste as green waste is already being separated, however, this is currently being landfilled. This needs to be urgently addressed as by 2027 all organic waste will be prohibited from landfill.*

A organic waste diversion plan is being finalised now, once the comments of DEADP are received it will be implemented , to assist us with our waste diversion strategy.

- *Finding - There is no clear indication that the Municipality's current IWMP was adopted by Council.*

The IWMP was submitted to council for approval, they requested to workshop it, where after it will be approved.

- *Finding - 3.4.2.2 Responsiveness to Water Services Demand and Provision - The bulk supply line from the Tierhokskloof weir is at risk of collapsing due to age and needs replacement*

We have already started with the replacement of the Tierhokskloof weir & gravity fed line, the design & eia are done this financial year & construction next financial year.

Key Areas for Discussion

Priority 1: Lack of Eskom to supply electricity

- *Without a sufficient and sustainable electricity supply, the Witzenberg economy finds itself in dire straits.*

The hard hitting facts are that Witzenberg Municipality is for all intents and purposes running at its NMD (Notified Maximum Demand) of 41,5 MVA.

The current Eskom backbone network does not permit an increase of this NMD until such time that their backbone network has been upgraded. The implications of this is 7 years and R360 million, meaning that 2030 is the earliest our NMD can be upgraded.

It is therefore an urgent need that Witzenberg be assisted with the alternative energy project, funded by Provincial government to overcome this problem.

Priority 1: Lack of Eskom to supply electricity

- *Below is a table depicting the current and immediate future growth, ito load forecast.*

	Ceres	Tulbagh	Wolseley
NMD	36.5 MVA NMD (41.5) Highest Registered 38.89 MVA (Feb 22)	4.5 MVA NMD Highest Registered 4.18MVA (Feb 22)	5.2 MVA NMD Highest Registered 5.1 MVA (Feb 22)

Capital Budget Discussion

182

Funding Mix & External Borrowing Strategy

- *The intention is for the municipality to highlight their current funding mix as well as the municipality's current borrowing strategy*

Focus Area	Own Funded	Loan Funded	Grant Funded	Total
Streets	4 400	-	22 571	26 971
Water	3 057	-	14 454	17 510
Solid Waste	-	9 000	-	9 000
Vehicles	1 000	-	5 904	6 904
Electricity	2 100	-	3 391	5 491
Other	2 630	-	423	3 053
	13 187	9 000	46 744	68 930
Percentage	19%	13%	68%	

Infrastructure Pipeline

The table below portrays the condition of Witzenberg Municipality's infrastructure in a nutshell:

Town	Water Source	Bulk Water	Bulk Sewer	Solid Waste	Access Roads & Stormwater	Electricity
Ceres	Koekedouw Dam OK	Ceres Vredebes	WWTW (Short term) WWTW (Long term) Bulk sewer	Solid waste goes to PAH	Limited budget for maintenance	
Bella Vista	Koekedouw Dam OK		Sewer flows to Ceres WWTW	Solid waste goes to PAH	Limited budget for maintenance	
Nduli	Koekedouw Dam OK		Sewer flows to Ceres WWTW	Solid waste goes to PAH	Limited budget for maintenance	
Tulbagh	Abstraction Licences Availability	Need reservoir	WWTW (Medium term) WWTW (Long term)	Solid waste goes to PAH	Limited budget for maintenance	
Wolseley	Abstraction Licences Availability	Need storage dam	WWTW	Solid waste goes to PAH	Limited budget for maintenance	Capacity Old infrastructure
Prince Alfred Hamlet	Koekedouw Dam OK		Bulk sewer lines & Septic tanks	Solid waste goes to PAH	Limited budget for maintenance	Eskom area
Op-die-Berg	Fountain & Boreholes OK	New reservoir being built at present	Septic tanks	Solid waste goes to PAH	Limited budget for maintenance	Eskom area

Key service delivery & fiscal risks

Top 20 risks- Technical Services

Unit Title	Risk Title	IR	RR
Technical Services	Lack of funding to rehabilitated landfill site in Witzenberg	25	25
Electricity	Eskom's inability to provide increased electricity supply to the municipal area	25	25
Electricity	Safety and maintenance inspections not performed due to lack personnel	25	25
Electricity	Insufficient maintenance and capital re-investment due to Insufficient resources (Human and capital)	25	21
Fleet Management	Ageing vehicle fleet	25	20
Solid Waste and Cleansing	Major unplanned not disaster related interruptions to service deliver	25	18
Streets and Storm water	Major unplanned not disaster related interruptions to service deliver	25	18
Water and Sanitation	Major unplanned not disaster related interruptions to service deliver	25	18
Electricity	Major unplanned not disaster related interruptions to service deliver	25	17
Town Planning	Zoning of properties incorrect	25	10
Electricity	Nersa's threat to change municipal electricity distribution License	20	20
Electricity	Poor quality of electricity supply due to Lack of knowledge/skilled personnel and resources	20	20
Fleet Management	Lack of spares for older equipment	20	20
Water and Sanitation	Inability to provide bulk water storage capacity to the Tulbagh area	20	20
Streets and Storm water	Deteriorating road infrastructure	20	16
Town Planning	Illegal land use and building works	20	16
Water and Sanitation	Deteriorating water and sanitation infrastructure	20	16
Electricity	Deteriorating electrical infrastructure	20	15
Electricity	Poor growth in revenue base	20	13
Technical Services	Increase in unaccounted water and electricity losses	20	13

Conclusion

1. DEFINITIONS

"Accounting Officer"

(a) means the City Manager;

"**Allocation**", means

(a) a municipality's share of the local government's equitable share referred to in section 214(I) (a) of the Constitution;

(b) an allocation of money to a municipality in terms of section 214(1) (c) of the Constitution;

(c) an allocation of money to a municipality in terms of a provincial budget; or

(d) any other allocation of money to a municipality by an organ of state, including by another municipality, otherwise than in compliance with a commercial or other business transaction;

"**Annual Division of Revenue Act"** means the Act of Parliament, which must be enacted annually in terms of section 214 (1) of the Constitution;

"Approved budget," means an annual budget

(a) approved by a municipal council in terms of section 24 of the MFMA, or

(b) includes such an annual budget as revised by an adjustments budget in terms of section 28 of the MFMA;

"**Basic Municipal Service**" means a municipal service that is necessary to ensure an acceptable and Reasonable quality of life and which, if not provided, would endanger public health or safety or the environment;

"**Budget-related Policy**" means a policy of a municipality affecting or affected by the annual budget of the municipality, including

(a) the tariffs policy, which the municipality must adopt in terms of section 74 of the Municipal Systems Act;
(b) the rates policy which the municipality must adopt in terms of section 3 of the municipal property rates Act;
(c) the credit control and debt collection policy, which the municipality must adopt in terms of section 96 of the Municipal Systems Act;
(d) the cash management and investment policy which the municipality must adopt in terms of section 13(2) of the Act;
(e) a borrowing policy which must comply with Chapter 6 of the Act;
(f) a funding and reserves policy;
(g) a policy related to the long-term financial plan;
(h) the supply chain management policy which the municipality is required o adopt in terms of section 111 of the Act;
(i) any policies dealing with the management and disposal of assets;
(j) any policies dealing with infrastructure investment and capital projects, including –
    (i) the policy governing the planning and approval of capital projects; and
    (ii) the policy on developer contributions for property developments;

(k) the indigents policy of the municipality;
(l) any policies related to the provision of free basic services;
(m) any policies related to budget implementation and monitoring including –
  (i) a policy dealing with the shifting of funds within votes;
  (ii) a policy dealing with unforeseen and unavoidable expenditure; and
  (iii) policies dealing with management and oversight;
(n) any policies related to the managing electricity and water including -
  (i) a policy related to the management of losses; and
  (ii) a policy to promote conservation and efficiency;
(o) any polices related to personnel including polices on overtime, vacancies and temporary staff;
(p) any policies dealing with municipal entities, including –
  (i) the service delivery agreement; and
  (ii) the dividend preference of the municipality; and
(q) any other budget-related or financial management policies of the municipality.

"**Budget transfer**" means transfer of funding within a function / vote.

"**Budget Year**" means the financial year of the municipality for which an annual budget is to be approved in terms of section 16(1) of the MFMA;

"**chief financial officer**" means a person designated in terms of section 80(2) (a) of the MFMA;

"**councillor**" means a member of a municipal council;

"creditor", means a person to whom money is owed by the municipality;

"**current year**" means the financial year, which has already commenced, but not yet ended;

"delegation", in relation to a duty, includes an instruction or request to perform or to assist in performing the duty;

"**financial recovery plan**" means a plan prepared in terms of section 141 of the MFMA

"**financial statements**", means statements consisting of at least

(a) a statement of financial position;
(b) a statement of financial performance;
(c) a cash-flow statement;
(d) any other statements that may be prescribed; and
(e) any notes to these statements;

"**financial year"** means a twelve months period commencing on 1 July and ending on 30 June each year

"**financing agreement**" includes any loan agreement, lease, and instalment purchase contract or hire purchase arrangement under which a municipality undertakes to repay a long-term debt over a period of time;

"**fruitless and wasteful expenditure**" means expenditure that was made in vain and would have been avoided had reasonable care been exercised;

"**irregular expenditure**", means

(a) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in Accordance with, a requirement of the MFMA Act, and which has not been condoned in terms of section 170 of the MFMA;

(b) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the Municipal Systems Act, and which has not been condoned in terms of that Act;

(c) expenditure incurred by a municipality in contravention of, or that is not in accordance with, a requirement of the Public Office-Bearers Act, 1998 (Act No. 20 of 1998); or

(d) expenditure incurred by a municipality or municipal entity in contravention of, or that is not in accordance with, a requirement of the supply chain management policy of the municipality or entity or any of the municipality's by-laws giving effect to such policy, and which has not been condoned in terms of such policy or by-law, but excludes expenditure by a municipality which falls within the definition of "unauthorised expenditure";

"investment", in relation to funds of a municipality, means

(a) the placing on deposit of funds of a municipality with a financial institution; or
(b) the acquisition of assets with funds of a municipality not immediately required, with the primary aim of preserving those funds;

"lender", means a person who provides debt finance to a municipality;

"**local community**" has the meaning assigned to it in section 1 of the Municipal Systems Act;

"**Municipal Structures Act"** means the Local Government: Municipal Structures Act, 1998 (Act No. 117 of 1998);

"Municipal Systems Act" means the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000);

"**long-term debt"** means debt repayable over a period exceeding one year;

"**executive mayor**" means the councillor elected as the executive mayor of the municipality in terms of section 55 of the Municipal Structures Act;

"**municipal council**" or "council" means the council of a municipality referred to in section 18 of the Municipal Structures Act;

"municipal debt instrument" means any note, bond, debenture or other evidence of indebtedness issued by a municipality, including dematerialised or electronic evidence of indebtedness intended to be used in trade;

"**municipal entity**" has the meaning assigned to it in section 1 of the Municipal Systems Act (refer to the MSA for definition);

"**municipality**"

(a) when referred to as a corporate body, means a municipality as described in section 2 of the Municipal Systems Act; or
(b) when referred to as a geographic area, means a municipal area determined in terms of the Local Government: Municipal Demarcation Act, 1998 (Act No. 27 of 1998);

"accounting officer" means a person appointed in terms of section 82(l) (a) or (b) of the Municipal Structures Act;

"**municipal service**" has the meaning assigned to it in section 1 of the Municipal Systems Act (refer to the MSA for definition);

"**municipal tariff**" means a tariff for services which a municipality may set for the provision of a service to the local community, and includes a surcharge on such tariff;

"municipal tax" means property rates or other taxes, levies or duties that a municipality may impose;

"National Treasury" means the National Treasury established by section 5 of the Public Finance Management Act;

"official", means

(a) an employee of a municipality or municipal entity;
(b) a person seconded to a municipality or municipal entity to work as a member of the staff of the municipality or municipal entity; or
(c) a person contracted by a municipality or municipal entity to work as a member of the staff of the municipality or municipal entity otherwise than as an employee;

"**overspending"**

(a) means causing the operational or capital expenditure incurred by the municipality during a financial year to exceed the total amount appropriated in that year's budget for its operational or capital expenditure, as the case may be;

(b) in relation to a vote, means causing expenditure under the vote to exceed the amount appropriated for that vote; or
(c) in relation to expenditure under section 26 of the MFMA, means causing expenditure under that section to exceed the limits allowed in subsection (5) of this section;

"**past financial year**" means the financial year preceding the current year;

"quarter" means any of the following periods in a financial year:

(a) 1 July to 30 September;
(b) 1 October to 31 December;
(c) 1 January to 31 March; or
(d) 1 April to 30 June;

"**service delivery and budget implementation plan**" means a detailed plan approved by the executive mayor of a municipality in terms of section 53(l)(c)(ii) of the MFMA for implementing the municipality's delivery of municipal services and its annual budget, and which must indicate

(a) projections for each month of(
    (i) revenue to be collected, by source; and
    (ii) operational and capital expenditure, by vote;
(b) service delivery targets and performance indicators for each quarter; and
(c) any other matters that may be prescribed, and includes any revisions of such plan by the executive mayor in terms of section 54(l) (c) of the MFMA;

"short-term debt" means debt repayable over a period not exceeding one year;

"**standards of generally recognised accounting practice**", means an accounting practice complying with standards applicable to municipalities or municipal entities as determined by the Accounting Standards Board

"**unauthorised expenditure",** means any expenditure incurred by a municipality otherwise than in accordance with section 15 or 11(3) of the MFMA, and includes

(a) overspending of the total amount appropriated in the municipality's approved budget;
(b) overspending of the total amount appropriated for a vote in the approved budget;
(c) expenditure from a vote unrelated to the department or functional area covered by the vote;
(d) expenditure of money appropriated for a specific purpose, otherwise than for that specific purpose;
(e) spending of an allocation referred to in paragraph (b), (c) or (d) of the definition of "allocation" otherwise than in accordance with any conditions of the allocation; or
(f) a grant by the municipality otherwise than in accordance with the MFMA;

"**virement"** means transfer of funds between functions / votes

"vote" means

(a) one of the main segments into which a budget of a municipality is divided for the appropriation of money for the different departments or functional areas of the municipality; and
(b) which specifies the total amount that is appropriated for the purposes of the department or functional area concerned.

2. INTRODUCTION

In terms of the Municipal Finance Management Act, No. 56 of 2003, Chapter 4 on Municipal Budgets, subsection (16), states that the council of a municipality must for each financial year approve an annual budget for the municipality before the commencement of that financial year. According to subsection (2) of the Act concerned, in order to comply with subsection (1), the executive mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year. This policy must be read, analysed, explained, interpreted, implemented and understood against this legislative background. The budget plays a critical role in an attempt to realise diverse community needs. Central to this, the formulation of a municipality budget must take into account the government's macro-economic and fiscal policy fundamentals. In brief, the conceptualisation and the operationalisation of the budget must be located within the national government's policy framework.

3. OBJECTIVE

The objective of the budget policy is to set out:

- The principles which the municipality will follow in preparing each medium term revenue and expenditure framework budget,
- The responsibilities of the executive mayor, the accounting officer, the chief financial officer and other senior managers in compiling the budget
- To establish and maintain procedures to ensure adherence to Witzenberg Municipality's IDP review and budget processes.

4. BUDGETING PRINCIPLES

- The municipality shall not budget for a cash deficit and should also ensure that revenue projections in the budget are realistic taking into account actual collection levels.
- Expenses may only be incurred in terms of the approved annual budget (or adjustments budget) and within the limits of the amounts appropriated for each vote in the approved budget.
- Witzenberg Municipality shall prepare three-year budget (medium term revenue and expenditure framework (MTREF)) and that be reviewed annually and approved by Council.
- The MTREF budget must at all times be within the framework of the Municipal Integrated Development Plan.

5. BUDGET PREPARATION PROCESS

5.1. Formulation of the budget

(a) The Accounting Officer with the assistance of the Chief Financial Officer, Manager Financial Administration and the Manager IDP shall draft the IDP process plan as well as the budget timetable for the municipality including municipal entities for the ensuing financial year.

(b) The executive mayor shall table the IDP process plan as well as the budget timetable to Council not later than 31 August of each year for approval (10 months before the start of the next budget year).

(c) IDP process plan as well as the budget timetable shall indicate the key deadlines for the review of the IDP as well as the preparation of the medium term revenue and expenditure framework budget and the revision of the annual budget. Such target dates shall follow the prescriptions of the Municipal Finance Management Act, Municipal Budget and reporting regulations as well as the guidelines set by National Treasury.

(d) The Executive Mayor shall convene a strategic workshop in September/October with the mayoral committee and senior managers in order to determine the IDP priorities which will form the basis for the preparation of the MTREF budget taking into account the financial and political pressures facing the municipality. The executive mayor shall table the IDP priorities with the draft budget to Council.

(e) The Executive Mayor shall table the draft IDP and MTREF budget to council by 31 March of each year (90 days before the start of the new budget year) together with the draft resolutions and budget related policies.

(f) The Chief Financial Officer and senior managers undertake the technical preparation of the budget.

(g) The budget must be in the prescribed format by National Treasury, and must be divided into capital and operating budget.

(h) The budget must reflect the realistically expected revenues by major source for the budget year concerned.

(i) The expenses reflected in the budget must be divided into items.

(j) The budget must contain the information related to the two financial years following the financial year to which the budget relates, as well as the estimated revenues and expenses for the current year and the two prior year actual revenue and expenditures.

5.2. Public participation process

Immediately after the draft annual budget has been tabled, the municipality must convene hearings on the draft budget in April and invite the public, stakeholder organisations, to make representation at the council hearings and to submit comments in response to the draft budget.

5.3. Approval of the budget

(a) Council shall consider the next medium term expenditure framework budget for approval not later than 31 May (30 days before the start of the budget year).

(b) The council resolution, must contain budget policies and performance measures be adopted.

(c) Should the municipality fail to approve the budget before the start of the budget year, the executive mayor must inform the MEC for Finance that the budget has not been approved.

(d) The budget tabled to Council for approval shall include the following supporting documents:

i. draft resolutions approving the budget;
ii. and levying property rates, other taxes and tariffs for the financial year concerned;
iii. measurable performance objectives for each budget vote, taking into account the municipality's IDP;
iv. the projected cash flows for the financial year by revenue sources and expenditure votes;
v. any proposed amendments to the IDP;
vi. any proposed amendments to the budget-related policies;
vii. the cost to the municipality of the salaries, allowances and other benefits of its political office bearers and other councillors, the accounting officer, the chief financial officer, and other senior managers;
viii. particulars of any proposed allocations or grants to other municipalities, municipal entities, external mechanisms assisting the municipality in service delivery, other organs of state, and organisations such as Non-Governmental Organisations, welfare institutions and so on;
ix. particulars of the municipality's investments; and

x. various information in regard to municipal entities under the shared or sole control of the municipality

5.4. Publication of the budget

(a) Within 14 days after the draft annual budget has been tabled, the Director must post the budget and other budget-related documentation onto the municipal website so that it is accessible to the public.

(b) The Chief Financial Officer must within 14 days after the draft annual budget is tabled:

(i) submit the approved budget in both printed and electronic formats to the National Treasury, the Provincial Treasury as well as post it on the municipal website.

(ii) ensure that a newspaper advertisement is placed that the draft budget is available at the Municipal offices and available for comments.

5.5. Service Delivery and Budget Implementation Plan (SDBIP)

(a) The Executive mayor must approve the Service Delivery and Budget Implementation Plan not later than 28 days after the approval of the Budget by Council.

(b) The SDBIP shall include the following components:

(i) Monthly projections of revenue to be collected for each source

(ii) Monthly projections of expenditure (operating and capital) and revenue for each vote

(iii) Quarterly projections of service delivery targets and performance indicators for each vote

(iv) Ward information for expenditure and service delivery

(v) Detailed capital works plan broken down by ward over three years

6. CAPITAL BUDGET

(a) Expenditure of a project shall be included in the capital budget if it meets the asset definition i.e. if it results in an asset being acquired or created and has a useful life in excess of one year.

(b) The capital budget shall distinguish between replacement and new assets.

(c) A municipality may spend money on a capital project only if the money for the project has been appropriated in the capital budget.

(d) The envisaged sources of funding for the capital budget must be properly considered and the Council must be satisfied that this funding is available and has not been committed for other purposes.

(e) Before approving a capital project, the Council must consider:

(i) the projected cost of the project over all the ensuing financial years until the project becomes operational,

ii. future operational costs and any revenues, which may arise in respect of such project, including the likely future impact on operating budget (i.e. on property rates and service tariffs).

(f) Before approving the capital budget, the council shall consider:

(i) the impact on the present and future operating budgets of the municipality in relation to finance charges to be incurred on external loans,

(ii) depreciation of fixed assets,

(iii) maintenance of fixed assets, and

(iv) any other ordinary operational expenses associated with any item on such capital budget.

(g) Council shall approve the annual or adjustment capital budget only if it has been properly cash funded.

(h) The capital expenditure shall be funded from the following sources:

(i) Revenue or Surplus

- If any project is to be financed from revenue this financing must be included in the cash budget to raise sufficient cash for the expenditure.

- If the project is to be financed from surplus there must be sufficient cash available at time of execution of the project.

(ii) External loans

- External loans can be raised only if it is linked to the financing of an asset;
- A capital project to be financed from an external loan can only be included in the budget if the loan has been secured or if can be reasonably assumed as being secured;
- The loan redemption period should not exceed the estimated life span of the asset. If this happens the interest payable on the excess redemption period shall be declared as fruitless expenditure;
- Interest payable on external loans shall be included as a cost in the operating budget;
- Finance charges relating to such loans shall be charged to or apportioned only between the departments or votes to which the projects relate.

Capital Replacement Reserve (CRR)

- Council shall establish a CRR for the purpose of financing capital projects and the acquisition of assets. Such reserve shall be established from the following sources of revenue:

  - inappropriate cash-backed surpluses to the extent that such surpluses are not required for operational purposes;
  - interest on the investments of the CRR, appropriated in terms of the investments policy;
  - additional amounts appropriated as contributions in each annual or adjustments budget; and
  - interact on investments of unutilised grants;
  - only VAT claimed back on grants and subsidies; and
  - Sale of land and profit or loss on the sale of assets.

- Before any asset can be financed from the CRR the financing must be available within the reserve and available as cash as this fund must be cash backed;

- If there is insufficient cash available to fund the CRR this reserve fund must then be adjusted to equal the available cash;

- Transfers to the CRR must be budgeted for in the cash budget

Grant Funding

- Non capital expenditure funded from grants
  - must be budgeted for as part of the revenue budget;
  - Expenditure must be reimbursed from the funding creditor and transferred to the operating and must be budgeted for as such.
  - Capital expenditure must be budgeted for in the capital budget;

- Grant funding does not need to be cash backed but cash should be secured before spending can take place.
- All unutilized grants received must be ring fenced and cash backed by means of an investment.

7. OPERATING BUDGET

(a) The municipality shall budget in each annual and adjustments budget for the contribution to:

(i) provision for accrued leave entitlements equal to 100% of the accrued leave
(ii) entitlement of officials as at 30 June of each financial year,
(iii) provision for the impairment of debtors taking into account prior year, current year improvements and future improvement in debt collection percentages.
(iv) provision for the obsolescence and deterioration of stock in accordance with its stores management policy
(v) Depreciation and finance charges shall be charged to or apportioned only between the departments or votes to which the projects relate.
(vi) At least 5% of the operating budget component of each annual and adjustments budget shall be set aside for maintenance.

(b) When considering the draft annual budget, council shall consider the impact, which the proposed increases in rates and service tariffs will have on the monthly municipal accounts of households.

(c) The impact of such increases shall be assessed on the basis of a fair sample of randomly selected accounts.

(d) The operating budget shall reflect the impact of the capital component on:
- depreciation charges
- repairs and maintenance expenses
- interest payable on external borrowings.
- other operating expenses.

(e) The chief financial officer shall ensure that the cost of indigent relief is separately reflected in the appropriate votes.

8. FUNDING OF CAPITAL AND OPERATING BUDGET

(a) The budget may be financed only from:

(i) realistically expected revenues, based on current and previous collection levels;
(ii) cash-backed funds available from previous surpluses where such funds are not required for other purposes; and
(iii) borrowed funds in respect of the capital budget only.

9. UNSPENT FUNDS / ROLL OVER OF BUDGET

(a) The appropriation of funds in an annual or adjustments budget will lapse to the extent that they are unspent by the end of the relevant budget year, but except for funds relating to capital expenditure.

(b) Only unspent grant (if the conditions for such grant funding allows that) or loan funded capital budget may be rolled over to the next budget year

(c) Conditions of the grant fund shall be taken into account in applying for such roll over of funds

(d) Application for roll over of funds shall be forwarded to the budget office by the 15th of April each year to be included in next year's budget for adoption by Council in May.

(e) No funding for projects funded from the Capital Replacement Reserve shall be rolled over to the next budget year except in cases where a commitment has been made at least 30 days (31 May each year) prior the end of that particular financial year.

(f) No unspent operating budget shall be rolled over to the next budget year

10. BUDGET TRANSFERS AND VIREMENTS

Budget transfers and veriments are dealt with in terms of the councils Budget Veriment Policy.

11. ADJUSTMENT BUDGET

Each adjustments budget shall reflect realistic excess, however nominal, of current revenues over expenses.

(a) The chief financial officer shall ensure that the adjustments budgets comply with the requirements of the National Treasury reflect the budget priorities determined by the executive mayor, are aligned with the IDP, and comply with all budget-related policies, and shall make recommendations to the executive mayor on the revision of the IDP and the budget-related policies where these are indicated.

(b) Council may revise its annual budget by means of an adjustments budget in terms of section 28 of the MFMA and according to the timelines of the Municipal Budget and reporting regulations section 23.

(c) The Accounting Officer must promptly adjust its budgeted revenues and expenses if a material under-collection of revenues arises or is apparent.

(d) The Accounting Officer shall appropriate additional revenues, which have become available but only to revise or accelerate spending programmes already budgeted for or any areas of critical importance identified by Council.

(e) The Council shall in such adjustments budget, and within the prescribed framework, confirm unforeseen and unavoidable expenses on the recommendation of the Executive Mayor.

(f) An adjustments budget must contain all of the following:
- (i) an explanation of how the adjustments affect the approved annual budget;
- (ii) appropriate motivations for material adjustments; and
- (iii) an explanation of the impact of any increased spending on the current and future annual budgets.

(g) Any inappropriate surplus from previous financial years, even if fully cash-backed, shall not be used to balance any adjustments budget, but shall be appropriated to the municipality's capital replacement reserve.

(h) Municipal taxes and tariffs may not be increased during a financial year except if required in terms of a financial recovery plan.

(i) Unauthorised expenses may be authorised in an adjustments budget.

(j) In regard to unforeseen and unavoidable expenditure, the following apply:
- (i) the Executive mayor may authorise such expenses in an emergency or other exceptional circumstances in terms of Section 29 of the MFMA;
- (ii) the authorized amount may not exceed 4 % of the approved own revenue included in the annual budget in respect of such unforeseen and unavoidable expenses;
- (iii) these expenses must be reported by the Executive mayor to the next Council meeting;
- (iv) the expenses must be appropriated in an adjustments budget; and
- (v) Council must pass the adjustments budget within sixty days after the expenses were incurred.

k) New Projects may not be added during the financial year unless it falls within the ambit of unforeseen and unavoidable expenditure and/or an additional allocation received

Funds for SDBIP projects or items may not be removed from the budget through an adjustments budget process unless:

- the necessity thereof is as a consequence of funds that is no longer available or
- a significant reduction in the collection rate substantiates and justifies the removal and
- performance agreements have been amended prior to the removal thereof.

12. BUDGET IMPLEMENTATION

12.1 Monitoring

(a) The accounting officer with the assistance of the chief financial officer and other senior managers is responsible for the implementation of the budget, and must take reasonable steps to ensure that:
- funds are spent in accordance with the budget;
- expenses are reduced if expected revenues are less than projected; and
- revenues and expenses are properly monitored.

(b) The Accounting officer with the assistance of the chief financial officer must prepare any adjustments budget when such budget is necessary and submit it to the Executive mayor for consideration and tabling to Council.

(c) The Accounting officer must report in writing to the Council any impending shortfalls in the annual revenue budget, as well as any impending overspending, together with the steps taken to prevent or rectify these problems.

12.2 Reporting

12.2.1 Monthly budget statements

(a) The accounting officer with the assistance of the chief financial officer must, not later than ten working days after the end of each calendar month, submit to the Executive mayor and Provincial and National Treasury a report in the prescribed format on the state of the municipality's budget for such calendar month, as well as on the state of the budget cumulatively for the financial year to date.

This report must reflect the following:

(i) actual revenues per source, compared with budgeted revenues;
(ii) actual expenses per vote, compared with budgeted expenses;
(iii) actual capital expenditure per vote, compared with budgeted expenses;

(iv) actual borrowings, compared with the borrowings envisaged to fund the capital budget;
(v) the amount of allocations received, compared with the budgeted amount;
(vi) actual expenses against allocations, but excluding expenses in respect of the equitable share;
(vii) explanations of any material variances between the actual revenues and expenses as indicated above and the projected revenues by source and expenses by vote as set out in the service delivery and budget implementation plan;
(viii) the remedial or corrective steps to be taken to ensure that the relevant projections remain within the approved or revised budget; and
(ix) projections of the revenues and expenses for the remainder of the financial year, together with an indication of how and where the original projections have been revised.

(b) The report to the National Treasury must be both in electronic format and in a signed written document.

12.2.2 Quarterly Reports

(a) The Executive mayor must submit to Council within thirty days of the end of each quarter a report on the implementation of the budget and the financial state of affairs of the municipality.

12.2.3 Mid-year budget and performance assessment

(a) The Accounting officer must assess the budgetary performance of the municipality for the first half of the financial year, taking into account all the monthly budget reports for the first six months, the service delivery performance of the municipality as against the service delivery targets and performance indicators which were set in the service delivery and budget implementation plan.

(b) The Accounting officer must then submit a report on such assessment to the Executive mayor by 25 January each year and to Council, Provincial Treasury and National Treasury by 31 January each year.

(c) The Accounting officer may in such report make recommendations after considering the recommendation of the Chief Financial Officer for adjusting the annual budget and for revising the projections of revenues and expenses set out in the service delivery and budget implementation plan.

13. CONCLUSION

The Director Corporate Services must place on the municipality's official website the following:

- the annual and adjustments budgets and all budget-related documents;
- all budget-related policies;
- the integrated development plan
- the annual report;
- all performance agreements;
- all service delivery agreements;
- all long-term borrowing contracts;
- all quarterly and mid-year reports submitted the Council on the implementation of the budget and the financial state of affairs of the municipality.

7. Conclusion 16

1. Introduction

Every Municipality is responsible for the drafting and annual revision of a tariffs policy within the framework provided by the Municipal Systems Act (Act 32 of 2000 as amended).

2. Purpose

The purpose of the policy is to ensure that:

- the provisions of section 74 of the Municipal Systems Act (Act 32 of 2000 as amended) are complied with;
- a properly documented policy is in place to determine how the tariffs of the Witzenberg Municipality are to be determined; and
- the tariffs are realistic and affordable.

3. Principles

The determination of tariffs should in all instances be based on sound economic principles. The Council's input is to ensure that the tariffs policy be reviewed and modified during the annual budgetary process.

3.1 Basic principles

The following principles, in addition to those enunciated in section 74 Municipal Systems Act (Act 32 of 2000 as amended), were considered:

- Equalisation within the shortest possible time
- Affordability of service
- Discouragement of wastage through pricing mechanisms
- Ensuring adequate cash flow
- Simple and understandable structure
- Justifiable structure
- Transparent structure

3.2 The Municipal account

The accounts for property rates and services charges may not be viewed in isolation. They must be approached collectively in order to determine the most affordable amount to be paid by different clients as a total account.

3.3 Credit control

It is not possible to successfully calculate a tariffs structure without considering the provisions of an effective credit control system. Similarly, a credit control system cannot function without a sound tariffs policy drafted in support of the problems of indigent persons.

3.4 Costs of the provision of services and the calculation of tariffs

Tariffs must be capable of recovering the costs of the provision of a service. If a service should be run at a loss, there will by necessity have to be cross-subsidising from other services. It is therefore imperative that the tariffs for each service be accurately calculated and that the correct tariffs structure is accepted and implemented.

3.5 Socio-economic factors

As a result of non-payment, local authorities are experiencing problems with their cash flow. One of the most important reasons for non-payment is the failure of tariffs structures to make proper allowance for the socio-economic circumstances of the communities involved. The implementation of pre-paid electricity, as well as "free" water and electricity, partially address this problem.

Clients have been divided into the following categories:

- Clients unable to make any contribution towards the provision of services and who have to be subsidised fully.
- Clients who can afford a partial contribution and who need only to be subsidised partially.
- Users who can fully afford the services.

It is important to identify these categories and to plan the tariffs structures accordingly. The subsidies are derived from two sources, namely:

- Contributions by the State – The State determine the extent of these contributions from year to year and may increase or lower the contribution, while the needs of the local authority increase annually.
- Contributions from Municipal funds – These funds must be budgeted for.

Services may also be subsidised from a combination of the aforementioned funds.

The tariffs structure has been compiled in the following manner in order to make provision for subsidising:

- Fully subsidised in terms of the Indigent policy;
- Full tariff payable.

3.6 Equalisation of principles

In order to accomplish the total legalisation of tariffs, the tariffs must as far as possible be standardised throughout the whole municipality. Unique circumstances of a particular town will, however, play a role in preventing the tariffs from being 100% identical throughout. The principles for the determination of the tariffs should however, never vary.

3.7 Phasing in of new tariffs structures

Time is needed for the phasing in of any new structure. In practice this will mean that different towns will be subjected to different tariff increases during the period of phasing in.

3.8 Profit-taking

The following goals for profit-taking are applicable within Witzenberg.

- Electricity - Profit of 15%
- Water - Profit of 15%
- Sewerage - Profit of 0,5%
- Refuse removal - Profit of 0,5%

3.9 Basic and Availability charges

Tariffs are set in a manner that will ensure sustainability of the service. Therefore, basic services charges and service availability charges are levied on every site whether the service is utilized or not. The aim is to recover all fixed costs and a portion of the variable cost of the relevant service.

The Chief financial officer is delegated to exclude a site from availability charges if it is not possible to develop the site due to its size being less than the minimum size in terms of town planning regulations and the plot cannot be improved.[1]

4. Tariffs structure

4.1 Electricity

The following directions of the NER were considered during the drafting of the electricity tariffs structure:

- Tariffs must be economically sustainable.
- Clients must be given a choice of tariffs.
- The tariffs should be based on the costs of delivery, while also complying with the guidelines laid down in NRS 058.
- The tariffs must be transparent and the level of cross-subsidising must be known.
- The tariffs must be comparable with the tariffs of neighbouring suppliers
- The tariffs must be conveniently administered and must reflect the standard of service provision.

NERSA suggested five categories of tariffs to form the basis of the tariffs structure.

Name of Tariff	Tariff Components			
	Minimum levy (Rand/client/ month)	Energy levy (Cent/ kWh)	Duration of use of energy tariff (Cent/ kWh)	Demand tariff (Rand/KVA)
Singular energy tariff		√		
Dual tariff	√	√		
Dual time of consumption tariff	√		√	
Tripartite tariff	√	√		
Tripartite time of consumption tariff	√		√	√

The structuring of the tariffs structure for the provision of electricity, with due consideration of the NER directions, is based on the following principles:

- Structure is divided into client groups;
- A costing structure is allocated to each client group;
- Five tariffs structures and components were used as per the NER's directions;
- Profit-taking of the existing tariffs in the new structure;
- Phasing in of existing tariffs into new structure.

[1] Recommended for inclusion – November 2022

4.1.1 Client groups

The tariffs structure is divided into the following client groups:

- Residential clients
- Commercial clients
- Industrial clients
- Rural clients
- Large-scale clients

The classification of the client is left up to the client himself, and will largely be determined by the client's own needs.

- Street lights and sports bodies are identified as a special group.

4.1.2 Tariffs structures

The following tariffs are used:

- Availability tariff

This tariff is levied on all vacant premises with the potential of being linked to the municipal services.[2]

The availability tariff is levied monthly or part thereof, provided that where a resident is connected after the 15th of a month, a levy will only be imposed on the following month's account.

- Singular energy tariff

This structure is only available to clients who are residential, street lights or sports bodies. The tariff is based on the quantity kwh consumed. Provision is made for the following varying sizes of connections:

- Pre-paid meters up to 1 X 40A
- Single phase
- Three-phase

It is up to the client to decide which connection meets his particular requirements. Depending on the consumption of kWh, the client should decide whether a single-phased tariffs structure will suit his requirements better than a dual tariffs structure. The cut-off point is approximately 1 000kwh consumption.

- Dual tariff

This tariffs structure is available for commercial, rural and residential clients. The tariff consists of a minimum component and an energy component.

The minimum levy is a levy per month, or portion thereof, provided that where a resident is connected after the 15th of a month, a levy will only be imposed on the following month's account.

The energy component is based on the kWh consumed from one reading to the next.

Two sizes of residential connections are provided:
- single phase
- three phase.

[2] Amended by council on 28 May 2014

For the commercial client a distinction is made between single and three-phase supplies as well as between the following sizes per phase:

20A
40A
60A
80A
100A
150A
200A
250A

Rural clients are divided into smaller than 25KVA, larger than 25KVA but smaller than 50KVA and larger than 50KVA to a maximum of 100KVA. The energy tariff is divided into two tariffs, i.e. fewer than 1000 units and more than 1000 units during a period measured from one reading to the next.

- Tripartite tariff

This tariffs structure is available to commercial, industrial, rural and large-scale clients.

As with the dual structure, the levies are based on a minimum as well as an energy levy. Additionally, however, a demand levy is imposed, based on the client's maximum demand during the previous month.

Within the groups, a distinction is made between:

Bigger than 1MVA high tension
Smaller than 1MVA high tension
Low tension

- Tripartite tariff for time of use

This tariffs structure is exactly the same as the tripartite tariff. It is also available to the same groups of clients. The only difference is that the time of consumption is linked to the tariff. The client has to apply for this tariff, usually following a thorough examination by him.

4.2 Water

4.2.1 Client groups

Recovery of the costs of the water service is not based only on consumption and the type of client, but also on the extent to which the client has access to the service and what the service must provide for, as well as the actual consumption. The principle of equity is taken into account when the client groups are classified.

Clients are classified in accordance with the size of their connections to the main supply. By classifying the client in accordance with the size of the connection, a more equitable basis for contributions towards costs is obtained than when a tariff is simply allocated to a certain type of consumer. In this way, cross-subsidising is largely eliminated.

2.2 Tariffs structures

The following tariffs structures will be in existence:

- Availability levy on all vacant premises within the town areas linked to the water network.
- Minimum levies for every size of connection with distinction being made between the following sizes:

Size of connections	Factor
Vacant premises	1.64
0-25mm	1.00
26-50mm	11.45
51-80mm	28.92
81-100mm	45.78
101-150mm	102.41
Client consuming > 20 000 kl./per month	2228.92
Un-metered connections	3.37

The consumption tariff is a block tariff, with the client able to choose between block A and B:

- **Block A**

Consumption	Factor
0-6	0.32
7-30	0.92
31-60	0.92
61-300	0.92
Above 300	3.19

- **Block B**

Consumption	Factor
0-300	1.00
301-1000	1.00
1001-8000	0.97
Above 8000	0.97

- **Block C** (Only for consumers with consumption of over 20 000 kilolitres per month)

Consumption	Factor
0-20 000	0
Above 20 000	0.31

- **Block D** (Only municipal consumption)

Consumption	Factor
Above 0	0.26

The block tariffs should encourage consumption, but discourage abuse, with Block A for residential clients and Block B for commercial clients. The choice nevertheless remains the client's. The third block is clients with consumption of over 20 000 kilolitres per month.

The above factors will be phased out as the water demand is growing in relation to the water supply.[3]

- Pre-paid water tariff – This tariff is calculated together with the other tariffs with a factor of 0.85.

- Municipal tariff – A departmental tariff based on the size of the connection is levied together with a consumption tariff. The departmental levy is aimed at the mere recovery of maintenance and running costs. In calculating this, loan costs, administrative levies, provision for bad debts and profit-taking are not considered.

The availability and minimum levies are levied monthly or part thereof, provided that where a resident is connected after the 15th of a month, a levy will only be imposed on the following month's account.

[3] Amended by Council resolution 30/05/2017

If a client on Block A consumption is higher than 300 kl of water per meter reading cycle, then that client may apply for relief if the client can proof that leakage existed. The relief application will be considered based on the following criteria:

(a) Usage portion of the client indicated that the clients' consumption prior to the leakage was less than 300kl and
(b) Proof can be provided of the cost of repair of the leakage.

The account will be adjusted as follow:

A = Usage during period of meter reading (can be more than one period)
B = 300
C = Tariff of Block A for consumption (61 – 300)

Formula: A – B X C

If a client's consumption increased due to a leakage, an average consumption can be charged for a period not exceeding 3 months on submission of proof that the leakage existed and was subsequently repaired.

That the authority for the approval of the relief be assigned to the Manager: Income or Chief Financial Officer.[4]

Clients are entitled to one claim in a financial year for relief for high water accounts caused by leaking pipes and fittings. Any additional applications can only be approved by the Chief Financial Officer.[5]

4.2.3 Calculation of tariffs during water restrictions

Council determine water saving tariffs with the annual budget and tariff approval process. Provision is made for moderate and extreme restrictions.

4.3 Refuse removal

No distinction is made between fixed and variable costs in the costing structure of refuse removal.

The total costs are divided amongst the clients in relation to the municipal valuation of residential property.

All other consumers are billed according to the size and number of wheelie bins removed.

[6]Where more than one dwelling unit or business unit, as defined in the Council's zoning scheme regulations, is situated on a premises (such as a semi-detached dwelling or a block of flats etc.) each such a dwelling unit or each business unit shall for the purpose considered to be a consumer. This will be measured by the number of electricity connections, unless the combined connections are less than 60 Amps single phase, when it will be regarded as only one consumer. Dwelling or business unit is defined as a formal structure with a building plan. That discretion for possible exemption be given to the Accounting Officer regarding this paragraph to evaluate on a case by case basis.

4.3.1 Client groups

The following client groups are distinguished:

- Non Residential Clients with one removal per week
- Non Residential Clients with two removals per week
- Non Residential Clients with three removals per week

[4] Amended by Council resolution 27/8/2014
[5] Amended by Council resolution 30/05/2017
[6] Amended by Council resolution on 30/05/2022

- Residential Clients with one removal per week

4.3.2 Tariffs structure

A minimum tariff equal to one removal per week is levied on all commercial and industrial clients, irrespective of whether the service is utilised or not.

All levies are levied monthly or part thereof, provided that where a resident is connected after the 15th of a month, a levy will only be imposed on the following month's account.

Non Residential Clients are compelled to use wheelie bins for refuse removal purposes. The minimum monthly charge will be equal to the charge for a 240L Wheelie Bin.

4.4 Sewerage

Different types of services provided by the Municipality are in existence in respect of sewerage. These include a water-closet system and a suction-drain system, primarily in Prince Alfred's Hamlet.

4.4.1 Costs structure and client groups

In order to determine a basis for the equitable sharing of costs, each client group's share in the costing structure should be considered.

Potential dumping is used as the fairest method. The client is levied in accordance with his dumping potential. This is determined by the size of the water connection to the property. The client with a bigger connection has the ability to dump more water into the sewerage system. The quantity of water used is not taken into account.

As sewage sludge is based on the flow of water, the costs are largely incurred in respect of the dumping into the sewage works and the treatment of the substances.

The following categories are distinguished:

<20mm water connection
21-50mm water connection
80mm water connection
100mm water connection
150> water connection

A special category was created for Qbiqua Prison.

[7]Where more than one dwelling unit or business unit, as defined in the Council's zoning scheme regulations, is situated on a premises (such as a semi-detached dwelling or a block of flats etc.) each such a dwelling unit or each business unit shall for the purpose considered to be a consumer. This will be measured by the number of electricity connections, unless the combined connections are less than 60 Amps single phase, when it will be regarded as only one consumer. Dwelling or business unit is defined as a formal structure with a building plan. That discretion for possible exemption be given to the Accounting Officer regarding this paragraph to evaluate on a case by case basis.

[7] Amended by Council resolution on 30/05/2022

4.4.2 Water-closet system

For the purposes of classification where one connection is in place but more than one usage is separately operated on the premises, each separate usage is regarded as a connection in accordance with the classification under which such usage would normally be connected, but not bigger than the connection that serves the premises. Examples of these are flats, shopping centres where sub-letting takes place and a residential house with a separate flat.

All levies are a monthly levy, or part thereof, provided that where a resident is connected after the 15th of a month, a levy will only be imposed on the following month's account.

A monthly availability levy is imposed on vacant premises where the possibility exists for the connection of a water-closet system to the main sewerage system. The availability tariff will not be less than 35% of the tariff applicable to normal residential plots, this percentage can be increased during the budget processes.

4.4.3 Suction-drain system

The suction-drain system is based on usage. Seepage systems which are never sucked make no contribution towards the costs of the service, although the service must still be provided. Fixed costs are accordingly recovered by consumer's tariffs and not by a fixed levy.

The suction-drain service structure entails the following:

- Availability levies are recovered monthly from all built-up properties in Prince Alfred's Hamlet.
- Variable costs which recover vehicle and personnel costs, are levied per suction service provided.
- A distinction is made between areas inside and outside the town area.

Based on vehicle costs, a kilometre tariff is recovered from clients outside the town area.

All levies, with the exception of the kilometre tariff and suction-drain service tariff, are imposed monthly or pro rata on both water-closet and suction-drain services, provided that where a resident is connected after the 15th of a month, a levy will only be imposed on the following month's account.

4.5 Property rates

The general valuation roll for Witzenberg will come into effect on 1 July 2018.[8] The Municipality has at its disposal a rates policy which addresses the following:

- Criteria for differentiated property rates categories
- Differentiated tariffs

The purpose of property rates is to recover costs that cannot be redeemed by tariff-recovering services or direct revenue.

[8] Amended by Council resolution 30/05/2017

5. Sundry Tariffs

The principles expounded for tariff construction, are also applicable to diverse tariffs.

5.1 Resorts

The full costs of the resorts must be recovered by the tariffs so that they place no further burden on the inhabitants of Witzenberg, while at the same time the utilisation of the resorts should be encouraged. The costs of the swimming baths within the resorts form part of the resorts' costs.

The following tariff groups are distinguished:

- Chalets or houses
- Caravan sites
- Semi-permanent camping sites
- Day visitors'/motor vehicles
- Renting of conference facilities and halls

A distinction is also made in respect of seasons and the following seasons are defined:

High season

The period of 26 days during the December and January school holidays. Exact dates are determined from year to year

And

The four days coinciding with the Easter weekend during March or April.

In-season

From the commencement of the Western Cape's school holidays during September until the end of April, excluding the high seasons indicated above.

Off-season

All other days, excluding high season and in-season.

A further distinction exists between weekends and weekdays in the event of high season and in-season. No such distinction exists during the off-season.

The following rebates will be given:

(a) Rebate of 25 % for bookings during weekdays except in school holidays of the Western Cape;
(b) Pensioners qualifies for a rebate of 50 % in off-season;
(c) Students accompanied by parents receives 12 % discount on day visit tariffs;
(d) 50 % rebate for bookings of conference facilities where 5 or more chalets or houses are booked and occupied.

The Director: Community Services may use his/her discretion in terms of the delegation of powers to grant rebates other than stipulated above based on occupation rate and tourism potential.

5.2 Tariffs for halls

Tariffs are levied for the use of municipal halls (e.g. Community halls).

5.2.1 Tariff

All halls must be graded in accordance with their size, condition and available facilities, in the following grades:

A-grade = 100%
B-grade = 75%
C-grade = 50%

The tariffs are determined on the basis of economical and equitable rent and are calculated as follows:

- Costs of personnel and equipment utilised from time to time during use of the hall and preparations and tidying-up activities, to be calculated on the same basis for each property.
- Letting of property, which will vary per grouping (e.g. eating utensils, etc.).
- Categories of functions.

5.2.2 Deposits

Sufficient deposits must be obtained for each letting to cover not only the Municipality's costs, but also to provide for breakage.

5.2.3 Letting periods

Letting is to be divided into morning, afternoon and evening sessions while preparation and tidying up are also provided. This division is retained and is defined as follows:

- Morning session - from 08:00 – 13:00, including preparation and tidying up
- Afternoon session – from 13:00 - 18:00, including preparation and tidying up.
- Evening session - from 18:00 – 24:00, including preparation and tidying up.
- A pro-rata contribution must be paid, in addition to the letting fee, for every hour or portion there of falling outside those indicated above.

5.2.4 Free of Charge

The Library Halls may be provided free of charge to the following organisations:

- Youth
- Charity
- Community
- Sport
- Education
- Government and
- Local management meetings of political parties

Community halls may be provided free of charge twice a quarter per party which are represented in the Council, which may be used for political meetings with the community. The political party must however give notice in omitting to the Accounting Officer.

The provision is subject to the availability of the facility and will be dealt with accordingly to priority of application based on time of receipt of the application.

5.3 Fees for Cemeteries

Cemetery fees are based on the following:

- Value of land
- Costs of preparing grave
- Maintenance in future
- Costs of digging and closing up of grave (should the family not do so)
- A premium on the sale of the grave to a non-inhabitant of Witzenberg.

As only one costing centre is used, the costs for the preparation of a grave must be the same at all cemeteries. Exceptions, however, may be made in relation to ground formation in respect of the digging of the grave. In order to provide for those who cannot afford the full tariff, a subsidy is to be calculated that is based on specific criteria, and be included in the Municipality's indigent policy.

5.4 Other Deposits

The municipality may levy a deposit as a security to cover possible damages, losses.

After all internal procedures has been exhausted, all unclaimed deposits older than 36 months, will be recognized as Sundry Revenue in the books of the municipality. A listing of all moneys recognized as revenue must be kept for future reference and audit purposes.

5.5 Other

The other diverse tariffs must, wherever possible, be determined on actual costs plus a percentage.

6. Rebates (To be phased out)[9]

The Municipality provides rebates to people or organisations that assist with economic growth within Witzenberg by the creation of new structures or by additions to existing buildings and the creation of job opportunities.

The person or organisation who wants to apply for the rebate must do so that the application speaks to the criteria extent and conditions as stipulated below:

6.1 Criteria

The person or organisation must create new or extent building and create new job opportunities. The investor must apply for the rebate and provide at least the following information in writing:

- Total cost of building plan
- Total number of jobs created after completion of building phase
- Number of Directors
- Number of Directors classified as historically disadvantaged individuals HDI

[9] Phasing out approved by Council 26/05/2021

The criteria and weights for evaluating the application are as follow:

Criteria	Points
Improvement value of Buildings extended	60
Job opportunities	30
HDI points based on Directors	10

The allocation of points will be as follow:

Improvement value of extension
1 Point for every R80,000.00 of value added

Job opportunities
2 Points for every permanent new job opportunity created, and
1 Point for every seasonal job opportunity created

HDI points
The percentage of the number of HDI directors is used as a basis to allocate a point out of 10.

The applicant must score at least 50 points to qualify for a rebate. The applicant must be prepared that an audit be performed at any stage during the period when the rebates are allocated. If at any stage it is found the applicant do not meet the requirements, then the rebate will be stopped immediately.

6.2 Extent

Two categories of rebates exist. A minimum of 75 points must be obtained to qualify for a category A rebate.

The rebate will be for a period of 5 years and will be as follow:

	Rebate A Percentage rebate	Rebate B Percentage rebate
Year 1	25 %	15 %
Year 2	20 %	12 %
Year 3	15 %	9 %
Year 4	10 %	6 %
Year 5	5 %	3 %

The rebate will be applicable on all service charges as well as property rates.
The rebate will only be applicable on the additional services account of the applicant to the original account.[10]

7 Rebates (From 1 July 2021)[11]

The Municipality provides rebates to people or organisations that assist with economic growth within Witzenberg by the creation of new structures or by additions to existing buildings and the creation of local job opportunities.

The person or organisation who wants to apply for the rebate must do so that the application speaks to the criteria extent and conditions as stipulated below:

7.1 Criteria

[10] Amended by Council 25/05/2020
[11] New paragraph approved by council 26/05/2021

The person or organisation must create new or extent building and create new local job opportunities. The investor must apply for the rebate and provide at least the following information in writing:

- Total cost of planned new buildings
- Total number of local jobs created after completion of building phase
- Number of Directors
- Number of Directors classified as historically disadvantaged individuals HDI

The criteria and weights for evaluating the application are as follow:

Criteria	Points
Improvement value of Buildings extended	60
Job opportunities	30
HDI points based on Directors	10

The allocation of points will be as follow:

Improvement value of extension
1 Point for every R100,000.00 of value added

Job opportunities
2 Points for every permanent new job opportunity created, and
1 Point for every seasonal job opportunity created

HDI points
The percentage of the number of HDI directors is used as a basis to allocate a point out of 10. (e.g. if 60% of directors are HDI 6 points will be allocated.

Cancelation of Rebate
The applicant must be prepared that an audit be performed at any stage during the period when the rebates are allocated. If at any stage it is found the applicant do not meet the requirements, then the rebate will be stopped immediately.

If it is found that false information was submitted the rebate will be stopped immediately and all rebates already credited to the municipal account will be cancelled.

7.2 Extent

Two categories of rebates exist. A minimum of 75 points must be obtained to qualify for a category A rebate. A minimum of 50 points must be obtained to qualify for a category B rebate

The rebate will be for a period of 5 years and will be as follow:

	Rebate A Percentage rebate	Rebate B Percentage rebate
Year 1	75 %	50 %
Year 2	60 %	40 %
Year 3	45 %	30 %
Year 4	30 %	20 %
Year 5	15 %	10 %

The rebate will be applicable to property rates only.

The rebate will only be applicable on the rates payable on the additions to the buildings.

The chief financial officer will calculate the property value that qualify for the rebate based on the previous valuations when a new general valuation is implemented.

7. Conclusion

In drafting any tariffs policy, the principles enunciated above must be applied in order to determine the equity of the tariff. However, irrespective of the fairness or equity of the tariff, huge problems will be encountered with maintaining and continuing a service if the tariff is not affordable to a large portion of the clients.

PROPERTY RATES POLICY

FORMULATED IN TERMS OF SECTION 3 OF THE LOCAL GOVERNMENT: MUNICIPAL PROPERTY RATES ACT, NO. 6 OF 2004

Date of Implementation: 01 July 2023

OUR VISION: **"A MUNICIPALITY THAT CARES FOR ITS COMMUNIY, CREATING GROWTH AND OPPORTUNITIES"**

1. INTRODUCTION

Municipalities need a reliable source of revenue to provide basic services and perform their functions. Property rates are an important source of general revenue for municipalities. Revenue from property rates is used to fund services that benefit the community as a whole as opposed to individual households. These include installing and maintaining streets, roads, sidewalks, lighting, and storm drainage facilities; operating parks, recreational facilities and cemeteries. Property rates revenue is also used to fund municipal administration, such as computer equipment and stationery, and costs of governance, such as council and community meetings, which facilitate community participation on issues of Integrated Development Plans (IDPs) and municipal budgets.

Municipal property rates are set, collected, and used locally. National and provincial governments do not have the power to levy rates, nor do they share in the revenue collected. Revenue from property rates is spent within a municipality, where the local community has a voice in decisions on how the revenue is spent as part of the IDPs and budget processes, which municipalities invite communities to input prior municipal council adoption of the budget.

2. LEGISLATIVE CONTEXT

2.1 This policy is mandated by Section 3 of the Local Government: Municipal Property Rates Act, 2004 (No. 6 of 2004) (MPRA) as amended, which specifically provides that a municipality must adopt a Rates Policy.

2.2 In terms of Section 229 of the Constitution of the Republic of South Africa, 1996 (No.108 of 1996), a municipality may impose rates on property.

2.3 In terms of the Local Government: Municipal Property Rates Act, 2004 (No. 6 of 2004) as amended a municipality in accordance with-

Section 2(1), may levy a rate on property in its area; and

Section 2(3), must exercise its power to levy a rate on property subject to-

Section 229 and any other applicable provisions of the Constitution;

2.4 In terms of Section 4 (1) (c) of the Local Government: Municipal Systems Act, 2000 (No. 32 of 2000), the municipality has the right to finance the affairs of the municipality by imposing, *inter alias*, rates on property.

2.5 In terms of Section 62(1)(f)(ii) of the Local Government: Municipal Finance Management Act, 2003 (No. 56 of 2003) the municipal manager must ensure that the municipality has and implements a rates policy.

3. DEFINITIONS

3.1. **Act** means the Local Government: Municipal Property Rates Act, 2004 (No. 6 of 2004) as amended.

3.2. **Municipality** means the municipal council for the municipal area of Witzenberg.

3.3. **Pensioners** mean natural persons 60 years old or older.

3.4. **All other terms** are used within the context of the definitions contained in the Local Government: Municipal Property Rates Act, 2004 (No. 6 of 2004) as amended.

3.5. "Agricultural property" means property that is used primarily for agricultural purposes and excludes any portion thereof that is used commercially for the hospitality of guests, and excludes the use of the property for the purpose of eco-tourism or for the trading in or hunting of game**;**

3.6. "**Agricultural purposes**" means a property that is used for agricultural activities and the business of which must be registered with the South African Revenue Service (SARS).

3.7. **"Mining property"** means a property used for mining operations.;

3.8. **"Multiple purposes",** in relation to a property, means the use of a property for more than one purpose;

3.9. **"Public Benefit Organisation property"** As defined in the Regulations on the rate ratio between the residential and non-residential categories of property;

3.10. **"Public Service Infrastructure"** means publicly controlled infrastructure of the following kinds:

3.10.1. national, provincial or other public roads on which goods, services or labour move across a municipal boundary;
3.10.2. water or sewer pipes, ducts or other conduits, dams and water supply reservoirs, water treatment plants or water pumps forming part of a water or sewer scheme serving the public;
3.10.3. power stations, power substations or power lines forming part of an electricity scheme serving the public;
3.10.4. gas or liquid fuel plants or refineries or pipelines for gas or liquid fuels, forming part of a scheme for transporting such fuels;
3.10.5. railway lines forming part of a national railway system;

3.10.6. communication towers, masts, exchanges or lines forming part of a communications system serving the public;
3.10.7. runways or aprons at national or provincial airports;
3.10.8. breakwaters, sea walls, channels, basin, quay walls, jetties, roads, railway or infrastructure used for the provision of water, lights, power, sewerage or similar services of ports, or navigational aids comprising light houses, radio navigational aids, buoys, beacons or any other device or system used to assist the safe and efficient navigation of vessels;
3.10.9. any other publicly controlled infrastructure as may be prescribed;
3.10.10. or rights of way, easements or servitudes in connection with infrastructure mentioned in paragraphs (a) to (i); provided that (a), (b), (e), (g) and (h) may not be rated.

3.11. **"Public service purposes",** means a property owned and used by an organ of state as hospitals or clinics, schools, pre-schools, early childhood development centres or further education and training colleges, national and provincial libraries and archives, police stations, correctional facilities; courts of law; and

3.12. **"Residential property"** means a property whose primary use or permitted use is residential.

3.13. ***"Exemption"***, in relation to the payment of a rate, means an exemption granted by a municipality.

3.14. ***"Rebate",*** in relation to a rate payable on a property, means a discount granted on the amount of the rate payable on the property.

4. POLICY PRINCIPLES

4.1. Rates are levied in accordance with the Act as an amount in the rand based on the market value of all rateable property contained in the municipality's valuation roll and supplementary valuation roll.

4.2. As allowed for in the Act, the municipality has chosen to differentiate between various categories of property and categories of owners of property. Some categories of property and categories of owners are granted relief from rates. The municipality however does not grant relief in respect of payments for rates to any category of owners or properties, or to owners of properties on an individual basis, other than by way of an exemption, rebate or reduction provided for in this policy.

4.3. There would be no phasing in of rates based on the new valuation roll, except as prescribed by legislation.

4.4. The rates policy for the municipality is based on the following principles:

4.4.1. Equity
The municipality will treat all ratepayers with similar properties the same.

4.4.2. Affordability
The ability of a person to pay rates will be taken into account by the municipality. In dealing with the poor/indigent ratepayers the municipality will provide relief measures through exemptions, reductions or rebates.

4.4.3. Sustainability
Rating of property will be implemented in a way that:

4.4.4. it supports sustainable local government by providing a stable an buoyant revenue source within the discretionary control of the municipality; and

4.4.5. supports local social economic development policy of the municipality

4.4.6. Cost efficiency
Rates will be based on the value of all rateable property and the amount required by the municipality to balance the operating budget after taking into account profits generated on trading (water, electricity) and economic (refuse removal, sewerage removal) services and the amounts required to finance exemptions, rebates, reductions and phasing-in of rates as approved by the municipality from time to time.

5. SCOPE OF THE POLICY

This policy document guides the annual setting (or revision) of property rates. It does not make specific property rates proposals. Details pertaining to the applications of the various property rates are published in the Provincial Gazette and the municipality's schedule of tariffs, which must be read in conjunction with this policy.

6. APPLICATION OF THE POLICY

In imposing the rate in the rand for each annual operating budget component, the municipality shall grant exemptions, rebates and reductions to the categories of properties and categories of owners as allowed for in this policy document.

7. CATEGORIES OF PROPERTY

The municipality has determined categories of rateable properties based on the following criteria:
7.1. Use of the property

7.2. The permitted use of the property
7.3. The combination of (a) and (b)
7.4. For properties used for multiple purposes, the Municipality may apply the category of multiple use. For such properties the Municipal Valuer as appointed by the Municipality, will apportion a value to each distinct use of said property and apply the appropriate category for billing at the applicable rate.

7.5. Categories of property for the municipality include-

7.5.1. residential properties
7.5.2. industrial properties
7.5.3. business and commercial properties
7.5.4. agricultural properties
7.5.5. mining properties
7.5.6. properties owned by an organ of state and used for public service purposes
7.5.7. public service infrastructure properties
7.5.8. properties owned by public benefit organisations and used for specified public benefit activities
7.5.9. properties used for multiple purposes, subject to Section 9;
7.5.10. vacant Land or
7.5.11. any other category of property as may be determined by the Minister, with the concurrence of the Minister of Finance, by notice in the Gazette.

8. CATEGORIES OF OWNERS

8.1. For the purposes of determining a property's category, the use of the property will be applied.

8.2. For properties used for multiple purposes, the Municipality may apply the category of multiple use. For such properties the Municipal Valuer as appointed by the Municipality, will apportion a value to each distinct use of said property and apply the appropriate category for billing at the applicable rate.

Item	Category (of the property)	Purpose/use
(a)	Residential	means a property in respect of which the primary use is for residential purposes without derogating from section 9 of the MPRA.
(b)	Industrial	means a property that is used for the purpose described as the branch of trade or manufacturing, production assembling or processing of finished or partially finished

		products from raw materials or fabricated part, typically via a high volume production process and on so large scale that capital and labour are significantly involved.
(c)	Business and Commercial	means a property that is used for the purpose described as the activity of buying, selling or trade in goods or services and includes any office or other buildings on the same erf, the use of which is incidental to such business. This definition excludes the business of mining and agriculture activities
(d)	Agricultural	means property that is used primarily for agricultural purposes but, without derogating from section 9, excludes any portion thereof that is used commercially for the hospitality of guests, and excludes the use of [a] the property for the purpose of eco-tourism or for the trading in or hunting of game;'';'
(e)	Mining	means a property used for mining operations as defined in the Mineral and Petroleum Resources Development Act, 2002 (Act No. 28 of 2002);'
(f)	Public Service Purposes	means property owned and used by an organ of state as— (a) hospitals or clinics; (b) schools, pre-schools, early childhood development centres or further education and training colleges; (c) national and provincial libraries and archives; (d) police stations; (e) correctional facilities; or (f) courts of law,
(g)	Public Service Infrastructure	means publicly controlled infrastructure of the following kinds: (a) national, provincial or other public roads on which goods, services or labour move across a municipal boundary; (b) water or sewer pipes, ducts or other conduits, dams, water supply reservoirs, water treatment plants or water pumps forming part of a water or sewer scheme serving the public; (c) power stations, power substations or power lines forming part of an electricity scheme serving the public; (d) gas or liquid fuel plants or refineries or pipelines for gas or liquid fuels, forming part of a scheme for transporting such fuels; (e) railway lines forming part of a national railway system; (f) communication towers, masts, exchanges or lines forming part of a communications system serving the public;

		(g) runways aprons and the air traffic control unit at national or provincial airports, including the vacant land known as the obstacle free zone surrounding these. which must be vacant for the air navigation purposes; (h) breakwaters, sea walls, channels, basins, quay walls, jetties, roads, railway or infrastructure used for the provision of water, lights, power, sewerage or similar services of ports, or navigational aids comprising lighthouses, radio navigational aids, buoys, beacons or any other device or system used to assist the safe and efficient navigation of vessels; (i) any other publicly controlled infrastructure as may be prescribed; or (j) a right registered against immovable property in connection with infrastructure mentioned in paragraphs (a) to (i);
(h)	Public Benefit Organisation use for specific activities	"means an activity listed in 1 (welfare and humanitarian) and item 2 (health care) and item 4 (education and development) as part 1 of the Ninth schedule of the Income Act
(I)	Multiple Use	in relation to a property means a property that is used for more than one purpose as described in paragraph 7.1 of this Policy and Section 9 of the MPRA and where each distinct purpose is categorised separately and rated accordingly
(k)	Vacant	means a property without any buildings or structures, where no immovable improvements have been erected and irrespective of its permitted or intended use.

9. RATES RATIOS TO BE APPLIED

The rates ratio in relation to residential properties to be applied on non-residential properties is set in the table below:

Categories	**Ratio in relation to residential Property**
Residential Property:	
Bona Fide residential	1:1
Business / Commercial property:	1:2.75
Industrial Property	1:2.75
Agricultural Properties:	
Bona Fide Agricultural	1:0.25
Other Agricultural Properties	1:2.75

Public Service Purposes	1:2.75
Vacant Land	1:2.75
Public Service Infrastructure	1:2.75
Public Benefit Organisations	1:0.25
Building clauses	1:2.75

10. EXEMPTIONS

The following categories of property are exempted from rates:

10.1. Municipal properties

Municipal-owned properties as stated in Section 7 (2) (a) (i) of the MPRA will be excluded from paying property rates.

10.2. Public Service Infrastructure

The following public service infrastructure will be excluded from paying property rates:

10.2.1. national, provincial or other public roads on which goods, services or labour move across a municipal boundary;
10.2.2. water or sewer pipes, ducts or other conduits, dams, water supply reservoirs, water treatment plants or water pumps forming part of a water or sewer scheme serving the public;
10.2.3. railway lines forming part of a national railway system;
10.2.4. runways aprons and the air traffic control unit at national or provincial airports, including the vacant land known as the obstacle free zone surrounding these. which must be vacant for the air navigation purposes;
10.2.5. breakwaters, sea walls, channels, basins, quay walls, jetties, roads, railway or infrastructure used for the provision of water, lights, power, sewerage or similar services of ports, or navigational aids comprising lighthouses, radio navigational aids, buoys, beacons or any other device or system used to assist the safe and efficient navigation of vessels;
10.2.6. the first 30% of the market value of other public service infrastructure.

10.3. Public Benefit Organisations

The Municipality will apply the rate ratio as set out in the MPRA to public benefit organisations.

The following Public Benefit Organisations may apply for the exemption of property rates subject to producing a tax exemption certificate issued by the South African Revenue Services (SARS) as contemplated in Part 1 of the Ninth Schedule of the Income Tax Act, 1962 (No 58 of 1962):

Welfare organisations
Properties owned by not for gain institutions or public benefit organisations and are solely use for the benefit of the institution and or for charitable purposes and performs welfare and humanitarian work as contemplated by part 1 of the ninth Schedule of the Income Tax Act (Act 58 of 1962). Council may grant a rebate as of 100% in the case of Inst. 2 uses and 50% in the case of Inst. 3 users.

Animal welfare
Property owned or used by institutions/organisations whose exclusive aim is to protect birds, reptiles and animals on a not-for-gain basis.

10.4. Public Worship

In terms of section 17(i) of the MPRA, the council do not levy a rate on the property registered in the name of and used primarily as a place of public worship by a religious community, including one official residence registered in the name of that community which is occupied by an office bearer of that community who officiates at services at that place of worship.

(**The exclusion lapses if not used for the purposes as indicated above**.)

10.5. Protected Areas

Protected areas as per Section 17(1) (e) of the MPRA.

10.6. Land reform beneficiary

A property belonging to a land reform beneficiary or his or her heirs, dependants or spouse provided that this exclusion lapses—
(i) ten years from the date on which such beneficiary's title was registered in the office of the Registrar of Deeds; or
(ii) upon alienation of the property by the land reform beneficiary or his or her heirs, dependants or spouse.

10.7. Exemptions will be subject to the following conditions:

10.7.1. all applications must be addressed in writing to the municipality;
10.7.2. a SARS tax exemption certificate must be attached to all applications;
10.7.3. the municipal manager or his/her nominee must approve all applications;
10.7.4. applications must reach the municipality before the end of October preceding the start of the new municipal financial year for which relief is sought; and
10.7.5. the municipality retains the right to refuse exemptions if the details supplied in the application form were incomplete, incorrect or false.

11. REDUCTIONS IN THE MUNICIPAL VALUATION

A reduction in the municipal valuation as contemplated in section 15(1)(b) of the Act will be granted where the value of a property is affected by-

11.1. a disaster within the meaning of the Disaster Management Act, 2002 (Act No. 57 of 2002); or

11.2. any other serious adverse social or economic conditions

11.3. The reduction will be in relation to the certificate issued for this purpose by the municipal valuer.

11.4. All categories of owners can apply for a reduction in the rates payable as described above

12. REBATES

The municipality may grant rebates to rateable enterprises that promote local, social and economic development in its area of jurisdiction, based on its Local, Social and Economic Development Policy and as included in the council tariff policy.

Rebates will be granted once an application was received and approved by the municipal manager or his/her delegate.

12.1. Historical or heritage properties

No rebates are granted other than residential rebates if appropriate.

12.2. Cemeteries.

Privately owned cemeteries received a rebate of 50% and must be exclusively be used for the purpose of a cemetery.

12.3. Residential Properties.

The Municipality will not levy a rate on the first value up to R 150 000 of the market value as per the Valuation Roll of Residential Properties, as follows:

12.3.1. on the first R15 000 on the basis set out in Section 17(1)(h) of the MPRA; and

12.3.2. on the balance of the market value up to R135 000 in respect of residential properties, as an important part of the Councils indigent relief measures aimed primarily at alleviating poverty amongst those persons owning low-value properties.

12.4. Pensioners

12.4.1. Pensioners may qualify for a rebate of 50% on residential property in terms of councils' policy.

12.4.2. Only the primary property of the owner will qualify for the 50% rebate.

12.4.3. Only persons 60 years and older will qualify for the 50% rebate.

12.4.4. Rebates will be granted once an application was received and approved by the municipal manager or his/her delegate.

13. RATES INCREASES

The municipality will consider increasing rates annually during the budget process in terms of the guidelines issued by National Treasury from time to time.

Rate increases will be used to finance the increase in operating costs of community and subsidised services.

14. PAYMENT OF RATES

14.1. Liability for and payment of rates is governed by the MPRA and the Municipality's Credit Control and Debt Collection Policy and By-Laws as well as any other applicable legislation.

14.2. Ratepayers may choose, not later than 31 August in any financial year, or such later date in such financial year as may be determined by the municipal manager or his/her nominee, between paying rates annually in one instalment on or before 30 September or in twelve equal instalments on or before the 15th day of the month following on the month in which it becomes payable.

14.3. An owner is liable for payment of a rate whether or not that person has received a written account. The furnishing of accounts for rates in terms of this section is subject to section 102 of the Municipal Systems Act.

14.4. A rate levied by a municipality on a sectional title unit is payable by the owner of the unit.

14.5. Interest on arrears rates, whether payable on or before 30 September or in equal monthly instalments, shall be calculated in accordance with the provisions of the credit control, debt collection and indigent policy of the municipality.

14.6. If a property owner, who is responsible for the payment of property rates in terms of this policy, fails to pay such rates in the prescribed manner, it will be recovered

from him/her in accordance with the provisions of the Credit Control, Debt Collection and indigent policy of the Municipality.

14.7. Arrears rates shall be recovered from tenants, occupiers and agents of the owner, in terms of section 28 and 29 of the Act.

14.8. Where the rates levied on a particular property have been incorrectly determined, whether because of an error or omission on the part of the municipality or false information provided by the property owner concerned or a contravention of the permitted use to which the property concerned may be put, the rates payable shall be appropriately adjusted for the period extending from the date on which the error or omission is detected back to the date on which rates were first levied in terms of the current valuation roll.

14.9. In addition, where the error occurred because of false information provided by the property owner or as a result of a contravention of the permitted use of the property concerned, interest on the unpaid portion of the adjusted rates payable shall be levied at the maximum rate permitted by prevailing legislation.

15. CLEARANCE CERTIFICATES

15.1. Are issued in terms of Section 118 (1) (a) of the Local Government: Municipal Systems Act, 2000, Act No. 32 of 2000, and will be valid for a period of 60 days from the date it has been issued.

15.2. Are issued within 7 working days after receipt of the applicable fees and receipt of the clearance application form.

15.3. Are issued when all amounts due in connection with that property for municipal fees, surcharges, property rates and other municipal taxes, levies and duties have been fully paid.

15.4. The Municipality requires a payment in advance equal to two months' payments in respect rates for the financial year and two months' average consumption of all relevant services prior to the issuing of such a clearance certificate in order to allow for any consumption that may take place during the time taken for the transfer to go through.

15.5. The administration is allowed to issue a clearance certificate in the name of the buyer (as registered owner) in the instance of simultaneous transfers.

15.6. If an amount liable for rates and services in respect of a property is outstanding and the property needs to be transferred, a rates clearance certificate will only be issued upon payment of the current account and after completion of an agreement by the new owner for any municipal services in arrears, subject to Council's Credit Control and Debt Collecting Policy in respect of the following transfers:

15.6.1. Transfer of a property from the Municipality to the new owner;

15.6.2. Transfer of a property from one spouse to the other;

15.6.3. Transfer of a property from the owner (parent) to a child.

16. REGULAR REVIEW PROCESSES

The rates policy will be reviewed on an annual basis to ensure that it complies with the Municipality's strategic objectives and with legislation.

17. SHORT TITLE

This policy is the Property Rates Policy of the Witzenberg Municipality.

18. ENFORCEMENT/IMPLEMENTATION

This policy has been approved by the Municipality and came into effect from 1 July 2023 and replace the previous property rates policy.

PREAMBLE

WHEREAS Section 152 (1) (b) of the Constitution of the Republic of South Africa Act 108 of 1996 (*the Constitution*) provides that one of the objects of local government is to ensure that the provision of services to communities occurs in a sustainable manner;

AND WHEREAS Section 153 (a) of the Constitution provides that a municipality must structure its administration, budgeting and planning processes to give priority to the basic needs of the community, and to promote the social and economic development of the community;

AND WHEREAS Section 195 (1) of the Constitution provides that the public administration must be governed by the democratic values and principles enshrined in the Constitution, including-

- the promotion of the efficient, economic and effective use of resources;
- the provision of services impartially, fairly, equitably and without bias; and
- the fact that people's needs must be responded to.

AND WHEREAS Section 4 (1) (c) of the Local Government: Municipal Systems Act 33 of 2000 (*the Systems Act*) provides that the Council of a municipality has the right to finance the affairs of the municipality by charging fees for services, imposing surcharges on fees, rates on property and, to the extent authorised by national legislation, other taxes, levies and duties;

AND WHEREAS Section 5 (1) (g), read with subsection (2) (b), of the Systems Act provides that members of the local community have the right to have access to municipal services which the municipality provides provided that, where

applicable and subject to the policy for indigent debtors, pay promptly for services fees, surcharges on fees, other taxes, levies and duties imposed by the municipality;

AND WHEREAS Section 6 (2) (c), (e) and (f) of the Systems Act provides that the administration of a municipality must take measures to prevent corruption; give members of a local community full and accurate information about the level and standard of municipal services that they are entitled to receive; and inform the local community about how the municipality is managed, of the costs involved and the persons in charge;

AND WHEREAS Chapter 9, Sections 95, 96, 97, 98, 99 and 100, of the Systems Act provides for Customer Care Management, Debt Collection responsibility of the Municipality, contents of the policy, by-laws that give effect to the policy, Supervisory authority and Implementing authority.

The Witzenberg Municipal Council, at its meeting of 28May 2008adopts this policy to be known as: The Witzenberg Municipality Credit Control and Debt Collection Policy". This policy replaces that policy in its entirety.

1. DEFINITIONS

In this policy, unless the context indicates otherwise, the word or expression has the following meaning:

1.1 "**Accounting Officer"** The Municipal Manager appointed in terms of Section 82(1) (a) or (b) of the Municipal Structures Act, 1998 (Act No. 117 of 1998);

1.2 **"Actual consumption**" means the measured consumption of a consumer of a municipal service during a specified period;

1.3 "**Arrangements**" means a formal agreement entered into between the Council and a debtor where specific repayment parameters are agreed to.

1.4. "**Arrears** "mean any amount due, owing and payable by a customer in respect of a municipal account not paid on the due date;

1.5. "**Average consumption**" means the deemed consumption of a customer of a municipal service a specific period, which consumption is calculated by adding the recorded monthly average consumption and the current actual consumption and dividing the total by 2;

1.6. "**Bank guarantee**" refers to an undertaking by a registered financial institution whereby it guarantees a specified maximum amount to be paid if the principal debtor (the consumer) fails to pay;

1.7. "**Calculated amounts"** refers to the amounts calculated by the Chief Financial Officer, in consultation with the relevant technical departments, to be due to the Council by a consumer in respect of the supply of the applicable municipal services for any period during which the exact quantity of the supply cannot be determined accurately for reasons beyond the control of the Chief Financial Officer. This shall normally be based on the average consumption figures, if available, for the service rendered to the customer **or,** failing the availability of such data, on the average consumption figures applicable to one or more properties of similar size and nature in the area in which the customer resides or carries on business;

1.8. "Charges" refers to charges incurred by the municipality to collect arrears;

1.9. "**Chief Financial Officer**" refers to the person so designated in terms of Section 75(2)(a) of the Municipal Finance Management Act, 2003 (Act No. 56 of 2003) or any person duly authorised to act on behalf of such person and shall have the same meaning as Strategic Executive Manager: Finance or City Treasurer;

1.10. "**Consolidated account**" refers to one combined account for all municipal services, housing rents and instalments, rates and basic charges payable, and" consolidated bill" has a corresponding meaning;

1.11. "**Consumer**" means a customer;

1.12 "**Conventional electricity and water meters means** "electricity and/or water meters, as the case may be, which are used to determine the supply of electricity and water and which are normally read on a monthly or other fixed interval basis;

1.13 "**Council**" refers to The Witzenberg Municipality and its successors in law and includes the Council of that municipality or its Executive Committee or any other body acting by virtue of any power delegated to it in terms of legislation, as well as any official to whom the Executive Committee has delegated any powers and duties with regard to this policy;

1.14 "**Councillor**" refers to any member of a municipal council;

1.15 "**Credit Control** "refers to all functions relating to the collection of monies owed by customers and users of municipal services.

1.16 "**Customer**" refers to any occupier of any premises to which Council has agreed to supply or is actually supplying services, or if there is no occupier, then the owner of the premises and includes any debtor of the municipality;

1.17 "**Defaulter**" refers to any customer owing the municipality money in respect of rates and / or service or sundry charges; not paid on the due date as stipulated on the account or on the agreement. The owner will be held responsible for occupiers / tenants, arrear accounts, for water, electricity and any other service or sundry accounts;

1.18 "**Deposit**" refers to a minimum sum of money specified by the Chief Financial Officer and payable by the consumer to the Municipality prior to occupation of the property or prior to the date on which services to the property are required;

1.19 "**Due date**" in the absence of any express agreement in relation thereto between the Council and the customer, refers to the date stipulated on the account and determined from time to time as the last date on which the account must be paid;

1.20 "**Equipment**" refers to any building or other structure, pipe, pump, wire, cable, meter, engine or any accessories;

1.21 "**Estimated** "consumption arises when no actual reading can be taken and is equivalent to the existing average consumption;

1.22 "**Existing**" customers refer to the customers who have already entered into an agreement for the supply of municipal services;

1.23 "**Financial year**" refers to the period starting from 1 July in a year to 30 June the next year;

1.24 "**Fees**" refers to expenses incurred by the municipality to collect arrears;

1.25 "**Implementing Authority**" means the Municipal Manager or his nominee, acting in terms of Section 100 of the Local Government Municipal Systems Act, 2000 (Act No. 32 of 2000);

1.26 "**Interest**" is a charge levied with the same legal priority as service fees and calculated at a rate determined by Council from time to time on all arrear monies;

1.27 "**Meter**" audits refer to an investigation to verify the correctness of the consumption and supply of electricity and water;

1.28 "**Municipality**" when referred to as:

(a) a corporate body, means a municipality as described in Section 2 of the Municipal Systems Act, 2000 (Act No. 32 of 2000);

(b) A geographic area means a municipal area determined in terms of the Local Government Municipal Demarcation Act, 1998 (Act No. 27 of 1998).

1.29 "**Municipal Manager**" means the person appointed as Municipal Manager in terms of Section 82 of the Local Government Municipal Structures Act, 1998, (Act No. 117 of 1998) and includes any person acting in that position or to whom authority has been delegated;

1.30 "**Municipal services** "refers to any services provided by the municipality or any authorised and contracted service provider, available or applied for, or provision made for any service, for which it is entitled to charge a fee or formulate a tariff, payable by a customer or user, thereof;

1.31 "**Normal office hours**" means the hours when the Chief Financial Officer' s offices are open to the public from Mondays to Fridays, excluding public holidays, Saturdays and Sundays;

1.32 "**Official**" refers to an employee of The Witzenberg Municipality

1.33 "**Occupier**" means any person, who occupies any property or part thereof, without regard to the title under which he or she occupies the property,

1.34 "**Owner"** means:

(a) The person in who from time to time is vested the legal title to premises, which title is registered at the Deeds Office;

(b) In a case where the person in whom the legal title is vested is insolvent or deceased, or is under any form of legal disability whatsoever, the person in whom the administration of and control of such premises is vested as curator, trustee, executor, administrator, judicial manager, liquidator or other legal representative;

(c) In a case where the Council is unable to determine the identity of such person, a person who is entitled to the benefit of such premises with a building thereon;

(d) In the case of premises for which a lease of 30 years or more has been entered into, the lessee thereof;

(e) In relation to

i. A piece of land delineated on a sectional plan registered in terms of the Sectional Titles Act 1986, (Act 95 of 1986), and without restricting the above the developer or the body corporate in respect of the common property; or

ii. A section, as defined in such Act, the person in whose name such a section is registered under a sectional title deed and includes the lawfully appointed agent of such a person;

(f) Any legal person including but not limited to

i. A company registered in terms of the Companies Act, 1973 (Act 61 of 1973), a Trust, a Closed Corporation registered in terms of the Closed Corporations Act, 1984 (Act 69 of 1984) and a voluntary association;

ii. Any department of State;

iii. Any Council or Board established in terms of any legislation applicable to the Republic of South Africa;

iv. Any Embassy or other foreign entity;

1.35 "**Premises**" includes any piece of land, the external surface boundaries of which are delineated on-

(a) A general plan or diagram registered in terms of the Land Survey Act, 1927 (9 of 1927), or in terms of the Deed Registry Act, 1937 (47 of 1937); or

(b) A sectional plan registered in terms of the Sectional Titles Act, 1986 (95 of 1986), which is situated within the area of jurisdiction of the Council;

1.36 "**Rates**" refers to property rates on property situated in the municipal area, any other tax, duty or levy imposed by the municipality;

1.37 "**Service agreement**" refers to an agreement for the consumption of electricity and/or water and other services as determined from time to time;

1.38 "**Terminated account**" refers to:

(a) the final account for services after the customer has left the premises, whether or not the customer has given notice to terminate the supply of service; OR

(b) the final account for services if the customer has contravened the service provisions of this policy and attendant municipal bylaws;

1.39 "**Variable flow-restricting device**" refers to a device that is coupled to the water connection that allows the water supply to be restricted or closed;

1.40 "**Visitation fee**" refers to the fee charged for attendance and/or disconnection/reconnection of an electricity/water supply when the supply has been disconnected due to non-payment and/or tampering, or where access to disconnect/restrict has not been gained, which fee shall be

1.41 "**Voluntary garnishee order/emoluments order"** refers to a court order for the deduction of an amount of money from the salary or other income of a customer.

2. INTRODUCTION

2.1. The Council cannot develop the local economy and provide acceptable services to its residents unless it receives payment, in full, of all bills raised for the services that it provides.

2.2. The municipality must develop, maintain and implement a credit control and debt collection policy that is consistent and complies with the relevant legislation.

2.3. In regard to payments expected from registered indigents and Council tariffs, this policy is to be read in conjunction with The Witzenberg Municipality Indigent Policy and The Witzenberg Municipal Tariff Policy.

3. OBJECTIVES

The objectives of the Credit Control and Debt Collection Policy are:

3.1 To define a framework within which the municipality can develop an effective procedure to bill and collect its revenues;

3.2 To ensure that all monies due and payable to the municipality are collected and used to deliver municipal services in the best interests of the community, residents and ratepayers and in a financially sustainable manner as prescribed by the Municipal Systems Act, 2000 (Act No. 32 of 2000), and other applicable legislation;

3.3 To maintain and implement a credit control and debt collection policy, which is consistent and complies with Section 97 of the Municipal Systems Act, 2000 (Act No. 32 of 2000).

3.4 To ensure that the municipality develops credit control procedures and mechanisms that are considered to be consistent, fair and effective to all its consumers.

4. UNDERLYING PRINCIPLES OF THIS POLICY

4.1 The administrative integrity of the municipality must be maintained at all times. The democratically elected councillors are responsible for policymaking, while it is the responsibility of the Councillors, Municipal Manager and all staff to ensure the execution of these policies.

4.2 This policy shall take effect and be enforceable from the date of approval thereof by Council.

4.3 The collection process must be cost-effective and enforcement of payment for services rendered must be prompt, consistent and effective.

4.4 Unauthorised consumption, connection and reconnection, the tampering with or theft of meters, service supply equipment and the reticulation network and any fraudulent activity in connection with the provision of municipal services will lead to disconnections and/or restrictions, penalties, loss of rights and criminal prosecutions.

4.5 All Witzenberg Municipality employees shall:

4.5.1 Embrace the principles of Batho Pele and treat all debtors with dignity and respect at all times

4.5.2 Employees shall execute their duties in an honest and transparent manner whilst protecting the confidentiality of information in accordance with the Access to Information Act.

5. ROLE AND RESPONSIBILITY OF MUNICIPAL MANAGER

5.1 In terms of Section 100 of the Municipal Systems Act, 2000 (Act No. 32 of 2000), the Municipal Manager is responsible for implementing the credit control and debt collection policy. In line with this, the Municipal Manager is to perform the following:

5.2 install and maintain appropriate accounting system.

5.3 bill customers.

5.4 demand payment on due dates.

5.5 raise penalties and interest for defaulters.

5.6 appropriate payments received.

5.7 collect outstanding debt.

5.8 provide different/alternate payment methods.

5.9 determine credit control and debt collection measures.

5.10 determine all relevant work procedures for, inter alias, public relations, arrangements, disconnection/reconnection of services, summonses, attachments of assets, sales in execution, write-off of debts, sundry debtors and legal processes.

5.11 instruct attorneys to proceed with the legal process (i.e. attachment and sale in execution of assets, emolument attachment orders, etc.).

5.12 appoint staff to execute Council's policy and by-laws.

5.13 determine internal control procedures.

5.14 monitor contracts with service providers in connection with credit control and debt collection.

5.15 The Municipal Manager may delegate these responsibilities to the Chief Financial Officer. However, this delegation does not absolve the Municipal Manager from being held accountable for implementing this policy.

5.16 The Municipal Manager is to report monthly to the Executive Committee, and quarterly to the Council, on the actions taken in terms of this policy, and on the payment levels for the periods concerned.

5.17 Although the Municipal Manager is held accountable for implementing this policy, it is the responsibility of all officials of the municipality to promote and support this credit control and debt collection policy.

6 ROLE AND RESPONSIBILITY OF COUNCILLORS

6.1 To approve budgets consistent with the needs of communities, ratepayers and residents.

6.2 To impose rates and taxes and to determine service charges, fees and penalties to finance the budget.

6.3 To facilitate sufficient funds to give access to basic services for the poor.

6.4 To provide for a bad debt provision, in line with the payment record of the community, ratepayers and residents, as reflected in the financial statements of the municipality.

6.5 To, together with the Chief Financial Officer, set an annual improvement target for debt collection (refer Section 9), in line with acceptable accounting ratios and the ability and performance of any appointed external service providers.

6.6 To approve a reporting framework for credit control and debt collection.

6.7 To consider and approve by-laws to give effect to the Council's policy.

6.8 To revise the budget should Council's targets for credit control and debt collection is not met.

6.9 To take disciplinary and/or legal action against Councillors, officials and agents who do not execute Council policies and by-laws, or act improperly in terms of such policies.

6.10 To approve a list of suitably qualified service providers that will act on behalf of Council in all collection and legal matters relating to debt collection.

6.11 To provide sufficient capacity in the Municipality's Budget and Treasury Office for credit control and debt collection or, alternatively, to appoint service providers or debt collection agents to assist with the credit control and debt collection procedures.

6.12 To assist the Municipal Manager in the execution of his duties, if and when required.

6.13 To provide funds for the training of staff in connection with credit control and debt collection.

6.14 In terms of Section 99 of the Municipal Systems Act, 2000 (Act No. 32 of 2000), the Executive Committee, is to monitor and supervise the application of this policy, and is to report to Council on the extent and success of the municipality's credit control actions.

6.15 In order to maintain the credibility of the municipality in the implementation of the present policy, Councillors, by adopting this policy, pledge that their own accounts will at no stage fall into arrears.

7. DUTIES AND FUNCTIONS OF WARD COUNCILORS

7.1 To adhere to and convey Council policies to residents and ratepayers.

7.2 To adhere to the Code of Conduct for Councillors.

7.3 The ward committees will act in terms of roles and functions as approved by Council.

7.4 The ward committees are encouraged to actively promote this policy, and to ensure, at the same time, that the municipality's customer service is of a standard acceptable to the community.

8. DUTIES AND FUNCTIONS OF COMMUNITIES, RATEPAYERS AND RESIDENTS

8.1 To fulfil certain responsibilities, as brought about by the privilege and or right to use and enjoy public facilities and municipal services.

8.2 To pay service fees, rates on property and other taxes, levies and duties imposed by the municipality on or before the due date for payment.

8.3 To observe the mechanisms and processes of the municipality in exercising their rights.

8.4 To allow municipal officials access to their property to execute municipal functions.

8.5 To comply with the by-laws and other legislation of the municipality.

8.6 To refrain from tampering with municipal services and property.

9. EXPECTED DEBTOR PAYMENT LEVELS

9.1 The municipality is to aim at ensuring that payment levels (i.e. the percentage level of income received from debtors) for the present and future financial years, in respect of all amounts due to the municipality, exclusive of the balance of the monthly accounts payable by registered indigents, are maintained at an annual average of at least 96%.

9.2 The long-term target is a debtor turnover ratio of 30 days, that is, debtors are expected to pay for services on average within one month of receiving accounts.

10. AREA OF APPLICATION

10.1 This policy shall apply and be enforceable throughout the entire area of jurisdiction of The Witzenberg Municipality

10.2 The Council reserves the right to differentiate between different categories of consumers, debtors, services or service standards when applying this policy. The Council will, on application of this policy, avoid discrimination as forbidden by the Constitution unless it is established that the discrimination is fair as allowed by the Constitution.

11 APPLICATION FOR SERVICES AND SERVICE AGREEMENTS

11.1 Before being provided with electricity, water and/or other customer services, and prior to taking occupation of premises, every customer shall enter into a service agreement with the Council in which, inter alias, the customer agrees that the electricity, water and/or other services, supplied by either Prepaid or Credit meter systems, may be used for credit control purposes to collect arrears in respect of all outstanding debt.

11.2 All consumers wishing to utilise municipal services must apply to enter into a service agreement.

11.3 The service agreement will be entered into prior to the provision of services and prior to the consumer taking occupation of the premises.

11.4 A new service agreement will only be entered into once all amounts owed by a consumer on other debtor accounts are settled in full.

11.5 A new service agreement will only be entered into on a property, once all outstanding amounts owed on the property are settled in full. The owner of the property shall have the responsibility to ensure that all debts incurred after are fully paid by the tenant in order to mitigate the non-provision of services to tenants/residents after the date mentioned above.

11.6 Paragraph 11.5 is not applicable to outstanding accounts in respect of houses allocated by the housing committee.[1]

11.7 Where municipal services are used/consumed or made use of, and the owner, tenant, or occupants of a property, have not entered into nor completed an agreement for such services, the owner responsible for the payment of rates on the property will be billed for the metered consumption and all municipal service charges applicable to the property.

11.8 The service agreement shall indicate that transfer of a property may not be registered until the municipality issues a clearance certificate which reflects that all amounts due in connection with that property for municipal service fees, property rates and other municipal taxes, levies and duties have been fully paid. The outstanding monies include accounts relating to tenants who may have left the property of the seller.

11.9 Application forms are available at the municipal offices and the application process must occur at least ten (10) working days prior to taking occupation of the premises. This will ensure that services are available when occupation is taken. Failure to adhere to the timeframe may result in customers not having the services available when occupation is taken.

11 .10 The Municipality will render the first account after the first meter reading cycle following the date of signing the service agreement or as soon as is administratively possible.

11.11 Consumers who illegally consume services without a valid service agreement will be subject to disconnection and/or removal of the service and may have charges laid against them for theft and fraud.

[1] Amended by Council on 28 May 2014

11.12 The service agreement shall set out the conditions under which the services are provided and shall require the signatories thereto to accept the contents of the municipality' s credit control and debt collection policy, as well as the provisions of the Municipal Systems Act, 2000 (Act No. 32 of 2000).

(a) An undertaking by customers:

- That the electricity, water and/or other services supplied by either the Prepaid or Credit meter systems, may be used for credit control purposes to collect arrears in respect of all outstanding debt and shall include rates if the customer is the owner of the property;
- That they are liable for the costs of collection, including any administration fees, penalties for late payment, legal costs, interest, disconnection fees and reconnection fees, and
- That any alleged non-receipt of an account does not affect the customers' liability for the account, nor stop the credit control process;

(b) An undertaking by Council:

- That it will deliver accounts to customers by Post Office delivery and emails
- That if customers do not receive an account and have accordingly requested one, a statement will be supplied to them.

11.13 Where a signatory is not the owner of the property to which the services are to be provided, a letter from the owner indicating that the signatory is the lawful occupant of the property and where a lessor/lessee arrangement exists between the parties, a copy of such agreement shall be attached to the service agreement.

11.14 Where a consumer has failed to enter into a service agreement with the Council, water and/or electricity shall be restricted or disconnected, as the circumstances may require, until such time as a service agreement has been entered into and the applicable deposits have been paid. In such circumstances, the consumer will be held liable for any calculated amounts.

12 DEPOSITS AND GUARANTEES

12.1 Every customer is to pay a deposit on application for the provision of municipal services before the municipality renders any service to the property. Deposits are payable when new customers sign service agreements and when existing customers move to a new supply address. All deposits shall be paid at least 5 (days) days prior to occupation of the property or prior to the date on which the services are required. Failure to comply with this clause may result in a delay in the connection of services and the Council shall not be liable for any loss or prejudice suffered by a customer as a result thereof.[2]

12.2 Subject to the provisions of clauses 12.3, 12.4 and 12.5 hereunder, the calculation for deposits shall be based on two months' consumption of metered services together with any charges for other municipal services, or a minimum amount specified by the Chief Financial Officer from time to time. Also refer to 6.3.4 of the tariff listing

12.3 In the case of Housing Projects an amount of R500.00 is payable for deposit. To be reviewed by the CFO from time to time. In determining the deposit described in Section 12.2, the Chief Financial Officer may differentiate between areas to give cognisance to differences in service standards and usage.

12.4 The Chief Financial Officer may re-assess customer deposits for new domestic, commercial and industrial customers three months after the initial deposit date and may, as a result of this reassessment, require an additional deposit from the customer.

12.5 The Chief Financial Officer may review deposits annually and, in the case of a customer' s service being disconnected or restricted as a result of non-payment or tampering, may increase the deposit. Should the deposit be increased as a result of this review the customer must immediately make payment of the increased amount in line with the instruction from the Chief Financial Officer.

12.6 The outcome of the review contemplated in clause 12.5 shall be communicated to the customer in the event of any variation in the deposit arrangements being required.

12.7 Should a customer's services be disconnected twice during any twelvemonth period due to non-payment, the customer's deposit shall be adjusted the following month to conform to Clause 12.5.

12.8 Not applicable no current guarantees

12.9 The municipality will pay no interest on deposits[3]

[2] Amended by Council on 28 May 2014.
[3] Amended and reviewed by Council on 30 May 2019

13 ACCESS TO PROPERTY TO READ METERS

13.1 In terms of Section 101 of the Municipal Systems Act, 2000 (Act No. 32 of2000), the occupier, owner or tenant of a property is to allow municipal officials or the municipality' s authorised service providers access to read meters, install or repair meters as well as to, discontinue or restrict the provision of a service. The official is to have the proper authorisation and can only request access during reasonable hours.

13.2 If the municipality is unable to read any meter on any property because the meter has been rendered inaccessible, the municipality shall estimate the consumption of the service concerned and thereafter bill the accountholder for the monetary value of such estimated consumption.

13.3 In the event that the Council continues to be unsuccessful in obtaining access to the property and, therefore, is unable to obtain an accurate meter reading, the Chief Financial Officer or his authorised representative may disconnect the supply of services.

13.4 Voluntary readings:

- These will be permitted provided the municipality obtains any final reading should the consumer move to another supply address.
- Consumers may be liable for a fee to cover the costs of obtaining a reading if no advance warning is given and special arrangements are required to obtain a reading.
- The Municipality is entitled to make suitable adjustments to the readings should a consumer fail to ensure that a final reading is obtained.
- An audit reading during the normal reading cycles must be obtained at least once every 6 months. If a special audit reading becomes necessary, this will be done at the cost of the consumer.
- The consumer may elect to supply voluntary readings subject to compliance with these rules. The Chief Financial Officer may, however, cancel the voluntary reading convenience if the consumer fails to render readings on two or more consecutive occasions.

14 ACCOUNTS, BILLING AND PAYMENT

14.1 The Council shall produce and post one consolidated monthly bill to consumers for services supplied or available (inter alias, electricity, water, refuse and sewerage charges) and for rates levied on property within the municipal area unless, for whatever reason, the rates account has not been consolidated with the services account in which case separate monthly accounts will be posted. These accounts will be produced in accordance with meter reading cycles at regular intervals or as prescribed by law.

14.2 The account/invoice will reflect the following details:

- Consumer name;
- Consumer account number;
- Consumer postal address;
- Address details to which the services have been supplied;
- The consumption or estimated consumption for each metered service within a specified period;
- The applicable service tariff;
- The monthly amount due on property rates and the total annual amount due;
- The valuation of the property;
- The amount due on any other service charges;
- The total amount due and payable;
- The amount in arrears, if any;
- The final date for payment (due date);
- The method, name and location of any municipal offices and authorised agents where payments may be made, and
- A notification that failure to settle the total amount due by due date will result in termination or restriction of services.

14.3 The Council shall undertake to post the consolidated account to the customer address, in South Africa, as specified by each customer. However, non-receipt of an account does not negate the responsibility of the customer to pay the amount owing by due date nor prevent interest charges and debt collection procedures. In the event of non-receipt of an account, the onus rests on the account holder to obtain a free copy of the most recent account, before the due date.

14.4 The consumer shall, in writing, notify the Council of any change of address, including an e-mail address, and contact details. Notwithstanding the fact that a consumer has not received an account as a result of his failing to notify the Council of his change of address or due to delays on the part of external service providers, the customer is nevertheless liable for payment of such account. Any change of address only becomes effective when the notification of the change is received and acknowledged by the Council.

14.5 Accounts must be paid in full on or before the due date as indicated on the account. Failure to comply with this section shall result in debt collection action (as contained in Section 27 of this policy) being instituted against the customer. Interest on arrears, at the rate determined from time to time by the Council or, in the absence of any determination, as prescribed by law, will accrue after due date if the account remains unpaid irrespective of the reason for non-payment (refer Section 18).

14.6 Bulk consumers may at the discretion of Council be notified of their unpaid accounts prior to the commencement of the debt collection process.

14.7 Payments for accounts must be received at a Municipal pay-point by close of business on or before the due date. In the case of any electronic payments the money must be received in the municipal bank account no later than the close of business on the due date. In the case of monies paid to agents, the money must be deposited with the agent prior to the close of business on due date and proof thereof may be required to validate any claims.

14.8 The following methods of payment and payment points can be used: Debit order payments, which forms are available from the municipal cash offices;

- Cash payments can be made at the municipality' s cash offices, any South African Post Office and their agencies, ABSA and Easy Pay Outlets e.g. Pick & Pay, Checkers, etc.

- Electronic banking payments directly into the municipality' s account;

14.9 The consumer acknowledges that any agent used for transmitting payments to the Municipality is at the risk and cost of the consumer. In addition, the consumer must take into account the transfer time of the particular agent.

14.10 All payments and/or part-payments received by the Municipality shall be allocated to services in the manner as contained in Section 20.

15. METERING OF CONSUMABLE SERVICES

15.1 The municipality may introduce various metering equipment for the measurement of service consumption and customers may be encouraged to convert to a system preferred by the municipality.

15.2 Customers who default (fail to pay by the due date) may be required by the municipality to convert to another metering system.

15.3 Meters (credit) will be read in monthly cycles, at regular intervals or as prescribed by Council. Should circumstances prevent such a reading, the Municipality is entitled to continue with the procedure as laid down in Section 13 of this policy.

15.4 A consumer is responsible to ensure access to metering equipment and will be liable for any cost incurred to ensure access (such as relocating or disconnecting the meter) if satisfactory access is not possible.

15.5 Routine or special maintenance of metering equipment will be communicated to the consumer prior to being undertaken in order to establish a suitable time to perform such maintenance.

16. VALUATION OF PROPERTIES

16.1 All properties within the boundaries of the Witzenberg Municipality are to be valued in terms of the legislation applicable to the valuation of properties for the purpose of levying property rates.

16.2 If the Municipality has not yet included such valuation for the purpose of levying rates, the Municipal Valuer shall conduct a valuation of the relevant property for purposes of a supplementary valuation

17. PROPERTY RATES

17.1 In terms of the Council Rates Policy, and in accordance with the tariff of Charges Schedule, Property Rates will be raised annually in July of each year, charged on a monthly basis and will be reflected on the consumers monthly bill.

17.2 All Property Rates not paid by due date will, in addition to any procedures as prescribed by law, be subject to credit control and debt collection procedures as stipulated in this policy.

17.3 An owner may apply to have his/her property rates be charged monthly. In which the due date for application is set at 30th June of each year.[4]

17.4 If in default it will reversed to yearly and the total annual rates amount become payable.

18. INTEREST ON ARREARS AND OTHER PENALTY CHARGES

18.1 Interest shall be charged for a full month on all arrear amounts at the percentage determined by Council irrespective of when payment is made.

18.2 For purposes of determining arrear amounts, all amounts that are unpaid after due date, excluding interest, penalty charges previously raised including collection charges and Value Added Taxation, shall be taken into account.

18.3 The Chief Financial Officer will be entitled to raise the following charges/fees in addition to the interest charge contemplated in clause 18.1:

- charges for disconnection or restriction of services
- charges for reconnection or reinstatement of services
- charges for notices of default and other correspondence
- penalty charges for illegal reconnections
- Reconnection fee to be paid for both prepaid and conventional meters

[4] Updated 04/08/2008 Special Council meeting

- Charges / Fees on all legal proceedings[6]

18.4 Other than those penalty charges prescribed by legislation, the value of each of these charges will be determined on an annual basis by Council when considering its annual budget and shall be contained in the Witzenberg Municipality Tariff Register.

19. AGREEMENTS AND ARRANGEMENTS FOR PAYMENT OF ARREARACCOUNTS

19.1 The Chief Financial Officer is authorised to enter into agreements with customers in arrears with their accounts and to grant customers extensions of time for settlement of the amounts due to Council. No arrangement for the payment of debt in instalments may be entered into with a tenant without the consent of the property owner.[7]

19.2 Where a customer in arrears is a business or commercial concern, a minimum of 50% of the total overdue amount, as an initial payment, shall be paid, and the balance of the account shall be paid in equal instalments over a maximum period of twelve months. Any future monthly current accounts shall be paid on or before the due dates for the month in question. In respect of business or commercial consumers who are in arrears, interest will be raised in terms of Section 18 of this policy.

In exceptional circumstances, The Accounting Officer and CFO can deviate from the general rule above provided that:

- The current account is paid in full
- A written agreement is entered into that provides for the down payment of the arrears amount in monthly instalments.

19.3 Where a customer in arrears is a domestic consumer the following processes will be follows:

i) When the customer account include outstanding debt, the customer payment incentive policy as approved by Council may apply; and

ii) In the case of all other debt, the current account, as an initial payment, shall be paid, and the balance of the account shall be paid in equal instalments over a maximum period of forty-eight [48] months.

iii) In exceptional circumstances, The Accounting Officer and CFO can deviate from the general rule in (ii) above provided that:

- The current account is paid in full
- A written agreement is entered into that provides for the down payment of the arrears amount in monthly instalments.

iv) A customer can make a maximum of 2 arrangements within a financial year of the Municipality.[8]

[6] Amended by Council on 28 May 2014
[7] Amended by council on 28 May 2014
[8] Updated 28/05/2009

Any future monthly accounts shall be paid on or before the due date. Consumers, who honour their agreements and arrangements to pay, will not be charged interest from the date of the agreement on municipal service arrears, with the exception of property rates in arrears where statutory provisions may apply. Should they default on their credit extension for whatever reason, interest shall be raised from the date of default on the full outstanding debt in terms of Section 18 of this policy."

19.4 A consumer may be required to complete a debit order for the payment of arrears in terms of the agreement.

19.5 Should a customer breach the arrangement in any way, the balance of the arrear account, together with the balance of interest outstanding on the account, shall immediately become due and payable to the municipality.

19.6 A customer who fails to comply with any credit arrangement shall not be permitted to enter into any further arrangement or extension of time for payment and shall have his services terminated, however a customer who brings his credit arrangement up to date by an immediate payment shall have his services reconnected as soon as is practically possible.

19.7 A customer who fails to comply with any arrangement of debt shall have his service agreement terminated, services disconnected/restricted, and/or his deposit adjusted with an amount of R500 to cover a part of the arrear debt.

19.8 Only debtors with positive proof of identity or an authorised agent with a Power of Attorney shall be permitted to enter into an Acknowledgment of Debt agreement with the Council. If the arear account is in the name of a tenant, the owner of the property, have to give written consent to the Municipality to enter in to Acknowledgement of Debt agreement with his /her tenant.

19.9 Where a debtor is a close corporation, trust, or a company, the person who signs an acknowledgment of debt on behalf of such close corporation, trust or company, shall produce written proof that he is authorised to sign such acknowledgment on behalf of all members and/or directors of the close corporation, trust, or the company.

19.10 An Acknowledgment of Debt agreement shall contain all arrangements for paying off arrear accounts, which may include interest. One copy of the agreement shall be handed to the customer and another filed with the Chief Financial Officer.

19.11 In instances where a customer is employed, the municipality may obtain a voluntary garnishee order or emoluments attachment order.

19.12 Where any debt has arisen as a result of the Council having applied an incorrect charge and/or tariff, the consumer may arrange to pay the debt over a maximum period equivalent to the period over which the incorrect charge was applied or over twelve months, whichever is the shorter.

19.13 The Director Finance and Deputy Director Finance may deviate from the policy in special circumstances.[9]

20. ALLOCATION OF PAYMENTS AND PART-PAYMENTS

20.1 Receipt of the total outstanding monies will be allocated to the credit of the account in full.

20.2 A customer shall not be entitled to allocate any payment made to any portion of the total debt due to the Council.

21 DISHONOURED QUES/DEBIT ORDERS

21.1 Refusal by banks to honour payments by debit order is regarded as non- payment, upon which the relevant debtor is subject to credit control measures.

21.2 The Council shall, at the earliest opportunity, be entitled to disconnect or restrict, as the case may be, the electricity and/or water supply of a customer who has offered a cheque or debit order as payment for municipal services if such cheque or debit order is returned or dishonoured by the financial institution on which it is drawn as a result of a lack of funds or for any other reason.

21.3 A customer tendering a debit order referred to in Clause 21 .2 shall be liable for all administration charges and bank fees as determined by Council as a result of such transaction.

21 .4 Should a dishonoured debit order be received, the customer may be contacted telephonically with the request that a cash deposit equal in amount to that of the dishonoured cheque be made into the municipality' s account within 24 hours.

21.5 Should any attempt to contact the customer fail, then the municipality shall immediately discontinue the supply of services to the premises.

21.6 In the event of the customer not having sufficient funds to settle the outstanding debt, the Municipality may open a case of fraud with the South African Police Service.

[9] Recommended for amendment.

21.7 Dishonoured cheques are to be kept on file and will only be given to account holders on request if the account is paid up to date after the reversal of the dishonoured payment.

21.8 A customer who has offered three dishonoured debit order payments in any 12 month period will not be allowed to make further payments by cheque for a period of at least one year, although a bank guaranteed cheque may be accepted by the Chief Financial Officer.

22. QUERIES IN RESPECT OF ACCOUNTS

22.1 The enquiries counter at the municipality's service centres can be contacted for all account queries.

22.2 An enquiry clerk stationed at the municipality's service centres shall be available to assist consumers with account balance queries as well as the opening and closing of accounts.

22.3 Any resident or consumer who may feel aggrieved concerning his/her account may address a written grievance / appeal to the Chief Financial Officer.

22.4 The municipality endeavours to investigate any query and give feedback within fourteen working days of the receipt of the query.

22.5 Any query in respect of the amount due and payable on the consolidated bill must be lodged, in writing, at the municipality within 10 days of the consolidated bill date in order that it may be investigated. Should the query not be lodged within 10 days, the municipality cannot be bound to the provisions of clause 22.4.

22.6 A customer who has lodged an enquiry is not relieved of the responsibility to maintain regular payment on his account. In the event of an accountholder reasonably querying any item or items on the monthly municipal account, no action shall be taken against the accountholder provided the accountholder has paid, by due date, an amount equal to the monthly average monetary value of the three most recent un-queried accounts in respect of the service under query, as well as all un-queried balances on such account, and, provided further that, such query is made in writing by the accountholder or is recorded in writing by the Chief Financial Officer or his designate on behalf of the accountholder within 10 days of the consolidated bill date.

22.7 If a customer has received a response to a query but is still not convinced that the account is correct, the customer will still be liable for the full outstanding amount and will be subject to credit control action.

23. UNRESOLVED CUSTOMER QUERIES

23.1 Should a query remain unresolved after 14 working days have passed from the date the query was lodged, the customer is to notify the Section Head of the relevant section who will follow up and resolve the query.

23.2 Should the Section Head, as a result of the complexity of the case, be unable to resolve the query, it is to be referred to the Consolidated Billing Manager for resolution.

24. DISCONNECTIONS/RESTRICTIONS OF SERVICE

24.1 The Council shall disconnect/restrict services to consumers whose consolidated accounts remain unpaid after due date.

24.2 The municipality shall, prior to disconnection and/or restriction of services, not be obliged to issue any final demand notices or other reminders to customers whose accounts are unpaid after due date.

24.3 The municipal account shall reflect a warning message that shall be deemed to be proper and sufficient notice to the customer that his services may be disconnected or restricted unless payment is received on or before due date.

24.4 In the event that full payment of the consolidated account, including any accumulated arrears, is not received by close of business on due date, the electricity supply and thereafter the water supply may be disconnected/restricted, unless a formal arrangement for an extension of payment, in terms of Section 19, has been approved by the Chief Financial Officer or his authorised representative.

24.5 Even though a customer may have concluded satisfactory credit arrangements in terms of Section 19, the Council is not obliged to effect a reconnection of services on the day that payment is received or the agreement has been signed, but will, unless unable to do so because of circumstances beyond the control of the municipality, endeavour to do so within three (3) working days in terms of Section 26 read in conjunction with Section 25.

24.6 Where a customer's services are disconnected, or where access to disconnect services has not been obtained, the customer shall be charged a visitation fee, as determined by the Council, which shall be paid prior to the services being reconnected.

24.7 Where a customer's account and/or service agreement has been terminated or is in arrears and no credit arrangement has been entered into,

the Council may, at the customer' s cost, proceed to collect such amount as is outstanding and due in terms of the procedures for debt collection contained in Section 27 of this policy.

24.8 Where a customer or owner' s account is in arrears and no credit arrangement for the settlement of any outstanding debt has been entered into, and, whether the services to the property have been disconnected / restricted or no the Council may, regardless of whether the service agreement is terminated or not, implement the procedures for debt collection as set out in Section 27 of this policy, if such action is deemed by the Chief Financial Officer to be in the best interests of the Council.

24.9 Should the Chief Financial Officer be of the opinion that the termination of services, in respect of which the account is in arrear, could result in the endangerment of the life of any person, the Chief Financial Officer may appropriately restrict rather than terminate the services in question.

If a household is classified as an indigent household in terms of section 6.1 of the Assistance to the poor policy, as amended, then the following will be applicable with regard to disconnection/restriction of services:

(i) Prepaid electricity may be blocked for purchases if the other services are in arrears; and[10]

24. 10 Changing meters of defaulters[11]

i) The water meters of defaulters can be replaced with water management meters, and the consumption can be limited to a minimum of 200 litres per day (6 kilolitres per month);

(ii) The electricity meters of defaulters can be replaced with split prepaid meters;

(iii) The cost of the replacement meters will be borne by the consumer who can pay the cost in three monthly instalments. If the consumer defaults on the payment for the meters, the electricity supply will be blocked and/or the water consumption will be limited to 200 litres per day (6 kilolitres per month).

(iv) The cost of the replacement meters will be borne by the municipality for approved indigent customers.

[10]Updated 31/05/2012 Council meeting
[11]Updated Council 28/09/2011

(v) The cost of the replacement meters will be borne by the municipality if the consumer defaulted by at least three occasions within a financial year. (The cost borne by the municipality will be limited to the meter and installation cost of the meter.)[12]

25. RECONNECTION/REINSTATEMENT OF TERMINATED/RESTRICTED SERVICES

25.1 Services which have been terminated or restricted shall be reconnected or reinstated by the municipality only when all the following conditions have been met:

- the 30 days arrear account plus the reconnection fee has been paid in full, including the interest raised on such account; and an acceptable arrangement has been entered on the arrears older than 30 days with the municipality, including the interest raised on such account; or a query, as contemplated in Section 22, has been resolved and arrangements for payment as approved by the Chief Financial Officer have been concluded; a revised/existing service agreement has been entered into/reinstated with the municipality, as contemplated in Section 11 of this policy; and
- a suitable cash deposit, as determined by the Chief Financial Officer in terms of Section 12, has been paid to the municipality.

[12] Paragraph 24.10 (iv) & (v) added by council 30/05/2022

26. PROCEDURE FOR DEBT COLLECTION AND WRITE OFF

Where consumer accounts are in arrears, the Chief Financial Officer is authorised to institute the following procedures with the intention of proceeding until the debt is collected or written off:

26.1 Immediately after due date, disconnect and/or restrict all water and/or electricity services for all overdue amounts relating to rates, service charges or any charges for services rendered by the municipality in terms of the procedures laid down in Section 24 of this policy;

26.2 Thirty days after the due date:

- Tracing action may be authorized and instituted if the whereabouts of the debtor is unknown.

26.3 Sixty days (or any earlier period if the Chief Financial Officer deems that it is in the best interest of the Council) after the due date, and where an account rendered to a customer remains outstanding, the following action may be taken:

- All arrear amounts shall be handed over to the Council's internal or external debt collection agents.

The collection agents will then make use of normal debt collection procedures including a call centre approach and legal processes to collect the amounts owed to Council

- If necessary, the sale in execution of such property to recover arrear property rates and service charges will be instituted irrespective if the accountholder is also the owner of the property).

- All legal expenses incurred by the municipality shall be for the account of the accountholder in default[13].

26.4 The Chief Financial Officer may insist that a consumer, who is utilising a credit meter, convert from that credit metered supply to a prepayment supply. The cost of such a conversion is to be borne by the consumer.

26.5 The Chief Financial Officer may allocate up to thirty (30) percent of any payment for prepayment services to arrear debt.

26.6 The Chief Financial Officer may order that emolument attachment or garnishee orders be instituted on debtors' salaries.

[13]Updated 20/04/2011

26.7 The Chief Financial Officer may/must withhold rates clearance certificates in terms of Section 118 of the Municipal Systems Act, 2000 (Act No. 32 of 2000) and Section 30 of this policy.

26.8 The Chief Financial Officer may/must withhold payments of grants-in-aid to consumers whose accounts are in arrears.

26.9 The Chief Financial Officer may/must withhold payment to suppliers whose accounts are in arrears in terms of the Supply Chain Management policy.

26.10 The Chief Financial Officer may withhold/reject the approval of building plans relating to improvements on properties if there are arrears on that property.

26.11 Whenever all the legal avenues and procedures listed above have been exhausted, or it becomes uneconomical to proceed further, the arrear amounts should be classified as irrecoverable and should be written off.

26.12 The Chief Financial Officer, may forward a report to Council for the writing off of consumer, if such debts may be irrecoverable.

26.13 The Executive Committee, in terms of its delegated authority, may authorize the writing off of the debts wherein after a report will be forwarded to full Council for ratification.

26.14 The Chief Financial Officer shall as soon as possible after 30 June each year, or more regularly if requested by Council to do so, present to the Council a report indicating the amount of the arrears that have been written off during the financial year, together with the reasons for the write off.

26.15 The Chief Financial Officer may write off debts to the value of R1000.00 per individual if he is satisfied that:

- All reasonable steps have been taken to recover the debt and the debt is considered to be irrecoverable, or
- He/she is convinced that recovery of the debt would be uneconomical.

26.16 The Chief Financial Officer may approve the write off of debt outstanding for more than three years, excluding property rates, on condition that all the other debt is paid immediately in full.[14]

26.17 Any debtors whose amounts are written off may be listed with the Credit Bureau and may not be permitted to enter into future service contracts with the Council.

[14] Amended by Council on 28 May 2014

26.18 Industrial consumers can qualify for an early payment rebate of one percent if their account is paid in full within 15 days after the month during which the services were consumed.[15]

26.19 A collection fee of up to 5% of the amount collected on behalf of the municipality may be paid to employers that deduct municipal accounts from their employees.[16]

26.20 If a household is classified as an indigent household in terms of section 6.1 of the Assistance to the poor policy, as amended, then the Chief Financial Officer must prior to implementation of sections 26.2 and 26.3 determine whether the debt would be uneconomical to recover as set out in section 26.15.[17]

26.21 That rental debt when the municipality is the lessor be referred to the Housing Committee for a decision regarding the arrear debt where the unit is to be assigned to another lessee. Where the Housing Committee's decision is to write-off the debt that this first be approved by the Municipal Council before implementation. [18]

27 ILLEGAL TAMPERING AND/OR THEFT OF SERVICES

The Municipality does not condone theft and fraud of municipal services and will monitor the service networks for signs of tampering or irregularities. Furthermore,

27.1 Water and electricity metering and connection equipment remain the property of the municipality and anyone involved in instances of tampering, damaging or theft thereof will be liable for criminal prosecution.

27.2 With regard to electricity services, if tampering of any nature or theft of such services is identified, the electricity supply to the property may be discontinued by the removal of the meter and the cable and the water supply may be restricted. In addition, the customer's service agreement with the Council may be cancelled and the customer's deposit may be offset against any amounts owed to the Council.

27.3 If the restricted water supply is tampered with or any variable flow-restricting device removed, the water supply may be discontinued, the service connection removed and the customer' s service agreement with the Council may be cancelled. The customer's deposit may be offset against any amounts owed to the Council.

27.4 Once Council becomes aware that any terminated or restricted service has been irregularly reconnected or reinstated, the necessary action to remedy the situation will be implemented which could include the Municipal Manager reporting such action to the South African Police Service.

[15] Amended by Council on 28 May 2014
[16] Amended by Council on 28 May 2014
[17] Updated 04/08/2008 Special Council meeting
[18] Amended by Council on 30 May 2019

27.5 All outstanding amounts including, all metered consumption since the date of the illegal reconnection, or the estimated consumption, if a reliable meter reading is not possible, shall be paid in full together with the required deposit, before any reconnection/reinstatement, and new services agreement are considered.

27.6 If found that any person (natural or juristic) are illegally connected or reconnected to municipal services, or that he/she fiddled with any meter, reticulation network or any other supply equipment, or delivered any unlawful service associated with the provision of municipal services, or stole or damaged any municipal property, he/she shall be prosecuted and/or held liable for fines, as determined by the magistrate.[19]

However, the receipt of payment will not necessarily impact on nor prejudice any legal or criminal proceedings against the customer.

28 UNOCCUPIED PREMISES

28.1 When a consumer terminates a consumption account and no new owner registers, the property is deemed to be unoccupied.

28.2 Whenever water and/or electricity consumption is recorded at a property that is deemed to be unoccupied effort will be made to establish the identity of the person responsible for that consumption, failing which an appropriate bill will be raised and forwarded to the owner of the property for payment. Should payment not be received then the registered owner of the property is liable for the services consumed.

29. CLEARANCE CERTIFICATES

29.1 Before any property can be transferred from one owner to another, all amounts owing to the municipality on the property must be settled. Only after settlement, will the Municipality issue a certificate stating that all outstanding debts have been settled. No property transfer can take place without such a certificate.

29.2 The Municipality requires a payment in advance equal to two[20] months average consumption of all relevant services prior to the issuing of such a clearance certificate in order to allow for any consumption that may take place during the time taken for the transfer to go through.

[19] Amended by Council on 30 May 2019
[20] Updated 04/08/2008 Special Council meeting

29.3 The Municipality shall, wherever possible, issue a clearance certificate within ten working days of such request once all outstanding debts and administration fees have been paid in full.

29.4 The above provisions do not apply in the case of transfers from National Government, Provincial Government or another municipality of residential property where the provisions of Section 118 of the Municipal Systems Act are applicable.

30. MUNICIPAL STAFF

30.1 Any member of staff of the Council and any Councillor may not be in arrears with the Council for rates and/or service charges for a period longer than three months, and the Council will deduct any outstanding amounts from the salary or allowance of such member of staff or Councillor after this period, in accordance with item 10 of Schedule 2 of the Municipal Systems Act, 2000 (Act No. 32 of 2000).

30.2 Staff arrangements made to pay off debt will be adjusted yearly equal to the percentage salary increase.

30.3 Salary deductions will be made from yearly bonuses & performance bonuses to be set off against any arrears or outstanding amount.

30.4 Any back pay, promotions, overtime & standby are first use to reduce arrears of staff.

30.5 Staff members that made arrangements to pay off debt must complete a salary deduction form and this deduction may not be stopped until debt has been paid in full.

30.6 If a staff member is sixty (60) days in arrears and has made no arrangement to pay off the outstanding amount, deduct full amount from salary.

31. REPORTING AND PERFORMANCE MANAGEMENT

31.1 The Chief Financial Officer shall report monthly to the Municipal Manager in a suitable format to enable the Municipal Manager to report to the Executive Committee as supervisory authority in terms of Section 99 of the Municipal Systems Act, 2000 (Act No.32 of 2000), read with section 100(c).

31.2 If, in the opinion of the Chief Financial Officer, Council will not achieve cash receipt income equivalent to the income projected in the annual budget as approved by Council, the Chief Financial Officer will report this with

motivation to the Municipal Manager who will immediately move for a revision of the budget according to realistically realisable income levels.

31.3 The Executive Committee shall, at intervals of 3 months, report to Council as contemplated in Section 99(c) of the Municipal Systems Act.

32. DEFINITION OF IRRECOVERABLE DEBT

Debt will only be considered as irrecoverable if it complies with the following criteria:

(a) All reasonable notifications and cost effective legal avenues have been exhausted to recover specific outstanding amount, or

(b) Any amount equal to or less than R500.00, or as determined by Council from time to time, will be considered too small, after having followed basic checks, to warrant further endeavours to collect it, or

(c) The cost to recover debt does not warrant further action, or

(d) The debtor is untraceable or cannot be identified so as to proceed with further action, or

(i) the debtor has immigrated leaving no assets of value to cost effectively recover Council's claim, or

(e) It is not possible to prove debt outstanding, or

(i) a court has ruled that the claim is not recoverable, or

(ii) the outstanding amount is due to an irrecoverable administrative error by the Municipality, or

(f) All arrears will be written off to bad debts where water consumers have had their water leaks repaired, provide the necessary proof and for a period of six months from the date of repair –

(i) Pay their water & sewer bill above the free portion on or before the due date, and

(ii) Maintain their water consumption within affordable levels.

33. COMMUNICATION OF POLICY TO CONSUMERS

33.1 The municipality will, at its own cost, publish the Credit Control and Debt Collection Policy in the local media. The Chief Financial Officer operating under delegated authority will publish the policy on whatever basis is to the Council's best advantage. A copy of the policy will be posted on the municipality's website and hardcopies will be made available on request at the service centres. Any amendments may be communicated on the website and in a newsletter from time to time.

33.2 Councillors must, from time to time, address ward committees on the contents of the policy and any amendments thereto.

34. BY-LAWS TO BE ADOPTED

34.1 By-laws shall be adopted to give effect to the Council's credit control and debt collection policy.

34.2 The by-laws are to comply with the requirements of the Municipal Systems Act, 2000 (Act No. 32 of 2000), the Water Services Act, 1997 (Act No. 108 of 1997), the Electricity Act, 1987 (Act No. 41 of 1987) and the Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

34.3 The by-laws deal severely with defaulters, and their application requires a considerable degree of commitment from the Municipal Manager and his or her administration, as well as from the municipality's political structures. For the by-laws to ensure the avoidance of financial misfortunes for the municipality, and to lead to sustained financial stability, their application will have to receive the constant attention of all the municipality' s key role-players and decision makers. If the by-laws are not constantly and consistently applied, from month to month and from year-to-year, the municipality' s political and administrative credibility will be severely impaired, and it may not be able to ensure financial sustainability in the long run.

34.4 Although the by-laws envisage even the termination of basic services for defaulting accountholders this will not in itself, no matter how harsh it may seem to those councillors and officials who are disposed to greater leniency, prevent the accumulation of arrears. The monthly billing for property rates, sewerage charges and refuse removal fees will continue in respect of defaulting accountholders, even though their consumption of electricity and water may have been terminated or restricted. The termination or restriction of services must therefore be seen merely as a vital first step in the credit control programme, and the commitment by the municipality to

follow up such actions with the full force of the law at the municipality' s disposal is an essential further step if the accumulation of debts is to be meaningfully curtailed.

35 DECEASED ESTATES

Deceased Estates need to be registered at the Master of the High Court if, the Value of the property exceeds the amount of R250 000 if less it may be registered at the Local Court, Legal Aid

- S.A.(LASA) can be contacted to assist in this regardThe accounts of deceased estates may be transferred into the names of relatives as determined by the executor of the deceased estate, to allow for the continuation of service delivery to the relevant property on the following conditions: review
- The historical debt remains a claim against the deceased estate; review
- The executor of the deceased estate together with the new account holder must enter into an agreement with Witzenberg municipality for the payment of the historical debt;
- The normal service deposit is payable by the new account holder
- If the property is let out, the service deposit is payable without any exceptions;
- A clearance certificate in terms of section 118 of the municipal systems act may be issued by Witzenberg municipality on condition that the executor of the deceased estate provides the municipality with a guarantee that the outstanding debt will be paid on transfer; review

In the instance of a child-headed household the account must remain in the name of the deceased estate, but the estate will qualify for indigent support, if the other criteria for an indigent household are met.

36. ENFORCEMENT OF OTHER LEGISLATION

36.1 In addition to the credit control and debt collection provisions contained in this policy and the published by-laws relating hereto, the Council may enforce any other rights or exercise any power conferred upon it by the Municipal Systems Act, 2000 (No. 32 of 2000), the Water Services Act, 1997 (Act No. 108 of 1997), the Property Rates Act, 2004 (Act No. 6 of 2004) and the Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

36.2 In the event of an inconsistency between the provisions of these and any other by-laws, the provisions of these by-laws shall prevail.

37. CUSTOMERS ASSISTANCE

Water Leaks Rebates

A customer will qualify for a water leak rebate if:

- the leak occurred and was not easily discernible from above ground;
- the leak had been repaired after detection;
- the customer had only applied for one rebate in a 24-month cycle;
- a certificate from a registered plumber, or a sworn affidavit from any other person who has repaired the leak, and must reach the Chief Financial Officer within 30 working days of the repair, and contain the following details:
  - the date on which the leak was repaired;
  - confirmation that the leak was not discernible from above ground;
- The adjustment will be calculated based on the difference between the greater of the average consumption (Kl) for the previous year's corresponding periods
- or three months' average usage after the leakage has been fixed and the consumption of period of the leakage for a maximum period of three years. The rebate will be limited to a maximum period of 3 months

38 COMMENCEMENT DATE

This policy as amended takes effect as from the 01 July 2019.

APPENDIX A

PREAMBLE

Whereas section 13 of the Local Government: Municipal Finance Management Act, 2003 (No. 56 of 2003) determines that a municipality must introduce an appropriate, prudent and effective cash management and investment arrangement;

and whereas a bank, in accordance with the provisions of section 13 of the Act, has to disclose details regarding a municipalities' investments;

and whereas councillors and officials, as trustees of public funds have an obligation to ensure that cash resources are managed as effectively, efficiently and economically as possible;

now therefore the Witzenberg Municipality adopt the cash and investment management policy set out in this document.

1. DEFINITIONS

"Act" means the local government Municipal Finance Management Act, 2003 (Act no. 56 of 2003)

"Council" means the Municipal Council of Witzenberg Municipality

"Gazette" means the Government Gazette

"Investee" means an institution or counterparty with which an investment is placed, or its agent.

"Investment" means an amount of funds deposited in deposit taking institutions registered in terms of the Bank's Act, 1990 (Act 94 of 1990) on which interest is earned or received.

"Internal investment manager" means the official appointed or acting as the Manager: Financial administration of Witzenberg Municipality.

2. LEGAL FRAMEWORK

a) Legislation – local government: Municipal Finance Management Act 56 of 2003 (As amended)

b) Treasury regulations in terms of Section 13(1) of the Act (As amended).

3. OBJECTIVES

a) To maximize returns from authorized investments, consistent with the secondary objective of minimizing risk
b) To ensure compliance with all legislation governing the investment of funds.
c) To maintain adequate liquidity to meet cash flow needs
d) To undertake the investment of funds not immediately required for operational purposes in a prudent financial manner.
e) To ensure diversification of permitted investment.
f) To ensure complaints with regard to revenue management as contemplated in Sect 64(d), 64(f) and 64(h) of the Act
g) The ensure complaints with regard to Sect 10 and 11 of the Act

4. CASH MANAGEMENT POLICY

4.1. General Policy

It is recognised that from time to time, Council has cash flow surpluses and borrowing requirements due to daily receipts and payments. Council maintains a daily cash position summary and a yearly cash flow projection is prepared during the annual planning process and is updated monthly. This determines Council's borrowing requirements and surpluses for investment. Cash invested "outside" the bank account is covered by section 4 of this policy.

4.2. Bank Accounts

Council operates one primary bank account for its day to day operational activity requirements. All monies due to Council and due by Council emanating from Council activities must pass through this primary account.

4.2.1 Cheque Management

Cheques are printed in batch format. To prevent the removing of cheques, cheques are delivered in sealed boxes where strict control is exercised over the numerical sequence of cheques on the expenditure system by means of a cheque register.

4.2.2 Delegation/Rights

The incumbents of the following post are authorized to sign cheques on behalf of Council

4.2.3 **Cheques**

A-Signatories:	Director: Financial Services/Chief Financial Officer Deputy Director: Finance
	Manager: Financial Administration
	Manager Income
	Manager: Supply Chain
B-Signatories:	Accountant Assets & Budgets Accountant Credit Control Accountant Debtors Accountant Expenditure

Each payment needs to be signed by at least two A-signatories, or one A-signatory and one B signatory.

4.2.4 **Electronic Funds Transfer (EFT)**

Authorisation same as cheques above

4.3 Bank Overdraft

4.3.1 Barring the fact that Council has an approved overdraft facility with its primary banker for possible unanticipated short-term cash flow shortfall, its general policy is to avoid going into overdraft.

Short-term debt is incurred based on expected income and must be repaid within the same financial year. (Section 45 of the MFMA)

4.3.2 Council set the credit limit for the bank overdraft facility at R6, 000, 000 (six million rand).

4.3.3 The terms of the agreement for the bank overdraft facility, including the credit limit, may be changed only by a resolution of council.

4.3.4 Any overdrawn bank account at any date must be reported without avail to Council supported by reasons therefore.

4.3.5 Any short term facility that requires review must first be approved by the Accounting Officer.

4.4 Cash collection

4.4.1 Controlled, secured and prompt cash collection

a) All cashier banking batches and or shifts must be closed at least on a daily basis;

b) Each cashier banking batch must be closed and deposit in the primary bank account separately;

c) All forms, categories or types of money receipted must be quoted in the form or type received, for example cheques as cheques and cash as cash;

d) A cashier must count the money he/she receipted, record the outcome on the cash-up sheet per category, then report to the senior responsible for the closing of the banking batches;

e) No cashier may have access to the closing bank batch facility of the financial system;

f) The senior verifies whether the amounts are correct and send the cashier back if necessary, otherwise closed the banking batch;

g) The cashier in the presence of the senior put the money in the cash bags; seal it and lock it away in his/her fault for collection;

h) All closed banking batches must be deposited and received by the bank within 72 hours;

I) An independent service provider will collect all bags; quote the seal serial number and issue a receipt for the money bags;

j) The service provider must ensure that the bank check the seals, verify the seal number and sign for the money bag; and

k) All shortages must be paid in by the cashier and all surpluses must be receipted in an item number open for this purpose.

4.4.2 Availability of receipting points

a) Cash receipting points will be available in Wolseley, Tulbagh, Ceres, Prince Alfred Hamlet and Op-Die-Berg at municipal offices;

b) The normal office hours are Monday to Thursday 08h30 till 15h30 and Friday 08h30 till 14h30;

c) The Municipality makes use of prepaid electricity sales points in all the suburbs where the Municipality is the approved electricity supplier, these points is open at least from 07h00 till 20h00; and

d) The Municipality also make use of third party payments for example Easy pay and Pay – a- Bill.

4.4.3 Electronic payments directly into bank account

Electronic payments directly into the bank account are allowed provided that the client use his/her debtors account number as reference or booking number or traffic fine number.

4.4.4 Receipt of money by post

a) All mail of the Municipality is opened by an official responsible for Archives in the presence of a cashier responsible for collecting the mail received payments;

b) All monies (cash, cheques and postal orders) are recorded in a register signed by the mail received payments;

c) This cashier will then capture the received payments on the financial system; records the receipting number with the date of the receipt and sign the register;

d) When a cheque is post-dated, it is written in a post-dated cheque register and then kept in a safe until the valid date and then it is captured; and

e) The senior responsible for the cashiers must verify at least once a week that all payment received via mail is receipted and that all post-dated payments has been captured.

4.4.5 Unallocated Deposits to be recognized as revenue

Unallocated Deposits refers to those monies paid into the municipality's bank account without any traceable reference.

After all internal procedures has been exhausted, all unallocated deposits older than 12 months, will be recognized as Sundry Revenue in the books of the municipality. A listing of all moneys recognized as revenue must be kept for future reference and audit purposes.

5. INVESTMENT POLICY

5.1 General Policy

Generally, Council will invest surplus funds with deposit taking institutions registered in terms of the Bank's Act, 1990 (Act 94 of 1990) for terms not exceeding one year in anticipation of cash flow expectations. From time to time, with prior Executive Mayoral Committee approval, investments can exceed 1 [one] year and be made at other institutions/instruments as approved in the National Treasury regulations from time to time.

5.2 Application

5.2.1 This policy applies to all investments made by the Witzenberg Municipality or its duly appointed investment manager.

5.2.2 In addition, all investments must be in accordance with the Municipal Investment Regulations. Where there is a conflict between this policy and the Municipal Investment Regulation, the Municipal Investment Regulations will supersede this policy.

5.2.3 This policy does not apply to -

(a) a pension or provident fund registered in terms of the Pension Funds Act 24 of 1956, or any subsequent legislation; or

(b) in respect of trust money administered by a municipality where a trust deed prescribes how the trust money is to be invested.

5.2.4 **Investments dominated in foreign currencies prohibited**
Council may make an investment only if the investment is dominated in Rand and is not indexed to, or affected by, fluctuations in value of the Rand against foreign currency.

5.3 Diversification

5.3.1 Council will only make investments with approved institutions which have an A rating as per Appendix A.
5.3.2 Not more than 30% of available funds will be placed with a single institution.
5.3.3 Council must regularly monitor its investment portfolio and when appropriate liquidate an investment that no longer has the minimum acceptable credit rating as specified in 4.4.1 above.

5.4 Investment Managers

5.4.1 **External Investment Managers**
The municipality may as and when the need arise approach an external A-graded investment manager to administer the investment portfolio on its behalf. The external investment manager will be appointed in terms of SCM policy and service level agreement will govern the functions and responsibility of the service provider. All investments made by the external investment manager on behalf of the Council of Witzenberg must be made within the ambit of this policy and with National Treasury's investment Regulations.

5.4.2 **Internal Investment Manager.**
All investments made by the internal investment manager shall be in accordance with section 4.4 of this policy.

5.5 INTERNAL CONTROLS OVER INVESTMENTS

5.5.1 **Delegations**

In terms of section 79 of the Act, the Accounting Officer has delegated to the Director: Finance (CFO), in writing, his duty under section 65(2)(h) to manage the councils available working capital effectively and economically in terms of the prescribed cash management and investment framework. The CFO has sub delegated this duty to the Manager Financial Administration.

5.5.2 **Concluding deals**

Written mandates, signed by the Manager Financial Administration and the CFO, shall be issued to all investees with whom the Council of Witzenberg invests funds setting out the following:

5.5.2.1 Authorised dealers: name and particulars of the Councils officials who are authorised to transact investments deals with the investees;

5.5.2.2 Authorised signatories: name and particulars of the Councils officials who are authorised to sign written confirmations or any other correspondence in respect of investments transactions.

5.5.2.3 A dealing sheet, signed by an authorised dealer, shall be prepared in all instances for each individual investment, detailing the quotations received and the recommended investee. The Manager Financial Administration, together with any one of the authorised signatories referred

to above, shall be authorised to approve the transaction.
A written confirmation of the terms of each investment transaction shall be prepared, and signed off by the Manager Financial Administration and the CFO.

5.6 Ownership

5.6.1 All investments must be made in the name of the Council of Witzenberg Municipality.

5.6.2 Written proof of investments made must obtained from the institution where the investment is made and must be kept on file.

5.6.3 Council may not borrow money for the purposes of investment.

6. DUE CARE

In dealing with financial institutions, the following ethical principles must be observed:

6.1 The Chief Financial Officer and all staff in his/her directorate shall not accede to any influence by or interference from Councillors, investment agents, institutions or any other outsiders.
6.2 Under no circumstances may inducements to invest be accepted;
6.3 Interest rates quoted by one institution must not be disclosed to another institution; and
6.4 The business ethics of any controlling body of which the relevant financial institution is a member must be observed by such institution or body at all times.
6.5 Investments must be made with such judgement and care, under prevailing circumstances like a person of prudence, discretion and intelligence would exercise.
6.6 Investment may not be made for speculation but must be a genuine investment; and
6.7 Investments must in the first instance be made with the primary regards being to the probable safety of the investment, in the second instance to the liquidity needs of the municipality and lastly to the probable income derived from the investment.

7. PERFORMANCE MEASUREMENT

Measuring the effectiveness of Council's treasury activities is achieved through a mixture of subjective measures. The predominant subjective measure is the overall quality of treasury management information. The Chief Financial Officer has primary responsibility for determining this overall quality. Objective measures include: -

7.1 Adherence to policy.

7.2 Timely receipt of interest income.

8. REPORTING

8.1 Reports

REPORT NAME	FREQUENCY	PREPARED BY	RECIPIENT
Bank Balance	Report Daily	Senior Clerk Bank Reconciliations	Manager: Financial administration
Investments	Monthly within 10 working days of the end of the month. As part of section 71 of MFMA report	Accountant	Manager: Financial administration, Chief Finance Officer and Council

8.2 Monthly reports

Monthly reports must set out at least –

(a) the market value of each investment as at the beginning of the reporting period;
(b) any changes to the investment portfolio during the reporting period;
(c) the, market value of each investment as at the end of the reporting period; and
(d) fully accrued interest and yield for the reporting period

9. ANNUAL REVIEW OF POLICY

This policy on investments will be reviewed annually or earlier if so required by legislation. Any changes to the investment policy must be adopted by council and be consistent with the Act and any National Treasury regulations.

10. EFFECTIVE DATE

The effective date of this amended policy shall be 1 July 2010.

Standard Bank of South Africa Ltd		AA+

1. Long-term ratings

AAA- Obligations which have the highest rating assigned by Fitch IBCA on its nation rating scale for that country. This rating is automatically assigned to all obligations issued or guaranteed by the sovereign state. Capacity for timely repayment of principal and interest is extremely strong, relative to other obligors in the same country.

AA- Obligations for which capacity for timely repayment of principal and interest is very strong relative to other obligors in the same country. The risk attached to these obligations differs only slightly from the country's highest rated debt.

A- Obligations for which capacity for timely repayment of principal and interest is strong relative to other obligors in the same country. However, adverse changes in business economic or financial conditions are more likely to affect the capacity for timely repayment than for obligations in higher rated categories.

1. BACKGROUND

The Credit Control and Debt Collection Bylaws were reviewed and adopted by Council on the 28 May 2008. The purpose of the policy is to encourage the residents of Witzenberg to pay for services and also to promote the culture of payment amongst its citizens. The policy also aims to promote the Municipal Systems Act 32 of 2000, Sec 97(F) which relates to the extension of time for payment of services. The main focus of the policy is to institute incentive schemes to encourage prompt payment of debtor accounts.

2. OBJECTIVE OF THE SCHEME

To outline the parameters, criteria and procedures within which identified debts of participants to the scheme is written-off in exchange for prompt and timeous payment of future accounts rendered by the Municipality.

3. INCENTIVE DEFINED

3.1 Benefits derived by a participant to scheme

- One tenth of verified debt to be written-off every six months until debt is written-off in totality upon the participant fully complying with the conditions of the scheme.
- Assist consumers in improving the status of their municipal account in two ways, namely the decreasing of their existing debt through write-off and assisting them in ensuring that their current accounts do not deteriorate to a similar state.
- Registered Indigents must ensure that their monthly accounts are up-to-date if consumption has been more than the subsidy provided.
- The Incentive Policy is applicable only on debt relating to Service Charges excluding charges on Property Rates.

3.2 Benefit to Council

- Promotes sustainable and reliable revenue for the Council for future years.
- Creates amongst consumers the awareness and principle of paying for services consumed.
- Limits the financial burden of bad debt on the municipal council in future years.

4. CONDITIONS APPLICABLE TO THE SCHEME

4.1 Participant to promptly and timorously pay six (6) consecutive months' account rendered. The account must be paid before or on due date.

4.2 Participant to honour the acknowledgement of debt agreement entered into for the debt not identified for write-off, failing which it invalidates the application on the Incentive Policy.

5. WHO MAY APPLY

5.1 Only domestic consumers and educational schools and Hostels service accounts (Rates excluded) that have active accounts at date of application.

5.2 Only consumers that have outstanding debts as at the 30th June 2021 and the said debt or portion thereof is at date of application still outstanding.[1]

6. WHO MAY NOT APPLY

6.1 Registered indigent consumers.

6.2 Commercial and Industrial consumers.

6.3 Government Departments, which includes schools and Parastatals.

6.4 Consumers utilising domestic premises to operate businesses.

7. METHOD OF COMMUNICATION ON THE SCHEME

7.1 The incentive scheme will be advertised in different mediums - newspapers, road shows and through the monthly statements.

7.2 A consumer must then complete an application form.

7.3 A reconciliation of the account will then be performed to verify whether the applicant qualifies.

8. THE PROCEDURE APPLICABLE

8.1 Verified debt as at 30th June 2021[2] to be "parked" and written-off in instalments as the conditions are met.

8.2 Verified debt accrued after 1st July 2021[3] to be dealt with via an acknowledgement of debt and arrangement for payment by the participant.

8.3 Incentive to be applied with effect from the 1st July 2010 retrospectively and upon approval.

[1] Adjusted annually
[2] Adjusted annually
[3] Adjusted annually

9. INCENTIVE CALCULATION

One tenth of applicable debt to be written-off upon the participant promptly and timorously paying six (6) consecutive months account rendered in addition to the acknowledgement of debt accrued after 1st July 2021.[4]

Example

(a)	Verified outstanding debt as at the 30th June 2021 amounts to	R5 000-00
(b)	Incentive portion written off each quarter 1/10th of debt as per (a)	R 500-00
(c)	Verified outstanding debt for the period accrued after 1st July 2021	R2 400-00
(d)	Monthly accounts rendered to be paid timeously.	
(e)	Acknowledgement of debt agreement (2400/36)	R66-67 per month

Incentive calculation

- The R5 000-00 is "parked thereby targeting it for write-off.
- An agreement is entered into for the R2 400 at R66-67 per month (2400/36)
- For every six (6) consecutive months that the participants' current account and the arrangement of (66-67) must be paid up, an amount of R500-00 will be written-off from the "parked debt".

10. PARTICIPANTS TO THE SCHEME THAT DEFAULT

10.1 Participants, who default will not automatically be removed from the scheme, however their participation will be automatically suspended by the financial system that Council is using should they be in default for by two months or more.

10.2 The participants, in order to be reinstated on the Incentive Policy, must pay all outstanding amounts from the last account which was paid.

10.3 The incentive portion will only be affected if the participant has fully complied with the said conditions referred to in Section 4 of this scheme.

10.4 Participants who default on a regular basis will at management's discretion be removed from the scheme and normal credit control actions in terms of the bylaws will be instituted.

PETTY CASH POLICY

Date of implementation: 01 July 2010

Petty Cash Policy

1. INTRODUCTION

The management of expenditure of the municipality in an effective and controlled manner is the responsibility of the Accounting Officer of the municipality. Therefore, the following petty cash policy is adopted by the Witzenberg Municipality.

2. OBJECTIVES

To comply with regulatory framework in terms of the relevant legislation.

3. REGULATORY FRAMEWORK

a) The Municipal Finance Management Act (56 of 2003)
b) The Municipal Supply Chain Management Regulations of 2005
c) The Municipal Supply Chain Management Policy

4. RESPONSIBILITY AND ACCOUNTABILITY

The key responsibilities in terms of the MFMA (Section 65) are:

(1) The accounting officer of a municipality is responsible for the management of the expenditure of the municipality.
(2) The accounting officer must for the purpose of subsection (1) take all reasonable steps to ensure—

(a) that the municipality has and maintains an effective system of expenditure control, including procedures for the approval, authorisation, withdrawal and payment of funds;

(b) that the municipality has and maintains a management, accounting and information system which—
(i) recognises expenditure when it is incurred;
(ii) accounts for creditors of the municipality; and
(iii) accounts for payments made by the municipality;

(c) that the municipality has and maintains a system of internal control in respect of creditors and payments;

(d) that payments by the municipality are made—
(i) directly to the person to whom it is due unless agreed otherwise for reasons as may be prescribed; and
(ii) Electronically or by way of non-transferable cheques, provided that cash payments and payments by way of cash cheques may be made for exceptional reasons only, and only up to a prescribed limit;

The Municipal Manager hereby delegates authority to the Chief Financial Officer.

5. PETTY CASH PURCHASES

Petty cash requests will be made to the designated Petty cash officer in writing. The applicant must ensure that the items requested must be approved Petty Cash items. Petty cash officers will be held accountable for the safe guarding of petty cash.

(a) Petty cash is strictly restricted to cash purchases:

i. up to a transaction value of R2 000.00 (VAT included)

(b) Approved list of Petty cash purchases are as follows:

i. Condolences, well wish cards, bouquets and flowers to the value of R350 (to be approved by Municipal Manager or relevant Director);
ii. Keys for offices; Courier services; Postage
iii. Temporary vehicle licensing and public driver permits
iv. Tollgate fees when an employee is driving with an official vehicle registered in the name of the Municipality
v. Refunds (Library book fees);
vi. Refreshments and catering – only if approved by Municipal Manager
vii. Purchases are not split over two or more cash purchase claims;
viii. Purchase other than that specified in (i) to (v) above, may be approved by the CFO in exceptional cases where it is impractical or impossible to follow the official procurement processes:
    1. No approved store items may be purchased by means of a petty cash transaction;
    2. No fixed asset may be purchased by means of a petty cash transaction;
    3. No travel and subsistence claims or disbursements may be paid via petty cash;

(c) Petty cash Receipts

i. Receipts must be provided immediate when petty cash has been issued to the purchaser and goods has been paid and received;
ii. Failure to provide receipts, the receiver of petty cash automatically gives permission that the petty cash can be recovered from their monthly salary in a once off amount

6. MAXIMUM AMOUNT OF PETTY CASH PER MONTH

Petty cash will only be held in Ceres. The maximum float may not exceed R5 000.00 at any point in time. The maximum amounts of petty cash purchases are limited to R10 000.00 per month.

7. REPORTING

A monthly reconciliation report must be provided within 5 working days after month end to the chief financial officer, including:

(a) The total amount of petty cash purchases for that month: and

(b) Receipts and appropriate documents for each purchase

7. BENEFITS
8. RESTRICTIONS / LIMITATIONS ON INDIGENT RELIEVE
9. ADMINISTRATIVE PROCEDURES
10. TERMINATION OF INDIGENT SUPPORT
11. COMMENCEMENT
12. ANNEXURES

1. INTRODUCTION

Witzenberg acknowledges the fact that priority must be given to the basic needs of the community and that the social and economic development of the community is assisted in an effort to provide access to the basic level of service in terms of the Constitution of South Africa, Sect 152 (1) (b) and 153 (b).

In an effort to make basic services accessible to the poor and to contribute to poverty alleviation program of National Government, the Council will allocate funds to assist the Poor. This policy, the Indigent Policy, is the tool to ensure that eventually the poor is in the safety net and are protected from measures to deny them access to the basic services. It is however acknowledged that the assistance will only be possible with the assistance of National Governments Fiscal support.

2. AIM

To ensure a sound and sustainable manner to provide affordable basic services to the Poor by means of assisting them financially within the legal framework of the powers and functions of the Municipality in order to improve the livelihood, in an effort to creating a prosperous Municipality free of poverty.

3. OBJECT OF THE POLICY

The object of this policy is to:

- Ensure a transparent, accountable and sustainable manner to assist the poor to access of basic services as defined later in the policy;
- Ensure a sustainable manner to assist the poor with the graveyard costs, transfer duties and to change the municipal accounts in the cases of death, legal separation, divorce, etc. when necessary; and to
- Ensure that a fair portion of the equitable share, as provided by National Government, is utilized as a contribution to poverty alleviation.

4. LEGAL FRAMEWORK

The legal framework within to provide basic services, are in terms the Constitution of South Africa:

- Sect 152 (1) (b) – provision of services in sustainable manner,
- Sect 153 (b) – participation in national and provincial programs, and
- Sect 156 – powers and functions to be performed by the municipalities.

Section 74(2)(c) of the Systems Act, Act 32 of 2000 deals with the ability of the municipality to make provision for the provision of access to at least basic services for the poor households. Sect 118 of the same Act provides the powers to the Municipality to issue clearance certificates and to hold back those of owners who are in arrears.

It is also seen that Sect 151(1) (b) of the Constitution, read with Section 74(2) (c) of the systems act provides enough powers to the Municipality to subsidize the poor with regard to other tariffs as well as to ensure that the household can maintain access to basic services when the head of the household should pass away.

5. DEFINITIONS

In this policy the under mentioned means, unless the context indicates otherwise-

"Bond expenditure" – Monthly interest and redemption payments on a bond registered in the name of the name of the head of the family, or his or her spouse on condition that the applicant(s) occupies the house.[1]

"Household" a family unit consisting of a head of the family, and his or her spouse.[2]

"Indigent household" a household that complies with the criteria as determined in section 6 of this policy.

"Income" All sources of income of a head of the family, and his or her spouse[3], for example salaries, allowances, pensions, rental and business income not limiting it to the examples mentioned, excluding state child support grants, care dependency grants, foster care grants or maintenance support.[4]

"Spouse" includes husband, wife or living partner, including traditional marriages.[5]

6. CRITERIA

Assistance is provided to households that meet the criteria as set out in 6.1, to old age homes that meet the criteria as set out in 6.2 and to schemes aimed at providing housing for the less privileged elderly as set out in 6.3.

6.1. The qualification criteria for urban households in order to receive assistance are as follow:

6.1.1. The head of the household must be a South African citizen;

6.1.2. An application on the prescribe form, fully completed with the required information and signed, must be provided;

6.1.3. The household, except in the case of rural households, must receive an account from the Municipality of Witzenberg;

6.1.3.1. If the municipal account is not in the name of the people residing in the house the following procedures may be followed:

6.1.3.1.1. An indigent application process to determine whether the household qualifies for benefits – if they qualify then:

6.1.3.1.1.1. A letter from the owner, or the executer of the estate, if applicable, authorising the municipality to open a service account in the name of the person residing in the house;

6.1.3.1.1.2. If the owner has died and an executer has not been appointed, all the children of the deceased must give permission with an affidavit that the account can be opened in the specific person's name;

6.1.3.1.1.3. In the case of municipal property, the housing committee will determine the lessee.

6.1.3.1.2. In exceptional circumstances the municipal manager can authorise the opening of an account in the name of the person residing on the premises. (When it is not possible to obtain approval from the owner/s or heir/s to open an account in the name of the people residing in the house)

6.1.3.1.3. The municipal manager is delegated to write off the old debt on the property if the property is transferred into the name of the beneficiary within 24 months after the approval of the indigent application.[6]

4 Amended by Council 28/09/2011

5 Amended by Council 30/05/2019

6 Paragraph 6.1.3.1 Amended by Council Sept 2021

6.1.4. No member of the household, except in the case of rural households which resides on the farm where he/she works and is not the owner, may own a fixed property other that the site on which the household resides; and

6.1.5. The household joint gross income may not exceed the level of R 5,000.00[7] per month. The average monthly income for seasonal workers may be calculated by multiplying the monthly income with the number of months the person normally works and dividing the answer by 12. The monthly income for weekly wages may be calculated by multiplying the weekly wage by 4.3.[8]

6.1.5.1. The household income as per paragraph 6.1.5 may be reduced with the monthly bond expenditure.[9]

6.1.6. Two individual government pension (old age or disability) that exceeds the threshold as per 7.1 may qualify for the 100% benefit if it is the only household income.[10]

6.1.7. The municipal manager may approve a household as indigent in exceptional circumstances.[11]

6.1.8. As a pre-requisite the municipality will install water demand management meters free of charge at indigent properties as a prerequisite to be registered as an indigent and all water leaks on the property will be repaired by the municipality at the cost of the municipality.[12]

6.1.9. No applicants who have a mobile shop in their erven (whether they are the owner or operator of the shop or not) is eligible for any Indigent benefit;[13]

6.1.10. No Indigent application will be approved if any illegal trading is conducted on the property;[14]

6.1.11. Where there is a business operated by the main account holder or their spouse/ life partner, an affidavit must be accompanied stating that the income (profit) from the business is not more than the thresholds of the Indigent (100% or 50%) subsidy. Where discretion regarding this matter is needed, the application is to be referred to the Municipal Manager or Director Community for approval.[15]

6.1.12. [16]

6.2. The qualification criteria for old age homes in order to receive assistance are as follow:

6.2.1. More 50% of the residence within the old age home must receive less than R 3,000 per month income; and

6.2.2. An application on the prescribe form, fully completed with the required information and signed, must be provided.

6.3. People residing in approved schemes aimed at providing housing for the less privileged elderly will qualify automatically for the full indigent benefit.:

6.3.1. Maple Park
6.3.2. Moredou
6.3.3. Hamlet Selfsorg oord.

7. BENEFITS

All benefits are awarded in the form of free use consumption tickets or as a subsidy on the municipal account.

The following benefits are available for:

7.1. Households with a joint monthly gross income less bond cost, not exceeding R 3,000.[18]

7.1.1 Property rates

In terms of the Property Rates Act, Act 6 of 2004, section 17(h) all residential sites are exempt from the first R 15,000 of the market value on property. As additional subsidy the Municipality will increase this level to R105 000 by means of a subsidy in the form a credit on the municipal account. This subsidy will be equal to the smallest of R 105 000 market value or the total valuation of property.

7.1.2 Electricity

A subsidy equal to the amount charged for the first 50 kWh consumed per month.

7.1.3 Water

A subsidy equal to the amount charged for the first 6 kilolitres consumption per month as well as 100% subsidy on the basic charge for water, where the Municipality is the service providers.

7.1.4 Sanitation

A subsidy equal to 100% of the amount charged for the service per month where the Municipality is the service provider.

7.1.5 Refuse removal

A subsidy equal to 100% of the amount charged for the service per month where the Municipality is the service provider.

7.1.6 House rental

A subsidy equal to 100% of the amount charged in the case of municipal sub economical rental stock as house rental per month.

7.1.7 Graveyard costs

A subsidy equal to 100% of the amount charged for graveyard cost. The subsidy can be in terms of every deceased member of the household and minor dependents.

7.1.8 Transfer costs

7.1.8.1. A subsidy equal to 100% of the amount charged for transferring the municipal services accounts as a result of death of the head of the household. In the event of separation or divorce, the person who is residing at this plot, qualifies for the subsidy on transfer costs. This household is also exempt from making a consumer deposit or to increase the existing deposit.

17 Amended by Council Sept 2021

18 Recommended for adjustment February 2023

7.1.8.2. A subsidy equal to 100%, but limited to R 5000.00[19] of the costs of an attorney to transfer the property into the spouse name, as a result of death of the head of the household whilst approved as an Indigent household and the current, registration is not in both parties' name registered in the deeds office. The appointment of the attorney is entirely the prerogative of the Municipality.

7.2. Households with a joint monthly gross income less bond cost, between R 3,000 and R 5,000.[20]

7.2.1. Property rates

In terms of the Property Rates Act, Act 6 of 2004, section 17(h) all residential sites are exempt from the first R 15,000 of the market value on property. As additional subsidy the Municipality will increase this level to R105 000 by means of a subsidy in the form a credit on the municipal account. This subsidy will be equal to the smallest of R 105 000 market value or the total valuation of property.

7.2.2. Electricity

A subsidy equal to 100% of the amount charged for the first 25 kWh consumed per month, where the Municipality is the service provider.

7.2.3. Water

A subsidy equal to 100% of the amount charged for the first 3 kilolitres consumption per month as well as 50% subsidy on the basic charge for water, where the Municipality is the service provider.

7.2.4. Sanitation

A subsidy equal to 50% of the amount charged for the service per month where the Municipality is the service provider.

7.2.5. Refuse removal

A subsidy equal to 50% of the amount charged for the service per month where the Municipality is the service provider.

7.2.6. House rental

A subsidy equal to 50% of the amount charged in the case of municipal sub economical rental stock as house rental per month

7.2.7. Graveyard costs

A subsidy equal to 50% of the amount charged for graveyard cost. The subsidy can be in terms of every deceased member of the household and minor dependents.

7.2.8. Transfer costs

7.2.8.1. A subsidy equal to 50% of the amount charged for transferring the municipal services accounts as a result of death of the head of the household. In the event of separation or divorce, the person who is residing at this plot, qualifies for the subsidy on transfer costs. This household is also exempt from making a consumer deposit or to increase the existing deposit.

19 Amended by Council Sept 2021

20 Paragraph 7.2 inserted by council 27/05/2020 - Recommended for adjustment February 2023

7.2.8.2. A subsidy equal to 50%, but limited to R 5000.00[21] of the costs of an attorney to transfer the property into the spouse name, as a result of death of the head of the household whilst approved as an Indigent household and the current registration is not in both parties name registered in the deeds office. The appointment of the attorney is entirely the prerogative of the Municipality.

7.3. The rebates in terms of sections 7.2.2', 7.2.3, 7.2.4, 7.2.5 and 7.2.6 is subject to the payment of the municipal account by the applicant. The accounts will be monitored on regular intervals and if it is found that the applicant failed to pay the monthly account, the rebates may be stopped.

7.4. Old age Homes

7.4.1. Electricity

A subsidy equal to 10% of the amount charged for the service per month

7.4.2. Water

A subsidy equal to 81.2% of the amount charged for the service per month

7.4.3. Sanitation

A subsidy equal to 59% of the amount charged for the service per month.

7.4.4. Refuse removal

A subsidy equal to 33% of the amount charged for the service per month.

7.5. The municipal manger is delegated to write off all outstanding debt on indigent accounts as at 30 September 2021 and all outstanding debt of new approvals as a once off benefit.[22]

7.6. If an applicant failed to pay the monthly account, 30% of prepaid electricity purchases may be utilised as payment on the municipal account.[23]

8. RESTRICTIONS / LIMITATIONS ON INDIGENT RELIEVE:[24]

8.1. The water meters of indigents who consumed in excess of 6 kilolitre water per month and do not pay regularly for the excess can be replaced with water management meters, and the consumption can be limited to a minimum of 200 litres per day (6 kilolitres per month);

8.2. The electricity meters of indigents who consumed in excess of 50 kWh units of electricity per month and do not pay regularly for the excess can be replaced with split prepaid meters and the connection can be limited to a minimum of 40 Amps;[25]

8.3. The cost of the replacement meters will be borne by the municipality.

9. ADMINISTRATIVE PROCEDURES

9.1. Organizational Structure

21 Amended by Council Sept 2021

22 Amended by Council Sept 2021

23 Amended by Council Sept 2021

24 Amended council 28/09/2011

25 Amended by Council Sept 2021

The organizational structure dealing with assistance to the poor is split in decision making and execution.

The decision making component will consist of the elected councillors in the Finance Committee, with the execution unit being the advisors of the committee.

Responsibilities of the Committee:

This committee will ensure that recommendations be made with regard to:

- Policy changes;
- Monitoring of the assistance provided; and
- Serve as the dispute handling committee.

The execution portion will be dealt with by the Social and Economic Development unit of Witzenberg Municipality.

Responsibilities of the unit will include at least:

- Assist households with applications;
- Consider applications according to criteria
- Approve applications;
- Ensure implementation of approved applications;
- Keep administrative record of all applications,
- Assist in reconciling information with the financial system; and
- Prepare monitoring reports.

9.2. Application Procedure – First/new applications

9.2.1. The head of the household, if not the municipal account holder supported by the municipal account holder, must apply for the subsidy in person. The onus to apply is placed on the head of household.

9.2.2. The application must be on the prescribe application form. Attached as Annexure 12.1.2.

9.2.3. The application form must at least include the following documents:

9.2.3.1. Copy of the latest municipal accounts, where applicable;
9.2.3.2. Copy of the head of the household identification document and in the case of not the account holder the account holder documentation;
9.2.3.3. Copy of the deceased identification and death certificate documents, where applicable;
9.2.3.4. Proof of income, certified by employer as a true reflection, if applicable;
9.2.3.5. Copy of the pension card, UIF card, or interest certificate, etc., if applicable;
9.2.3.6. An affidavit that certifies that the information provided is the truth and nothing but the truth. (Attached as Annexure 12.1.3)
9.2.3.7. Copy of the last three months' bank statements when required; and
9.2.3.8. Additional information such as tax information or other information may be requested as mandatory for the indigent application process.[26]

9.2.4. The municipality acknowledged the fact that support must be offered in order to ensure access to the subsidy. For this purpose, a unit is in tack to assist the poor. All applications must be lodged at this unit, called the Social & Economic Development unit of Witzenberg Municipality.

9.2.5. The Municipality reserves the right that an official of the unit may visit the household residing place in order to establish or confirm the information provided.

26 Amended by Council September 2021

9.2.6. The Municipality reserves the right to verify information received by means of ITC checks.[27]

9.2.7. The Municipality undertakes to remind the household, ±two months prior to expiry of the approval, of the expiry. The non-receiving of the notice in the form of a house visit, letter or via the municipal account will not place the responsibility on the Municipality to ensure re-application.

9.2.8. Elderly people and or people with medical conditions may apply for house visits for application purposes.[28]

9.2.9. No credit control measures will be implemented for a period of two months from date of application, to allow for the follow up and consideration of the application.[29]

9.3. RENEWAL PROCEDURE[30]

9.3.1. For renewal purposes the application procedure may be replaced by an affidavit stating:

9.3.1.1. There have been no changes in the income of the household;
9.3.1.2. The households' income is still below the monthly thresholds as per the municipal indigent policy;
9.3.1.3. That the person making the affidavit acknowledge that it is a criminal offence to make a false declaration.

9.3.2. Where the applicant(s) are 60 years and older and their application has been approved they only need to provide proof of living for the renewal of their benefits.[31]

9.4. Measurement and duration of applications for approval

9.4.1. Measurement whether the application qualify in terms of the criteria as set in section 6 is based on the information as on the date of the application. The municipality reserves the right to lodge their own investigation in order to ensure compliance with the criteria.

9.4.2. An approved application is valid for a period of twelve months.

9.4.3. If an applicant's financial position changes and it is of a permanent nature the applicant must inform the Municipality of the change. If the change affects the household in such a manner that it no longer meet the criteria as set in section 6 the approval will automatically stop.

9.4.4. The onus rest with the applicant to inform the Municipality of any such changes.

9.4.5. The approval will stop automatically two months after the head of the household passed away. If the household left behind is still financially in the same position the subsidy must be transferred to the new head of the household. The onus to apply is placed on the new head of the household.

9.4.6. Where the applicant is deceased the surviving next of kin (husband/wife/child/grandchild) have to apply as the new head of the household.[32]

9.4.7. The applicant must:[33]

- indicate that the owner is deceased;
- attached an affidavit (declaration) that he or she is the person to whom the house has been allocated to in the estate;

27 Amended by Council 30/05/2019
28 Amended by Council Sept 2021
29 Paragraph 9.2.9 Amended by Council Sept 2021
30 Paragraph 11 Amended by Council Sept 2021
31 Paragraph 9.3.2 Added by Council 30 May 2022
32 Paragraph 9.3.6 included by council 27/05/2020
33 Paragraph 9.3.7 included by council 27/05/2020

- If there is no estate, all surviving next of kind have to give consent to the applicant to occupy the estate property.

10. Disputes

Any dispute based on the administrative process or approval of an application will be dealt with by the Finance Committee. The Committee may call the applicant to put their dispute in words or ask the applicant to put it in writing. The Social and Welfare unit must be afforded to provide the committee with documentary proof of the process followed and or reasons for the decision made. The committee may not include in their decision any deviation of this policy.

11. TERMINATION OF INDIGENT SUPPORT[34]

Indigent Support will be terminated under the following circumstances:

11.1. Death of account-holder;
11.2. Upon sale of the property;
11.3. When circumstances in the indigent household have improved in terms of a gross income exceeding the limit;
11.4. If the applicant is found to have furnished false information regarding indigent status;
11.5. If the household head owns ~~a business or~~[35] a second property or there is a business operated in the property;
11.6. If it is determined during a visit that the household does not meet the requirements any longer.[36]
11.7. If there is any illegal trading on the property.[37]

12. COMMENCEMENT DATE

This amended policy takes effect when approved by Council.

34 Paragraph 10 included by council 27/05/2020

Annexure “A” Vote Classification

Annexure “B” Item Classification

1. Definitions

"**Accounting officer''** The municipal manager of a municipality is the accounting officer of the municipality in terms of section 60 of the MFMA

''**Approved budget''** means an annual budget approved by a municipal council.

"**Budget-related policy''** means a policy of a municipality affecting or affected by the annual budget of the municipality as defined in the Budget Policy of the Council

''**Chief financial officer''** means a person designated in terms of the MFMA who performs such budgeting, and other duties as may in terms of section 79 of the MFMA be delegated by the accounting officer to the chief financial officer.

"**Deputy Chief financial officer''"** Deputy Director: Finance

"**Capital Budget**" This is the estimated amount for capital items in a given fiscal period. Capital items are fixed assets such as facilities and equipment, the cost of which is normally written off over a number of fiscal periods

''**Council**'' means the council of a municipality referred to in section 18 of the Municipal Structures Act.

"**Financial year**" means a 12-month year ending on 30 June.

"**Line Item**" an appropriation that is itemized on a separate line in a budget adopted with the idea of greater control over expenditures [See annexure "B" for current item structure]

"Operating Budget" The Town's financial plan, which outlines proposed expenditures for the coming financial year and estimates the revenues used to finance them.

"Ring Fenced" an exclusive combination of line items grouped for specific purposes for instance salaries and wages.

''Service delivery and budget implementation plan'' means a detailed plan approved by the mayor of a municipality in terms of section 53(1) (c) (ii) for implementing the municipality's delivery of municipal services and its annual budget.

"**Virement**" is the process of transferring an approved budget allocation from one vote to another, with the approval of the Municipal Manager. To enable budget managers to amend budgets in the light of experience or to reflect anticipated changes.

''Vote'' means one of the main segments into which a budget of a municipality is divided for the appropriation of funds for the different departments or functional areas of the municipality; and which specifies the total amount that is appropriated for the purposes of the department or functional area concerned. **[See annexure "A" for current Vote structure]**

"Budget transfer" means the transfer of an approved budget allocation from one operating or capital line item to another within a vote, with the approval of the relevant senior manager.

[1]Updated 31/05/2012 Council meeting

2. Abbreviations

2.1. **CFO** – Chief Financial Officer

2.2. **Deputy CFO:** Deputy Chief Financial Officer

2.3. **IDP** – Integrated Development Plan

2.4. **MFMA** – Municipal Finance Management Act No. 56 of 2003

2.5. **SDBIP** -Service delivery and budget implementation plan

2.6. **CM** – Council Minute/'s

3. Objective

To allow limited flexibility in the use of budgeted funds to enable management to act on occasions such as disasters, unforeseen expenditure or savings, etc. as they arise to accelerate service delivery in a financially responsible manner.

4. Financial Responsibilities

4.1 Strict budgetary control must be maintained throughout the financial year in order that potential overspends and / or income under-recovery within individual vote departments is identified at the earliest possible opportunity. (Section 100 MFMA)

4.2 The Chief Financial Officer has a statutory duty to ensure that adequate policies and procedures are in place to ensure an effective system of financial control. The budget virement process is one of these controls. (Section 27(4) MFMA)

4.3 It is the responsibility of each manager or head of a department or activity to which funds are allotted, to plan and conduct assigned operations so as not to expend more funds than budgeted. In addition, they have the responsibility to identify and report any irregular or fruitless and wasteful expenditure in terms of the MFMA sections 78 and 102.

5. Virement Restrictions

5.1 No funds may be viremented between votes without consent of both vote holders and the Municipal Manager.

5.2 Virements may not exceed a maximum annual limit of 5 % per vote from which the virement originates.

5.3 A virement may not create new policy, significantly vary current policy, or alter the approved outcomes / outputs as approved in the IDP for the current or subsequent years.

5.4 No virement may commit the Municipality to increase recurrent expenditure, which commits the Council's resources in the following financial year, without the prior approval of the Mayoral Committee.

5.5 No funds may be transferred between line items without approval of the vote holder authorization, in other words the senior Manager's approval.

5.6 Budget may not be transferred from Support service (interdepartmental) costs, Capital financing, Depreciation, Contributions, Grant Expenditure, Insurance and Income Foregone.

5.7 Budget may only be transferred from or t0 employee related costs if approved by the CFO.

5.8 Transfers Virements in capital budget allocations are only permitted within specified action plans and not across funding sources without the written approval of the CFO and the Municipal Manager and must in addition have comparable asset lifespan classifications.

5.9 No virements are permitted in the first three months or the final month of the financial year without the express agreement of the CFO or the Deputy CFO.

5.10 An approved virement/transfer does not give expenditure authority and all expenditure resulting from approved virements must still be subject to the supply chain management policy of Council as periodically reviewed.

5.11 Virements/transfers may not be made between Expenditure and Income.

5.12 No virements/transfers are allowed in terms of income line items.

5.13 No virement/transfers are allowed from capital budget to the operating budget

5.14 Virements/transfers should not result in new projects on the capital budget without the written approval of the CFO and the Municipal Manager

5.15 Virements/transfers of conditional grant funds to a purpose outside than specified in the relevant conditional grant framework are not permitted.

5.16 Virements / Transfers to Travelling and Accommodation and Entertainment line items are only permitted with the approval of the CFO and Municipal Manager

5.17. Virements / Transfers from Repairs & Maintenance Projects are only permitted with the approval of the CFO and Municipal Manager

5.18 Virements / Transfers from Specific Operational Typical Work streams Projects are only permitted with the approval of the CFO and Municipal Manager

5.19 No virements be permitted from projects allocated to specific regions/areas[1]

5.20 No virements be permitted from projects used to measure performance in terms of the SDBIP[2]

5.21 No virements be permitted for Funds allocated as grants to individuals (e.g. bursaries)[3]

Appendix A Classification be repealed and replaced with the updated Municipal Votes as disclosed in the Budget Schedules[4]

Appendix B Classification be repealed and replaced with the MSCOA line items[5]

6. Virement Procedure

[1] Added by council 30/05/2022
[2] Added by council 30/05/2022
[3] Added by council 30/05/2022
[4] Added by council 30/05/2022
[5] Added by council 30/05/2022

6.1 All virement/transfer proposals must be completed on the appropriate documentation and forwarded to the relevant Finance Officer for checking and implementation.

6.2 All virements must be signed by the Initiator, Vote Holder, Municipal Manager and the official responsible for budgets.

6.3 All transfers must be signed by the Initiator, Vote holder, the official responsible to process the proposals and a Line Manager within Finance.

6.4 The form must be completed for all Budget Transfers, virements as well as transfers.

6.5 Virements/transfers in excess of R 50,000 require the approval of the Deputy CFO and Virements / Transfers in excess of R 200,000 require the approval of the Chief Financial Officer[5]

6.6 All documentation must be in order and approved before any expenditure can be committed or incurred. (Section 79 MFMA)

6.7 The Municipal Manager will report to the Mayor on a quarterly basis on those virements that have taken place during that quarter.

29. SHORT TITLE

1. INTRODUCTION

This policy for the management of assets has been designed to assist management and officials of the Witzenberg Municipality with the description of management procedures for Property, Plant and Equipment, Investment Property, Agricultural Assets and Intangible Assets. It also should assist with the capacity to differentiate between activities, which are acceptable in terms of general authorization, supervisory responsibilities and limits of authority to the management of assets and functions of the organisation.

This policy will provide certainty with respect to the handling of asset management procedures undertaken within the organization and will ensure that management and employees understand their respective responsibilities and duties.

For the purpose of this policy, assets exclude inventory and monetary assets such as debtors.

This policy replaces all asset management procedures/instructions and memoranda that have been previously issued.

Failure to comply with this policy will result in the institution of disciplinary procedures in terms of the stipulated human resource policies and procedures of Witzenberg Municipality.

2. OBJECTIVE

The objective of this policy is to ensure that assets of the Municipality are properly managed and accounted for by:

- The accurate recording of essential asset information;
- The accurate recording of asset movements;
- Exercising strict physical controls over all assets;
- Treating the assets correctly in the Municipality's financial statements;
- Providing accurate and meaningful management information;
- Compliance with the Council's accounting policies and Generally Recognised Accounting Practices;
- Adequate insuring of assets;
- Maintenance of Council's assets;
- Ensuring that managers are aware of their responsibilities with regard to the assets; and
- Setting out the standards of management, recording and internal controls so as to safeguard the assets against inappropriate utilisation or loss.

3. STATUTORY FRAMEWORK

The statutory framework for this policy is:

- The Constitution of the Republic of South Africa, Act 108 of 1996;
- Local Government: Municipal Structures Act, No 117 of 1998;
- Local Government: Municipal Systems Act, No 32 of 2000;

- Local Government: Municipal Finance Management Act, No. 56 of 2003;
- Regulation No. 31346 of 2008;
- Municipal Supply Chain Management Regulations No. 27636;
- Generally Recognised Accounting Practice.

4. ACCOUNTING STANDARDS

This document constitutes a policy statement and shall not take precedence over the standards specified by the Accounting Standards Board. The relevant accounting standards include:

- GRAP 1 – Presentation of Financial Statements;
- GRAP 13 – Leases;
- GRAP 16 – Investment Property;
- GRAP 17 - Property, Plant and Equipment;
- GRAP 100 - Non – current Assets Held for Sale and Discontinued Operations;
- GRAP 101 - Agricultural;
- GRAP 102 – Intangible Assets; and
- IAS 36 - Impairment of Assets

Other relevant accounting standards are:
- GRAP 12 on Inventories
- GRAP 11 on Construction Contracts

5. DEFINITIONS

Every effort has been made to use definitions established through legislation, standards of accounting and other guidance on asset management.

"Accounting Officer" means the municipal manager appointed in terms of Section 82 of the Local Government: Municipal Structures Act, 1998 (Act 117 of 1998) and being the head of administration and accounting officer in terms of Section 60 of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000).

"Agricultural Activity" is the management by an entity of the biological transformation of biological assets for sale, into agricultural produce, or into additional biological assets.

"Active market" is a market in which all the following conditions exist:

- The item traded within the market are homogeneous;
- Willing buyer and seller can normally be found at any time; and
- Prices are available to the public.

"Agricultural Produce" is the harvested product of the entity's biological assets.

"Amortisation" is the systematic allocation of the depreciable amount of an intangible asset over its useful life.

"Assets" are resources controlled by the municipality as a result of past events and from which future economic benefit or service potential are expected to flow. However for the purpose of this policy exclude inventory and other monetary assets.

"Asset categories" are the six main asset categories defined as follows:

"Asset Life-Cycle" is the cycle of activities that an asset goes through – including planning, design, initial acquisition and/or construction, cycle of operation and maintenance and capital renewal and finally disposal.

"Asset Manager" is any official who has been delegated responsibility and accountability for the control, usage, physical and financial management of the municipality's assets in accordance with the entity's standards, policies, procedures and relevant guidelines.

"Asset Register" is a record of information on each asset that supports the effective financial and technical management of the assets, and meets statutory requirements.

"Biological Asset" is a living animal or plant.

"Biological Transformation" comprises the processes of growth, degeneration, production and procreation that cause qualitative or quantitative changes to a biological asset.

"Carrying amount" is the amount at which an asset is recognized after deducting any accumulated depreciation and accumulated impairment losses.

"Chief Financial Officer" means an officer of a municipality designated by the municipal manager to be administratively in charge of the budgetary and treasury functions.

"Class of property, plant and equipment" means a grouping of assets of a similar nature or function in a municipality's operations, which is shown as a single item for the purpose of disclosure in the financial statements.

"Commercial service" means a service other than a municipal service

(a) rendered by a private sector party or organ of state to or for a municipality or municipal entity on a commercial basis; and
(b) which is procured by the municipality or municipal entity through its supply chain management policy.

"Community Assets" – are defined as any asset that contributes to the community's well-being. Examples are parks, libraries and fire stations.

"Cost" – is the amount of cash or cash equivalents paid or the fair value of the other consideration given to acquire an asset at the time of its acquisition or construction or where applicable, the amount attributed to that asset when initially

recognized in accordance with the specific requirements of Standards of GRAP.

"Depreciation" – is the systematic allocation of the depreciable amount of an asset over its useful life.

"Depreciable Amount" – is the cost of an asset, or other amount substituted for cost in the financial statements, less its residual value.

"Depreciated replacement cost", in relation to a capital asset, means an amount equivalent to the cost to replace the capital asset on the date of transfer adjusted by a deemed depreciated cost at the date of the transfer taking into account the age and condition of the asset.

"Disposal", in relation to a capital asset, includes –

(a) the demolition, dismantling or destruction of the capital asset; or
(b) any other process applied to a capital asset which results in loss of ownership of the capital asset otherwise than by way of transfer of ownership.

"Disposal management system" means the system contemplated in regulation 40 of the Municipal Supply Chain Management Regulations, published by General Notice No. 868 of 2005.

"Enhancements / Rehabilitation" is an improvement or augmentation of an existing asset beyond its original recognized service potential for example useful life, capacity, quality and functionality.

"Fair Value" – is the amount for which an asset could be exchanged between knowledgeable, willing parties in an arm's length transaction.

"GRAP" is Standards of Generally Recognised Accounting Practice

"Head of department / senior manager" – means a manager referred to in section 56 of the Municipal Systems Act.

"Heritage Assets" – are defined as culturally significant resources. Examples are works of art, historical buildings and statues.

"Historical cost" means the original purchase price or cost of acquisition of the capital asset at the time the asset was acquired

An "**impairment loss"** of a cash generating asset is the amount by which the carrying amount of an asset exceeds its recoverable amount.

An "**impairment loss"** of non-cash generating asset is the amount by which the carrying amount of an asset exceeds its recoverable service amount.

"Infrastructure assets" are defined as any asset that is part of a network of similar assets. Examples are roads, water reticulation schemes, sewerage

purification and trunk mains, transport terminals and car parks.

"Intangible assets" are identifiable non-monetary assets without physical substance.

"Investment Properties" – are defined as property (land or a building-or part of a building-or both) held (by the owner or by lessee under a finance lease) to earn rentals or for capital appreciation or both, rather than for:

(a) use in the production and supply of goods or services or for administrative purposes; or
(b) sale in the ordinary course of business.

"Municipality" means the Witzenberg Municipality.

"Other Assets" – are defined as assets utilized in normal operations. Examples are plant and equipment, motor vehicles and furniture and fittings.

"Property, Plant and Equipment" (PPE) – are tangible assets that:

- are held by a municipality for use in the production or supply of goods or services, for rental to others, or for administrative purposes, and
- are expected to be used during more than one period.

"Realisable value" means the amount of cash or cash equivalents that could currently be obtained by transferring the capital asset, less the estimated cost of completion and the estimated costs necessary to make the transfer.

"Recoverable Amount" – is the amount that the municipality expects to recover from the future use of an asset, including its residual value on disposal.

"Recoverable service amount" is the higher of a non-cash-generating asset's fair value less costs to sell and its future value in use.

"Residual Value" – of an asset is the estimated amount that an entity would currently obtain from disposal of the asset, after deducting the estimated costs of disposal, if the asset were already of the age and condition expected at the end of its useful life.

"Right to use, control or manage" means a right to use, control or manage the capital asset for a period exceeding one calendar month without ceding legal ownership in the asset. In other words, where the granting of such rights do not amount to the transfer or permanent disposal of the asset, for example when a right is acquired through a leasing, letting or hiring out arrangement.

"Senior Manager" is a manager referred to Section 57 of the Municipal Systems Act (MSA) being someone reporting directly to the municipal manager.

"Service provider" –

(a) in relation to a municipal service, means a private sector party or organ of state appointed by a municipality in terms of Chapter 8 of the Municipal Systems Act to perform a municipal service in accordance with that Act; or

(b) in relation to a commercial service, means a private sector party or organ of state appointed in terms of the supply chain management policy of a municipality or municipal entity to render a commercial service to or for the municipality or entity as an independent contractor.

"Supply chain management policy" means the supply chain management policy which a municipality or municipal entity is required to have in terms of Chapter 11 of the Act.

"The Act" means the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003).

"Transfer", in relation to a capital or subsidiary asset, means transfer of ownership in the asset as a result of a sale or other transaction.

"Useful Life" – is either:
- the period of the time over which an asset is expected to be used by the municipality, or
- the number of production or similar units expected to be obtained from the asset by the municipality.

6. BACKGROUND

The utilization and management of property, plant and equipment, investment property, intangible assets and agricultural assets is the prime mechanism by which the Municipality can fulfil its constitutional mandates for:-

- Delivery of sustainable services;
- Social and economic development;
- Promoting safe and healthy environments; and
- Fulfilling the basic needs to the community.

As trustees on behalf of the local community, the Municipality has a legislative and moral obligation to ensure it implements policies to safeguard the monetary value and future service provision invested in assets.

The policy for the management of assets deals with the Municipal rules required to ensure the enforcement of appropriate stewardship of assets. Stewardship has two components being the:-

- Financial administration by the Chief Financial Officer; and
- Physical administration by the relevant managers.

Statutory provisions are being implemented to protect public property against arbitrary and inappropriate management or disposals by local government.

Accounting standards have been approved by the Accounting Standards Board to

ensure the appropriate financial treatment for property, plant and equipment, investment property, intangible assets and agricultural assets. The requirements of these new accounting standards include:-

- The compilation of asset registers covering all assets controlled by the Municipality.
- Accounting treatment for the acquisition, disposal, recording and depreciation/amortisation of assets.
- The standards to which financial records must be maintained to comply with the new accounting standards.

7. DELEGATION OF POWERS

This policy should be applied with due observance of the Municipality's policy with regard to delegated powers. Such delegations refer to delegations between the Municipal Manager and other responsible officials as well as between the Council and the Executive Mayor and the Council and the Municipal Manager. All delegations in terms of this policy must be recorded in writing.

In accordance with the Local Government: Municipal Finance Management Act (Act 56 of 2003) (MFMA), the Municipal Manager is the accounting officer of the Municipality and therefore all designated officials are accountable to him/her. The Municipal Manager is therefore accountable for all transactions entered into by his/her designates.

The overall responsibility of asset management lies with the Municipal Manager. However, the day to day handling of assets should be the responsibility of all officials in terms of delegated authority reduced in writing.

8. RESPONSIBILITY

Municipal Manager

The Municipal Manager is responsible for the management of the assets of the Municipality, including the safeguarding and the maintenance of those assets. He/she must ensure that:-

- The Municipality has and maintains a management, accounting and information system that accounts for the assets of the Municipality.
- The Municipality's assets are valued in accordance with standards of Generally Recognized Accounting Practice (GRAP).
- The Municipality has and maintains a system of internal control of assets, including an asset register.
- Senior managers and their teams comply with this policy.

Chief Financial Officer

The Chief Financial Officer is responsible to the Municipal Manager to ensure that

the financial investment in the Municipality's assets is safeguarded and maintained. He/she may delegate or otherwise assign responsibility for performing these functions but he/she will remain accountable for ensuring that these activities are performed. He/she must ensure that:-

- Appropriate systems of financial management and internal control are established and carried out diligently.
- The financial and other resources of the Municipality assigned to him/her are utilized effectively, efficiently, economically and transparently.
- Any unauthorized, irregular or fruitless or wasteful expenditure, and losses resulting from criminal or negligent conduct, are prevented.
- The systems, processes and registers required to substantiate the financial values of the Municipality's assets are maintained to standards sufficient to satisfy the requirements of effective management.
- Financial processes are established and maintained to ensure the Municipality's financial resources are optimally utilized through appropriate asset plan, budgeting, purchasing, maintenance and disposal decisions.
- The Municipal Manager is appropriately advised on the exercise of powers and duties pertaining to the financial administration of assets.
- The senior managers and senior management teams are appropriately advised on the exercise of their powers and duties pertaining to the financial administration of assets.

Senior Managers

The Senior Managers must ensure that:-

- Appropriate systems of physical management and control are established and carried out for assets in their area of responsibility.
- The Municipal resources assigned to them are utilized effectively, efficiently, economically and transparently.
- Any unauthorized, irregular or fruitless or wasteful utilization and losses resulting from criminal or negligent conduct are prevented.
- Their management systems and controls can provide an accurate, reliable and up to date account of assets under their control.
- They are able to justify that their plans, budgets, purchasing, maintenance and disposal decisions for assets optimally achieve the Municipality's strategic objectives.

The senior managers may delegate or otherwise assign responsibility for performing these functions but they will remain accountable for ensuring that these activities are performed.

Each senior manager should report to the Municipal Manager on issues that will significantly impede the item of asset capabilities to provide the required level of service or economic benefit.

The responsibility for the physical control of assets rests with the relevant senior manager to whom the responsibility was delegated to in terms of section 79 of the Municipal Finance Management Act, No 56 of 2003.

Each senior manager shall ensure that assets entrusted to him / her are adequately maintained, properly used and insured and ensure that section 78 of the Municipal Finance Management Act, No 56 of 2003, is adhered to.

No amendments, deletions or additions to the asset register shall be made other than by the Asset Manager or by an official acting as the Asset Manager and must be authorized by the Chief Financial Officer.

Upon the resignation / retirement of an employee, the applicable senior manager must inform the Chief Financial Officer and Corporate Service Department in writing that the asset items entrusted to that employee to execute his / her duties are in good order and returned. When necessary the applicable senior manager must inform the Corporate Services Department of any losses and the value of such losses. The ultimate responsibility of any losses lies with the relevant senior manager.

9. ASSET REGISTER

The asset register shall be maintained in the format determined by the Chief Financial Officer, which format shall comply with the requirements of generally recognised accounting practice (GRAP) and any other accounting requirements which may be prescribed.

The asset register shall reflect the following information:

- a brief but meaningful description of each asset
- the date on which the asset was acquired or brought into use
- the location of the asset
- the responsible senior manager and department(s) or vote(s) within which the assets will be used
- the title deed number, in the case of property
- the stand number, in the case of property
- where applicable, the identification number
- the measurement based used (Cost or Fair Value)
- the original useful live
- the revised useful live
- the residual value
- the original cost, or the revalued amount or the fair value if no costs are available
- the (last) revaluation date of the assets subject to revaluation
- the revalued value of such assets
- who did the (last) revaluation
- accumulated depreciation to date
- the depreciation charge for the current financial year
- the carrying value of the asset
- the method and rate of depreciation

- impairment losses incurred during the financial year (and the reversal of such losses, where applicable)
- method of calculating recoverable amount (when impairment test are required in terms of GRAP)
- increases or the decreases resulting from revaluations (if applicable)
- the source of financing
- condition of the asset
- the current insurance arrangements
- whether the asset is required to perform basic municipal services
- whether the asset has been used to secure any debt, and – if so – the nature and duration of such
- security arrangements
- the date on which the asset is disposed of
- the disposal price
- the date on which the asset is retired from use, if not disposed of.

All heads of department under whose control any asset falls shall promptly provide the Chief Financial Officer in writing with any information required to compile the asset register, and shall promptly advise the Chief Financial Officer in writing of any material change which may occur in respect of such information.

An asset shall be capitalised, that is, recorded in the asset register, as soon as it is acquired. If the asset is constructed over a period of time, it shall be recorded as work-in-progress until it is available for use, where after it shall be appropriately capitalised as a fixed asset. An asset shall remain in the asset register for as long as it is in physical existence.

The Asset Manager must ensure that reconciliations are performed on a monthly basis between the general ledger values and the asset values and to be submitted to the Chief Financial Officer.

The Chief Financial Officer must check and authorize the reconciliations as correct.

Depreciation methods and rates used must be approved by the Chief Financial Officer.

The asset manager should allocate depreciation rates and methods to each asset class, and ensure that depreciation calculations are correctly applied and posted in the general ledger.

10. CLASSIFICATION OF ASSETS

In compliance with the requirements of the National Treasury, the Chief Financial Officer shall ensure that all assets are classified under the following headings in the Fixed Assets Register, and Heads of Departments shall in writing provide the Chief Financial Officer with such information or assistance as is required to compile a proper classification:

10.1 Property, Plant and Equipment

- Land (not held as investment assets).
- Infrastructure assets (assets which are part of a network of similar assets).
- Community assets (assets contributing to the general well-being of the community).
- Heritage assets (culturally significant assets).
- Other assets (ordinary operational assets).
- Housing (rental stock or housing stock not held for capital gain).

Save for land and buildings other assets shall be classified under the following headings:

- Computer equipment;
- Office equipment;
- Furniture and fittings;
- Radio Equipment;
- Plant and machinery;
- Motor Vehicles; and
- Emergency Equipment.

10.2 Investment Property

Investment assets (resources held for capital or operational gain and which are not used by the Municipality). Properties occupied by the Municipality, Councillors or officials are classified as owner-occupied property and are therefore not classed as investment property

Investment properties will be treated in accordance with GRAP 16 and will separately be classified in the Statement of Financial Position. Investment properties will not be depreciated but will annually be revalued.

10.3 Intangible Assets

Intangible assets are identifiable non-monetary assets without physical substance.

Intangible assets will be treated in accordance with GRAP 102 and will separately be classified in the Statement of Financial Position. Intangible assets shall be valued at cost less any accumulated amortization and any impairment losses.

10.4 Agricultural Assets

Agricultural Assets will be treated in accordance with GRAP 101 and will separately be classified in the Statement of Financial Position,

10.5 Assets Treated as Inventory

Any land or buildings owned or acquired by the municipality with the intention of selling such property in the ordinary course of business, or any land or buildings owned or acquired by the municipality with the intention of developing such property for the purpose of selling it in the ordinary course of business, shall be accounted for as inventory, and not included in either property, plant and equipment or investment property in the municipality's statement of position.

Such inventories shall, however, be recorded in the asset register in the same manner as other fixed assets, but a separate section of the asset register shall be maintained for this purpose.

The Chief Financial Officer shall use the classifications indicated in the Annexure on estimated lives of assets, as a guideline and in the case of an item of assets not appearing in the Annexure shall use the classification applicable to the asset most closely comparable in the Annexure.

11. CAPITALISATION CRITERIA

PPE and Intangible Assets

All assets may only be acquired in terms of council's Supply Chain Management Policy and in terms of the budgetary provisions. The responsibility for the purchase of assets would be delegated in terms of council's Delegation Framework and Supply Chain Management Policy. Depending on the cost of the asset to be purchased the following procedure for purchasing an asset must be followed:

- Senior managers shall at all times ensures that there are enough funds in their departmental budgets before requesting approval to any requisition to purchase an asset;
- Senior managers shall ensure that the correct vote and expenditure line item are used and recorded on the requisition requesting approval to purchase an asset;
- Tenders or quotations as required in terms of council's Supply Chain Management policy should be obtained and where required submitted to council's tender committee for approval;
- The tender committee resolution of the approved tender or recommended quotation should be attached to the requisition signed by the relevant head of department;
- The order would then be generated by the Budget and Treasury department;
- Once delivered the asset must be labelled / bar-coded by the Budget and Treasury department before such asset is put into use;
- The senior manager should endorse receipt of the asset on the invoice and forwarded it for payment to the Budget and Treasury department; and
- The Budget and Treasury department would then generate payment.

The completion of any immovable asset by or under control of every head of department should promptly be declared to the Chief Financial Officer in writing

stating the full details required for recording in the assets register.

All PPE and intangible assets shall be carried in the asset register, and appropriately recorded in the annual financial statements, at their original cost or fair value less any accumulated depreciation or amortisation in the case of intangible assets.

The original cost of an item of PPE or intangible assets may include:

- Cost price;
- Financing costs (MFMA section 46(4));
- Import tax;
- Non-claimable purchase tax; and
- Any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

When payment for an item of PPE or intangible assets is deferred beyond normal credit terms, its cost is the cash price equivalent. The difference between this amount and the total payments is recognized as an interest expense over the period of credit.

When an item of PPE is acquired to be exchanged or partly exchanged for a dissimilar item of PPE or other asset, the cost of such item is measured at the fair value of the asset received, which is equivalent to the fair value of the asset given up adjusted by the amount of any cash or cash equivalents paid additional. For the purpose hereof, “fair value” shall be determined by the council with due regard to the definition ascribed to fair value in paragraph 2 hereof.

The only exceptions to this rule shall be revalued items of PPE (see part 7.9 below) and heritage assets in respect of which no depreciation is recorded in the fixed asset register.

Subsequent expenditure relating to an asset that has already been capitalized, should only be added to the carrying amount of the asset when it is probable that future economic benefits or potential service delivery, in excess of the originally assessed standard of performance of the existing asset, will flow to the municipality.

Investment Property

An investment property shall be measured initially at its cost. Transaction costs shall be included in the initial measurement. The cost of purchased investment property includes all directly attributable expenditure (professional fees for legal services, property transfer taxes and other transaction costs).

When payment for an investment property is deferred beyond normal credit terms, its cost is the cash price equivalent. The difference between this amount and the total payments is recognized as an interest expense over the period of credit.

When investment property is acquired to be exchanged or partly exchanged for a dissimilar investment property or other asset, the cost of such item is measured at the fair value of the asset received, which is equivalent to the fair value of the asset given up adjusted by the amount of any cash or cash equivalents paid additional. For the purpose hereof, "fair value" shall be determined by the council with due regard to the definition ascribed to fair value in paragraph 2 hereof.

After initial recognition investment property will be measured at fair value. A gain or loss arising from a change in fair value shall be recognized as a profit or loss in the Statement of Financial Performance in the period in which it arises. The fair value of investment property shall reflect market conditions at reporting date.

In terms of GRAP 16 transfers to and from investment property shall be made when there is a change in use:

(a) Commencement of owner-occupation, for a transfer from investment property to owner-occupied property;
(b) Commencement of development with a view to sale, for a transfer from investment property to inventories;
(c) End of owner-occupation, for a transfer from owner-occupied property to investment property; or
(d) Commencement of an operating lease to another party, for a transfer from inventories to investment property.

When an investment property is transferred to inventory or owner-occupied property, the property's deemed cost is the fair value of the property at the date of the change in use.

For a transfer from inventories to investment property, that will be carried at fair value, any difference between the fair value of the property at that date and its previous carrying amount shall be recognized in the Statement of Financial Performance.

Reinstatement, Maintenance and Other Expenses

Only expenses incurred in the enhancement of an asset (in the form of improved or increased services or benefits flowing from the use of such asset) or in the material extension of the useful operating life of an asset shall be capitalised.

Expenses incurred in the maintenance or reinstatement of an asset shall be considered as operating expenses incurred in ensuring that the useful operating life of the asset concerned is attained, and shall not be capitalised, irrespective of the quantum of the expenses concerned.

Expenses, which are reasonably ancillary to the bringing into operation of an asset, may be capitalised as part of such asset. Such expenses may include but need not be limited to import duties, forward cover costs, transportation costs, and installation, assembly and communication costs.

Intangible Assets

Assets that meet the criteria of GRAP 102 (Intangible Assets) shall be recognized as Intangible Assets at cost.

Heritage Assets

If no original costs or fair values are available in the case of one or more or all heritage assets, the Chief Financial Officer may, if it is believed that the determination of a fair value for the assets in question will be a laborious or expensive undertaking, record such asset or assets in the fixed asset register without an indication of the costs or fair value concerned.

For Statement of Financial Position purposes, the existence of such heritage assets shall be disclosed by means of an appropriate note.

Donated Assets

Where an asset is donated to the municipality, or an asset is acquired by means of an exchange of assets between the municipality and one or more other parties, the asset concerned shall be recorded in the asset register at its fair value, as determined by the Chief Financial Officer.

12. DEPRECIATION

Depreciation of PPE

All PPE, except land and heritage assets, shall be depreciated – or amortised in the case of intangible assets.

Depreciation may be defined as the monetary quantification of the extent to which PPE is used or consumed in the provision of economic benefits or the delivery of services.

Depreciation shall generally take the form of an expense both calculated and debited on a annual basis against the appropriate line item in the department or vote in which the item of PPE is used or consumed.

However, depreciation shall initially be calculated from the day following the day in which an item of PPE is acquired or – in the case of construction works and plant and machinery – the day following the day in which the item is brought into use, until the end of the year concerned. Thereafter, depreciation charges shall be calculated annually.

Each Head of Department, acting in consultation with the Chief Financial Officer, shall ensure that reasonable budgetary provision is made annually for the depreciation of all applicable PPE controlled or used by the department in question or expected to be so controlled or used during the ensuing financial year.

The procedures to be followed in accounting and budgeting for the amortisation of intangible assets shall be identical to those applying to the depreciation of other PPE.

Rate of Depreciation and Amortisation

The Chief Financial Officer shall assign a useful operating life to each depreciable item of PPE recorded on the Municipality's asset register. In determining such a useful life the Chief Financial Officer shall use to the useful lives set out in the annexure to this document as a guideline.

In the case of an item of PPE which is not listed in this annexure, the Chief Financial Officer shall determine a useful operating life, if necessary in consultation with the Head of Department who shall control or use the item in question, and shall be guided in determining such useful life by the likely pattern in which the item's economic benefits or service potential will be consumed.

The procedures to be followed in accounting and budgeting for the amortisation of intangible assets shall be identical to those applying to the depreciation of other PPE.

Method of Depreciation

The Chief Financial Officer shall allocate the depreciable amount of all depreciable PPE and intangible on a systematic basis over its useful life.

The residual value and useful life of an asset shall be reviewed at least at each reporting date and, if expectations differ from previous estimates, the changes shall be accounted for as a change in accounting estimate in accordance with GRAP 3.

13. AMENDMENT OF ASSET LIVES AND DIMINUTION IN THE VALUE OF PPE

Only the Chief Financial Officer may amend the useful operating life assigned to any PPE, and when any material amendment occurs the Chief Financial Officer shall inform the Council of such amendment.

The Chief Financial Officer shall amend the useful operating life assigned to any item of PPE if it becomes known that such item has been materially impaired or improperly maintained to such an extent that its useful operating life will not be attained, or any other event has occurred which materially affects the pattern in which the item's economic benefits or service potential will be consumed.

If the value of an item of PPE or intangible assets has been diminished to such an extent that it has no or a negligible further useful operating life or value such item shall be fully depreciated or eradicated in the financial year in which such diminution in value occurs.

Similarly, if an item of PPE has been lost, stolen or damaged beyond repair, it shall be fully depreciated in the financial year in which such event occurs, and if the item has physically ceased to exist, it shall be written off in the asset register.

In all of the foregoing instances, the additional depreciation expenses shall be debited to the department or vote controlling or using the item of PPE or intangible asset in question.

If any of the foregoing events arises in the case of a normally non-depreciable item of PPE, and such item has been capitalised at a value other than a purely nominal value, such item shall be partially or fully depreciated, as the case may be, as though it were an ordinary depreciable item of PPE, and the department or vote controlling or using the item in question shall bear the full depreciation expenses concerned.

Additional depreciation not budgeted for as a result of unforeseeable or unavoidable circumstances must be provided for in an adjustments budget and, if such circumstances arises close to the end of the financial year and there will not be time for Council to consider the adjustments before the end of the financial year, may in advance be approved by the Mayor in terms of Section 29 of the MFMA, provided that any other provisions of the MFMA be complied with.

14. IMPAIRMENT OF ASSETS

The accounting treatment relating to impairment losses is outlined in IAS37.

The carrying amount of an item or a group of identical items of property, plant and equipment should be reviewed periodically in order to assess whether or not the recoverable amount has declined below the carrying amount.

When such a decline has occurred, the carrying amount should be reduced to the recoverable amount. The amount of the reduction should be recognised as an expense immediately, unless it reverses a previous revaluation in which case it should be charged to the Revaluation Reserve.

The recoverable amount of individual assets, or groups of identical assets, is determined separately and the carrying amount reduced to the recoverable amount on an individual asset, or group of identical assets, basis. However, there may be circumstances when it may not be possible to assess the recoverable amount of an asset on this basis, for example when all of the plant and equipment in a sewerage purification works is used for the same purpose. In such circumstances, the carrying amount of each of the related assets is reduced in proportion to the overall decline in recoverable amount of the smallest grouping of assets for which it is possible to make an assessment of the recoverable amount.

The following may be indicators that an asset is impaired:

- The asset has been damaged.
- The asset has become technologically obsolete.
- The asset remains idle for a considerable period either prior to it being put into use or during its useful life.
- Land is purchased at market value and is to be utilized for subsidized housing developments, where the subsidy is less than the purchase price.

The following steps will have to be performed regularly during the year to account for impairment losses:

- Departments will identify and inform the Chief Financial Officer of assets that:

  - Are in a state of damage at year end.
  - Are technologically obsolete at year end. .
  - Have remained idle for a considerable period either prior to them being put into use at year end or during their useful life.
  - Are subject to impairment losses because the subsidies to be received in exchange for assets are less than the carrying amounts.

- The recoverable amounts of these assets need to be determined by calculating the net selling price per asset as defined above.

- The impairment loss per asset is the difference between the net selling price and the carrying value of the asset.

- The impairment loss needs to be accounted for by identifying the relevant funding source.

15. REVALUATION OF ITEMS OF PPE

All land and buildings recorded in the Municipality's asset register shall be revalued when the Council is of the opinion that economic conditions have had a substantial impact on the on the value of land and buildings within the municipal area. Under such circumstances a sworn valuer will be appointed to perform a valuation of all land and buildings.

The Chief Financial Officer shall adjust the carrying value of the land and buildings concerned to reflect in each instance the value of the items as recorded in the valuation roll, provided the Chief Financial Officer is satisfied that such value reflects the fair value of the land and buildings concerned.

The Chief Financial Officer shall also, where applicable, create a revaluation reserve for each such item equal to the difference between the value as recorded in the valuation roll and the carrying value of the item before the adjustment in question.

The buildings concerned shall thereafter be depreciated on the basis of its revalued amount, over its remaining useful operating life, and such increased depreciation expenses shall be budgeted for and debited against the appropriate line item in the department or vote controlling or using the buildings in question.

The Chief Financial Officer shall ensure that an amount equal to the difference between the new (enhanced) annual depreciation expense and the depreciation expenses determined in respect of such buildings before the revaluation in question is transferred each year from the revaluation reserve to the Municipality's appropriation account. An adjustment of the aggregate transfer shall be made at the end of each financial year, if necessary.

If the amount recorded by the valuer is less than the carrying value of the item of

land or buildings recorded in the asset register, the Chief Financial Officer shall adjust the carrying value of such item by increasing the accumulated depreciation of the item in question by an amount sufficient to adjust the carrying value to the value as recorded by the valuer. such additional depreciation expenses shall form a charge, in the first instance, against the balance in any revaluation reserve previously created for such item, and to the extent that such balance is insufficient to bear the charge concerned, an immediate additional charge against the department or vote controlling or using the item of land or building in question

Revalued land and buildings shall be carried in the asset register, and recorded in the annual financial statements, at their revalued amount, less accumulated depreciation (in the case of buildings).

16. ACQUISITION OF ASSETS

Pre-acquisition Planning

Before a capital project is included in the budget for approval, the Chief Financial Officer must demonstrate that he/she has considered the following:

- The projected cost over all the financial years until the project is operational;
- The future operational costs and revenue on the project, including the tax and tariff implications;
- The financial sustainability of the project over its use full life including revenue generation and subsidisation requirements;
- The physical and financial stewardship of that asset through all stages of its life including acquisition, installation, maintenance, operations, disposal and rehabilitation;
- The inclusion of the capital project in the Integrated Development Plan and future budgets; and
- Alternatives to the capital purchase.

The heads of department are accountable to ensure that the Chief Financial Officer receives all reasonable assistance, guidance and explanation to enable him to achieve his planning requirements.

Approval to Acquire Property, Plant and Equipment

Money can only be spent on a project if:

- The money has been appropriated in an approved Capital Budget;
- The project, including the total cost has been approved by the Council;
- The Chief Financial Officer confirms that funding is available for that specific project; and
- Any contract that will impose financial obligations beyond two years after the budget year is appropriately disclosed.
- The Supply Chain Management Policy is adhered to.

Authorization for the acquisition of assets should be as per this municipality's delegation of authority and payment for assets shall be in accordance with financial policies and regulations of this Municipality.

Funding of Capital Projects

Within the Municipality's on-going financial, legislative or administrative capacity, the Chief Financial Officer must establish and maintain the funding strategies that optimise the municipality's ability to achieve its strategic objectives as stated in the Integrated Development Plan. The acquisition of assets may not be funded over a period longer than the useful life of that asset.

17. PURCHASE OR HIRE OF IMMOVABLE PROPERTY

The municipality may acquire by purchase, or by hire, immovable property within- or outside the municipal boundary provided it complies with the requirements of the MFMA and the Supply Chain Management policy and subject to the following:

- The cost of the purchase or hire had been budgeted for; and
- The intention to buy or hire the immovable property had been advertised for public comment.
- After consideration of any public comments/objections the Council will:
    - In the case of the following paragraph complies with the requirements of that paragraph; and
    - In the case of all other immovable property, finally resolve to continue with the purchase or hire and apply the supply chain management processes
- The Council will not continue with the purchase or hire of any immovable property where:
    - The price is in excess of the market value thereof as assessed by an appraiser; or
    - The rental which, when calculated per annum in the case of:
        - Immovable property hired for agricultural purposes, exceeds six present; and
        - Immovable property hired for any other purpose, exceed twelve present of the market value of the property, as assessed by an appraiser.

The Council may accept a gift or conveyance of immovable property either for the municipality or in trust for charitable or other public purposes not connected with public worship, and hold the same in such trust or for such purpose as may be declared by such donors and may administer, utilize and improve such property.

The trustees of any immovable property held in trust for any township village of settlement which has become a municipality or part of a municipality may transfer such property to the Council, subject to any special trusts in their deeds of title and upon conditions not at variance therewith.

18. GUIDELINE PROCEDURES FOR ADDITIONS TO ASSETS

The Asset Manager must ensure all additions to assets are in accordance with an approved Capital Budget. Additions must be updated on a monthly basis in the Municipality's Asset Register. All additions must be approved by the Chief Financial Officer.

19. FUNDING OF PPE AND RESERVES

The purchase of assets may be funded from the raising of external loans, leases, government- and public contributions, the Capital Replacement Reserve and surplus cash.

The Chief Financial Officer shall ensure that in respect of all assets financed from grants or subsidies or contributions received from other spheres of government or from the public at large, as well as in respect of assets donated to the Municipality, a government grants reserve or public contribution reserve for future depreciation is created equal in value to the capitalised value of each item of asset in question.

The Chief Financial Officer shall thereafter ensure that in the case of depreciable PPE an amount equal to the annual depreciation expenses of the items concerned are transferred each year from such reserve to the Municipality's accumulated surplus.

20. ALIENATION OF ASSETS

In compliance with the principles and prescriptions of the Municipal Finance Management Act, the transfer of ownership of any item of PPE shall be fair, equitable, transparent, competitive and consistent with the municipality's supply chain management policy and the Municipal Asset Transfer Regulations

Every head of department shall report in writing to the Chief Financial Officer on 30 April of each financial year on all assets controlled or used by the department concerned which such head of department wishes to alienate by public auction or public tender.

The Chief Financial Officer shall thereafter consolidate the requests received from the various departments, and shall promptly report such consolidated information to the council or the municipal manager of the municipality, as the case may be, recommending the process of alienation to be adopted.

The council shall delegate to the municipal manager the authority to approve the alienation of any moveable asset with a carrying value less than R200 000 (two hundred thousand rand). The council shall ensure that the alienation of any asset with a carrying value equal to or in excess of R200 000 (two hundred thousand rand) takes place in compliance with Section 14 of the Municipal Finance Management Act, 2004.

In terms of Section 14 of the Municipal Finance Management Act, 2004 the Municipality may not transfer ownership as a result of a sale or other transaction or otherwise permanently dispose of assets needed to provide the minimum level of basic municipal services.

The Municipality may transfer ownership or otherwise dispose of assets other than one contemplated above, but only after the Council, in a meeting open to the public:-

- has decided on reasonable grounds that the asset is not needed to provide the minimum level of basic municipal services; and
- has considered the fair market value of the item and the economic and community value to be received in exchange for the asset;
- That a public participation process be held before council's assets can be alienated.

The decision that a specific asset is not needed to provide the minimum level of basic municipal services, may not be subsequently reversed by the Municipality after that asset has been sold, transferred or otherwise disposed of.

Once the assets are alienated, the Chief Financial Officer shall treat the disposal of the items in terms of GRAP and amend the relevant records of the asset register. If the proceeds of the alienation are less than the carrying value recorded in the asset register, such difference shall be recognised as a loss in the Statement of Financial Performance of the department or vote concerned.

If the proceeds of the alienation, on the other hand, are more than the carrying value of the asset concerned, the difference shall be recognised as a gain in the Statement of Financial Performance of the department or vote concerned.

All gains realised on the alienation of assets shall be appropriated annually to the municipality's Capital Replacement Reserve (except in the cases outlined below), and all losses on the alienation of fixed assets shall remain as expenses on the Statement of Financial Performance of the department or vote concerned.

If, however, both gains and losses arise in any one financial year in respect of the alienation of the assets of any department or vote, only the net gain (if any) on the alienation of such assets shall be appropriated to the Capital Replacement Reserve.

Transfer of assets to other municipalities, municipal entities (whether or not under the municipality's sole or partial control) or other organs of state shall take place in accordance with the Municipal Asset Transfer Regulations.

21. GUIDELINE PROCEDURES FOR THE DISPOSAL OF ASSETS

The Senior Manager must submit a motivation for the disposal of an asset under his/her control to the Chief Financial Officer.

The Chief Financial Officer must authorize, by signature the motivation and submit the motivation to the Accounting Officer for his/her approval.

Before computer equipment is disposed the Chief Financial Officer must consult the IT section.

All combined motivations must be submitted to the Asset Manager to update the asset register of the municipality and the book of accounts regarding the sale.

The following information should be update in the asset register:

- Reason for disposal;
- Information relating to the buyer;
- Individual requesting disposal;
- Cost, book value and proposed selling price of the asset;
- Date of sale;
- Method of payment;
- Receipt number; and
- The relevant asset information

22. OTHER WRITE-OFFS OF PPE

An item of PPE, even though fully depreciated, shall be written off when it can no longer be used, in consultation with the Head of Department controlling or using the item concerned.

Every Head of Department shall report to the Chief Financial Officer on 31 October and 30 April of each financial year on any item of PPE which such Head of Department wishes to have written off, stating in full the reason for such recommendation.

The Chief Financial Officer shall consolidate all such reports, and shall promptly notify the Council on the PPE to be written off.

The only reasons for writing off PPE, other than the alienation of such item of PPE, shall be the loss, theft, and destruction or material impairment of the PPE in question.

If an item of PPE must be written off as a result of an occurrence out of the control of the municipality, such as malicious damage, theft or destruction, the municipal manager must determine whether a third party or an employee was involved in the loss and take all reasonable steps to recover such loss, including reporting the incident to the South African Police Services and the Auditor General, the insurance as well as institute disciplinary steps against any employee who might have been involved in such incident.

In every instance where a not fully depreciated item of PPE is written off, the Chief Financial Officer shall immediately debit to such department or vote, as additional depreciation expenses, the full carrying value of the item concerned.

23. MANAGEMENT AND OPERATION OF ASSETS

Accountability to manage assets

Each Senior Manager is accountable to ensure that Municipal resources assigned to them are utilized effectively, efficiently, economically and transparently. This will include:

- Developing appropriate management systems, procedures, processes and controls for managing assets;
- Providing accurate, reliable and up to date account of assets under their control; and
- The development and motivation of relevant strategic asset management plans and operational budgets that optimally achieve the Municipality's strategic objectives.

Contents of a strategic management plan

Senior Managers need to manage assets under their control to provide the required level of service or economic benefit at the lowest possible long-term cost. To achieve this, the Senior Manager will need to develop strategic asset management plans that cover:-

- Alignment with the Integrated Development Plan;
- Operational guidelines;
- Performance monitoring;
- Maintenance programs;
- Renewal, refurbishment and replacement plans;
- Disposal and Rehabilitation plans;
- Operational, financial and capital support requirements, and
- Risk mitigation plans including insurance strategies

The operational budgets are the short to medium term plan for implementing this strategic asset management plan.

Reporting of Emerging Issues

Each Functional Manager should report to the Municipal Manager on issues that will significantly impede the item of asset capabilities to provide the required level of service or economic benefit.

Verification of Assets

The Municipality shall at least once during every financial year undertake on a

date as determined by the Chief Financial Officer a comprehensive verification of all moveable assets controlled or used by all the departments of the Municipality.

Every Head of Department shall promptly and fully report in writing to the Chief Financial Officer, in the format determined by the Chief Financial Officer, all relevant results of such verification, provided that each such item of asset verification shall be undertaken and completed during 30 June of each financial year, and that the resultant report shall be submitted to the Chief Financial Officer not later than 30 June of the year in question.

Movement of Assets

Every Head of Department shall promptly and fully report in writing to the Chief Financial Officer, in the format determined by the Chief Financial Officer, all transfers from its original location of assets (including minor assets items) within 5 working days after transfer of such item.

24. MAINTENANCE

Maintenance Plans

Every Head of Department shall ensure that a maintenance plan in respect of every new infrastructure asset with a value of R100 000 (one hundred thousand rand) or more is promptly prepared and submitted to the Council for approval.

If so directed by the Municipal Manager, the maintenance plan shall be submitted to the Council prior to any approval being granted for the acquisition or construction of the infrastructure asset concerned.

The Head of Department controlling or using the infrastructure asset in question, shall annually report to the Council, not later than in July or the earliest Council meeting thereafter, of the extent to which the relevant maintenance plan has been complied with, and of the likely effect which any non-compliance may have on the useful operating life of the item concerned.

Deferred Maintenance

If there is material variation between the actual maintenance expenses incurred and the expenses reasonably envisaged in the approved maintenance plan for any infrastructure asset, the Chief Financial Officer shall disclose the extent of and possible implications of such deferred maintenance in an appropriate note to the annual financial statements. Such note shall also indicate any plans which the Council has approved in order to redress such deferral of the maintenance requirements concerned.

If no such plans have been formulated or are likely to be implemented, the Chief Financial Officer shall re-determine the useful operating life of the fixed asset in question, if necessary in consultation with the Head of Department controlling or using such item, and shall recalculate the increased annual depreciation expenses accordingly.

General Maintenance of Assets

Every Head of Department shall be directly responsible for ensuring that all assets are properly maintained and in a manner which will ensure that such item attain their useful operating lives.

25. REPLACEMENT STRATEGY

The Municipal Manager, in consultation with the Chief Financial Officer and other Heads of Departments, shall formulate norms and standards for the replacement of all normal operational assets. Such norms and standards shall be incorporated in a formal strategy, which shall be submitted to the Council for approval. This strategy shall cover the replacement of motor vehicles, furniture and fittings, computer equipment, and any other appropriate operational items.

Such strategy shall also provide for the replacement of assets which are required for service delivery but which have become uneconomical to maintain.

26. TRANSFER OF ASSETS

When assets are transferred to other Government Departments or municipalities, a document with specific authorization should be attached to the asset to ensure the validity of the transfer.

The document should also include:

- Asset description;
- Cost of the asset;
- Date of acquisition;
- Unique asset number;
- Effective date of transfer;
- Quantity; and
- Authorization by both transferor and transferee.

The asset manager must then effect the transactions in the book of accounts of the municipality on the day the asset is transferred to the transferee.

27. PHYSICAL SECURITY OF ASSETS

Every Senior Manager shall be directly responsible for the physical safekeeping of any asset controlled or used by their department.

In exercising this responsibility, every Senior Manager shall adhere to directives issued by the Chief Financial Officer with regard to the control and safekeeping of the municipality's assets.

All assets should be kept in a secure location, maintained regularly, insured against theft or destruction, utilized economically and efficiently.

When it is suspect that an employee abuses assets, this fact should be reported to the Chief Financial Officer within 48 hours. Such an employee should be subject to the disciplinary procedures as described in terms of the Standard

Conditions of Service.

All items of Property, Plant and Equipment lost, stolen or damage must be reported to the Chief Financial Officer within 48 hours after discovery for further investigation and reporting required by the Municipal Finance Management Act No. 56 of 2003.

28. INSURANCE OF ASSETS

The Accounting Officer must ensure that all movable assets are insured at least against fire and theft, and municipal buildings and infrastructure are insured at least against fire and allied perils.

The Accounting Officer shall recommend, after consultation with the Chief Financial Officer, the basis of insurance cover to be applied: either the carrying value or the replacement value of the assets. Such a recommendation shall take due cognizance of the budgetary resources of the municipality.

Any theft, loss or damage to an asset should immediately be reported to council's insurance brokers by the relevant head of department under whose responsibility the asset falls. A copy of the insurance claim submitted should be forwarded to the Chief Financial Officer. All insurance claims must be recorded in an insurance register and all outstanding insurance claims reported on a monthly basis to the Chief Financial Officer. It is the responsibility of the relevant head of department to ensure that all documents / information for the completion of the claim is forwarded to council's insurance brokers and that copies thereof is forwarded to the Chief Financial Officer. The head of department should in writing request the replacement of the asset which can only be authorized, if sufficient provision for the replacement of the asset is on the capital budget, by the Municipal Manager after consultation with the Chief Financial Officer. If sufficient provision is not on the capital budget the asset can only be replaced if provision for the replacement is made on an Adjustments budget. In the case where an asset must be replaced as an emergency measure, the Mayor may authorise such expenditure, subject to compliance with Section 29 of the MFMA.

Third-party (insurance) pay-outs must be treated as revenue when the amount is certain and may not be offset against the cost of replacing the item. The carrying value of items lost, stolen or damaged beyond repair must be treated as impairment against the relevant department or vote. The full cost of the replacement item must then be capitalised.

If the municipality operates a self-insurance reserve, the Chief Financial Officer shall annually determine the premiums payable by the departments or votes after having received a list of the assets and insurable values of all relevant assets from the heads of departments concerned.

The municipal manager shall recommend to the council of the municipality, after consulting with the Chief Financial Officer, the basis of the insurance to be applied to each type of asset: either the carrying value or the replacement value of the assets concerned. Such recommendation shall take due cognisance of the

budgetary resources of the municipality.

The Chief Financial Officer shall annually submit a report to the council of the municipality on any reinsurance cover which it is deemed necessary to procure for the municipality's self-insurance reserve.

29. SHORT TITLE

This policy shall be called the Asset Management Policy of the **Witzenberg Municipality.**

Version: Final

Date: 15 June 2010

Summary: This document describes the Funding and Reserves Policy that will be applicable to the municipality, detailed.

Approved: This policy was approved by the Municipal Council on 15 June 2010.

Signature: _____ **Date**: _____

Municipal Manager

FUNDING AND RESERVE POLICY

1. INTRODUCTION AND OBJECTIVE

The Council sets as objective a long term financially sustainable municipality with acceptable levels of service delivery to the community.

This policy aims to set standards and guidelines towards ensuring financial viability over both the short- and long term and includes funding as well as reserves requirements.

2. SECTION A: FUNDING POLICY

2.1 LEGISLATIVE REQUIREMENTS

In terms of Sections 18 and 19 of the Municipal Finance Management Act (Act No 56 of 2003) (MFMA), an annual budget may only be funded from:

- Realistically anticipated revenues to be collected;
- Cash backed accumulated funds from previous years' surpluses not committed for other purposes. and
- Borrowed funds, but only for capital projects.

Furthermore, spending on a capital project may only be commenced once the funding sources have been considered, are available and have not been committed for other purposes.

The requirements of the MFMA are therefore clear in that the budget must be cash – funded i.e. cash receipts inclusive of prior cash surpluses must equal or be more than cash paid.

In determining whether the budget is actually cash funded and in addition ensuring long term financial sustainability, the municipality will use analytical processes, including those specified by National Treasury from time to time.

2.2 STANDARD OF CARE

Each functionary in the budgeting and accounting process must do so with judgment and care, under the prevailing circumstances, as a person of prudence, discretion and intelligence would exercise to the management of his or her own finances with the primary objective of ensuring that the objectives of this policy are achieved.

2.3 STATEMENT OF INTENT

The municipality will not pass a budget which is not cash – funded or where any of the indicators as listed in this document are negative, unless acceptable reasons can be provided for non-compliance, provided that the requirements of the MFMA must at all times be adhered to.

2.4 CASH MANAGEMENT

Cash must be managed in terms of the municipality's Cash Management and Investment Policy.

2.5 DEBT MANAGEMENT

Debt must be managed in terms of the municipality's Debt Management Policy, together with any requirements in this policy.

2.6 FUNDING THE OPERATING BUDGET

2.6.1 INTRODUCTION

The municipality's objective is that the user of municipal resources must pay for such usage in the period it occurs.

The municipality however, recognises the plight of the poor, and in line with national and provincial objectives, the municipality commits itself to subsidised services to the poor. This will necessitate cross subsidisation in tariffs to be calculated in the budget process.

2.6.2 GENERAL PRINCIPLE WHEN COMPILING THE OPERATING BUDGET

The following specific principles apply when compiling the budget:

a) The budget must be cash – funded, i.e. revenue and expenditure projections must be realistic and the provision for impairment of receivables must be calculated on proven recovery rates;

b) Growth parameters must be realistic and be based on historic patterns adjusted for current reliable information;

c) Tariff adjustments must be fair, taking into consideration general inflation indicators as well as the geographic region's ability to pay;

d) Revenue from Government Grants and Subsides must be in accordance with the amounts promulgated in the Division of Revenue Act, proven

provincial transfers and any possible transfers to or from other municipalities.

For the purpose of the Cash flow budget any National or Provincial grants that have been re-appropriated for roll–over purposes must be excluded from the calculation as it must be included in changes in Cash and Cash Equivalents and Payables.

Furthermore, in the budget the total grants recognised as revenue must equal the total expected expenditure from grants, inclusive of capital expenditure and VAT as per directive given in MFMA circular 48.

e) Projected revenue from services charges must be reflected as net (all billing less revenue foregone, which is free basic services, discounts and rebates).

f) Projected revenue from property rates must include all rates to be levied, but rebates and discounts must be budgeted for as either revenue foregone or a grant, as per directive in MFMA Budget Circular 51, depending on the conditions of the exemption, rebate or reduction.

For the purpose of the Cash flow Budget all rebates and discounts must be deducted from the projected revenue.

g) Only changes in fair values related to cash may be included in the cash flow budget. Changes to unamortised discount must be included in the Operating Budget but excluded in the cash flow budget.

h) Employee related costs include contributions to non-current and current employee benefits. It is acknowledged that the non-current benefits' requirements are well above the initial cash capabilities of the municipality, and it is therefore determined that provision for the short term portion of employee benefits, as well as an operating surplus calculated at 5% of the prior year balance of the long–term benefits, be included in the operating budget, in order to build sufficient cash for these requirements. The cash portion of the employee benefits must be accounted for in an "Employee Benefits Reserve".

i) Depreciation must be fully budgeted for in the operating budget.

In order to ensure a sufficient accumulation of cash for the replacement of Property, Plant and Equipment and Intangible Assets, the amount of depreciation on assets funded from own sources, excluding assets funded from grants, public contributions and external loans must be reflected as a surplus on the cash flow budget.

j) Contributions to provisions (non-current and current) do not form part of the cash flow. It is however, necessary to provide for an increase in cash resources in order to comply with the conditions of the provision at the time when it is needed.

It is therefore a requirement that the contribution to current provisions, as well as 20% of the prior year balance of the non current provision, is budgeted as cash surpluses until the necessary funding level is obtained.

2.7 FUNDING THE CAPITAL BUDGET

2.7.1 INTRODUCTION

The municipality's objective is to maintain, through proper maintenance and replacement measures, existing levels of service and to improve and implement services which are neglected or non – existent.

In order to achieve this objective the municipality must annually, within financial means, budget for the replacement of redundant assets as well as new assets.

2.7.2 FUNDING SOURCES FOR CAPITAL EXPENDITURE

The capital budget can be funded by way of own contributions, grants, public contributions as well as external loans.

Own Contributions

The capital budget financed from own contributions must primarily be funded from the Capital Replacement Reserve.

Notwithstanding the above the capital budget or portions thereof may also be funded from surplus cash. The allocations of the funding sources from own contributions are determined during the budget process.

Contributions to the Capital Replacement Reserve (CRR)

All proceeds from the sale of redundant property plant and equipment, and the VAT portion of capital grants that represents own income must be transferred to the CRR.

Funds must be transferred to the CRR in the budget process to ensure that sufficient funds are available in the reserve to finance the capital expenditure from own contributions.

Grants (Including Public Contributions)

Grants for capital expenditure have become a common practice, especially in order to extend service delivery to previously disadvantaged areas. While such grants are welcomed, care should also be taken that unusual grant funding does not place an unreasonable burden on the residents for future maintenance costs which may be higher than their ability to pay.

It is therefore determined that the accounting officer must evaluate the long term effect of unusual capital grants on future tariffs, and if deemed necessary, report on such to Council.

It is furthermore determined that the depreciation charges on assets financed from grants and donations must not have a negative effect on tariffs charged to the users of such assets. The Accounting Officer must put such accounting measures in place to comply with this requirement, to a reasonable extent.

External Loans

The municipality may only raise loans in accordance with its Debt Management Policy.

The Accounting Officer must also put such accounting measures in place to ensure that no unspent portions of loans are utilised for operating purposes.

For budgeting purposes any difference between proposed capital spending from loans and proposed loans raised must be included in the cash surplus for the year.

2.8 FUNDING COMPLIANCE MEASUREMENT

2.8.1 INTRODUCTION

The municipality wants to ensure that the budget or adjustments budget complies with the requirements of the MFMA and this policy. For this purpose a set of indicators must be used as part of the budget process and be submitted with the budget. These indicators include all the indicators as recommended by National Treasury as well as reconciliations according to this policy. Any additional indicators recommended by National Treasury in future must also be taken into account, as well as any additional reconciliation items as either determined by the Council or the Accounting Officer.

If any of the indicators are negative during the compilation or approval process of the budget, the budget may not be approved until all the indicators provide a positive return, unless any negative indicators can be reasonably explained and

future budget projections address the turn-around of these indicators to within acceptable levels.

2.8.2 CASH AND CASH EQUIVALENTS AND INVESTMENTS

A positive Cash and Cash Equivalents position throughout the year is crucial. In addition, the forecasted cash position at year-end must at least be the amount as calculated in the Reconciliation of Cash Requirements as determined by this policy and attached to this policy as Appendix "A".

2.8.3 CASH PLUS INVESTMENTS LESS APPLICATION OF FUNDS

The overall cash position of the municipality must be sufficient to include:

- unspent conditional grants;
- unspent conditional public contributions;
- unspent borrowings;
- vat due to SARS;
- secured investments;
- the cash portion of statutory funds such as the Housing Development Fund;
- other working capital requirements; and
- In addition, it must be sufficient to back reserves as approved by the municipality and the portions of provisions as indicated below:
    - Current portion of Rehabilitation of landfill sites
    - Current portion of Post-retirement benefits
    - Current portion of Long service provisions
    - Current portion of Ex-gratia pension provisions
    - 20% of staff leave
    - 100% of performance bonuses
    - 100% of staff bonuses
    - 100% of any other employee benefits

2.8.4 MONTHLY AVERAGE PAYMENT COVERED BY CASH AND CASH EQUIVALENTS ("CASH COVERAGE")

This indicator shows the level of risk should the municipality experience financial stress.

2.8.5 SURPLUS/DEFICIT EXCLUDING DEPRECIATION OFFSETS

It is almost certain that the operating budget, which includes depreciation charges on assets funded by grants and public contributions, as well as on revalued assets, will result in a deficit.

As determined elsewhere in this policy it is not the intention that the users of the assets funded from grants, public contributions and revaluations must be burdened with tariff increases to provide for such depreciation charges. In order to ensure a "balanced" budget but excluding such depreciation charges, the depreciation charges may be offset against the net surplus / deficit.

Should the budget result in a deficit after the offsetting, the budget will be deemed unfunded and must be revised.

2.8.6 PROPERTY RATES/SERVICE CHARGE REVENUE PERCENTAGE INCREASE LESS MACRO INFLATION TARGET

The intention of this indicator is to ensure that tariff increases are in line with macro economic targets, but also to ensure that revenue increases for the expected growth in the geographic area is realistically calculated.

The formula to be used is as follows:

	DESCRIPTION	PROPERTY RATES	SERVICE CHARGES	TOTAL
A	Revenue of budget year	R XX	R XX	R XX
B	Less: Revenue of prior year	R XX	R XX	R XX
C	**=Revenue increase/decrease**	**R XX**	**R XX**	**R XX**
D	% Increase/(Decrease)	C/B %	C/B %	C/B %
E	Less: Upper limit of macro Inflation target	%	%	%
F	**=Growth in excess of inflation target**	**%**	**%**	**%**
G	Less: Expected growth %	%	%	%
H	**=Increase attributed to tariff Increase above macro inflation target**	**%**	**%**	**%**

In the event that the percentage in (h) above is greater than zero, a proper motivation must accompany the budget at submission, or the budget must be revised.

2.8.7 CASH COLLECTION % RATE

The object of the indicator is to establish whether the projected cash to be collected is realistic and complies with section 18 of the MFMA.

The collection rate for calculating the provision for impairment of receivables must be based on past and present experience. Past experience refers to the collection rates of the prior years and present experience refers to the collection rate of the current financial year as from 1 July.

It is not permissible to project a collection rate higher than the rate currently being obtained, even if the municipality recently approved a debt collection policy or implemented additional debt collection measures. Any improvement in collection rates during the budget year may be appropriated in an Adjustment Budget.

2.8.8 DEBT IMPAIRMENT EXPENSE AS A PERCENTAGE OF BILLABLE REVENUE

This indicator provides information whether the contribution to the provision for impairment of receivables is adequate. In theory it should be equal to the difference between 100% and the cash collection rate, but other factors such as past performance might have an influence on it. Any difference, however, must be motivated in the budget report.

2.8.9 CAPITAL PAYMENTS AS A PERCENTAGE OF CAPITAL EXPENDITURE

This indicator provides information as to the timing for payments on capital projects and utilising allowed payment terms.

2.8.10 BORROWING AS A PERCENTAGE OF CAPITAL EXPENDITURE (EXCLUDING GRANTS AND CONTRIBUTIONS)

This indicator provides information as to compliance with the MFMA in determining borrowing needs. The Accounting Officer must ensure compliance with the Municipality's Debt Management Policy.

2.8.11 GRANTS REVENUE AS A PERCENTAGE OF GRANTS AVAILABLE

The percentage should never be less than 100% and the recognition of expected unspent grants at the current year-end as revenue in the next financial year must be substantiated in a report.

2.8.12 CONSUMER DEBTORS CHANGE (CURRENT AND NON - CURRENT)

The object of the indicator is to determine whether budgeted reductions in outstanding debtors are realistic.

An unacceptable high increase in either current– or non– current debtors' balances should be investigated and acted upon.

2.8.13 REPAIRS AND MAINTENANCE EXPENDITURE LEVEL

It is of utmost importance that the municipality's Property Plant and Equipment be maintained properly, in order to ensure sustainable service delivery. The budget should allocate sufficient resources to maintain assets and care should be exercised not to allow a declining maintenance program in order to fund other less important expenditure requirements.

Similarly, if the maintenance requirements become excessive, it could indicate that a capital renewal strategy should be implemented or reviewed.

As a general benchmark the maintenance budget should be between 4% and 8% of the value of assets.

2.8.14 ASSET RENEWAL/REHABILITATION EXPENDITURE LEVEL

This indicator supports further the indicator for repairs and maintenance.

The Accounting Officer must, as part of the capital budget, indicate whether each project is a new asset or a replacement/renewal asset in order to determine whether the renewal program is sufficient or needs revision.

2.8.15 FINANCIAL PERFORMANCE BUDGET

Although it is not a legal requirement that the financial performance budget should balance, it only makes management sense that it should balance.

A number of line–items influence the net result of the financial performance budget. It includes capital grant revenue, depreciation charges including those where assets were funded from grants and public contributions, unamortised discounts and gains/losses on the disposal of Property Plant and Equipment. These items need to be taken into consideration in order to establish if the operating budget is realistic and credible.

2.8.16 FINANCIAL POSITION BUDGET

This indicator provides an overall view of the projected financial position over the periods of the Medium Term Expenditure framework, including movements in inventory and payables.

2.8.17 CASH FLOW BUDGET

A positive cash flow is a good indicator of a balanced budget, as well as the ability of the municipality to meet its future commitments.

The cash flow budget, however, does not include those items such as contributions to the provisions described elsewhere in this policy, the effect of depreciation charges etc, and care must be taken not to let a projected positive cash inflow lead to additional expenditure requests, without taking the requirements of those items into consideration.

3. SECTION B: RESERVES POLICY

3.1 INTRODUCTION

Fund accounting historically formed a huge part of municipal finance in the IMFO standards.

Since the municipality changed to General Recognised Accounting Practices (GRAP), fund accounting is no more allowed.

The municipality, however, recognises the importance of providing to the municipality itself, as well as its creditors, financiers, staff, and general public a measure of protection for future losses, as well as providing the necessary cash resources for future capital replacements and other current and non-current liabilities.

This policy aims to provide for such measure of protection by creating certain reserves.

3.2 LEGAL REQUIREMENTS

There are no specific legal requirements for the creation of reserves, except for the Housing Development Fund. The GRAP Standards itself also do not provide for reserves.

However, the GRAP “Framework for the Preparation and Presentation of Financial Statements” states in paragraph 91 that such reserves may be created, but “Fund Accounting” is not allowed and any such reserves must be a “legal” reserve, i.e. created by law or Council Resolution.

3.3 TYPES OF RESERVES

Reserves can be classified into two main categories being “cash funded reserves” and “non – cash funded reserves”.

3.3.1 CASH FUNDED RESERVES

In order to provide for sufficient cash resources for future expenditure, the municipality hereby approves the establishment of the following reserves:

(a) Capital Replacement Reserve (CRR)

The CRR is to be utilised for future capital expenditure from own funds and may not be used for maintenance– or other operating expenditure.

The CRR must be cash–backed and the Accounting Officer is hereby delegated to determine the contribution to the CRR during the compilation of the annual financial statements.

(b) **Employee benefits reserve**

The aim of the reserve is to ensure sufficient cash resources are available for the future payment of employee benefits.

The contributions to the reserve must be made in accordance with the directives set in this Funding Policy.

(c) **Non-current provisions reserve**

The aim of this reserve is to ensure sufficient cash resources are available for the future payment of non – current provisions.

The contributions to the reserve must be made in accordance with the directives set in this Funding Policy.

(d) **Valuation reserve**

The aim of this reserve is to ensure sufficient cash resources are available to undertake a General Valuation as per the Municipal Property Rates Act.

The contribution to this reserve should be approximately 25% of the anticipated cost of the General Valuation and the Accounting Officer is hereby delegated to determine this amount annually during the compilation of the annual financial statements.

(e) **Other statutory reserves**

It may be necessary to create reserves prescribed by law, such as the Housing Development Fund. The Accounting Officer must create such reserves according to the directives in the relevant laws.

3.3.2 NON – CASH FUNDED RESERVES

It might be necessary to create non – cash funded reserves for a variety of reasons, including GRAP requirements. The Accounting Officer must create any reserves prescribed by the accounting standards, such as the Revaluation Reserve, if required.

The Accounting Officer is hereby delegated and may also in the discretion of the Accounting Officer, create reserves for future depreciation offsetting, in the absence of a standard similar to IAS 20.

3.4 ACCOUNTING FOR RESERVES

3.4.1 REVALUATION RESERVE

The accounting for the Revaluation Reserve must be done in accordance with the requirements of GRAP 17.

3.4.2 OTHER RESERVES

The accounting for all other reserves must be processed through the Statement of Financial Performance. The required transfer to or from the reserves must be processed in the Statement of Net Assets to or from the accumulated surplus.

It is a condition of GRAP and this policy that no transactions may be directly appropriated against these reserves.

4. SECTION C: REVIEW OF THE POLICY

This Funding and Reserves Policy is the only policy of the municipality and replaces any past policies in this regard. Any revision of the policy must be approved by the Municipal Council.

Whenever the Minister of Finance or the National Treasury or the Auditor – General requests changes to the policy by way of legislation, changes to GRAP or otherwise, it must be reviewed and submitted for consideration by the Council on an annual basis. Such submission must be accompanied with a full description of the reasons for the change to the policy.

18. IMPLEMENTATION AND REVIEW 10

1. PURPOSE

1.1. To provide the Municipality with a borrowing framework policy.
1.2. Set out the objectives, policies, statutory requirements as well as guidelines for the borrowing of funds.

2. OBJECTIVES

2.1. The objectives of the policy are to:
2.2. enable the municipality to exercise their obligation to ensure sufficient cash resources to implement capital programme in the most cost effective manner;
2.3. ensure compliance with the relevant legal and statutory requirements relating to Municipal borrowing;
2.4. govern the taking up of short-term and long-term debt according to the legislative framework
2.5. manage interest rate and credit risk exposure
2.6. maintain debt with specified limits and ensure adequate provision for the repayment of debt and
2.7. To maintain financial sustainability.

3. SCOPE OF THIS POLICY

3.1. The primary goal in the borrowing of funds is to ensure that the funds are obtained at the lowest possible interest rates at minimum risk, within the parameters of authorized borrowings.
3.2. This policy shall apply the Council, Mayoral Committee, all Portfolio Committees, Accounting Officer, Strategic Executive Directors and all staff of the municipality. It is, however, specifically applicable to the council and all officials who have a formal, administrative duty to deal with capital projects and programmes of the municipality and the management of the budget.

4. BORROWING ETHICS

4.1. In dealing with financial institutions, the following ethical principles must be adhered to:
4.2. The Chief Financial Officer shall not accede to any influence by or interference from councillors, borrowing institutions or any outsiders.
4.3. Under no circumstances may inducements to borrow be accepted.

5. LEGISLATION

5.1. The legislative framework governing borrowings are:
5.1.1. Local Government Municipal Finance Management Act, Act 56 of 2003; and
5.1.2. Local Government Municipal Regulations and Debt Disclosure, Regulation R492, published under Government Gazette 29966, 15 June 2007.

6. COMPULSORY DISCLOSURE WHEN INCURRING MUNICIPAL DEBT

6.1. The Municipal Regulations on Debt Disclosure has been promulgated (Government Gazette no. 29966, 15 June 2007) and has been effective from 01 July 2007 for a municipality or municipal entity. Refer to Annexure A2, Municipal Finance Management Act: Municipal Regulations on Debt Disclosure.

6.2. The implementation of the regulations will help to strengthen the level of confidence in municipal fiscal affairs and enable the capital markets to effectively participate by providing access to a range of competitive funding instruments for the provision of municipal infrastructure and other capital development in accordance with section 46 of the Municipal Finance Management Act

6.3. In the case of short-term debt it must be disclosed whether the debt is to bridge:

6.3.1. Shortfalls within a financial year during which the debt is incurred, in expectation or specific and realistic anticipated revenue to be received with that financial year; or

6.3.2. Capital needs within a financial year, to be repaid from specific funds to be received from enforceable allocation or long-term debt commitments.

6.4. In the case of long-term debt, whether the purposes of the debt is for:

6.5. Capital expenditure on property, plant or equipment to be used for the purpose of achieving the objectives of local government, subject to section 46(4) of the Act.

6.6. Refinancing of existing long-term debt, subject to section 46(5) of the Act.

7. PROCESS

The process as required by the Act is as follows:

7.1. Short-term debt

7.1.1. A municipality may incur short-term debt only if:

7.1.1.1. A resolution of the municipal council, signed by the executive mayor, has approved the debt agreement; and

7.1.1.2. The accounting officer has signed the agreement or other document which creates or acknowledges the debt.

7.1.2. A short term debt transaction may be:

7.1.2.1. approve individually; or

7.1.2.2. approve an agreement with a lender for short-term credit facility to be accessed as and when required, including a line of credit or bank overdraft facility, provided that:

7.1.3. the credit limit must be specified in the resolution of the council;

7.1.4. in terms of the agreement, including the credit limit, may be changed only by a resolution of the council; and

7.1.5. if the council approves a credit facility that is limited to emergency use, the accounting officer must notify the council in writing as soon as practical of the

amount, duration and cost of any debt incurred in terms of such a credit facility, as well as options for repaying such debt.

7.1.6. A municipality:

7.1.6.1. Must pay off short-term debt within the financial year; and

7.1.6.2. May not renew or refinance short-term debt, whether its own debt or that of any other entity, where such renewal or refinancing will have the effect of extending the short-term debt into a new financial year.

7.1.6.3. No lender may wilfully extend credit to a municipality for the purpose of renewing or refinancing short-term debt that must be paid off in terms of subsection 7.1.6.2

7.1.6.4. If a lender wilfully extends credit to a municipality in contravention of paragraph 7.1.6.3, the municipality is not bound to repay the loan or interest on the loan.

7.1.6.5. Subsection 7.1.6.1 does not apply if the lender:

7.1.6.5.1. Relied in good faith on written representations of the municipality as to the purpose of the borrowing; and

7.1.6.5.2. Did not know and had no reason to believe that the borrowing was for the purpose of renewing or refinancing short-term debt. Long-term debt

7.2. **Long-term debt**

7.2.1. A municipality may incur long-term debt only if:

7.2.1.1. A resolution of the municipal council, signed by the executive mayor, has approved the debt agreement; and

7.2.1.2. The accounting officer has signed the agreement or other document which creates or acknowledges the debt.

7.2.2. A municipality may incur long-term debt only if the accounting officer of the municipality:

7.2.2.1. has, in accordance with section 21A of the Municipal Systems Act:

7.2.2.2. at least twenty one (21) days prior to the meeting the council at which approval for the debt is to be considered, made public an information statement setting out particulars of the proposed debt, including the amount of the proposed debt, the purposes for which the debt is to be incurred and particulars of any security to be provided; and

7.2.2.3. invited the public, the National Treasury and the relevant provincial treasury to submit written comments or representations to the council in respect of the proposed debt; and

7.2.2.4. has submitted a copy of the information statement to the municipal council at least twenty one (21) days prior to the meeting of the council, together with particulars of:

7.2.2.4.1. the essential repayment terms, including the anticipated debt repayment schedule; and

7.2.2.4.2. The anticipated total cost in connection with such debt over the repayment period.

7.2.3. Capital expenditure contemplated in 5.3(a) may include:
7.2.3.1. Financing costs, including:
7.2.3.1.1. capitalized interest for a reasonable initial period;
7.2.3.1.2. Costs associated with security arrangements in accordance with section 48 of the Act;
7.2.3.1.3. discounts and fees in connection with the financing;
7.2.3.1.4. fees for legal, financial, advisory, trustee, credit rating and other services directly connected to the financing; and
7.2.3.1.5. Costs connected to the sale or placement of debt, and costs for printing and publication directly connected to the financing.
7.2.3.1.6. Costs of professional services directly related to the capital expenditure; and
7.2.3.1.7. Such other costs as may be prescribed.

7.2.4. A municipality may borrow money for the purpose of refinancing existing long-term debt, provided that:
7.2.4.1. the existing long-term debt was lawfully incurred;
7.2.4.2. the refinancing does not extend the term of the debt beyond the useful life of the property, plant or equipment for which the money was originally borrowed
7.2.4.3. the net present value of projected future payments (including principal and interest payments) after refinancing is less than the net present value of projected future payments before refinancing; and
7.2.4.4. the discount rate used in projecting net present value referred to in paragraph (c), and any assumptions in connection with the calculations, must be reasonable and in accordance with criteria set out in a framework that may be prescribed.
7.2.5. A municipality's long-term debt must be consistent with its capital budget referred to in section 17(2) of the Act.

8. CONDITIONS

Witzenberg Municipality may incur debt only if:
8.1. the debt is denominated in rand and is not indexed to, or affected by fluctuations in the value of the rand against any foreign currency; and
8.2. section 48(3) of the Act has been complied with, if security is to be provided by the municipality.

9. SECURITIES

9.1. Witzenberg Municipality may by resolution of its council provide security for:
9.1.1. any of its debt obligations; and
9.1.2. contractual obligations of the municipality undertaken in connection with capital expenditure by the persons on property, plant or equipment to be used by the

municipality or such other person for the purpose of achieving the objectives of local government in terms of section 152 of the Constitution.

9.2. Appropriate security is contemplated in section 48(2) of the Act.

9.3. Other additional conditions to be complied with are contemplated in section 48(3) to (5) of the Act.

10. DISCLOSURE

The Municipality must, when interacting with a prospective Lender or when preparing documentation for consideration by a prospective Investor, disclose all relevant information that may be requested or that may be material to the decision of the prospective Lender or Investor. Reasonable care must be taken to ensure the accuracy of any information disclosed. Whilst this is a standard and acceptable business practice, it is also in compliance with section 49 of the Municipal Finance Management Act.

11. GUARANTEES

11.1. The Municipal Finance Management Act provides that the Municipality may not guarantee any debt of any entity unless the entity is a Municipal entity under its sole ownership control. The debt must be reflected in the approved business plan of the entity. The guarantee must be authorized by the Municipality. This must be done in the same manner and subject to the same conditions applicable to any other borrowings. Neither the National nor Provincial Government may guarantee the debt of any Municipality.

11.2. Witzenberg Municipality may not issue any guarantee for any commitment or debt of any organ of state or person, except on the following condition:

11.3. The guarantee must be within limits specified in the municipality's approved budget.

11.4. Neither the national nor a provincial government may guarantee the debt of a municipality except to the extent that chapter 8 of the Public Finance Management Act provides for such guarantees

12. SUBMISSION OF DOCUMENTS

When entering into discussion with a prospective lender with a view to incur short-term or long-term debt, the following information must be made available to the prospective lender.

12.1. audited financial statements for the preceding three (3) financial years with audited outcomes;

12.2. approved annual budget;

12.3. the municipal integrated development plan;

12.4. Repayment schedules pertaining to existing short-term or long-term debt.

13. NOTIFICATION TO NATIONAL TREASURY

All information prescribed in the act must be provided to National Treasury with respect to a long-term debt proposal.

Information to be provided with respect to a long-term debt proposal

	Details	MFMA
A	A copy of the *information statement* required by section 46(3), containing particulars of the proposed borrowing (debt) instrument.	46(3)(a)(i)
B	If not already incorporated in the *information statement*, the following information should be provided separately (note QBMR = Quarterly Borrowing Monitoring Return to NT, see over page for further information): amount of debt to be raised through borrowing or other means purposes for which the borrowing (debt) is to be incurred interest rate(s) applicable (state whether fixed or variable etc) planned start and end date (term of instrument) detailed repayment schedule for the duration of the borrowing (debt) (showing dates and all payments of principal and interest, etc) total estimated cost of the borrowing (debt) over the repayment period type of instrument (select from QBMR) security to be provided (select from QBMR) and provide details source of loan funds (select from QBMR)	46(3)(b)(i) and (ii)
C	A schedule of consultation undertaken, including: date(s) when the *information statement* was made public details of meetings, media adverts and other methods used to consult on the proposed long-term borrowing (debt)	46(3)(a)(i), (ii)
D	A copy of the approved budget, and relevant documentation supporting the budget, highlighting the asset(s) to be funded by the proposed borrowing (debt) and the revenue to be received. It must be demonstrated that the proposed borrowing (debt) is consistent with the IDP, the capital budget and the revenue is shown accordingly.	46(6) 17(2) 19
E	If the borrowing (debt) is for the purpose of refinancing existing long-term borrowing (debt), the following information: description of the asset(s) for which the original loan was required the useful remaining life of the asset(s) the net present value of the asset(s), including the discount rate used	46(5)

	and any assumptions in the calculations the net present value of projected future payments before refinancing, including the discount rate and assumptions used. the net present value of projected future payments after refinancing, including the discount rate and assumptions used.	
F	What source of funding will be used to repay the loan? Please specify the revenue stream(s) and whether this is existing revenue, or new revenue.	19(1)(d)
G	Schedule of all long-term borrowing (debt) obligations in the format of the QBMR showing principal and interest payments for the life of all loans and any associated investments set up as sinking funds etc.	
H	A copy of the council/board of directors' resolution approving the borrowing (debt) instrument should be forwarded once approved.	

14. FINANCIAL AFFAIRS OF THE MUNICIPALITY

14.1. The following information concerning the financial situation and financial management of the municipality must be disclosed:

14.1.1. schedule of all long-term debt obligations stating principal and interest payments for the life of all loans and any security provided to secure such debt;

14.1.2. the amount of any short-term debt outstanding;

14.1.3. the revenue of the municipality for the preceding three (3) financial years stated separately:

14.1.4. Government grants and public donations;

14.1.5. Revenue from rates and service charges and other revenue sources

14.1.6. what source of funding will be used to repay the loan;

14.1.7. details of any default by the municipality on outstanding or repaid debt during the preceding three (3) years;

14.1.8. the reserves of the municipality;

14.1.9. a summary of financial policies and practices; and

14.1.10. The latest credit rating obtained.

15. INTEREST RATE RISK

15.1. As a general principle when interest rates are expected to decrease, it is advisable that a floating rate be negotiated in order to take advantage of the lower interest rates in future. If interest rates are expected to increase, it is advisable to obtain a fixed rate so that the benefits of the current low interest rate are maintained.

15.2. The interest risk must be limited in so far as possible. The policy directive is to negotiate fixed interest rates for all long-term borrowings. This will ensure stability

of the repayments and reduce the risk for high rates and tariff increases as a result of interest rate hikes in the market.

15.3. Variable rates should be considered for short-term debt only.

16. LIMITATIONS

To ensure a financial viable municipality the following ratios are used to determine the municipal gearing ability to borrow:

16.1. Long-term credit rating of BBB;

16.2. Interest cost to total expenditure to not exceed 8%;

16.3. Long-term debt to revenue (excluding grants) not be exceed 50%;

16.4. Payment rate mature above 95%; and

16.5. Percentage of capital charges to operating expenditure less than 18%.

17. PROHIBITED BORROWING PRACTICES

Witzenberg Municipality shall not borrow for investment purposes, with the sole purpose of investing to earn a return. The cost of debt is almost always more expensive than the return that the Municipality can derive by investing in permitted investments. Foreign Borrowing is permitted in terms of section 47 of the Municipal Finance Management Act, whereby the debt must be denominated in Rand and is not indexed to, or affected by, fluctuations in the value of the Rand against any foreign currency.

18. IMPLEMENTATION AND REVIEW

18.1. The Accounting Officer shall be responsible for the implementation and administration of this policy with the assistance of the Strategic Executive Director for Financial Services Department once approved by Council. All future borrowings must be considered in accordance with this policy read with MFMA and Local Government Municipal Regulations and Debt Disclosure, Regulation R492, published under Government Gazette 29966, 15 June 2007 and other directives and guidelines issued by National Treasury.

18.2. In terms of section 17(1) (e) of the Municipal Finance Management Act, 2003 this policy shall be reviewed on annual basis to ensure that it complies with changes in applicable legislation and regulation and the reviewed policy tabled to Council for approval as part of the budget process .

18.3. This policy must be read together with the Budget and Funding and Reserves Policies; Local Government Municipal Finance Management Act, Act 56 of 2003; and Local Government Municipal Budget and Reporting Regulation, Regulation 393, published under Government Gazette 32141, 17 April 2009.

CELLULAR TELEPHONE AND DATA CARD POLICY

Date of implementation 01 July 2013

CELLULAR TELEPHONE AND DATA CARD POLICY

1. **Purpose**

The purpose of this policy is to determine guidelines for the:

- Management of cellular telephones
- Acquisition of cellular telephones
- Acquisition of data cards
- Management of data cards

2. **General**

2.1 It is recognised that cellular telephones are useful communications tools is in many cases essential for Municipal officials to carry out their duties. To this end this policy shall regulate the provision of a cellular telephone and/or data cards for officials in the Witzenberg Municipality.

2.2 All applications for cellular telephones and/or data cards shall require the approval of the Municipal Manager.

2.3 In considering the granting of a cellular phone and/or data card, the Municipal Manager shall take into account all of the following: -

2.3.1 Operational responsibility of the applicant.
2.3.2 Availability of funds.
2.3.3 Time spent outside of the office by the official.
2.3.4 The need for constant and immediate contact of the official.
2.3.5 Improvement in efficiency of the official.
2.3.6 Need for immediate contact with councillors and the public.
2.3.7 Safety of officials.

3 **General Controls**

3.1 An annual review shall be carried out by the Municipal Manager to determine the continued need for all cellular telephones and/or data cards.

3.2 If it is determined that an official no longer qualify for a cellular telephone and/or data card, he/she must be advised in writing of the decision with at least a two months' notice period.

4 Limit of allowances

4.1 The allowable all-inclusive expenditure for cellular telephones, tablets and/or data cards will be limited to the following maximum monthly amounts excluding VAT.

Positions[1]	**Contract by municipality**	**Allowance to employee**
Municipal Manager	3 000	5 000
Directors	3 000	5 000
T Level 18	900	1 200
T Level 14 - 17	700	1 000
Other Approved Employee's	350	500
Data Allowance	350	500
Tablets MM & Directors	1 550	2 600

[1] Amendment proposed

4.2 The municipal manager can in exceptional cases and on justifiable grounds on written application by a person whose cell phone expenditure is above the maximum monthly limit set above, determine in writing a higher limit for that specific month.

4.3 Any account in excess of the allowable maximum amounts as stated in paragraph 4.1 or the higher limit in paragraph 4.2 above, will be deducted from the relevant employee's salary as soon as possible.

4.4 Where no written determination by the municipal manager in terms of paragraph 4.2 is received on or before the 10th of the month, any account in excess of the allowable maximum amounts as stated in paragraph 4.1 will be deducted from the relevant employee's salary as soon as possible.

4.5 Before any cellular telephone and/or data card is handed over to an employee he or she must sign the relevant authority that any excess can be deducted from his or her salary.

4.6 The municipal manager can adjust these amounts annually subject to budgetary provisions.

4.7 All employees that qualify for the cellular phone, tablet and data card allowance will receive the allowance and not a municipal funded cellular phone or data card. All employees' receiving this allowance must ensure that the item for which the allowance is received is in working condition and has the necessary airtime/data to perform their functions.

4.8 The local government regulations on appointment and conditions of employment of senior managers in terms of the Local Government: Municipal Systems Act, 2000 (act no. 32 of 2000) section 40 determines that a senior manager is entitled to compensation for the use of a mobile telephone and data card for official purposes in accordance with the relevant policy of the municipality.[2]

4.9 The municipal manager and directors shall receive the above allowances and have the option to use municipal contracts, on condition that the cost of the contract be deducted from their respective allowances/salaries.[3]

5 Additional charges

5.1 All additional charges including but not limited to the following will be for the account of the user:

Content charges
Subscriptions
Cellular phone data charges

6 Cellular telephones, tablets and Data Card Allowance

6.1 The municipal manager may approve that a monthly allowance not exceeding the limits as per paragraph 4.1 be paid to employees that qualify for the use of cellular telephones or data cards.

6.2 Employees that elect the allowance option must provide a cellular phone and/or data card to be used for official business and may not use municipal cellular telephones and/or data cards.

6.3 Proof that the cellular phone and/or data card is available for official use must be provided on request. If the required proof cannot be provided the allowance will be stopped with immediate effect.

6.4 The municipality will only pay the allowance to the user; all cost in excess of the allowance will be for the account of the user.

6.5 The allowance will be paid together with the employees' monthly salary.

[2] Included 29 May 2018
[3] Recommended for inclusion

6.6 The recipient of the allowance will be responsible for the payment of income tax on the allowance, which will be deducted from the employee's salary.

7 Management and control of cellular telephones and data card needs

7.1 A register of all cellular telephones and data cards and service agreements must be maintained by the Administration department.

7.2 All cellular telephones and data cards will be obtained on a rental agreement.

7.3 The agreement for a cellular phone must be conducted in the Municipalities name.

7.4 The agreement for a data card must be conducted in the Municipalities name.

7.5 No cellular telephones or data cards will be upgraded for improved models before the contract has expired, unless indicated to the contrary by the service provider or on recommendation by the relevant director or head of department.

7.6 After lapse of the agreement, the cellular phone or data card becomes the property of the employee.

7.7 If the relevant employee leaves the employment of the municipality before the agreement lapse, the cellular phone and/or data cards with the relevant SIM cards must be handed in at the administration department who must ensure that it is in working condition and that it is the correct SIM cards.

7.8 The cellular phone number is the property of the Witzenberg municipality and cannot be transferred to employees.

8 Insurance

8.1 All reasonable care must be taken to protect the equipment from damage, destruction or loss and any proof of negligence shall be dealt with within the context of Council's disciplinary code.

8.2 The Excess payment on insurance claims will be for the account of the user of the cellular phone or data card.

9 ICT policies

9.1 Users of data cards acknowledge that all other ICT policies adopted by Witzenberg Municipality are applicable on the usage of the data cards.

10 Promotional Items and or Gift Vouchers

10.1 Any promotional items and or gift vouchers received with a cellular phone and or data contract will be the property of the municipality and not of the employee.

10.2 The only exception to the above is tablets that can be used by the employee for official purposes for the duration of the rental agreement, where after it will become the property of the employee.

11 Procurement

11.1 The administration of the procurement process will be done by the Administration section.

11.2 The procurement of cellular telephones and data cards will be done by the Supply Chain Unit.

SUPPLY CHAIN MANAGEMENT POLICY

LOCAL GOVERNMENT: MUNICIPAL FINANCE MANAGEMENT ACT, 2003

Proposed date for adoption: 1 April 2013

Council resolves in terms of section 111 of the Local Government Municipal Finance Management Act (No. 56 of 2003), to adopt the following proposal as the Supply Chain Management Policy of the municipality**.**

TABLE OF CONTENTS

1. Definitions
2. Policy statement and objectives

CHAPTER 1
IMPLEMENTATION OF SUPPLY CHAIN MANAGEMENT POLICY

3. Supply chain management policy
4. Amendment of supply chain management policy
5. Delegation of supply chain management powers and duties
6. Sub delegations
7. Oversight role of council
8. Supply chain management unit
9. Training of supply chain management officials

CHAPTER 2
SUPPLY CHAIN MANAGEMENT SYSTEM

10. Format of supply chain management system
11. Communication with the municipality

Part 1: Demand management

12. System of demand management

Part 2: Acquisition management

13. System of acquisition management
14. Range of procurement processes

15. General preconditions for consideration of written quotations or bids
16. Lists of accredited prospective providers
17. Petty cash purchases
18. Written price quotations
19. Formal written price quotations
20. Procedures for procuring goods or services through written or verbal quotations and formal written price quotations
21. Competitive bids
22. Process for competitive bidding
23. Bid documentation for competitive bids
24. Public invitation for competitive bids
25. Site meetings/ bid clarification meetings
26. Submission of bids
27. Procedure for handling, opening and recording of bids and formal written price quotations in excess of R30 000
28. Procedure for the opening of bids where a two envelope system is followed
29. Communication with bidders before bid closing
30. Negotiations with preferred bidders
31. Two-stage bidding process
32. Validity periods
33. Samples
34. Committee system for competitive bids
35. Bid specification committees
36. Bid evaluation committees
37. Bid adjudication committees
38. Procurement of banking services
39. Procurement of IT related goods or services
40. Procurement of goods and services under contracts secured by other organs of state
41. Procurement of goods necessitating special safety arrangements
42. Proudly SA Campaign
43. Appointment of consultants
44. Deviation from, and ratification of minor breaches of, procurement processes
45. Unsolicited bids
46. Combating of abuse of supply chain management system

Part 3: Logistics, Contract, Disposal, Risk and Performance Management

47. Logistics management
48. Contract Management
49. Disposal management
50. Risk management
51. Performance management

[4] Amended by council 30 May 2017
[5] Removed by Council 10 March 2023

good practice on black economic empowerment issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act. [6]

"Final award", in relation to bids or quotations submitted for a contract, means the final decision on which bid or quote was accepted;

"Formal written price quotation" means a written or electronic offer to the municipality in response to an invitation to submit a quotation as referred to in paragraph 19 of this Policy;

"Green procurement" means the procurement of environmentally friendly products and services;[7]

"Head of Department" means a Senior Manager as defined in the Municipal Finance Management Act, 2003 (Act no.56 of 2003) and who is responsible for a vote as assigned by the Accounting Officer;

"Individual deviation" means a deviation from the normal procurement process as set out in this policy that affect only one contract / procurement award made in circumstances where it is impractical to follow the normal procurement process and in an emergency situation.

"In the service of the state" means to be –

(a) A member of –
  (i) Any municipal council;
  (ii) Any provincial legislature; or
  (iii) The National Assembly or the National Council of Provinces;
(b) A member of the board of directors of any municipal entity;
(c) An official of any municipality or municipal entity;
(d) An employee of any national or provincial department, national or provincial public entity or constitutional institution within the meaning of the Municipal Finance Management Act, 2003 (Act No.56 of 2003); and Public Finance Management Act, 1999 (Act No. 1 of 1999)
(e) A member of the accounting authority of any national or provincial public entity; or
(f) An employee of Parliament or a provincial legislature;

"Joint Venture or Consortium" means an association of persons formed for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for

[6] Amended by council 30 May 2017
[7] Amended by council 30 May 2017

the execution of a contract or contracts. The Joint Venture must be formalised by agreement between the parties.

"Line manager" means a manager reporting directly to a senior manager and who is responsible for a cost centre as assigned by the relevant senior manager;

"Long term contract" means a contract with a duration period exceeding one year and does not have the same meaning as contracts of a long term nature referred to in paragraph 24(1)(e) of this policy;[8]

"Long term nature contract" means a contract as defined by section 33(1) of the Municipal Finance Management Act imposing financial obligations on the Municipality beyond the first three years covered in the approved annual budget; [9]

"List of accredited prospective providers" means the list of accredited prospective providers which the municipality must keep in terms of paragraph 16 of this policy;[10]

" Municipality" means Witzenberg Municipality or any person(s) or committee delegated with the authority to act on its behalf.

"Other applicable legislation" means any other legislation applicable to municipal supply chain management, including –

(a) the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000), as amended;
(b) The Broad-Based Black Economic Empowerment Act, 2003 (Act No. 53 of 2003), as amended;
(c) The Construction Industry Development Board Act, 2000 (Act No.38 of 2000), as amended; and
(d) The Preferential Procurement Regulations, as amended[11]
(e) The Local Government: Municipal Systems Act;[12]
(f) The Competition Act; and[13]

[8] Amended by council 30 May 2017
[9] Amended by council 30 May 2017
[10] Amended by council 30 May 2017
[11] Amended by council 30 May 2017
[12] Amended by council 30 May 2017
[13] Amended by council 30 May 2017

(g) The Promotion of Administrative Justice Act.[14]

"Policy" means this Supply Chain Management Policy as amended from time to time by Council

"Targeted Labour" means those individuals employed by a contractor, or sub- contractor, in the performance of a contract, who are defined in the contract as the target group, and who permanently reside in the municipal area.

"Tender' referred to in the Preferential Procurement Regulations as amended, has the same meaning as "bid" as defined in this policy[15]

"Treasury guidelines" means any guidelines on supply chain management issued by the Minister in terms of section 168 of the Act;

"The Act" means the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003);

"The Regulations" means the Local Government: Municipal Finance Management Act, 2003, Municipal Supply Chain Management Regulations published by Government Notice 868 of 2005;

"Written quotations" means quotations referred to in paragraph 18 of this Policy.[16]

2. Policy statement and objectives

Section 111 of the Municipal Finance Management Act requires each municipality and municipal entity to adopt and implement a supply chain management policy, which gives effect to the requirements of the Act.

In addition, the Preferential Procurement Policy Framework Act requires an Organ of State to determine its Preferential Procurement Policy and to implement it within the framework prescribed.

[14] Amended by council 30 May 2017
[15] Amended by council 30 May 2017
[16] Amended by council 30 May 2017

The objectives of this Policy are:

- to give effect to section 217 of the Constitution of the Republic of South Africa by implementing a system that is fair, equitable, transparent, competitive and cost effective;
- to comply with all applicable provisions of the Municipal Finance Management Act including the Municipal Supply Chain Management Regulations published under GN868 in Government Gazette 27636 30 May 2005 and any National Treasury Guidelines issued in terms of the MFMA; regulations pertaining thereto, including:
  - the Preferential Procurement Policy Framework Act;
  - the Broad-Based Black Economic Empowerment Act;
  - the Construction Industry Development Board Act;
  - the Local Government: Municipal Systems Act; and
  - the Promotion of Administrative Justice Act.
  - the Competition Act.[17]

CHAPTER 1
IMPLEMENTATION OF SUPPLY CHAIN MANAGEMENT POLICY

3. Supply chain management policy

(1) All officials and other role players in the supply chain management system of the municipality must implement this Policy in a way that –

(a) Gives effect to –

(i) Section 217 of the Constitution; and

(ii) Part 1 of Chapter 11 and other applicable provisions of the Act;

(b) is fair, equitable, transparent, competitive and cost effective; (c) Complies with –

(i) The Regulations; and

(ii) Any minimum norms and standards that may be prescribed in terms of section 168 of the Act;

(d) is consistent with other applicable legislation;

(e) does not undermine the objective for uniformity in supply chain management systems between organs of state in all spheres; and

[17] Amended by council 30 May 2017

(f) is consistent with national economic policy concerning the promotion of investments and doing business with the public sector.

(2) This Policy applies when the municipality – (a) Procures goods or services;
(b) Disposes of goods no longer needed;
(c) Selects contractors to provide assistance in the provision of municipal services otherwise than in circumstances where Chapter 8 of the Municipal Systems Act applies; and
(d) Selects external mechanisms referred to in section 80 (1) (b) of the Municipal Systems Act for the provision of municipal services in circumstances contemplated in section 83 of that Act.
(e) the procurement of goods and services under a contract secured by that other organ of state, provided that the relevant supplier has agreed to such procurement.

(3) This Policy, except where provided otherwise, does not apply in respect of the procurement of goods and services contemplated in section 110(2) of the Act, including –
(a) Water from the Department of Water Affairs or a public entity, another municipality or a municipal entity; and
(b) Electricity from Eskom or another public entity, another municipality or a municipal entity.

4. Amendment of the supply chain management policy

(1) The accounting officer must –
(a) at least annually review the implementation of this Policy; and
(b) When the accounting officer considers it necessary, submit proposals for the amendment of this Policy to the Council.

(2) If the accounting officer submits proposed amendments to the Council that differs from the model policy issued by the National Treasury, the accounting officer must –
(a) Ensure that such proposed amendments comply with the Regulations; and
(b) Report any deviation from the model policy to the National Treasury and the relevant provincial treasury.

(3) When amending this supply chain management policy, the need for uniformity in supply chain practices, procedures and forms between organs of state in all spheres, particularly to promote accessibility of supply chain management systems for small businesses must be taken into account.

5. Delegation of supply chain management powers and duties

(1) The council hereby delegates all powers and duties to the accounting officer which are necessary to enable the accounting officer –

(a) To discharge the supply chain management responsibilities conferred on accounting officers in terms of –

(i) Chapter 8 or 10 of the Act; and

(ii) This Policy;

(b) to maximize administrative and operational efficiency in the implementation of this Policy;

(c) to enforce reasonable cost-effective measures for the prevention of fraud, corruption, favouritism and unfair and irregular practices in the implementation of this Policy; and

(d) To comply with his or her responsibilities in terms of section 115 and other applicable provisions of the Act.

(2) Sections 79 and 106 of the Act apply to the sub delegation of powers and duties delegated to an accounting officer in terms of subparagraph (1).

(3) The accounting officer may not sub delegate any supply chain management powers or duties to a person who is not an official of the municipality or to a committee which is not exclusively composed of officials of the municipality;

(4) This paragraph may not be read as permitting an official to whom the power to make final awards has been delegated, to make a final award in a competitive bidding process otherwise than through the committee system provided for in paragraph 35-37 of this Policy.

6. Sub delegations

(1) The accounting officer may in terms of section 79 or 106 of the Act sub delegate

any supply chain management powers and duties, including those delegated to the accounting officer in terms of this Policy, but any such sub delegation must be consistent with subparagraph (2) of this paragraph and paragraph 4 of this Policy.

(2) The power to make a final award –

(a) Above R 10 million (VAT included) may not be sub delegated by the accounting officer;

(b) Above R2 million (VAT included), but not exceeding R10 million (VAT included), may be sub delegated but only to – (i) The chief financial officer;

(ii) A bid adjudication committee of which the Chief Financial Officer is a member / Chairperson;

(c) Not exceeding R2 million (VAT included) may be sub delegated but only to –

(i) The chief financial officer; (ii) A senior manager;

(iii) A manager directly accountable to the chief financial officer or a senior manager; or

(iv) A bid adjudication committee.

(3) An official or bid adjudication committee to which the power to make final awards has been sub delegated in accordance with subparagraph 5(2) must within five days of the end of each month submit to the official referred to in subparagraph 5(4) a written report containing particulars of each final award made by such official or committee during that month, including–

(a) The amount of the award;

(b) The name of the person to whom the award was made; and

(c) The reason why the award was made to that person.

(4) A written report referred to in subparagraph 5(3) must be submitted – (a) To the accounting officer, in the case of an award by –

(i) The chief financial officer;

(ii) A bid adjudication committee of which the chief financial officer; or

(b) To the chief financial officer or his delegate responsible for the relevant bid, in the case of an award by –

(i) A manager referred to in subparagraph 5 (2) (c) (ii); or

(ii) A bid adjudication committee of which the chief financial officer is a member.

(5) Subparagraphs 5(3) and 5(4) of this policy do not apply to procurements out of petty cash.

(6) This paragraph may not be interpreted as permitting an official to whom the power to make final awards has been sub delegated, to make a final award in a competitive bidding process otherwise than through the committee system provided for in paragraph 26 of this Policy.

(7) No supply chain management decision-making powers may be delegated to an advisor or consultant/ consulting engineer.

7 Oversight role of council

(1) The Council reserves its right to maintain oversight over the implementation of this Policy.

(2) For the purposes of such oversight the accounting officer must –

(a) within 30 days of the end of each financial year, submit a report on the implementation of this Policy and the supply chain management policy of any municipal entity under the sole or shared control of the municipality, to the council of the municipality; and

(b) Whenever there are serious and material problems in the implementation of this Policy, immediately submit a report.

(3) The Supply Chain Manager must, within 4 days of the end of each quarter, submit a report on the implementation of the supply chain management policy to the Chief Financial Officer, of which he must submit it within 3 days to the Accounting Officer**.** The Accounting Officer must within 3 days after receiving the report submit it to the Mayor.

(4) The reports must be made public in accordance with section 21A of the Municipal Systems Act.

8. Supply chain management unit

(1) Witzenberg Municipality has established a supply chain management unit to implement this Policy.

(2) The supply chain management unit operates under the direct supervision of the chief financial officer whom this duty has been delegated in terms of section 82 of the Act.

9 Training of supply chain management officials

(1) The training of officials involved in implementing this Policy should be in accordance with any Treasury guidelines on supply chain management training.

CHAPTER 2
SUPPLY CHAIN MANAGEMENT SYSTEM

10. Format of supply chain management system

This Policy provides systems for –

(1) Demand management;

(2) Acquisition management;

(3) Logistics management;

(4) Disposal management;

5) Risk management; and

(6) Performance management.

11. Communication with the municipality

(1) All correspondence with regards to this policy shall be addressed to the Manager: Supply Chain Management.

Part 1: Demand management

12. System of demand management

(1) The accounting officer has established and implemented an appropriate demand management system in order to ensure that the resources required by the municipality support its operational commitments and its strategic goals outlined in the Integrated Development Plan.

(2) The demand management system -

(a) include timely planning and management processes to ensure that all goods and services required by the municipality are quantified, budgeted for and timely and effectively delivered at the right locations and at the critical delivery dates, and are of the appropriate quality and quantity at a fair cost;

(b) take into account any benefits of economies of scale that may be derived in the case of acquisitions of a repetitive nature; and

(c) Provide for the compilation of the required specifications to ensure that its needs are met.

(d) undertake appropriate industry analysis and research to ensure that innovations and technological benefits are maximized.

(e) provide efficient and effective provisioning and procurement systems and practices to enable the municipality to deliver the required quantity and quality of services to the communities.

(f) establish uniform procedures, documents and contracts and the implementation of sound systems of control and accountability.

(g) establish a professional supply chain management system which results in continuing improvement in affordability and value for money, based on total cost of ownership and quality of procurement as competition amongst suppliers is enhanced.

(3) Green procurement must be incorporated as far as reasonable possible, for all specifications of goods, services and construction works.

(4) In the development of bid specifications, innovative mechanisms should be explored to render the service or product more resource and energy efficient.

Part 2: Acquisition management

13 System of acquisition management

(1) The objectives of this acquisition management system are to ensure:

(a) that goods and services, including construction works and consultant services are procured by the municipality only in accordance with the authorised procedures incorporated herein;

(b) that expenditure on goods and services, including construction works and consultant services is incurred in terms of an approved budget; and

(c) that the threshold values of the different procurement procedures are complied with.

(d) that bid documentation, evaluation and adjudication criteria, and general conditions of contract are in accordance with the requirements of relevant legislation including, the Preferential Procurement Policy Framework Act, and any conditions of the Construction Industry Development Board Act; and

(e) that procurement guidelines issued by the National Treasury are taken into account.

(2) When procuring goods or services contemplated in section 110(2) of the Act, the accounting officer must make public the fact that such goods or services are procured otherwise than through the municipality's supply chain management system, including -

(a) The kind of goods or services; and

(b) The name of the supplier.

(3) Unless otherwise indicated in the bid documents, the municipality shall not be liable for any expenses incurred in the preparation and / or submission of a bid or quotation.

(4) Bid documentation may state that alternative bids can be submitted provided that a bid is in accordance with the bid documents is also submitted.

(5) An alternative bid shall be submitted on a separate complete set of bid documents and shall be clearly marked "Alternative Bid" to distinguish it from the main bid offer referred to above.

(6) Bid documentation shall state that the municipality will not be bound to consider alternative bids.

(7) The Manager Supply Chain management may extend the bid closing date if circumstances justify the action, provided that the closing date may not be

extended unless a notice is published in the same newspapers as the original advertisement prior to the original bid closing date.

(8) The notice referred to in paragraph 13 (7) must also be posted on the municipal notice boards, the municipal website and a notice must be sent to all bidders

14. Range of procurement processes

(1) Goods and services may only be procured by way of

(a) One written price quotation up to a transaction value of R 2,000 (VAT included);

(b) Petty cash purchases up to a transaction value of R 2,000 (VAT included) for items specified in the Petty Cash policy;

(c) Three written price quotations for procurements of a transaction value over R 2,000 up to R10,000 (VAT included);

(d) Three formal written price quotations for procurements of a transaction value over R 10,000 up to R200,000 (VAT included); and

(e) A competitive bidding process for–

(i) Procurements above a transaction value of R200 000 (VAT included); and

(ii) The procurement of long term contracts.

(2) The accounting officer may, in writing lower, but not increase, the different threshold values specified in subparagraph 14(1);

(3) For quotations (up to R 30 000) bidders are required to be registered on the municipality's supplier database or Central Supplier database (CSD) prior to the acceptance of their quotation in respect of the goods or services required.[18]

(4) Goods or services may not deliberately be split into parts or items of a lesser value merely to avoid complying with the requirements of the policy. When determining transaction values, a requirement for goods or services consisting of different parts or items must as far as possible be treated and dealt with as a single transaction.

[18] Amended by Council 10 March 2023

15. General preconditions for consideration of written quotations or bids

(1) A written quotation or bid may not be considered unless the provider who submitted the quotation or bid –

(a) Has furnished that provider's – (I) Full name;

(ii) Identification number or company or other registration number; and

(iii) Tax reference number and VAT registration number, if any;

(iv) registration number in terms of section 18(1) of the Construction Industry Development Board Act, 2000 (Act No.38 of 2000), should the provider quote or bid to undertake, carry out or complete any construction works or portion thereof;

(b) Has provided the municipality with an original and valid tax clearance from the South African Revenue Services confirming that the provider's tax matters are in order; and

(c) Has indicated –

(I) Whether he or she is in the service of the state, or has been in the service of the state in the previous twelve months;

(ii) if the bidder is not a natural person, whether any of its directors, managers, principal shareholders or stakeholder is in the service of the state, or has been in the service of the state in the previous twelve months; or

(iii) Whether a spouse, child or parent of the provider or of a director, manager, shareholder or stakeholder referred to in subparagraph (ii) is in the service of the state, or has been in the service of the state in the previous twelve months;

(iv) On their supplier database application form if the supplier or person is in the service of the state, that such declaration be deemed as sufficient and that the responsibility rests on the supplier to notify the supply chain management unit of any changes hereto.

(v) Has completed, signed and submitted a certificate of independent bid determination with their bid or quotation.

(2) Laws of the Republic of South Africa shall govern contracts arising from the acceptance of bids and quotations.

(3) Where the acquisition in question is likely to involve an imported component which will be subject to foreign exchange rate adjustments, the bid documentation must specify that the contractor take out a forward exchange contract in order to fix the Rand based price as soon as possible after the award.

16 Lists of accredited prospective providers

(1) The accounting officer must –

(a) keep a list of accredited prospective providers of goods and services that must be used for the procurement requirements through written or verbal quotations and formal written price quotations for procurement up to R 30 000; and

(b) at least twice a year through newspapers commonly circulating locally, the website and any other appropriate ways, invite prospective providers of goods or services to apply for evaluation and listing as accredited prospective providers;

(c) specify the listing criteria for accredited prospective providers;

(d) disallow the listing of any prospective supplier on the municipality's supplier database who do not comply with the accreditation requirements i.e. listing criteria and also based on standards, set by any relevant control bodies that govern or regulate the category of service or industry.

(e) disallow the listing of any prospective provider whose name appears on the National Treasury's List of Restricted Suppliers and/or Registered for Tender Defaulters and/or a person or business prohibited from doing business with the public sector.

(2) The list must be updated at least quarterly to include any additional prospective providers and any new commodities or types of services. Prospective providers must be allowed to submit applications for listing at any time.

(3) The list must be compiled per commodity and per type of service.

(4) The accounting officer may use the Central Supplier Database hosted by National Treasury for procurement.[19]

17 Petty cash purchases

Petty cash purchases must be done according to the Petty Cash policy. The conditions for the procurement of goods by means of petty cash purchases referred to in paragraph 14 (1) (b) of this Policy, are as follows–

(a) The Accounting Officer may delegate the responsibility for petty cash to an official directly or indirectly reporting to the CFO;

(b) No item that is an approved stores item might be purchase by means of a petty cash transaction;

(c) No fixed asset of whatever value may be purchase through petty cash;

(d) The nature of petty cash transactions that can be processed as petty cash transactions are listed in paragraph 5 of the Petty Cash policy;

(e) The Council will determine annually the maximum amount of petty cash expenditure per month as referred to in paragraph 6 of the petty cash policy;

(f) A monthly reconciliation report must be provided to the chief financial officer, within five days of the end of each month containing particulars of each final award made by an official during that month, including:

(i) The total amount of petty cash purchases for that month; and

(ii) Receipts and appropriate documents for each purchase.

18 Written Price quotations

(1) The conditions for the procurement of goods or services through written price quotations are as follows:

(a) All requirements below R2 000.00 (VAT incl.) which are not covered by the Petty Cash policy, one written price quotation must be obtained from providers who are listed as accredited prospective service providers.

(b) All requirements between R2 000.00 (VAT incl.) and R 10 000.00 (VAT incl.) three written price quotations must be obtained from providers who are listed as accredited prospective service providers.

[19] Amended by council 30 May 2017

(c) Where no suitable providers are available from the list of accredited prospective providers, quotations may be obtained from other possible providers, provided that such providers meet the listing criteria;[20]

19 Formal written price quotations

(1) The conditions for the procurement of goods or services through formal written price quotations are as follows:

(a) Quotations must be obtained in writing from at least three different providers whose names appear on the list of accredited prospective providers of the municipality;

(b) Quotations may be obtained from providers who are not listed, provided that such providers meet the listing criteria; [21]

(c) if it is not possible to obtain at least three quotations, the reasons must be recorded and approved by the chief financial officer or an official designated by the chief financial officer, and

(d) The Chief Financial Officer must record the names of the potential providers and their written quotations.

(2) A designated official referred to in subparagraph 19 (1) (c) must within three days of the end of each month report to the chief financial officer on any approvals given during that month by that official in terms of that subparagraph.

20 Procedures for procuring goods or services through written or verbal quotations and formal written price quotations

(1) The procedure for the procurement of goods or services through written quotations or formal written price quotations is as follows:

(a) When using the list of accredited prospective providers, the accounting officer must promote on-going competition amongst providers by inviting providers to submit quotations on a rotation basis;

(b) all requirements in excess of R30 000 (VAT included) that are to be procured by means of formal written price quotations must, in addition to the requirements of paragraph 19, be advertised for at least seven days on the website and official notice boards of the municipality;

[20] Amended by council 30 May 2017
[21] Amended by council 30 May 2017

(c) Offers received must be evaluated on a comparative basis taking into account unconditional discounts;

(d) the accounting officer or chief financial officer must on a monthly basis be notified in writing of all written quotations and formal written price quotations accepted by an official acting in terms of a sub delegation;

(e) Offers below R30 000 (VAT included) must be awarded based on compliance to specifications and conditions of contract, ability and capability to deliver the goods and services and lowest price;

(f) Acceptable offers, which are subject to the preference points system (PPPFA; Preferential Procurement Regulations as amended and this policy), must be awarded to the bidder who scored the highest points;[22]

(g) Comply with all requirements for proper record keeping.

21 Competitive bids

(1) Goods or services above a transaction value of R200 000 (VAT included) and long term contracts may only be procured through a competitive bidding process, subject to paragraph 13(2) of this Policy.

(2) No requirement for goods or services above an estimated transaction value of R200 000 (VAT included), may deliberately be split into parts or items of lesser value merely for the sake of procuring the goods or services otherwise than through a competitive bidding process.

(3) The accounting officer may split unduly large quantities of work into smaller contracts (units) to provide opportunities for emerging entrepreneurs and make it manageable. This may only be done when it is technically, logistically and financially feasible.

22 Process for competitive bidding

(1) The procedures for the following stages of a competitive bidding process are as follows:

(a) Compilation of bidding documentation as detailed in paragraph 23

(b) Public invitation of bids as detailed in paragraph 24;

(c) Site meetings or bid clarification meetings as detailed in paragraph 25;

(d) Handling of bids submitted in response to public invitation as detailed in

[22] Amended by council 30 May 2017

paragraph 27;

(e) Evaluation of bids as detailed in paragraph 36;

(f) Award of contracts as detailed in paragraph 37;

(g) Administration of contracts - After approval of a bid, the accounting officer and the bidder must enter into a written agreement.

(h) Proper record keeping -

(i) Original / legal copies of written contracts agreements should be kept in a secure place for reference purposes.

23 Bid documentation for competitive bids

(1) The criteria to which bid documentation for a competitive bidding process must –

(a) Take into account –

(i) The general conditions of contract and any special conditions of contract, if specified;

(ii) Any Treasury guidelines on bid documentation; and

(iii) The requirements of the Construction Industry Development Board, in the case of a bid relating to construction, upgrading or refurbishment of buildings or infrastructure;

(iv) And clearly indicate the terms and conditions of contract specifications, criteria for evaluation and adjudication procedures to be followed where applicable, and include if and where site meetings/ bid clarification meetings are compulsory.

(b) include the preference points system to be used, goals as contemplated in the PPPFA; Preferential Procurement Regulations as amended and this policy;[23]

(c) Compel bidders to declare any conflict of interest they may have in the transaction for which the bid is submitted;

(d) Provide for an appropriate contract and / or delivery period;

(e) stipulate if the value of the transaction is expected to exceed R10 million (VAT included), require bidders to furnish–[24]

(i) If the bidder is required by law to prepare annual financial statements for auditing, their audited annual financial statements

[23] Amended by council 30 May 2017

[24] Amended by Council 26 May 2021

–

(aa) for the past three years; or

(bb) since their establishment if established during the past three years;

(ii) a certificate signed by the bidder certifying that the bidder has no undisputed commitments for municipal services towards a municipality or other service provider in respect of which payment is overdue for more than 30 days;

(iii) Particulars of any contracts awarded to the bidder by an organ of state during the past five years, including particulars of any material non-compliance or dispute concerning the execution of such contract;

(iv) a statement indicating whether any portion of the goods or services are expected to be sourced from outside the Republic, and, if so, what portion and whether any portion of payment from the municipality or municipal entity is expected to be transferred out of the Republic; and

(f) Stipulate that disputes must be settled by means of mutual consultation, mediation (with or without legal representation), or, when unsuccessful, in a South African court of law.

(g) Not be aimed at hampering competition, but rather to ensure fair, equitable, transparent, competitive and cost effective bidding, as well as the protection or advancement of persons or categories of persons.

24 Public invitations for competitive bids

(1) The procedure for the invitation of competitive bids is as follows:

(a) On completion of the bid specification process the municipality shall publicly invite bids.

(b) Any invitation to prospective providers to submit bids must be by means of a public advertisement in newspapers commonly circulating locally, the website of the municipality or any other appropriate ways (which may include an advertisement in the Government Tender Bulletin);

(b) The notice may require a payment of a non-refundable bid fee by bidders who require bid documents. The bid documentation fee shall be determined by the accounting officer from time to time

(d) The information contained in a public advertisement, must indicate –

(i) The title of the proposed bid;

(ii) The bid number;

(iii) The date, time and location of any site meeting/ bid clarification meeting and whether such meetings are compulsory;

(iv) Whether functionality is required;

(v) The place where the bid documentation is available for collection and the times between which bid documents may be collected;

(vi) The bid documentation fee;

(vii) The place where bids must be submitted;

(viii) The closing date and time for submission of bids; and

(ix) The required CIDB contractor grading for construction work, if applicable.

(e) The closure date for the submission of bids, which may not be less than 30 days in the case of transactions over R4 million (VAT included), or which are of a long term nature, or 14 days in any other case, from the date on which the advertisement is placed in a newspaper, subject to subparagraph 22(2) of this policy;

(f) A statement that bids may only be submitted on the bid documentation provided by the municipality, must be included.

(2) The accounting officer may determine a closure date for the submission of bids which is less than the 30 or 14 days' requirement, but only if such shorter period can be justified on the grounds of urgency or emergency or any exceptional case where it is impractical or impossible to follow the official procurement process.

(3) Bids submitted must be sealed and must clearly indicate the bid number and bid title on the outside of the envelope for which the bid is being submitted.[25]

(4) Details of all prospective bidders who have been issued with bid documents

[25] Amended by council 30 May 2017

must be recorded by the Supply Chain Management Unit and shall remain confidential for the duration of the bid period. Details of prospective bidders must, wherever possible, include the full name of the person drawing documents, the name of the company for whom the bid documents are, a contact person, a contact telephone, a fax number and a postal and email address.

(5) A bidder that did not pay the prescribed bid document fee, will be disqualified from the bidding process.

(6) The municipality may require bidders to submit section(s) of their bid in electronic format, but only after the bid closing date. If the electronic copy differs from the original hard copy, the original hard copy will be binding.

25. Site meetings/ bid clarification meetings

(1) Site meetings/ bid clarification meetings will, in general, not be compulsory. In exceptional circumstances however, a site meeting/ bid clarification meeting may be made compulsory with the approval of the relevant director.

(2) If site meetings/ bid clarification meeting are to be held, full details must be included in the bid notice and the bid document, including whether or not the site meeting/ bid clarification meeting is compulsory.

(3) Where site meetings/ bid clarification meetings are made compulsory, the date for the site meetings/ bid clarification meeting shall be not less than 7 (seven) days after the bid has been advertised.

(4) Site meetings/ bid clarification meeting will be chaired by a duly authorised representative from the Supply Chain Management Unit. The relevant line manager responsible for a specific bid or the duly appointed consulting engineering firm employee must be present at the site meetings/ bid clarification meeting in order to provide technical information and to answer technical related questions that might arise from the prospective bidders.

(5) The chairperson of the site meeting/ clarification meeting must explain the way how the site meetings/ bid clarification will be conducted and must exclude prospective bidders that arrive after the meeting has been opened.

(6) Prospective bidders present at the site meetings/ bid clarification meeting, will be required to confirm their attendance by signing the attendance register as provided by the Supply Chain Management Unit.

(7) In instances where bid documentation provides for an attendance certificate, such a certificate must be signed by the representative of the Supply Chain Management Unit who was present at the site meetings/ bid clarification meeting and submitted with the bid document.

(8) If at a site meetings/ bid clarification meeting, any additional information is provided or clarification of vague points is given, such additional information or clarification must be conveyed to all bidders in writing within a time frame as determined by the municipality, but not later than 7 (seven) days before the bid closing date.

(9) Drawings and other supplements to bid documents may be provided to prospective bidders at the site meetings/ bid clarification meeting.

(10) A bidder who failed to attend a compulsory site meeting/ bid clarification meeting will be disqualified from the bidding process.

26. Submission of bids

(1) Bids must be submitted before the closing time, at the address and in accordance with the directives in the bid documents.

(2) Each bid must be in writing using non-erasable ink and must be submitted on the official Form of Bid/Offer issued with the bid documents.

(3) The bid must be submitted in a separate sealed envelope with the name and address of the bidder, the bid number and title, the bid box number (where applicable), and the closing date indicated on the envelope. The envelope may not contain documents relating to any bid other than that shown on the envelope. Only sealed bids will be accepted.

(4) The onus shall be on the bidder to place the sealed envelope in the official,

marked and locked bid box provided for this purpose, at the designated venue, not later than the closing date and time specified in the bid notice.

(5) No bids forwarded by telegram, facsimile or similar apparatus shall be considered.

(6) A bid is late if it is not placed in the relevant bid box by the closing time and date of such bid.

(7) A late bid shall not be admitted for consideration and shall be returned unopened (where feasible) to the bidder with the reason for the return thereof endorsed on the envelope.

27 Procedure for handling, opening and recording of competitive bids and formal written price quotations in excess of R 30 000[26]

(1) The procedures for the handling, opening and recording of **competitive** bids and formal written price quotations in excess of R 30 000, are as follows:[27]

(a) At least two officials, of whom one must be the delegated Supply Chain Management representative, must at all times, administer the opening of bids.

(b) At the specified closing time on the closing date the applicable bid box shall be closed.

(c) The bid box shall be opened in public as soon as practical after the closing time of the bid.

(d) Immediately after the opening of the bid box, all bids that are clearly marked shall be opened.

(e) The Supply Chain Management representative as delegated, shall read out the name of the bidder, if practical the bid amount, the BBBEE status level contribution of each bidder and the bid opening register will be made available for public inspection and published on the municipality's website.[28]

(f) Any bidder or member of the public has the right to request that the names of the bidders who submitted bids in time must be read out and,

[26] Amended by council 30 May 2017
[27] Amended by council 30 May 2017
[28] Amended by council 30 May 2017 – Amended by Council 10 March 2023

if practical, also each bidder's total bidding price;

(g) No information, except the provisions in subparagraph (e), relating to the bid should be disclosed to bidders or other persons until the successful bidder is notified of the award; and

(h) The Supply Chain Management representative that is delegated to open the bids must –

(i) stamp the bid document with the official municipal stamp together with the two signatories administering the bid opening

(ii) record in a register all bids received in time;

(iii) sign the register as well as the official assisting at the bid opening.

(iv) Make the register available for public inspection; and

(v) Publish the entries in the register and the bid results on the website.

(vi) No councillor may be present at the opening of bids.

(2) Bids shall be invalid, and shall be endorsed and recorded as such in the bid opening record by the responsible official to open the bid, in the following instances:

(a) If the bid is not sealed;

(b) if the bid, including the bid price amount, where applicable is not submitted on the official Form of Bid/Offer;

(c) if the bid is not completed in non-erasable ink;

(d) if the Form of Bid/Offer is signed, but the name of the bidder is not stated, or is indecipherable; or

(e) if in a two envelope system is followed, the bidder fails to submit both a technical proposal and a separate sealed financial offer/bid.

(3) A bid will not be invalidated if the amount in words and the amount in figures do not correspond, in which case the amount in words shall be read out at the bid opening and shall be deemed to be the bid amount.

(4) The Manager Supply Chain Management may, in compliance with paragraph 63 of this policy, provide a reasonable opportunity to a bidder who made

an innocent error and/ or omission in his/ her bid document, to correct the innocent error and/ or omission, provided that such opportunity will not unduly prejudice any of the other bidders.

(5) Bidders shall be afforded no longer than 48 hours from time of notification to correct such innocent errors and/ or omissions. If no response is received from such bidders at the deadline, the bid may be invalidated.

(6) When bids are declared invalid at the bid opening, the bid sum of such bids shall not be read out. However, the name of the bidder and the reason for the bid having been declared invalid shall be announced.

28 Procedure for the opening of bids where a two envelope system is followed

(1) If a two envelope system is followed, only the technical proposal will be opened at the bid opening.

(2) The unopened envelope containing the financial proposal shall be stamped and endorsed with the opening official's signature, and be retained by him/her for safekeeping.

(3) When required the financial offers/bids corresponding to responsive technical proposals, shall be opened by the opening officials in accordance with paragraph 27 (1) (a)

(4) All bidders who submitted responsive technical proposals must be invited to attend the opening of the financial offers/bids.

(5) Envelopes containing financial offers/bids corresponding to non-responsive technical proposals shall be returned unopened along with the notification of the decision of the Bid Adjudication Committee in this regard.

29 Communication with bidders before bid closing

(1) The Manager Supply Chain Management may, if necessary, communicate with bidders prior to bids closing.

(2) Such communication shall be in the form of a notice issued to all bidders by the Manager Supply Chain Management by either e-mail, facsimile, or

registered post as may be appropriate. A copy of the notice together with a transmission verification report/proof of posting shall be kept for record purposes. Notices should be issued at least one week prior to the bid closing date, where possible, except in terms of paragraph 13 (7).

(3) Notwithstanding a request for acknowledgement of receipt of any notice issued, the bidder will be deemed to have received such notice if the procedures in paragraph 29 (2) have been complied with.

30 Negotiations with preferred bidders

(1) The accounting officer may negotiate the final terms of a contract with bidders identified through a competitive bidding process as preferred bidders, provided that such negotiation –

(a) does not allow any preferred bidder a second or unfair opportunity; (b) is not to the detriment of any other bidder; and

(c) does not lead to a higher price than the bid as submitted. (2)

Minutes of such negotiations must be kept for record purposes.

31 Two-stage bidding process

(1) A two-stage bidding process is allowed for – (a) Large complex projects;

(b) Projects where it may be undesirable to prepare complete detailed technical specifications; or

(c) Long term projects with a duration period exceeding three years' subject to section 33 of the Act.

(2) In the first stage technical proposals on conceptual design or performance specifications should be invited, subject to technical as well as commercial clarifications and adjustments.

(3) In the second stage final technical proposals and priced bids should be invited.

(4) A two envelope system differs from a two-stage (prequalification) bidding process in that a technical proposal and the financial offer are submitted in separate envelopes at the same place and time. The financial offers will only be opened once the technical proposals have been evaluated.

32 Validity periods

(1) The period for which bids are to remain valid and binding must be indicated in the bid documents.

(2) The validity period is calculated from the bid closure date and bids shall remain in force and binding until the end of the final day of that period.

(3) This period of validity may be extended by the Manager: Supply Chain Management, provided that the original validity period has not expired, and that all bidders are given an opportunity to extend such period. Any such extension shall be agreed to by a bidder in writing.

(4) Bidders who fail to respond to such a request before the validity of their bid expires, or who decline such a request shall not be considered further in the bid evaluation process.

(5) In the event that an appeal is received, the validity period is deemed to be extended until finalisation of the appeal.

33. Samples

(1) Bid documents may require samples that must be submitted.

(2) Where samples are called for in the bid documents, samples (marked with the bid and item number as well as the bidder's name and address) shall be delivered separately (to the bid) to the Supply Chain Management representative mentioned in the bid document before the bid closing date.

(3) A register will be kept by the Supply Chain Management representative of samples received from prospective bidders. An acknowledgement of receipt shall be issued to the prospective bidder as proof of delivery.

(4) Bids may not be included in parcels containing samples.

(5) If samples are not submitted as required in the bid documents then the bid concerned must be declared non-responsive.

(6) Samples shall be supplied by a bidder at his/her own expense and risk. The municipality shall not be obliged to pay for such samples or compensate for the loss thereof, unless otherwise specified in the bid documents.

(7) If a bid is accepted for the supply of goods according to a sample submitted by the bidder, that sample will become the contract sample. All goods/materials supplied shall comply in all respects to that contract sample. If not, it might be deemed as a breach in contract.

(8) The municipality reserves the right not to return the contract sample and may dispose of it at its own discretion.

34. Committee system for competitive bids

(1) A committee system for competitive bids is hereby established, consisting of the following committees for procurement or cluster of procurements as the accounting officer may determine:

(a) A bid specification committee; (b) A bid evaluation committee; and

(c) A bid adjudication committee;

(2) The accounting officer appoints the members of each committee, taking into account section 117 of the Act; and

(3) A neutral or independent observer, appointed by the accounting officer, must attend or oversee a committee when this is appropriate for ensuring fairness and promoting transparency.

(4) The committee system must be consistent with – (a) Paragraph 35, 36 and 37 of this Policy; and (b) Any other applicable legislation.

(5) The accounting officer may apply the committee system to formal written price quotations.

35. Bid specification committees

(1) A bid specification committee must compile the specifications for

procurement of goods or services by the municipality.

(2) Specifications –

(a) Must be drafted in an unbiased manner to allow all potential suppliers to offer their goods or services;

(b) must take account of any accepted standards such as those issued by Standards South Africa, the International Standards Organisation, or an authority accredited or recognised by the South African National Accreditation System with which the equipment or material or workmanship should comply;

(c) Must, where possible, be described in terms of performance required rather than in terms of descriptive characteristics for design;

(d) may not create trade barriers in contract requirements in the forms of specifications, plans, drawings, designs, testing and test methods, packaging, marking or labelling of conformity certification;

(e) may not make reference to any particular trade mark, name, patent, design, type, specific origin or producer unless there is no other sufficiently precise or intelligible way of describing the characteristics of the work, in which case such reference must be accompanied by the word “equivalent”;

(f) must indicate the preference points system to be utilised as set out in the PPPFA; Preferential Procurement Regulations as amended and this policy; and[29]

(g) Must be approved by the relevant director prior to publication of the invitation for bids in terms of paragraph 24 of this Policy.[30]

(3) A bid specification committee must be composed of one or more officials of the municipality preferably the manager responsible for the function involved, and may, when appropriate, include external specialist advisors.

(4) No person, advisor or corporate entity involved with the bid specification committee, or director of such a corporate entity, may bid for any resulting contracts.

[29] Amended by council 30 May 2017
[30] Amended by council 30 May 2017

36. Bid evaluation committees

(1) A bid evaluation committee must –

(a) Evaluate bids in accordance with –

(a) the specifications for a specific procurement; and

(b) The points system set out in terms of paragraph 35 (2) (f). (b) Evaluate each bidder's ability to execute the contract;

(c) Check in respect of the recommended bidder whether municipal rates and taxes and municipal service charges are not in arrears, and;

(d) Submit to the adjudication committee a report and recommendations regarding the award of the bid or any other related matter.

(2) A bid evaluation committee must as far as possible be composed of- (a) Officials from departments requiring the goods or services; and

(b) At least one supply chain management practitioner of the municipality.

(3) The accounting officer may sub-delegate its power in terms of paragraph 63 of this policy to the bid evaluation committee.

37. Bid adjudication committees

(1) A bid adjudication committee must –

(a) Consider the report and recommendations of the bid evaluation committee; and

(b) Either –

(i) Depending on its delegations, make a final award or a recommendation to the accounting officer to make the final award; or

(ii) Make another recommendation to the accounting officer how to proceed with the relevant procurement.

(2) A bid adjudication committee must consist of at least four senior Managers of the municipality which must include –

(a) The Chief Financial Officer or, if the chief financial officer is not available, another manager in the budget and treasury office reporting directly to the chief financial officer and designated by the chief financial officer;

(b) at least one senior supply chain management practitioner who is an official of the municipality or the municipal entity; and

(c) a technical expert in the relevant field who is a Director of the municipality or municipal entity, if the municipality or municipal entity has such an expert

(3) A quorum is of 50 % plus 1, with the Chief Financial Officer or, if the chief financial officer is not available, another manager in the budget and treasury office reporting directly to the chief financial officer and designated by the chief financial officer being, at all times one of the quorum-forming members:

(4) The accounting officer may appoint the CFO as chairperson of the committee. If the chairperson is absent from a meeting, the members of the committee who are present must elect one of them to preside at the meeting and will be documented in the minutes.

(5) Neither a member of a bid evaluation committee, nor an advisor or person assisting the evaluation committee, may be a member of a bid adjudication committee.

(6) If the bid adjudication committee decides to award a bid other than the one recommended by the bid evaluation committee, the bid adjudication committee must prior to awarding the bid –

(a) check in respect of the preferred bidder whether that bidder's municipal rates and taxes and municipal service charges are not in arrears, and;

(b) Notify the accounting officer. (c) The accounting officer may –

(i) After due consideration of the reasons for the deviation, ratify or reject the decision of the bid adjudication committee referred to in paragraph (a)-(b); and

(ii) If the decision of the bid adjudication committee is rejected, refer the decision of the adjudication committee back to that committee for reconsideration.

(7) The accounting officer may at any stage of a bidding process, refer any

recommendation made by the evaluation committee or the adjudication committee back to that committee for reconsideration of the recommendation.

(8) The accounting officer must comply with section 114 of the Act within 10 working days

(9) If the Bid Adjudication Committee or other delegated official has resolved that a bid be accepted, the successful and unsuccessful bidders shall be notified in writing of this decision

(10) Every notification of decision shall be sent via fax or sent via electronic mail to the address chosen by the bidder, with a copy of proof of transmission kept for record purposes, or shall be delivered by hand, in which case acknowledgement of receipt must be signed and dated on a copy of such notification and kept for record purposes.[31]

(11) Members of the bid specification committee, bid evaluation committee and technical advisors may attend the bid adjudication committee to provide clarity, but has no decision making rights pertaining to the award.

(12) The accounting officer may sub-delegate its power in terms of paragraph 63 of this policy to the bid evaluation committee, the bid adjudication committee and the Manager Supply Chain Management.

38. Procurement of banking services

(1) A contract for banking services –

(a) Must be procured through competitive bids;

(b) Must be consistent with section 7 or 85 of the Act; and

(c) May not be for a period of more than five years at a time.

(2) The process for procuring a contract for banking services must commence at least nine months before the end of an existing contract.

(3) The closure date for the submission of bids may not be less than 60 Days

[31] Amended by Council 10 March 2023

from the date on which the advertisement is placed in a newspaper in terms of paragraph 22(1). Bids must be restricted to banks registered in terms of the Banks Act, 1990 (Act No. 94 of 1990).

39. Procurement of IT related goods or services

(1) The accounting officer may request the State Information Technology Agency (SITA) to assist with the acquisition of IT related goods or services through a competitive bidding process.

(2) Both parties must enter into a written agreement to regulate the services rendered by, and the payments to be made to, SITA.

(3) The accounting officer must notify SITA together with a motivation of the IT needs if –

(a) the transaction value of IT related goods or services required in any financial year will exceed R50 million (VAT included); or

(b) The transaction value of a contract to be procured whether for one or more years exceeds R50 million (VAT included).

(4) If SITA comments on the submission and the municipality disagree with such comments, the comments and the reasons for rejecting or not following such comments must be submitted to the council, the National Treasury, the relevant provincial treasury and the Auditor General.

40. Procurement of goods and services under contracts secured by other organs of state

(1) the accounting officer may procure goods or services under a contract secured by another organ of state, but only if –

(a) The contract has been secured by that other organ of state by means of a competitive bidding process applicable to that organ of state;

(b) There is no reason to believe that such contract was not validly procured;

(c) There are demonstrable discounts or benefits to do so; and

(d) That other organ of state and the provider have consented to such procurement in writing.

(2) Subparagraphs (1) (c) and (d) do not apply if –

(a) a municipal entity procures goods or services through a contract secured by its parent municipality; or

(b) A municipality procures goods or services through a contract secured by a municipal entity of which it is the parent municipality.

41. Procurement of goods necessitating special safety arrangements

(1) The acquisition and storage of goods in bulk (other than water), which necessitate special safety arrangements, including gasses and fuel, should be avoided where ever possible.

(2) Where the storage of goods in bulk is justified, such justification must be based on sound reasons, including the total cost of ownership, cost advantages and environmental impact and must be approved by the accounting officer.

42. Proudly SA Campaign/Local content

(1) The municipality supports the Proudly SA Campaign to the extent that, all things being equal, preference is given to procuring local goods and services.

(2) ~~Bids in respect of services, works or goods that have been designated for local production and content, must contain a specific bidding condition that only locally produced goods, services or works or locally manufactured goods with a stipulated minimum threshold for local production and content will be considered~~

~~(3) The National Department of Trade and Industry is empowered to designate industry sectors, in line with national development and industrial policies for local production, where only locally produced goods, services or construction works, or locally manufactured goods that meet a stipulated minimum threshold for local production and content, may be used.~~

~~(4) In the case of designated sectors, where in the award of bids, local production and content is of critical importance, such bids must be advertised with a specific condition of bidding, that only locally produced goods, services or construction works or locally manufactured goods, with a stipulated minimum~~

~~threshold for local production and content will be considered.~~

~~(5) Any instructions, circulars and guidelines issued by National Treasury in the above regard may be complied with.~~

~~(6) Where there is no designated sector, bids may include, as a specific condition of bidding, that only locally produced goods, services or construction works, or locally manufactured goods with a stipulated minimum threshold for local production and content, will be considered, on condition that such prescript and threshold(s) are in accordance with the specific directives issued for this purpose by the National Treasury in consultation with the Department of Trade and Industry.~~

~~(7) Every bid where local production and content are used, it must be measurable and audited.~~

~~(8) Bids must be evaluated in terms of the evaluation criteria stipulated in the bid documents. The amendment of the stipulated minimum threshold for local production and content after the closure of bids is not allowed as this may jeopardise the fairness of the process.~~[32]

43. Appointment of consultants

(1) the accounting officer may procure consulting services provided that any Treasury guidelines in respect of consulting services are taken into account when such procurements are made.

(2) Consultancy services must be procured through competitive bids if

(a) The value of the contract exceeds R200 000 (VAT included); or

(b) The duration period of the contract exceeds one year.

[32] Amended by council 10 March 2023

(3) In addition to any requirements prescribed by this policy for competitive bids, bidders must furnish particulars of –

(a) all consultancy services provided to an organ of state in the last five years; and

(b) Any similar consultancy services provided to an organ of state in the last five years.

(4) The accounting officer must ensure that copyright in any document produced, and the patent rights or ownership in any plant, machinery, thing, system or process designed or devised, by a consultant in the course of the consultancy service is vested in the municipality.

44. Deviation from and ratification of minor breaches of, procurement processes

(1) The accounting officer may –

(a) Dispense with the official procurement processes established by this Policy and procure any required goods or services through any convenient process, which may include direct negotiations and through the process set out in this paragraph provided that the municipality shall adhere to fair, equitable, transparent, competitive and cost-effective, procurements to the maximum extent practicable.

(b) Dispense with the official procurement processes established by this Policy only –

i. In an emergency;
ii. If such goods or services are produced or available from a single provider only;
iii. For the acquisition of special works of art or historical objects where specifications are difficult to compile;
iv. Acquisition of animals for zoos and/or nature and game reserves; or
v. In any other exceptional case where it is impractical or impossible to follow the official procurement processes; and

(c) Ratify any minor breaches of the procurement processes by an official or committee acting in terms of delegated powers or duties which are purely of a

technical nature.

(2) In compliance with the provisions of paragraph 44(1) the municipality implements individual and class deviations.

(3) Individual Deviations

The accounting officer may decide to consider an individual deviation only if –

(a) In an emergency

(b) In any other exceptional case where it is impractical or impossible to follow the official procurement processes; and the goods or services are anticipated to be used only once during the financial year.

.

(4) The conditions warranting procurement in an emergency dispensation should include, where time of the essence, the existence of one or more of the following:

(a) the possibility of human injury or death;

(b) the prevalence of human suffering or deprivation of rights;

(c) the possibility of damage to property, or suffering and death of livestock and animals;

(d) the interruption of essential services, including transportation and communication facilities or support services critical to the effective functioning of the municipality as a whole;

(e) the possibility of serious damage occurring to the natural environment;

(f) the possibility that failure to take necessary action may result in the municipality not being able to render an essential community service; and

(g) the possibility that the security of the state could be compromised.

(5) The accounting officer must be satisfied that the prevailing situation as indicated in (a)-(g) above is of such a scale and nature that it could not readily be alleviated by interim measures in order to allow time for normal bid, at least three quote procurement process or a class deviation.

(6) Where possible, in an emergency situation, three quotes in accordance with general acquisition management principles should be obtained and a report submitted to the Municipal Manager for approval. However, where time is of the essence, the emergency shall be immediately addressed, and the process formalised in a report to the Municipal Manager as soon as possible thereafter.

(7) System of class deviations:

(a) The accounting officer may decide to consider a class deviation, only if –

(i) Such goods or services are produced or available from a single provider;

(ii) For the acquisition of special works of art or historical objects where specifications are difficult to compile;

(iii) Acquisition of animals for zoos and/or nature and game reserves; or

(iv) In any other exceptional case where it is impractical or impossible to follow the official procurement processes and a contract for goods or services are likely to be awarded more than once in the financial year to the same supplier;

(8) Where possible, in considering a class deviation in terms of paragraph 44(7), three quotes in accordance with general acquisition management principles should be obtained and a report submitted to the Municipal Manager for approval.

(9) If the accounting officer decides to consider a class deviation in terms of paragraph 44 (7) (i)-(iv), other than in paragraph 44(8) the decision must be made public in accordance with section 21A of the Municipal Systems Act, together with

a) Reasons as to why the procurement is done through a class deviation and why it is not open to other competitors; and

(c) An invitation to the public or other potential suppliers to submit their comments within 14 days of the notice.

(10) The bid adjudication committee must consider the class deviation and make a recommendation to the accounting officer

(11) A meeting of the adjudication committee to consider a class deviation may be open to the public.

(12) When considering the class deviation, the adjudication committee must take into account –

(a) Any comments submitted by the public or suppliers;

(b) The indicative market prices of the goods or services;

(c) The duration or planned times of when the service or goods are needed;

(d) he proposed circumstances, conditions or limitations for the of use of the class deviation; and

(e) The reasons for deviating from the normal procurement process in compliance with paragraph 44

(13) The accounting officer must record the reasons for any deviations in terms of this policy and report them to the next meeting of the council and include it as a note to the annual financial statements.

(14) Paragraph 44 (13) of this policy does not apply to the procurement of goods and services contemplated in paragraph 13(2) of this policy.

45. Unsolicited bids

(1) In accordance with section 113 of the Act there is no obligation to consider unsolicited bids received outside a normal bidding process.

(2) The accounting officer may decide in terms of section 113(2) of the Act to consider an unsolicited bid, only if –

(a) the product or service offered in terms of the bid is a demonstrably or proven unique innovative concept;

(b) The product or service will be exceptionally beneficial to, or have exceptional cost advantages;

(c) The person who made the bid is the sole provider of the product or service; and

(d) The reasons for not going through the normal bidding processes are found to be sound by the accounting officer.

(3) If the accounting officer decides to consider an unsolicited bid that complies with subparagraph 45(2) of this policy, the decision must be made public in accordance with section 21A of the Municipal Systems Act, together with –

(a) Reasons as to why the bid should not be open to other competitors; (b) An explanation of the potential benefits if the unsolicited bid were accepted; and

(c) An invitation to the public or other potential suppliers to submit their comments within 30 days of the notice.

(4) The accounting officer must submit all written comments received pursuant to subparagraph (3), including any responses from the unsolicited bidder,

to the National Treasury and the relevant provincial treasury for comment.

(5) The adjudication committee must consider the unsolicited bid and may award the bid or make a recommendation to the accounting officer, depending on its delegations.

(6) A meeting of the adjudication committee to consider an unsolicited bid must be open to the public.

(7) When considering the matter, the adjudication committee must take into account –

(a) any comments submitted by the public; and

(b) Any written comments and recommendations of the National Treasury or the relevant provincial treasury.

(8) If any recommendations of the National Treasury or provincial treasury are rejected or not followed, the accounting officer must submit to the Auditor General, the relevant provincial treasury and the National Treasury the reasons for rejecting or not following those recommendations.

(9) Such submission must be made within seven days after the decision on the award of the unsolicited bid is taken, but no contract committing the municipality to the bid may be entered into or signed within 30 days of the submission.

46. Combating of abuse of supply chain management system

(1) The accounting officer must–

(a) Take all reasonable steps to prevent abuse of the supply chain management system;

(b) Investigate any allegations against an official or other role player of fraud, corruption, favouritism, unfair or irregular practices or failure to comply with this Policy, and when justified –

(i) Take appropriate steps against such official or other role player; or

(ii) Report any alleged criminal conduct to the South African Police Service;

(c) Check the National Treasury's database prior to awarding any contract to ensure that no recommended bidder, or any of its directors, is listed as a person prohibited from doing business with the public sector;

(d) Reject any bid from a bidder–

(i) if any municipal rates and taxes or municipal service charges owed by that bidder or any of its directors to the municipality, or to any other municipality or municipal entity, are in arrears for more than three months; or

(ii) Who during the last five years has failed to perform satisfactorily on a previous contract with the municipality or any other organ of state after written notice was given to that bidder that performance was unsatisfactory;

(e) Reject a recommendation for the award of a contract if the recommended bidder, or any of its directors, has committed a corrupt or fraudulent act in competing for the particular contract;

(f) Cancel a contract awarded to a person if –

(i) The person committed any corrupt or fraudulent act during the bidding process or the execution of the contract; or

(ii) An official or other role player committed any corrupt or fraudulent act during the bidding process or the execution of the contract that benefited that person; and

(g) Reject the bid of any bidder if that bidder or any of its directors –

i. Has abused the supply chain management system of the municipality or has committed any improper conduct in relation to such system;

(ii) Has been convicted for fraud or corruption during the past five years;

(iii) has wilfully neglected, reneged on or failed to comply with any government, municipal or other public sector contract during the past five years; or

(iv) Has been listed in the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004).

(2) The accounting officer must inform the National Treasury and relevant provincial treasury in writing of any actions taken in terms of paragraphs 46 (1) (b) (i)-(ii) of this policy.

Part 3: Logistics, Contract, Disposal, Risk and Performance Management

47. Logistics management

Logistics management must provide for an effective system in order to provide for the setting of inventory levels, placing of orders, receiving and distribution of goods, stores and warehouse management, expediting orders, transport management, vendor performance, maintenance and contract administration.

(1) The accounting officer must establish and implement an effective system of logistics management, which must include –

(a) Placing of orders:

(i) Purchase orders will be created with reference to requisitions where the supply source is either bids or quotations.

(ii) All purchase orders will be captured on the municipality's financial system

(b) Receiving of goods:

(i) Goods received must be captured on the municipality's financial system via a goods receive note with reference to the relevant purchase order number.

(ii) Deliveries of goods may not exceed the order quantity. Short deliveries will keep the purchase order open until the balance of the order is received or when the order is cancelled.

(c) Expediting orders:

(i) The purchasing expeditor will be required to monitor and expedite the transport of goods and outstanding purchase orders.

(ii) Reminder letters can be communicated automatically to vendors

based on the reminder levels (days before delivery due date) that are set in the bid or quotation.

(d) Stores / warehouse management

i. Stock is valued at the weighted average costing method per item and is VAT exclusive.

ii. Regular monitoring of spending patterns on types or classes of goods must be performed, where practical.

iii. Each item must have a unique stock item number.

iv. A formal stock count must be done on a quarterly basis and any surpluses, deficits, losses, damaged stock and obsolete stock must be reported by the Manager Supply Chain Management to Council.

v. Each stock item must have a minimum, maximum and re-order level which must be captured on the financial system.

vi. Stock items must be systematically replenished using the re-order point as per the financial system.

vii. Goods in transit must be taken into account during the replenishment of stock

viii. Stock levels must be revisited on an annual basis

ix. The financial system must indicate lead times for stock items x.

Before payment is approved, certification by the Storekeeper that the goods and services are received or rendered on time and is in accordance with the order, the general conditions of contract and specifications where applicable and that the price charged is as quoted in terms of a contract

xi. The Storekeeper must ensure appropriate standards of internal control and warehouse management are adhered to, to ensure that goods placed in stores are secure, safe and only used for the purpose for which they were purchased

xii. The Storekeeper must perform regular spot-checking of stock items to ensure that the items are on the correct shelving space and that the physical quantities correspond with the quantities as per the financial system. Any differences found must be reported to the Manager Supply Chain Management.

xiii. Items listed as stock, may not be procured outside of the stock system.

xiv. Where user departments require higher quantities of stock, a demand forecast must be provided to the Storekeeper in advance, taking lead time into consideration, to enable the Storekeeper to procure the requested quantities on time.

48. Contract management

1) Contract administration includes all administrative duties associated with a contract that has arisen through the acquisition/procurement processes described in this policy.

2) All contracts must be administered by a contract manager, who will be an internal official assigned to ensure the effective administration of the contract.

3) The contract manager will typically be the internal project manager assigned to the project as a whole, but may also be a cost centre owner or other responsible official.

4) A contract manager must be assigned to each contract and, where possible, should be involved from the earliest stages of the acquisition process.

5) The contract manager's duties and powers shall be governed by the conditions of contract and the general law.

6) In administering a contract, the contract manager will be required to form opinions and make decisions which, while in the Witzenberg Municipality's best interests, must be fair to all parties concerned.

7) Directors shall be responsible for ensuring that contract managers are: (a) assigned to all contracts within the Director's area of responsibility; and

(b) adequately trained so that they can exercise the necessary level of responsibility in the performance of their duties.

8) The contract manager must:

(a) ensure that all the necessary formalities in signing up the contract and/or issuing the purchase order(s) are adhered to;

(b) ensure that purchase orders are captured on the municipality's financial system in the form in accordance with the pricing schedule;

(c) ensure that all original contract documentation is lodged with Archives for record purposes;

(d) monitor on a monthly basis the performance of the service provider order to ensure that all of the terms and conditions of the contract are met;

(e) regularly report to the accounting officer on the management of the contract and the performance of the service provider;

(f) conduct contract risk assessments for contracts longer than 3 months as stated in paragraph 50 (4) and 50 (5);

(g) where necessary, take appropriate action where a service provider is underperforming or is in default or breach of the contract and to report such failures promptly to the accounting officer;

(h) where appropriate, authorise payments due in terms of the contract by processing payment certificates (if applicable), and ensuring that the necessary Service Entry Sheets or Goods Received Notes are lodged with the Finance Department for capturing on the municipality's financial system;

(i) contract variation or change procedures are approved by the accounting officer in writing which must be in line with the applicable general conditions of contract and this policy;

(j) administer disputes, in consultation with the Supply Chain Management Unit, in terms of this policy and the applicable conditions of contract;

(k) conduct, as appropriate, post contract reviews;

(l) maintain adequate records (paper and/or electronic) in sufficient detail on an appropriate contract file to provide an audit trail;

(m) act with care and diligence and observe all accounting and legal requirements;

(n) inform the Asset Management section of the location of newly procured assets for asset register and insurance purposes; and

(o) provide contract information to the Supply Chain Management Unit, as determined by the unit, after a contract has ended.

9) **Management of expansion or variation of orders against the original contract**

The accounting officer may expand contracts by not more than 20% for construction related goods, services and/or infrastructure projects and 15% for all other goods and/or services of the original value of the contract.

49. Disposal management

(1) Subject to the provisions of the Municipal Asset Transfer Regulations:

(a) moveable assets may be sold either by way of written price quotations, a competitive bidding process, auction or at market related prices, whichever is the most advantageous to the municipality;

(b) immovable property may be sold only at market related prices except when the public interest or the plight of the poor demands otherwise;

(c) in the case of the free disposal of computer equipment, the provincial department of education must first be approached to indicate within 30 days whether any of the local schools are interested in the equipment;

(d) in the case of fire arms, the National Conventional Arms Control Committee must approve any sale or donation of firearms to any person within or outside the Republic.

(e) where assets are traded in for other assets, the highest possible trade in price is negotiated

(2) The criteria for the disposal or letting of assets, including unserviceable, redundant or obsolete assets, subject to sections 14 and 90 of the Act; are as follows:

(A) A municipality may not transfer ownership as a result of sale or other transaction or otherwise permanently dispose of a capital asset needed to provide the minimum level of basic municipal services.

(B) A municipality may transfer ownership or otherwise dispose of capital asset other than one contemplated in subsection (1), but only after the municipal council, in a meeting open to the public-

(a) has decided on reasonable grounds that the asset is not needed to provide the minimum level of basic municipal services; and

(b) has considered the fair market value of the asset and the economic

and community value to be received in exchange for the asset

(3) Immovable property may only be let at market related rates except when the public interest or the plight of the poor demands otherwise and provided that all charges, rates, tariffs, scales of fees or other charges relating to the letting of immoveable property are annually reviewed;

(a) Except for compliance with paragraph 49(3) above, this policy shall not apply to the letting of immovable property unless decide otherwise by council.

(4) Assets may be disposed of by –

(i) Transferring the asset to another organ of state in terms of a provision of the Act enabling the transfer of assets;

(ii) Transferring the asset to another organ of state at market related value or, when appropriate, free of charge;

(iii) Selling the asset; or

(iv) Destroying the asset.

50. Risk management

(1) The accounting officer has established and implemented an effective system of risk management for the identification, consideration and avoidance of potential risks in the supply chain management system.

(2) Risk management include –

(a) The early and systematic identification of risks on a case-by-case basis;

(b) The allocation and acceptance of risks to the party best suited to manage such risks;

(c) Acceptance of the cost of the risk where the cost of transferring the risk is greater than that of retaining it;

(d) The management of risks in a pro-active manner and the provision of adequate cover for residual risks; and

(e) The assignment of relative risks to the contracting parties through clear and unambiguous contract documentation.

(3) Due care must be taken in the bid administration and

management process to minimise the risks of:

(a) litigation by unsatisfied service providers
(b) misinterpretation of municipal needs
(c) overstatement or understatement of municipal needs
(d) selecting or delivery of inappropriate goods and services
(e) poor value for money
(f) appointing inappropriate suppliers
(g) unethical conduct of suppliers and other official involved in the supply chain management process
(h) uneconomical, uncompetitive and inequitable procurement

(4) To give effect to paragraph 3 above, the municipality will identify risk inherent to a particular bid

(a) Risks may be identified for all bids during the specification stage of the bid process.
(b) Risks identified in (i) above may cover the entire life cycle of a contract from initiation to completion of the goods/services
(c) For contracts with a life cycle in access of 3 months, the risks may be reviewed at least monthly by the contract manager as referred to in paragraph 48(1)(e)(iii)
(d) The contract manager in conducting the review of the bid risks during the life cycle of the contract may add new or emerging risks when identified

(5) A risk table may be included at specification stage for each bid that may set out:

(a) Risk description
(b) Background to the risk
(c) Impact
(d) Likelihood
(e) Inherent risk
(f) Current controls
(g) Perceived control effectiveness
(h) Residual risk
(i) Risk owner
(j) Actions to improve management of the risk

(k) Time scale

(6) The risk rating methodology will be in accordance with the Witzenberg Municipality's risk management policy.

(7) The Evaluation and Adjudication Committee may review risks of bids receivedagainst the predetermined risk as identified at the bid specification stage and may in conducting the review of the bid add new or emerging risks and mitigating strategies when identified.

(8) At the briefing session with the successful bidder in terms of paragraph 66 of this policy:

(a) Risks identified during the Bid specification, bid evaluation and Bid adjudication process that pertains to the contract for goods or services may be disclosed to the successful bidder to improve mitigating factors.

(b) New and emerging risks identified may be added

(c) Risks identified by the successful bidder may be added to the contract risks if agreed to by the municipality.

51. Performance management

(1) The accounting officer must establish and implement an internal monitoring system in order to determine, on the basis of a retrospective analysis, whether the authorised supply chain management processes were followed and whether the objectives of this Policy were achieved.

(2) The quarterly report and annual report on the implementation of this policy, the monitoring of the service delivery and budget implementation plan (SDBIP) and the Annual Report may be used as tools to perform a retrospective analysis of supply chain management processes.

(3) **Vendor performance**

(a) Each project manager shall monitor the supplier's compliance and performance to the set of specifications.

(b) If the supplier fails to perform in accordance with the specification requirements, the project manager must report such failure to the supplier in writing immediately upon becoming aware of such non-compliance for them to correct the situation.

(c) The above information will be kept and made available for future evaluation purposes, contract negotiations and regular feedback to vendors.

(d) If vendors fail to deliver in terms of paragraph 23 (1) (a) of the General conditions of contract, the municipality reserves the right to make use of remedies at its disposal in terms of applicable law.

Part 4: Other matters

52. Prohibition on awards to persons whose tax matters are not in order

(1) No award above R15 000 (including VAT) may be made in terms of this policy to a person whose tax matters have not been declared by South African Revenue Service to be in order.[33]

(2) Before making an award to a person the accounting officer must first check with SARS whether that person's tax matters are in order.

(3) If SARS does not respond within 7 days such person's tax matters may for purposes of subparagraph (1) be presumed to be in order.

(4) It is the supplier's responsibility to provide the municipality with a valid and original tax clearance certificate.

53. Prohibition on awards to persons in the service of the state

(1) Irrespective of the procurement process followed, no award may be made to a person in terms of this Policy –

(a) Who is in the service of the state;

(b) If that person is not a natural person, of which any director, manager, principal shareholder or stakeholder is a person in the service of the state; or

(c) A person who is an advisor or consultant contracted with the municipality with the purpose of assisting the municipality with the defining of requirements, drafting of specifications or the evaluation of the bids.

(2) Persons and business must declare their interest as stated in 53(1)(a)-(c)

[33] Amended by council 30 May 2017

of this policy when completing their supplier database application forms and bid documents. Failure to do so may lead to disqualification.

(3) The municipality may utilise mechanisms at its disposal to determine whether a person is in the service of the state.

54. Awards to close family members of persons in the service of the state

(1) The municipality does not encourage the awarding of contract by employees in decision-making positions to close family members or friends. To this extent the municipality requires all employees to make full disclosures of businesses owned by close family members and/ or friends and it is further expected that such individuals must not directly or indirectly be involved in the awarding of such business

(2) The accounting officer must ensure that the notes to the annual financial statements disclose particulars of any award of more than R2000 to a person who is a spouse, child or parent of a person in the service of the state, or has been in the service of the state in the previous twelve months, including –

(a) The name of that person;

(b) The capacity in which that person is in the service of the state; and

(c) The amount of the award.

55. Ethical standards

(1) A code of ethical standards as set out in the "National Treasury's code of conduct for supply chain management practitioners" is hereby established for officials and other role players in the supply chain management system of the municipality in order to promote –

(a) mutual trust and respect; and

(b) An environment where business can be conducted with integrity and in a fair and reasonable manner.

(2) A breach of the code of ethics must be dealt with as follows -

(a) in the case of an employee, in terms of the disciplinary procedures of the municipality envisaged in section 67(1)(h) of the Municipal

Systems Act;

(b) In the case a role player who is not an employee, through other appropriate means in recognition of the severity of the breach.

(c) In all cases, financial misconduct must be dealt with in terms of chapter 15 of the Act.

56. Inducements, rewards, gifts and favours to municipalities, officials and other role players

(1) No person who is a provider or prospective provider of goods or services, or a recipient or prospective recipient of goods disposed or to be disposed of may either directly or through a representative or intermediary promise, offer or grant –

(a) any inducement or reward to the municipality for or in connection with the award of a contract; or

(b) Any reward, gift, favour or hospitality to – (i) Any official; or

(ii) Any other role player involved in the implementation of this Policy.

(2) The accounting officer must promptly report any alleged contravention of subparagraph 55 (1) to the National Treasury for considering whether the offending person, and any representative or intermediary through which such person is alleged to have acted, should be listed in the National Treasury's database of persons prohibited from doing business with the public sector.

(3) Subparagraph 55 (1) does not apply to gifts less than R350 in value.

57. Sponsorships

(1) The accounting officer must promptly disclose to the National Treasury and the relevant provincial treasury any sponsorship promised, offered or granted, whether directly or through a representative or intermediary, by any person who is –

(a) a provider or prospective provider of goods or services; or

(b) A recipient or prospective recipient of goods disposed or to be disposed.

58. Objections and complaints

(1) Persons aggrieved by decisions or actions taken in the implementation of this supply chain management system, may lodge within 14 days of the decision or action, a written objection or complaint against the decision or action.

59. Resolution of disputes, objections, complaints and queries

(1) The accounting officer must appoint an independent and impartial person, not directly involved in the supply chain management processes –

(a) To assist in the resolution of disputes between the municipality and other persons regarding -

(i) Any decisions or actions taken in the implementation of the supply chain management system; or

(ii) Any matter arising from a contract awarded in the course of the supply chain management system; or

(b) To deal with objections, complaints or queries regarding any such decisions or actions or any matters arising from such contract.

(2) The accounting officer, or another official designated by the accounting officer, is responsible for assisting the appointed person to perform his or her functions effectively.

(3) The person appointed must –

(a) Strive to resolve promptly all disputes, objections, complaints or queries received; and

(b) Submit monthly reports to the accounting officer on all disputes, objections, complaints or queries received, attended to or resolved.

(4) A dispute, objection, complaint or query may be referred to the Relevant provincial treasury if –

(a) The dispute, objection, complaint or query is not resolved within 60 days; or

(b) No response is forthcoming within 60 days.

(5) If the provincial treasury does not or cannot resolve the matter, the Dispute, objection, complaint or query may be referred to the National Treasury for resolution.

(6) This paragraph must not be read as affecting a person's rights to approach a court at any time.

60. Contracts providing for compensation based on turnover

(1) If a service provider acts on behalf of a municipality to provide any service or act as a collector of fees, service charges or taxes and the compensation payable to the service provider is fixed as an agreed percentage of turnover for the service or the amount collected, the contract between the service provider and the municipality must stipulate –

(a) A cap on the compensation payable to the service provider; and

(i) That such compensation must be performance based.

61. Compliance with Ethical standards

(1) In order to create an environment where business can be conducted with integrity and in a fair and reasonable manner, this Policy will strive to ensure that the accounting officer and all representatives of the Witzenberg Municipality involved in supply chain management activities shall act with integrity and in accordance with the highest ethical standards. All supply chain management representatives shall adhere to the code of conduct of municipal staff contained in schedule 2 of the Systems Act, the code of conduct for supply chain management practitioners and other role players (annexure A to this policy) and the Ethical code of suppliers (annexure B to this policy).

62. Handling of proprietary information

(1) All information designed and prepared for the municipality is deemed as proprietary. No such information may be distributed, modified or customised for third parties without the written permission of the accounting officer.

(2) All supplier information shall be treated as confidential

(3) In appropriate instances, the municipality may require security clearance and confidentiality agreements to be entered into with suppliers.

63. Non-compliance with peremptory requirements of bids

(1) The accounting officer is empowered to condone non-compliance with peremptory requirements of bids in cases where the condonation is not incompatible with

public interest and promote the values of fairness, competitiveness and cost-effectiveness which are listed in Section 217 of the Constitution.

64. Right of Appeal

(1) In terms of Section 62 of the Municipal Systems Act (Act 32 of 2000 as amended), a person whose rights are affected by a decision taken by the municipality, in terms of a delegated authority, in the implementation of its supply chain management system, may appeal against that decision by giving written notice of the appeal and reasons to the Municipal Manager within 14 days of the date of receipt of the notification of the decision.[34]

Bid documents must state that any appeal in terms of paragraph 64 must be submitted to the Municipal Manager, and must contain the following:

(a) reasons and/or grounds for the appeal;
(b) the way in which the appellants' rights have been affected; and
(c) the remedy sought by the appellant.

(2) The Municipal manager shall establish an appropriate appeal authority in terms of section 62 of the Systems Act, to consider appeals received in terms of paragraph 64(1) above

(3) The appeal authority must consider the appeal, and confirm, vary or revoke the decision, but no such variation or revocation of a decision may detract from any rights that may have accrued as a result of the decision

65. Unsuccessful bidder debriefing

(1) The unsuccessful bidder debriefing service is offered by the municipality to unsuccessful bidders upon request.
(2) During the debriefing unsuccessful bidders can find out how their proposal scored against required criteria and obtain comments from the evaluation team on their bid.
(3) The debriefing should be a positive and constructive experience that explains how bidders can improve future submissions.

(4) The debriefing an opportunity for unsuccessful bidders to:

[34] Amended by Council 26 May 2021

(a) Learn more about the procurement and evaluation process in an informal setting.

(b) Find out how their proposal scored against the required criteria. (c) Hear the overall comments from the evaluation team on your bid. (d) Gather information on how future submissions may be improved.

(5) The debriefing is not part of the Supply Chain complaint or appeal process in terms of paragraph 58 or 64 of this policy.

(6) The debriefing is not legal proceeding and no legal representation is permitted at the debriefing.

(7) At the debriefing session the unsuccessful bid is not compared to other bids, nor will information be provided to the unsuccessful bidder about other bids.

(8) In scheduling bidders' debriefings session upon the request of the unsuccessful bidder, the municipality must:

(a) Confirm the date and time of the debriefing session in writing; (b) Conduct separate debriefings with each vendor;

(c) Ensure that proper minutes are kept of each debriefing session;

(d) Retain all correspondence and documentation relevant to the debriefing session as part of the procurement documentation.

(9) In conducting bidder's debriefings, the municipality may:

(a) Provide a general overview of the evaluation process set out in the bid documents;

(b) Discuss the strengths and weaknesses of the bidder's submission in relation to the specific evaluation criteria and the bidders evaluated score.

(c) Provide suggestions on how the supplier may improve future submissions;

(d) Address specific questions and issues raised by the supplier in relation to their submission.

66. Successful bidder briefing

(1) The notification to the successful bidder in terms of paragraph 37(8) may require of the successful bidder to attend a compulsory briefing session with the municipality before commencement of the contract at no cost to the municipality.

(2) The purpose of the briefing session is to:

(a) Introduce the municipal contract manager allocated to the specific contract in terms of paragraph 48 and to meet the successful bidders contract manager;

(b) Examine and analyse the bid document and contractual conditions to ensure that specific expectations of the municipality and the obligations of the successful bidder are well understood;

(c) Discuss the strengths and weaknesses of the bidder's submission in relation to the specific evaluation criteria and the bidders evaluated score.

(d) Communicate and document the anticipated contract risks and challenges as perceived by both the municipality and the successful bidders;

(e) To develop mitigating strategies to address and mitigate the contract risk and challenges; and

(f) Communicate the contract administration process as stated in paragraph 48 of this policy.

(g) Formally sign the bid contract

(3) At least the following persons must attend the briefing session: (a) The municipal contract manager

(b) The authorised municipal supply chain official

(c) The successful bidders authorised contract signatory

(d) The successful bidders contract manager

(4) The notification to the successful bidder refer to in paragraph 66(1) must state the date, time and place of the briefing session in writing.

(a) Proper minutes must be kept of each briefing session;

(b) All correspondence and documentation in relation to the briefing session must be maintained as part of the procurement documentation.

67. Acceptance of offers

(1) At the invitation of bids, or quotations;

(a) the municipality is not obliged to accept the lowest or any offer;

(b) The municipality may, where an offer relates to more than one item, accept such offer in respect of or any specific item or items.

(c) The municipality may accept any offer notwithstanding the fact that the offer does not comply with the bid invitation in respect of which the offer has been made subject to the conditions of paragraph 63 of this policy.

68. ~~Preferential Procurement~~[35]

~~68.1 80/20 preference point system for acquisition of goods or services with Rand value equal to or above R30 000 and up to R50 million~~

~~(1) The following formula must be used to calculate the points out of 80 for price in respect of a tender with a Rand value equal to or above R30 000 and up to a Rand value of R50 million, inclusive of all applicable taxes:~~

$$Ps = 80\left(1 - \frac{Pt - Pmin}{Pmin}\right)$$

~~Where-~~
~~Ps = Points scored for price of tender under consideration;~~
~~Pt = Price of tender under consideration; and~~
~~Pmin = Price of lowest acceptable tender.~~

~~(2) A maximum of 20 points may be awarded to a tenderer for the specified goals envisaged in section 2(1)(d) and (e) of the Act.~~
~~(3) The points scored must be rounded off to the nearest two decimal places.~~
~~(4) A contract may be awarded to a tenderer that did not score the highest points only in accordance with section 2(1)(f) of the Act.~~

~~68.2 90/10 preference point system for acquisition of goods or services with Rand value above R50 million~~

~~(1) The following formula must be used to calculate the points out 90 for price in respect of a tender with a Rand value above R50 million, inclusive of all applicable taxes:~~

$$Ps = 90\left(1 - \frac{Pt - Pmin}{Pmin}\right)$$

~~Where-~~
~~Ps = Points scored for price of tender under consideration;~~

[35] Included 30 March 2022 – Removed by Council 10 March 2023

Pt = Price of tender under consideration; and
Pmin = Price of lowest acceptable tender.

(2) A maximum of 10 points may be awarded to a tenderer for the specified goals envisaged in section 2(1)(d) and (e) of the Act.
(3) The points scored must be rounded off to the nearest two decimal places.
(4) A contract may be awarded to a tenderer that did not score the highest points only in accordance with section 2(1)(f) of the Act.

68.3 80/20 preference points system for tenders to generate income or to dispose of or lease assets with Rand value equal to or above R30 000 and up to Rand value of R50 million

(1) The following formula must be used to calculate the points for price in respect of a tender to generate income or to dispose of or lease assets, with a Rand value equal to, or above R 30 000 and up to a Rand value of R50 million, inclusive of all applicable taxes:

$$Ps = 80\left(1 + \frac{Pt - Pmax}{Pmax}\right)$$

Where
Ps = Points scored for price of tender under consideration;
Pt = Price of tender under consideration; and
Pmax = Price of highest acceptable tender.

(2) A maximum of 20 points may be awarded to a tenderer for the specified goals envisaged in section 2(1)(d) and (e) of the Act.
(3) The points scored must be rounded off to the nearest 2 decimal places.
(4) A contract may be awarded to a tenderer that did not score the highest points only in accordance with section 2(1)(f) of the Act.

68.4 90/10 preference point system for tenders to generate income or to dispose of or lease assets with Rand value equal to or above R50 million

(1) The following formula must be used to calculate the points for price in respect of a tender to generate income or to dispose of or lease assets, with a Rand value above R50 million, inclusive of all applicable taxes:

~~$Ps = 90\left(1 + \frac{Pt - Pmax}{Pmax}\right)$~~

~~Where~~

~~Ps = Points scored for price of tender under consideration;~~

~~Pt = Price of tender under consideration; and~~

~~Pmax = Price of highest acceptable tender.~~

~~(2) A maximum of 10 points may be awarded to a tenderer for the specified goals envisaged in section 2(1)(d) and (e) of the Act.~~

~~(3) The points scored must be rounded off to the nearest 2 decimal places.~~

~~(4) A contract may be awarded to a tenderer that did not score the highest points only in accordance with section 2(1)(f) of the Act.~~

~~68.5 Points allocated for BBBEE:~~

~~BBBEE Status Level of Contributor~~	~~Number of Points Tenders with Rand value equal to or above R30 000 and up to Rand value of R50 million~~	~~Number of Points - tenders with Rand value equal to or above R50 million.~~

68 Cancellation of tenders[36]

(1) Tender invitations may, before the award be cancelled if;

(a) due to changed circumstances, there is no longer a need for the goods or services specified in the invitation;

(b) funds are no longer available to cover the total envisaged expenditure;

(c) no acceptable tender is received; or

[36] Included by Council 10 March 2023

(d) there is a material irregularity in the tender process.

(2) The decision to cancel a tender invitation in terms paragraph 68 (1) must be published in the same manner in which the original tender invitation was advertised

69. Commencement

This Policy takes effect on 1 July 2017
Paragraph 68 will be effective retrospectively from 16 January 2023
Where the content of this policy is in contradiction of laws and regulations, the latter will take preference.[37]

[37] Included 30/03/2022

ANNEXURE A

WITZENBERG MUNICIPALITY

CODE OF CONDUCT FOR SUPPLY CHAIN MANAGEMENT PRACTITIONERS AND OTHER ROLE PLAYERS

The purpose of this Code of Conduct is to promote mutual trust and respect and an environment where business can be conducted with integrity and in a fair and reasonable manner.

1. General Principles

The municipality commits itself to a policy of fair dealing and integrity in the conducting of its business. Officials and other role players involved in supply chain management (SCM) are in a position of trust, implying a duty to act in the public interest. Officials and other role players should not perform their duties to unlawfully gain any form of compensation, payment or gratuities from any person, or provider/contractor for themselves, their family or their friends.

Officials and other role players involved in SCM should ensure that they perform their duties efficiently, effectively and with integrity, in accordance with the relevant legislation, policies and guidelines. They should ensure that public resources are administered responsibly.

Officials and other role players involved in SCM should be fair and impartial in the performance of their functions. They should at no time afford any undue preferential treatment to any group or individual or unfairly discriminate against any group or individual. They should not abuse the power and authority vested in them.

2. Conflict of interest

An official or other role player involved with supply chain management – (a) must treat all providers and potential providers equitably;

(b) may not use his or her position for private gain or to improperly benefit another person;

(c) may not accept any reward, gift, favour, hospitality or other benefit directly

or indirectly, including to any close family member, partner or associate of that person, of a value more than R350;

(d) must declare to the accounting officer details of any reward, gift, favour, hospitality or other benefit promised, offered or granted to that person or to any close family member, partner or associate of that person;

(e) must declare to the accounting officer details of any private or business interest which that person, or any close family member, partner or associate, may have in any proposed procurement or disposal process, or in any award of a contract by the municipality;

(f) must immediately withdraw from participating in any manner whatsoever in a procurement or disposal process or in the award of a contract in which that person, or any close family member, partner or associate, has any private or business interest;

(g) must declare any business, commercial and financial interests or activities undertaken for financial gain that may raise a possible conflict of interest;

(h) should not place him/herself under any financial or other obligation to outside individuals or organizations that might seek to influence them in the performance of their official duties; and

(i) Should not take improper advantage of their previous office after leaving their official position.

3. Accountability

Practitioners are accountable for their decisions and actions to the public. Practitioners should use public property scrupulously.

Only accounting officers or their delegates have the authority to commit the municipality to any transaction for the procurement of goods and / or services.

All transactions conducted by a practitioner should be recorded and accounted for in an appropriate accounting system. Practitioners should not make any false or misleading entries into such a system for any reason whatsoever.

Practitioners must assist the accounting officer in combating fraud, corruption, favouritism and unfair and irregular practices in the supply chain management system.

Practitioners must report to the accounting officer any alleged irregular conduct in the

supply chain management system which that person may become aware of, including:

(i) Any alleged fraud, corruption, favouritism or unfair conduct;

(ii) any alleged contravention of the policy on inducements, rewards, gifts and favours to municipalities or municipal entities, officials or other role players; and

(iii) Any alleged breach of this code of conduct.

Any declarations made must be recorded in a register which the accounting officer must keep for this purpose. Any declarations made by the accounting officer must be made to the **Mayor** who must ensure that such declaration is recorded in the register.

4. Openness

Practitioners should be as open as possible about all the decisions and actions that they take. They should give reasons for their decisions and restrict information only if it is in the public interest to do so.

5. Confidentiality

Any information that is the property of the municipality or its providers should be protected at all times. No information regarding any bid / contract / bidder / contractor may be revealed if such an action will infringe on the relevant bidder's / contractors personal rights.

Matters of confidential nature in the possession of officials and other role players involved in SCM should be kept confidential unless legislation, the performance of duty or the provisions of law requires otherwise. Such restrictions also apply to officials and other role players involved in SCM after separation from service**.**

6. Bid Specification / Evaluation / Adjudication Committees

Bid specification, evaluation and adjudication committees should implement supply chain management on behalf of the municipality in an honest, fair, impartial, transparent, cost-effective and accountable manner.

Bid evaluation / adjudication committees should be familiar with and adhere to the prescribed legislation, directives and procedures in respect of supply chain management

in order to perform effectively and efficiently.

All members of bid adjudication committees should be cleared by the accounting officer at the level of "CONFIDENTIAL" and should be required to declare their financial interest annually.
No person should-

(i) Interfere with the supply chain management system of the municipality; or
(ii) Amend or tamper with any price quotation / bid after its submission.

7. Combative Practices

Combative practices are unethical and illegal and should be avoided at all cost. They include but are not limited to:

(i) Suggestions to fictitious lower quotations; (ii) Reference to non-existent competition;
(iii) Exploiting errors in price quotations / bids;
(iv) Soliciting price quotations / bids from bidders / contractors whose names appear on the Register for Tender Defaulters.

ANNEXURE B

Witzenberg Municipality's Supply Chain Management: Supplier's Code of Conduct

The purpose of this Code of Conduct is to promote mutual trust and respect and an environment where business can be conducted with integrity and in a fair and reasonable manner.

WM is committed to high standards of business ethics and integrity as reflected in this WM Code of Conduct. WM expects all of its suppliers to adhere to similar good working standards and business ethics. The Supplier is expected to comply with the requirements set out in this WM Supplier Code of Conduct. In addition, WM and the Supplier may agree on further standards in supply agreements.

1. Human Rights

This Bill of Rights, as enshrined in Constitution Act 108 of 1996, is a cornerstone of democracy in South Africa. It enshrines the rights of all people in our country and affirms the democratic values of human dignity, equality and freedom. The Constitution obliges municipalities to respect, protect, promote and fulfil the rights in the Bill of rights. To this end, when service providers provide services to and on behalf of the WM they are also oblige to respect, protect, promote and fulfil the rights in the Bill of rights insofar as it is relevant to their business.

In accordance with the aforementioned ethics and standards, WM require the following business practices from Suppliers:

- To not unfairly discriminate directly or indirectly against anyone on one or more grounds, including race, gender, sex, pregnancy, marital status, ethnic or social origin, colour, sexual orientation, age, disability, religion, conscience, belief, culture, language and birth.
- To respect the right of everyone to inherent dignity and the right to have their dignity respected and protected.
- To respect the right of every person not to be subjected to slavery, servitude or forced labour.
- To respect everyone's right to freedom of conscience, religion, thought, belief and opinion.

2. Fair Labour Conditions and Child Labour

The Supplier will ensure fair labour conditions. In particular, the supplier will:

- refrain from employment discrimination based on gender, colour, ethnicity, religion, disability, union membership, political affiliation or sexual orientation;
- respect the rights of employees to freely associate and bargain collectively;
- comply with all applicable laws on employment and in particular the Basic Conditions of Employment Act 75 of 1997 and the Labour Relations Act 66 of 1995.
- not use any forced or compulsory labour or involuntary prison labour and give all employees the choice to leave their employment freely upon

reasonable notice;

- compensate employees fairly and adhere to the Basic Conditions of Employment Act 75 of 1997, sector specific minimum wages and / or collective agreements and where these do not exist, compensate employees so they can at the least meet their basic needs; and
- The Supplier will protect children from exploitative labour practices and in particular they will not require or permit children to perform work or provide services that-
    - are inappropriate for a person of that child's age; or
    - place at risk the child's well-being, education, physical or mental health or spiritual, moral or social development;

3. Occupational Health and Safety

The Supplier will strive to provide a safe and healthy workplace for all of its employees and strive to adhere to the requirements of Occupational Health and Safety Act 85 of 1993.

4. Environmental Responsibility

The Supplier is committed to environmental protection and will conduct its business in an environmentally sensitive way.

5. Business Ethics

The Supplier will conduct its business in an ethical manner in accordance with all applicable rules and regulations. In particular, the Supplier will

- refrain from any and all forms of extortion and bribery;
- adhere to anti-trust and other competition laws, e.g. not participating in price fixing or bid-rigging; and
- disclose to WM information about any principal shareholder, directors in the service of the state
- The Supplier will protect all confidential information provided by WM and its respective business partners.

6. Conflict of Interest

The Supplier must disclose to WM information about conflict of interest of any

WM employee, or close family member of an employee that have an interest in any of the Supplier's business.

Suppliers must not use their position for private gain or to improperly benefit any person or company.

Suppliers must not offer any reward, gift, favour, hospitality or other benefit directly or indirectly, including to any close family member, partner or associate of a WM employee, irrespective of the value of the gift, reward, favour, hospitality or benefit.

Suppliers must declare to the accounting officer of WM details of any private or business interest which an employee of WM, or any close family member, partner or associate, may have in any proposed procurement or disposal process, or in any award of a contract by WM;

Suppliers must not place WM employees under any financial or other obligation that might seek to influence WM employees in the performance of their official duties; and

Suppliers must not take improper advantage of previous WM employees to unfairly benefit the supplier by using the information or knowledge of previous employees of WM after leaving office.

7. Business Continuity Planning

The Supplier shall maintain appropriate insurance and or policies to mitigate exposures to business risk, business threats, terrorism, crime, pandemics, natural disasters and related major accident exposures.

8. Procurement by Supplier

WM expects the Supplier to obtain confirmation from each of its sub-suppliers providing goods or services directly or indirectly to WM that the sub-supplier acts in compliance with this WM Supplier Code of Conduct.

Preferential Procurement Policy

1. Definitions

1.1 In this Policy, unless the context otherwise indicates, a word or expression to which a meaning has been assigned in the Act or the Regulations shall bear the meaning so assigned –

1.1.1 **"Acceptable Tender"** means any tender which, in all respects, complies with the specification and conditions of tender as set out in tender document.

1.1.2 **"Act"** means the Preferential Procurement Policy Framework Act, Act No. 5 of 2000 as amended;

1.1.3 **"B-BBEE"** means broad-based black economic empowerment as defined in section 1 of the Broad-Based Black Economic Empowerment Act;

1.1.4 **"B-BBEE status level of contributor"** means the B-BBEE status of an entity in terms of a code of good practice on black economic empowerment issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act;

1.1.5 **"Broad-Based Black Economic Empowerment Act"** means the Broad-Based Black Economic Empowerment Act, Act No. 53 of 2003 as amended;

1.1.6 **"district municipal area"** means the Cape Winelands District Municipal Area;

1.1.7 **"EME"** means an exempted micro enterprise in terms of a code of good practice on black economic empowerment issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act;

1.1.8 **"highest acceptable tender"** means a tender that complies with all specifications and conditions of tender and that has the highest price compared to other tenders;

1.1.9 **"Historically disadvantaged individual (HDI)"** means a South African citizen –

(1) who, due to the apartheid policy that had been in place, had no franchise in national elections prior to the introduction of the Constitution of the Republic of South Africa,1983 (Act No 110 of 1983); and / or
(2) who is a female; and / or
(3) who has a disability:

Provided that a person who obtained South African citizenship on or after the coming to effect of the Interim Constitution, is deemed not to be an HDI.

1.1.10 **"locality"** means the suppliers and/or service providers that has its place of business within the municipal area, or the district area where the municipality is located or the province where the municipality is located;

1.1.11 **"lowest acceptable tender"** means a tender that complies with all specifications and conditions of tender and that has lowest price compared to other tenders;

1.1.12 **"municipal area"** means within the jurisdiction of Witzenberg Municipality;

1.1.13 **"Municipality"** refer to Witzenberg Municipality;

1.1.14 **"Policy"** means the Preferential Procurement Policy of Witzenberg Municipality;

1.1.15 **"proof of B-BBEE status level of contributor"** means

1.1.15.1 The B-BBEE status level certificate issued by an authorised body or person;

1.1.15.2 A sworn affidavit as prescribed by the B-BBEE Codes of Good Practice; or

1.1.15.3 Any other requirement prescribed in terms of the Broad-Based Black Economic Empowerment Act;

1.1.16 **"proof of locality"** means a –

1.1.16.1 municipal account in the name of the tenderer not older than 90 days;

1.1.16.2 lease agreement where the tenderer is the lessee; or

1.1.16.3 an affidavit in cases where the tenderer is not a municipal account holder or is not a lessee to a lease agreement confirming the registered address of the tenderer;

1.1.17 **"province"** means the Western Cape Province;

1.1.18 **"price"** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;

1.1.19 **"rand value"** means the total estimated value of a contract in Rand, calculated at the time of the tender invitation;

1.1.20 **"Regulations"** means the Preferential Procurement Regulations, 2022 as issued by the Minister of Finance

1.1.21 **"specific goals"** means specific goals as contemplated in section 2(1)(d) of the Act which may include contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender and disability including the implementation of programmes of the Reconstruction and Development Programme as published in Government Gazette No. 16085 dated 23 November 1994;

1.1.22 **"tender"** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation that includes formal written price quotations, competitive bids and deviations from the official procurement processes as defined;

1.1.23 **"tender for income-generating contracts"** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions.

2. Application of the policy

(1) This policy applies to all procurement of goods and services by the municipality with a value of R30,000 and above.

(2) This policy does not apply to public auctions or any other sale or lease of assets where it is not practical to apply a system of preference.

(3) This policy must be applied concurrently with other legislative prescripts and other policies that regulates the procurement of goods and services by the municipality.

3. Objective of the policy

(1) The purpose of this policy is to:

(a) Provide for categories of preference in awarding of bids;

(b) Provide for the advancement of persons or categories of persons disadvantaged by unfair discrimination; and

(c) Clarify the mechanisms how the above items in paragraph 3.1 (a) and (b) will be implemented.

4. Identification of preference point system

(1) The tender documents must stipulate –

(a) the preference point system applicable; and

(b) any specific goal as envisaged in section 2(1)(d) and (e) of the Act.

(2) If it is unclear whether the 80/20 or 90/10 preference point system applies, the tender documents must state/stipulate that in the case of –

(a) an invitation for tender for income generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system: or

(b) any other invitation for tender that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system.

5. Specific goals

(1) Specific goals must be measurable, quantifiable and monitored for compliance.

(2) A maximum of 20 points on the 80/20 preference points system or 10 points on the 90/10 preference points system will be allocated for specific goals as contemplated

in the Act for the acquisition of goods and services and income generating contracts. These goals are as follows:

(a) B-BBEE that is inclusive of contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender or disability; and

(b) locality of enterprises in the municipal area, district municipal area or province that promotes implementing the programmes of the Reconstruction and Development Programme as published in Government Gazette No. 16085 dated 23 November 1994 the preference point system.

(3) Regarding paragraph 5(2) of this Policy, 50% of the 20 points on the 80/20 preference points system and 50% of the 10 points on the 90/10 preference points system, will be allocated to promote B-BBEE in terms of the following scorecard:

No	B-BBEE status level of contributor	Number of points on 80/20 points system	Number of points on 90/10 points system
1	Level 1 contributor	10	5
2	Level 2 contributor	9	4.5
3	Level 3 contributor	6	3
4	Level 4 contributor	5	2.5
5	Level 5 contributor	4	2
6	Level 6 contributor	3	1.5
7	Level 7 contributor	2	1
8	Level 8 contributor	1	0.5
9	Non-compliant contributor	0	0

(4) The following points for specific goals per procurement process based on the 80/20 preference point system will be applied:

No	Procurement Process	Procurement ranges (inclusive of all applicable taxes)	Maximum points for Broad-Based Black Economic Empowerment (B-BBEE)	Maximum points for enterprises within Witzenberg Municipal area	Maximum points for enterprises within Cape Winelands District region	Maximum points for enterprises within the Western Cape Province
1	Formal written price and competitive tendering	R30,000 – R50 million	10	10	5	2

(5) The following points for specific goals per procurement process based on the 90/10 preference point system will be applied:

No	Procurement Process	Procurement ranges (inclusive of all applicable taxes)	Maximum Points for Broad-Based Black Economic Empowerment (B-BBEE)	Maximum points for enterprises within Witzenberg Municipal area	Maximum points for enterprises within Cape Winelands District region	Maximum points for enterprises within the Western Cape Province
1	Competitive tendering	Above R50 million	5	5	2.5	1

(6) The total number of points allocated towards specific goals must always add up to 20 points on the 80/20 preference points system or 10 points on the 90/10 preference points system.

(7) A tenderer that is located outside the Western Cape Province will score 0 points for locality.

6. 80/20 preference point system for acquisition of goods or services with Rand value equal to or below R50 million

(1) The following formula must be used to calculate the points out of 80 for price in respect of an invitation for a tender with a Rand value equal to or below R50 million, inclusive of all applicable taxes:

$$Ps = 80\left(1 - \frac{Pt - P\,min}{P\,min}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmin = Price of lowest acceptable tender

(2) A maximum of 20 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal(s) must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(6) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(7) A tenderer must submit proof of locality in order to claiming point(s) for locality.

(8) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

7. 90/10 preference point system for acquisition of goods and services with Rand value above R50 million

(1) The following formula must be used to calculate the points out of 90 for price in respect of an invitation for a tender with a Rand value above R50 million, inclusive of all applicable taxes:

$$Ps = 90\left(1 - \frac{Pt - P\,min}{P\,min}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmin = Price of lowest acceptable tender

(2) A maximum of 10 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(5) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(6) A tenderer must submit proof of locality in order to claiming point(s) for locality.

(7) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

8. 80/20 preference point system for tenders to generate income or to dispose of or lease assets with Rand value equal to or below R50 million

(1) The following formula must be used to calculate the points out of 80 for price in respect of an invitation for a tender for income-generating contracts with a Rand value equal to or below R50 million, inclusive of all applicable taxes:

$$Ps = 80\left(1 + \frac{Pt - Pmax}{Pmax}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmax = Price of highest acceptable tender

(2) A maximum of 20 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(6) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(7) A tenderer must submit proof of locality in order to claim point(s) for locality.

(8) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

9. 90/10 preference point system for tenders to generate income or to dispose of or lease assets with Rand value above R50 million

(1) The following formula must be used to calculate the points out of 90 for price in respect of an invitation for a tender for income-generating contracts with a Rand value above R50 million, inclusive of all applicable taxes:

$$Ps = 90\left(1 + \frac{Pt - Pmax}{Pmax}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmax = Price of highest acceptable tender

(2) A maximum of 10 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tendering scoring the highest points.

(5) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(6) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(7) A tenderer must submit proof of locality in order to claiming point(s) for locality.

(8) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

10. Criteria for breaking deadlock in scoring

(1) If two or more tenderers score an equal total number of points, the contract must be awarded to the tenderer that scored the highest points for specific goals.

(2) If two or more tenderers score equal total points in all respects, the award must be decided by the drawing of lots.

11. Oversight role of Council

For the purpose of oversight, the Accounting Officer must within 30 days of the end of each financial year, submit a report on the implementation of this Policy to the Council.

12. Short title

This Policy is called the Preferential Procurement Policy of Witzenberg Municipality.

1 Scope

This policy establishes the *Witzenberg Municipality*'s policy for infrastructure procurement and delivery management in accordance with the provisions of the regulatory frameworks for procurement and supply chain management. It includes the procurement of goods and services necessary for a new facility to be occupied and used as a functional entity

2 Terms, definitions and abbreviations

2.1 Terms and definitions

For the purposes of this document, the definitions and terms given in the standard and the following apply:

accept: receive as adequate, valid, or suitable

agent: person or organization that is not an employee of *Witzenberg Municipality* that acts on the *Witzenberg Municipality*'s behalf in the application of this document

approve: officially agree to

authorised person: the Accounting Officer or chief executive or the appropriately delegated authority to award, cancel, amend, extend or transfer a contract or order

conflict of interest: any situation in which:

a) someone in a position of trust has competing professional or personal interests which make it difficult for him to fulfil his duties impartially,

b) an individual or organization is in a position to exploit a professional or official capacity in some way for his personal or for corporate benefit, or

c) incompatibility or contradictory interests exist between an employee and the organization which employs that employee

contract manager: person responsible for administering a package on behalf of the employer and performing duties relating to the overall management of such contract from the implementer's point of view

family member: a person's spouse, whether in a marriage or in a customary union according to indigenous law, domestic partner in a civil union, or child, parent, brother, sister, whether such a relationship results from birth, marriage or adoption

framework agreement: an agreement between an organ of state and one or more contractors, the purpose of which is to establish the terms governing orders to be awarded during a given period, in particular with regard to price and, where appropriate, the quantity envisaged

gate: a control point at the end of a process where a decision is required before proceeding to the next process or activity

gateway review: an independent review of the available information at a gate upon which a decision to proceed or not to the next process is based

gratification: an inducement to perform an improper act

infrastructure delivery: the combination of all planning, technical, administrative and managerial actions associated with the construction, supply, renovation, rehabilitation, alteration, maintenance, operation or disposal of infrastructure

infrastructure procurement: the procurement of goods or services including any combination thereof associated with the acquisition, renovation, rehabilitation, alteration, maintenance, operation or disposal of infrastructure with an estimated value of one million Rand or more.

maintenance: the combination of all technical and associated administrative actions during an item's service life to retain it in a state in which it can satisfactorily perform its required function

operation: combination of all technical, administrative and managerial actions, other than maintenance actions, that results in the item being in use

order: an instruction to provide goods, services or any combination thereof under a framework agreement

organ of state: an organ of state as defined in section 239 of the Constitution of the Republic of South Africa

procurement document: documentation used to initiate or conclude (or both) a contract or the issuing of an order

principal: a natural person who is a partner in a partnership, a sole proprietor, a director a company established in terms of the Companies Act of 2008 (Act No. 71 of 2008) or a member of a close corporation registered in terms of the Close Corporation Act, 1984, (Act No. 69 of 1984)

standard: the latest edition of the Standard for Infrastructure Procurement and Delivery Management as published by National Treasury

working day: any day of a week on which is not a Sunday, Saturday or public holiday

2.2 Abbreviations

For the purposes of this document, the following abbreviations apply

CIDB: Construction Industry Development Board

SARS: South African Revenue Services

3 General requirements

3.1 Delegations

3.1.1 The *council* of *Witzenberg Municipality* hereby delegates all powers and duties which are necessary to enable the *Accounting Officer* to:

a) discharge the supply chain management responsibilities conferred on accounting officers in terms of Chapter 8 or 10 of the Local Government Municipal Finance Management Act of 2003 and this document;

b) maximise administrative and operational efficiency in the implementation of this document;

c) enforce reasonable cost-effective measures for the prevention of fraud, corruption, favouritism and unfair and irregular practices in the implementation of this document; and

d) comply with his or her responsibilities in terms of section 115 and other applicable provisions of the Local Government Municipal Finance Management Act of 2003 Act.

e) The Accounting Officer may in terms of section 79 or 106 of the Act sub delegate any supply chain management powers and duties.

3.1.2 No departure shall be made from the provisions of this policy without the approval of the Accounting Officer of Witzenberg Municipality.

3.1.3 The *Accounting Officer* shall for oversight purposes:

Within 60 days of the end of each financial year, submit a report on the implementation of this policy, to the council of the *Witzenberg Municipality.*

3.2 Objections and complaints

Will be dealt with in terms of the stipulations of the Supply Chain Policy of Witzenberg Municipality.

3.3 Resolution of disputes, objections, complaints and queries

Will be dealt with in terms of the stipulations of the Supply Chain Policy of Witzenberg Municipality.

4 Control framework for infrastructure delivery management

4.1 Assignment of responsibilities for approving or accepting end of stage deliverables

The responsibilities for approving or accepting end of stage deliverables shall be as stated in Table 1.

Table 1: Responsibilities for approving or accepting end of stage deliverables in the control framework for the management of infrastructure delivery

Stage		Person assigned the responsibility for approving or accepting end of stage deliverables	Output	Project Value
No	**Name**			
0	Project initiation	An initiation report which outlines the high-level business case together with the estimated project cost and proposed schedule for a single project or a group of projects having a similar high-level scope		
		Accept: Relevant Director	Approved IDP	All
		Recommend: Municipal Manager		
		Council approves 5 year IDP		
1	Infrastructure planning	An infrastructure plan which identifies and prioritizes projects and packages against a forecasted budget over a period of at least three years		
		Accept: Relevant Director	Approved Budget	All
		Recommend: Municipal Manager		
		Council approves budget for MTREF		

Stage		Person assigned the responsibility for approving or accepting end of stage deliverables	Output	Project Value
No	**Name**			
2	Strategic resourcing	A delivery and/or procurement strategy which, for a portfolio of projects, identifies the delivery strategy in respect of each project or package and, where needs are met through own procurement system, a procurement strategy		
		Accept: Relevant Manager	Procurement Strategy / Plan	All
		Recommend : Relevant Director		
		Accounting Officer approves the Procurement Strategy / Plan		
3	Pre-feasibility	A prefeasibility report which determines whether or not it is worthwhile to proceed to the feasibility stage		
		Accept: Service Provider	Approved pre-feasibility report	Projects Above R 1 Million
		Recommend: Relevant Manager		
		Relevant Director approves the pre-feasibility report		
	Preparation and briefing (Inception)	A strategic brief which defines project objectives, needs, acceptance criteria and client priorities and aspirations, and which sets out the basis for the development of the concept report for one or more packages		
		Accept: Service Provider	Approved Inception Report	Projects Above R 1 Million
		Recommend: Relevant Manager		
		Relevant Director approves the pre-feasibility report		
4	Feasibility	A feasibility report which presents sufficient information to determine whether or not the project should be implemented		
		Accept: Service Provider	Approved Feasibility Report	Projects Above R 1 Million
		Recommend: Relevant Manager		
		Relevant Director approves the feasibility report		
	Concept and viability (Preliminary Design)	A concept report which establishes the detailed brief, scope, scale, form and control budget, and sets out the integrated concept for one or more packages		
		Accept: Service Provider	Approved Concept and viability report	Projects Above R 1 Million
		Recommend: Relevant Manager		
		Relevant Director approves the Concept and viability report		

Stage			Person assigned the responsibility for approving or accepting end of stage deliverables	Output	Project Value
No	**Name**				
	Gateway review		An independent review of the available information at a gate upon which a decision to proceed or not to the next process is based		
			Accept: Review team (not less than three people) is led by a professional engineer, professional quantity surveyor or professional architect.	Approved Concept and viability report	Projects Above R 50 Million
			Recommend: Relevant Manager		
			Relevant Director approves the Gateway review		
5	Design development (Detailed Design)		A design development report which develops in detail the approved concept to finalize the design and definition criteria, sets out the integrated developed design, and contains the cost plan and schedule for one or more packages		
			Accept: Service Provider	Approved Detailed Design	Projects above R 200 000
			Recommend: Relevant Manager		
			Relevant Director approves the Detailed Design		
6	Design documentation (& Procurement)	6A Production information	Production information which provides the detailing, performance definition, specification, sizing and positioning of all systems and components enabling either construction (where the constructor is able to build directly from the information prepared) or the production of manufacturing and installation information for construction		
			Accept: Relevant Manager	Approved bid Document	Projects above R 200 000
			Recommend: Bid specification committee		
			Relevant Director approves the Bid document		
		6B Manufacture, fabrication and construction information	Manufacture, fabrication and construction information produced by or on behalf of the constructor, based on the production information provided for a package which enables manufacture, fabrication or construction to take place		
			Accept: Relevant Manager	Contract Award Approved Order	All
			Recommend: Bid evaluation committee		
			Bid adjudication committee approves the bid		Projects below R 10 million
			The accounting officer approves the bid		Projects above R 10 million

Stage		Person assigned the responsibility for approving or accepting end of stage deliverables	Output	Project Value
No	Name			
7	Works (Contract Administration & Inspection)	The relevant manager / consulting engineer manages the contract in terms of contract conditions		
		Accept: relevant manager / consulting engineer	Minutes of site meetings, progress payment certificates and Contract Correspondence	All
		Recommend: relevant manager		
		Relevant director approves		
8	Handover	Works which have been taken over by the municipality, complete with record information		
		Accept: relevant manager / consulting engineer	Practical completion certificate & project unbundling information	All
		Recommend: relevant manager		
		Relevant director approves		
9	Package completion (Close Out)	Works with notified defects corrected, final account settled and the close out report issued		
		Accept: relevant manager / consulting engineer	Final completion certificate	All
		Recommend: relevant manager		
		Relevant director approves		

4.2 Gateway reviews

4.2.1 All major capital projects having an estimated capital expenditure equal to **or fifty million rand** shall have a gateway review of the end-of-stage 4 deliverable, prior to the acceptance of such deliverable. The review shall be initiated by the organ of state which intends implementing the project. The focus of such a review shall in the first instance be on the quality of the documentation, and thereafter on:
a) deliverability (the extent to which a project is deemed likely to deliver the expected benefits within the declared cost, time and performance envelope);
b) affordability (the extent to which the level of expenditure and financial risk involved in a project can be taken up on, given the organisation's overall financial position, both singly and in the light of its other current and projected commitments); and
a) value for money.

4.2.2 A gateway review team shall comprise not less than three persons who are not involved in the project associated with the works covered by the end of the stage 4 deliverable, and who are familiar with various aspects of the subject matter of the deliverable at the end of the stage under review. Such a team shall be led by a person who has at least six years postgraduate experience in the planning of infrastructure projects and is registered either as a professional engineer in terms of the Engineering Profession Act, a professional quantity surveyor in terms of the Quantity Surveying Profession Act or a professional architect in terms of the Architectural Profession Act. The members of the team shall, as relevant, have expertise in key technical areas, cost estimating, scheduling and implementation of similar projects.

4.2.3 The relevant treasury shall be notified of a proposed gateway review for a major capital project, three weeks prior to the conducting of such a review. Such notification shall be accompanied by a brief outline of the proposed project or package, the names and qualifications of the reviewers and the timeframes for the review. The relevant treasury may nominate additional persons to serve on the review team.

4.2.4 The gateway review team shall base its findings primarily on:
a) the information contained in the end-of-stage deliverables;
b) supplementary documentation, if any, provided by key staff obtained during an interview process; and
c) interviews with key staff members and stakeholders.

4.2.5 The gateway review team shall issue a report at the conclusion of a gateway review which indicates the team's assessment of the information at the end of a stage and provides findings or recommendations on areas where further work may be undertaken to improve such information.

4.2.6 Aspects in the report shall be flagged as being:
a) code red: team considers the aspect to pose a significant risk to the project or package;
b) code amber: team considers the aspects which indicate a minor risk to the project or package; or
c) code green: team considers the aspect to have been given adequate consideration to the extent that it is unlikely to jeopardise the success of progressing to the next stage, or minor adjustments may be required before proceeding.

4.2.7 The contents of the gateway review report shall be taken into account when accepting the stage 4 deliverable. A stage 4 deliverable shall not be accepted until such time that all code red risks have been addressed in the stage 4 end-of-stage deliverable.

5 Control framework for infrastructure procurement

5.1 The responsibilities for taking the key actions associated with the formation and conclusion of contracts including framework agreements above the quotation threshold shall be as stated in Table 2.

5.2 The responsibilities for taking the key actions associated with the quotation procedure and the negotiation procedure where the value of the contract is less than the threshold set for the quotation procedure shall be as follows:

a) Bid Specification Committee shall grant approval for the issuing of the procurement documents, based on the contents of a documentation review report developed in accordance with the provisions of the standard;

b) the authorised person may award the contract if satisfied with the recommendations contained in the evaluation report prepared in accordance with the provisions of the standard.

5.3 The responsibilities for taking the key actions associated with the issuing of an order in terms of a framework agreement shall be as stated in Table 3.

6 Infrastructure delivery management requirements

6.1 Institutional arrangements

6.1.1 Committee system for procurement

6.1.1.1 General

6.1.1.1.1 A committee system comprising the Bid Specification Committee, Bid evaluation committee and Bid Adjudication committee shall be applied to all procurement procedures where the estimated value of the procurement exceeds the financial threshold for quotations and to the putting in place of framework agreements.

6.1.1.1.2 The Bid evaluation committee shall, where competition for the issuing of an order amongst framework contractors takes place and the value of the order exceeds the financial threshold for quotations, evaluate the quotations received.

6.1.1.1.3 The persons appoint in writing as technical advisors and subject matter experts may attend any committee meeting.

6.1.1.1.4 No person who is a political officer bearer, a public office bearer including any councilor of a municipality, a political advisor or a person appointed in terms of section 12A of the Public Service Act of 1994 or who has a conflict of interest shall be appointed to a bid specification, bid evaluation or bid adjudication committee.

6.1.1.1.5 Committee decisions shall as far as possible be based on the consensus principle i.e. the general agreement characterised by the lack of sustained opposition to substantial issues. Committees shall record their decisions in writing. Such decisions shall be kept in a secured environment for a period of not less than five years after the completion or cancellation of the contract unless otherwise determined in terms of the National Archives and Record Services Act of 1996.

6.1.1.1.6 Committees may make decisions at meetings or, subject to the committee chairperson's approval, on the basis of responses to documents circulated to committee members provided that not less than sixty percent of the members are present or respond to the request for responses. Where the committee chairperson is absent from the meeting, the members of the committee who are present shall elect a chairperson from one of them to preside at the meeting.

6.1.1.2 Bid Specification committee

6.1.1.2.1 The *Accounting Officer* shall appoint in writing on a procurement by procurement basis:

a) the members of the bid specification committee.

6.1.1.2.2 The Bid Specification Committee shall comprise one or more persons. The chairperson shall be an employee of *Witzenberg Municipality* with requisite skills. Other members shall, where relevant, include a representative of the end user or the department requiring infrastructure delivery.

6.1.1.2.3 No member of, or technical adviser or subject matter expert who participates in the work of the any of the procurement committees or a family member or associate of such a member, may tender for any work associated with the tender which is considered by these committees.

Table 2: Procurement activities and gates associated with the formation and conclusion of contracts above the quotation threshold

Activity		**Sub-Activity** (see Table 3 of the standard)		**Key action**	**Person assigned responsibility to perform key action**
1*	Establish what is to be procured	1.3 **PG1**	Obtain permission to start with the procurement process	Make a decision to proceed / not to proceed with the procurement based on the broad scope of work and the financial estimates.	Council (BUDGET APPROVAL) Relevant Manager
2*	Decide on procurement strategy	2.5 **PG2**	Obtain approval for procurement strategies that are to be adopted including specific approvals to approach a confined market or the use of the negotiation procedure	Confirm selection of strategies so that tender offers can be solicited	Relevant director
3	Solicit tender offers	3.2 **PG3**	Obtain approval for procurement documents	Grant approval for the issuing of the procurement documents	Procurement documentation committee BSC and relevant director
		3.3 **PG4**	Confirm that budgets are in place	Confirm that finance is available for the procurement to take place	CFO (BSC)
4	Evaluate tender offers	4.2 **PG5**	Obtain authorisation to proceed with next phase of tender process in the qualified, proposal or competitive negotiations procedure	Review evaluation report, ratify recommendations and authorise progression to the next stage of the tender process	Director (BEC)
		4.7 **PG6**	Confirm recommendations contained in the tender evaluation report	Review recommendations of the evaluation committee and refer back to evaluation committee for reconsideration or make recommendation for award	Tender committee BAC, Accounting Officer
5	Award contract	5.3 **PG7**	Award contract	Formally accept the tender offer in writing and issue the contractor with a signed copy of the contract	Accounting Officer
		5.5 **GF1**	Upload data in financial management and payment system	Verify data and upload contractor's particulars and data associated with the contract or order	CFO or delegate.

* Applies only to goods and services not addressed in a procurement strategy developed during stage 2 (strategic resourcing) of the control framework for infrastructure delivery management

Table 2 (continued)

Activity		**Sub-Activity**		**Key action**	**Person assigned responsibility to perform key action**
6	Administer contracts and confirm compliance with requirements	6.4 **PG8A**	Obtain approval to waive penalties or low performance damages.	Approve waiver of penalties or low performance damages	Director
		6.5 **PG8B**	Obtain approval to notify and refer a dispute to an adjudicator	Grant permission for the referral of a dispute to an adjudicator or for final settlement to an arbitrator or court of law	Director
		6.6 **PG8C**	Obtain approval to increase the total of prices, excluding contingencies and price adjustment for inflation, or the time for completion at the award of a contract or the issuing of an order up to a specified percentage	Approve amount of time and cost overruns up to the threshold	Director
		6.7 **PG8D**	Obtain approval to exceed the total of prices, excluding contingencies and price adjustment for inflation, or the time for completion at award of a contract or the issuing of an order by more than 20% and 30%, respectively	Approve amount of time and cost overruns above a the threshold	Accounting Officer
		6.8 **PG8E**	Obtain approval to cancel or terminate a contract	Approve amount	Accounting Officer
		6.9 **PG8F**	Obtain approval to amend a contract	Approve proposed amendment to contract	Accounting Officer

Table 3: Procurement activities and gates associated with the issuing of an order above the quotation threshold in terms of a framework agreement

Activity		**Key action**	**Person assigned responsibility to perform key action**
1 **FG1**	Confirm justifiable reasons for selecting a framework contactor where there is more than one framework agreement covering the same scope of work	Confirm reasons submitted for not requiring competition amongst framework contractors or instruct that quotations be invited	*Relevant director or manager*
3 **FG2**	Obtain approval for procurement documents	Grant approval for the issuing of the procurement documents	*BSC*
4 **FG3**	Confirm that budgets are in place	Confirm that finance is available so that the order may be issued	*Relevant director or manager / Approved budget*
6 **FG4**	Authorise the issuing of the order	If applicable, review evaluation report and confirm or reject recommendations. Formally accept the offer in writing and issue the contractor with a signed copy of the order	*BAC*

6.1.1.3 Evaluation committee

6.1.1.3.1 The *Accounting Officer* shall appoint on a procurement by procurement basis in writing:

a) the members of the bid evaluation committee.

6.1.1.3.2 The bid evaluation committee shall comprise not less than three people. The chairperson shall be an employee of *Witzenberg Municipality* with requisite skills. Other members shall include a supply chain management practitioner and, where relevant, include an official from the department requiring infrastructure delivery.

6.1.1.3.3 The bid evaluation committee shall review the evaluation reports prepared in accordance with sub clause 4.2.3 of the standard and as a minimum verify the following in respect of the recommended tenderer:

a) the capability and capacity of a tenderer to perform the contract;

b) the tenderer's tax and municipal rates and taxes compliance status;

b) confirm that the tenderer's municipal rates and taxes and municipal service charges are not in arrears;

d) the Compulsory Declaration has been completed; and

e) the tenderer is not listed in the National Treasury's Register for Tender Defaulters or the List of Restricted Suppliers.

6.1.1.3.4 No tender submitted by a member of, or technical adviser or subject matter expert who participates in the work of the procurement documentation committee or a family member or associate of such a member, may be considered by the evaluation committee.

6.1.1.3.5 The chairperson of the evaluation committee shall promptly notify the *Accounting Officer* of any respondent or tenderer who is disqualified for having engaged in fraudulent or corrupt practices during the tender process.

6.1.1.4 Bid Adjudication Committee

6.1.1.4.1 The tender committee shall comprise the following persons or their mandated delegate:

a) *Chief financial officer* who shall be the chairperson:

b) *Director Technical Services*

c) *Director Community Services*

d) Director Corporate services

e) Manager Supply Chain

6.1.1.4.2 No member of the evaluation committee may serve on the bid adjudication committee. A member of an evaluation committee may, however, participate in the deliberations of a Bid Adjudication committee as a technical advisor or a subject matter expert.

6.1.1.4.3 The Bid Adjudication committee shall:

a) consider the report and recommendations of the evaluation committee and:

1) verify that the procurement process which was followed complies with the provisions of this document;

2) confirm that the report is complete and addresses all considerations necessary to make a recommendation;

3) confirm the validity and reasonableness of reasons provided for the elimination of tenderers; and

4) consider commercial risks and identify any risks that have been overlooked or fall outside of the scope of the report which warrant investigation prior to taking a final decision; and

b) refer the report back to the evaluation committee for their reconsideration, make a reward for bids below R 10 000 000 or make a recommendation to the accounting officer on the award of a tender, with or without conditions, together with reasons for such recommendation for bids above R 10 000 000.

6.1.1.4.4 The Bid Adjudication committee shall consider proposals regarding the cancellation, amendment, extension or transfer of contracts that have been awarded and make a recommendation to the Municipal Manager on the course of action which should be taken.

6.1.1.4.5 The Bid Adjudication committee shall consider the merits of an unsolicited offer and make a recommendation to the Accounting Officer.

6.1.1.4.6 The Bid Adjudication committee shall report to the *Accounting Officer* any recommendation made to award a contract to a tenderer other than the tenderer recommended by the evaluation committee, giving reasons for making such a recommendation.

6.1.1.4.7 The Bid Adjudication committee shall not make a recommendation for an award of a contract or order if the recommended tenderer or framework contractor has:

a) made a misrepresentation or submitted false documents in competing for the contract or order; or

b) been convicted of a corrupt or fraudulent act in competing for any contract during the past five years.

6.1.1.4.8 The Bid Adjudication committee may on justifiable grounds and after following due process, disregard the submission of any tenderer if that tenderer or any of its directors, members or trustees or partners has abused the delivery management system or has committed fraud, corruption or any other improper conduct in relation to such system. The National Treasury and the *Western Cape Treasury* shall be informed where such tenderers are disregarded.

6.1.2 Actions of the accounting officer relating to the award of a contract or an order

6.1.2.1 Award of a contract

6.1.2.1 The accounting officer shall, consider the report(s) and recommendations of the Bid Adjudication committee, and either:

a) award the contract after confirming that the report is complete and addresses all considerations necessary to make a recommendation and budgetary provisions are in place; or

b) decide not to proceed or to start afresh with the process.

6.1.3 Conduct of those engaged in infrastructure delivery

6.1.3.1 General requirements

6.1.3.1.1 All personnel and agents of *Witzenberg Municipality* shall comply with the requirements of the CIDB Code of Conduct for all Parties engaged in Construction Procurement. They shall:

a) behave equitably, honestly and transparently;

b) discharge duties and obligations timeously and with integrity;

c) comply with all applicable legislation and associated regulations;

d) satisfy all relevant requirements established in procurement documents;

e) avoid conflicts of interest; and

f) not maliciously or recklessly injure or attempt to injure the reputation of another party.

6.1.3.1.2 All personnel and agents engaged in *Witzenberg Municipality*'s infrastructure delivery management system shall:

a) not perform any duties to unlawfully gain any form of compensation, payment or gratification from any person for themselves or a family member or an associate;

b) perform their duties efficiently, effectively and with integrity and may not use their position for private gain or to improperly benefit another person;

c) strive to be familiar with and abide by all statutory and other instructions applicable to their duties;

d) furnish information in the course of their duties that is complete, true and fair and not intended to mislead;

e) ensure that resources are administered responsibly;

f) be fair and impartial in the performance of their functions;

g) at no time afford any undue preferential treatment to any group or individual or unfairly discriminate against any group or individual;

h) not abuse the power vested in them;

i) not place themselves under any financial or other obligation to external individuals or firms that might seek to influence them in the performance of their duties;

j) assist *Witzenberg Municipality* in combating corruption and fraud within the infrastructure procurement and delivery management system;

k) not disclose information obtained in connection with a project except when necessary to carry out assigned duties;

l) not make false or misleading entries in reports or accounting systems; and

m) keep matters of a confidential nature in their possession confidential unless legislation, the performance of duty or the provision of the law require otherwise.

6.1.3.1.2 An employee or agent may not amend or tamper with any submission, tender or contract in any manner whatsoever.

6.1.3.2 Conflicts of interest

6.1.3.2.1 The employees and agents of *Witzenberg Municipality* who are connected in any way to procurement and delivery management activities which are subject to this policy, shall:

a) disclose in writing to the employee of the *Witzenberg Municipality* to whom they report, or to the person responsible for managing their contract, if they have, or a family member or associate has, any conflicts of interest; and

b) not participate in any activities that might lead to the disclosure of *Witzenberg Municipality* proprietary information.

6.1.3.2.2 The employees and agents of *Witzenberg Municipality* shall declare and address any perceived or known conflict of interest, indicating the nature of such conflict to whoever is responsible for overseeing the procurement process at the start of any deliberations relating to a procurement process or as soon as they become aware of such conflict, and abstain from any decisions where such conflict exists or recuse themselves from the procurement process, as appropriate.

6.1.3.2.3 Agents who prepare a part of a procurement document may in exceptional circumstances, where it is in *Witzenberg Municipality*'s interest to do so, submit a tender for work associated with such documents provided that:

a) *Witzenberg Municipality* states in the tender data that such an agent is a potential tenderer;

b) all the information which was made available to, and the advice provided by that agent which is relevant to the tender, is equally made available to all potential tenderers upon request, if not already included in the scope of work; and

c) the procurement documentation committee is satisfied that the procurement document is objective and unbiased having regard to the role and recommendations of that agent.

6.1.3.3 Evaluation of submissions received from respondents and tenderers

6.1.3.3.1 The confidentiality of the outcome of the processes associated with the calling for expressions of interest, quotations or tenders shall be preserved. Those engaged in the evaluation process shall:

a) not have any conflict between their duties as an employee or an agent and their private interest;

b) may not be influenced by a gift or consideration (including acceptance of hospitality) to show favour or disfavour to any person;

c) deal with respondents and tenderers in an equitable and even-handed manner at all times; and

d) not use any confidential information obtained for personal gain and may not discuss with, or disclose to outsiders, prices which have been quoted or charged to *Witzenberg Municipality.*

6.1.3.3.2 The evaluation process shall be free of conflicts of interest and any perception of bias. Any connections between the employees and agents of *Witzenberg Municipality* and a tenderer or respondent shall be disclosed and recorded in the tender evaluation report.

6.1.3.3.3 *Witzenberg Municipality* personnel and their agents shall immediately withdraw from participating in any manner whatsoever in a procurement process in which they, or any close family member, partner or associate, has any private or business interest.

6.1.3.4 Non-disclosure agreements

Confidentiality agreements in the form of non-disclosure agreements shall, where appropriate, be entered into with agents and potential contractors to protect *Witzenberg Municipality*'s confidential information and interests.

6.1.3.5 Gratifications, hospitality and gifts

6.1.3.5.1 The employees and agents of *Witzenberg Municipality* shall not, directly or indirectly, accept or agree or offer to accept any gratification from any other person including a commission, whether for the benefit of themselves or for the benefit of another person, as an inducement to improperly influence in any way a procurement process, procedure or decision.

6.1.3.5.2 The employees and agents of *Witzenberg Municipality* as well as their family members of associates shall not receive any of the following from any tenderer, respondent or contractor or any potential contractor:

a) money, loans, equity, personal favours, benefits or services;

b) overseas trips; or

c) any gifts or hospitality irrespective of value from tenderers or respondents prior to the conclusion of the processes associated with a call for an expression of interest or a tender.

6.1.3.5.3 The employees and agents of *Witzenberg Municipality* shall not purchase any items at artificially low prices from any tenderer, respondent or contractor or any potential contractor at artificially low prices which are not available to the public.

6.1.3.5.4 All employees and agents of *Witzenberg Municipality* may for the purpose of fostering inter-personal business relations accept the following:

a) meals and entertainment, but excluding the cost of transport and accommodation;

b) promotional material of small intrinsic value such as pens, paper-knives, diaries, calendars, etc;

c) incidental business hospitality such as business lunches or dinners, which the employee is prepared to reciprocate;

d) complimentary tickets to sports meetings and other public events, but excluding the cost of transport and accommodation, provided that such tickets are not of a recurrent nature; and

e) gifts in kind other than those listed in a) to d) which have an intrinsic value greater than R350, they must declare these gifts to the *Accounting Officer*.

6.1.3.5.5 Under no circumstances shall gifts be accepted from prospective contractors during the evaluation of calls for expressions of interest, quotations or tenders that could be perceived as undue and improper influence of such processes.

6.1.3.5.6 Employees and agents of *Witzenberg Municipality* shall without delay report to the *Accounting Officer* any incidences of a respondent, tenderer or contractor who directly or indirectly offers a gratification to them or any other person to improperly influence in any way a procurement process, procedure or decision.

6.1.3.6 Reporting of breaches

Employees and agents of *Witzenberg Municipality* shall promptly report to the *Accounting Officer* any alleged improper conduct which they may become aware of, including any alleged fraud or corruption.

6.1.4 Measures to prevent abuse of the infrastructure delivery system

The *Accounting Officer s*hall investigate all allegations of corruption, improper conduct or failure to comply with the requirements of this policy against an employee or an agent, a contractor or other role player and, where justified:

a) take steps against an employee or role player and inform the National Treasury and *Western Cape Treasury* of those steps;

b) report to the South African Police Service any conduct that may constitute a criminal offence;

c) lodge complaints with the Construction Industry Development Board or any other relevant statutory council where a breach of such council's code of conduct or rules of conduct are considered to have been breached;

d) cancel a contract if:

1) it comes to light that the contractor has made a misrepresentation, submitted falsified documents or has been convicted of a corrupt or fraudulent act in competing for a particular contract or during the execution of that contract; or

2) an employee or other role player committed any corrupt or fraudulent act during the tender process or during the execution of that contract.

6.1.5 Awards to persons in the service of the state

6.1.5.1 Any submissions made by a respondent or tenderer who declares in the Compulsory Declaration that a principal is one of the following shall be rejected:

a) a member of any municipal council, any provincial legislature, or the National Assembly or the National Council of Provinces;

b) a member of the council of any municipal entity;

c) an official of any municipality or municipal entity;

d) an employee of any national or provincial department, national or provincial public entity or constitutional institution within the meaning of the Public Finance Management Act, 1999 (Act No. 1 of 1999);

e) a member of the accounting authority of any national or provincial public entity; or

f) an employee of Parliament or a provincial legislature.

6.1.5.2 The notes to the annual financial statements of the *Witzenberg Municipality* shall disclose particulars of an award of more than R 2 000 to a person who is a family member of a person identified in 6.1.5.1 or who has been in the previous 12 months. Such notes shall include the name of the person, the capacity in which such person served and the amount of the award.

6.1.6 Collusive tendering

Any submissions made by a respondent or tenderer who fails to declare in the Compulsory Declaration that the tendering entity:

a) is not associated, linked or involved with any other tendering entity submitting tender offers; or

b) has not engaged in any prohibited restrictive horizontal practices including consultation, communication, agreement, or arrangement with any competing or potential tendering entity regarding prices, geographical areas in which goods and services will be rendered, approaches to determining prices or pricing parameters, intentions to submit a tender or not, the content of the submission (specification, timing, conditions of contract etc.) or intention to not win a tender shall be rejected.

6.1.7 Placing of contractors under restrictions

6.1.7.1 If any tenderer which has submitted a tender offer or a contractor which has concluded a contract has, as relevant:

a) withdrawn such tender or quotation after the advertised closing date and time for the receipt of submissions;

b) after having been notified of the acceptance of his tender, failed or refused to commence the contract;

c) had their contract terminated for reasons within their control without reasonable cause;

d) offered, promised or given a bribe in relation to the obtaining or the execution of such contract;

e) acted in a fraudulent, collusive or anti-competitive or improper manner or in bad faith towards *Witzenberg Municipality*; or

f) made any incorrect statement in any affidavit or declaration with regard to a preference claimed and is unable to prove to the satisfaction of *Witzenberg Municipality* that the statement was made in good faith or reasonable steps were taken to confirm the correctness of the statements,

The relevant manager shall prepare a report on the matter and make a recommendation to the *Accounting Officer* for placing the contractor or any of its principals under restrictions from doing business with the *Witzenberg Municipality*.

6.1.7.2 The *Accounting Officer* may, as appropriate, upon the receipt of a recommendation made in terms of 6.1.7.1 and after notifying the contractor of such intention in writing and giving written reasons for such action, suspend a contractor or any principal of that contractor from submitting a tender offer to *[name of municipality or municipal entity* for a period of time.

6.1.7.3 The relevant manager shall:

a) record the names of those placed under restrictions in an internal register which shall be accessible to employees and agents of *Witzenberg Municipality* who are engaged in procurement processes; and

b) notify the National Treasury and relevant Provincial *Treasury* and , if relevant, the Construction Industry Development Board, of such decision and provide them with the details associated therewith.

6.1.8 Complaints

6.1.8.1 All complaints regarding the *Witzenberg Municipality*'s infrastructure delivery management system shall be addressed to the Accounting officer. Such complaints shall be in writing.

6.1.8.2 The Accounting officer shall investigate all complaints regarding the infrastructure procurement and delivery management system and who will decide on what action to take.

6.2 Acquisition management

6.2.1 Unsolicited proposal

6.2.1.1 The *Witzenberg Municipality* is not obliged to consider unsolicited offers received outside a normal procurement process but may consider such an offer only if:

a) the goods, services or any combination thereof that is offered is a demonstrably or proven unique innovative concept;

b) proof of ownership of design, manufacturing, intellectual property, copyright or any other proprietary right of ownership or entitlement is vested in the person who made the offer;

c) the offer presents a value proposition which demonstrates a clear, measurable and foreseeable benefit for *Witzenberg Municipality*;

d) the offer is in writing and clearly sets out the proposed cost;

e) the person who made the offer is the sole provider of the goods or service; and

f) the *Accounting Officer* finds the reasons for not going through a normal tender processes to be sound.

6.2.1.2 The *Accounting Officer* may only accept an unsolicited offer and enter into a contract after considering the recommendations of the tender committee if:

a) the intention to consider an unsolicited proposal has been made known in accordance with Section 21A of the Municipal Systems Act of 2000 together with the reasons why such a proposal should not be open to other competitors, an explanation of the potential benefits for the *municipality* and an invitation to the public or other potential suppliers and providers to submit their comments within 30 days after the notice;

b) the *Witzenberg Municipality*' has obtained comments and recommendations on the offer from the National Treasury and *Western Cape Treasury*;

c) the Bid Adjudication committee meeting which makes recommendations to accept an unsolicited proposal was open to the public and took into account any public comments that were received and any comments and recommendations received from the National Treasury and *Western Cape Treasury*; and

d) the provisions of 6.2.1.3 are complied with.

6.2.1.3 The *Accounting Officer* shall, within 14 working days after the decision to award the unsolicited offer is taken, submit the reasons for rejecting or not following the recommendations to the National Treasury, the *Western Cape Treasury* and Auditor General. A contract shall in such circumstances not be entered into or signed within 30 days of such submission.

6.2.2 Tax and rates compliance

6.2.2.1 SARS tax clearance

6.2.2.1.1 No contract may be awarded or an order issued where the value of such transaction exceeds R 15 000, unless a tenderer or contractor is in possession of an original valid Tax Clearance Certificate issued by SARS

6.2.2.1.2 In the case of a partnership, each partner shall comply with the requirements of 6.2.2.2.1.

6.2.2.1.3 Notwithstanding the requirements of 6.2.2.1 and 6.2.2.3 the following shall apply, unless a person who is not tax compliant indicates to the Accounting officer that it intends challenging its tax compliance status with SARS,

a) a contract may be awarded to a non-compliant tenderer if such a tenderer is able to remedy its tax compliance status within a period not exceeding 10 working days after being duly notified of its non-compliant status;

b) an order may be awarded to a non-compliant contractor if such a contractor is able to remedy its tax compliance status within a period not exceeding 10 working days after being duly notified of its non-compliant status;

c) a non-compliant contractor shall be issued with a first warning that payments in future amounts due in terms of the contract may be withheld, before the authorising of any payment due to such contractor;

d) before authorising a further payment due to a non-compliant contractor who has failed to remedy its tax compliance status after receiving a first warning, a second and final warning shall be issued to such contractor;

e) no payments may be released for any amounts due in terms of the contract due to a non-compliant contractor if, after a period of 30 calendar days have lapsed since the second warning was issued, the non-compliant contractor has failed to remedy its tax compliance status.

6.2.2.1.4 The *Witzenberg Municipality* may cancel a contract with a non-compliant contractor if such a contractor fails to remedy its tax compliance status after a period of 30 calendar days have lapsed since the second warning was issued in terms of 6.2.2.1.4e).

6.2.2.2 Municipal rates and taxes

No contract may be awarded to a tenderer who, or the principals of that tenderer, owes municipal rates and taxes or municipal service charges to any municipality or a municipal entity and are in arrears for more than 3 months.

6.2.3 Declarations of interest

Tenders and respondents making submissions in response to an invitation to submit a tender or a call for an expression of interest, respectively shall declare in the Compulsory Declaration whether or not any of the principals:

a) are an employee of the *Witzenberg Municipality* or in the employ of the state; or

b) have a family member or a business relation with a person who is in the employ of the state.

6.2.4 Invitations to submit expressions of interest or tender offers

6.2.4.1 All invitations to submit tenders where the estimated value of the contract exceeds R200 000 including VAT, except where a confined tender process is followed, and expressions of interest shall be advertised on the *Witzenberg Municipality*'s website and on the National Treasury eTender Publication Portal. Advertisements shall be placed by the Supply Chain Management department.

6.2.4.2 Advertisements relating to construction works which are subject to the Construction Industry Development Regulations issued in terms of the Construction Industry Development Act of 2000 shall in addition to the requirements of 6.2.4.1 be advertised on the CIDB website. Advertisements shall be placed by the Supply Chain Management department.

6.2.4.3 Where deemed appropriate by the Bid Specification Committee an invitation to tender and a call for an expression of interest shall be advertised in suitable local and national newspapers and the Government Tender Bulletin as directed by such person. Advertisements shall be placed by the Supply Chain Management department.

6.2.4.4 Such advertisements shall be advertised for a period of at least 30 days before closure, except in urgent cases when the advertisement period may be shortened as determined by the *Accounting Officer.*

6.2.4.5 Invitations to submit expressions of interest or tender offers shall be issued not less than 10 working days before the closing date for tenders and at least 5 working days before any compulsory clarification meeting. Procurement documents shall be made available not less than 7 days before the closing time for submissions.

6.2.5 Publication of submissions received and the award of contracts

6.2.5.1 The Supply Chain Management department shall publish within 10 working days of the closure of any advertised call for an expression of interest or an invitation to tender where the estimated value of the contract exceeds R200 000 including VAT on the municipality's or municipal entity's website, the names of all tenderers that made submissions to that advertisement, and if practical or applicable, the total of the prices and the preferences claimed. Such information shall remain on the website for at least 30 days.

6.2.5.2 The Supply Chain Management department shall publish within 7 working days of the award of a contract the following on the *Witzenberg Municipality*'s website

a) the contract number;

b) contract title;

c) brief description of the goods, services or works;

d) the total of the prices, if practical;

e) the names of successful tenderers and their B-BBEE status level of contribution;

f) duration of the contract; and

g) brand names, if applicable.

6.2.5.3 the Supply Chain Management department shall submit within 7 working days of the award of a contract the information required by National Treasury on the National Treasury eTender Publication Portal regarding the successful and unsuccessful tenders. Submissions shall be made by the Supply Chain Management department.

6.2.5.4 The award of contracts relating to construction works which are subject to the Construction Industry Development Regulations issued in terms of the Construction Industry Development Act of 2000 shall in addition to the requirements of 6.2.5.3 be notified on the CIDB website. The notification shall be made by placed by the Supply Chain Management department.

6.2.6 Disposal committee

6.2.6.1 The *Accounting Officer* shall appoint on a disposal by disposal basis in writing the members of the disposal committee to decide on how best to undertake disposals in accordance with the provisions of clause 10 of the standard.

6.2.6.2 The disposal panel shall comprise not less than three people. The chairperson shall be an employee of *Witzenberg Municipality.*

6.2.6.3 The disposal committee shall make recommendations to *Accounting Officer* who shall approve the recommendations, refer the disposal strategy back to the disposal committee for their reconsideration, and decide not to proceed or to start afresh with the process.

6.3 Reporting of infrastructure delivery management information

The Manager: Supply Chain Management and relevant technical expert shall submit any reports required in terms of the standard to the National Treasury or *Western Cape Treasury*.

7 Infrastructure procurement

7.2.1 The *Witzenberg Municipality*'s preapproved templates for Part C1 (Agreements and contract data) of procurement documents shall be utilised to obviate the need for legal review prior to the awarding of a contract. All modifications to the standard templates shall be approved by the Accounting Officer prior to being issued for tender purposes.

7.2.2 Disputes arising from the performance of a contract shall be finally settled in a South African court of law.

7.2.3 The Municipal Declaration and returnable documents contained in the standard shall be included in all tenders for:

a) consultancy services; and

b) goods and services or any combination thereof where the total of the prices is expected to exceed R10 m including VAT.

7.3 Payment of contractors

The *Witzenberg Municipality* shall settle all accounts within 30 days of invoice or statement as provided for in the contract.

7.4 Approval to utilise specific procurement procedures

7.4.1 Prior approval shall be obtained for the following procurement procedures from the following persons, unless such a procedure is already provided for in the approved procurement strategy:

a) The Accounting Officer shall authorise the use of the negotiated procedure above the thresholds provided in the standard.

b) The Accounting Officer shall authorise the approaching of a confined market except where a rapid response is required in the presence of, or the imminent risk of, an extreme or emergency situation arising from the conditions set out in the standard and which can be dealt with or the risks relating thereto arrested within 48 hours; and

c) the proposal procedure using the two-envelope system, the proposal procedure using the two-stage system or the competitive negotiations procedure.

7.4.2 The person authorised to pursue a negotiated procedure in an emergency is *[designated person].*

7.5 Receipt and safeguarding of submissions

7.5.1 A dedicated and clearly marked tender box shall be made available to receive all submissions made.

7.6 Opening of submissions

7.6.1 Submissions shall be opened by an opening panel comprising two people nominated by the chief financial officer who have declared their interest or confirmed that they have no interest in the submissions that are to be opened.

7.6.2 The opening panel shall open the tender box at the stipulated closing time and:

a) sort through the submissions and return those submissions to the box that are not yet due to be opened including those whose closing date has been extended;

b) return submissions unopened and suitably annotated where:

1) submissions are received late, unless otherwise permitted in terms of the submission data;

2) submissions were submitted by a method other than the stated method,

3) submissions were withdrawn in accordance with the procedures contained in SANS 10845-3; and.

4) only one tender submission is received and it is decided not to open it and to call for fresh tender submissions;

c) record in the register submissions that were returned unopened;

d) open submissions if received in sealed envelopes and annotated with the required particulars and read out the name of and record in the register the name of the tenderer or respondent and, if relevant, the total of prices including VAT where this is possible;

e) record in the register the name of any submissions that is returned with the reasons for doing so;

f) record the names of the tenderer's representatives that attend the public opening;

g) sign the entries into the register; and

h) stamp each returnable document in each tender submission.

7.6.3 Each member of the opening panel shall initial the front cover of the submission and all pages that are stamped in accordance with the requirements of 7.6.2h).

7.6.4 Respondents and tenderers whose submissions are to be returned shall be afforded the opportunity to collect their submissions.

7.6.5 Submissions shall be safeguarded from the time of receipt until the conclusion of the procurement process.

7.7 Use of another organ of state's framework agreement

The *Witzenberg Municipality* may make use of another organ of state's framework contract which has been put in place by means of a competitive tender process and there are demonstrable benefits for doing so. The *Accounting Officer* shall make the necessary application to that organ of state to do so.

7.8 Insurances

7.8.1 Contractors shall be required to take out all insurances required in terms of the contract.

7.8.2 The insurance cover in engineering and construction contracts for loss of or damage to property (except the works, Plant and Materials and Equipment) and liability for bodily injury to or death of a person (not an employee of the Contractor) caused by activity in connection with a contract shall in general not be less than the value stated in Table 4, unless otherwise directed by the Accounting Officer.

7.8.3 Lateral earth support insurance in addition to such insurance shall be take out on a case by case basis.

Table 4: Minimum insurance cover

Type of insurance	Value
Engineering and construction contracts - loss of or damage to property (except the works, Plant and Materials and Equipment) and liability for bodily injury to or death of a person (not an employee of the Contractor) caused by activity in connection with a contract	Not less than R20 million
Professional services and service contracts - death of or bodily injury to employees of the Contractor arising out of and in the course of their employment in connection with a contract or damage to property	Not less than R10 million
Professional indemnity insurance	geotechnical, civil and structural engineering: R5,0 million electrical, mechanical and engineering: R3,0 million architectural: R5,0 million other R3,0 million

7.8.4 The insurance cover in professional services and service contracts for damage to property or death of or bodily injury to employees of the Contractor arising out of and in the course of their employment in connection with a contract shall not be less than the value stated in Table 4 for any one event unless otherwise directed by the Bid Specification Committee

7.8.5 SASRIA**:** Special Risk Insurance in respect of riot and associated risk of damage to the works, Plant and Materials shall be taken out on all engineering and construction works.

7.8.6 Professional service appointments shall as a general rule be subject to proof of current professional indemnity insurance being submitted by the contractor in an amount not less than the value stated in Table 4 in respect of each claim, without limit to the number of claims, unless otherwise directed by the *Bid Specification Committee* in relation to the nature of the service that they provide.

.

7.8.6 Witzenberg *Municipality* shall take out professional indemnity insurance cover where it is deemed necessary to have such insurance at a level higher than the levels of insurance commonly carried by contractors.

7.8.7 Where payment is to be made in multiple currencies, either the contractor or *Witzenberg Municipality* should be required to take out forward cover. Alternatively, the prices for the imported content should be fixed as soon as possible after the starting date for the contract.

7.9 Written reasons for actions taken

7.9.1 Written reasons for actions taken shall be provided by the relevant manager.

7.9.2 The written reasons for actions taken shall be as brief as possible and shall as far as is possible, and where relevant, be framed around the clauses in the:

a) SANS 10845-3, *Construction procurement - Part 3: Standard conditions of tender,* and, giving rise to the reason why a respondent was not short listed, prequalified or admitted to a data base; or

b) SANS 10845-4, *Construction procurement - Part 4: Standard conditions for the calling for expressions of interest;*

as to why a tenderer was not considered for the award of a contract or not awarded a contract.

7.9.3 Requests for written reasons for actions taken need to be brief and to the point and may not divulge information which is not in the public interest or any information which is considered to prejudice the legitimate commercial interests of others or might prejudice fair competition between tenderers.

7.10 Request for access to information

7.10.1 Should an application be received in terms of Promotion of Access to Information Act of 2000 (Act 2 of 2000), the "requestor" should be referred to the *Witzenberg Municipality*'s Information Manual which establishes the procedures to be followed and the criteria that have to be met for the "requester" to request access to records in the possession or under the control of *Witzenberg Municipality*'s.

7.10.2 Access to technical and commercial information such as a comprehensive programme which links resources and prices to such programme should be refused as such information provides the order and timing of operations, provisions for time risk allowances and statements as to how the contractor plans to do the work which identifies principal equipment and other resources which he plans to use. Access to a bill of quantities and rates should be provided in terms of the Act.

Preferential Procurement Policy

1. Definitions

1.1 In this Policy, unless the context otherwise indicates, a word or expression to which a meaning has been assigned in the Act or the Regulations shall bear the meaning so assigned –

1.1.1 **"Acceptable Tender"** means any tender which, in all respects, complies with the specification and conditions of tender as set out in tender document.

1.1.2 **"Act"** means the Preferential Procurement Policy Framework Act, Act No. 5 of 2000 as amended;

1.1.3 **"B-BBEE"** means broad-based black economic empowerment as defined in section 1 of the Broad-Based Black Economic Empowerment Act;

1.1.4 **"B-BBEE status level of contributor"** means the B-BBEE status of an entity in terms of a code of good practice on black economic empowerment issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act;

1.1.5 **"Broad-Based Black Economic Empowerment Act"** means the Broad-Based Black Economic Empowerment Act, Act No. 53 of 2003 as amended;

1.1.6 **"district municipal area"** means the Cape Winelands District Municipal Area;

1.1.7 **"EME"** means an exempted micro enterprise in terms of a code of good practice on black economic empowerment issued in terms of section 9(1) of the Broad-Based Black Economic Empowerment Act;

1.1.8 **"highest acceptable tender"** means a tender that complies with all specifications and conditions of tender and that has the highest price compared to other tenders;

1.1.9 **"Historically disadvantaged individual (HDI)"** means a South African citizen –

(1) who, due to the apartheid policy that had been in place, had no franchise in national elections prior to the introduction of the Constitution of the Republic of South Africa,1983 (Act No 110 of 1983); and / or
(2) who is a female; and / or
(3) who has a disability:

Provided that a person who obtained South African citizenship on or after the coming to effect of the Interim Constitution, is deemed not to be an HDI.

1.1.10 **"locality"** means the suppliers and/or service providers that has its place of business within the municipal area, or the district area where the municipality is located or the province where the municipality is located;

1.1.11 **"lowest acceptable tender"** means a tender that complies with all specifications and conditions of tender and that has lowest price compared to other tenders;

1.1.12 **"municipal area"** means within the jurisdiction of Witzenberg Municipality;

1.1.13 **"Municipality"** refer to Witzenberg Municipality;

1.1.14 **"Policy"** means the Preferential Procurement Policy of Witzenberg Municipality;

1.1.15 **"proof of B-BBEE status level of contributor"** means

1.1.15.1 The B-BBEE status level certificate issued by an authorised body or person;

1.1.15.2 A sworn affidavit as prescribed by the B-BBEE Codes of Good Practice; or

1.1.15.3 Any other requirement prescribed in terms of the Broad-Based Black Economic Empowerment Act;

1.1.16 **"proof of locality"** means a –

1.1.16.1 municipal account in the name of the tenderer not older than 90 days;

1.1.16.2 lease agreement where the tenderer is the lessee; or

1.1.16.3 an affidavit in cases where the tenderer is not a municipal account holder or is not a lessee to a lease agreement confirming the registered address of the tenderer;

1.1.17 **"province"** means the Western Cape Province;

1.1.18 **"price"** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;

1.1.19 **"rand value"** means the total estimated value of a contract in Rand, calculated at the time of the tender invitation;

1.1.20 **"Regulations"** means the Preferential Procurement Regulations, 2022 as issued by the Minister of Finance

1.1.21 **"specific goals"** means specific goals as contemplated in section 2(1)(d) of the Act which may include contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender and disability including the implementation of programmes of the Reconstruction and Development Programme as published in Government Gazette No. 16085 dated 23 November 1994;

1.1.22 **"tender"** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation that includes formal written price quotations, competitive bids and deviations from the official procurement processes as defined;

1.1.23 **"tender for income-generating contracts"** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions.

2. Application of the policy

(1) This policy applies to all procurement of goods and services by the municipality with a value of R30,000 and above.
(2) This policy does not apply to public auctions or any other sale or lease of assets where it is not practical to apply a system of preference.
(3) This policy must be applied concurrently with other legislative prescripts and other policies that regulates the procurement of goods and services by the municipality.

3. Objective of the policy

(1) The purpose of this policy is to:
  (a) Provide for categories of preference in awarding of bids;
  (b) Provide for the advancement of persons or categories of persons disadvantaged by unfair discrimination; and
  (c) Clarify the mechanisms how the above items in paragraph 3.1 (a) and (b) will be implemented.

4. Identification of preference point system

(1) The tender documents must stipulate –

  (a) the preference point system applicable; and

  (b) any specific goal as envisaged in section 2(1)(d) and (e) of the Act.

(2) If it is unclear whether the 80/20 or 90/10 preference point system applies, the tender documents must state/stipulate that in the case of –

  (a) an invitation for tender for income generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system: or

  (b) any other invitation for tender that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system.

5. Specific goals

(1) Specific goals must be measurable, quantifiable and monitored for compliance.

(2) A maximum of 20 points on the 80/20 preference points system or 10 points on the 90/10 preference points system will be allocated for specific goals as contemplated

in the Act for the acquisition of goods and services and income generating contracts. These goals are as follows:

(a) B-BBEE that is inclusive of contracting with persons, or categories of persons, historically disadvantaged by unfair discrimination on the basis of race, gender or disability; and

(b) locality of enterprises in the municipal area, district municipal area or province that promotes implementing the programmes of the Reconstruction and Development Programme as published in Government Gazette No. 16085 dated 23 November 1994 the preference point system.

(3) Regarding paragraph 5(2) of this Policy, 50% of the 20 points on the 80/20 preference points system and 50% of the 10 points on the 90/10 preference points system, will be allocated to promote B-BBEE in terms of the following scorecard:

No	B-BBEE status level of contributor	Number of points on 80/20 points system	Number of points on 90/10 points system
1	Level 1 contributor	10	5
2	Level 2 contributor	9	4.5
3	Level 3 contributor	6	3
4	Level 4 contributor	5	2.5
5	Level 5 contributor	4	2
6	Level 6 contributor	3	1.5
7	Level 7 contributor	2	1
8	Level 8 contributor	1	0.5
9	Non-compliant contributor	0	0

(4) The following points for specific goals per procurement process based on the 80/20 preference point system will be applied:

No	Procurement Process	Procurement ranges (inclusive of all applicable taxes)	Maximum points for Broad-Based Black Economic Empowerment (B-BBEE)	Maximum points for enterprises within Witzenberg Municipal area	Maximum points for enterprises within Cape Winelands District region	Maximum points for enterprises within the Western Cape Province
1	Formal written price and competitive tendering	R30,000 – R50 million	10	10	5	2

(5) The following points for specific goals per procurement process based on the 90/10 preference point system will be applied:

No	Procurement Process	Procurement ranges (inclusive of all applicable taxes)	Maximum Points for Broad-Based Black Economic Empowerment (B-BBEE)	Maximum points for enterprises within Witzenberg Municipal area	Maximum points for enterprises within Cape Winelands District region	Maximum points for enterprises within the Western Cape Province
1	Competitive tendering	Above R50 million	5	5	2.5	1

(6) The total number of points allocated towards specific goals must always add up to 20 points on the 80/20 preference points system or 10 points on the 90/10 preference points system.

(7) A tenderer that is located outside the Western Cape Province will score 0 points for locality.

6. 80/20 preference point system for acquisition of goods or services with Rand value equal to or below R50 million

(1) The following formula must be used to calculate the points out of 80 for price in respect of an invitation for a tender with a Rand value equal to or below R50 million, inclusive of all applicable taxes:

$$Ps = 80\left(1 - \frac{Pt - P\,min}{P\,min}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmin = Price of lowest acceptable tender

(2) A maximum of 20 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal(s) must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(6) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(7) A tenderer must submit proof of locality in order to claiming point(s) for locality.

(8) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

7. 90/10 preference point system for acquisition of goods and services with Rand value above R50 million

(1) The following formula must be used to calculate the points out of 90 for price in respect of an invitation for a tender with a Rand value above R50 million, inclusive of all applicable taxes:

$$Ps = 90\left(1 - \frac{Pt - P\,min}{P\,min}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmin = Price of lowest acceptable tender

(2) A maximum of 10 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(5) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(6) A tenderer must submit proof of locality in order to claiming point(s) for locality.

(7) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

8. 80/20 preference point system for tenders to generate income or to dispose of or lease assets with Rand value equal to or below R50 million

(1) The following formula must be used to calculate the points out of 80 for price in respect of an invitation for a tender for income-generating contracts with a Rand value equal to or below R50 million, inclusive of all applicable taxes:

$$Ps = 80\left(1 + \frac{Pt - Pmax}{Pmax}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmax = Price of highest acceptable tender

(2) A maximum of 20 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(6) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(7) A tenderer must submit proof of locality in order to claim point(s) for locality.

(8) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

9. 90/10 preference point system for tenders to generate income or to dispose of or lease assets with Rand value above R50 million

(1) The following formula must be used to calculate the points out of 90 for price in respect of an invitation for a tender for income-generating contracts with a Rand value above R50 million, inclusive of all applicable taxes:

$$Ps = 90\left(1 + \frac{Pt - Pmax}{Pmax}\right)$$

Where –

Ps = Points scored for price of tender under consideration;

Pt = Price of tender under consideration; and

Pmax = Price of highest acceptable tender

(2) A maximum of 10 points may be awarded to a tenderer for the specific goals as provided for under paragraph 3 of this Policy.

(3) The points scored for the specific goal must be added to the points scored for the price and the total must be rounded off to the nearest two decimal places.

(4) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tendering scoring the highest points.

(5) A tenderer must submit proof of its B-BBEE status level of contributor in order to claim points for B-BBEE.

(6) A tenderer failing to submit proof of B-BBEE status level of contributor or is a non-compliant contributor to B-BBEE may not be disqualified, but will only score 0 points for B-BBEE.

(7) A tenderer must submit proof of locality in order to claiming point(s) for locality.

(8) A tenderer failing to submit proof of locality may not be disqualified, but will only score 0 points for locality.

(9) A tenderer that scores 0 points for B-BBEE and/or 0 points for locality must be scored for price only.

(10) The points scored for the specific goals must be added to the points scored for price and the total must be rounded off to the nearest two decimals.

(11) Subject to section 2(1)(f) of the Act, the contract must be awarded to the tenderer scoring the highest points.

10. Criteria for breaking deadlock in scoring

(1) If two or more tenderers score an equal total number of points, the contract must be awarded to the tenderer that scored the highest points for specific goals.

(2) If two or more tenderers score equal total points in all respects, the award must be decided by the drawing of lots.

11. Oversight role of Council

For the purpose of oversight, the Accounting Officer must within 30 days of the end of each financial year, submit a report on the implementation of this Policy to the Council.

12. Short title

This Policy is called the Preferential Procurement Policy of Witzenberg Municipality.

LONG-TERM FINANCIAL PLAN POLICY

Date of implementation 01 July 2013

1. DEFINITIONS AND ABBREVIATIONS

''basic municipal service'' means a municipal service that is necessary to ensure an acceptable and reasonable quality of life and which, if not provided, would endanger public health or safety or the environment;

"BSC" means Budget Steering Committee, a committee established to provide technical assistance to the Mayor in discharging the responsibilities set out in section 53 of the MFMA;

''budget-related policy'' means a policy of a municipality affecting or affected by the annual budget of the municipality, including—

the tariffs policy which the municipality must adopt in terms of section 74 of the Municipal Systems Act;

the rates policy which the municipality must adopt in terms of legislation regulating municipal property rates; or

the credit control and debt collection policy which the municipality must adopt in terms of section 96 of the Municipal Systems Act;

"IDP" means the Integrated Development Plan;

"LTFP" means Long Term Financial Plan;

''long-term debt'' means debt repayable over a period exceeding one year;

"MBRR" means the Municipal Budget and Reporting Regulations;

"MFMA" means the Municipal Finance Management Act No 56 of 2003;

"MTREF" means Medium Term Revenue and Expenditure Framework, as prescribed by the MFMA. It sets out indicative revenue and projected expenditure for the budget year, plus two outer financial years;

"**Municipality"** means Witzenberg Municipality;

''municipal tariff'' means a tariff for services which a municipality may set for the provision of a service to the local community, and includes a surcharge on such tariff;

''municipal tax'' means property rates or other taxes, levies or duties that a municipality may impose;

''National Treasury'' means the National Treasury established by section 5 of the Public Finance Management Act.

"Short Term" refers to a period up to 3 (three) years

"Medium Term" refers to a period between 3 (three) and 5 (five) years

"Long Term" refers to any period longer than 5 (five) years

2. INTRODUCTION

2.1. The Local Government: Municipal Finance Management Act No 56 of 2003 (hereafter MFMA) has instituted various financial reform measures. Sound financial management practices have been identified as essential to the long- term sustainability of municipalities. In this regard the MFMA necessitates that municipality's must have a policy related the Long Term Financial Plan (hereafter LTFP).

2.2. A municipality's financial plan integrates the financial relationships of various revenue and expenditure streams to give effect to the Integrated Development Plan (hereafter IDP). It provides guidance for the development of current budgets and assesses financial impacts on outer years' budgets by incorporating capital expenditure outcomes, operating expenditure trends, optimal asset management plans and the consequential impact on rates, tariffs and other service charges.

2.3. The Municipality has developed a financial model that aims to determine the appropriate mix of parameters and assumptions within which the municipality should operate to facilitate budgets which are affordable and sustainable at least 10 years into the future. In addition, it identifies the consequential financial impact of planned capital projects on the municipality's operational budget.

3. PROBLEM STATEMENT

3.1. Preceding the inception of the MFMA municipal budgets usually catered for immediate demands with little or no view to future needs or the future consequences of particular decisions. This poor planning practice fragmented the sustainability of municipal budgets.

4. PURPOSE

4.1. The policy aims to ensure that all long-term financial planning is based on a structured and consistent methodology thereby ensuring long-term financial affordability and sustainability.

5. GUIDING PRINCIPLES

5.1. The policy is based on the following principles:-
- 5.1.1. Future financial sustainability;
- 5.1.2. Optimal collection of revenue, taking into consideration the socio economic environment;
- 5.1.3. Optimal utilisation of grant funding;
- 5.1.4. Continuous improvement and expansion in service delivery framework, and
- 5.1.5. Prudent financial strategies.

6. ROLE PLAYERS AND STAKEHOLDERS

The following role players will ensure that the LTFP is implemented in accordance with the prescribed legislative requirements and Council processes.

6.1. Budget Office
- 6.1.1. Responsible for the preparation and the compilation of the LTFP;
- 6.1.2. Responsible for overall oversight;
- 6.1.3. Present long term financial plan outcome to the Budget Steering Committee;
- 6.1.4. Review Policy and Strategy, in consultation with relevant stakeholders, to ensure maximum compliance in terms of legislation.

6.2. Directorates and Departments
- 6.2.1. Responsible for providing reasons on past performance outcomes
- 6.2.2. Responsible for providing information to Budget Office to update the financial plan;
- 6.2.3. Required to identify revenue and expenditure plans for both operating and capital budgets for at least 3 years.
- 6.2.4. Required to make recommendations on future service delivery matters.

6.3. Budget Steering Committee

6.3.1. Responsible for providing strategic guidance on matters relevant to the long term financial plan
6.3.2. Responsible for endorsing the projected MTREF assumptions and parameters contemplated by the LTFP.

7. REGULATORY CONTEXT

7.1. Section 17 (3) of the MFMA states that "when an annual budget is tabled it must be accompanied by amongst other "any proposed amendments to the budget-related policies of the municipality".

7.2. Section 21 of the MFMA states that the mayor of a municipality must at least 10 months before the start of the budget year, table in the municipal council a time schedule outlining key deadlines for, amongst other:
(i) The preparation, tabling and approval of the annual budget;
(ii) the annual review of—
(aa) the integrated development plan in terms of section 34 of the Municipal Systems Act; and
(bb) the budget-related policies;
(ii) The tabling and adoption of any amendments to the IDP and the budget-related policies; and
(iii) any consultative processes forming part of the processes referred to in subparagraphs (i), (ii) and (iii).

7.3. Section 7 (1) of the Local Government: Municipal Finance Management Act, 2003, Municipal Budget and Reporting Regulations, 2009 (hereafter MBRR) states that:
"the Municipal Manager of a municipality must prepare, or take all reasonable steps to ensure the preparation of budget-related policies of the municipality, or any or any necessary amendments to such policies, in accordance with the legislation applicable to those policies for tabling in the municipal council by the applicable deadline specified by the mayor in terms of section 21 (1) (b) of the MFMA".

7.4. Section 7 (1) reference (1) of the MBRR, further states that "as defined in section 1 of the MFMA. Policies that affect or are affected by the annual budget of a municipality include …. "(g) A policy related to the long term financial plan".

7.5. Section 4 (1) of the MBRR states "that the mayor of a municipality must establish a budget steering committee to provide technical assistance to the mayor in discharging the responsibilities set out in section 53 of the MFMA".

7.6. Section 26 (h) of the Local Government: Municipal Systems Act 32 of 2000 (hereafter the MSA) states that "An Integrated Development Plan must reflect a financial plan, which must include a budget projection for at least the next three years".

8. POLICY DIRECTIVE DETAILS

8.1. Financial strategies
8.1.1. An intrinsic feature of the LTFP is to give effect to the Municipality's financial strategies. These strategies include:
8.1.1.1. Increasing funding for asset maintenance and renewal;
8.1.1.2. Continuous improvement to the financial position;
8.1.1.3. Ensuring affordable debt levels to fund the capital budget;
8.1.1.4. Maintaining fair, equitable and affordable rates and tariff increase;
8.1.1.5. Maintaining or improving basic municipal services;
8.1.1.6. Achieving and maintaining a breakeven/surplus Operating budget; and
8.1.1.7. Ensuring full cost recovery for the provision of internal services.

8.2. Non – financial strategies
8.2.1. The LTFP is a key component for achieving the goals listed in the IDP of the Municipality. The LTFP must consider the following non – financial strategic strategies:
8.2.1.1. The Municipality's Strategic Focus Areas;
8.2.1.2. Infrastructure led growth strategies; and
8.2.1.3. The Municipality's Spatial Development Framework.

8.3. Preparation of the LTFP
8.3.1. The LTFP process should commence by latest June of each year.
8.3.2. The LTFP should consider the fiscal overview by reviewing past financial performance, projection of long-term financial outlook and financing and funding arrangements. The following matters should be considered annually:
8.3.2.1. Revising the long-term financial plan for events that may have impacted during the recent past;

8.3.2.2. Assessing the outcomes and achievements of the past few years financial performance as per the audited financial statements;
8.3.2.3. Reviewing the financial objective and assumptions;
8.3.2.4. Reviewing the past and summarise long term financial outlook;
8.3.2.5. Assess the current overall financial position and liquidity situation;
8.3.2.6. Identify any financial challenges and constraints;
8.3.2.7. Identifying strategies to deal with the challenges, and to maintain financial viability and capacity to sustain services;
8.3.2.8. Identify overall funding mix and implications for own revenue and external funding; and
8.3.2.9. Assess compliance with the MFMA and other relevant legislation etc.

8.3.3. The LTFP is prepared in an uncertain environment it is therefore required to make certain assumptions on the following internal and external factors:
8.3.3.1. Reviewing the external factors (population migration, employment, health, development of businesses, and new residential areas, etc.);
8.3.3.2. General inflation outlook and its impact on the municipal activities;
8.3.3.3. Credit rating outlook;
8.3.3.4. Interest rates for borrowing and investment of funds;
8.3.3.5. Rates, tariffs, charges and timing of revenue collection;
8.3.3.6. Growth or decline in tax base of the municipality;
8.3.3.7. Collection rates for each revenue source;
8.3.3.8. Price movements on specifics e.g. bulk purchases of water and electricity, fuel etc.;
8.3.3.9. Average salary increases;
8.3.3.10. Industrial relations climate, reorganisation and capacity building;
8.3.3.11. Trends in population and households (growth, decline, stable);
8.3.3.12. Changing demand characteristics (demand for services);
8.3.3.13. Trends in demand for free or subsidised basic services;
8.3.3.14. Impact of national, provincial and local policies;
8.3.3.15. Ability of the municipality to spend and deliver on the programmes; and
8.3.3.16. Implications of restructuring and other major events into the future.

8.3.4. Intergovernmental fiscal transfers/allocations from National and Provincial government play a pivotal role in the finances of the Municipality. The following unconditional transfers/allocations must be considered, as a minimum, when projecting the budget:
8.3.4.1. Local Government Equitable Share;
8.3.4.2. Grants related to the provision of Provincial government functions.

8.4. The Municipality's LTFP model and scenario planning
8.4.1. The Municipality financial model gives effect to the LTFP. It enables the forecasting of the operating and capital budgets for at least 10 years into the future. The model embodies National Treasury's budget preparation guidelines, drawing on assumptions and parameters to forecast the operating budget.
8.4.2. Strategic initiatives should be prioritised and quantified to be included in the financial model.
8.4.3. The financial forecasting model must be updated using the fiscal overview, assumption and intergovernmental fiscal transfers/allocations information to identify immediate opportunities and/or risks.
8.4.4. The medium and long-term financial viability should be evaluated.
8.4.5. Reiterative scenario planning should be executed to ensure optimum use of resources to cater for strategic initiatives.
8.4.6. To identify the optimum balance between revenue collection and municipal spending the following should be taken into account:
8.4.6.1. The impact each scenario has on the financial sustainability and affordability of the Municipality;
8.4.6.2. Whether scenarios are realistic in terms of revenue projections;
8.4.6.3. Potential revenue enhancement strategies which may have a long-term impact on the revenue base of the Municipality;
8.4.6.4. Potential cost saving mechanisms related to strategic initiatives; and
8.4.6.5. The impact of infrastructure investments and maintenance programs on future revenue streams.
8.4.7. Presentations on scenarios should be presented to the BSC as may be requested.
8.4.8. BSC should endorse the final MTREF scenario inclusive of assumptions and parameters annually by latest January.

8.5. The annual updated LTFP should identify the following:
  8.5.1. Assumptions and parameters to be used to compile the Operating and Capital budgets over the next MTREF;
  8.5.2. Future Operating revenue and expenditure projections based on assumptions and parameters;
  8.5.3. Future affordability of projected Capital Plans
  8.5.4. The level of infrastructure development required to achieve the
  8.5.5. Municipal priorities, within the funding restrictions; and
  8.5.6. External funding requirements in respect of long term debt.

8.6. Implementation of the LTFP
  8.6.1. The annual updated LTFP should provide the parameters and assumptions for the compilation of the operating and capital budgets for the next MTREF.
  8.6.2. This information should be provided to the Operating and Capital budget departments by latest January of each year.

9. EVALUATION AND REVIEW

9.1. This policy shall be implemented once approved by Council.
9.2. In terms of section 17(1) (e) of the MFMA this policy must be reviewed on an annual basis
9.3. Changes in financial strategy, non – financial strategic strategies and legislation must be taken into account for future amendments to this policy.
9.4. Any amendments must be tabled to Council for approval as part of the budget process.

POST-EMPLOYMENT MEDICAL AID CONTRIBUTION POLICY

Reviewed by Council 30/05/2017
Adopted by Council 26/07/2016

POST-EMPLOYMENT MEDICAL AID CONTRIBUTION POLICY

1. Purpose

The purpose of this policy is to determine guidelines for the:

1.1 Management of contributions to medical aids, post-employment.

1.2 Determine whether an employee is entitled to the post-employment medical aid benefit.

2. Definitions

2.1 Approved medical aid: A medical aid approved by the Bargaining Council.

2.2 Bargaining Council: The South African Local Government Bargaining Council.

2.3 Medical disability: Employees not able to continue with employment due to medical reasons with proof from medical practitioners.

2.4 Normal retirement age: The retirement age for the purpose of this policy is set at 60 years.[1]

2.5 **Qualifying dependants:** Legally married spouse and dependent children below the age of 21.

3. Object of the policy

To ensure a transparent, accountable and sustainable manner to assist qualifying employees access of post-employment health care benefits.

4. Qualifying employees

4.1 An employee retiring at normal retirement age, with at least 10 years' service and who was a member of an approved medical aid for at least the last 5 years before retirement.

4.2 An employee retiring within 5 years of normal retirement age, with at least 20 years' service, and who was a member of an approved medical aid for at least the last 5 years before retirement.

4.3 An employee leaving employment due to health reasons with at least 5 years' service and who was a member of an approved medical aid for at least the last year before retirement.

4.4 An employee not capable to continue employment due to injury on duty and who was a member of an approved medical aid for at least the last year before medical retirement.

4.5 An employee who did not have a medical condition that resulted in the medical boarding at date of appointment.

4.6 An employee retiring at normal retirement age who was in the employment of the municipality at the date of implementation of this policy and who was a

[1] Amended by Council 30/05/2017

member of an approved medical aid for at least the last 5 years before retirement.

4.7 The qualifying dependants of an employee if the employee passed while in service and the employee and his qualifying dependants were members of an approved medical aid.[2]

4.8 The qualifying dependants of an employee will be entitled to the benefits even after the passing of the employee after retirement. [3]

5. **Limit of benefit**

The benefit will be limited to the smaller of:

5.1 The maximum amount applicable to in-service members as agreed on at the Bargaining Council.

5.2 70 % of the total contribution payable to an approved medical aid scheme in respect of the employee and his/her qualifying dependants.

6. **Payment of benefit**

6.1 The municipality will only be responsible to pay the employer's contribution over to the relevant medical aid. The employee must make his/her own arrangements to pay his/her contribution to the medical aid.

6.2 If the employee fails to pay his/her contribution to the medical aid the contribution payable by the municipality can be stopped.

7. **Cancellation of benefit**

The benefit in terms of this policy may be terminated:

7.1 If the beneficiary is still economically active (Employed by another entity or self-employed.)

7.2 If the beneficiary is in arrears for three months or longer with his contribution to the medical aid.

7.3 The Municipal Manager may consider the continuation of the benefit on receipt of a motivated application.

8. **Transitional arrangements**

8.1 Existing beneficiaries of the post-employment medical scheme will retain their current benefit until 31 December 2017 when they can choose more affordable options from their medical schemes.

8.2 The future benefit of existing beneficiaries whose current benefit is more than the benefit as per paragraph 5.1 will receive the larger of the current benefit and the benefit as per paragraph 5.1, but limited to the amount as per paragraph 5.2.

3. PURPOSE 4

4. GUIDING PRINCIPLES 4

5. NEW CAPITAL INFRASTRUCTURE INVESTMENT 4

6. REFURBISHMENT & SIGNIFICANT INFRASTRUCTURE MAINTENANCE PROJECTS 5

7. FUNDING OF CAPITAL INFRASTRUCTURE INVESTMENTS 6

8. INFRASTRUCTURE BUDGETING 6

9. IMPLEMENTATION & REVIEW OF THIS POLICY 6

1. DEFINITIONS

"Asset" means a tangible or intangible resource capable of ownership.

"Capital Asset" means:-

(a) Any immovable asset such as land, property or buildings; or

(b) Any moveable asset that can be used continuously or repeatedly for more than one year in the production or supply of goods or services, for rental to others or for administrative purposes, and from which future economic or social economic benefit can be derived, such as plant, machinery and equipment.

"Capital Expenditure (CAPEX)" means expenditure used to create new assets or to increase the capacity of existing assets.

"Carrying Value" means the Cost less Accumulated Depreciation of an Asset.

"Infrastructure Assets" includes all core assets which are integral to the delivery of municipal services, including water supply, sanitation, road transport and storm water drainage, solid waste removal, electricity supply, and community facilities. In terms of GRAP, it includes all immovable Property, Plant and Equipment (PPE), as well as specific immovable assets such as vehicles that are directly used in the delivery of the service (such as waste removal trucks). It excludes intangible assets (such as licenses, software, etc.) and current assets (ones with a life less than 12 months, such as consumables).

"Infrastructure Asset Management Plan (IAM)" means a plan developed for the management of Infrastructure Assets with the aim of providing specified levels of service in a cost-effective manner, now and in the future. Multi-disciplinary management techniques (including technical and financial) are combined to determine the aggregated asset life-cycle needs. A significant component of the plan is a long-term cash-flow.

"Infrastructure Asset Management Policy" means a formal statement adopted by Council that indicates the municipality's policy objective, the policy principles, and how these will be pursued (including the establishment of an IAM Team, and aligned systems and planning).

"Infrastructure Asset Management Strategy" means a document that defines key IAM processes and targets including the definition of Consumer Groups and Service Catchments; Service Performance Standards and targets that accommodate the municipality's vision of future growth and demand; interaction and coordination measures; AMS functionality and data standards; risk management processes; IAM practice improvement processes; a funding and prioritisation strategy; and allocation of responsibility for implementation.

"Operation" relates to running the service e.g. record keeping, accounting, monitoring, complaints and repairs.

"Maintenance" means the actions required for an asset to achieve its expected useful life and ensuring that the asset functions efficiently for the whole of its Expected Useful Life. Maintenance can be planned or unplanned. Planned Maintenance includes measures to prevent known failure modes and can be time or condition-based. Repairs are a form of unplanned maintenance to restore an asset to its previous condition after failure or damage. Expenses on maintenance are considered operational expenditure.

2. INTRODUCTION

2.1 This policy aims to describe the process through which the Municipality can initiate projects of a capital nature. It ultimately aims to serve as a principal instrument to steer the budget for Infrastructure and Capital projects in the Municipality around a particular agreeable and sustainable developmental path.

2.2 This policy is mandated by section 8 of the Local Government: Municipal Budget and Reporting Regulations.

3. PURPOSE

3.1 This policy sets out the process and methodology for capital investment of any nature, regardless of the funding source. The following investments of a capital infrastructure nature fall within the ambit of this policy:

3.1.1 New building construction or acquisitions;
3.1.2 Extensions to existing buildings;
3.1.3 Upgrades to accommodation and housing, other than those projects relating to low cost housing;
3.1.4 Land acquisitions;
3.1.5 All major capital works, as covered within the Asset Maintenance / Life-Cycle Management Policy;
3.1.6 All infrastructure developments; and
3.1.7 Information and communication infrastructure renewals and/or upgrades;

4. GUIDING PRINCIPLES

4.1. The Capital Infrastructure Investment Policy is based on the following principles:-

4.1.1 Need as identified within the IDP, underpinned by the Municipal Capital Investment Program and National Spatial Development Perspective;
4.1.2 Necessity to fulfil the service delivery mandate as identified within the Asset Maintenance / Life-Cycle Management Policy; and
4.1.3 Affordability.

5. NEW CAPITAL INFRASTRUCTURE INVESTMENT

5.1 New infrastructure development may only be entered into if:-

5.1.1 The project is in line with the Municipality's IDP;
5.1.2 Funding has been secured through either internal or external funding mechanisms and has been approved in the Municipality's Capital Budget; and
5.1.3 A detailed life-cycle funding plan has been developed, supported and integrated into the Asset Maintenance / Life –Cycle Management Policy;

5.2. All new infrastructure investments will be subject to:-

5.2.1 Needs analysis based on:-
i. Service delivery sustainability;
ii. Consumer growth projections which are in line with the National and Regional Spatial Development Growth Perspectives; and
iii. National, Regional and Municipal strategic directives.
5.2.2 Strategic project plan, including:-

i. A holistic overview of the direct benefits, risks and impact of the intended project;

ii. An assessment on the impact of current Infrastructure;

iii. A service delivery framework relevant to the project;

iv. A cost assessment, detailing the capital and maintenance cost projections for the entire life-cycle; and

v. A funding model, detailing the financing source and associated cost, if any, as well as any revenue projections associated with the project.

5.2.3 Outcome of stakeholder consultation, including:-

i. Environmental impact studies; and

ii. Feedback from community participation process, with specific focus on:-

- Rights and entitlements of members of the community; and
- impact on quality of life.

5.2.4 Implementation model, detailing:-

i. Relevant skills base and source of skills required for implementation; and

ii. Specific timeframes for each activity throughout the project lifecycle (cradle to grave approach).

6. REFURBISHMENT AND SIGNIFICANT INFRASTRUCTURE MAINTENANCE PROJECTS

6.1 All Capital Infrastructure refurbishment and significant maintenance projects may only be entered into if:

6.1.1 The project is in line with the Municipality's IDP or emergency maintenance framework;

6.1.2 Funding has been secured through either internal or external funding mechanisms and has been approved in the Municipality's Capital Budget; and

6.1.3 A detailed life-cycle funding plan has been developed, supported and integrated into the Asset Maintenance / Life –Cycle Management Policy.

6.2 All refurbishments and significant infrastructure maintenance projects will be subject to:-

6.2.1 Needs analysis based on:-

i. Service delivery sustainability; and

ii. Asset redundancy and failure assessment of the asset under scrutiny.

6.2.2 Strategic project plan, including:-

i. A holistic overview of the direct benefits, risks and impact of the intended refurbishment project;

ii. An assessment on the potential impact of unavailability of the asset during the refurbishment process, including redundancy measures;

iii. A service delivery framework relevant to the project;

iv. A cost assessment, detailing the capital and maintenance cost projections for the entire life-cycle; and

v. A funding model, detailing the financing source and associated cost, if any, as well as any revenue projections associated with the project.

6.2.3 Outcome of stakeholder consultation, including:-

i. Environmental impact studies; and

ii. Feedback from community participation process, with specific focus on;

- Rights and entitlements of members of the community; and
- Impact on quality of life;

6.2.4 Implementation model, detailing:-

i. Relevant skills base and source of skills required for implementation; and

ii. Specific timeframes for each activity throughout the project lifecycle (cradle to grave approach).

7. FUNDING OF CAPITAL INFRASTRUCTURE INVESTMENTS

7.1 All new Capital Infrastructure Investments may be funded from:-

7.1.1 Cash backed accumulated surpluses;
7.1.2 Borrowings;
7.1.3 Government grants and subsidies;
7.1.4 Public donations and contributions;
7.1.5 PPP initiatives in line with the MFMA PPE regulations; and
7.1.6 Operating Revenue.

7.2 All refurbishment and significant infrastructure maintenance projects may be funded from:-

7.2.1 Cash backed accumulated surpluses;
7.2.2 Borrowings in respect of refurbishment;
7.2.3 Government grants and subsidies in accordance with their relevant conditions; and
7.2.4 Operating Revenue.

8. INFRASTRUCTURE BUDGETING

8.1 The on-going renewal of Infrastructure Assets should be approximately 1.0 % of the Carrying Value of the Assets.

8.2 On-going Repairs and Maintenance of Infrastructure Assets should be at the very least 2.0 % of the Carrying Value of the Assets.

9. IMPLEMENTATION & REVIEW OF THIS POLICY

9.1 This policy shall be implemented once approved by Council.

9.2 In terms of section 17(1)(e) of the MFMA this policy must be reviewed on a regular basis as deemed necessary and the reviewed policy tabled to Council for approval as part of the budget process.

1. DEFINITIONS

In the policy a word or expression to which a meaning has been assigned in the Act has the same meaning as in the Act, unless the context indicates otherwise, and-

"Act" means the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003);

"consultant" means a professional person, individual, partnership, corporation, or a company appointed to provide technical and specialist advice or to assist with a design and implementation of projects or to assist a municipality or municipal entity to perform its functions to achieve the objects of local government in terms of section 152 of the Constitution;

"cost containment" means measures implemented to curtail spending in terms of the policy; and

"credit card" means a card issued by a financial services provider, which creates a revolving account and grants a line of credit to the cardholder.

2. OBJECT OF POLICY

The object of this policy is to ensure that resources of a municipality are used effectively, efficiently and economically by implementing cost containment measures.

3. APPLICATION OF POLICY

This Policy applies to all officials and political office bearers in the municipality.

4. COST CONTAINMENT

The municipality must develop and implement a cost containment policy which must-

(a) be adopted by council as part of its budget related policies; and

(b) be consistent with the Act and the Cost Containment Regulation

5. USE OF CONSULTANTS

The use and appointment of consultants will be in line with the cost regulations and Council's policy on municipal supply chain.

6. VEHICLES USED FOR POLITICAL OFFICE-BEARERS

(1) The threshold limit for vehicle purchases relating to official use by political office-bearers must not exceed R700 000 or 70% (VAT inclusive) of the total annual remuneration package for the different grades of municipalities, as defined in the Public Office Bearers Act and the notices issued in terms thereof by the Minister of Cooperative Governance and Traditional Affairs, whichever is lower.

(2) The procurement of vehicles in sub-regulation (1) must be undertaken using the national government transversal contract mechanism, unless it may be procured at a lower cost through other procurement mechanisms.

(3) Before deciding to procure a vehicle as contemplated in sub-regulation (2), the accounting officer or delegated official must provide the council with information relating to the following criteria which must be considered-

(a) status of current vehicles;

(b) affordability of options including whether to procure a vehicle as compared to rental or hire thereof, provided that the most cost effective option is followed and the cost is equivalent to or lower than that contemplated in sub-regulation (1);

(c) extent of service delivery backlogs;

(d) terrain for effective usage of the vehicle; and

(e) any other policy of council.

(4) If the rental referred to in sub-regulation (3) is preferred, the accounting officer must review the costs incurred regularly to ensure that value for money is obtained.

(5) Regardless of their usage, vehicles for official use by political office bearers may only be replaced after completion of 120 000 kilometres.

(6) Notwithstanding sub-regulation (5), a municipality or municipal entity may replace a vehicle for official use by political office bearers before the completion of 120 000km only in instances where the vehicle has a serious mechanical problem and is in a poor condition and subject to obtaining a detailed mechanical report by the vehicle manufacturer or approved dealer.

(7) The utilisation of municipal vehicles for official purposes is contained in the Fleet Management Policy.

7. TRAVEL AND SUBSISTENCE

The Municipal policy on travel and Subsistence will be applicable. The hiring of private vehicles, as refer to in the cost containment policy will not be allowed.

8. DOMESTIC ACCOMMODATION

Accommodation arrangements will only be approved if the return trip undertaken by any official and or Councillor, for official purposes is more than 500km. All bookings will be made as prescribe by the cost containment regulations.

9. CREDIT AND DEBIT CARDS

(1) The use of any credit and debit card for municipal activities are forbidden.

(2) Where officials or political office bearers incur expenditure in relation to official municipal activities, such officials or political officer bearers must use their personal credit cards or cash or arrangements made by the municipality, and request reimbursement in accordance with the written approved Travel and Subsistence Policy and processes.

10. SPONSORSHIPS, EVENTS AND CATERING

(1) The municipality may not incur catering expenses for meetings which are only attended by persons in the employ of the municipality, unless the prior written approval of the accounting officer is obtained.

(2) The accounting officer may incur catering expenses for the hosting of meetings, conferences, workshops, courses, forums, recruitment interviews, and proceedings of council that exceed five hours.

(3) Entertainment allowances of qualifying officials may not exceed two thousand rand per person per financial year, unless approved otherwise by the accounting officer.

(4) The municipality may not incur expenses on alcoholic beverages unless the municipality recovers the cost from the sale of such beverages.

(5) The accounting officer must ensure that social events, team building exercises, year-end functions, sporting events and budget vote dinners are not financed from the municipality or the municipal entity's budgets or by any suppliers or sponsors.

(6) The municipality may not incur expenditure on corporate branded items like clothing or goods for personal use of officials, other than uniforms, office supplies and tools of trade unless costs related thereto are recovered from affected officials or is an integral part of the business model.

(7) The accounting officer may incur expenditure not exceeding the limits for petty cash usage to host farewell functions in recognition of officials who retire after serving the municipality for ten or more years or retire on grounds of ill health.

11. COMMUNICATION

(1) The municipality may, as far as possible, advertise municipal related events on its website instead of advertising in magazines or newspapers.

(2) The accounting officer must ensure that allowances to officials for private calls and data costs are limited to an amount as determined by the accounting officer.

(3) Newspapers and other related publications must be discontinued on expiry of existing contracts or supply orders, unless required for professional purposes and where unavailable in electronic format.

(4) The municipality may participate in the transversal term contract arranged by the National Treasury for the acquisition of mobile communication services.

12. CONFERENCES, MEETINGS AND STUDY TOURS (HR Manager to ensure if such policies and procedures exist)

(1) The accounting officer must establish policies and procedures to manage applications to attend conferences or events hosted by professional bodies or non-governmental institutions held within and outside the borders of South Africa taking into account their merits and benefits, costs and available alternatives.

(2) When considering applications from officials or political office bearers to attend conferences or events within and outside the borders of South Africa, an accounting officer or mayor as the case may be, must take the following into account-

(a) the official's or political office bearer's role and responsibilities and the anticipated benefits of the conference or event;

(b) whether the conference or event addresses relevant concerns of the institution;

(c) the appropriate number of officials or political office bearers, not exceeding three, attending the conference or event; and

(d) the availability of funds to meet expenses related to the conference or event.

(3) An accounting officer may consider appropriate benchmark costs with other professional bodies or regulatory bodies prior to granting approval for an official to attend a conference or event within and outside the borders of South Africa.

(4) The benchmark costs referred to in sub-regulation (3) may not exceed an amount

as determined from time to time by the National Treasury through a notice.

(5) The amount referred to in sub-regulation (4) excludes costs related to travel, accommodation and related expenses, but includes-

(a) conference or event registration expenses; and

(b) any other expense incurred in relation to the conference or event.

(6) When considering costs for conferences or events these may not include items such as laptops, tablets and other similar tokens that are built into the price of such conferences or events.

(7) The accounting officer of a municipality or municipal entity must ensure that meetings and planning sessions that entail the use of municipal funds are, as far as may be practically possible, held in-house.

(8) Municipal or provincial office facilities must be utilised for conference, meetings, strategic planning sessions, *inter alia,* where an appropriate venue exists within the municipal jurisdiction.

(9) The accounting officer must grant the approval for officials and in the case of political office bearers and the accounting officer, the mayor, as contemplated in sub-regulation (2).

(10) The municipality must, where applicable, take advantage of early registration discounts by granting the required approvals to attend the conference, event or study tour, in advance.

13. OTHER RELATED EXPENDITURE ITEMS

(1) All commodities, services and products covered by a transversal contract concluded by the National Treasury must be considered before approaching the market, to benefit from savings where lower prices or rates have been negotiated.

(2) Municipal resources may not be used to fund elections, campaign activities, including the provision of food, clothing, printing of agendas and brochures and other inducements as part of, or during election periods or to fund any activities of any political party at any time.

(3) Expenditure on tools of trade for political office bearers must be limited to the upper limits as approved and published by the Cabinet member responsible for local government in terms of the Remuneration of Public Office Bearers Act, 1998.

(4) The municipality must avoid expenditure on elaborate and expensive office furniture.

(5) The municipality may only use the services of the South African Police Service to conduct periodical or quarterly security threat assessments of political office bearers and key officials and a report must be submitted to the speaker's office.

(6) The municipality may consider providing additional time-off in lieu of payment for overtime worked. Planned overtime must be submitted to the relevant manager for consideration on a monthly basis. A motivation for all unplanned overtime must be submitted to the relevant manager. (Refer to Overtime Policy)

(7) A municipality must ensure that due process is followed when suspending or dismissing officials to avoid unnecessary litigation costs. (Refer to Disciplinary Policy)

14. ENFORCEMENT PROCEDURES

Failure to implement or comply with this policy may result in any official of the municipality, political office bearer or director of the board that authorised or incurred any expenditure contrary to this policy being held liable for financial misconduct or a financial offence in the case of political office bearers as defined in Chapter 15 of the Act read with the Municipal Regulations on Financial Misconduct Procedures and Criminal Proceedings, 2014.

15. DISCLOSURES OF COST CONTAINMENT MEASURES

(1) The disclosure of cost containment measures applied by the municipality must be included in the municipal in-year budget reports and annual costs savings disclosed in the annual report.

(2) The measures implemented and aggregate amounts saved per quarter, together with the regular reports on reprioritisation of cost savings and on the implementation of the cost containment measures must be submitted to the Municipal Council for review and resolution. The municipal council can refer such reports to an appropriate Council Committee for further recommendations and actions.

(3) The reports referred to in sub-regulation (2) must be copied to the National Treasury and the relevant provincial treasury within seven calendar days after the report is submitted to municipal council.

16. SHORT TITLE AND COMMENCEMENT

The Municipality Cost Containment policy is in line with the Municipal Cost Containment Regulations published in the Government Gazette 42514 of 7 June 2019 and take effect on 1 July 2019.

TRAVEL MANAGEMENT POLICY

1.2.10	"TMC"	Travel Management Company
1.2.11	SALGA	South African Local Government Association

2. PROBLEM STATEMENT

2.1 From time to time Municipality Councillors and Officials travel locally and/or internationally in execution of their duties, hence the need for the development, implementation and monitoring of a Travel Management Policy.

2.2 A principle of cost containment and financial prudence is maintained at all times.

3. DESIRED OUTCOMES

3.1 To provide a policy framework for consistent decision making on matters related totravel management within the Municipality.

3.2 To provide a mechanism to ensure cost effective and sustainable travel management.

3.3 To set parameters within which Travellers may claim reimbursements for costs incurred prior to, during and after the trip has been undertaken.

3.4 To prevent any unauthorised, irregular, fruitless and wasteful expenditure.

4. PURPOSE

4.1 The purpose of this policy is to provide a regulatory framework for travelling and accommodation services for the Witzenberg Municipality and to create minimum norms and standards for Travellers while on official business both domestically and internationally.

4.2 Further, this policy aims to establish procedures that will ensure effective control over the processing, administration, authorisation of travel expenditure and containing costs at all times.

5. REGULATORY CONTEXT

This policy is developed and guided by the following legislation, regulationsand circulars, amongst others: -

5.1 Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of2003) (MFMA)

5.2 National Treasury Regulations, Circulars and other publications affecting travel in terms of MFMA

5.3 Transport Tariffs as determined by the Department of Transport

5.4 Income Tax Act, 1962 (Act No. 58 of 1962) (as amended) as well as guidelines

5.5 Taxation Laws Amendment Act 2017

5.6 SARS Interpretation Notices & other Notices

5.7 Municipality System of Delegations

5.8 SALGA Subsistence and Travel Policy

5.9 Remuneration of Public Office Bearers Act, 1998

5.10 Municipality Leave Management Policy

5.11 Municipality Integrated Development Plan

5.12 RSA Department of National Treasury: National Travel Policy Framework

5.13 Municipality Budget Related Policies

5.14 Value -Added Tax Act, 1991 (Act No. 89 of 1991)

6. ROLE PLAYERS AND STAKEHOLDERS

6.1 There is a wide range of existing and potential external stakeholders. These range from departments and agencies in other spheres of Government that have a role to play in monitoring the Municipality's activities and finances (for example, Auditor General) to government, non-government and private sector organisations that would be affected by the Policy (for example, conference organisers).

6.2 The principal role player is the office of the Municipal Manager which will be responsible for implementing the policy and administering its ongoing management and evaluation. The office of the Municipal Manager will be

supported by Finance Directorate

6.3 Key internal stakeholders will include the MAYCO, Mayco Member for Finance, Finance Committee, Office of Municipal Manager and Directorate Finance.

6.4 The table below provides an outline of the affected role-players and Stakeholders,amongst others, the following:-

6.4.1	Office Municipal Manager	(internal)
6.4.2	NGOs	(external)
6.4.3	Private Sector	(external)
6.4.4	Finance Committee	(internal)
6.4.5	Mayor's Office	(internal)
6.4.6	Strategic Policy Branch	(internal)
6.4.7	Public Participation Unit	(internal)
6.4.8	Human Resources Unit	(internal/primary)
6.4.9	All other Municipality Directorates	(internal/secondary)
6.4.10	Auditor General	(external/government)
6.4.11	Western Cape Local Government	(external/government)
6.4.12	SALGA	(external/government)
6.4.13	Conference and/or Event Organisers	(external/government)
6.4.14	External Government Departments	(external/government) and (non-government)
6.4.15	Directorate Finance	(internal)

7. APPLICATION OF THE POLICYthis policy is applicable to:-

7.1 Any Councillor or employee of the Municipality required to travel on an approvedMunicipality business.

7.2 Any prospective employee required to travel at the Municipality's expense to attendinterviews or for any other Municipality related purposes.

7.3 Any private individual who is required to travel on behalf of the Municipality onapproved Municipality business.

8. TRAVEL RESTRICTIONS

8.1 Executive Officials are discouraged from travelling as a group, in the same transport at the same time.

8.2 The number of employees travelling on authorised official duty for the same mattermust be limited to three (3) employees, unless otherwise approved in advance by the Delegated Authority.

9. GENERAL PRINCIPLES

9.1 All bookings must be done through the official TMC based on an official authorisation number.

9.2 Travellers should plan official travel well in advance. They should obtain approval and make a booking/reservation at least seven (7) working days prior to departure for domestic travel and fourteen (14) working days prior to departure for International travel.

9.3 From time to time, National Treasury (NT) issues Circulars guiding Municipalities on measures to contain operational costs, including travel matters. Municipalities are expected to adhere to these measures.

9.4 For both Domestic and International trips, a motivation must be submitted to

the Delegated Authority for approval, highlighting the necessity of the trip and the benefits the Municipality will achieve.

9.5 Only the TMC is permitted to make travel booking arrangements on behalf of the Municipality in line with the provision of the Travel Management Policy, and any other related NT Circulars adopted by Council.

9.6 The Traveller must obtain prior approval from the Delegated Authority via the applicable travel report, and must ensure that the applicable travel template (which is updated periodically) is used.

9.7 The TMC shall be liable for any expenses incurred on behalf of the Municipality in respect of which no proper authorisation was obtained.

9.8 Upon approval by Delegated Authority, personal travelling may be combined with a business trip if it does not lead to additional expenditure for the Municipality or impairon the work performance of the individual. No costs incurred during the personal trip will be for the account of the Municipality.

9.9 The Municipality distances itself from any private reservations made with the TMC. The arrangement is solely between the TMC and the Traveller. Thus, the processing of the related payments through the Municipality's official payment system is not allowed.

9.10 The Municipality will reimburse the Traveller for all business-related expensespersonally incurred by the Traveller while travelling on behalf of the Municipality for both Domestic and International trips which is not contrary to this policy.

9.11 The Traveller must safeguard municipal information and assets while travelling and avoid compromising that security.

9.12 The Traveller should maintain personal travel documents such as a passport. The cost of obtaining a passport is for the Traveller's own account.

9.13 The most cost-effective mode of transportation should be used at all times, domestically and internationally.

9.14 Travellers should make use of public transport when travelling to/from the airport ifit is more cost effective than the cost of car rental, parking and kilometres claimed.

9.15 Where possible and permissible Travellers are encouraged to first consider the use of the Municipality's fleet vehicles when travelling on official business. Where fleet vehicles are used, no claims shall be paid, except for unforeseen circumstances, such as breakdowns and parking. It must be noted that employee on vehicleschemes may not use fleet vehicles.

9.16 In order to contain costs, the use of free Wi-Fi (where applicable) should be considered when travelling.

9.17 The Traveller should consider the most cost effective and safe parking options whenparking at the airport. (For example at Cape Town International Airport, the offsite longer-term parking area should be considered).

9.18 The Traveller will be reimbursed for parking and toll fees while on an official trip. TheTraveller should supply proof of expenses incurred when submitting a claim.

10. POLICY DIRECTIVES

10.1 AIR TRAVEL- Domestic & International

10.1.1 For domestic trips, the Municipality makes use of NT negotiated South African Airways (SAA)/British Airways (BA) rates and/or low cost carriers. All Travellers should use discounted economy class (best fare on the day) where possible. In the event where discounted economy class tickets are not available, special authorisation is required from the Delegated Authority to

book Full Economy Tickets.

Full Economy Tickets can be considered for Executives (Executive Mayor, Executive Deputy Mayor, Mayoral Committee Members, Speaker, Municipal Manager, and the Senior Management Team (SMT)) to ensure flexibility of flights,however, discounted tickets may be purchased for Executives when travel is reasonably certain.

10.1.2 In the event that the Traveller must attend an early morning meeting, in a distant location in South Africa, consideration could be given to allow the travelling to take place a day before the event

10.1.3 For international trips, the Municipality makes use of all airlines where the most economical airline is chosen on quotation basis.

10.1.4 Business Class is not encouraged, however where a single flight exceeds five (5) hours, consideration may be applied for International trips, for the Executives (Executive Mayor, Executive Deputy Mayor, Mayoral Committee Members, Speaker, Municipality Manager, and the Senior Management Team (SMT).

10.1.5 Business Class travel may also be approved for Domestic and International trips under the following scenarios including amongst others: -

10.1.5.1 Travellers with special needs based on medical grounds (e.g. Deep vein thrombosis, varicose veins, recent surgery and pregnancy).In these instances, a medical certificate noting the medical need and the applicable period of time must be provided. If this is a long-term condition, an updated Doctor's Certificate should be presented on an annual basis to confirm that the condition still exists.

10.1.5.2 Where Economy Class tickets are not available, Travellers are not allowed to book business class unless otherwise approved by the Delegated Authority, where it has been confirmed that the permitted airline class was full and no other applicable flights are available.

10.1.5.3 Disabled persons can be accommodated in Business Class upon approval by the Delegated Authority.

10.1.6 For international trips the comparison of more expensive direct flights from Cape Town versus cheaper indirect flights should always be performed. When choosing aflight, consideration should also be given to the Travellers' ability to function optimally when arriving at their destination especially when travelling across time zones.

10.1.7 If exceptional unforeseen circumstances necessitate a change to a booking and it has cost implications, it must be authorised by the Delegated Authority. These changes should be kept to a minimum as they may result in fruitless and wasteful expenditure.

10.1.8 Where special circumstances exist, which necessitate a Deviation from the above principles, prior approval Municipality Manager or in the case of the Municipal Manager the approval of the Mayor is required.

Amendments to Air Tickets

10.1.9 Travellers should limit the number of amendments to air tickets.

10.1.10 The costs associated with amendments is subject to the rules of the particular ticketand can include penalty fees.

10.1.11 The costs incurred as a result of amendments requested by a Traveller for his/herconvenience or lack of planning will be for the Traveller's personal account.

10.1.12 The costs of amendments as a result of revised business requirements or any othercircumstances outside the Traveller's control will be incurred by the relevant Line Department.

Air Ticket Cancellations and Refunds

10.1.13 The Travellers must inform the TMC immediately when they realise that they will not be able to use a specific flight which has already been booked.

10.1.14 If there is a possibility that the Traveller might not fly to the same destination within the next six months (in the case of a domestic destination) or a year (in case of an international destination), the ticket must be cancelled immediately and a refund requested via the TMC. If the Traveller will be travelling to the samedomestic destination within the next six months, the ticket must be amended to the new date and kept by the TMC.

10.1.15 In the event that the ticket was amended to a new date, the Traveller should inform the TMC when the ticket needs to be re-used.

Baggage Allowance

10.1.16 The Traveller must acquaint himself or herself with the Baggage Policy of the airline that he/she will be travelling on. The Baggage Policy will provide information on the prescribed baggage allowance and the cost for baggage in instances where the airline charges separately for baggage_

10.1.17 Based on the class of travel, the airline will prescribe the specific number of piecesof luggage that will be allowed as well as the weight and size per piece.

10.1.18 The reimbursement of excess baggage is subject to the Traveller obtaining approval for exceeding the baggage allowance due to a valid business reason, prior to the trip.

Denied Boarding Compensation

10.1.19 Travellers are discouraged from volunteering to be bumped off flights for compensation. If a Traveller volunteers to be bumped-off a flight, the Traveller is extending the travel time for personal reasons and is then personally responsible for all expenses that result from the extended trip. Any vouchers for a free ticketshould be applied for business trips.

10.2 ACCOMMODATION AND MEALS – Domestic and International Accommodation

10.2.1 Hotel accommodation for domestic and international travel are restricted to a three or a four-star grading.

10.2.2 When sourcing accommodation, the Municipality uses options that are equal to or lower than NT rates set for Domestic Hotel Accommodation, depending on theallowable star-grading.

10.2.3 Guest Houses and/or Bed and Breakfast accommodation can be utilised provided that the related costs do not exceed the proposed three or a four-star Hotel, or are within NT rates set for Domestic Hotel Accommodation.

10.2.4 In line with NT agreement with Hotels, TMCs must obtain quotes from these hotels. However, it is not necessarily limited to these hotels as accommodation depends on availability, locality and rates, which could be lower. Competition andcost effectiveness must remain a key principle.

10.2.5 If a negotiated rate for a specific star grading is equivalent to or lower than the rate for the lower star grading, the official may be accommodated in the establishment with the higher star grading. This means that an official may be accommodated at a four-star establishment if the rate at the four-star establishment is the same as or lower than a three-star establishment.

10.2.6 The TMC and line departments must ensure that their domestic accommodation costs do not exceed the NT rates which are reviewed periodically.

10.2.7 In line with Cost containment Regulations 2019, overnight accommodation is limited to instances where the distance travelled by road by the Traveller exceedsfive hundred (500) kilometres to and from the destination (return journey),unless approved otherwise by the Delegated Authority.

10.2.8 Only the services as approved and described on the travel voucher can be signedoff at time of check-out from a place of accommodation. These are the only coststhat are allowed to reflect on the invoice. All other charges are for the Travellers' own account. Travellers will not be reimbursed for

any consumable items taken from mini bars.

10.2.9 The Traveller may not redeem a Travel Accommodation Voucher or part thereof for cash.

10.2.10 Receipts for meals for domestic trips paid for by the Traveller, should be kept andattached to the claim form. In cases where receipts are lost, the Traveller should provide a declaration that the expense was actually incurred.

Private Accommodation

10.2.11 Travellers who choose to make use of private accommodation (staying with family or friends) will be compensated at the fixed subsistence allowance amount for each night at SARS rates, as per Section 8 (1)(c) of the Income Tax Act.

Meal and Incidental expenses - Domestic Trips

10.2.12 The Municipality is responsible for all meal expenses for Travellers for the duration of their official trip unless the meals are sponsored.

10.2.13 Where Travellers stay at establishments which do not offer meals or only offers breakfast, an advance can be provided.

10.2.14 A service charge of up to 10% of the bill will also be paid by the Municipality.

Meal and Incidental expenses - International Trips

10.2.15 The Municipality is responsible for all meal expenses for Travellers for the duration of their official trip.

10.2.16 These meals will be covered in terms of SARS rates applicable to the country being visited.

No-Shows and Cancellations

10.2.17 It is the responsibility of the Traveller to notify the TMC of any cancellations of reserved accommodation as soon as he/she becomes aware of the fact. Each establishment has different conditions/rules in terms of cancellations. Last-minute cancellations can result in the payment of a cancellation fee. The Traveller must familiarise himself/herself with the cancellation policy of the specific establishment.

10.2.18 The Traveller should inform the TMC or the establishment if he/she expects to be arriving later than the expected arrival time to ensure that the reservation is not cancelled or a cancellation fee is charged.

10.2.19 If the Traveller does not check in at all in a Hotel /B&B without any prior notification to the TMC or the Hotel/B&B, any no-show cost charged is regarded as fruitless and wasteful expenditure.

10.2.20 The Traveller could be responsible for any fruitless expenditure incurred due to ano-show or late cancellation where it was in his/her ability to cancel the booking on time.

10.3 VEHICLES - Domestic and International

Hiring of Vehicles

10.3.1 The Municipality makes use of the TMC for car rental.

10.3.2 In compliance with NT Directive, the hiring of vehicles from a category below Group B or an equivalent class is permitted. Due to the small size of cars lower than Group B, a Delegated Authority could, where necessary, approve the use ofa Group B car.

10.3.3 The hiring of larger vehicles is permitted under the following cases: -

10.3.3.1 When extra luggage must be accommodated;

10.3.3.2 To cater for the special needs of Travellers.

10.3.4 For groups of five (5) or more Travellers a Microbus or similar vehicle may be arranged.

10.3.5 Where a number of Travellers/officials are attending the same official function/meeting, they must at all times attempt to reduce the cost to the Municipality by using one vehicle where circumstances permit.

10.3.6 Under no circumstances may a rental vehicle be used for private purposes.

10.3.7 Any fines, penalties and administration fees payable as a result of the contravention of any traffic rules and regulations while driving a hired vehicle will be for the Traveller's personal account. The Traveller should settle the amount within thirty (30) days of receipt of the fine and should then provide proof of payment to the TMC.

10.3.8 The Delegated Authority may permit employees to accept an upgraded group of hired vehicles if such an upgrade is offered for free or at a lower charge than Group B.

10.3.9 The Traveller should book a rental vehicle for the period that it is actually

requiredfor official business only as the car rental companies charge a full daily rate for a24-hour cycle or part thereof.

10.3.10 The Traveller must ensure that the vehicle is returned within the specified rental period as it can be regarded as stolen if the vehicle is not returned in time withoutany notification to the car rental company. The Traveller will be held responsible for the additional charges for the late return of the vehicle, unless approved by the Delegated Authority upon submitting sound reason by the Traveller.

10.3.11 The Traveller must take every reasonable precaution to safeguard a rental or fleet vehicle against damage, theft or irregular use while driving it and when it is parked.

10.3.12 The most suitable vehicle will be arranged for persons living with disabilities whoare only able to drive a particular type of vehicle and those in possession of a driver's licence restricted to automatic vehicles.

10.3.13 If the Traveller needs to extend the rental period for official business purposes, the Traveller must obtain approval and the TMC will issue a voucher for the extended period.

10.3.14 If the Traveller extends his/her stay for personal reasons, the charges will be for the Traveller's personal account. The TMC and car rental company must be informed of the arrangement and the car must be returned. The Traveller must enter into a separate rental agreement for the period of private travel for personalusage.

10.3.15 The responsibility and related costs of obtaining an International Driving Licence,where required, rests with the Traveller.

10.3.16 The hiring of a vehicle on an international trip is not permitted except in countriesneighbouring South Africa.

10.3.17 For Car Rental Inspections, the Traveller should verify and complete the

Quality Check Card prior to leaving the car rental premises, both on collection and returnof the rental vehicle. The Traveller must ensure that all scratches, chips, dents, windscreen and cracks are marked on the card and signed off by the car rental attendant. Failure to complete the Quality Check Card could result in the Traveller being held personally responsible for any damages.

Private Vehicles used by Travellers

10.3.18 The boundaries of the Municipality shall be used to determine payment for traveloutside such boundaries by means of private transport for officials who are in receipt of a fixed transportation allowance, or where such an allowance has beenfactored into the total cost of employment package of the official concerned. Officials will be reimbursed in accordance with Department of Transport: Tariffs for the use of motor transport.

10.3.19 Employees who are not in receipt of a travel allowance shall be reimbursed according to the latest prescribed SARS km tariff, calculated from their place of residence.

10.3.20 Employees who are in receipt of an Essential User Transport Allowance as provided for in the Human Resources policy of the Municipality shall be reimbursed in accordance with Department of Transport: Tariffs for the use of their vehicles. The travelling distance shall be calculated from their place of residence minus the kilometres for the trip from home to their office.

10.3.21 Councillors using private transport outside the boundaries of the Municipality shall be reimbursed in accordance with Department of Transport: Tariffs for the use oftheir vehicles as determined in the "Determination of Upper Limits of Salaries, Allowances and Benefits of Different Members of Municipal Councils" as amended annually in the Government Gazette.

10.3.22 A Traveller who uses private transport to conduct business on behalf of theMunicipality shall be paid the lower of the following:-

10.3.22.1 A cash equivalent of the avoided air ticket cost, which would have beenpaid in the event of air travel being the most economical and practical means of transport plus any hired vehicle charge to get to the Traveller's destination; or

10.3.22.2 The actual cost per kilometre in accordance with DOT: Tariffs for theuse of own vehicle.

10.3.23 A person may not claim subsistence costs for a longer period than would havebeen applicable in the case of air travel.

10.3.24 Under no circumstances shall fuel advances be paid for privately owned vehicles.

Public Transportation

10.3.25 The Traveller will be reimbursed when making use of public transport for officialbusiness.

10.3.26 The Traveller must submit a receipt as proof of payment to the TravelOffice for reimbursement.

10.3.27 In the absence of the proof of payment, the Traveller must submit a declaration detailing the cost incurred and the reason/s for the absence of the receipt or proofof payment.

10.3.28 The use of public transport for interviewees who makes use of Cape Town International Airport should be encouraged instead of the more expensive shuttleoption.

Shuttle and Transfer Services

10.3.29 Travellers should make use of shuttle services if the cost of such a service is lower than the cost of hiring a vehicle. The analysis should take into account the petrol costs, distance and the cost of parking.

10.4 SUBSISTENCE ALLOWANCES- Domestic and International

Domestic Travel

10.4.1 Subsistence Allowances for domestic official trips will apply when Travellers are away from their office of employment on official business and spend at least one night away from his/her place of residence and will be paid in accordance with SARS rates for meals and incidental cost per night.

10.4.2 If the Traveller makes use of private accommodation while on an official trip, he/she will receive a Fixed Daily Allowance as determined by SARS for meals and incidental costs.

10.4.3 A day allowance is payable equal to the tariff as defined by SARS as a "incidental cost only", if an employee is away from their office of employment on official business for more than 4 hours but less than 24 hours.

International Travel

10.4.3 Subsistence Allowances for international trips will apply when Travellers spend at least one night away from his/her place of residence and will be calculated basedon SARS rates for the applicable country per night.

10.4.4 Details of these amounts are published on the SARS website under Legal Counsel/Secondary Legislation/Income Tax Notices as per the relevant year.

10.4.5 If sponsored trips provide a subsistence allowance to the Traveller equal to or higher than the prescribed allowance, the Traveller shall not receive any allowance from the Municipality.

10.4.6 If the subsistence allowance paid by the sponsor is lower than the prescribedallowance, the Traveller will receive the difference from the Municipality.

10.4.7 For cost containment purposes, the Delegated Authority reserves the right to limit the international subsistence to a reasonable amount, per Traveller per trip, when necessary.

10.5 TRAVEL ADVANCES - Domestic and International

10.5.1 Travel Advances may be paid for official journeys if provided for in the approved travel report. Any unspent portion of the advance must be repaid to the Municipality immediately on return.

10.5.2 Travellers shall submit reconciliation, together with supporting documentary proofof disbursements on the official trip within seven (7) days of return from such trip.

10.5.3 Travel Advances may not be paid out more than ten (10) days prior to departure.

10.5.4 Travel Advances will not be granted to Travellers with any outstanding advances, not utilised during previous trips.

10.6 MISCELLANEOUS EXPENSES - Domestic and International

Domestic

10.6.1 The following expenses incurred are regarded as miscellaneous and may be claimed within the boundaries of the Republic of South Africa on production of proof of expenditure: -

10.6.1.1 Parking fees while travelling

10.6.1.2 Toll fees

10.6.1.3 Public transport costs

International

10.6.2 The following expenses incurred may be claimed on production of proof ofexpenditure:

10.6.2.1 Parking/bus fares;

10.6.2.2 Transport costs to and from official meetings;

10.6.2.3 Visas (for the shortest available period);

10.6.2.4 Inoculations;

10.6.2.5 Specialised tours and entries to events related to the travelling;

10.6.2.6 Copying & Printing of relevant documentation;

10.7 CONFERENCE FEES- Domestic and International

10.7.1 Employees of municipalities may attend conferences hosted by professional bodies or non-governmental institutions (external conferences) held within the borders of South Africa provided that expenses related to their attendance do notexceed the bench mark cost as prescribed by National Treasury from time to timethrough a notice.

10.7.2 Employees must make every effort to take advantage of early registration discounts by seeking the required approvals to attend well in advance of the conference as it relates to their area of work. No late registration is acceptable.

10.7.3 International Conferences must be limited to their ultimate minimum or none atall, unless otherwise approved by the Delegated Authority.

11. AMENDMENTS AND CANCELLATIONS TO TRAVEL RESERVATIONS

11.1 In the event that the Traveller makes any amendments to an authorised trip priorto the commencement thereof, the TMC must be informed of the amendments.

11.2 These amendments may include amongst others the following: -

11.2.1 Amendments in period of stay

11.2.2 Additional accommodation

11.2.3 Inclusion of hired or chauffeur drive vehicles

11.2.4 Amendments in dates of air tickets

11.2.5 Amendments in amount

11.3 If the Traveller requests any amendments after the commencement of an official trip, the following will apply: -

11.3.1 If it happens during office hours, the Travel Booker must inform theTMC.

11.3.2 In the event of amendments required after hours, the TMC should becontacted, via After Hours Telephone Service.

11.4 If amendments to a trip have financial implications in excess of 20% of the initial amount authorised for the trip, an addendum explaining the reason for the amendments and cost implications thereof must be prepared by the Traveller for approval by the Delegated Authority.

11.5 As soon as the Traveller becomes aware of the cancellation of the trip or any specific component of the trip, the Traveller should inform the TMC immediately to ensure the cancellation of the reservation/s to avoid cancellation/no-show penalties.

12. AFTER HOUR ARRANGEMENTS

12.1 After-hour requests must be limited to late approvals by the DelegatedAuthority.

12.2 If the Order Number is not available at the time of the after-hour reservation, itmust be forwarded to the TMC on the next working day.

12.3 Contact numbers for after-hour services can be obtained from the TMC.

13. SPONSORED TRIPS- Domestic and International

13.1 If the trip is funded by the sponsor, the Municipality will not be responsible for thetravel costs.

13.2 If a sponsor requests that the Municipality pays the travel costs upfront and the expenses are only claimed from the sponsor after the trip, it is the responsibility ofthe Municipality to make the necessary travel arrangements and the Traveller should:

13.2.1 Obtain proof of this arrangement with relevant contact details in writingfrom the sponsor prior to the trip;

13.2.2 State the conditions in the travel report; and

13.2.3 Provide proof of expenses (i.e. invoices, receipts and/or any other relevant documents) to the sponsor for claiming purposes.

13.3 Trips that are funded upfront by the sponsor, are considered official trips.However, it will not be the responsibility of the Municipality to make the necessary travel arrangements.

13.4 As a result, the Municipality will not incur any expenses to that effect, with the exception of subsistence allowance, travel insurance and other possible non- funded expenses, except in instances where the Municipality will reclaim expenses from the sponsor.

14. HEALTH AND SAFETY RULES FOR TRAVELLERS

14.1 It is the duty of the Traveller to ensure that he/she is aware of and/or comply withany health requirements and recommended precautions relevant to his/her travel.

14.2 The Traveller should consult his/her doctor or Travel Clinic prior to commencingtravel to ensure that the necessary vaccinations are administered.

14.3 A Traveller will only be allowed to enter certain countries if he/she shows

proof ofthe required vaccinations.

14.4 The Traveller must carry the necessary vaccination document with him/her at alltimes.

14.5 It is not advisable for pregnant women to undertake flights during their first and third trimesters. Pregnant women are advised to consult their doctors before a flight.

15. TRAVEL INSURANCE

15.1 Travellers, where the necessary travel and special leave forms have been duly authorised by the delegated authority, will be insured by the Municipality in terms of its current approved policies, practices and standard operating procedures. Non- officials authorised to travel for the Municipality are also included. The Travel Insurance Policy is available on request.

15.2 Insurance cover is only for the period that the traveller is away from home or placeof work on a trip relating to Municipality business. Any other extra days spent by the traveller outside Municipality business will be regarded as private.

15.3 Private vehicles and contents thereof will not be covered under this Policy.

15.4 Hired vehicles are automatically covered for both Super Waiver Damage andTheft by the vehicle rental company.

16. GIFTS AND PROMOTIONAL GOODS

16.1 Where appropriate, the Travellers may offer gifts to their hosts.

16.2 The gifts in question shall be provided by the Municipality, through the appropriate department.

16.3 Suitable promotional and marketing products shall be supplied, on request, by theCommunications department of the Municipality.

16.4 Gifts received by Councillors should be declared to the Speaker and gifts receivedby Officials must be declared to the Municipal Manager.

17. MONITORING, EVALUATION AND REVIEW

17.1 This policy framework is important for the Financial Compliance of the Municipality. It provides an all-inclusive administrative procedure for the management of travel within the Municipality.

17.2 The revised Travel Management Policy shall be implemented once approved by Council.

17.3 Directorates are to ensure that during implementation stages of the policy, thereis consistent monitoring and evaluation of the policy.

17.4 Changes in legislation must be taken into account for future amendments to this policy.

17.5 Any amendments to this policy must be re-submitted to Council for review andapproval.

18. TRANSPORT ALLOWANCE

18.1 Councillors

A councillor may, in line with applicable legislation, structure his or her total remuneration package to provide for motor vehicle allowance.

If a councillor structures his or her total remuneration package to provide for motor vehicle allowance, the councillor must submit proof of ownership of a private motor vehicle to the municipality and have the vehicle available for official duties.

18.2 Municipal Manager and Senior Managers

The Municipal Manager and Senior Managers shall be required to utilize their own motor vehicle when they is required to travel for purposes relating to their employment and may therefore structure their total cost of employment to provide for a car allowance for tax purposes.

18.3 Other qualifying employees: Fixed Travelling Allowance Scheme (Perk scheme)

All applications for a Transport Allowance shall require the approval of the Municipal Manager. The monthly transport allowance of other qualifying employees will be determined according to their task levels:

T LEVEL	New Transport Allowance (2023/2024)	Current Transport Allowance (2022/2023)
T 14	R 11 008	R 10 719
T 15	R 12 231	R 11 910
T 16	R 13 454	R 13 101
T 17	R 14 677	R 14 292
T 18	R 14 677	R 14 292

The monthly allowance will increase with 50% of the annual salary increase as agreed upon by the Bargaining Council from 1 July 2024.

18.4 Essential User Transport Allowance

The allowance is determined as per the transport allowance scheme for essential users, as indicated in the government gazette No 16407 dated 12 May 1995.

19 Travelling expenses

19.1 Travelling expenses shall only be paid to a representative or in the case of an employee where he/she uses private transport to undertake a trip on behalf of the Municipality.

19.2 Every trip by an employee must have the prior authorization of the employee's senior manager.

Travelling expense reimbursements for Councillors, the Municipal Manager and other senior managers shall be dealt with as follows:

Destinations outside of the Municipality's area of jurisdiction:

19.3 Councillors, the Municipal Manager and other senior managers (section 56 appointments) shall be reimbursed for the actual kilometers travelled in accordance with the tariffs of the Department of Transport.

19.4 Reimbursement of travelling expenses to destinations outside of the Municipality's jurisdictional area, shall be payable to Employees who participate in the Essential User Transportation Scheme as per kilometres measured from the employee's location or place of residence, whichever is the shortest. The tariff per kilometre will is according to the running cost of the scheme

19.5 Reimbursement of travelling expenses to destinations outside of the Municipality's jurisdictional area, shall be payable to employees who participate in the **FixedTravelling Allowance Scheme (Perk scheme)** as per kilometres measured from theemployee's location or place of residence, whichever is the shortest. The tariff per kilometre is R 2.40.

The running cost will increase with 50% of the annual salary increase as agreed upon by the Bargaining Council from 1 July 2024.

19.6 Employees who are not part of any Transportation Scheme shall be reimbursed for actual kilometres travelled from their place of residence or from his/her location during office hours in accordance with Section 8(1)(b) of the Income Tax Act and in conjunction with the prescribed tariffs per kilometre for employees not travelling more than 8 000 kilometres per annum.

Destinations within the Municipality's area of jurisdiction:

19.7 The Municipal Manager and other senior managers (section 56 appointments) shall receive reimbursement for actual kilometres travelled within the Municipality's area of jurisdiction, in terms of section 39 of the Local Government: Regulations on Appointment and Conditions of Employment of Senior Managers, in accordance with the tariffs of the Department of Transport.

Reimbursement for applicants who attend interviews.

Accommodation expenses

19.8 The actual cost of the accommodation, including the cost of meals, as arranged by the Municipality.

Travelling expenses

19.9 In the consideration of expenditure the most practical and economical mode of transport must be used, the tariff per actual kilometers travelled will apply, as outlined in paragraph 19.5. Where a hired vehicle is used to transport the applicant from the airport, the actual cost of a hired vehicle with the engine capacity of 1300cc to 1500cc shall be paid.

19.10 Where the applicant has to make use of air travel to attend an interview, the actual shall be paid. Prior approval of the Municipal manager is required.

19.11 Travelling expenses shall be paid only for applicants who reside within the boundaries of the Republic of South Africa.

20 Claims

For a claim to be processed for payment, the following documentary proof must be handed in to the Directorate: Finance:

20.1 In the case of an employee, the representative's attendance must be authorised by the Municipal Manager or his nominee in terms of the delegation of authority.

20.2 In the case of a senior manager, his/her attendance must be authorised by the Municipal Manager.

20.3 In the case of Councillors or the Municipal Manager, their attendance must be authorised by the Executive Mayor, in consultation with the Municipal Manager.

20.4 In the case of the Executive Mayor, his/her attendance must be authorised by the Municipal Manager.

20.5 A properly completed official claim form must be handed in, having been signed by an official who is duly authorised to approve expenses.

20.6 Supporting documentation in the form of invoices for overnight allowances in terms of miscellaneous expenses and communication expenses. (The latter being applicable only to overseas trips).

20.7 All claims to be processed must be handed in to the Directorate: Finance not later than 10 working days after the journey has been undertaken or a longer period approved by the Director Finance.

21 COMMENCEMENT AND REVIEW

21.1 This policy is effective from the date on which it is adopted by Council. If any legislation is enacted or amended that conflicts with any part of this Policy, such legislation will take precedence and will be implemented by the Municipality without amending this Policy. Amendment of the Policy would be done as expeditiously aspossible.

21.2 The Municipality Manager must, annually, review the implementation of this Policy and if she/he considers it necessary, submit proposals for the amendment of the Policy to the Council for approval.
